A

ACCOUNTS BUREAU. *See* Treasury Department. Page

ADVISORY COMMITTEES. *See* Committees, boards, etc.

AERONAUTICS, NATIONAL ADVISORY COMMITTEE FOR. *See* National Advisory Committee for Aeronautics.

AGRICULTURE DEPARTMENT:

See Animal Industry Bureau.
Commodity Credit Corporation.
Commodity Exchange Authority.
Dairy Industry Bureau.
Entomology and Plant Quarantine Bureau.
Farm Credit Administration.
Farmers Home Administration.
Federal Crop Insurance Corporation.
Forest Service.
Rural Electrification Administration.
Soil Conservation Service.

Agricultural adjustment:
Committees, county and community, of Production and Marketing Administration:
County committee chairmen, authority as contracting officers for Commodity Credit Corporation with respect to certain matters. *See main heading* Commodity Credit Corporation.
Regulations respecting selection and functions:
Committeemen, county and community, and alternates; term of office 5058
Restrictions on voting 5057
Who may vote for committeemen and delegates 5057, 5689

Conservation programs:
National program. *See* Conservation programs.
Special programs for Territories and possessions. *See* Puerto Rico; *and* Virgin Islands.

Marketing quotas, for various agricultural commodities. *See* Peanuts; Tobacco; *and* Wheat.

Agricultural Economics, Bureau of; authority of. *See* Authority, delegations of.

Alaska; domestic animals, diseases of. *See* Animal diseases.

Almonds grown in California, marketing of; changes in salable and surplus percentages for 1951–52 crop year 4523

Animal diseases, certain, in domestic animals in various States and Territories:
Brucellosis; notice regarding existence in each State of United States and in Territories of Puerto Rico, Alaska, and Hawaii 5260
Paratuberculosis; notice regarding existence in Territory of Puerto Rico and in each State of United States with the exception of Arizona, Maine, New Hampshire, Rhode Island, Utah, and Wyoming 5260

20000—52——1

AGRICULTURE DEPARTMENT—Continued Page

Apple sauce; set aside requirements for canned apple sauce 2932

Apples:
Set aside requirements for canned apples 2932
Standards, for frozen apples (revision) 4106

Apricots; set aside requirements for canned apricots 2932

Asparagus:
Set aside requirements for canned asparagus 2930
Standards, for frozen asparagus 3443

Authority, delegations of:
From Office of Price Stabilization, to Bureau of Agricultural Economics; authority to receive certain forms, and compile statistical data for OPS 4267
From Production and Marketing Administration, to Department officials:
Administrator, to Director, Tobacco Branch; authority with respect to marketing agreements and marketing orders governing marketing of tobacco 5170, 5353
Poultry Branch, Director; authority with respect to grading and inspection of poultry and domestic rabbits, and edible products thereof, redelegation of:
Chief, Inspection and Grading Division; approval of plants and labels involving grading and inspection 5737
National Supervisors, Poultry Inspection Section, Inspection and Grading Division; approval of plants and labels involving inspection 5737
From Secretary of Agriculture, to Chief of Soil Conservation Service; authority to determine and advise Director, Land Management Bureau, with respect to development and utilization of minerals, including oil and gas 3180

Beans:
See also Mixed vegetables.
Set aside requirements:
Canned green and wax beans 2930
Canned lima beans 2930
Standards, for frozen lima beans 3783

Beet greens. *See* Greens.

Berries. *See* Blackberries; Blueberries; *and* Raspberries.

Blackberries; set aside requirements for canned blackberries 2932

Blueberries; set aside requirements for canned blueberries 2932

Bonding, and net assets requirements under United States Warehouse Act, and under Commodity Credit Corporation authorizations; notice regarding unit prices for listed commodities 5738

Butter, standards; notice of postponement of promulgation of proposed rule making 3746

Carrots:
See also Mixed vegetables.
Set aside requirements, for canned carrots 2930

AGRICULTURE DEPARTMENT—Continued Page

Catsup, tomato. *See* Tomatoes and products.
Cherries:
Set aside requirements:
Canned red sour (tart) cherries 2932
Canned sweet cherries 2932
Standards, for canned sweet cherries (proposed revision) 3796, 5469
Citrus fruits (grapefruit, lemons, limes, and tangerines):
Export program SMX 23a (fiscal year 1952), for fresh and processed grapefruit:
Eligibility for payment; minimum size of lot 2810
Rate of payment per unit, for grapefruit sections or citrus salad 2810
Marketing of citrus fruits grown in various States:
Arizona:
Grapefruit; limitation of shipments 3479, 4736
Lemons; limitation of shipments 2960, 3228, 3478, 3703, 4108, 4287, 4288, 4524, 4736, 4920, 5184, 5185, 5339, 5387, 5498, 5608, 5808, 5809.
California:
Grapefruit (Imperial and Riverside Counties); limitation of shipments 3479, 4736
Lemons; limitation of shipments 2960, 3228, 3478, 3703, 4108, 4287, 4288, 4524, 4736, 4920, 5184, 5185, 5339, 5387, 5498, 5608, 5808, 5809.
Florida:
Grapefruit; limitation of shipments 3226, 3702, 4523, 4735, 5184, 5607
Oranges; limitation of shipments 3227, 4286, 4524, 4733, 5183, 5607
Tangerines; limitation of shipments 3228
Standards:
Limes, Persian (Tahiti); proposed rule making 5467
Orange juice, canned concentrated; proposed rule making 3064
Civil Service Rules; certain positions excepted from competitive service (Schedule A) 5601
Collards. *See* Greens.
Committees:
Agricultural adjustment committees. *See* Agricultural adjustment.
Representation on:
Production Policy Committee, Office of Defense Mobilization 4561
Defense Procurement Policy Committee, designation as subcommittee 4561
Stabilization Policy Committee, Office of Defense Mobilization 4926
Conservation programs:
National Agricultural Conservation Program, 1952; conservation practices and maximum rates of assistance 3530
Practices to conserve and obtain efficient use of agricultural water:
Practice D–4; reorganizing farm irrigation systems to conserve water and prevent erosion, maximum assistance 3531
Practice D–9; installations of facilities for sprinkler irrigation for permanent pasture on rolling land 3531
Practices to develop cropping systems that protect soil, and restore, improve, and maintain soil productivity; practice B–8, controlling perennial weeds as a necessary step in soil or water conservation 2885
Practices to establish, restore, and maintain farm woodlands; practice F–2, improving a stand of forest trees, assistance for release of forest tree seedlings 2885
Special conservation programs for Territories and possessions. *See* Puerto Rico; *and* Virgin Islands.
Corn, sweet:
See also Mixed vegetables.
Set aside requirements, for canned sweet corn 2930
Standards; proposed revision:
Canned corn:
Cream style 4767
Whole kernel (or whole grain) 4769
Frozen whole kernel (or whole grain) 4770
Cotton; standards for American upland cotton, proposed rule making 5195
Cream, marketing of. *See* Milk, cream, and by-products.

AGRICULTURE DEPARTMENT—Continued Page

Currants; standards for currants for processing 3443
Dairy plants operating under Department of Agricultural supervision and inspection, instructions governing; notice of withdrawal of proposed rule making 3746
Dairy products (butter, cheese, milk, etc.):
Marketing of milk, cream, and byproducts. *See* Milk, cream, and byproducts.
Standards, for butter. *See* Butter.
Dandelion greens. *See* Greens.
Disaster areas; designation of counties in various States as disaster areas having need for agricultural credit:
Alabama 3561
Arkansas 3561
Colorado 3561
Georgia 3460
Iowa 3561
Kentucky 3561
Minnesota 4658
Mississippi 3561
Missouri 3460
Montana 3561, 4659
Nebraska 3460, 4659
Nevada 4659
New Jersey 4659
North Dakota 4659
South Dakota 3461, 4659
Tennessee 3461, 3562, 4659
Texas 3461
Utah 3562
Washington 4659
Diseases, animal. *See* Animal diseases.
Eggs and egg products:
Sampling, grading, grade labeling, etc.; instructions governing plants operating as official plants processing and packaging egg products 2805
Standards, grades, and weight classes, for shell eggs:
Consumer grades and weight classes 3606, 5303
Procurement grades and weight classes 3606, 5303
Wholesale grades and weight classes 3606, 5303
Endive. *See* Greens.
Export and diversion programs, for various agricultural commodities. *See* Citrus fruits; Honey; Prunes; Raisins; *and* Wheat and wheat-flour.
Farm Land Restoration Program, 1953 5306
Fibers, plant. *See* Plant fibers.
Figs; set aside requirements for canned Kadota figs 2932
Flour, wheat. *See* Wheat.
Food:
See also specific commodities.
Disposal of food commodities acquired through price support operations. *See main heading* Commodity Credit Corporation.
Fruit cocktail; set aside requirements for canned fruit cocktail 2932
Fruits and vegetables:
Export and diversion programs, for fresh and processed fruits. *See* Citrus fruits; Prunes; *and* Raisins.
Grading, inspection, and standards; standards for various fresh and processed fruits, berries, and vegetables. *See* Apples; Asparagus; Beans; Cherries; Citrus fruits; Corn; Currants; Grapes; Greens; Mixed vegetables; Peaches; Pears; Plums; Prunes; Raisins; *and* Raspberries.
Marketing of various fruits and vegetables. *See* Citrus fruits; Grapes; Peaches; Pears; Plums; Potatoes; Prunes; *and* Watermelons.
Set aside requirements, processed fruits and vegetables:
Canned fruits 2932
Canned vegetables 2930
Grains; support prices for various grains. *See main heading* Commodity Credit Corporation.
Grapefruit. *See* Citrus fruits.
Grapes:
Marketing of Tokay grapes grown in California; decision respecting proposed amendments to amended marketing agreement and order 4855, 5042, 5575
Standards, for table grapes (European or Vinifera type) 2883, 4352, 5793
Green and wax beans. *See* Beans.

AGRICULTURE DEPARTMENT—Continued Page

Greens, leafy (other than spinach); standards for frozen greens 4315
Hawaii:
Domestic animals, diseases of. *See* Animal diseases.
Sugarcane; prices, wage rates, etc. *See* Sugar.
Honey:
Diversion program; 1952 marketing season 3401
Export program; 1952 marketing season 3397, 3624, 5385
Hops grown in Oregon, California, Washington and Idaho, and hop products produced therefrom, marketing of; recommended decision and opportunity to file written exceptions with respect to proposed amendments to marketing agreement and order 5153, 5435
Imports, agricultural; prohibitions and restrictions on imports:
Exceptions:
Casein and lactarene, mixtures, or cheese, imported for purposes other than consumption in continental United States, Puerto Rico, Virgin Islands, or any territory or possession 5829
Commodities for import after June 30, 1952, provision respecting 4490
Petitions for relief from hardship 5829
Records and reports; filing of certain report forms 4490
International Wheat Agreement, export programs for wheat and wheat-flour to fulfill obligations of United States under. *See* Wheat.
Kale. *See* Greens.
Kenaf fiber. *See* Plant fibers.
Lands within national forests. *See* National forests.
Lemons. *See* Citrus fruits.
Lima beans. *See* Beans.
Limes. *See* Citrus fruits.
Livestock:
Diseases of domestic animals:
Existence in various States and Territories. *See* Animal diseases, *above.*
Regulations respecting. *See main heading* Animal Industry Bureau.
Inspection:
At various stockyards. *See* Packers and Stockyards Division.
Regulations respecting. *See main heading* Animal Industry Bureau.
Manpower; implementation of defense manpower policies respecting:
Agricultural manpower 5766
Training program in connection with defense manpower shortages in various skills and occupations, responsibilities respecting 2837
Marketing orders, for various agricultural commodities. *See* Almonds; Citrus fruits; Grapes; Hops; Prunes; Tobacco; Milk; Peaches; Pears; Pecans; Plums; Potatoes; Walnuts; *and* Watermelons.
Marketing quotas, for various agricultural commodities. *See* Peanuts; Tobacco; *and* Wheat.
Meat and meat products; inspection and certification regulations of Animal Industry Bureau. *See main heading* Animal Industry Bureau.
Milk, cream, and byproducts:
Marketing in various marketing and sales areas; amendments to marketing agreements and orders, etc.:
Arkansas; Fort Smith 4209
Illinois:
Chicago 4579, 5526, 5807
Quad Cities 4843
Rockford-Freeport 5471, 5831
Indiana:
Ft. Wayne 3166, 3859, 4258, 4911
South Bend-La Porte 4539
Iowa:
Cedar Rapids-Iowa City 4843
Dubuque 3414, 4854, 5540
Quad Cities 4843
Kansas; Topeka 3166, 3683, 3869
Kentucky:
Louisville 3802, 4497, 4843
Tri-State marketing area 2851, 2961
Louisiana; New Orleans 4171, 5243, 5752

AGRICULTURE DEPARTMENT—Continued Page

Milk, cream, and byproducts—Continued
Marketing in various marketing and sales areas; amendments to marketing agreements and orders, etc.—Continued
Massachusetts:
Boston (Greater) 3496, 3888

North Texas marketing area 3610, 3817, 4287
San Antonio 3013
Washington; Puget Sound marketing area 3385, 3845
West Virginia; Tri-State marketing area 2851, 2961
Wisconsin; Milwaukee 4353, 5521, 5796
Standards for butter. *See* Butter, *above.*
Minerals:
Authority of Chief, Soil Conservation Service to determine and advise Director, Land Management Bureau, with respect to development and utilization of minerals, including oil and gas 3180
Reserved minerals, disposition of; designation of counties in various States as areas in which mineral interests may be sold, revised area designations:
Fair market value areas; list, addition of various counties to:
Alabama:
Bullock County 5072
Pike County 3689
Arkansas:
Cross County 4958
St. Francis 4958
Georgia:
Bullock County 4825
Candler County 4825
Carroll County 4825
Chattooga County 4825
Dodge County 4825
Gwinnett County 4825
Irwin County 4825
Lowndes County 4825
Miller County 4825
Mitchell County 4825
Seminole County 4825
Taliaferro County 4825
Troup County 5437
Michigan:
Cheboygan County 3689
Mackinac County 2871
Minnesota; Wabasha County 2871
Mississippi; Webster County 4465
North Carolina:
Pender County 3689
Rutherford County 4245
Wilkes County 3689
Utah; Cache County 5617
Wisconsin; Richland County 2871
One dollar areas; list, additions and deletions of various counties:
Alabama:
Bullock County 5072
Pike County 3689
Arkansas:
Cross County 3689, 4958
St. Francis 4958

AGRICULTURE DEPARTMENT—Continued Page

Wilkes County 3689
Utah; Cache County 5617
Wisconsin; Richland County 2871
Mixed vegetables (beans, carrots, sweet corn, peas); standards for frozen mixed vegetables, proposed rule making 4576
Mustard greens. *See* Greens.
National agricultural conservation program. *See* Conservation programs.
National forests; Nantahala National Forest, inclusion of certain lands transferred from Tennessee Valley Authority (Executive Order 10357) 5079
National School Lunch Act; apportionment of food assistance funds pursuant to. *See* School lunch program.
Nuts and nut products:
Marketing of nuts grown in various States. *See* Almonds; Pecans; *and* Walnuts.
Marketing quotas for peanuts. *See* Peanuts.
Orange juice. *See* Citrus fruits.
Oranges. *See* Citrus fruits.
Packers and Stockyards Division; stockyards, commission merchants, etc., notices respecting posting, rates and charges, etc.:
Posted stockyards, etc.; designation or removal of:
Buffalo Livestock Commission Co 4714
Columbia Livestock Market 3214
Hughes County Sale Barn 4714
Hugo Sales Commission Co 5483
LeGrande Livestock Commission Co 3215
Spencer Live Stock Exchange 5701
Rates and charges; petitions for modification, etc.:
New Orleans Stock Yards, market agencies at 4854
Omaha Union Stock Yards, Omaha, Nebr., market agencies at 3886
Union Stock Yards, Denver, Colo 4352, 4541
Peaches:
Marketing of peaches grown in various States:
California; Elberta peaches:
Budget of expenses and fixing rate of assessment for 1952–53 season 4989, 5718
Shipments; regulation by grades and sizes 5413
Georgia:
Budget of expenses and fixing rate of assessment for 1952–53 fiscal period 4989, 5718
Shipments; regulation by grades and sizes 5185
Set aside requirements, for canned peaches 2932
Standards, for fresh peaches 2891, 4473
Peanuts:
Distribution of proceeds received by Commodity Credit Corporation from sale of Valencia type excess peanuts of 1951 crop for cleaning and shelling 4644

AGRICULTURE DEPARTMENT—Continued Page

Peanuts—Continued
Marketing quotas:
1951 crop, regulations; marketing, penalties, records and reports (extent to which marketings from a farm are subject to penalty) 3226
1952 crop; regulations:
Marketing, penalties, records and reports 3237, 4317, 5691
Marketing quotas:
Acreage allotments and normal yields for old farms:
Allotments and permitted acreages for farms divided or combined:
Divisions; land operated as single farm for 1951 is divided and operated for 1952 as two or more farms, etc., deletion 3144
Permitted acreage, deletion from title 3144
Reallocation of allotment released from farms removed from agricultural production; combinations 3144
Application for review 3143
Approval of determination 3143
Definitions:
Farm peanut acreage 3143
Farm permitted peanut acreage; deletion 3143
Excess peanuts produced in 1952, marketing of; provision respecting penalty 3143
Rule of fractions; farm allotments shall be rounded to nearest one-tenth acreage 3143
Pears:
Marketing of Bartlett pears grown in California:
Budget of expenses and fixing rate of assessment for 1952–53 season 4989, 5718
Shipments; regulation by grades and sizes 5806
Set aside requirements, for canned Bartlett pears 2932
Standards, for Winter pears (Flemish Beauty); proposed rule making 4352, 5633
Peas:
See also Mixed vegetables.
Set aside requirements, for canned green peas 2930
Pecans grown in Georgia, Alabama, Florida, Mississippi, and South Carolina, marketing of; finding and determination respecting continuation in effect of marketing agreement and order 4541
Pineapple; set aside requirements for canned pineapple 2932
Plant fibers (kenaf and sansevieria); functions respecting under Defense Production Act (Executive Order 10359) 5269
Plums:
Marketing of plums grown in California:
Budget of expenses and fixing rate of assessment for 1952–53 season 4989, 5718
Shipments:
Regulations by grades and sizes:
Beauty plums 4372
Becky Smith plums 5805
Burbank plums 5637
Climax plums 4971
Duarte plums 5806
Eldorado plums 5636
Formosa plums 4970
Gaviota plums 5638
Miscellaneous varieties of plums 5638
Santa Rosa plums 4969
Tragedy plums 5635
Wickson plums 5636
Termination of Plum orders 1 through 4 5807
Set aside requirements, for canned purple plums 2932
Standards, for canned plums (including purple plums) 3799
Potatoes, Irish, grown in various States and production areas, marketing of:
California (Modoc and Siskiyou Counties); marketing agreement and order, correction 5718
Idaho (certain designated counties); limitation of shipments 5639, 5809
Maine; order discharging trustees for liquidation action 2809
New Jersey; order terminating market agreement and order and providing for liquidation of assets 3187

AGRICULTURE DEPARTMENT—Continued Page

Potatoes, Irish, grown in various States and production areas, marketing of—Continued
Oregon:
Crook, Deschutes, Jefferson, Klamath, and Lake Counties; marketing agreement and order, correction 5718
Malheur County; limitation of shipments 5639, 5809
Washington:
Limitation of shipments 5455
Marketing agreement and order; revision 2912
Poultry and edible products thereof:
Authority of Director, Poultry Branch; redelegation to Chief, Inspection and Grading Division, and National Supervisor, Poultry Inspection Section 5737
Grading and inspection, for classes, standards, etc.:
Deletion of term "Specifications" as used in title of part and wherever used with respect to classes, standards and grades of poultry and edible products thereof 3627
Form of official identification:
Form of grade mark 3632
Identification of certain dressed poultry 3632
Grading and inspection, rules governing:
General provisions:
Applying for grading service or inspection service 3629
Final survey and plant approval 3629
Suspension of plant approval 3629
Basis for service:
Certification of dressed poultry produced under sanitary requirements 3629
Dressed poultry to be eligible for grading or inspection service shall have been processed in official plant 3629
Examination of ready-to-cook poultry which was not processed in official plants 3629
Inspection in official plants; extent required 3629
Definitions 3627
Grading and inspections services available for various classes of poultry (live, dressed, ready-to-cook) 3629
Identifying and marking products:
Approval of official identification 3629
Products that may be individually marked; information required on grade mark 3630
Interfering with grader or inspector 3629
Supervision of marking and packaging:
Packaging 3630
Removal of official identification 3620
Grading; dressed poultry and ready-to-cook poultry 3630
Inspection; condemnation and treatment of carcasses 3630
Sanitary requirements; minimum standards for sanitation, facilities, and operating procedures, in official plants:
Buildings and plant facilities 3630
Maintenance of sanitary conditions and precaution against contamination of products:
Equipment and utensils used for preparing or handling any product:
Chilling vats and tanks 3630
Thawing 3630
Operations and procedures involving preparation, storing, etc., products:
Containers to be used for packaging dressed poultry and ready-to-cook poultry 3630
Finishing and cleaning dressed poultry 3630
Temperatures and procedures necessary for cooling and freezing poultry 3631
Ice chilling 3631
Standards, classes, and grades for poultry:
Classes; live poultry, dressed poultry, and ready-to-cook poultry:
Duckling, roaster 3631
Turkeys 3631
Grades:
Dressed and ready-to-cook poultry:
General provisions 3632
Standards for quality 3632

AGRICULTURE DEPARTMENT—Continued Page

Poultry and edible products thereof—Continued
Grading and inspection, for classes, standards, etc.—Continued
Standards, classes, and grades for poultry—Con.
Grades—Continued
Live poultry:
General provisions 3631
Grades 3631
Standards:
Dressed poultry and ready-to-cook poultry:
General provisions 3641
Standards for quality 3631
Live poultry, standards for quality 3631
Prices, support, for various agricultural commodities. *See main heading* Commodity Credit Corporation.
Prunes:
Export program SMX 95b, for dried prunes:
Application for participation 5357
Firm sales contracts 5359
Payment:
Filing claim for 5359
Rates of 5359
Period for exportation 5359
Marketing of dried prunes produced in California; disposition of surplus tonnage (sales for export, countries included in estimate of salable percentage) 5209
Puerto Rico:
Domestic animals, diseases of. *See* Animal diseases.
Special Agricultural Conservation Programs:
1950 program; conservation practice 5, applying to any land refuse from sugar mill grinding operations known as filter cake, maximum assistance 2809
1951 program; conservation practice 5, applying to farm land refuse from sugar mill grinding operations known as filter cake, maximum assistance 2809
1952 program:
Conservation practice 4; applying to coffee trees, fertilizer containing nitrogen and phosphate, maximum assistance 2885
Control of funds; allocations, amendment 2885
Pumpkin; set aside requirements for canned pumpkin 2930
Rabbits, domestic, and edible products thereof; authority of Director, Poultry Branch, redelegation to Chief, Inspection and Grading Division, and National Supervisor, Poultry Inspection Section 5737
Raisins:
Export program SMX 95b, for dried raisins:
Application for participation 5357
Firm sales contracts 5359
Payment:
Filing claim for 5359
Rates of 5359
Period for exportation 5359
Standards, for processed raisins; revision 3624, 4477
Raspberries; standards for raspberries for processing 3441
Rice; standards for milled rice 2999, 4842
Sansevieria fiber. *See* Plant fibers.
School lunch program; apportionment of food assistance funds, for various States and District of Columbia, pursuant to National School Lunch Act, fiscal year 1952 4644
Set aside requirements, for processed fruits and vegetables. *See* Apple sauce; Apples; Apricots; Asparagus; Beans; Blackberries; Blueberries; Carrots; Cherries; Corn; Figs; Fruit cocktail; Peaches; Pears; Peas; Pineapple; Plums; Pumpkin; Sweetpotatoes; *and* Tomatoes and products.

Airport District Offices serving Delaware, Maryland, New Jersey, consolidation of, with offices serving Pennsylvania and District Office No. 6 serving Virginia 5777
Airport District Offices serving Kansas and Missouri, consolidation of 5777
Procedures; certification. *See* Certification procedures.
Registration certificates, aircraft; issuance of registration certificates 3746, 5315

CIVIL AERONAUTICS BOARD:
Accidents and missing aircraft:
Investigation of accidents occurring at or near certain cities:
Hugoton, Kans 3426
Jamaica, Long Island, N. Y 3691
La Habra, Calif 4267
San Juan, Puerto Rico 3691
Topeka, Kans 5173
Report of aircraft accidents; proposed rule making 4772
Accounts, inspection of. *See* Economic regulations.
Air agencies, certificates and ratings. *See* Certificates and ratings.
Air carriers:
Accidents and missing aircraft, investigation of. *See* Accidents and missing aircraft.
Balloons. *See* Balloons.
Certificated air carriers; reporting requirements. *See* Economic regulations.
Civil aircraft; authority respecting. *See* Authority, delegation of.
Irregular. *See* Irregular air carrier and off-route rules.
Nontransport category airplanes. *See* Commercial operator certification and operation rules.
Scheduled. *See* Scheduled air carriers.
Air Coordinating Committee, representation on (Executive Order 10360) 5337
Air taxi operators; classification and exemption. *See* Economic regulations.
Air traffic rules:
Control-tower operator certificates. *See* Certificates and ratings.
Conversion of speed and distance provisions to knots and nautical miles, proposed rule making 3357, 4583
Instrument flight rules (IFR); operation on civil airways, proposed rule making 3747
Long distance domestic flights at certain altitudes; extension of authority, special civil air regulation, proposed 4860
Airmen, certificates and ratings. *See* Certificates and ratings.
Airworthiness; requirements for various types of aircraft and equipment:
Aircraft radio equipment; approval of crystals (CAA policies) 4103
Airplane, normal, utility and acrobatic categories; power-plant installation, reciprocating engines, fuel tank sump 4742
Rotorcraft; powerplant installation:
Induction and exhaust systems; de-icing and anti-icing provisions 4743
Rotor drive system; mechanism 4743
Alaskan air carriers; classification and exemption. *See* Economic regulations.
Authority, delegation of:
From Secretary of Commerce, with respect to distribution and redistribution of civil aircraft among civil air carriers 2899
Military services; authority to permit air carriers under contract to military services to deviate from certain provisions of regulations, special regulation (SR–367), proposed extension of special authorization 5699

CIVIL AERONAUTICS BOARD—Continued Page

Aviation gasoline, limitation on distribution and export of, to conserve supply for military and other essential uses. *See main heading* Petroleum Administration for Defense.
Balloons, moored, operation of; conversion of speed and distance provisions to knots and nautical miles, proposed rule making 3357, 4583
Cargo carriers, noncertificated; classification and exemption. *See* Economic regulations.
Certificates and ratings:
Air agencies:
Mechanic school certificates; revision 2985
Parachute loft certificates and ratings; speed and distance provisions, conversion of, to knots and nautical miles, proposed rule making 3357, 4583
Repair station certificates; revision 2981
CAA rules, policies and interpretations 5002
Airmen:
Air-traffic control-tower operator certificates; speed and distance provisions, conversion of, to knots and nautical miles, proposed rule making 3357, 4583
Flight navigator certificates, limited, issuance of for military contract operations; special civil air regulation, proposed 4897
Mechanic and repairman certificates; revision 2977
Pilot certificates; speed and distance provisions, conversion of, to knots and nautical miles, proposed rule making 3357, 4583
Transport pilot rating, airline:
Competency certificate:
Duration of; ratings showing horsepower ratings to expire May 1, 1953, proposed 4955
Reexamination:
5 hours flight time requirements; "solo", deleted 3480
Section reference amended 3480, 3785
Minimum requirements; aeronautical experience 3480
Commercial operator certification. *See* Commercial operator certification and operation rules.
Certificates of public convenience and necessity. *See* Economic regulations.
Charges, fares and rates; economic proceedings. *See* Procedural regulations.
Charter trips and special services. *See* Economic regulations; *and* Procedural regulations.
Civil aircraft; authority respecting distribution of. *See* Authority, delegation of.
Classification and exemption for various carriers; economic regulations. *See* Economic regulations.
Commercial operator certification and operation rules:
Emergency evacuation provisions for certain transport airplanes, special regulation, proposed 4503
Military services; delegation of authority to Administrator to permit air carriers under contract to military services to deviate from certain provisions of regulations, special regulation (SR–367), proposed extension of special authorization 5699
Nontransport category airplanes (type certificated prior to July 1, 1942), use of, for carriage of persons in scheduled or irregular service at maximum landing weight not exceeding its maximum certificated take-off weight for passenger service, under certain conditions; proposed amendment to special regulation 2896
Economic regulations:
See also Procedural regulations.
Accounts and property, inspection of 5609
Administrative Procedure Act, application of section 9 (b) to exemptions; revision of regulations relating to continuance of exemption authority, proposed 3111
Application for exemption of carriers; supersedure 3020
Certificates of public convenience and necessity; proposed rule making:
Foreign air transportation:
See also Insurance requirements.
Business name of air carrier 4505
Interstate and overseas air transportation; business name of air carrier 4505

CIVIL AERONAUTICS BOARD—Continued Page

Economic regulations—Continued
Charter trips and special services by certificated air carriers; scope of authorization, footnote, proposed rule making 4505
Classification and exemption:
Air freight forwarders; proposed rule making:
See also International air freight forwarders.
Business name of air carrier 4506
Nonapplicability; redesignation 4506
Payment of transportation charges; redesignation 4506
Separability; redesignation 4506
Air taxi operators:
Conditions on operating authority; business name 4506
Enforcement; redesignation 4506
Requests for statement of authority; redesignation 4506
Alaskan air carriers:
Alaskan pilot-owner, conditions and requirements:
Cancellation of inactive letters of registration 4506, 5759
Redesignations 5759
Business name of air carrier; proposed rule making 4506
Large irregular carriers; conditions on operating authority, business name, proposed rule making 4505
Noncertificated cargo carriers; business name of air carrier, proposed rule making 4506
Insurance requirements, for air carriers and foreign air carriers, proposed rule making 4220, 5071
International air freight forwarders; limitations and conditions, business name of air carrier, proposed rule making 4506
Property. *See* Accounts and property.
Reports, filing of, by certificated air carriers, and uniform accounting requirements; changes in reporting requirements and modifications of Forms 41 and 41 (a), proposed 5351
Enforcement. *See* Organization.
Equipment; airworthiness requirements. *See* Airworthiness.
Exemption; applications, proceedings, etc. *See* Economic regulations; *and* Procedural regulations.
Fares, rates and charges; economic proceedings. *See* Procedural regulations.
Field organization. *See* Organization.
Foreign air carriers, certificates and insurance requirements for. *See* Economic regulations.
Freight forwarders; economic proceedings. *See* Economic regulations.
Functions. *See* Organization.
Gasoline. *See* Aviation gasoline.
Hearings, investigations, etc.:
Accidents, aircraft, and missing aircraft; investigation and report of. *See* Accidents and missing aircraft.
Companies and cases, list of. *See list at end of this agency.*
Examiners. *See* Organization.
Insurance requirements for air carriers. *See* Economic regulations.
Irregular air carrier and off-route rules:
Emergency evacuation provisions for certain transport airplanes, special regulation, proposed 4503
Fire extinguisher systems on airplanes used in air carrier passenger service; proposed rule making 4956
Flight crew requirements:
See also Pilot training and check program.
Airman requirements 3579
Proficiency of crew members serving on large aircraft 3579
Recent flight experience requirements for flight crew members; pilots 3579
Flight operation rules:
Flight operations manual for large aircraft, preflight certification (CAA rules); proposed rule making 5831
Pilot responsibilities:
Preflight responsibilities (CAA interpretations) 5811

Rotorcraft airworthiness. *See* Airworthiness.

Rules of practice. *See* Procedural regulations.

Scheduled air carriers:
- Certification, operating:
  - Air carrier operating certificate, issuance of, for local areas; authorizing use of aircraft under 12,500 pounds take-off weight, special regulation (SR–366), proposed extension of special authorization — 5616
  - Emergency evacuation provisions for certain transport airplanes, special regulation, proposed — 4503
  - Long distance domestic flights at certain altitudes; extension of authority, special civil air regulation (SR–382) — 4860, 5810
  - Military services; delegation of authority to Administrator to permit air carriers under contract to military services to deviate from certain provisions of regulations, special regulation (SR–367), proposed extension of special authorization — 5699
  - Nontransport category airplanes (type certificated prior to July 1, 1942), use of, for carriage of persons in scheduled or irregular service at maximum landing weight not exceeding its maximum certificated take-off weight for passenger service, under certain conditions; proposed amendment to special regulation — 2896
  - Passenger minimum requirements, miscellaneous; weather minimums, ceiling and visibility minimums (CAA policies) — 4557
  - Speed and distance provisions; conversion of, to knots and nautical miles, proposed — 3357, 4583
- Interstate air carrier certification and operation rules, operating limitations; proposed rule making:
  - En route limitations; one engine inoperative — 2897
  - Landing distance limitations; airport of intended destination — 2897
  - Operating limitations for aircraft not certificated in transport category — 2897
  - Take-off limitations — 2897
- Operations outside continental limits of United States:
- Airman rules; pilot:
  - Flight time limitations for aircraft having crew of one or two pilots; waiver of requirements for Reeve Aleutian Airways, Inc., extension of special authorization (SR–380) — 3005
  - Flight time limitation for pilots not regularly assigned; extension of special air regulation (SR–381) — 2981
  - Proficiency requirements (CAA rules); proposed rule making — 3560
- Emergency evacuation provisions for certain transport airplanes, special regulation; proposed — 4503
- Fire extinguisher systems on airplanes used in air carrier passenger service; proposed — 4956
- Flight time limitations for pilots:
  - Pilots not regularly assigned to one type of crew; extension of special air regulation (SR–381) — 2981

CIVIL AIR PATROL; radio frequencies for. *See* Federal Communications Commission.

CIVIL DEFENSE ADMINISTRATION. *See* Federal Civil Defense Administration.

CIVIL DEFENSE EMERGENCY; preparation of plans by Federal agencies for (Executive Order 10346) — 3477

CIVIL SERVICE COMMISSION:
- *See Loyalty Review Board.*
- Appointment:
  - Coffelt, Cressie E., appointment of, to a competitive position in Interior Department without compliance with provisions of Civil Service Rules (Executive Order 10353) — 4631
  - Educational requirements. *See* Education (formal).
  - Noncompetitive indefinite appointment of former employees and indefinite employees of other agencies; agency authority and general requirements for — 4285
  - Employee unable to move with office to different locality, appointment within 90 days of separation — 4286
  - Postmasters of fourth class; appointment to be made on basis of investigation and report of post office inspector when compensation is not in excess of $1,700 per annum (Executive Order 10337) — 2957
  - Through competitive system:
    - Delayed filing of applications by veterans and persons serving overseas — 4557
    - Disqualifications of applicants; reasonable doubt as to loyalty to Government of United States — 4969

CIVIL SERVICE COMMISSION—Continued Page

Appointment—Continued
Through competitive system—Continued
Veterans, competition restricted to, for certain positions:
Justice Department, Bureau of Prisons; correctional officer, revocation 5537
Post Office Department; substitute railway postal clerk, revocation 5537
Veterans' Administration; certain contact officers, revocation 5537
To positions excepted from competitive service. *See* Exceptions from competitive service.
Education (formal), requirements for appointment as teacher and substitute (temporary) teacher in Indian schools:
Elementary and principal-teacher 5337
Science 5337
Vocational subjects 5337
Exceptions from competitive service:
Positions excepted from examination (Schedule A):
Agriculture Department. *See* Production and Marketing Administration.
Air Force Department:
Air Matériel Command, Directorate of Procurement and Industrial Planning, special assistants; date extended to June 30, 1953 5209
General; librarian, recreation leader and recreational supervisor 5713
Headquarters:
Civilian Director of Industrial Resources, Deputy Chief of Staff, Matériel; date extended to June 30, 1953 5209
Civilian Director of Logistics Plan, revocation 5209
Research and Development Command:
Civilian Chief, Engineering Operations; date extended to June 30, 1953 5209
Director of Component and Systems Development; date extended to June 30, 1953 5209
Director of Geophysical Research; date extended to June 30, 1953 5209
Director of Physics, Research Group; date extended to June 30, 1953 5209
Director of Research; date extended to June 30, 1953 5209
Technical Director, Electronics; date extended to June 30, 1953 5209
Defense Production Administration; labor advisers, GS–12 through GS–15 5452
Economic Stabilization Agency. *See* Wage Stabilization Board.
Federal Security Agency. *See* Public Health Service.
National Production Authority; labor advisors GS–12 through GS–15 5181, 5452
National Security Training Commission; private secretary or confidential assistant to Chairman 4369
Production and Marketing Administration, all positions on staffs of Milk Market Administrators 5601
Psychological Strategy Board:
Private secretary or confidential assistant to Director 3521
Staff members, ten, grades GS–13 to GS–15 3521
Public Health Service; physical therapy interns, occupational therapy interns, and hospital administration students 5539
State Department:
See also Psychological Strategy Board.
International Development Advisory Board; one private secretary to Chairman 4101
Technical Cooperation Administration; one private secretary to Administrator 4101
Wage Stabilization Board, chairman and members of Health and Welfare Committee 5539
Qualifications of applicants; disqualification for reasonable doubt as to loyalty to Government of United States 4969
Foreign duty of Government employees, compensation for designated posts. *See main heading* State Department.
Higher grade for permanent employees promoted, demoted, reassigned or transferred; restrictions 5539

CIVIL SERVICE COMMISSION—Continued Page

Holidays; observance by Government agencies (Executive Order 10358) 5269
Hospitals, Government:
Exclusion from provisions of Federal Employees Pay Act and Classification Act:
Residents in hospital administration, second year approved postgraduate training 4233
Student hospital administration intern, U. S. Public Health Service 4369
Stipends, maximum:
Federal hospitals, aproved internship, increased to $2,800 per year 4233
Hospital administration residents, second year approved postgraduate training, increased to $2,200 per year 4235
Physical therapy intern (student physical therapist) 4369
Student hospital administration intern, U. S. Public Health Service 4369
Indefinite employees, appointment of. *See* Appointment.
Indian schools, teachers in; educational requirements. *See* Education (formal).
International organizations, public, in which United States Government participates, transfer of personnel to; revision 5152
Appeals to Commission 5453
List of public international organizations designated by President 5452
Reemployment under Executive Order 9721 5453
Status, acquisition of 5452
Loyalty investigations. *See main heading* Loyalty Review Board.
Pay regulations:
Additional pay for Public Health Service officers and employees for duty requiring contact with leprosy patients (Executive Order 10354) 4831
Foreign duty of Government employees, compensation for designated posts. *See main heading* State Department.
Government hospitals; stipends for trainees. *See* Hospitals, Government.
Holidays, identification of (Executive Order 10358) 5269
Postmasters of fourth class; appointment to be made on basis of investigation and report of post office inspector when compensation is not in excess of $1700 per annum (Executive Order 10337) 2957
Promotion, demotion, reasignment, and transfer of permanent employees:
Permanent promotions authorized with certain restrictions 5539
Restrictions on promotion, transfer or appointment to higher grade, and reassignment to different line of work 5539
Tenure after change of position; status of permanent employee not changed by promotion, demotion, or reassignment 5539
Retirement; exemption of John J. Deviny, Public Printer, from compulsory retirement for age (Executive Order 10364) 5493
Teachers, Indian schools; educational requirements. *See* Education (formal).
Training program in connection with defense manpower shortages in various skills and occupations, responsibilities respecting 2837
Transfer of personnel:
See Promotion, demotion, reassignment, and transfer.
To International organizations. *See* International organizations.
Veterans:
Competition for certain positions restricted to. *See* Appointment, through competitive system.
Delayed filing of applications for competitive positions 4[illegible]7

Passenger vessels, subdivision load lines for—Con.
Cancellation of requirements, proposed—Con.
Double bottoms, extent of 5667
Drills and inspections 5668
Equivalents 5666
Log book entries 5668
Manholes 5667
New and converted vessels, plans and inspections of 5666, 5667
Openings above bulkhead deck 5667
Openings in vessel's sides below bulkhead deck 5667
Relaxation from regulations 5667
Watertight bulkheads, openings in 5667
Watertight floors 5667
Revision; proposed 5672
Manning of vessels; proposed 5672
Marine engineering; proposed:
See also Specifications.
Arc welding, gas welding, and brazing; classes I, II, and III 5671
Construction; safety valves, deletion of specifications 5671
Independent internal combustion engine fuel tanks 5671
Installation test, inspections, markings, and official forms 5671
Installations, tests, inspections, repairs, and miscellaneous requirements:
Official forms, report of chief engineer on fusible plugs inserted in boiler; cancellation 5668
Revision and transfer 5672
Tests and inspections requirements:
Cancellation 5667
Request for increase of pressure; revision and transfer 5671
Low pressure heating boilers:
Cast-iron heating boilers; safety and relief valves, cancellation 5671
Steel plate heating boilers; safety and relief valves, cancellation 5671
Main and auxiliary machinery 5671
Piping systems, pumps, refrigeration machinery and fuel tanks:
Detail requirements; installation 5671
Independent internal combustion engine fuel tanks; revision and transfer 5672
Repairs to boilers, unfired pressure vessels, and appurtenances 5671
Revision of subchapter 5671
Merchant Marine Council; notice of public hearing on proposed changes in vessel inspection regulations 5665
Merchant marine officers and seamen:
See also General provisions.
Able seamen; manning of vessels, requirements applicable to, transfer, proposed 5672
Hours of labor on shipboard; manning of vessels, requirements applicable to, transfer, proposed 5672
Language test for seamen; manning of vessels, requirements applicable to, transfer, proposed 5672
Manning of inspected vessels; transfer, proposed 5672
Marine investigation regulations; persons in service of Coast Guard, testimony by 4493
Security check and clearance. *See under* Security.
Suspension and revocation proceedings; testimony by Coast Guard personnel 4493
Motorboats, and certain vessels propelled by machinery other than by steam more than 65 feet in length:
See also Cargo and miscellaneous vessels; Electrical engineering; *and* Passenger vessels.
Cargo and miscellaneous vessels, requirements applicable to; cancellation, proposed 5668
Electrical engineering, provisions respecting; cancellation, proposed 5670
Fire protection equipment requirements; cancellation, proposed 5669
Motor vessels except those of more than 15 gross tons carrying passengers for hire; proposed:
Construction and alteration requirements; cancellation 5668
Inspection and certification requirements, cancellation of 5668

COAST GUARD—Continued — Page

Motorboats, and certain vessels propelled by machinery other than by steam more than 65 feet in length—Continued
Motorboats and motor vessels of more than 15 gross tons carrying passengers for hire; proposed:
Construction and arrangement requirements; cancellation 5668
Fire extinguishing equipment; cancellation of requirements 5667
Fuel tanks and piping; revision and transfer 5672
Inspection and certification requirements; cancellation 5668
Life preservers; cancellation of requirements 5667
Machinery and exhaust pipe; revision and transfer 5671
Navigation lights and sound-producing devices; cancellation of requirements 5667
Ventilation requirements; cancellation 5666
Motorboats except those of over 15 gross tons carrying passengers for hire; proposed:
Fog bell; cancellation of requirements 5667
Navigation lights; cancellation of requirements 5667
Uninspected vessels:
General provisions respecting; cancellation, proposed 5669
Operations, provisions respecting; cancellation, proposed 5670
Requirements, provisions respecting; cancellation, proposed 5669
Vessel control and miscellaneous systems and equipment; cancellation of requirements, proposed 5669
Passenger vessels; proposed 5666
Construction and arrangement 5666
Fire protection equipment 5667
General provisions 5666
Inspection and certification 5666

FEDERAL COMMUNICATIONS COMMISSION:
- Aeronautical services:
  - Civil Air Patrol, frequencies available to land and mobile stations in:
    - Assignment of frequency 2374 kc for use of 4539
    - Redesignation 4539
  - Fixed and mobile services, authorization of use of frequencies 21,750 kc and above, in accordance with Atlantic City radio regulations, proposed 3175
  - Flight test station license granted to manufacturers of aircraft or aircraft components and subsidiary corporations 5699
  - Frequencies, certain, between 22.075 kc and 22,215 kc, and frequency 22,245 kc, authorization of use of, by aircraft stations for communication with maritime mobile service stations 3855
  - Navigational aid radio stations:
    - Flight test stations, eligibility of licensee, manufacturers of aircraft or aircraft components and subsidiary corporations eligible for station license 5699
    - Frequencies available, proposed rule making:
      - Airway track guidance (ranges); use for, of even-tenth frequencies in band 108.2–112.0 mc 3748
      - Instrument landing localizer, certain; frequencies used for, in band 108.1–112.0 mc, reassignment of 3748
    - Omni-directional radio ranges; assignment of use for, of even-tenth megacycles frequencies within band 108.1–112.0 mc, proposed rule making 3748
    - Ranges, airway track guidance; use of even-tenth frequencies in band 108.2–112.0 mc, for, proposed 3748
- Alaska:
  - Coast stations in Alaska; equipment of radio-telephone transmitters with automatic device for controlling modulation, requirement respecting, postponed to January 1, 1953 3745
  - Radio stations in Alaska other than amateur and broadcast; proposed rule making:
    - Public coastal service, frequencies for communication with ship stations; addition of working frequency 2052.5 kc, A1 emission 5330
    - Ship service, frequencies for ship stations; communication by telegraphy with coast stations in Alaska, certain limitations respecting 5330
- Amateur radio service:
  - Operators, amateur:
    - Granting of authorized privileges, uniformly, to holders of general, extra, and advanced class licenses, with respect to use of frequencies in 3800–4000 kc and 14,200–14,300 kc bands, type A–3 emission, for radiotelephony; proposed rule making 3754
    - Licenses, classes and privileges of:
      - General and conditional classes; granting of all authorized amateur privileges to, proposed 3754
      - Novice class:
        - Frequency bands and types of emission which may be used by; further notice of proposed rule making 3753
        - Substitution of frequencies 21.15–21.30 mc for 26.960–27.230 mc used for radio-telegraphy, type A1 emission only, proposed rule making 4303, 4583
  - Radiotelephony:
    - Deletion of present limitation on operating privileges of general and conditional class license holders in regard to use of radiotelephony in 3800–4000 kc and 14,200–14,300 kc bands; proposed rule making 3754
    - Subdivision of frequency band 7000–7300 kc, using type A–3 and F–1 emission; further notice of proposed rule making 3753
    - Use of frequencies in 14,000–14,350 kc band, using type A–1 and A–3 emission 3104

FEDERAL COMMUNICATIONS COMMISSION—Con. Page
- Amateur radio service—Continued
  - Stations, amateur:
    - Call signs, transmission of; identification, procedure, etc 3753
    - Frequencies and emissions:
      - Allocation of frequencies and types of emissions for use of stations:
        - 1800–2000 kc band, use of, on a shared basis with Loran system of radionavigation, under certain prescribed conditions; further notice of proposed rule making 3748
        - 3500–4000 kc band:
          - Use of 3800–4000 kc frequencies, with type A–3 emission, or narrow band frequency or phase modulation, for radiotelephony; deletion of restriction respecting use of only by extra or advanced class operators, proposed rule making 3754
          - Use of type F–1 emission on frequencies 3500–3800 kc, further notice of proposed rule making 3753
        - 7000–7300 kc band; use of type F–1 emission frequencies 7000–7200 kc and type A–3 emission on frequencies 7200–7300 kc, for radiotelephony, further notice of proposed rule making 3753
        - 14,000–14,350 kc band; use of 3104
          - Authorization of use of F–1 emission; further notice of proposed rule making 3753
          - Deletion of restriction respecting use of, on frequency band 14,200–14,300 kc, by extra class or advanced class operators only; proposed rule making 3754
        - 14,350–14,400 kc band, deletion of authority for operation of stations in, effective April 1, 1952 3104
        - 21,000–21,450 kc band, authorization of use of frequencies in, with type A–1 emission, by amateur stations, effective May 1, 1952 3856
        - 21.00–21.45 mc band, use of, with types A–1, A–3, and F–1 emissions and narrow band or phase modulation for telephony; proposed rule making 4303, 4583
        - 200–225 mc band, with types A0, A1–4 emissions and special emission for frequency modulation; removal of restriction, applicable to January 1, 1952, on use of, by amateurs, near United States borders 4303, 4583
        - 235–240 mc band:
          - Availability of, as alternate for 220–225 mc band, using type A0, A1–4 emissions; deletion, proposed rule making 4303, 4583
          - Deletion of provisions authorizing use of, in lieu of 220–225 mc (Table of frequency allocations footnote US9) 5397
        - Redesignations 3856, 4303, 4583
      - Frequency shift keying type F–1 emission, use of, on frequencies below 27 mc, for certain operations; further notice of proposed rule making 3753
      - Geographical areas, redesignation of, with respect to use of frequencies in 1800–2000 kc band, reallocation of frequencies to such areas, and operational limitations for various parts of United States, its Territories and possessions; further notice of proposed rule making 3748
      - Narrow-band or phase modulation, use of frequencies in 14,000–14,350 kc band for radiotelephony, proposed rule making 3104, 3753, 3754
      - Specification of emissions and other particulars of operation in frequency band 21.00–21.45 mc, available for use of amateurs about May 1, 1952; proposed rule making 4303, 4583
    - Use of stations:
      - Communication between amateur stations in Cuba and United States, on behalf of third parties 3744
      - Teleprinter transmissions, radio, special provisions regarding; further notice of proposed rule making 3753

    - Mexico; broadcast stations 3758, 4186, 4311, 4600, 5439
    - Public radiocommunication services (other than maritime mobile) 3175, 4157, 5044
    - Public safety radio services 2935, 3750, 4300
    - Standard broadcast stations 5773
    - Television broadcast stations 3905, 4052
- Frequency allocations and radio treaty matters:
  - Allocation assignment and use of radio frequencies; table of frequency allocations:
    - Amateur use of frequencies:
      - In band 235–240 mc, in lieu of 220–225 mc: deletion of provisions authorizing such use (footnote US9) 5397
      - In band 1800–2000 kc by amateur radio service on shared basis with Loran system of radionavigation; further notice of proposed rule making 3749
    - Amendments 2936, 3749, 4161, 5327
    - Atlantic City frequency allocations table and radio regulations, allocations in accordance with:
      - Assignment of certain frequencies (22,000 kc and above) in accordance with Atlantic City table and radio regulations, effective May 1, 1952, to maritime mobile service stations (aircraft, coast, ship) using telephony or telegraphy 3176, 3854
    - Effective dates of Atlantic City table; correction 3212
    - Fixed services having station assignments, as of January 1, 1952, on frequencies 2848, 4245, 5265, 7625, and 7690 kc; proposed deletion of provisions respecting 5044
    - Frequencies 14,350–14,400 kc and 20,000–25,000 kc (20–25 mc bands):
      - Availability of, as of May 1, 1952, only in accordance with Atlantic City table 3175, 3854
      - Effective provisions, certain, respecting use of frequencies below 25,000 kc (25 mc) not applicable to these particular frequencies as of May 1, 1952 3854, 4711
    - Frequencies in band 2035–2107 kc, to be available for use only in accordance with Atlantic City table of frequency allocations, effective July 15, 1952; proposed rule making 5327
    - Frequencies in bands 21,750 kc and above, proposed authorization of use of, by aeronautical fixed and mobile services and other fixed services, in accordance with Atlantic City radio regulations and table of frequency allocations 3175
    - Frequencies listed (Cairo-Atlantic City-FIAR-FCC table of frequency allocations); corrections and changes in assignments 3212, 4624
    - Remote pickup broadcast base and mobile stations; deletion of provisions permitting operation of on frequencies in band 2000–3500, effective May 1, 1953, proposed rule making 5327
    - Authorization of use of frequencies in band 25.86–26.1 mc by remote pickup broadcast base and mobile stations, subject to non-interference restrictions; proposed rule making 5327

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

- Frequency allocations and radio treaty matters—Continued
  - Allocation assignment and use of radio frequencies; table of frequency allocations—Continued
    - Frequencies in band 108.1–112.0 mc, reassignment of, to permit use of even-tenth megacycles for omni-directional radio ranges; proposed rule making 3748
    - Interim use of frequencies in band 220–231 mc for distance indicator systems at certain United States terminals of international air routes; deletion of provision authorizing use of (footnote US9) 5397
    - Loran system of radionavigation, use of frequencies in band 1800–2000 kc by amateur radio service on shared basis with; further notice of proposed rule making 3749
    - Atlantic City radio regulations, assignment of frequencies with respect to. *See* Allocation assignment and use of radio frequencies, table.
    - Call signs; plan for assignments by call sign blocks of frequencies in bands between 4000 and 23,000 kc, to ship stations using telegraphy, maritime service, proposed rule making 5330
    - International Telecommunications Union radio regulations (Atlantic City, 1947), dates and method of entry into force 5323
    - International treaties, agreements, and Federal laws, etc., relating to radio in which United States participates, list of:
      - Addition of information with respect to agreement between Cuba and United States with regard to radio communications between amateur stations on behalf of third parties 3744
      - Amendments 3744, 5699
    - Hawaii; assignment of frequency 22,509 kc to coast stations in 3855
    - Hearings, orders, etc.; list of names of companies and stations, *see list at end of this agency.*
    - Highway maintenance radio service. *See* Public safety radio services.
    - Industrial radio services:

        - Hearing respecting determination of use of, by fixed stations 4185
        - Sharing of, with fixed stations under certain conditions 3745
      - Policy governing assignment of frequencies; use of frequencies above 152 mc by operational fixed stations outside continental limits of United States 3745
      - Relay stations, new policy of licensing of; hearing respecting providing of extended range point-to-mobile communications and determining use of mobile service frequencies by operational fixed (control) stations 4185
    - Industrial, scientific, and medical service:
      - Operation for which license is required; existing equipment, date of applicability of provisions, with respect to medical diathermy equipment completed prior to July 1, 1947, extended to June 30, 1953, proposed rule making 4714
      - Operation without license:
        - Industrial heating equipment; proposed rule making:
          - Field intensity measurement of 4584
          - Operation outside of assigned frequency bands 4584
          - Location of industrial heating equipment; defining of 4584
        - Medical diathermy equipment; operation outside assigned frequency bands:
          - Editorial change 3754
          - Redesignations 3754
          - Requirements for equipment and operating conditions 3754
        - Miscellaneous equipment; proposed rule making 4584
    - International agreements relating to radio in which United States participates:
      - Frequencies, North America; assignment of frequencies to foreign broadcasting stations in. *See* North American Regional Broadcasting Agreement.
      - List of international agreements, etc., relating to frequency allocations and radio treaty matters; changes, additions, etc 3744, 5699

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

International agreements relating to radio in which United States participates—Continued
Television broadcast facilities, authorizations issued for; conformance with provisions of international agreements 4059
International air routes, certain United States terminals of; deletion of authority for use of certain frequencies at 5397
International broadcast stations. *See* Radio broadcast services.
International Telecommunications Union radio regulations (Atlantic City, 1947), dates and method of entry into force 5323
International telegraph operations of Western Union Telegraph Co.; postponement of hearing with regard to divestment of Company of such operations 5047
Land transportation radio services:
Mobile service frequencies; use of:
By fixed stations operating outside continental limits of United States 3745, 3856
Hearing respecting determining use of, by fixed stations 4185
Railroad radio service, frequencies available for base and mobile stations; deletion of frequency 161.91 mc 2936
Relay stations, new policy of licensing of; hearing respecting providing of extended range point-to-mobile communications and determining use of mobile service frequencies by operational fixed (control) stations 4185
Selection of frequencies; use of frequencies above 152 mc by operational fixed stations outside continental limits of United States 3745, 3856
Lifeboat radio equipment, requirements for; inclusion of provision for reception in high frequency band, proposed rule making 3749
Loran system of radio navigation, sharing of frequencies in 1800–2000 kc band with amateur radio service; further notice of proposed rule making 3748
Lotteries and give-away programs broadcast by television stations; operating-requirements respecting 4066
Maritime radio services:
Land stations:
Applications:
Administrative classification of stations in land mobile service 4161
Applications filed concurrently; different categories 4161
Authorization required for construction and operation of station 4161
One application for plurality of stations:
Applicability of provisions 4162
Shipyard mobile stations; application for, and modification of construction permits 4162, 5041
Temporary and permanent station locations; shipyard mobile station excepted from provisions respecting 4161
Coast stations; use of telegraphy:
Frequencies assignable:
Assigned frequency 21,750 kc authorized for use by coast stations; deletion 3855
Authorization for use of frequencies in band 2035–2065 kc by coast stations granted on "day only" basis pending clearance of band 2035–2107 kc, proposed 5329
Authorization of coast stations using telegraphy, to operate, effective May 1, 1952, in specified areas, under certain power limitation, in band 22,400–22,650 kc, Class A–1 emission, in accordance with Atlantic City table of frequency allocations 3176, 3854
List of assigned frequencies:
Additions to list:
Frequencies, between 2036–2063 kc, and coast station locations, assignable for use by coast stations (public or limited) using telegraphy, proposed rule making 5328
Frequencies (between 22,407–22,635 kc) available for assignment to coast stations in seacoast area of continental United States 3855

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Communication, points of 4164
Scope 4164
Cooperative use of facilities 4165
Frequencies assignable 4165
Identification of stations 4165
Limitations on use 4164
Operating procedure, general 4165
Records and station documents 4165
Shipyard base stations:
Eligibility for 4164
Showing precedent to shipyard base station authorization 4164
Shipyard mobile stations:
Eligibility for 4164
Limitations on number of 4164
Showing precedent to shipyard mobile station authorization 4164
Technical requirements 4165
Testing procedure 4165
Limited coast stations and marine-utility stations, use of telephony, frequencies below 3000 kc for business and operational purposes; frequencies 2738 kc and 2214 kc not to be available for assignment over distances where 30 mc is suitable for use, proposed rule making 4328
Operating requirements, general:
Hours of service of stations on land:
Redesignation 4164
Stations not operating in maritime mobile service, subject to provisions; determination of hours of service 4164
Interference, prevention of 4163

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Land stations—Continued
Operating requirements, general—Continued
Radiotelephone watch by coast stations; public coast stations licensed to transit by telephony on frequencies:
Within band 156.35–162.05 mc, effective on or after January 1, 1954; provisions respecting 4164
Within band 1600–3500 kc; requirements respecting maintenance of watch, etc 4164
Secrecy of communication; mobile stations added to stations listed as subject to obligation of observing and insuring secrecy of communications 4163
Transmissions, unauthorized; applicability of provisions to land mobile service 4163
Operator requirements:
Authorized operator required; provisions respecting actual operation of transmitting apparatus, exception to 4163
Posting of operator license, requirements of; not applicable to shipyard mobile stations, with certain restriction 4163
VHF shipyard mobile stations; waiver of operator license for 4163
Public coast stations; use of telephony:
Conditions imposed upon assignments in 156–162 mc band 2936
Redesignation 2936
Frequencies assignable:
Authorization of coast stations using telephony to operate, May 1, 1952, in specified areas, under certain power limitation, in frequency band 22,650–22,720 kc, in accordance with Atlantic City table of frequency allocations 3176, 3854
Authorized carrier frequencies, list of:
Addition of frequencies 22,677.5, 22,692.9, and 22,716 kc 3855
Deletion of frequencies 21,890, 22,675 and 22,700 kc 3855
Operation of coast stations on currently assignable frequencies in 21,750 kc–22,720 kc bands; deletion of provisions authorizing use of, effective May 1, 1952 3175, 3854
Temporary authorization of frequencies other than those listed 3855
Frequencies above 100 mc, availability of; changes in assignments and use of 2936
Frequencies below 30 mc, availability of:
Additional working carrier frequencies in this band; table 3855
Assignment and use of frequencies in band 22,650–22,720 kc, under certain limitations, effective May 1, 1952, in accordance with Atlantic City table of frequency allocations 3176, 3855
Carrier frequencies assignable only to coast stations in certain locations; use of frequencies above 22,650 kc 3855
Operation of coast stations on frequencies 21,750 kc and above, deletion of effective provisions, May 1, 1952 (proposed) 3175
Working frequencies between 5,000 kc and 30 mc, list of; deletion of frequencies 21,890, 22,675 and 22,700 kc 3855, 4299
Radiotelephone operating procedure, general:
Limitations on calling; deletion of certain provisions respecting communication by telephony between ship and coast stations on specified frequencies from 2514 kc to 11,090 kc 4164
Redesignations 4164
Radiotelephone watch by public coast stations. *See* Operating requirements, above.
Report on revision of rules with regard to land stations and oral arguments respecting 4159
Ship-shore service in band 2035–2107 kc to be authorized on "day only" basis for coast stations using telegraphy, pending clearance of band; proposed rule making 5328

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Land stations—Continued
Station authorization:
Call signs, assignment of; station license issued, shipyard mobile stations 4162
Cancellation of license; applicability of provisions with respect to marine-utility or shipyard mobile stations 4162
Control point, authorized; designation of specific control points in station license and provisions respecting shipyard mobile stations 4162
Involuntary discontinuance, reduction or impairment of service, notice of; shipyard mobile stations 4162
Normal license period; limited coast station license, issuance of 4162
One authorization for plurality of stations 4162
Construction permit or station license, issuance of 4162
One license for plurality of marine-utility stations; redesignation 4162
Station location, authorized; shipyard mobile station excepted from provisions respecting 4162
Voluntary discontinuance, reduction or impairment of service, notice of; shipyard mobile stations 4162
Station requirements, general:
Antenna requirements; deletion of provisions with respect to requirement of providing specific field strength pattern in signaling with regard to use of telephony by coast stations on frequencies 2000–3500 kc and above 25 mc 4163
Control points, requirements; shipyard mobile station added to stations subject to provisions respecting 4163
Facilities required for public coast stations using telephony 4162
Operating controls; coast stations operating on secondary basis as shipyard base stations and shipyard mobile stations, compliance with applicable provisions 4163
Posting of station license:
One or more shipyard mobile stations authorized by one land station license 4162, 5041
Shipyard land mobile unit; requirements respecting photo-copies of authorizations and transmitter identification cards 4162, 5041
Receiving apparatus, general requirements for 4163
Telephony, modulation adjustments for; coast stations operating on secondary basis and shipyard mobile stations, compliance with provisions respecting 4163
Transmitter-power, measurement of; coast stations operating on secondary basis as shipyard base stations and shipyard mobile stations, compliance with provisions respecting 4163
VHF facilities, special provisions relative to; coast stations operating on secondary basis as shipyard base stations, compliance with provisions 4162
Technical requirements, standard:
Emission, authorized classes of; frequency band and classes of emission for coast stations using telegraphy:
Changes in use of frequencies 2200–25,000 kc 3176, 3855, 4624
Frequencies 2035 to 2065 kc added (for use for ship-shore service); proposed 5328
Radiotelephone transmitters, special requirements for:
Coast stations operating on secondary basis as shipyard base station, compliance with applicable provisions 4163
Shipyard mobile station, compliance with applicable provisions 4163
Use of automatic device to control modulation, effective date, with respect to Alaska, postponed to January 1, 1953 3745

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Land stations—Continued
Technical requirements, standard—Continued
Transmitter-power, maximum authorized; frequency band in which transmission occurs:
Changes in use of, by coast stations using telephony or telegraphy (frequencies 5,000–25,000 kc), in accordance with Atlantic City radio regulations, effective May 1, 1952 3176, 3855
Frequencies 2035–2065 kc added (for ship-shore service); proposed 5328
Violations; redesignation 4164
Lifeboat radio equipment, requirements for; inclusion of provision for reception in high frequency band, proposed rule making 3749
Mobile maritime service stations (aircraft, ship, and coast stations using telephony and telegraphy):
Authorization, effective May 1, 1952, of use of certain frequencies (22,000 kc and above), under specified limitations, in accordance with Atlantic City table of frequency allocations and radio regulations 3176, 3854
To cease operating, May 1, 1952, on currently assignable frequencies in bands 21,750–22,000 kc, 22,000–22,070 kc, and 22,070–22,720 kc, and on frequency 23,000 kc 3175, 3854
Shipboard stations:
Alaska, ship station communication with coast stations in. *See* Alaska.
Applications:
Amateur stations, application for exceptional authority to communicate with; redesignation 4166
Application precedent to authorization; change in references 4166
Changes during license term; exception 4166
Emergency, application for license or modification or renewal of license in case of 4166
Renewal of license; exception to provisions respecting 4166
Temporary station authorization, special; application for 4166
Call signs; plan for assignments by call sign blocks of frequencies in bands between 4000 and 23,000 kc, to ship stations using telegraphy, proposed rule making 5330
Compulsory shipboard equipment, type approval of requirements, basic technical:
For emergency transmitter; operating carrier frequency, use of 410 kc for 375 kc frequency 5771
For main transmitter, tabulation of; operating carrier frequency, use of 410 kc frequency in lieu of 375 kc 5771
Compulsory shipboard radio installations:
Direction-finder, requirements for 4169
Main and emergency installations; antennas 4169
Direction finding frequency in main and emergency transmitters aboard compulsorily equipped ships, use of frequencies 375 kc or 410 kc for 5771
Frequencies for calling, plan for assignment of, in bands between 4000 and 23,000 kc, to ship stations using telegraphy, proposed rule making 5330
Assignments by call sign blocks 5330
Frequency 4182 kc; exception 5330
Installations, compulsory shipboard radio installations, antennas and direction-finder 4169
Radiolocation, use of; assignable frequencies for direction-finding:
Frequencies used for searching in case of distress; note respecting use of 410 kc and 375 kc frequencies 5771
Frequency 410 kc assigned as frequency for direction finding 5771
Use of 375 kc in lieu of 410 kc permitted until November 1, 1952 5771
Radiotelegraphy, use of:
Frequencies, assignable:
Authorization for use of frequencies in band 2065–2107 kc by ship stations to be on "day only" basis, pending clearance of band 2035–2107 kc, proposed 5329

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Shipboard stations—Continued
Radiotelegraphy, use of—Continued
Frequencies assignable—Continued
Authorization of ship and aircraft stations in maritime mobile service to operate on particular, listed frequencies in band 22,070–22,400 kc, using A–1 emission, effective May 1, 1952 3176, 3854
Calling frequencies; authorization of certain specific designated frequencies as assigned calling frequencies:
Frequencies, certain, between 22,225 kc and 22,265 kc, for use by ship stations using telegraphy, subject to reassignment later under Atlantic City radio regulations 3855
Frequencies listed, between 2089 and 2093 kc, for use by ship stations using telegraphy, subject to reassignment later under Atlantic City Radio Regulations and certain restrictions applicable to frequencies below 4000 kc, proposed rule making 5329
Frequency 22,245 kc for use by aircraft stations for communication with maritime mobile service stations 3855
Continued use of certain currently assignable frequencies by ship and aircraft stations 3176
Deletion of authority for operation on currently assignable frequencies in band 22,000–22,070 kc and frequency 23,000 kc, by ship and aircraft stations in mobile service, effective May 1, 1952 3175, 3854
Frequency 22,080 kc, exception respecting 3175
List of assigned frequencies; deletion of certain frequencies between 22,025 and 22,125 kc 3855, 4422
Editorial change 3855
Proposed 5329
Redesignations 3855
Proposed 5329
Working frequencies; specific designated frequencies authorized as assigned working frequencies for use by stations using telegraphy:
Frequencies, certain, between 2067.5 and 2087.5 kc, authorized for use as working frequency by ship stations using telegraphy, on passenger ships and by aircraft stations, for communication with maritime mobile stations, subject to restrictions applicable to frequencies below 4000 kc and to reassignment later under Atlantic City radio regulations, proposed rule making 5329
Frequencies, certain, between 22,075 kc and 22,215 kc, for use by ship stations on passenger ships and by aircraft stations for communication with maritime mobile service, subject to reassignment later under Atlantic City radio regulations 3855
Frequencies listed, between 2094 and 2106 kc (Group A), authorized as assigned working frequency for use of ship stations using telegraphy on board cargo ships, subject to reassignment later under Atlantic City radio regulations and to restrictions applicable to frequencies below 4000 kc, proposed rule making 5329
Frequencies, listed, between 22,272.5 and 22,332.5 kc, Group A, and between 22,335 and 22,395, Group B, for use by ship stations on cargo ships, subject to reassignment later under Atlantic City radio regulations 3855
Frequencies 22,075 and 22,125 kc for use of ship stations on cargo ships, authorized without regard to certain provisions of Atlantic City radio regulations until November 1952 3855

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Frequencies for calling:
See also Frequencies assignable.
Assignment and use of particular, listed frequencies, May 1, 1952, in accordance with Atlantic City radio regulations 3176, 3854
Frequency 22,080 kc; exception respecting 3175
International calling frequency 2091 kc, use of, by all ship stations using telegraphy for call, reply, and other signals in communication with other ship stations or coast stations on certain bands, under prescribed conditions, proposed rule making 5329
Plan for assignment of calling frequencies in bands between 4000 and 23,000 kc, to ship stations using telegraphy, proposed rule making 5330
Assignments by call sign blocks 5330
Frequency 4182 kc to be excepted 5330
Radio-channels:
Addition of radio-channel, assigned frequency 22,080 kc 3856
Frequency 17,000 kc substituted for 23,000 kc 3856
Proposed changes in use of frequencies 21750 kc and above 3175
Working channels used for calling; substitution of frequency 17,000 kc and radio channels of assigned frequencies between 22,100–22,140 kc for frequency 23,000 kc 3856
Frequencies for working:
See also Frequencies assignable.
Assignment and use of particular, listed working frequencies in accordance with Atlantic City radio regulations 3176, 3854
Radio-channels:
Changes in use of frequencies 21,750 kc and above 3175
Substitution of 17,000 kc for 23,000 kc 3856
Use of calling channel of which 22,080 kc is assigned frequency 3856
Telegraph communication of ship stations with mobile or land stations of United States Government; use of frequencies in band 17,000–25,000 kc, Class A–1 emission 3856
Use of frequencies in band 2000–2850 kc, proposed 5330
Telegraph working channel of coast station:
Changes in use of frequencies 21,750 kc and above, proposed 3175
Substitution of 17,000 kc for 23,000 kc 3856
Licensing of designated frequencies for ship stations using telegraphy, proposed 3176
Station records, ship stations authorized to transmit on frequencies within band 356–515 kc; 410 kc frequency added to operating frequencies for which equipment adjustment record is maintained 5771
Radiotelephony, use of:
Additional frequencies for public correspondence 3856
Assignment to and use of particular, listed frequencies 22,000 kc and above, effective May 1, 1952, by ship and aircraft stations in mobile service, in accordance with Atlantic City radio regulations effective May 1, 1952 3176, 3854
Frequencies, assignable: list of authorized carrier frequencies:
Addition of certain frequencies between 22,004.2 and 22,065.8 3856
Frequency 23,000 kc deleted 3856, 4299
Frequencies above 30 mc for public correspondence; change in assignments and use of 2936
Frequencies below 3000 kc for business and operational purposes; frequencies 2738 kc and 2214 kc not to be available for assignment over distances where 30 mc is suitable for use, proposed rule making 5328

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Identification of station 4168
Operation on frequencies in band 22,000–22,070 kc and frequency 23,000 kc, by ship and aircraft stations in mobile service; deletion of certain applicable provisions, effective May 1, 1952 3175, 3854
Radiotelephone operating procedure, general:
Calling frequency, required use of 4168
Exchange of communications by ship stations in Great Lakes area and on Mississippi River on frequencies between 2118 kc and 11,090 kc; deletion of provisions respecting 4168
Redesignations 4168
Station records; effective provisions respecting 4168
Report on revision of rules with regard to shipboard stations and oral arguments respecting 4159
Ship-shore service in band 2035–2107 kc to be authorized on "day only" basis for ship stations using telegraphy, pending clearance of band; proposed rule making 5328
Station authorizations:
License period for developmental station; redesignation 4167, 5041
License periods for temporary operation 4167, 5041
Special temporary authorizations 4167, 5041
Normal license period 4166
Permanent discontinuance of station operation 4167
Station requirements, general:
Posting of station license; Commission's notification of authorization by telegram or letter, posting of, in lieu of station license, permitted under certain conditions 4167
Telegraphy, required radio-channels for use by ship stations (Region 2), of frequencies within band 2065–2107 kc, requirements respecting, proposed rule making 5330
Telephony, required radio-channels for 4167
Frequency band 1600 kc–3500 kc; requirements for ship stations operating within 4167
Frequency band 156.25 mc–157.45 mc; requirements for stations on shipboard operating in, effective on or after January 1, 1954 4167
Technical requirements, standard:
Emission, authorized classes of:
Changes in use of, by ship and aircraft stations, effective May 1, 1952, in accordance with Atlantic City radio regulations (proposed) 3176
Frequency band and classes of emission authorized, ship stations using telegraphy:
Frequencies 2065–2107 kc added (ship-shore service), proposed 5329
17,000 kc substituted for 25,000 kc 3856, 4300
17,000 kc–25,000 kc, A1, and for brief testing, A0; added 3856
Frequency tolerance, authorized; frequency ranges for emergency transmitters used in lifeboats, etc., proposed 5329
Receiver radiation, suppression of; revision and redesignation 4167
Receiving apparatus, suppression of interference from 4167
VHF coast stations, cerain; authorization of persons holding restricted radiotelephone operator permit to engage in normal operation of, proposed 5700
Watches, general purpose; watch on 2182 kc 4168
Ship-shore service:
For public correspondence in lower Lake Michigan area, allocation of 161.9 mc frequency and substition of 157.3 mc for 157.1 mc frequency 2935

Maritime radio services—Continued
Ship-shore service—Continued
In band 2035–2107 kc, ship–shore service to be authorized on "day only" basis for coast and ship stations using telegraphy, pending clearance of band; proposed rule making 5328
Medical diathermy equipment, operation of. *See* Industrial, scientific, and medical service.
Mexico, assignment of frequencies to broadcast stations in; changes in list modifying appendix to North American Regional Broadcasting Agreement 3758, 4186, 4311, 4600, 5439
North American Regional Broadcasting Agreement; lists of changes in assignments for stations in various countries:
Canada 2949, 3758
Cuba 4310, 4600, 5073
Mexico 3758, 4186, 4311, 4600, 5439
Operators, regulations respecting. *See* Commercial radio operators; *and* Radio broadcast services.
Organization and delegations of authority:
Authority, delegation of, to Chiefs of Operating Bureaus to dismiss certain applications in cases processed by their respective Bureaus 4187
Organization:
International Telecommunications Settlements Division 4187
Motions Commissioner, designation of, for April 1952 2951
Ship Accounts Branch, transfer of, from International Division of Common Carrier Bureau to Office of Secretary and name changed to International Telecommunications Settlements Division 4187
Practice and procedure; radio licenses, rules relating to applications and proceedings affecting:
Filing of applications and description of forms:
Applications for waiver of provisions respecting extension of term of ship radar station license; deletion 2935
Form 301, Application for authority to construct new broadcast station or make changes in existing station (revised March 21, 1952); substitution of certain superseded pages required, note respecting 4052
Street address (Question 16), interpretation of 5048
Manner in which applications are processed:
Standard broadcast applications, processing of; temporary division of applications into two categories, only one of which is to be processed at present, proposed rule making 3747
Television authorizations on channels 2 through 13, requests for; procedure for consideration of applications (Footnote 10), deletion 4051
Television broadcast applications, temporary processing procedure for 4051
Public radiocommunications services (other than maritime mobile):
Domestic public land mobile radio service, changes in zones and assignment of frequencies in 35–44 mc band for general dispatching and signaling use, etc 4157
Fixed services:
Authorization of use of frequencies 21,750 kc and above by fixed services, in accordance with Atlantic City radio regulations, proposed 3175
Domestic fixed services, certain uses of frequencies below 25 mc by, for purposes other than safety of life and property, proposed deletion 5044
Technical standards; allocation of frequencies:
One-way signaling service to mobile receivers; assignment of 35.58 mc and 43.58 mc frequencies for 4158
Public landline message telephone service; base station frequencies and zone allocation plan, 35–44 mc band 4158
Stations not in public landline message telephone service; base station frequencies for 4158

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Public safety radio services:
Emergency, special, radio service; terms and conditions of eligibility for authorizations in, permissible communications, standby facilities, proposed rule making 3750
Ambulance operators and rescue organizations 3750
Availability of service 3750
Beach patrols 3751
Disaster relief organizations; eligibility, class and number of stations, permissible communications 3750
Frequencies available to special emergency radio service; table 3752
Isolated areas, establishments in 3751
Physicians and veterinarians; eligibility, class and number, etc 3750
Points of communication 3752
Public communications facilities, emergency repair of 3751
Rescue organizations 3750
School buses 3751
Standby communication facilities 3751
Station limitations 3752
Highway maintenance radio service; frequencies available to:
Explanation of assignment limitations; note with respect to non-availability for assignment to highway service after April 28, 1952, of frequencies 157.29 and 157.35 mc 2936
Tabulation of frequencies:
Frequencies 157.29 and 157.35 added 2936
Limitations, change in 2936
Technical standards; frequencies:
Frequencies assigned to Government radio stations under President's Executive orders, authorization of use of, by stations in public safety radio services 4300
Redesignation 4300
Racing news, use of interstate and foreign leased facilities, Western Union Telegraph Co., for dissemination of; continuation of hearing 2951, 4128
Radio broadcast services:
Educational broadcast stations, noncommercial:
Equipment, rules relating to; proposed rule making:
Changes in equipment and antenna system; authorized remote control point for transmitter 5436
Frequency monitor; requirement respecting operation of at authorized remote point 5436
Modulation monitor; requirement respecting operation of at authorized remote control point 5436
License requirements of operators of certain stations and provisions for remote control operation of those stations; proposed rule making 5437
Operation, rules relating to; rebroadcast:
Candidates for public office, broadcasts by 4711
Foreign stations, rebroadcast of programs originated by 4711
Stations refusing authority for rebroadcast of programs required to file statement of refusal with Commission 4711
Technical operation, rules relating to; proposed rule making:
Operator requirements 5436
Remote control operation of noncommercial educational FM broadcast stations 5436
Television stations. *See* Television broadcast stations.
Experimental and auxiliary radio broadcast services. *See* Experimental and auxiliary broadcast services.
FM broadcast stations:
Channels, allocation of; revised tentative allocation plan for channels allocated to Class B stations, amendments 5044

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Equipment, rules relating to; proposed rule making:
Changes in equipment and antenna system; authorized transmitter remote control point 5436
Frequency monitor; requirement respecting operation of at authorized remote control points 5436
Modulation monitor; requirement respecting operation of at authorized remote control points 5436
License requirements of operators of certain FM stations and provisions for remote control operation of such stations; proposed rule making 5435
Operation, other rules relating to:
Logs; entry of time of observation of tower lights required, proposed 5436
Rebroadcast:
Foreign stations, rebroadcast of programs originated by 4712
Stations refusing authority for rebroadcast of programs required to file statement of refusal with Commission 4711
Operators of certain FM stations, license requirements of; proposed rule making 5435
Remote control operation of certain FM stations; proposed rule making 5435
Standards of Good Engineering Practice; proposed rule making:
Monitors; frequency and modulation monitors at auxiliary transmitters and approved frequency and modulation monitors, proposed modification of provisions respecting to provide for monitors at remote control points 5437
Transmitters and associated equipment, installation; provision respecting operator on duty 5437
Technical operation, rules relating to; proposed rule making:
Operator requirements 5436
Remote control operation of FM stations 5436
Tower lights and associated control equipment, inspection of; observation of tower lights 5436
International broadcast stations; operation, rules relating to, rebroadcast:
Foreign stations, rebroadcast of programs originated by; interpretation of section 325 (a) respecting 4712
Stations refusing authority for rebroadcast of programs required to file statement of refusal with Commission 4711
Operators, commercial radio. *See* Commercial radio operators.
Standard broadcast stations:
Applications for construction permits, etc., processing of; temporary division of all applications into two categories only one of which is to be processed at present, proposed rule making 3747
Definitions; proposed rule making:
Standard broadcast band; term includes band of frequencies from 535 to 1605 kc 5773
Standard broadcast channel; carrier frequencies assigned to standard stations to begin at 540 kc 5773
Standard broadcast station; term to include stations operating in band 535–1605 kc 5773
Frequency allocations by classes of stations; clear channels, for Class II stations, of certain specified power, addition of frequency 540 kc to assigned frequencies listed, proposed rule making 5773
Frequency 540 kc, provision for domestic use of, by broadcast service, in accordance with Geneva Radio Conference Agreement, 1951; proposed rule making 5773
General rules applicable to standard stations:
Logs; entry respecting time of observation of tower lights required; proposed 5436

Ratings for certain materials and products, restrictions upon use of (Direction 3) — 4342, 5395
Chemicals, paper or paperboard, and waterfowl feathers, certain (Appendix A) — 4342, 5395
Pigs' or hogs' bristles, and brushes and bristle products; added — 5396
Controlled Materials Plan:
Basic rules; authorization of production schedules for manufacturing operations, and procurement of materials (CMP Regulation 1):
Allotments and delivery orders for materials; additional provisions respecting designation and use of allotment numbers — 2847, 2926
Producers of class B products; procedure for obtaining minimum quantities of materials (Direction 1) — 3851, 5556
Restrictions on placing authorized controlled materials orders (Direction 3) — 3673
Special preference status for authorized controlled material orders placed in support of certain military, atomic energy, and machine tool programs (Direction 13) — 5225
Steel; restrictions on shipments and acceptance of deliveries:
Direction 10 — 3104
Revocation — 3235
Direction 11 — 3852
Revocation — 4255
Direction 12 — 5039
Steel; shipments by controlled materials producers (Direction 10A) — 3104
Revocation — 3235

NATIONAL PRODUCTION AUTHORITY—Continued — Page

Priorities system operation; regulations—Continued
Controlled Materials Plan—Continued
Construction; rules limiting construction, methods for obtaining schedules and allotments, and procedure for use of foreign and used steel (CMP Regulation 6):
Categories of construction and quantities of materials for which purchase orders may be self-authorized (Table II) — 5559
Commencement or continuance of construction; categories other than those listed in Table I, commenced prior to March 6, 1952, may be continued without authorization, in certain cases — 5559
Conservation; limitations on use of aluminum controlled material — 5559
Disaster damage, materials for reconstruction or repair of (Direction 2) — 3456
Water wells, procedure to be followed by drillers and prime contractors in applying for schedules for (Direction 4) — 4202
Delivery orders, preference status of, for controlled and other materials (CMP Regulation 3) — 2848
Special preference status of DO rated orders for Class A and B products containing steel (Direction 4) — 5432
Program identifications (Schedule I) — 5433
Maintenance, repair and operating supplies, installation, and minor capital additions under Controlled Materials Plan (CMP Regulation 5) — 5726
List of materials to which allotment symbol MRO or rating DO–MRO may not be applied or extended (Schedule I) — 5729
Maintenance, repair and operating supplies and minor capital additions (Regulation 4):
See also Controlled Materials Plan.
Replacement parts and accessories for export (Direction 2); revocation — 4149
Priority orders:
Aluminum:
Distribution to retailers. *See* Controlled materials, *below*.
Rules for placing, accepting and scheduling rated orders (M–5):
Acceptance of orders — 3830
Production schedule authorization; issue of directives to primary producers or secondary smelters — 3830
Use by electric utilities. *See* Electric utilities.
Use in consumer durable goods. *See* Metals.
Use in packaging closures. *See* Containers and closures.
Use in residential construction. *See under* Construction.
Antimony; limitations on inventories of antimony and materials (other than ores and concentrates) containing antimony (M–39), revocation — 4537
Automobile wreckers; required inventory report, limitations on acceptance of delivery of motor vehicles or car-units, and certain other requirements (M–92), temporary exemption of auto wreckers in certain areas from purchase limitations (Direction 1) — 3353
Baler and binder twine. *See* Twine.
Bismuth; deliveries, uses, inventories and limitations on acceptance of rated orders (M–48), revocation — 4537
Brass and bronze:
Brass mill products. *See* Copper and copper-base alloy.
Tin content, permissible in brass and bronze items. *See under* Tin.
Bristles, pigs' and hogs', and bristle products:
Limitations on inventories and processing of bristles, and manufacture, distribution and export of brushes (M–18); revocation — 5392
Ratings for, restrictions upon use of (Regulation 2, Direction 3) — 5396
Building materials; designation as scarce materials — 5138

NATIONAL PRODUCTION AUTHORITY—Continued — Page

Priority orders—Continued
Cadmium; deliveries from producer or distributor, inventory controls, and purposes for which listed products containing cadmium may be produced (M–19), revocation — 4537
Cans, tin plate, terneplate, and black plate; restrictions upon acceptance, delivery and uses of cans; and specifications for listed products (M–25) — 4409
Chemical wood pulp. *See* Wood pulp.
Chemicals:
Allocation of chemicals and allied products (M–45):
Appendix A materials:
Resorcinol (Schedule 6); revocation — 4623
Thiokol (Schedule 10) — 4537
Appendix B materials:
Naphthenic acid (Schedule 1); revocation — 5463
Sebacic acid (Schedule 7); revocation — 3852
Ratings for certain chemicals, restrictions upon use of (Regulation 2, Direction 3) — 4342, 5395
Scarce materials, designation as — 5138, 5139
Cobalt; alloying materials. *See* Iron and steel.
Columbium and tantalum; alloying materials. *See* Iron and steel.
Communications; rules for procurement and use of materials for MRO and operating construction by operators of systems (M–77) — 4203
Construction:
Controlled Materials Plan. *See* Priorities system operation.
Materials; copper and copper-base alloy, conservation of, and list of items in which use of is prohibited (M–74), use in inventory as of July 1, 1951 (Direction 1) — 3457
Residential construction; limitations on construction or alteration of residential structures and restrictions on use of controlled materials (M–100):
Construction, alteration, etc., commenced after March 5, 1952; types and quantities of materials which may be obtained (Schedule I) — 5558
Construction, alteration, etc., commenced prior to March 6, 1952; types and quantities of materials which may be obtained (Schedule II) — 5558
Limitations on use of controlled materials for certain purposes in residential construction; aluminum material for any ornamental or decorative purpose — 5558
Containers and closures:
Collapsible tubes. *See* Tubes.
Packaging closures; restrictions upon sale, delivery and use (M–26) — 3678
Aluminum, packaging closures and closure liners made of; deletion of provisions respecting — 3678
Inventory limitations; deleted — 3678
Schedule I; maximum tin coatings for closures for certain products — 3680
Shipping drums, steel; restrictions on sale or delivery and on uses to which containers may be put (M–75), revocation — 3830
Controlled materials (aluminum, copper, steel):
See also Aluminum; Copper; *and* Iron and steel.
Controlled Materials Plan for. *See under* Priorities system operation, *above*.
Distribution to retailers; maintenance of inventories, and limitations on orders and sales (M–89):
Flood-damaged area relief (Direction 1) — 4238
List of controlled materials and amounts that may be purchased on orders (Schedule I) — 4341
Quarterly W–5 quotas; delivery of items listed in Schedule I, additional provisions respecting — 4341
Copper and copper-base alloy:
Brass mill products; distribution to distributors (M–82) — 4889
Construction materials, use as. *See* Construction.
Distribution to retailers. *See* Controlled materials, *above*.

NATIONAL PRODUCTION AUTHORITY—Continued Page

Priority orders—Continued
- Copper and copper-base alloy—Continued
  - Raw materials, distribution of, limitation on toll agreements covering scrap, and prohibitions on undue scrap accumulation (M–16) 5562
  - Use by electric utilities. *See* Electric utilities.
  - Use in consumer durable goods. *See* Metals.
  - Wire mill products, distribution of (M–86) 4891
- Cotton duck; rules for placing, accepting, and scheduling rated orders for (M–53), revocation 4851
- Cotton sales yarn, carded; rules for placing, accepting and scheduling rated orders for (M–23), revocation 4563
- Cryolite; limitations on purchases and inventories (M–99):
  - Complete allocation in May 1952, contemplated amendments to subject croylite to; deletion 3383
  - Records and reports:
    - Certain persons to file Form NPAF–189 by April 30, 1952 3383
    - Submission of 3383
  - Restrictions on purchase and acceptances of deliveries; welding rods, welding fixtures and lamp filaments added to list 3383
- Diamond grinding wheels, restrictions on users and manufacturers of (M–103), restrictions on producers; measurement of wheel depth 5300
- Electric utilities; procurement and use of materials by (M–50) 3407
- Aluminum (Appendix A); third quarter quotas and advance allotments for future quarters 3410
- Copper (Appendix B); third quarter quotas and advance allotments for future quarters 3410
- Steel, carbon, alloy, and stainless (Appendix C, D, E); third quarter quotas and advance allotments for future quarters 3410
- Electronic components—sequence of deliveries for small orders (Regulation 2, Direction 4) 3853
- Feathers, waterfowl:
  - Ratings for certain waterfowl feathers, restrictions upon use of (Regulation 2, Direction 3) 4342, 5395
  - Restrictions on sale, use and processing (M–56); revocation 4342
- Flood-damaged area relief. *See* Controlled materials; *and* Iron and steel.
- Forest products; designation as scarce materials 5138, 5140
- Gas industries. *See* Petroleum and gas industries.
- Interpretations to regulations and orders; procedure. *See* Interpretations, *above.*
- Iron and steel:
  - Alloying materials and alloy products, requirements for melters and processors of, and authorization of melting or processing schedules (M–80):
    - Cobalt (Schedule 2) 4238
    - Columbium and tantalum (Schedule 5) 4118
    - Definitions of alloying materials (List I); cobalt 4238
  - Consumer durable goods; use of iron and steel in. *See* Metals.
  - Controlled Materials Plan respecting deliveries and shipments of steel. *See* Priorities system operation, *above.*
  - Distribution of steel to retailers. *See* Controlled materials, *above.*
  - Distributors; requirements regarding shipments, and identification and acceptance of purchase orders (M–6A):
    - Flood-damaged area relief (Direction 2) 4237
    - Definitions; "disaster area" 5068
    - Purchase orders bearing certain allotment symbols, treatment of (Direction 1) 5462
  - Producers; maintenance, repair, operating supplies, capital additions and replacements for iron and steel producers (M–105) 4943
  - Requirements concerning production, authorization for production and certain reports, and provisions respecting orders and deliveries (M–1), production of light-gage plate on wide plate mills (Direction 5) 2929
  - Scarce materials, designation as 5138

NATIONAL PRODUCTION AUTHORITY—Continued Page

Priority orders—Continued
- Iron and steel—Continued
  - Shipping drums, steel. *See* Containers and closures.
  - Steel distributors; requirements regarding shipments, and identification and acceptance of purchase orders (M–6A), nickel-bearing stainless steel (Schedule 3) 3649
  - Use of steel by electric utilities. *See* Electric utilities.
- Laboratories, technical and scientific; priorities assistance in procurement of supplies and materials (M–71) 5559
- Lead:
  - Allocation of supply and limitations on required acceptance of rated orders (M–76); revocation 4537
  - Limitations on inventories (M–38); revocation 4537
- Leather and tanning materials:
  - Designation as scarce materials 5138, 5140
  - Rules for placing, accepting and scheduling rated orders for leather (M–48), revocation 4851
- Machine tools, idle government-owned; central inventory record and allocation of 4926
- Machines and machinery:
  - Lease of machinery or equipment, use of DO rating for (Regulation 2, Int. 3) 5300
  - Metalworking machines:
    - Delivery of (M–41) 3492
    - Finishes for; limitations on preparation for painting and application of paint on new machines (M–104) 3161
- Maintenance, repair, and operating supplies:
  - Priority orders for specific industries (marine maintenance, mining industries, petroleum and gas, etc.). *See specific industries.*
  - Regulations respecting. *See under* Priorities system operation, *above.*
- Marine maintenance, repair, operating supplies, and minor capital additions (M–70) 2844
- Metals and minerals, certain, designation as scarce materials 5139, 5140
- Metals (iron, steel, copper and aluminum), use of, in certain consumer durable goods; to provide for flexibility in production and to prohibit use of copper and aluminum for certain ornamental and decorative purposes (M–47B) 3382
- Furniture, fixtures, domestic appliances, lamps, fans, lawnmowers, tinware, cutlery, silverware, fabricated products, musical instruments, jewelry, smokers' articles, etc. (Schedule 1); revised 3383
- New products, exclusion of, from flexibility provision (Direction 1) 3795
- Minerals. *See* Metals and minerals.
- Mining industries; priorities for obtaining MRO material for maintenance, repair and operating supplies and capital additions (M–78) 5302
- Naphthenic acid. *See* Chemicals.
- Paper and paperboard, certain; ratings for; restrictions upon use of (Regulation 2, Direction 3) 4342, 5395
- Petroleum and gas industries:
  - Foreign petroleum operations, priorities assistance for obtaining material for construction operations, maintenance, repair, operating supplies, and laboratory equipment (M–46A) 4419
  - Schedule I; MSA countries, list of 4421
  - Schedule II; controlled materials, list of 4421
  - United States and Canada, petroleum operations in; priorities for obtaining MRO material for maintenance and repair purposes, as operating supplies, or laboratory equipment (M–46):
    - Assistance for small producers (Direction 2) 2844
    - Filing date for applications for fourth quarter 1952 requirements of line pipe (Direction 3) 4563
- Production equipment, idle government owned; central inventory record and allocation of 4926
- Rail transportation systems; priorities for obtaining MRO supplies for maintenance and repair purposes, as operating supplies and minor capital additions (M–73) 3410

NATIONAL PRODUCTION AUTHORITY—Continued Page

Priority orders—Continued
- Rayon, high-tenacity, for rubber products. *See* Rubber.
- Resorcinol. *See* Chemicals.
- Rubber:
  - Restrictions applicable to cold GR–S, natural crepe rubber and high-tenacity rayon, and prohibition against private importation of natural rubber (M–2) 3548
  - Cold GR–S, limitation on purchase of 5224
  - Definitions; "pale crepe" 5224
  - Dry natural rubber, private importation of prohibited 5433
  - High-tenacity rayon for rubber products, limitation on; permitted percentage increased to 130 5225
  - Sole crepe cuttings, use of (Int. 2) 5559
- Scarce materials, designation as 5139, 5140
- Scarce materials, designation of building materials, chemicals, forest products, leather and tanning materials, iron and steel, metals and minerals, rubber materials, textile materials, etc., as, and withdrawal of certain previous designations (DSM 1) 5137
- Sebacic acid. *See* Chemicals.
- Shipping drums, steel. *See* Containers and closures.
- Steel. *See* Iron and steel.
- Tanning materials. *See* Leather and tanning materials.
- Tantalum and columbium; alloying materials. *See* Iron and steel.
- Television, color; manufacture of equipment and items designed to receive color television permitted for certain uses (M–90) 5724
- Textiles:
  - *See also* Cotton duck; *and* Twine.
  - Scarce materials, designation as 5139, 5140
- Thiokol. *See* Chemicals.
- Tin:
  - *See also* Tin plate, terneplate.
  - Collapsible tubes made in part or in whole of tin. *See* Tubes.
  - Use in civilian economy (M–8) 3155
  - List of items or processes in which use of tin in any form is restricted (List A) 3158
  - Schedules of permitted uses of pig tin or permissible tin content in various items or processes:
    - Babbitt (Schedule III) 3159
    - Brass and bronze (Schedule I) 3158
    - Foil (Schedule V) 3160
    - Miscellaneous items; tin pipe, tubes, dental alloys, pipe organs, printing plates bismuth alloys, etc. (Schedule VII) 3160
    - Plating and coating (Schedule IV) 3159
    - Solders (Schedule II) 3158
    - Tin chemicals and tin oxide (Schedule VI) 3160
- Tin plate, terneplate, and black plate:
  - Use in cans. *See* Cans.
  - Use in packaging closures. *See* Containers and closures.
- Transportation systems, rail. *See* Rail transportation systems.
- Tubes, collapsible; restrictions on use of tin (M–27) 3406
- Twine, binder and baler; limitations on inventories (M–58) revocation 4563
- Waterfowl feathers. *See* Feathers.
- Wells, water; Controlled Materials Plan for obtaining materials. *See* Priorities system operations, *above.*
- Wheels, diamond grinding. *See* Diamond grinding wheels.
- Wire mill products, copper. *See* Copper and copper-base alloy.
- Wood pulp, chemical; limitations on inventories and consumption (M–72), revocation 3104
- Wreckers, automobile. *See* Automobile wreckers.
- Yarn, cotton. *See* Cotton sales yarn.
- Zinc; limitations on inventories of slab zinc, and required reports in connection with use, shipment, reception, or possession of slab zinc (M–9) 4536
  - Revocation 5829

NATIONAL PRODUCTION AUTHORITY—Continued Page

- Scarce materials, designation of building materials, chemicals, forest products, leather and tanning materials, iron and steel, metals and minerals, rubber materials, textile materials, etc., as, and withdrawal of certain previous designations (DSM 1) 5137
- Suspension orders, issuance of, to various firms, after hearings on noncompliance with regulations and orders. *See* Hearings.

NATIONAL SECURITY RESOURCES BOARD:
- Air Coordinating Committee, representation on, by non-voting member (Executive Order 10360) 5337
- Civil-defense emergency, planning for continuity of essential functions in event of, establishment of standards and policies by Board in connection with (Executive Order 10346) 3477
- Committees, representation on:
  - Air Coordinating Committee, representation on, by nonvoting member (Executive Order 10360) 5337
  - Production Policy Committee, Office of Defense Mobilization 4561
  - Defense Procurement Policy Committee, designation as subcommittee 4561
  - Stabilization Policy Committee, Office of Defense Mobilization 4926
- Loans under section 302 of Defense Production Act of 1950; revocation 5664

NATIONAL SECURITY TRAINING COMMISSION, civil service rules; certain positions exempted from competitive service. *See* Civil Service Commission.

NATIONAL SHIPPING AUTHORITY:
- Agents and general agents:
  - Activities, maintenance, and business of ships assigned to agents under service agreements with NSA, applicability of regulations, orders, and instructions of former Maritime Commission and War Shipping Administration and allowability of expenses 3060
  - Decommissioning of ships to be placed in reserve fleet; authority and responsibilities of general agents with respect to 3553, 3682
  - Of local MA office 4707
  - Voyage data, of dry-cargo vessels operated for account of NSA; instructions for recording of, by general agents 3830
- Contracts for ship repairs. *See* Repairs of vessels.
- Decommissioning of ships to be placed in reserve fleet; authority and responsibilities of general agents with respect to 3553, 3682
  - Of local MA office 4707
- Dry-cargo vessels, operation of; instructions for recording voyage data by general agents 3830
- Insurance, marine protection and indemnity, instructions under general agency and berth agency agreements; revision 3883
- Repairs of vessels:
  - Contracts, LUMPSUMREP, vessel repairs under 2934
  - Vessel repairs under NSA master lump sum repair contract (NSA LUMPSUMREP), procedure for accomplishment; miscellaneous amendments 2934
  - Service agreements with NSA; applicability of regulations, orders, and instructions of former Maritime Commission and War Shipping Administration and allowability of expenses under service agreements 3060
  - Voyage data of dry-cargo vessels operated for account of NSA, instructions for recording of, by general agents; idle status period, addition with respect to "deactivation" 3830
- Withdrawal, of ships, from operation; authority and responsibilities of general agents to decommission ships to be withdrawn and placed in reserve fleet 3553, 3682

NAVAL AIRSPACE RESERVATIONS. *See* Naval defensive sea areas and airspace reservations.

NAVAL DEFENSE SEA AREAS AND AIRSPACE RESERVATIONS:
- Alaska, Whittier Defensive Sea Area; establishment (Executive Order 10361) 5357
- Discontinuance; Rose and Tutuila Islands (Executive Order 10341) 3143

20000—52——12

NAVIGATION LAWS AND REGULATIONS: Page
Airways. *See* Civil Aeronautics Administration; *and* Civil Aeronautics Board.

Coal, coke, etc.:
Briquets, petroleum coke briquets, and packaged fuel, produced at certain plants; increases in ceiling prices (SR 78), authority to further increase ceiling prices 4986
Coke, coal chemicals and coke oven gas (SR 13) 5346
Elimination of expiration date 4937
Retail dealers, authority to increase ceiling prices (SR 2):
Adjusted prices in Milwaukee County, Wisconsin 3646
Increased transportation cost 4562
Concrete, ready-mixed; adjusted ceiling prices for manufacturers (SR 108) 5769
Containers, glass, certain; adjusted ceiling prices for manufacturers (SR 99) 3603
Catsup and chili sauce bottles for bottling season 4939
Corn milling industry (wet), sales by producers and distributors of feed by-products of (SR 86); producers' prices for sales in bulk, deletion of standard protein content for corn oil cake, flakes and meal 3234
Dinnerware, semi-vitreous, manufacturers' ceiling prices for (SR 109) 5826
Feeds, manufactured; prices for processors (SR 7), mixed feed manufacturers, increased costs due to toll crushing, absorption of Int. 2) 3882
Food, agricultural and related commodities (SR 3):
Raw cocoa beans, brokers' commissions for sales of (Int. 3) 4235
Soybean meal and other soybean products, adjustment of ceiling prices for 3647
Foods; canned baby and junior foods, adjustment for processors of (SR 107) 5555
Freight rates:
Increased freight rates for certain building and construction materials, permissible adjustments in ceiling prices because of (SR 106) 5612
Rail; increases for grain, grain products, byproducts, and articles taking same rail freight rate (SR 73) 5554
Ice; adjustment of ceiling prices (SR 45), authority of Regional, District, and Territorial Directors. *See* Authority, delegations of.
Iron and steel products; adjustments under section 402 (d) (4) of Defense Production Act (SR 100) 3786
Lead and zinc products:
See also Paints and pastes containing lead and zinc.
Adjustments in ceiling prices of certain products and the service of galvanizing (SR 76), increased prices for sales of galvanized products 3154
Logs, sawmill, produced in Alaska; suspension (SR 55), extension of effective date 2923
Milk, fluid, cream and milk products:
Area milk price adjustments (SR 63):
California:
Fresno District (AMPR 15) 2842, 4290
Los Angeles County marketing area (AMPR 10) 2843
San Francisco District (AMPR 12) 3848
Connecticut; Fairfield County milk marketing area (AMPR 25) 4937
Delaware. *See* Pennsylvania.
Illinois; Chicago milk marketing area (AMPR 5) 3059, 5062

VOLUME 17 NUMBER 108

Washington, Tuesday, June 3, 1952

TITLE 3—THE PRESIDENT

PROCLAMATION 2977

FLAG DAY, 1952

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS June 14, 1952, marks the 175th anniversary of the adoption of the flag of the United States by the Continental Congress; and

WHEREAS people of many national origins and religious beliefs have found refuge from oppression and an opportunity for a better life under this beloved standard; and

WHEREAS this flag is not only a symbol of freedom cherished by all Americans, but also an emblem of hope to millions of people dominated by ruthless dictatorships or living under oppressive economic conditions; and

WHEREAS the Congress, by a joint resolution approved August 3, 1949 (63 Stat. 492), has designated June 14 of each year as Flag Day, in commemoration of the adoption of the Stars and Stripes on June 14, 1777, as our national flag:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby direct that the flag be displayed on all Government buildings on Saturday, June 14, 1952, and I call upon the people of the Nation to observe that day by suitable ceremonies, including the display of the flag at their homes and other appropriate places.

I also urge all our citizens to give special thought on Flag Day not only to their many rights and privileges but also to their duties and responsibilities under our national ensign, to the end that we may rededicate ourselves on that day to the principles of freedom and justice for which this Nation and its flag have always stood.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 28th day of May in the year of our Lord nineteen hundred and fifty-two, and of the Independence of the United States of America the one hundred and seventy-sixth.

[SEAL]

HARRY S. TRUMAN

By the President:

DAVID BRUCE,
Acting Secretary of State.

[F. R. Doc. 52-6129; Filed, May 29, 1952; 5:08 p. m.]

EXECUTIVE ORDER 10356

CONTINUING THE COMMISSIONED CORPS OF THE PUBLIC HEALTH SERVICE AS A MILITARY SERVICE

By virtue of the authority vested in me by section 216 of the Public Health Service Act (58 Stat. 690), as continued by the Emergency Powers Interim Continuation Act (Public Law 313, 82d Congress) as amended by joint resolution approved May 28, 1952, and as President of the United States and Commander in Chief of the land and naval forces of the United States, I hereby amend Executive Order No. 10349 of April 26, 1952, entitled "Declaring the Commissioned Corps of the Public Health Service To Be a Military Service and Prescribing Regulations therefor", by striking out "June 1, 1952" appearing in the introductory paragraph of the order and inserting in lieu thereof "June 15, 1952".

HARRY S. TRUMAN

THE WHITE HOUSE,
May 29, 1952.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

PART 2—APPOINTMENT THROUGH THE COMPETITIVE SYSTEM

PART 21—APPOINTMENT TO POSITIONS EXCEPTED FROM THE COMPETITIVE SYSTEM

MISCELLANEOUS AMENDMENTS

1. Section 2.104 (a) (7) is amended to read as follows:

§ 2.104 *Disqualifications of applicants.*—(a) An applicant may be denied examination and an eligible may be denied appointment for any of the following reasons: • • •

(7) Reasonable doubt as to the loyalty of the person involved to the Government of the United States.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633. E. O. 9830, Feb. 24, 1947, 12 F. R. 1259; 3 CFR, 1947 Supp.)

2. Section 21.4 (b) is amended to read as follows:

§ 21.4 *Qualifications of applicants.* • • •

(b) *Disqualifications.* In the standards established by the agency or the appropriate office of the agency, it may be provided that certain factors will disqualify applicants for employment. These may include, among others, the following: (1) Dismissal from the service for delinquency or misconduct; (2) criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct; (3) intentional false statements as to any material fact, or deception or fraud in connection with an application; (4) habitual use of intoxicating beverages to excess; (5) reasonable doubt as to the loyalty of the person involved to the Government of the United States; (6) any legal disqualification for appointment; and (7) lack of United States citizenship.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 2]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.423 *Plum Order 2*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner provided in this section, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 4, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until May 22, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on May 22, 1952, after consideration of all available information relative

to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 4, 1952, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 4, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship from any shipping point during any day any package or container of Santa Rosa plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 5 x 5 standard pack in a standard basket if said quantity does not exceed fifty (50) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 5 standard pack, as aforesaid. The aforesaid 4 x 5 standard pack and 5 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{5}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 28th day of May 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-6030; Filed, June 2, 1952; 8:50 a. m.]

[Plum Order 3]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.424 *Plum Order 3*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner provided in this section, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 4, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until May 22, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on May 22, 1952, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 4, 1952, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 4, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship from any shipping point during any day any package or container of Formosa plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) Such plums are of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket. The aforesaid 4 x 5 standard pack is defined more specifically in subparagraph (2) of this paragraph.

(2) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measures less than $1^{7}/_{16}$ inches in diameter.

(3) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m., of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting, or causing to be submitted, promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection; but such shipper shall comply with all grade and size regulations applicable to such shipment.

(4) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh), 7 CFR 51.360; and the terms "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 28th day of May 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Plum Order 4]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.425 *Plum Order 4*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner provided in this section, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than June 4, 1952. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until May 22, 1952; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on May 22, 1952, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 4, 1952, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 4, 1952, and ending at 12:01 a. m., P. s. t., November 1, 1952, no shipper shall ship from any shipping point during any day any package or container of Climax plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerance permitted for such grade; and

(ii) Such plums are of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket. The aforesaid 4 x 5 standard pack is defined more specifically in subparagraph (2) of this paragraph.

(2) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measures less than $1^{7}/_{16}$ inches in diameter.

(3) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m., of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting, or causing to be submitted, promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection; but such shipper shall comply with all grade and size regulations applicable to such shipment.

(4) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

PART 983—TYPE 62 SHADE-GROWN CIGAR-LEAF TOBACCO GROWN IN DESIGNATED PRODUCTION AREA OF FLORIDA AND GEORGIA

ORDER REGULATING HANDLING

It is hereby ordered that on and after the effective time hereof the handling of Type 62 Shade-grown Cigar-leaf tobacco grown in the designated area of Florida

and Georgia shall be in conformity to, and in compliance with, the terms and conditions of the "Order Regulating the Handling of Type 62 Shade-Grown Cigar-leaf Tobacco Grown in Designated Production Area of Florida and Georgia" which was annexed to, and made a part of, the decision of the Secretary of Agriculture issued on April 17, 1952 (F. R. Doc. 52-4485; 17 F. R. 3500). All of the findings, determinations, terms, and conditions of the aforementioned order shall be, and hereby are, the findings, determinations, terms, and conditions of this order as if set forth in full herein.

Sec.

983.0 Findings and determinations.

983.70 Termination.
983.71 Proceedings after termination.
983.72 Effect of termination or amendment.

AUTHORITY: §§ 983.0 to 983.72, issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 983.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and the rules of practice and procedure, as amended, effective thereunder (7 CFR Part 900), a public hearing was held at Quincy, Florida, beginning on February 12, 1952, upon a proposed marketing agreement and a proposed marketing order regulating the handling of Type 62 shade-grown cigar-leaf tobacco grown in the designated production area of Florida and Georgia. Upon the basis of evidence introduced at such hearing, and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order regulates the handling of Type 62 shade-grown cigar-leaf tobacco grown in the designated production area of Florida and Georgia in the same manner as, and is applicable only to persons in the representative classes of industrial and commercial activity specified in, a proposed marketing agreement upon which a hearing has been held;

(3) The said order is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to any subdivision of said production area specified herein would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of Type 62 shade-grown cigar-leaf tobacco covered hereby that require the prescription of different terms applicable to different parts of the production area; and

(5) The handling, as defined herein, of Type 62 shade-grown cigar-leaf tobacco grown in the aforesaid States is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* It is hereby found and determined, on the basis hereinafter indicated, that good cause exists for making the provisions of this order effective not later than the date of publication in the FEDERAL REGISTER; and that it would be contrary to the public interest to postpone such effective date until 30 days after such publication (60 Stat. 237; 5 U. S. C. 1001 et seq.). As soon as practicable after such effective date, it will be necessary for the Control Committee and the Secretary to initiate and complete various actions of both organizational and regulatory natures; and considerable time will be required in this regard. Further, the supervision of regulation pursuant to the provisions of this order will require early actions by the Control Committee and by the Secretary, and the time during which such actions will be concluded should be such that handlers will be able reasonably and adequately to prepare for such regulation. It is necessary that such regulation be in effect not later than the beginning of the handling season, which normally begins in June, so as to facilitate, promote, and maintain orderly marketing conditions with respect to Type 62 tobacco covered hereunder, and thereby permit the benefits of this regulatory program to be available to producers and handlers as soon as practicable. It is also desirable that such regulatory program be in effect at the time herein indicated so as to provide the maximum period of time during which growers and handlers may prepare for operations accordingly with respect to tobacco leaves primed from untopped plants or topped plants. Also, handlers would not, as a general rule, handle more than the first three primings of Type 62 tobacco prior to the latter part of June. The provisions of the order are well known to the handlers of Type 62 tobacco, since the public hearing in connection with the entire order was concluded February 13, 1952, and the recommended decision and final decision were published in the FEDERAL REGISTER on March 29, 1952 (17 F. R. 2779), and April 19, 1952 (17 F. R. 3500), respectively. All known interested parties have received copies of the regulatory provisions, and compliance with such provisions will not require advance preparation on the part of handlers which cannot be completed prior to the effective date of regulation pursuant hereto.

(c) *Determinations.* It is hereby determined that:

(1) A marketing agreement regulating the handling of Type 62 tobacco grown in the designated production area of Florida and Georgia, upon which the aforesaid public hearing was held, has been executed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping Type 62 tobacco covered by this order) who during the period February 1, 1951, through January 1952, handled not less than 50 percent of the volume of Type 62 tobacco covered by this order;

(2) The issuance of this order is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (February 1, 1951, through January 1952), were engaged, within the designated production area of Florida and Georgia, in the production for market of Type 62 tobacco; and

(3) The issuance of this order is favored or approved by producers who participated in a referendum on the question of its approval and who, during the aforesaid representative period, produced for market at least two-thirds of the volume of Type 62 tobacco represented in such referendum and produced within the designated production area of Florida and Georgia for market.

Order relative to handling. It is therefore, ordered that, on and after the effective date hereof, the handling of Type 62 shade-grown cigar-leaf tobacco grown in the designated production area of Florida and Georgia shall be in conformity to, and in compliance with, the terms and conditions of said order; and the terms and conditions of said order are as follows:

DEFINITIONS

§ 983.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, and any other officer or employee of the United States Department of Agriculture who is, or may hereafter be, authorized to act in his stead.

§ 983.2 *Act.* "Act" means Public Act Number 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

§ 983.3 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 983.4 *Tobacco.* "Tobacco" means all Type 62 shade-grown cigar-leaf tobacco, as classified in Service and Regulatory Announcement No. 118 (7 CFR Part 30), that is grown in the production area and harvested after the effective date of this part.

§ 983.5 *Production area.* "Production area" means those counties bordering the Georgia-Florida State line and lying between the Suwanee River on the east and the Flint and Apalachicola Rivers on the west.

§ 983.6 *Grower; producer.* "Grower" or "producer" means any person who is engaged, in a proprietary capacity, in the commercial production of tobacco.

§ 983.7 *Handler; packer.* "Handler" or "packer" means the first person, including any grower, who handles tobacco on his own behalf or on behalf of others after harvest and farm curing (initial drying from the green state).

§ 983.8 *Handle; pack.* "Handle" or "pack" means to receive, bulk, sweat, sort, select, bale, or otherwise prepare tobacco for market, or to market tobacco.

§ 983.9 *Top.* "Top" means to remove the terminal bud and three stalk leaves from any tobacco plant by severing the stalk below the seed head prior to the time the third priming is made.

§ 983.10 *Prime.* "Prime" means to pick tobacco leaves as they ripen, beginning at the bottom of the tobacco stalk and removing a few leaves at a time.

§ 983.11 *Field.* "Field" means a field of tobacco within the confines of a single shade covering.

§ 983.12 *Fiscal period.* "Fiscal period" means the 12-month period beginning on February 1 and ending on January 31 of the following year, both dates inclusive: *Provided*, That the first fiscal period shall begin on the effective date of this part.

§ 983.13 *Control Committee; Committee.* "Control Committee" or "Committee" means the Control Committee established pursuant to § 983.20.

CONTROL COMMITTEE

§ 983.20 *Establishment and membership*—(a) *Establishment.* A Control Committee consisting of 11 members is hereby established to administer the terms and provisions of this part. For each member of the Committee there shall be an alternate member who shall have the same qualifications as the member; and, unless otherwise specified, all provisions of this part applicable to a member shall be applicable to his alternate.

(b) *Membership representation*—(1) *Growers who are not handlers.* Five members shall be growers who are not handlers; and of such members at least: One shall be a grower in, and resident of, Gadsden County, Florida; one shall be a grower in, and resident of, Madison County, Florida; one shall be a grower in, and resident of Decatur County, Georgia; and one shall be a grower in, and resident of, Grady County, Georgia. Any such member may be an officer, employee or agent of the respective grower.

(2) *Growers who are also handlers.* Four members shall be growers who are also handlers. Any such member may be an officer, employee or agent of the respective grower.

(3) *Handlers who are not growers.* Two members shall be handlers who are not growers. Any such member may be an officer, employee or agent of the respective handler.

§ 983.21 *Term of office*—(a) *Initial members.* The term of office of each initial member of the Committee shall be the first fiscal period.

(b) *Successor members.* The term of office of each successor member shall be two consecutive fiscal periods.

(c) *General.* In the event a successor to any such member has not been selected and has not qualified by the end of the term of office of the respective member, such member shall continue to serve until his successor is selected and has qualified. Each member shall commence to serve on the date on which he qualifies.

§ 983.22 *Selection of members.* The Secretary shall select the various members of the Control Committee, and their respective alternates, on the basis and in the manner prescribed in §§ 983.20 and 983.23. However, with respect to the selection of the initial members of the Committee, the Secretary may make such selection without regard to any nominations.

§ 983.23 *Nominations*—(a) *Initial members.* For the consideration of the Secretary in making the selection of initial members of the Committee, nominations for eligible members may be submitted to him not later than the effective date of this part. Nominations for the grower members who are not handlers may be submitted by growers who are not handlers, or by groups, including associations, of such growers. Such nominations may be by virtue of elections conducted by groups of such growers. Nominations for the grower members who are also handlers may be submitted by growers who are also handlers, or by groups, including associations, of such growers. Such nominations may be by virtue of elections conducted by groups of such growers. Nominations for the handler members who are not growers may be submitted by handlers or by groups, including associations, of such handlers. Such nominations may be by virtue of elections conducted by groups of such handlers.

(b) *Successor members.* In order to provide nominations for successor members:

(1) The Control Committee shall hold, or cause to be held, prior to November 15 of each year, in which successor members are to be selected by the Secretary, a meeting of growers who are not handlers for the purpose of designating nominees from among whom the Secretary may select grower members who are not handlers.

(2) The Control Committee shall hold, or cause to be held, prior to November 15 of each year, in which successor members are to be selected by the Secretary, a meeting of growers who are also handlers for the purpose of designating nominees from among whom the Secretary may select grower members who are also handlers.

(3) The Control Committee shall hold, or cause to be held, prior to November 15 of each year, in which successor members are to be selected by the Secretary, a meeting of handlers who are not growers for the purpose of designating nominees from among whom the Secretary may select handler members who are not growers.

(4) The Control Committee shall give adequate notice of each such meeting to all growers and handlers who may be eligible to participate in the respective nominations.

(5) The Secretary may prescribe additional rules and regulations not inconsistent with the provisions of this part, relative to the election of nominees for members on the Committee. Such action may be pursuant to recommendations of the Committee.

(6) At each such meeting held to nominate members on the Control Committee, those eligible to participate therein shall elect a chairman and secretary therefor. The chairman of each such meeting shall announce the name of each person for whom a vote has been cast, and the number of votes received by each shall be recorded in the minutes. Thereafter, the minutes of such meeting, including such information, shall be transmitted to the Secretary. In obtaining nominations, all persons eligible to participate therein shall be given a reasonable opportunity to vote.

(7) Only those eligible persons who are in attendance at any such meeting may participate in the designation of, and voting for, nominees. Each such person shall be entitled to cast but one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives for each member position for which he is eligible to participate in the designation and voting.

(8) Nominations for members shall be supplied to the Secretary not later than December 1 of the year in which the respective meeting was held, in such manner and form as the Secretary may prescribe.

§ 983.24 *Failure to nominate.* If nominations are not supplied to the Secretary within the time and in the manner and form specified by the Secretary pursuant to § 983.23 (b), the Secretary may, without regard to nominations, select the Committee members on the basis prescribed in § 983.20.

§ 983.25 *Qualification.* Each person selected by the Secretary as a member of the Committee shall, prior to serving on the Committee, qualify by filing a written acceptance with the Secretary within 15 days after being notified of such selection.

§ 983.26 *Alternate members.* An alternate for a member of the Committee shall, in the event of the member's absence, act in the place and stead of that member; and, in the event of the member's removal, resignation, disqualification, or death, such alternate shall act in the place and stead of such member until a successor for the unexpired term of said member is selected and has qualified.

§ 983.27 *Substitutes for members.* In the event the alternate who is authorized to act in the place and stead of a member is unable, or fails, to attend a meeting of the Committee, such member may designate any other alternate for a member of the same group as that represented by the absent member to act in his place and stead, and, pending such designation, the Secretary may designate such substitute.

§ 983.28 *Vacancies.* To fill any vacancy which occurs by reason of the failure of any person, selected as a member of the Control Committee, to file a written acceptance of appointment, or the death, removal, resignation, or disqualification of a member, a successor for his unexpired term of office shall be selected by the Secretary. Nominations may be submitted to the Secretary for his consideration in making such selection. The designation of nominees from among whom the Secretary may select a successor shall be in accordance with the provisions of this part applicable to the designation of nominees for successors to members of the Committee. In the event that such nominations are not submitted to the Secretary within 30 days after the beginning of the vacancy, the Secretary may select a successor without regard to such nomination.

§ 983.29 *Compensation.* Members of the Control Committee shall serve without compensation, but shall be reimbursed for reasonable expense necessarily incurred in the performance of their duties under this part.

§ 983.30 *Powers.* The Control Committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violations of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 983.31 *Duties.* The Control Committee shall have the following duties:

(a) To act as intermediary between the Secretary and any grower or handler;

(b) To select, from among its membership, a chairman and such other officers as may be necessary; to select subcommittees composed of committee members; and to adopt such rules and regulations for the conduct of its business as it deems advisable;

(c) To appoint such employees as it may deem necessary and to determine the salaries and define the duties of such employees;

(d) To keep such minutes, books, and other records as will clearly reflect all of its acts and transactions and which shall be subject to examination at any time by the Secretary;

(e) To furnish to the Secretary information as to all of its activities, including a copy of the minutes of each meeting, and such other information as the Secretary may request;

(f) To cause the books and other records of the Committee to be audited by one or more competent accountants at least once each fiscal period and at such other times as the Control Committee may deem necessary or as the Secretary may request, which report shall show the receipt and expenditure of funds collected pursuant to this part and a copy of each such report shall be furnished to the Secretary;

(g) To give to the Secretary the same notice of meetings of the Control Committee as is given to the members of the Committee; and

(h) With the approval of the Secretary, to issue such regulations as may be necessary and appropriate for the carrying out of the provisions of this part.

§ 983.32 *Procedure.* (a) The Control Committee may, upon the selection and qualification of nine of its members, organize and commence to function. It may hold meetings only after due notice to its members. The Secretary may designate the time and place of the initial meeting of the Committee.

(b) A quorum shall consist of nine members, including alternate members and substitutes then serving in the place and stead of any members, in attendance at the meeting; and all decisions of the Committee shall require not less than seven concurring votes of the members who are present at such meeting.

(c) The Committee may permit voting by mail or telegraph upon due notice to all members: *Provided,* That this method of voting shall not be used at an assembled meeting to obtain votes from absent members: *Provided further,* That when any proposition is submitted for polling by such method, one dissenting vote shall prevent its adoption.

EXPENSES AND ASSESSMENTS

§ 983.40 *Use of funds collected.* All funds received by the Committee, pursuant to this part shall be used only for the purposes authorized in this part.

§ 983.41 *Budget and expenses.* The Control Committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during the then current fiscal period for its maintenance and functioning. The Committee shall, not later than 30 days after the beginning of each fiscal period, prepare and submit to the Secretary a budget of its proposed expenses for such fiscal period and a proposed rate of assessment, together with a report thereon. The funds to cover such expenses shall be acquired by levying assessments upon handlers as provided in this part.

§ 983.42 *Assessments.* (a) Each handler who first handles tobacco shall, with respect to such tobacco, pay to the Committee, upon demand, such handler's pro rata share of the expenses which the Secretary finds will be incurred, as aforesaid, by the Committee during the then current fiscal period. Each such handler's pro rata share of such expenses shall be equal to the ratio between the total quantity of tobacco handled by him as the first handler thereof during the applicable fiscal period and the total quantity of tobacco handled by all handlers as the first handlers thereof during the same fiscal period.

(b) In order to provide funds to carry out the functions of the Committee, handlers may make advance payments of assessments.

§ 983.43 *Rate of assessment.* (a) The Secretary shall fix the rate of assessment to be paid by such handlers; and such rate shall be fixed after consideration of the Committee's recommendations and other available information applicable thereto.

(b) The Secretary may increase the rate of assessment at any time during a fiscal period in order to secure sufficient funds to cover any later finding of the Secretary relative to the expenses of the Committee.

§ 983.44 *Refunds.* If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal period, unless he demands payment thereof, in which event such proportionate refund shall be paid to him.

§ 983.45 *Accountability of Committee members for funds and property.* The Secretary may, at any time, require the Committee, its members, employees, agents, and all other persons to account for all receipts and disbursements for which they are responsible. Whenever any person ceases to be a member of the Control Committee, he shall account to his successor, to the Committee, or to such person as the Secretary may designate for all receipts, disbursements, funds, books and records, and other property (in his possession or under his control) pertaining to the activities of the Committee for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, the Committee, or person designated by the Secretary the right to all of such funds and property and all claims vested in such person.

§ 983.46 *Legal action for collection of assessments.* The Control Committee may, with the approval of the Secretary, maintain in its own name, or in the name of its members, legal action against any handler for the collection of such handler's pro rata share of the aforesaid expenses.

REGULATION

§ 983.50 *Marketing policy and report.* (a) At the beginning of each fiscal period the Committee shall consider, prepare, and submit to the Secretary, a proposed policy, including a report thereon, for the handling of tobacco during such period.

(b) In developing its marketing policy, the Committee shall investigate relevant supply and demand conditions for tobacco. In such investigation, the Committee shall give appropriate consideration to the following:

(1) Estimated supply of and demand for tobacco (after considering carryover, production, disappearance, and like factors);

(2) Market price of tobacco by grade and quality at the grower-level and the handler-level;

(3) The trend and level of consumer income; and

(4) Other relevant factors.

(c) In the event it becomes advisable to deviate from such marketing policy, because of changed supply and demand conditions, the Control Committee shall formulate a new or revised marketing policy in the manner heretofore indicated and shall submit such marketing policy, including a report thereon, to the Secretary.

(d) The Control Committee shall notify all growers and handlers of the contents of each such report. The Committee may also publish such report in newspapers, selected by the Committee, of general circulation in each county in which Type 62 shade-grown cigar-leaf tobacco is produced.

§ 983.51 *Recommendation for regulation.* (a) Whenever the Committee deems it advisable to limit, during any specified period or periods, the handling of tobacco pursuant to this part it shall recommend to the Secretary the quantity of tobacco leaves, and the grade or quality of the leaves, or either thereof deemed by it advisable to be handled. Such recommendation may be on the basis of the number of stalk leaves and their location on the tobacco plant, and may contain different limitations with regard to leaves that were primed from tobacco plants that had been topped and leaves that were primed from plants that had not been topped. In making such recommendation, the Committee shall give consideration to the factors referred to in § 983.50. The Committee shall submit such recommendation to the Secretary, together with the information on the basis of which it made its recommendation.

(b) The Committee may recommend the modification, suspension, or termination of any regulation pursuant to this part whenever it finds that to do so will tend to effectuate the declared policy of the act. The Committee shall submit such recommendation to the Secretary, together with the information on the basis of which it made its recommendation.

(c) The Committee is not authorized to make any recommendation for any regulation that may limit or prohibit the handling of more than (1) the seven top stalk leaves immediately below the seed head of a tobacco plant that was not topped, or (2) the four top stalk leaves of a tobacco plant that was topped.

§ 983.52 *Issuance of regulation.* (a) Whenever the Secretary finds from the recommendation and information submitted by the Committee, or from other available information, that to limit the quantity of tobacco leaves, and the grade or quality of the leaves, or either thereof, that may be handled would tend to effectuate the declared policy of the act, he shall so limit the handling of tobacco during a specified period or periods. Each such regulation shall specify the quantity of tobacco leaves, and the grade or quality of the leaves, or either thereof, that may be handled and may be in relation to the number of stalk leaves and their location on the tobacco plant.

(b) The Secretary may modify, suspend, or terminate any regulation pursuant hereto whenever he finds, from the recommendation and information submitted by the Committee, or from other available information, that to do so will tend to effectuate the declared policy of the act.

(c) The Secretary may not issue any regulation that limits or prohibits the handling of more than (1) the seven top stalk leaves immediately below the seed-head of a tobacco plant that was not topped, or (2) the four top stalk leaves of a tobacco plant that was topped.

(d) The Secretary shall notify the Control Committee of each such regulation, modification, suspension, and termination; and the Committee shall give reasonable notice thereof to growers and handlers.

§ 983.53 *Initial regulations.* Beginning at the effective time of this part and continuing until suspended, modified, or terminated pursuant to this part, no handler shall handle (a) any of the seven top stalk leaves immediately below the seed head of any tobacco plant that was not topped or (b) any of the four top stalk leaves of a tobacco plant that was topped.

§ 983.54 *Limitations on handling.* (a) During any period or periods in which any regulation is effective pursuant to this part, no handler shall handle any leaves, of any tobacco plant, that are not stalk leaves or any tobacco the handling of which has been prohibited by the Secretary in accordance with the provisions of this part. Except to the extent otherwise permitted, no handler shall handle tobacco except in conformity with the provisions of this part.

(b) No person, whether as principal, agent, broker, legal representative, or otherwise, shall, unless specifically authorized in writing by the Control Committee, handle more than the first three primings of tobacco grown in any field of any producer unless prior to such handling the Control Committee had issued a "handling certificate" with respect to such tobacco.

§ 983.55 *Issuance of handling certificates.* (a) Each grower shall, with respect to the tobacco of each of his fields, be entitled, upon application to the Control Committee, or its representative, in such manner and form as it may with the approval of the Secretary require, to a certification of the Committee of such tobacco of the grower as may be eligible for handling. Each such certificate shall state the name of the grower and the name of the handler, and identify the field in which the certificated tobacco was grown. Notwithstanding any other provision of this part unless otherwise provided in this part, no such certificate shall be issued with respect to any tobacco the handling of which is prohibited pursuant to this part.

(b) Any grower who is dissatisfied with any determination by the Control Committee, on his application for the issuance of a handling certificate, may file a protest with the Committee: *Provided,* That such protest is in writing and filed promptly. The grower may submit, with the protest, such evidence and supporting data and information as he deems appropriate to substantiate his protest and enable the Committee to reconsider the matter. Any such grower who is dissatisfied with the decision of the Control Committee in regard to his protest may appeal in writing to the Secretary. The Secretary may, upon an appeal made as aforesaid, modify or reverse the action of the Committee from which the appeal was taken. The authority of the Secretary to supervise and control the issuance of handling certificates is unlimited and plenary; and any decision by the Secretary with respect to any handling certificate shall be final and conclusive.

§ 983.56 *Identification of tobacco handled.* The Committee may, with the approval of the Secretary, adopt requirements of identification by handlers of tobacco handled by them during such periods of time as the Committee deems necessary.

§ 983.57 *Exemption certificates.* (a) The Committee shall, subject to the approval of the Secretary, adopt the procedural rules to govern the issuance of exemption certificates.

(b) The Control Committee may issue certificates of exemption to any grower who applies for such exemption and furnishes proof, satisfactory to the Committee, that by reason of Acts of God or other conditions beyond his control and reasonable expectation he will be prevented because of any regulation pursuant to this part from handling, or having handled, as large a proportion of his production of tobacco during the then current fiscal period as the estimated average proportion of production of tobacco permitted to be handled during such fiscal period. Each such exemption certificate shall permit the grower to handle, or have handled, a proportion of his production equal to the aforesaid estimated average proportion of production. The Committee shall maintain a record of all applications submitted for exemption certificates and shall maintain a record of all certificates issued, including the information used in determining in each instance the quantity of tobacco thus to be exempted, and a record of all exempted tobacco

handled. Such additional information as the Secretary may require shall be in the record of the Committee. The Committee shall, from time to time, submit to the Secretary reports stating in detail the number of exemption certificates issued, the quantity of tobacco thus exempted, and such additional information as may be requested by the Secretary.

(c) Any grower who is dissatisfied with any determination by the Control Committee on his application for the issuance of an exemption certificate may file a protest with the Committee: *Provided*, That such protest is in writing and filed promptly. The grower may submit, with the protest, such evidence and supporting data and information as he deems appropriate to substantiate his protest and enable the Committee to reconsider the matter. Any such grower who is dissatisfied with the decision of the Control Committee in regard to his protest may appeal in writing to the Secretary. The Secretary may, upon an appeal made as aforesaid, modify or reverse the action of the Committee from which the appeal was taken. The authority of the Secretary to supervise and control the issuance of exemption certificates is unlimited and plenary; and any decision by the Secretary with respect to any exemption certificate shall be final and conclusive.

(d) The Committee shall be permitted at any time to make a thorough investigation of any grower's or handler's claim pertaining to exemptions.

MISCELLANEOUS

§ 983.60 *Books and records.* (a) Each handler and each subsidiary and affiliate thereof shall keep such books and records as will clearly show the details of the respective person's handling of tobacco, including, but not being limited to, identification of the grower of the tobacco and the field in which produced, and which shall be available for examination upon request of the Secretary.

(b) Upon the request of the Committee made with the approval of the Secretary, each handler shall furnish to the Committee, in such manner and at such time as may be prescribed, such information as will enable the Committee to exercise its powers and perform its duties under this part.

§ 983.61 *Compliance.* Except as provided in this part, no handler shall handle tobacco, the handling of which is prohibited pursuant to this part and no handler shall handle tobacco except in conformity to the provisions of this part.

§ 983.62 *Right of the Secretary.* The members of the Committee, including successors and alternates thereof, and any agent or employee appointed or employed by the Committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, determination, decision, or other act of the Committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said Committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 983.63 *Amendment.* Amendments to this part may be proposed, from time to time, by the Committee or by the Secretary.

§ 983.64 *Duration of immunities.* The benefits, privileges and immunities conferred upon any person by virtue of this part shall cease upon the termination of this part, except with respect to acts done under this part and during the existence of this part.

§ 983.65 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 983.66 *Derogation.* Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 983.67 *Personal liability.* No member or alternate of the Committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any handler or to any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty.

§ 983.68 *Separability.* If any provision of this part is declared invalid, or the applicability of this part to any person, circumstance, or thing is held invalid, the validity of the remainder of this part, or the applicability thereof, to any other person, circumstance, or thing shall not be affected thereby.

§ 983.69 *Effective time.* The provisions of this part shall become effective at such time as the Secretary may declare above his signature attached to this part and shall continue in force until terminated in any of the ways specified in this part.

§ 983.70 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this part, or regulations pursuant to this part, whenever he finds that such provisions or regulations do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that such termination is favored by a majority of growers who, during the preceding fiscal period, have been engaged in the production of tobacco for market: *Provided*, That such majority has, during such period, produced for market more than fifty percent of the volume of such tobacco produced for market; but such termination shall be effective only if announced on or before January 31 of the then current fiscal period.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 983.71 *Proceedings after termination.* (a) Upon the termination of the provisions of this part, the then functioning members of the Committee shall continue as trustees (for the purpose of liquidating the affairs of the Committee) of all funds and the property then in the possession of, or under control of, the Committee, including claims for any funds unpaid, or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all funds and property on hand, together with all books and records of the Committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the Committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred, or delivered by the Committee or its members, pursuant to this section shall be subject to the same obligations imposed upon the members of the said Committee and upon the said trustees.

§ 983.72 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen, or which may thereafter arise, in connection with any provision of this part, or any regulation issued under this part, or (b) release or extinguish any violation of this part, or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary, or of any other person, with respect to any such violation.

Issued at Washington, D. C., this 29th day of May 1952, to be, and become, effective upon the date of publication in the FEDERAL REGISTER.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 25]

PART 608—DANGER AREAS

ALTERATION

The danger area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

In § 608.63, a Punta Figuras, Puerto Rico (D-409), area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
PUNTA FIGURAS (D-409) (WAC 649).	Beginning at lat. 17°58'22" N, long. 65°58'50" W; SE to lat. 17°55'55" N, long. 65°57'10" W; westerly paralleling the shoreline at a distance of 3 nautical miles to lat. 17°51'55" N, long. 66°14'10" W; clockwise along the arc of a circle with 25,000 yards radius, centered at lat. 17°57'48" N, long. 66°02'54" W to lat. 17°53'05" N, long. 66°14'50" W; ENE to lat. 17°57'23" N, long. 66°05'26" W; ENE to lat. 17°58'22" N, long. 65°58'50" W, point of beginning.	Surface to 30,000 feet.	June and July annually, daylight hours during periods of unrestricted visibility and only after issuance of NOTAMS by the Comandant, 10th Naval District, at least 48 hours prior to firing. NOTAMS also to be issued upon cessation of firing.	Commander, Antilles Area, Dept. of Army, San Juan, P. R.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on June 1, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-6003; Filed, June 2, 1952; 8:45 a. m.]

[Amdt. 26]

PART 608—DANGER AREAS

ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.14, the Salton Sea, California, areas, published on October 6, 1951, in 16 F. R. 10204, are revised to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
SALTON SEA (San Diego Chart).	1. (D-300) A circular area having a radius of 3 miles, centered at lat. 33°11'00" N, long. 116°05'30" W.	Surface to 15,000 feet.	Continuous...	11th Naval District, San Diego, Calif.
	2. (D-303) Beginning at lat. 33° 20'45" N, long. 115°44'00" W; due S to lat. 33°10'40" N; due W to long. 115°49'50" W; NW to lat. 33°14'30" N, long. 115°52'30" W; NNW to lat. 33°24'15" N, long. 115°52'00" W; NE to lat. 33°27'30" N, long. 115°52'00" W; southeasterly along the shoreline to lat. 33°20'45" N, long. 115°44'00" W, point of beginning.	Surface to unlimited.	....do.....	Atomic Energy Commission, Salton Sea Test Base.

2. In § 608.52, the Carrington Island, Utah, area (D-256), published on July 16, 1949, in 14 F. R. 4296, is revised to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
CARRINGTON ISLAND (D-256) (Salt Lake City Chart).	Beginning at lat. 41°03'15" N, long. 112°31'00" W; southerly to lat. 40°57'00" N, long. 112°30'00" W; due W to long. 112°50'00" W; due N to lat. 41°10'00" N; ESE to lat. 41°03'15" N, long. 112°31'00" W, point of beginning.	Surface to unlimited.	Continuous...	Headquarters, 15th Air Force.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on June 1, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-6004; Filed, June 2, 1952; 8:45 a. m.]

[Amdt. 13]

PART 610—MINIMUM EN ROUTE INSTRUMENT ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Therefore, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable.

Part 610 is amended as follows:

1. The footnote to § 610.5 *Minimum en route IFR altitudes along particular routes* is amended as follows:

"Bergholz intersection: The intersection of the Pittsburgh, Pa., 291° true radial and the Cleveland, Ohio, 139° true radial," is added.

"Clarksfield intersection" is substituted for "Clarksville intersection."

"Columbiana intersection: The intersection of the Youngstown, Ohio, 180° true radial and the Pittsburgh, Pa., 320° true radial," is added.

"Georgetown intersection: The intersection of the Lexington, Ky., 350° true radial and Louisville, Ky., 258° true radial," is added.

"Lake Forest intersection: The intersection of the Milwaukee, Wis., 175° true radial and the Chicago Heights, Ill., 342° true radial," is added.

"Lee intersection: The intersection of the Naperville, Ill., 278° true radial and the Janesville, Wis., 175° true radial," is added.

"Mercer intersection: The intersection of the Youngstown, Ohio, 101° true radial and the Pittsburgh, Pa., 354° true radial," is added.

"Monroeville intersection: The intersection of the Toledo, Ohio, 119° true radial and the Cleveland, Ohio, 248° true radial," is added.

"Nabb intersection: The intersection of the Louisville, Ky., 356° true radial and the Cincinnati, Ohio, 241° true radial," is added.

"Perry intersection: The intersection of the Cleveland, Ohio 065° true radial and the Youngstown, Ohio, 320° true radial," is added.

"Ravenna intersection: The intersection of the Youngstown, Ohio, 250° true radial and the Cleveland, Ohio, 116° true radial," is added.

"Richmond intersection: The intersection of the Lexington, Ky., 165° true radial and the Louisville, Ky., 112° true radial," is added.

"Sandusky intersection: The intersection of the Detroit, Mich., 141° true radial and the Toledo, Ohio, 093° true radial," is added.

"Sycamore intersection: The intersection of the Findlay, Ohio, 097° true radial and the Toledo, Ohio, 162° true radial," is added.

"Tecumseh intersection: The intersection of the Detroit, Mich., 223° true radial and the Toledo, Ohio, 322° true radial," is added.

"Tiffin Intersection: The intersection of the Findlay, Ohio, 067° true radial and the Toledo, Ohio, 162° true radial," is added.

"Union Intersection: The intersection of the South Bend, Ind., 076° true radial and the Millersburg, Ind., 343° true radial," is added.

2. Section 610.6030 *VOR civil airway No. 30* is amended to read in part:

From—	To—	Minimum altitude
Falls (INT), Ohio.....	Youngstown, Ohio (VOR).	2,500

3. Section 610.6038 *VOR civil airway No. 38* is amended to read in part:

From—	To—	Minimum altitude
Chicago Heights, Ill. (VOR).	Thomaston (INT), Ind.	2,000

4. Section 610.6051 *VOR civil airway No. 51* is amended to read in part:

From—	To—	Minimum altitude
Nabb (INT), Ky.....	Int. Louisville, Ky., 356° true rad. & Indianapolis, Ind., 137° true rad.	4,800
Int. Louisville, Ky., 356° true rad. & Indianapolis, Ind., 137° true rad.	Indianapolis, Ind. (VOR).	2,300

5. Section 610.6066 *VOR civil airway No. 66* is amended to read in part:

From—	To—	Minimum altitude
San Diego, Calif. (VOR).	Seeley (INT), Calif...	9,000
Seeley (INT), Calif.*...	Yuma, Ariz. (VOR)..	4,000

*10,000'—minimum crossing altitude at Seeley (INT), west-bound.

6. Section 610.14 *Green civil airway No. 4* is amended to read in part:

From—	To—	Minimum altitude
Gage, Okla. (LFR).....	Danville (INT), Kans.	3,600

7. Section 610.105 *Amber civil airway No. 5* is amended to read in part:

From—	To—	Minimum altitude
New Orleans, La. (LFR).	Jackson, Miss. (LFR).	1,800

8. Section 610.108 *Amber civil airway No. 8* is amended to read in part:

From—	To—	Minimum altitude
Los Angeles, Calif. (VAR).	Point Dume (INT), Calif.	2,000

9. Section 610.211 *Red civil airway No. 11* is amended to read in part:

From—	To—	Minimum altitude
Angola (INT), N. Y...	Danville, N. Y. (LF/RBN).	4,000

10. Section 610.263 *Red civil airway No. 63* is amended to read in part:

From—	To—	Minimum altitude
Int. W crs. Sarnia, Ont. (LFR) & N crs. Detroit, Mich. (LFR).	Oxford (INT), Mich..	2,400
Oxford (INT), Mich....	Sarnia, Ont. (LFR)...	2,200

11. Section 610.642 *Blue civil airway No. 42* is amended to read in part:

From—	To—	Minimum altitude
Burr Oak (INT), Mich.	Battle Creek, Mich. (LFR).	2,100

12. Section 610.1001 *Direct route—Northeast United States* is amended to read in part:

From—	To—	Minimum altitude
Kansas City, Mo. (LFR).	Columbia, Mo. (LFR).	4,000

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective June 3, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5903; Regs. 111]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

MISCELLANEOUS AMENDMENTS

On February 28, 1952, notice of proposed rule making with respect to regulations under section 322 (a) (4) of the Internal Revenue Code, as added by section 206 (b) (1) and (c) of the Social Security Act Amendments of 1950, approved August 28, 1950, was published in the FEDERAL REGISTER (17 F. R. 1764). No objection to the rules proposed having been received, the amendments of Regulations 111 set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately after § 29.35-1, as added by Treasury Decision 5325, approved January 3, 1944, the following:

§ 29.35-2 *Credit for "special refunds" of employee social security tax*—(a) *In general.* (1) In the case of an employee receiving wages from more than one employer during the calendar year, amounts may be deducted and withheld as employee social security tax under section 1400 with respect to more than $3,600 wages (for example, on $4,500 if the employee is paid $2,500 by one employer and $2,000 by another). Section 1401 (d) permits, under certain conditions, a so-called "special refund" of the amount of such employee social security tax deducted and withheld with respect to wages in excess of $3,600 by reason of the employee working for more than one employer during the calendar year.

(2) An employee who is entitled to a special refund of employee tax with respect to wages received during a calendar year commencing after December 31, 1950, and who is also required to file an income tax return for such calendar year (or for his last taxable year beginning in such calendar year) may obtain the benefits of such special refund only by claiming credit for such special refund in the same manner as if such special refund were an amount deducted and withheld as income tax at the source under subchapter D of chapter 9. The credit with respect to a special refund is not allowable unless the return, amended return, or claim for refund, on which the special refund is claimed, is filed within two years after the calendar year in which payment is made of the wages with respect to which the special refund of tax is claimed. See section 1401 (d) (3) and (4) and § 408.802 (c) of chapter (Regulations 128) pertaining to tax under the Federal Insurance Contributions Act. For special provisions for claiming special refunds in the case of employees not required to file income tax returns, see § 408.802 (c) (3) of this chapter.

(3) The amount of the special refund allowed as a credit shall be considered as an amount deducted and withheld as income tax at the source under subchapter D of chapter 9. If the amount of such special refund when added to amounts deducted and withheld as income tax under subchapter D of chapter 1 exceeds the taxes imposed by such chapter, the amount of the excess constitutes an overpayment of income tax under chapter 1, and interest on such overpayment is allowed to the extent provided under section 3771 of the Code upon an overpayment of income tax resulting from a credit for income tax withheld at source. See section 322 (a) (2) and (4).

(b) *Federal and State employees.* The provisions of this section shall apply to the amount of a special refund (under section 1401 (d) (4) (A)) allowable to an employee of a Federal agency or a wholly owned instrumentality of the United States, and to the amount of a special refund (under section 1401 (d) (4) (B)) allowable to an employee of any State or political subdivision thereof (or any instrumentality of any one or more of the foregoing).

PAR. 2. There is inserted immediately preceding § 29.322-1 the following:

SECTION 206 (B) (1) AND (C) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950 (APPROVED AUGUST 28, 1950).

* * * * *

(b) (1) Section 322 (a) of the Internal Revenue Code is amended by adding at the end thereof the following new paragraph:

(4) *Credit for "special refunds" of employee social security tax.* The Commissioner is authorized to prescribe, with the approval of the Secretary, regulations providing for the crediting against the tax imposed by this chapter for any taxable year of the amount determined by the taxpayer or the Commissioner to be allowable under section 1401 (d) as a special refund of tax imposed on wages received during the calendar year in which such taxable year begins. If more than one taxable year begins in such calendar year, such amount shall not be allowed under this section as a credit against the tax for any taxable year other than the last taxable year so beginning. The amount allowed as a credit under such regulations shall, for the purposes of this chapter, be considered an amount deducted and withheld at the source as tax under subchapter D of chapter 9.

* * * * *

(c) * * * the amendment made by subsection (b) (1) of this section shall be applicable only with respect to taxable years beginning after December 31, 1950, and only with respect to "special refunds" in the case of wages paid after December 31, 1950.

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: May 27, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

Subchapter B—Estate and Gift Taxes

[T. D. 5904; Regs. 105]

PART 81—REGULATIONS RELATING TO ESTATE TAX

MISCELLANEOUS AMENDMENTS

On January 31, 1952, notice of proposed rule making, regarding the estate tax provisions of the Revenue Act of 1950, approved September 23, 1950, and regarding Public Law 749 (81st Cong., 2d Sess.) was published in the FEDERAL REGISTER (17 F. R. 928). No objections to such rules having been received, the amendments set forth below, which are the amendments necessary to conform Regulations 105 to the estate tax provisions of the Revenue Act of 1950, are hereby adopted. The amendments contained herein do not include the proposed rules contained in paragraphs 8 and 9 of the notice of proposed rule making relating to section 863 (c) of the Internal Revenue Code, as added by Public Law 749 (81st Cong.), providing an exemption for certain works of art. Inasmuch as section 863 (c) was further amended by section 605 of the Revenue Act of 1951, approved October 20, 1951, it is considered that the rules regarding Public Law 749 should be incorporated in a Treasury decision to be issued to conform the Regulations to section 605.

PARAGRAPH 1. There is inserted immediately after section 8 of Pub. Law 378, 81st Cong., 1st Session (inserted by Treasury Decision 5834, approved March 8, 1951) and preceding section 302 (c) of the Revenue Act of 1926 (as originally enacted), which precedes § 81.15, the following:

SEC. 501. TRANSFERS IN CONTEMPLATION OF DEATH (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Transfers, etc., in contemplation of death.* Section 811 (relating to gross estate) is hereby amended by striking out "(1)" at the beginning of subsection (1) and inserting in lieu thereof "(m)", and by inserting after subsection (k) the following new subsection:

(l) *Contemplation of death.* If the decedent within a period of three years ending with the date of his death (except in case of a bona fide sale for an adequate and full consideration in money or money's worth) transferred an interest in property, relinquished a power, or exercised or released a power of appointment, such transfer, relinquishment, exercise, or release shall, unless shown to the contrary, be deemed to have been made in contemplation of death within the meaning of subsections (c), (d), and (f); but no such transfer, relinquishment, exercise, or release made prior to such three-year period shall be deemed or held to have been made in contemplation of death.

(b) *Amendments of section 811 (c) and (d).* (1) Section 811 (c) (1) (A) (relating to transfers in contemplation of death) is hereby amended to read as follows:

(A) In contemplation of his death; or

(2) Section 811 (d) (relating to revocable transfers) is hereby amended by striking out paragraph (4) thereof.

(c) *Effective date.* The amendments made by this section shall be applicable only with respect to estates of decedents dying after the date of the enactment of this Act.

PAR. 2. Section 81.16, as amended by Treasury Decision 5834 is further amended as follows:

(A) By striking the period immediately after the heading of such section and inserting in lieu thereof "—(a) *In general.*".

(B) By striking from such section the third and fourth paragraphs thereof and inserting in lieu thereof the following:

(b) *Estates of decedents dying after September 23, 1950.* In the case of a decedent dying after September 23, 1950, any transfer without an adequate and full consideration in money or money's worth made by such decedent within a period of three years ending with the date of his death is, unless shown to the contrary, deemed to have been made in contemplation of death. However, no transfer by such a decedent if made prior to such three-year period is considered to have been made in contemplation of death.

If the executor contends that the value of property transferred by the decedent within a period of three years ending with the date of his death should not be included in the gross estate because he considers that such transfer was not made in contemplation of death, he should file sworn statements with the return, in duplicate, of all the material facts and circumstances, including those directly or indirectly indicating the decedent's motive in making the transfer and his mental and physical condition at that time, and one copy of the death certificate. However, unless requested by the Commissioner, such data need not be submitted with respect to any transfer of less than $1,000 in value.

(c) *Estates of decedents dying on or before September 23, 1950.* In the case of a decedent dying on or before September 23, 1950, any transfer without an adequate and full consideration in money or money's worth, made by the decedent within a period of two years ending with the date of his death, of a material part of his property in the nature of a final disposition or distribution thereof, is, unless shown to the contrary, deemed to have been made in contemplation of death.

If the executor contends that the value of a transfer of $5,000 or more made by the decedent should not be included in the gross estate because he considers that such transfer was not made in contemplation of death, he should file sworn statements with the return, in duplicate, of all the material facts and circumstances, including those directly or indirectly indicating the decedent's motive in making the transfer and his mental and physical condition at that time, and one copy of the death certificate.

(C) By inserting as a heading to the last paragraph of such section (which paragraph begins: "Section 8 of Public Law 378") the following:

(d) *Relinquishments of life estates and other interests in income.* * * *

PAR. 3. Section 81.21, as amended by Treasury Decision 5834 is further amended as follows:

(A) By adding after "If" in the sentence beginning "If the relinquishment be not admitted" the following: "the

decedent died on or before September 23, 1950, and if".

(B) By adding immediately after the sentence amended by (A) the following: "If the decedent died after September 23, 1950, the relinquishment, if made within a period of three years ending with the date of his death, is, unless shown to the contrary, deemed to have been made in contemplation of death. However, no relinquishment by a decedent made prior to such three-year period is considered to have been made in contemplation of death."

PAR. 4. There is inserted immediately preceding § 81.25 the following:

SEC. 503. REVERSIONARY INTERESTS IN CASE OF LIFE INSURANCE (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Amendment of section 404 (c) of Revenue Act of 1942.* Effective with respect to estates of decedents dying after October 21, 1942, section 404 (c) of the Revenue Act of 1942 is hereby amended by adding at the end thereof the following: "For the purposes of the preceding sentence, the term 'incident of ownership' includes a reversionary interest only if (1) at some time after January 10, 1941, the value of such reversionary interest exceeded 5 per centum of the value of the policy, and (2) the reversionary interest arose by the express terms of the policy or other instrument and not by operation of law. As used in this subsection, the term 'reversionary interest' includes a possibility that the policy, or the proceeds of the policy, (A) may return to the decedent or his estate, or (B) may be subject to a power of disposition by him. The value of a reversionary interest at any time shall be determined (without regard to the fact of the decedent's death) by usual methods of valuation, including the use of tables of mortality and actuarial principles, pursuant to regulations prescribed by the Secretary. In determining the value of a possibility that the policy or proceeds thereof may be subject to a power of disposition by the decedent, such possibility shall be valued as if it were a possibility that such policy or proceeds may return to the decedent or his estate."

(b) *No interest on refunds.* No interest shall be allowed or paid on any overpayment resulting from the application of subsection (a) with respect to any payment made prior to the date of the enactment of this act.

PAR. 5. Section 81.27, as amended by Treasury Decision 5699, approved May 13, 1949, is further amended by striking therefrom the last sentence of the sixth paragraph of (a) (which sentence ends "incident of ownership.") and inserting in lieu thereof the following: "For the purpose of the preceding sentence, a reversionary interest constitutes an incident of ownership if (1) at some time after January 10, 1941, the reversionary interest exceeded five percent of the value of the policy, and (2) the reversionary interest arose by the express terms of the policy or other instrument and not by operation of law. The term 'reversionary interest' includes a possibility that the policy, or the proceeds of the policy, may return to the decedent or his estate and a possibility that such policy, or the proceeds of such policy, may be subject to a power of disposition by him. The determination of whether the decedent has retained a reversionary interest arising by the express terms of the policy or other instrument and the determination of whether the value of such interest exceeds five percent of the value of the policy shall be made in accordance with the principles of § 81.17 (c), as added by Treasury Decision 5834, approved March 8, 1951."

PAR. 6. There is inserted immediately preceding § 81.29 the following:

SEC. 502. REPEAL OF DEDUCTION FOR SUPPORT OF DEPENDENTS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950.)

Effective with respect to estates of decedents dying after the date of the enactment of this Act, section 812 (b) (relating to deductions for expenses, etc.) is hereby amended—

(a) By inserting the word "and" at the end of paragraph (3) thereof;

(b) By striking out of paragraph (4) thereof the following: "and";

(c) By striking out paragraph (5) thereof; and

(d) By striking out "(3), (4), and (5) exceed" and inserting in lieu thereof "(3), and (4) exceed".

PAR. 7. Section 81.40 is amended by changing that part of the first sentence thereof which precedes the colon to read as follows: "The support of dependents of the decedent during the settlement of the estate is deductible only in the case of estates of decedents dying on or before September 23, 1950, and only pursuant to the following rules."

(53 Stat. 467; 26 U. S. C. 3791)

[T. D. 5902; Regs. 108]

PART 86—GIFT TAX UNDER CHAPTER 4 OF THE INTERNAL REVENUE CODE, AS AMENDED

MISCELLANEOUS AMENDMENTS

On January 3, 1952, notice of proposed rule making with respect to the valuation of certain classes of property for purposes of the gift tax was published in the FEDERAL REGISTER (17 F. R. 84). After consideration of all relevant matter presented by interested persons regarding the rules proposed, the amendments to Regulations 108 set forth below are hereby adopted.

PARAGRAPH 1. Section 86.2 (a), as amended by Treasury Decision 5698, approved May 13, 1949, is further amended by striking from the example numbered (7) the words "such property valued as provided in § 86.19 (g)." and inserting in lieu thereof the following: "the value of such property less the value of his retained interest therein, valued in accordance with the provisions of § 86.19 (f) or § 86.19 (g), whichever is applicable."

PAR. 2. Section 86.11 is amended by changing the last sentence thereof to read as follows: "For the valuation of future interests, see § 86.19 (f) or 86.19 (g), whichever is applicable.

PAR. 3. Section 86.13 is amended by changing the last sentence of the last paragraph thereof to read as follows: "To determine the value of such remainder as of the date of gift, the value of the property transferred should be multiplied by the appropriate factor from column 3 of Table I or Table II of § 86.19 (or from Table A or Table B, if applicable)."

PAR. 4. Section 86.16a (c), added by Treasury Decision 5698, is amended to read as follows:

(c) *Remainder interests.* Where the income from property is made payable to the donor or another individual for life, or for a term of years, with remainder absolutely to the donor's spouse or to her estate, the marital deduction is equal to one-half the present value of the remainder. It should be noted, however, that where such remainder is distributable to the estate of the donor's spouse (or to her executors or administrators) in the event of her death prior to the termination of a trust or of a precedent interest, the marital deduction is allowable only if under such circumstances the remainder interest would be includible in her gross estate under section 811 (a). The present value of the remainder (that is, its value as of the date of gift) is to be determined in accordance with the rules stated in § 86.19 (f) (or § 86.19 (g), if applicable). For example, in a case to which § 86.19 (f) is applicable, if the donor's spouse is to receive $50,000 upon the death of a person aged 31 years, the present value of the remainder is $14,466. (See example in § 86.19 (f) (4)). If the remainder is such that its value is to be determined by a special computation (see § 86.19 (f) (5)), a request for a specific factor accompanied by a statement of the date of birth of each person, the duration of whose life may affect the value of the remainder, and by copies of the relevant instruments may be submitted to the Commissioner who in his discretion may supply the factor requested. If the Commissioner does not furnish the factor, the claim for deduction must be supported by a full statement of the computation of the present worth made, in accordance with the principles set forth in § 86.19 (f) (or § 86.19 (g), if applicable), by one skilled in actuarial computations.

PAR. 5. Section 86.19 is amended as follows:

(A) By changing paragraph (f) thereof to read as follows:

(f) *Annuities, life estates, remainders, and reversions; gifts made after December 31, 1951*—(1) *In general.* Annuities purchased from life insurance companies, or other companies regularly engaged in issuing annuity contracts, and life insurance policies are to be valued as explained in paragraph (i) of this section. Except with respect to the afore-mentioned annuity contracts and insurance policies, the values of annuities, life estates, remainders, and reversions are to be computed by the methods hereinafter prescribed in this paragraph. Where the donor transfers property in trust or otherwise and retains an interest therein, the value of the gift is the value of the property transferred less the value of the donor's retained interest. Where the donor assigns or relinquishes an annuity, life estate, remainder, or reversion which he holds by virtue of a transfer previously made by himself or another, the value of the gift is the value of the interest transferred. In either case the present worth of the interest to be valued is to be computed with the use of Table I or Table II of this paragraph if it is dependent upon the continuation of, or termination of the life of one person or upon a term-certain. If such interest is dependent upon more than one life or there is a term-certain concurrent with one or more lives, see subparagraph (5) of this paragraph. For the purpose of the computation the age of a person is to be taken as the age of that person at his nearest birthday.

(2) *Annuities*—(i) *Payable annually at end of year.* If the annuity is payable annually at the end of each year during the life of an individual, the amount payable annually should be multiplied by the figure in column 2 of Table I opposite the number of years in column 1 nearest the age of the individual whose life measures the duration of the annuity, or if payable for a definite number of years the amount payable annually should be multiplied by the figure in column 2 of Table II opposite the number of years in column 1.

Example (1). The donor assigns an annuity of $10,000 a year payable annually during his life immediately after an annual payment has been made. The age of the donor on the date of assignment is 40 years and 8 months. By reference to Table I, it is found that the figure in column 2 opposite 41 years, the number nearest to the donor's age, is 17.6853. The value of the gift is, therefore, $176,853 ($10,000 multiplied by 17.6853).

Example (2). The donor was entitled to receive an annuity of $10,000 a year payable at the end of annual periods throughout a term of 20 years; the donor, when 15 years have elapsed, makes a gift thereof to his son. By reference to Table II, it is found that the figure in column 2 opposite 5 years, the unexpired portion of the 20-year period, is 4.5151. The present worth of the annuity is, therefore, $45,151 ($10,000 multiplied by 4.5151).

(ii) *Payable at end of semiannual, quarterly, monthly, or weekly periods.* If the annuity is payable at the end of semiannual, quarterly, monthly, or weekly periods, the value should be determined by multiplying the aggregate amount to be paid within a year by the figure in column 2 of Table I opposite the number of years in column 1 nearest the actual age of the person whose life measures the annuity, or the figure in column 2 of Table II opposite the number of years the annuity is payable, as the case may be, and then multiplying the product by 1.0171 for weekly payments, by 1.0159 for monthly payments, by 1.0130 for quarterly payments, or by 1.0087 for semiannual payments.

Example. If, in example (1) given above under subdivision (i) the annuity is payable semiannually, the aggregate annual amount, $10,000, should be multiplied by the factor 17.6853, and the product multiplied by 1.0087. The value of the gift is, therefore, $178,391.62 ($10,000 × 17.6853 × 1.0087).

(iii) *Payable at beginning of annual, semiannual, quarterly, monthly, or weekly periods.* (a) If the first payment of an annuity for the life of an individual is to be paid at once, the value of the annuity is the sum of the first payment plus the present worth of a similar annuity, the first payment of which is not to be made until the end of the first period.

Example. The donee is made the beneficiary for life of an annuity of $50 a month from the income of a trust, subject to the right reserved by the donor to cause the annuity to be paid for his own benefit or for the benefit of another. On the day a payment is due, the donor relinquishes his reserved power. The donee is then 50 years of age. The value of the gift is $50 plus the product of $50 × 12 × 14.8486 (see Table I) × 1.0159, or $9,100.82.

(b) If the first payment of an annuity for a definite number of years is to be paid at once, the applicable factor is the product of the factor shown in Table II multiplied by 1.0177 for weekly payments, by 1.0169 for monthly payments, by 1.0218 for quarterly payments, by 1.0262 for semiannual payments, or by 1.0350 for annual payments.

Example. The donee is the beneficiary of an annuity of $50 a month subject to a reserved right in the donor to cause the annuity or the cash value thereof to be paid for his own benefit or the benefit of another. On the day a payment is due, the donor relinquishes the power. There are 300 payments to be made covering a period of 25 years, including the payment due. The value of the gift is the product of $50 × 12 × 16.4815 (factor for 25 years, Table II) × 1.0189, or $10,075.80.

(3) *Life estates and terms for years.* If the interest to be valued consists of the right of a person for his life, or for the life of another person, or for a term of years, either to receive the income of certain property or to use nonincome-producing property, the value of the interest is the value of the property less the present worth of the remainder, computed as shown below under subparagraph (4) of this paragraph.

Example. The donor, who is entitled to receive the income from property worth $50,000 during his life, makes a gift of such interest. The donor is 31 years old on the date of gift. The value of the gift is $50,000 less $14,466 (computed as shown in the example under subparagraph (4) of this paragraph), or $35,534.

(4) *Remainders or reversionary interests.* If the interest to be valued is a remainder or reversionary interest subject to a life estate, the value of the interest should be obtained by multiplying the value of the property at the date of the gift by the figure in column 3 of Table I opposite the number of years nearest the age of the life tenant. In case the remainder or reversion is to take effect at the end of a term of years, Table II should be used.

Example. The donor transfers by gift property worth $50,000 which he is entitled to receive upon the death of his brother, to whom the income for life has been bequeathed. The brother at the date of gift is 31 years of age. By reference to Table I, it is found that the figure in column 3 opposite 31 years is 0.28932. The value of the gift is, therefore, $14,466 ($50,000 × 0.28932).

(5) *Actuarial calculations by Bureau.* If the interest to be valued is dependent upon the continuation of, or termination of more than one life, or there is a term-certain concurrent with one or more lives, or if the retained interest of the donor is conditioned upon survivorship, a special factor is necessary. Such factor is to be computed upon the basis of the Makehamized mortality table appearing as Table 38 of United States Life Tables and Actuarial Tables 1939–1941, published by the United States Department of Commerce, Bureau of the Census, and interest at the rate of 3½ percent a year, compounded annually. Many such factors may be found in, or readily computed with the use of the tables contained in a pamphlet entitled "Actuarial Values for Estate and Gift Tax," which may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington 25, D. C.; or a case requiring a special factor (provided the gift is completed and not merely proposed or hypothetical) may be stated to the Commissioner who will furnish such factor. The request must be accompanied by a statement of the date of birth of each person, the duration of whose life may affect the value of the interest, and by copies of the relevant instruments.

TABLE I—TABLE, SINGLE LIFE, 3½ PERCENT, SHOWING THE PRESENT WORTH OF AN ANNUITY, OR A LIFE INTEREST, AND OF A REMAINDER INTEREST

(B) By amending paragraph (g) thereof to read as follows:

(g) *Annuities, life estates, remainders, and reversions; gifts made prior to January 1, 1952.* In the case of gifts made prior to January 1, 1952, the general principles and methods prescribed in paragraph (f) of this section (with one exception set forth in the next paragraph) are to be followed but the present worth of the interest to be valued is to be computed with the use of Table A or Table B (which appear at the end of this section) and if neither table is applicable the computation is to be made upon the basis of the Actuaries' or Combined Experience Table of Mortality, as extended, and interest at the rate of 4 percent a year, compounded annually. In the computation of the value of annuities the factors 1.01820 for monthly payments, 1.01488 for quarterly payments, and 1.00990 for semiannual payments are to be substituted for the factors appearing in paragraph (f) (2) (ii) of this section; and the factors 1.02154 for monthly payments, 1.02488 for quarterly payments, 1.02990 for semiannual payments, and 1.04 for annual payments are to be substituted for the factors appearing in paragraph (f) (2) (iii) of this section.

The present worth of a life estate or term for years in specific property is to be obtained by multiplying the appropriate factor from column 2 of Table A or Table B by 0.04 and multiplying the product by the value of the property. A provision for the payment of income in semiannual, quarterly, or monthly installments does not affect the value of the life interest.

(C) By striking from paragraph (h) thereof the last sentence of the first paragraph and the second paragraph and inserting in lieu thereof the following:

* * * The value of each of such interests is to be computed upon the basis prescribed in paragraph (f) or (g) of this section, whichever is applicable.

A case of this character (provided the gift is completed and not merely proposed or hypothetical) may be submitted to the Commissioner, who will advise the donor of the applicable factor.

(53 Stat. 157, 467; 26 U. S. C. 1029, 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: May 27, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

TITLE 29—LABOR

Chapter I—National Labor Relations Board

PART 101—STATEMENT OF PROCEDURE

PART 102—RULES AND REGULATIONS, SERIES 6

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in it by the National Labor Relations Act, 49 Stat. 499, 452, approved July 5, 1935, as amended by the Labor Management Relations Act, 1947, Public Law 101, Eightieth Congress, first session, the National Labor Relations Board hereby issues the following amendments to its rules and regulations, Series 6, and statements of procedure, which it finds necessary to carry out the provisions of said act. National Labor Relations Board rules and regulations, Series 6, as amended, and statements of procedure as hereby amended, shall be in force and effect until further amended, or rescinded by the Board.

Dated: Washington, D. C., May 29, 1952.

By direction of the Board.

LOUIS R. BECKER,
Executive Secretary.

PART 101—STATEMENT OF PROCEDURE

Statement of procedure[1] of the National Labor Relations Board, Series 6, is hereby amended, effective June 3, 1952, as follows:

1. In the fifth sentence, first paragraph of § 101.10, strike the word "Board" and insert the words "General Counsel."

2. In § 101.13 (b), strike the first two sentences and insert the following as the first sentence of this paragraph: "If the respondent effects full compliance with the terms of the order, the Regional Director submits a report to that effect to Washington, D. C., after which the case may be closed."

3. In § 101.16, following the word "the" following the comma in the seventh sentence, strike the word "petition" and insert the word "petitioner."

4. Sections 101.26, 101.27 and 101.28 of Subpart D having been deleted,[2] §§ 101.29 through 101.36 are renumbered §§ 101.26 through 101.33 by subtracting 3 from each section number. Thus, as renumbered, § 101.29 becomes § 101.26, § 101.30 becomes § 101.27, etc.

(Sec. 101, 61 Stat. 140; 29 U. S. C. Sup. 156)

PART 102—RULES AND REGULATIONS

The rules and regulations of the National Labor Relations Board, Series 6, as amended,[3] are hereby further amended. The amendments are effective June 3, 1952.

1. In the last sentence of § 102.42 *Filing of briefs and proposed findings with the trial examiner and oral argument at the hearing* strike the period, insert a comma and add the words "and copies shall be served upon each of the other parties, and proof of such service shall be furnished."

2. Section 102.44 is amended to read as follows:

§ 102.44 *Misconduct at hearing before a trial examiner or the Board; refusal of witness to answer questions.* (a) Misconduct at any hearing before a trial examiner or before the Board shall be ground for summary exclusion from the hearing.

(b) Such misconduct of an aggravated character, when engaged in by an attorney or other representative of a party, shall be ground for suspension or disbarment by the Board from further practice before it after due notice and hearing.

(c) The refusal of a witness at any such hearing to answer any question which has been ruled to be proper shall, in the discretion of the trial examiner, be ground for striking all testimony previously given by such witness on related matters.

3. In paragraph (c) (7) of § 102.53 *Contents of petition for certification; contents of petition for decertification* insert a period after the word "unit" and strike the words "and the number who have designated the petitioner to act for them."

4. Section 102.58 (d), is amended to read as follows:

(d) (1) Misconduct at any hearing before a hearing officer or before the Board shall be ground for summary exclusion from the hearing.

(2) Such misconduct of an aggravated character, when engaged in by an attorney or other representative of a party, shall be ground for suspension or disbarment by the Board from further practice before it after due notice and hearing.

(3) The refusal of a witness at any such hearing to answer any question which has been ruled to be proper shall, in the discretion of the hearing officer, be ground for striking all testimony previously given by such witness on related matters.

5. Sections 102.71, 102.72, and 107.73 under Subpart D having been deleted,[4] §§ 102.74 through 102.97 are renumbered by subtracting 3 from each section number. As renumbered, §§ 102.74 through 102.97 become §§ 102.71 through 102.94. Thus as amended, § 102.74 becomes § 102.71; § 102.75 becomes § 102.72, etc.

6. In the first line of § 102.82, renumbered § 102.79, § 102.80 is renumbered § 102.77.

7. In § 102.85, renumbered § 102.82, in the first sentence after the comma following the word "mail" and before the word "is" strike the word "as" and insert the word "or;" also in the second sentence "§ 102.86" is renumbered "§ 102.83." In the second paragraph, first sentence "§§ 102.83" is renumbered "§§ 102.80" and "102.84" is renumbered "102.81."

(Sec. 101, 61 Stat. 140; 29 U. S. C. Sup. 156)

[F. R. Doc. 52-6091; Filed, June 2, 1952; 8:51 a. m.]

[1] This amends statement of procedure effective August 22, 1947, which appeared at 12 F. R. 5651 and amendments effective August 21, 1948, appearing in 13 F. R. 4871, amendments effective January 1, 1950, appearing in 14 F. R. 7250, and amendments effective March 1, 1951, which appeared at 16 F. R. 1934, and amendments appearing at 16 F. R. 11636. Redesignation noted at 14 F. R. 78.

[2] Effective October 23, 1951, 16 F. R. 11636.

[3] This amends rules and regulations, Series 6, effective March 1, 1951, which appeared at 16 F. R. 1934 and amendments which appeared at 16 F. R. 11636.

[4] Effective October 23, 1951, 16 F. R. 11636.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Department of the Navy

Subchapter D—Procurement, Property, Patents, and Contracts

PART 740—NAVY DEPARTMENT BOARD OF CONTRACT APPEALS; RULES

REVOCATION

1. The following part of Subchapter D is hereby revoked:

Part 740—Navy Department Board of Contract Appeals; Rules.

(R. S. 161; 5 U. S. C. 22)

DAN A. KIMBALL,
Secretary of the Navy.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 15, Amdt. 15]

CPR 15—CEILING PRICES OF CERTAIN FOODS SOLD AT RETAIL IN GROUP 3 AND GROUP 4 STORES

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 15 to Ceiling Price Regulation 15 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment corrects certain clerical errors and certain incorrect classifications of commodities within Table A and Table B.

In view of the nature of this amendment the Director did not consider it practicable to consult with industry representatives or trade association representatives. In his judgment the provisions of the amendment are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950 as amended.

So far as practicable, the Director of Price Stabilization gave due consideration of the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to relevant factors of general applicability.

AMENDATORY PROVISIONS

Ceiling Price Regulation 15 is amended in the following respects:

1. Section 35 is amended by adding paragraph (k) to read as follows:

(k) *Canned.* "Canned" means processed and packaged in any container, whether or not hermetically sealed.

2. Section 37, paragraph (d) (4) is revised to read as follows:

(4) "Coffee". Excluded are: Imported coffee if imported in consumer size containers (2 pounds or less) and coffee packaged in bags, each containing only the amount necessary to make one ordinary cup of coffee.

3. Section 37, paragraph (b) (8) is amended by deleting the word "clams".

4. Section 37, paragraph (c) (8) is revised to read as follows:

(8) "Fish Processed". Excluded are: Canned clams (except canned Maine whole soft shell clams) and kippered, marinated, dried or smoked fish and seafood (except sardines).

5. Section 37, paragraph (d) (8) is amended by adding after the words "Excluded are" the words "Canned Maine whole soft shell clams, frozen fish and seafood."

6. Section 37, paragraph (c) (10) is amended by deleting the words "frozen fish and seafood."

7. Section 37, paragraph (d) (10) is revised to read as follows:

(10) "Frozen foods." Excluded are: Frozen hollandaise sauce and frozen fish and seafood.

8. Section 37, paragraph (b) (12) is amended by deleting the words "'Canned' means processed and packaged in any container whether or not hermetically sealed."

9. Section 37, paragraph (b) (19) is amended by adding after the word "tamales" the word "enchiladas."

10. Section 37, paragraph (b) (32) is amended by deleting the words, "'Canned' means processed and packaged in any container whether or not hermetically sealed."

11. Section 37, paragraph (d) (32) is amended by adding after the words "consumer size containers" the words "and canned artichoke products."

12. Section 37, paragraph (b) (33) is amended by deleting the words "'Canned' means processed and packaged in any container whether or not hermetically sealed."

13. Section 37, paragraph (b) (36) is amended by deleting the words "Tom and Jerry batter (bottled)" and the words "Popcorn, not popped."

14. Section 37, paragraph (b) (36) is amended by adding after the words "Date products" the words "Enchiladas (tins, jars, paper or corn wrapped)."

15. Section 37, paragraph (c) (36) is amended by adding after the word "Eggs" the words "Egg-nog (non-alcoholic) bottled," by adding after the words "Tamales, bulk" the words "Tom and Jerry batter (bottled)", by deleting the words "Popcorn, popped," and changing the words "Fruit cake" to read "Fruit cake, except holiday fruit cake."

16. Section 37, paragraph (c) (36) is amended by deleting the words "Frozen fish and seafood."

17. Section 37, paragraph (c) (36) is amended by adding after the word "Wine" the word "Yogurt".

18. Section 37, paragraph (d) (36) is revised to read as follows:

(36) "Miscellaneous foods." Excluded are: Truffles, capers, canned snails, cane or beet sugar, rattlesnake meat, easter egg dye, olive oil, popcorn (popped or not), holiday fruit cake and fresh fruits and vegetables (except white flesh potatoes).

19. Section 38, paragraph (d) (3) is revised to read as follows:

(3) "Potatoes, white." Excluded are: None.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup 2154)

Effective date. This amendment shall become effective June 7, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 2, 1952.

[F. R. Doc. 52-6143; Filed, June 2, 1952; 10:47 a. m.]

[Ceiling Price Regulation 16, Amdt. 15]

CPR 16—CEILING PRICES OF CERTAIN FOODS SOLD AT RETAIL IN GROUP 1 AND GROUP 2 STORES

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 15 to Ceiling Price Regulation 16 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment corrects certain clerical errors and certain incorrect classifications of commodities within Table A and Table B.

In view of the nature of this Amendment the Director did not consider it practicable to consult with industry representatives or trade association representatives. In his judgment the provisions of the amendment are generally fair and equitable and are necessary

to effectuate the purposes of the Defense Production Act of 1950 as amended.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to relevant factors of general applicability.

AMENDATORY PROVISIONS

Ceiling Price Regulation 16 is amended in the following respects:

1. Section 30 is amended by adding paragraph (k) to read as follows:

(k) *Canned.* "Canned" means processed and packaged in any container, whether or not hermetically sealed.

2. Section 32, paragraph (d) (4) is revised to read as follows:

(4) "Coffee." Excluded are: Imported coffee if imported in consumer size containers (2 pounds or less) and coffee packed in bags, each containing only the amount necessary to make one ordinary cup of coffee.

3. Section 32, paragraph (b) (8) is amended by deleting the word "clams."

4. Section 32, paragraph (c) (8) is revised to read as follows:

(8) "Fish Processed." Excluded are: Canned clams (except canned Maine whole soft shell clams) and kippered, marinated, dried or smoked fish and seafood (except sardines).

5. Section 32, paragraph (d) (8) is amended by adding after the words "Excluded are" the words "Canned Maine whole soft shell clams, frozen fish and seafood."

6. Section 32, paragraph (c) (10) is amended by deleting the words "frozen fish and seafood."

7. Section 32, paragraph (d) (10) is revised to read as follows:

(10) "Frozen foods." Excluded are: Frozen hollandaise sauce and frozen fish and seafood.

8. Section 32, paragraph (b) (12) is amended by deleting the words: "'Canned' means processed and packaged in any container, whether or not hermetically sealed".

9. Section 32, paragraph (b) (19) is amended by adding after the word "tamales" the word "enchiladas."

10. Section 32, paragraph (b) (32) is amended by deleting the words: "'Canned' means processed and packaged in any container whether or not hermetically sealed."

11. Section 32, paragraph (d) (32) is amended by adding after the words "consumer size containers" the words "and canned artichoke products."

12. Section 32, paragraph (b) (33) is amended by deleting the words: "'Canned' means processed and packaged in any container whether or not hermetically sealed."

13. Section 32, paragraph (b) (36) is amended by adding after the words "Date products" the words "Enchiladas (tins, jars, paper or corn wrapped),"

14. Section 32, paragraph (b) (36) is amended by deleting the words "Tom and Jerry batter (bottled)" and the words "Popcorn, not popped."

15. Section 32, paragraph (c) (36) is amended by adding after the word "Eggs" the words "Egg-nog (non-alcoholic) bottled", by adding after the words "tamales, bulk" the words "Tom and Jerry batter (bottled)" by deleting the words "Popcorn, popped" and changing the words "Fruit cake" to read "Fruit cake, except holiday fruit cake."

16. Section 32, paragraph (c) (36) is amended by deleting the words "Frozen fish and seafood".

17. Section 32, paragraph (c) (36) is amended by adding after the word "Wine" the word "Yogurt".

18. Section 32, paragraph (d) (36) is revised to read as follows:

(36) "Miscellaneous foods." Excluded are: Truffles, capers, canned snails, cane or beet sugar, rattlesnake meat, easter egg dye, olive oil, popcorn (popped or not), holiday fruit cake, and fresh fruits and vegetables (except white flesh potatoes).

19. Section 33, paragraph (d) (3) is revised to read as follows:

(3) "Potatoes, White." Excluded are: None.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective June 7, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 2, 1952.

[F. R. Doc. 52-6144; Filed, June 2, 1952; 10:47 a. m.]

[Ceiling Price Regulation 34, Amdt. 1 to Supplementary Regulation 14]

CPR 34—SERVICES

SR 14—MARINE TERMINAL COMPANIES OPERATING UNDER JOINT AGREEMENTS PURSUANT TO THE PROVISIONS OF SECTION 15 OF THE SHIPPING ACT OF 1916, AS AMENDED

CERTAIN PRIVATE MARINE TERMINAL SERVICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Order No. 2 (16 F. R. 738), this Amendment 1 to Supplementary Regulation 14 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 14 to Ceiling Price Regulation 34 provides a means for establishing or adjusting on a group basis the rates and charges of marine terminals operating under agreements approved by the Federal Maritime Board under section 15 of the Shipping Act of 1916, if such agreements require all of the signatories thereto to maintain uniform rates and charges.

Since the issuance of SR 14 the rates of publicly owned marine terminals, some of which are parties to such agreements, have been exempt from price control by Amendment 9 to General Overriding Regulation 14. In addition, it has come to the attention of the Director that some privately owned terminals which are parties to such agreements are appropriately to be classified as public utilities exempt from price control under section 402 (c) (v) of the Defense Production Act.

In at least one instance publicly owned terminals, privately owned terminals exempt from price control as public utilities, and privately owned terminals covered by SR 14 are all parties to a single agreement approved by the Maritime Board which requires the maintenance of uniform rates. Such circumstances were not contemplated when OPS issued SR 14, which is designed to permit, within the standards of CPR 34, the maintenance of uniformity in rates by parties to such agreements. SR 14 provides for a filing for adjustment on behalf of all of the signatories to a section 15 agreement, not for a filing by only some of them.

The rates of marine terminals which are public utilities and the rates of publicly owned marine terminals have been exempt from price control by the Congress and by OPS because they have been deemed not to be a source of serious inflationary dangers. Since all of the parties to a section 15 agreement requiring uniform rates compete in the same general area under substantially the same conditions and the agreement itself must be given legal sanction by the Maritime Board, it is the view of the Director that, consistently with the maintenance of effective price control, the ceiling rates of terminals controlled by OPS can be permitted to be adjusted to conform to the rates established by the publicly owned and privately owned but publicly regulated terminals where agreements such as that described above so require. This amendment permits terminals subject to CPR 34 and SR 14 to adjust their rates accordingly.

In the formulation of this amendment there has been extensive consultation with industry representatives, including representatives of terminal associations, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 34, Supplementary Regulation 14, is amended in the following respect: Section 4 is amended by adding at the end thereof the following:

(c) *In-line adjustments.* (1) If any marine terminal companies subject to this regulation have entered into an agreement with publicly owned marine terminals, as defined in paragraph 89 of section 3 (a) of General Overriding Regulation 14, or with marine terminals classified as public utilities under section 402 (c) (v) of the Defense Production Act, as amended, which agreement requires all of the signatories thereto to maintain uniform rates and charges and has been approved by the Federal Maritime Board under section 15 of the Shipping Act of 1916, as amended, adjustments may be made in their ceiling rates and charges to conform to their obligations under that agreement.

(2) Adjustments under this paragraph may be had by filing with the Transportation, Public Utilities and Fuels Division, OPS, Washington 25, D. C., a statement specifying the terminal companies whose rates and charges are proposed to be adjusted, the rates and charges to be adjusted, the adjustments to be made, and that such adjustments are necessary to conform to an agreement approved by the Maritime Board requiring the maintenance of uniform rates and charges, accompanied by or referring to the applicable agreement. The adjusted rates and charges shall become lawful ceiling rates and charges upon the receipt by OPS of such filing and shall continue to be such unless modified by an order of OPS. Filings may be made by one of the marine terminal companies seeking an adjustment under this paragraph on behalf of all the marine terminal companies seeking such adjustments or by any agent authorized to act for all such marine terminal companies.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Supplementary Regulation 14 to Ceiling Price Regulation 34, is effective June 7, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 2, 1952.

[F. R. Doc. 52-6147; Filed, June 2, 1952; 10:49 a. m.]

[Ceiling Price Regulation 50, Amdt. 1]

CPR 50—CEILING PRICES FOR PETROLEUM PRODUCTS SOLD IN THE VIRGIN ISLANDS

AMENDMENT OF CEILING PRICES FOR KEROSENE SOLD IN ST. JOHN

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Ceiling Price Regulation 50 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 1 to CPR 50 increases the retail ceiling prices established for kerosene sold on the island of St. John, in order to compensate sellers for increased trucking and ocean transportation costs. Retail prices for this commodity in St. Thomas and St. Croix are not affected by the amendment.

Normal docking and unloading facilities for boats plying between St. Thomas, St. John, and neighboring British and French islands have been disrupted due to improvements being made to the waterfront in St. Thomas. As a consequence, boats are obliged to dock well beyond the city limits. This shift in normal operations has resulted in increased truckage cost due to the length of the haul.

In addition, the Municipality of St. Thomas and St. John, by local ordinance, recently compelled the storage of gasoline and kerosene outside city limits as a safety measure. This action also has caused a further increase in the cost of transportation for kerosene due to fact that the distance from the source of supply to the loading pier has been greatly increased. Moreover, there has been an advance in the cost of ocean transportation to St. John due to a shift from the former use of sailboats to that of motor-propelled vessels for hauling cargo. The increase in transportation costs has seriously impaired the customary percentage margin enjoyed by St. John retailers of kerosene. This amendment, therefore, increases ceiling prices an average of 8½ percent over the previously established ceiling prices for St. John, and permits the retailers the same margin they received in the period May 24 to June 24, 1950.

In view of the nature of this action, consultation with the industry including trade association representatives was neither necessary nor practical. In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Section 11 of Ceiling Price Regulation 50 is changed to read as follows:

SEC. 11. *Ceiling prices for kerosene imported in steel drums.* Ceiling prices of kerosene sold at retail in the Virgin Islands of the United States shall be.

Commodity	Quantity	St. Croix	St. Thomas	St. John
Kerosene	Gallon	$0.29	$0.30	$0.31
	Quart	.08	.08	.08
	¼ quart	.07	.07	.07
	Two ¼s quarts	.13	.13	.13

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date: This Amendment 1 to Ceiling Price Regulation 50 is effective June 7, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 2, 1952.

[F. R. Doc. 52-6145; Filed, June 2, 1952; 10:48 a. m.]

[Ceiling Price Regulation 121, Amdt. 1]

CPR 121—PRINTING, PRINTED PRODUCTS, ALLIED PRODUCTS AND CERTAIN PAPER PRODUCTS

USE OF PRICING MANUALS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Ceiling Price Regulation 121 is hereby issued.

STATEMENT OF CONSIDERATIONS

Since the issuance of Ceiling Price Regulation 121 the Office of Price Stabilization has received many inquiries from printers who price by use of a pricing catalog. Such pricing catalogs or manuals are utilized by some 4,000 printers subject to the regulation. A high percentage of such printers who rely exclusively on such a catalog or manual as a basis for establishing their prices have no base period estimating system, method or records which would enable them to establish a ceiling price under the formula provided for in the regulation.

The pricing catalogs or manuals provide the printers with a guide or method based on average costs of materials and labor whereby the printer can price any given order or service. The cost data includes margin and the suggested estimates are normally modified a given percentage by the printer, depending upon locality, competition, practice or experience.

The publishers of these services make a continuous study of costs and the catalog or manual is supplemented periodically by inserts when cost changes so warrant. Of necessity there is a time lag of about three months between the compilation of such data and the issuance of a supplemental insert, and the catalog or manual reveals a complete change about every two years.

By permitting a printer to continue to use those price catalogs or manuals, a method of pricing is given which has been historically utilized by this segment of the industry. This meets the objective of supplying the only practical method whereby ceilings may be obtained for this class of printer. The restraint of using the catalog or manual as used during the base period and the disallowance of the use of any inserts after the effective date of this amendment provide for ceiling prices that will be in line with the level of ceiling prices established by use of the formula in the regulation.

In the formulation of this amendment there has been correspondence with industry representatives, consultation with trade association representatives and with a representative of the publisher of such a catalog or manual, to the extent practicable, and consideration was given to their recommendations. Also incorporated in the formulation of this amendment were the recommendations of persons representing substantial segments of the industry. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purpose of title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 121 is amended in the following respect:

1. The following paragraph (f) is added to section 4 of the regulation:

(f) *Pricing by catalog.* If, during the base period, you used a pricing catalog or pricing manual and you find you cannot determine ceiling prices for your commodities under the preceding paragraphs of this section, you may use such catalog or manual to determine your ceiling prices, provided you use it in the same manner or method in which you used it during the base period, and provided further that any catalog or man-

ual inserts issued after June 7, 1952, which would increase costs beyond the limitations in paragraphs (b) or (c) of section 4 are not used in establishing your ceiling price.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Ceiling Price Regulation 121 shall become effective June 7, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 2, 1952.

[General Ceiling Price Regulation, Amdt. 1 to Supplementary Regulation 78]

GCPR, SR 78—COAL BRIQUETS, PETROLEUM COKE BRIQUETS AND PACKAGED FUEL PRODUCED AT PLANTS WHICH ARE ADJUNCTS OF OR ADJACENT TO LAKE COAL DOCKS

ADJUSTMENT IN CEILING PRICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Supplementary Regulation 78 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 78 to the GCPR was issued on November 6, 1951, granting increases in ceiling prices to manufacturers of coal briquets, petroleum coke briquets and packaged fuel in that area served by the lake docks on the West Bank of Lake Michigan and the United States Bank of Lake Superior. A description of the condition of the manufacturers and their products was contained in the Statement of Considerations accompanying SR 78 and is incorporated herein by reference. It was noted that the earnings of these producers had declined as a result of reduction in volume and that, therefore, they were unable to absorb additional costs. The increases in ceiling prices then allowed were minimum interim amounts, based only upon cost increases which were clearly identifiable from the data available at that time.

It now appears that the increases in ceiling prices granted by SR 78 were not sufficient to permit earnings at the level required by the earnings standard. The producers, therefore, requested a further survey of their financial condition. The Office of Price Stabilization obtained complete financial and earnings data from all producers. It was found that aggregate earnings for the year 1951, adjusted for changes in costs and ceiling prices, were substantially below the required 85 percent level of the three best base-period earnings years. The additional increase in ceiling prices required if ceilings are to meet the earnings standard is $1.00 per net ton. This adjustment may be applied by each firm to its ceiling price now in effect.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Supplementary Regulation 78 to the GCPR is amended in the following respects:

1. The present text section 3 is redesignated as paragraph (a) thereof.

2. A new paragraph (b) is added to section 3 as follows:

(b) The ceiling prices determined under the General Ceiling Price Regulation and paragraph (a) of this section for each size, grade or kind of coal briquet, petroleum coke briquet, or packaged fuel produced at plants covered by this regulation may be further increased by $1.00 per net ton.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Supplementary Regulation 78 to the General Ceiling Price Regulation shall become effective June 2, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 2, 1952.

Chapter IX—Petroleum Administration for Defense, Department of the Interior

[PAD Order 6 and Direction 1, Revocation]

PAD 6—LIMITATION ON AVIATION GASOLINE

DIR. 1—LIMITATION ON INVENTORIES OF AVIATION GASOLINE

PAD Order No. 6, as amended and direction 1 relating thereto are hereby revoked.

This revocation does not relieve any person of any obligation or liability incurred under PAD Order No. 6, as originally issued or as amended from time to time, or under direction 1 thereto, nor does this revocation deprive any person of any rights received or accrued under said order, as originally issued or as amended from time to time, or under direction 1 thereto, prior to the effective date of this revocation.

This revocation does not relieve any person of an obligation to file such reports in connection with transactions under PAD Order No. 6, as originally issued or as amended from time to time, or under direction 1 thereto, as may be required by the Petroleum Administration for Defense. Specifically, the filing of Form PAD 74 on or before June 15, 1952 is required of each carrier or foreign carrier.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

This revocation shall take effect at 3:01 a. m., e. s. t., June 3, 1952.

OSCAR L. CHAPMAN,
Secretary of the Interior and Petroleum Administrator.

MAY 29, 1952.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART C—TRAINING FACILITIES

MISCELLANEOUS AMENDMENTS

1. A new § 21.541 is added as follows:

§ 21.541 *Disposal of returned books, supplies, and equipment furnished through educational institutions to Part VII and Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12) trainees*—(a) *General.* Under the provisions of section 4, Public Law 16, 78th Congress, as amended, returned books, supplies, and equipment furnished through an educational institution for veteran training under Part VII or Part VIII may be turned in to an educational institution for credit under such terms as may be approved by the Administrator or disposed of in such other manner as may be approved by the Administrator. Where it is acceptable to the educational institution, the Veterans' Administration will make arrangements with the educational institution for the recovery and disposal of such returned items as provided in paragraphs (c), (d), and (e) of this section.

(b) *Definition.* The term "supplies" mentioned in this section refers to books, tools, nonexpendable supplies, and equipment.

(c) *Recovery and reissuance by an educational institution.* (1) Where it is acceptable to the educational institution, the regional office will make arrangements for the recovery and reissuance of supplies returned by veterans which were furnished under Part VII or Part VIII. In each case where the institution agrees to assume the responsibility for the handling, storage, and reissuance of supplies, the provision concerning the recovery and reissue of books, tools, supplies, and/or equipment will be included in schedule 1 of the contract. If no contract is in effect with an institution, a contract will be made on VA Form 7-1903, Contract for Education and Training, Public Laws 16 and 346, 78th Congress, as amended, which will include under article 2 (payment) a stipulation, "This contract covers only the recovery and reissue of books, tools, supplies, and equipment,"

and the appropriate provision of schedule 1, as provided in this subparagraph.

(2) The amount to be paid to the institution for services for the handling (including necessary storage) and reissuance of supplies will be based on the estimated reasonable cost that will be incurred by the educational institution in rendering this service: *Provided*, That such cost will be stated in the contract in terms of percent of the original cost to the Veterans' Administration of the supplies which are reissued, but not in excess of 10 percent of such cost. Reimbursement by the Veterans Administration will not be based on the normal profit margin charged by a retail book store. The agreed estimated cost of handling and issuance may be billed to the Veterans' Administration in one lump sum on a public voucher, Standard Form 1034, which need show only the total cost of supplies issued, percent handling charge, total handling charge claimed, and the number of the covering contract. The vouchers for handling charges for reissued supplies will contain a certificate as follows:

I certify that the charges for handling of books, supplies, and equipment reissued to veterans are fair and reasonable, that the articles have been delivered to the trainees, and that evidence of delivery on account of each veteran is available for the inspection of the Veterans' Administration.

(d) *Recovery and sales to institutions.* (1) Where the institution does not agree to reissue recovered supplies as provided in paragraph (c) of this section, but does desire to recover and to purchase supplies turned in by veterans enrolled in the institution, the regional office is authorized to negotiate for the sale of such supplies as provided in this paragraph. Sale prices of supplies shall not be less than the current or usual market prices for used supplies of the same type and similar condition but generally not less than 50 percent of the original wholesale cost (actual or estimated). Contracts or supplements to contracts are not required, but the purchase of supplies by the institution may not be effected until the proposed schedule of prices are approved by the special assistant to director, training facilities service, for the area concerned, on one of the following bases:

(i) Supplies accumulated during a quarter, term, or semester may be held by the institution, and offers to purchase may be made by letter at the end of each such period. The offers to purchase should list the quantity, description, original or estimated cost, price per unit offered by the institution, and the total amount offered for all items. When accepted by the Veterans' Administration, at prices prescribed in this paragraph, such offers will constitute sales.

(ii) Arrangements may be made with educational institutions to accept returned supplies from veterans and the automatic sale of these returned supplies may be made at prearranged percentage of the original cost or at prearranged prices in accordance with this paragraph as agreed upon by letter between the institution and the Veterans' Administration.

(2) Where the institution desires to purchase supplies which are turned in, the institution will prepare VA Form 7-1937, Receipt for Property Turned in by Trainee. Credits arising from the purchase of supplies by the educational institution may either be shown as credits on subsequent vouchers against sums due the institution for the education and training of veterans, or, in the event there will be no subsequent vouchers, as a separate cash collection item in accordance with Veterans' Administration Regulations. Distinction is necessary between credits for supplies turned in under Part VII and those turned in under Part VIII. It will also be necessary to indicate the fiscal year and project number under which the supplies were originally furnished in order that finance may credit the proper appropriation upon receipt of such items.

(e) *Other disposition.* Wherever disposition of returned trainee supplies cannot be accomplished under the provisions of paragraphs (c) and (d) of this section, the Veterans' Administration will arrange for disposition in accordance with this paragraph upon notification by the educational institution. A contract officer of the training facilities section will visit the educational institution, generally in connection with the negotiation of a contract or the making of a review of charges, for the purpose of reviewing the supplies for disposal, preparing an itemization of the supplies, and taking appropriate action under Veterans' Administration Vocational Rehabilitation and Education procedures.

2. In § 21.548, paragraph (a) is amended to read as follows:

§ 21.548 *Payments for cooperative course.* (a) Payments to the institution will be only for that portion of training or instruction given by the institution. The basis for charge will be determined in the light of the applicable portion of §§ 21.467 through 21.478, 21.484, 21.485, 21.493 through 21.495, and 21.503 through 21.511.

* * * * *

3. In § 21.549, paragraph (b) is amended to read as follows:

§ 21.549 *Payments for related training.* * * *

(b) Tuition charges will be determined in accord with applicable portions of §§ 21.467 through 21.478, 21.484, 21.485, 21.493 through 21.495, and 21.503 through 21.511.

* * * * *

4. Section 21.557 is revised to read as follows:

§ 21.557 *Payments in lieu of tuition and fees.* Hospitals approved by the appropriate State agency for training in connection with residencies for qualified physician veterans enrolled under Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), (or Part VII), may be paid as follows: For courses of more than 30 weeks (residency training usually covers 52 weeks) in accord with the bases set forth in §§ 21.467 through 21.478 or 21.484 and 21.485. When payment is requested on the basis of § 21.475, the hospital will be required to deduct the value of services rendered by the individual from the cost of teaching personnel and supplies for instruction in arriving at the compensation to be paid for training.

5. Section 21.669 is revised to read as follows:

§ 21.669 *Certification by institution*—(a) *Certificate of correctness of claims.* All vouchers or invoices submitted by educational institutions for tuition, fees, books, supplies, and equipment (except vouchers for correspondence courses and advance payment) for Part VII and Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), trainees will include the following uniform payee's certification which has been approved by the General Accounting Office:

I certify that the above bill is correct and just; that payment therefor has not been received; that charges are not in excess of those charged other students pursuing the same or similar courses or those established by the Administrator as fair and reasonable; that State and local sales taxes and Federal admission taxes imposed by section 1700 (a) of the Internal Revenue Code, as amended, are not included in the amounts billed; that no amount herein claimed represents the cost of any rebate, prize, or payment in goods or money which has been made to any veteran-trainee and that no part of the amount herein claimed will be so used. It is further certified that evidence of delivery of books, supplies, and equipment on account of each veteran is available for inspection by the United States Government; that records on hand substantiate charges herein by signed receipts of each veteran-trainee; and that all applicable statutory requirements as to American production and labor standards have been complied with.

(b) *Certificate of compliance with ceiling price regulations.* (1) Institutions receiving payment without a contract on the basis of VA Form 7-1957, Statement of Charges, and those institutions which refuse to sign a contract and therefore are receiving payment on the basis of a letter of authorization, shall include the following certificate on all vouchers for payment of the cost of tools, supplies, and equipment (books are excluded from ceiling price regulations; vouchers submitted for books only do not require a certificate of compliance) furnished to veterans:

The contractor warrants that the prices claimed herein for tools, supplies, and equipment are not in excess of applicable ceiling prices established by the Office of Price Stabilization or other authorized Government agency, and in effect upon the date hereof.

Except as provided in subparagraph (2) of this paragraph, certification on vouchers as to compliance with price ceilings is required in all cases where payment is not claimed under a contract containing a ceiling price warranty provision as required in § 21.669a.

(2) Where institutions do not have a contract containing a ceiling price warranty, and where anticipated payments to an institution for tools, supplies, and equipment will not exceed a total of $500 for all veterans enrolled, a certificate of

compliance will not be required on vouchers for payment of the cost of tools, supplies, and equipment.

6. A new § 21.669a is added as follows:

§ 21.669a *Compliance with ceiling price regulations.* All contracts negotiated with educational institutions offering resident training to veterans under Public Laws 16 and 346, 78th Congress, which provide for the furnishing to veterans of tools, supplies, and equipment (books are excluded from ceiling price regulations), will contain a provision warranting compliance with ceiling price regulations. Contracts in effect on June 3, 1952, not containing a ceiling price warranty may be modified to include such warranty, but if not so modified the institutions having such contracts in effect will be required to execute on all vouchers for payment the certificate set forth in § 21.669 (b). The contract provision warranting compliance with ceiling price regulations shall be as follows:

Ceiling prices. The contractor agrees that the prices for tools, supplies, and equipment invoiced hereunder will not exceed the lower of (1) the contract price or, (2) any applicable ceiling prices established by the Office of Price Stabilization or other authorized government agency.

Where such warranty is incorporated in the contract, vouchers submitted for payment of the cost of tools, supplies, and equipment need not contain a certificate of compliance with ceiling price regulations as provided in § 21.669 (b).

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697–697d, 697f, g. ch. 12 note)

This regulation effective June 3, 1952.

[SEAL] O. W. CLARK,
Deputy Administrator.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 325]

[Regs. 132]

REGISTRY, RETURN, AND PAYMENT OF SPECIAL (OCCUPATIONAL) WAGERING TAX

NOTICE OF PROPOSED RULE MAKING

Amendment of Regulations 132 to require persons liable for special (occupational) wagering tax to file returns and pay tax before commencing taxable activity and to file supplemental returns advising of all agents or employees engaged to receive wagers, or with respect to all persons for whom wagers are received.

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 3791 of the Internal Revenue Code (53 Stat. 467; 25 U. S. C. 3791).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Section 325.50 of Regulations 132 is amended to read as follows:

§ 325.50 *Registry, return, and payment of tax.* (a) No person shall engage in the business of accepting wagers subject to the 10 percent excise tax imposed by section 3285 of the Internal Revenue Code (see § 325.24) until he has filed a return on Form 11-C and paid the special tax imposed by section 3290. Likewise, no person shall engage in receiving wagers for or on behalf of any person engaged in such business until he has filed a return on Form 11-C and paid the special tax imposed by section 3290 of the Internal Revenue Code. Filing of successive applications and payment of tax by such persons are required on or before July 1 of each year thereafter during which taxable activity continues. The return, with remittance, shall be filed with the collector of internal revenue for the district in which is located the taxpayer's office or principal place of business. If such taxpayer resides in the United States, but has no office or principal place of business in the United States, the return shall be filed with the collector of internal revenue for the district in which he resides. If the taxpayer has no office, residence, or principal place of business in the United States, the return shall be filed with the Collector of Internal Revenue, Baltimore, Maryland. The collector, upon request, will furnish the taxpayer proper forms which shall be filled out and signed as indicated therein.

(b) Each return shall show the taxpayer's full name. A person doing business under an alias, style, or trade name shall give his true name, followed by his alias, style, or trade name. In the case of a partnership, association, firm, or company, other than a corporation, the style or trade name shall be given, also the true name of each member and his place of residence. In the case of a corporation, the true name and title of each officer and his place of residence shall be shown.

(c) Each person engaged in the business of accepting wagers on his own account shall report on Form 11-C the name and address of each place where such business will be conducted and the name, address, and number appearing on the special (occupational) stamp of each agent or employee who may accept wagers on his behalf. Thereafter, a return shall be filed on Form 11-C, marked "supplemental", each time an additional employee or agent is engaged to receive wagers. Such supplemental return shall be filed not later than 10 days after the date such agent or employee is engaged to receive wagers and shall show the name, address, and number appearing on the special (occupational) stamp of each such agent or employee. As to a change of address, see § 325.57.

(d) Each agent or employee of a person accepting wagers shall report on Form 11-C the name and residence address of each person (i. e., individual, partnership, corporation, etc.) on whose behalf wagers are to be accepted. Thereafter, a return shall be filed on Form 11-C, marked "supplemental", each time the agent or employee is engaged or employed to receive wagers for a person or persons other than the person or persons first reported on Form 11-C. Such supplemental return shall be filed not later than 10 days after the date such agent or employee is engaged to receive wagers and shall show the name, business address, or, if none, the residence address of the person or persons by whom he is engaged to receive wagers. As to a change of address, see § 325.57.

The amendments made by this Treasury decision shall become effective the first day of the first month which begins more than 30 days after the month in which such Treasury decision is filed with the FEDERAL REGISTER.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 936]

FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO EXPENSES AND FIXING OF RATES OF ASSESSMENT FOR 1952–53 SEASON

Consideration is being given to the following proposals submitted by the Control Committee, established under the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, as the agency to administer the provisions thereof:

(a) That the Secretary of Agriculture find, with respect to Bartlett pears, early varieties of plums, late varieties of plums, and Elberta peaches, that expenses not to exceed the following amounts are likely to be incurred, during the season ending February 28, 1953, inclusive, by the Control Committee for the maintenance and functioning of such committee and the respective commodity committees established under the aforesaid amended marketing agreement and order:

(1) Bartlett pears, $20,347.20;

(2) Early varieties of plums, $21,210.00;

(3) Late varieties of plums, $22,540.00; and

(4) Elberta peaches, $15,077.30.

(b) That the Secretary of Agriculture fix, as each handler's pro rata share of such expenses, the following rates of assessment which each handler shall pay in accordance with the provisions of said amended marketing agreement and order:

(1) 7½ mills ($0.0075) per standard western pear box of Bartlett pears, or its equivalent in other containers or in bulk;

(2) 1 cent ($0.01) per standard four-basket crate of early varieties of plums, or its equivalent in other containers or in bulk;

(3) 1 cent ($0.01) per standard four-basket crate of late varieties of plums, or its equivalent in other containers or in bulk; and

(4) 3½ mills ($0.0035) per California peach box of Elberta peaches, or its equivalent in other containers or in bulk.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposals may do so by submitting the same to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than the 10th day following publication of this notice in the FEDERAL REGISTER.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued this 28th day of May 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Branch.

[F. R. Doc. 52-6028; Filed, June 2, 1952; 8:49 a. m.]

[7 CFR Part 962]

FRESH PEACHES GROWN IN THE STATE OF GEORGIA

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1952–53 FISCAL PERIOD

Consideration is being given to the following proposals which were submitted by the Industry Committee, established under the marketing agreement, as amended, and Order No. 62, as amended (7 CFR Part 962), regulating the handling of fresh peaches grown in the State of Georgia, as the agency to administer the terms and provisions thereof:

(a) That the Secretary of Agriculture find that expenses not to exceed $23,220.00 will be necessarily incurred by the aforesaid Industry Committee for its maintenance and functioning during the fiscal period beginning on March 1, 1952, under the aforesaid amended marketing agreement and order; and

(b) That the Secretary of Agriculture fix, as the share of such expenses which each handler who first ships peaches shall pay in accordance with the provisions of the aforesaid amended marketing agreement and order during the aforesaid fiscal period, the rate of assessment at $0.015 per bushel basket of peaches (net weight 50 pounds), or its equivalent of peaches in other containers or in bulk, shipped by him as the first handler thereof during said fiscal period.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposals may do so by submitting the same to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than the 10th day following publication of this notice in the FEDERAL REGISTER.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued this 28th day of May 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Branch.

NOTICES

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order 28]

BOARD OF HARBOR COMMISSIONERS, CITY OF LOS ANGELES

APPLICATION TO MODIFY AREA OF FOREIGN-TRADE ZONE NO. 4, BY REMOVING BERTH 60 AND ADJACENT FACILITIES AND TO EXPAND REMAINING ZONE AREA AND INCORPORATE THEREIN ALL OF WAREHOUSE NO. 1

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998–1003; 19 U. S. C. 81a–81u), the Foreign-Trades Zones Board has adopted the following order which is promulgated for the information and guidance of all concerned:

Whereas on September 10, 1951, the Board of Harbor Commissioners, City of Los Angeles, as grantee of Foreign-Trade Zone No. 4, made application for modification of the zone area by excluding therefrom Berth 60 and adjacent transit shed and low-line railroad tracks, and for expansion of the remaining zone area and the incorporation therein of all of Warehouse No. 1; to which application an amendment was filed on December 17, 1951, providing that the exclusion of Berth 60 and adjacent transit shed and low-line railroad tracks would be on a temporary basis for the period of one year from the date of the Foreign-Trade Zones Board order, subject to extension beyond that time depending on then existing conditions; and

Whereas Berth 60 and adjacent transit shed and low-line railroad tracks, during the period they have been a part of the zone, have only been partially utilized; and there is a shortage of terminal facilities in Los Angeles Harbor due to emergency shipping conditions resulting from the Korean situation; and

Whereas, the Foreign-Trade Zones Board is desirous of completing a study, which it has just initiated, relating to facilities required by zones and their utilization, before making a final decision regarding the proposed removal of Berth 60 and adjacent shed and low-line railroad tracks;

Now, therefore, the Foreign-Trade Zones Board, after full consideration and a finding that the amended proposal is in the public interest, hereby orders:

1. That the boundaries of Foreign-Trade Zone No. 4, Port of Los Angeles, California, be and they hereby are established on a temporary basis to conform with revised Exhibits Nos. 1, 3, 6, 7, 8, 10, and 13, filed with the application of September 10, 1951, provided that the exclusion of Berth 60 and adjacent transit shed and low-line railroad tracks is authorized for a period of one year from the date of this order, subject to extension beyond that time by the Foreign-Trade Zones Board.

It is found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1003) is impracticable, unnecessary, and contrary to the public interest in connection with the issuance of this order because it has already been the subject of widespread study and discussion by interested parties in the area of the only foreign-trade zone to which it would apply, and because the same emergency conditions which are a cause for this order necessitate that it become effective as quickly as possible. The effective date of this order is, therefore, upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 15th day of April 1952.

FOREIGN-TRADE ZONES BOARD,
[SEAL] CHARLES SAWYER,
Secretary of Commerce, Chairman and Executive Officer, Foreign-Trade Zones Board.

[F. R. Doc. 52-6034; Filed, June 2, 1952; 8:51 a. m.]

DEFENSE PRODUCTION ADMINISTRATION

[D. P. A. Request No. 42; DPAV-37]

REQUEST TO WOODWORKING DEFENSE PRODUCTION POOL OF NEW YORK AREA TO OPERATE AS SMALL BUSINESS ENTERPRISE PRODUCTION POOL AND REQUEST TO CERTAIN COMPANIES TO PARTICIPATE IN OPERATIONS OF SUCH POOL

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request to Woodworking Defense Production Pool of New York Area to operate as a small business enterprise production pool and the request to the companies hereinafter listed to participate in the operations of such pool, set forth below, were approved by the Attorney General after consultations with respect thereto between the Attorney General, the Chairman of the Federal Trade Commission, and the Administrator of the Defense Production Administration. The voluntary program in accordance with which the pool shall operate has been approved by the Administrator of the Defense Production Administration and found to be in the public interest as contributing to the national defense.

REQUEST TO WOODWORKING DEFENSE PRODUCTION POOL OF NEW YORK AREA

You are requested to operate as a small business enterprise production pool in accordance with the voluntary program set forth in the papers submitted to the Department of Commerce, Pooling Section, Office of Small Business, Washington, D. C.

In my opinion, the operations of your association as a small business enterprise production pool will assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect thereto between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary program and find it to be in the public interest as contributing to the national defense. You may commence your operations as a small business enterprise production pool upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance provided that such operations are within the limitations set forth in the approved voluntary program.

Your cooperation in this matter will be appreciated.

Sincerely yours,

MANLY FLEISCHMANN,
Administrator.

REQUEST TO COMPANIES

You are requested to participate in the operations of Woodworking Defense Production Pool of New York Area, which will operate as a small business enterprise production pool in accordance with the voluntary program set forth in the papers submitted by it to the Office of Small Business, Pooling Section, National Production Authority, Department of Commerce, Washington, D. C.

In my opinion, your participation in the operations of this small business enterprise production pool will assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect to this matter between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary program and find it to be in the public interest as contributing to the national defense. You will become a participant upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that the operations of this production pool and your participation therein are within the limits set forth in the approved voluntary program.

Your cooperation in this matter will be appreciated.

Sincerely yours,

MANLY FLEISCHMANN,
Administrator.

Woodworking Defense Production Pool of New York Area accepted the request set forth above to operate as a small business enterprise production pool.

FEDERAL POWER COMMISSION

[Docket Nos. G-1175, G-1261, G-1448, G-1658, G-1787, G-1850, G-1893, G-1901, G-1905, G-1911, G-1931, G-1936, G-1943, G-1952]

ATLANTIC SEABOARD CORP. ET AL.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

MAY 23, 1952.

In the matters of Atlantic Seaboard Corporation, Docket No. G-1175; Virginia Gas Transmission Corporation, Docket No. G-1261; Shenandoah Gas Company, Docket No. G-1448; Peterstown Gas Company, Inc., Docket No. G-1658; The Ohio Fuel Gas Company, Docket No. G-1787; Atlantic Seaboard Corporation, Docket No. G-1850; The Manufacturers Light and Heat Company, Natural Gas Company of West Virginia, and Home Gas Company, Docket No. G-1893; Rockland Light and Power Company, Docket No. G-1901; Central Kentucky Natural Gas Company, Docket No. G-1905; The Ohio Fuel Gas Company, Docket No. G-1911; The Ohio Fuel Gas Company, Docket No. G-1931; The Ohio Fuel Gas Company, Docket No. G-1936; The Ohio Fuel Gas Company, Docket No. G-1943; United Fuel Gas Company, Docket No. G-1952.

On April 8, 1952, Atlantic Seaboard Corporation (Atlantic Seaboard) a subsidiary of The Columbia Gas System, Inc. (Columbia), filed an application in Docket No. G-1175 requesting an amendment of the Commission's order dated July 26, 1949, to remove the limitation of 70,000 Mcf per day of natural gas as a maximum volume which Atlantic Seaboard was authorized to sell and deliver to Consolidated Gas, Electric Light and Power Company of Baltimore (Consolidated), and to file a new service agreement with Consolidated.

On April 8, 1952, Virginia Gas Transmission Corporation (Virginia Gas), a subsidiary of Columbia, filed an application in Docket No. G-1261 requesting an amendment of the Commission's order dated March 30, 1950, to remove the limitation of 55,000 Mcf per day of natural gas as a maximum volume which Virginia Gas was authorized to sell and deliver to Commonwealth Natural Gas Company (Commonwealth), and to file a new service agreement with Commonwealth.

On July 26, 1950, Shenandoah Gas Company (Shenandoah) filed an application in Docket No. G-1448 for (1) an order, pursuant to section 7 (a) of the Natural Gas Act, directing Virginia Gas, a subsidiary of Atlantic Seaboard, to establish a physical connection of its transmission facilities with the proposed facilities of Shenandoah, and to sell and deliver natural gas to Shenandoah, and (2) a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing Shenandoah to construct and operate approximately 49 miles of 8⅝-inch, 4½-inch, and 3½-inch transmission pipeline extending from the facilities of Virginia Gas to various communities proposed to be served by Shenandoah, including Front Royal, and Winchester, Virginia, and Martinsburg, West Virginia. On August 16, 1950, Virginia Gas filed an answer to said application in which it proposes, during the course of hearing upon the application, to show its facilities and the capacity thereof involved in making the delivery of gas requested by Shenandoah, and to present the estimated gas requirements and supply situation of Columbia. On March 30, 1951, Virginia Gas filed a motion for postponement of hearing in Docket No. G-1448 in which it stated that it is a member of Columbia's system of companies, and that estimates of the gas requirements and gas available prepared by Columbia in 1951 show an anticipated serious shortage in the System for the winter of 1951-52 unless growth of load is controlled and substantial additional quantities of gas are procured. By order of the Commission, dated April 13, 1951, the hearing theretofore fixed to commence on April 16, 1951, was postponed to a date to be fixed by further order of the Commission.

On April 6, 1951, Peterstown Gas Co., Inc. (Peterstown) filed an application in Docket No. G-1658 for an order directing Atlantic Seaboard to establish physical connection of its transportation facilities with the existing facilities of Peterstown and to sell and deliver to Peterstown natural gas for distribution in the Town of Peterstown, West Virginia. On May 3, 1951, Atlantic Seaboard filed an answer to said application in which it states that Atlantic Seaboard is a member of Columbia which consists of The Columbia Gas System, Inc., and subsidiaries, and that estimates prepared in 1951 show clearly that there will be a serious shortage in the gas supply of the Columbia System during the winter of 1951-52 and in subsequent winters unless growth of load is controlled and unless substantial quantities of gas are procured. Said answer also makes reference to a letter dated February 22, 1951, to all Group Presidents of The Columbia Gas System, Inc., stating the System's policy then in effect was not to take on additional new markets.

On September 6, 1951, The Ohio Fuel Gas Company (Ohio Fuel Gas), a subsidiary of Columbia, filed an application in Docket No. G-1787, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of approximately 15 miles of 20-inch natural-gas transmission pipeline replacing sections of 18-inch pipe in an existing line between the Centerville measuring station of Ohio Fuel Gas and Howell Junction in Ohio. The application recites that the construction and operation of the said facilities is proposed to permit Ohio Fuel Gas to accept and transport additional volumes of natural gas which it expects to become available from Texas Gas Transmission Corporation. In its application, Ohio Fuel Gas states that the cost of construction of the proposed facilities is to be paid for from funds to be provided by its parent company, Columbia.

On December 10, 1951, Atlantic Seaboard filed an application in Docket No. G-1850, amended March 31, 1952 and supplemented on April 8, 1952, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of three new compressor stations totaling 16,000 horsepower, and an additional 1,980 horsepower in its existing Files Creek Station, by means of which Atlantic Seaboard proposes to increase the capacity of its existing transmission system by 88,600 Mcf per day of natural gas in order to transport increased volumes of natural gas to its existing customers. Atlantic Seaboard proposes to supply, among others, the increased demands of Consolidated and Commonwealth when it and its subsidiary, Virginia Gas, estimate that they will have gas available. In its application, Atlantic Seaboard states that it proposes to provide the capital cost of the proposed facilities out of funds to be realized from the sale of securities to its parent company, Columbia.

On February 14, 1952, The Manufacturers Light and Heat Company (Manufacturers), Natural Gas Company of West Virginia (Natural Gas), and Home Gas Company (Home), subsidiaries of Columbia, filed a joint application in Docket No. G-1893 for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas transmission facilities, and for orders pursuant to section 7 (b) of the Natural Gas Act, authorizing and approving the abandonment and retirement of certain natural-gas facilities. On April 29, 1952, a supplement to said joint application was filed which indicates that additional capacity will be provided by means of the proposed facilities. Said facilities are proposed to be financed from funds provided or caused to be provided by Columbia under an overall plan for financing the construction requirements of its subsidiaries.

On February 29, 1952, Rockland Light and Power Company (Rockland) filed an application in Docket No. G-1901 for (1) an order, pursuant to section 7 (a) of the Natural Gas Act, directing Home to establish physical connection of its transmission facilities with the proposed facilities of Rockland, and to sell and deliver to Rockland natural gas for resale in certain municipalities located in Orange County, New York, and (2) for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 9½ miles of 4-inch pipeline to serve the town and village of Warwick, the village of Florida, and the town and village of Chester, all in New York, and approximately 12½ miles of 4-inch pipeline to serve the village of Greenwood Lake, village of Harriman, and the town and village of Monroe, all in New York. On March 28, 1952, Home filed an answer to said application in which it states that it is a subsidiary of Columbia and is one of the gas companies making up the Columbia System. The gas supply available to Columbia is alleged in said answer to be treated as a pooled supply with respect to the gas available to, and gas requirements of, the various companies in the system. Home states that the most recent estimates of the gas requirements of, and gas available to, Columbia, prepared in January 1952, show clearly that Columbia is faced with serious and continuing shortages in its gas supply during the period of said estimates unless substantial quantities of gas, over and above those from presently known sources, are procured. Home states further, that until such large additional supplies of gas are obtained from sources not yet known the Columbia companies do not expect to be able to meet the estimated market demands presently served by them.

On March 3, 1952, Central Kentucky filed an application in Docket No. G-1905 for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 8.8 miles of 20-inch natural-gas transmission pipeline paralleling Central Kentucky's existing 14-inch Line "E" extending northward from North Means, Kentucky. The said facilities are proposed in order to complete the looping of said Line "E", and are estimated to increase the capacity of the facilities of Central Kentucky for making deliveries of natural gas in the Cincinnati, Ohio, area by approximately 85,000 Mcf per day. Central Kentucky states that said facilities will be utilized as a safety measure to minimize hazards in operations and in due course to furnish such additional gas to its customers as their future increased demands, under normal business development, may require. Central Kentucky further states that it is not intended that the increased capacity will be used in the winter of 1952-53 to supply additional volumes, above those now contemplated, to its existing customers. Central Kentucky proposes to finance the costs of construction of said facilities with funds to be provided by its parent company, Columbia.

On March 6, 1952, Ohio Fuel Gas filed an application in Docket No. G-1911, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the con-

struction and operation of approximately 33 miles of 20-inch replacement natural-gas pipeline extending from its existing Line "D" to its Line "D–36", in order to provide capacity required for the winter of 1952–53 for improved service to existing markets in Ohio, including Bucyrus, Tiffin, Fostoria, Findlay, and other smaller communities. Said facilities, together with future extensions for which they form the foundation, are estimated to increase the volumes to be transported through the proposed facilities to 100,000 Mcf per day under peak load conditions. Ohio Fuel Gas proposes to finance the costs of construction of said facilities with funds to be provided by its parent company, Columbia.

On April 2, 1952, Ohio Fuel Gas filed an application in Docket No. G–1931 for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 4 miles of 8⅝-inch natural-gas transmission pipeline in Richland County, Ohio, between the junction of its existing lines "D–100" and "D–232" to the town border station serving Shelby, Ohio, and subsequent removal of approximately 4.7 miles of 6⅝-inch pipeline presently serving Shelby, Ohio, from its Line "D". Ohio Fuel Gas proposes by means of said facilities, to increase capacity for gas service to Shelby. Ohio Fuel Gas proposes to finance the costs of construction of said facilities with funds to be provided by its parent company, Columbia.

On April 11, 1952, Ohio Fuel Gas filed an application in Docket No. G–1936 for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 17 miles of 16-inch loop pipeline paralleling its existing Line "D–322" in order to increase the capacity of said Line "D–322" to a peak day capacity of 54,700 Mcf of natural gas to maintain adequate and continuous service to existing markets in the Lima and Kenton, Ohio, areas. Ohio Fuel Gas proposes to finance the costs of construction of said facilities with funds to be provided by its parent company, Columbia.

On April 21, 1952, Ohio Fuel Gas filed an application in Docket No. G–1943 for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 8.5 miles of 6⅝-inch natural-gas transmission pipeline extending from its Line "L–2121" to the New London, Ohio, town bordering and measuring station, in order to serve the town of New London from said Line "L–2121" rather than from its Lines "D–100" and "D–232", as it presently does. With pressures available on Line "L–2121" Ohio Fuel Gas estimates that the proposed facilities will be able to deliver up to 8,000 Mcf per day to New London in contrast with a delivery capacity below 2,000 Mcf per day through existing Lines "D–100" and "D–232." Ohio Fuel Gas proposes to finance the costs of construction of said facilities with funds to be provided by its parent company, Columbia.

On May 1, 1952, United Fuel Gas Company (United Fuel Gas), a subsidiary of Columbia, filed an application in Docket No. G–1952, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a 880-horsepower compressor station, together with dehydration plant, auxiliary units, and appurtenant equipment to be located at its Storage Pool X–41, two additional 1,100-horsepower compressor units in its Lanham Compressor Station, and approximately 21.5 miles of connecting 6⅝-inch, 10¾-inch, 14-inch, and 20-inch pipeline facilities to storage pools and other installations. Said facilities are proposed to insure adequacy and continuity of service to present markets. United Fuel Gas proposes to finance the costs of construction of its proposed facilities with funds to be provided by its parent company, Columbia.

It appears that each of the proceedings hereinbefore referred to involves proposals affecting one or more of the companies making up the Columbia Gas System and that the proposals of said subsidiary companies to increase the present capacities of their systems as well as the proposals for service to new communities through the establishment of physical connections and deliveries of natural gas by such subsidiary companies involve common questions of law and fact with respect to the pooled supply of natural gas of the Columbia Gas System available to the various companies in the System to meet their gas requirements. In addition, it appears that the proceedings hereinbefore referred to upon the applications filed by various subsidiary companies of The Columbia Gas System, Inc., for certificates of public convenience and necessity authorizing the construction and operation of natural-gas transmission facilities, involve common questions of law and fact with respect to the proposed plans for financing the costs of construction with funds to be provided by their parent company.

The Commission finds: It is appropriate for carrying out the provisions of the Natural Gas Act and good cause exists for consolidating the above proceedings for purpose of hearing.

The Commission orders:

(A) The aforesaid proceedings in Docket Nos. G–1175, G–1261, G–1448, G–1658, G–1787, G–1850, G–1893, G–1901, G–1905, G–1911, G–1931, G–1936, G–1943, and G–1952, be and the same hereby are consolidated for purpose of hearing.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a public hearing be held commencing on June 23, 1952, at 10:00 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters presented and the issues involved in the said applications.

(C) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: May 27, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-6007; Filed, June 2, 1952, 8:46 a. m.]

[Project No. 1971]

IDAHO POWER CO.

ORDER FIXING HEARING

MAY 13, 1952.

On December 15, 1950, Idaho Power Company (Applicant) of Boise, Idaho, filed an application for license under the Federal Power Act for a proposed hydroelectric development, known as the Oxbow development (Project No. 1971) located in and along the Snake River in Adams and Washington Counties, Idaho, and Baker County, Oregon. The Oxbow development is proposed in the application as the first in a series of five proposed hydroelectric projects for ultimate development of a stretch of the Snake River for a distance of approximately 100 miles downstream from Weiser, Idaho.

Responses to the notice of application indicate a widespread public interest in the proposed development of the Snake River.

The Commission finds: In order to carry out the provisions of the Federal Power Act, particularly section 4 (e) thereof, it is appropriate and in the public interest that a hearing be held on the aforesaid application.

The Commission orders:

(A) A public hearing be held commencing on July 14, 1952, at 10 a. m., P. s. t., in the Central School Auditorium at Baker, Oregon; said hearing to be recessed to reconvene on July 16, 1952, at 10 a. m., m. s. t. in the House Legislative Chambers, State Capitol Building at Boise, Idaho, and said hearing to be recessed to reconvene at the earliest practicable time and date to be fixed by the Presiding Examiner in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C., respecting the matters involved and issues presented in this proceeding on the aforesaid application for license for proposed Project No. 1971.

(B) The hearings to be held in Baker, Oregon, and Boise, Idaho, shall be for the purpose of permitting the introduction of views and evidence of a nontechnical nature and expert and technical evidence shall be presented only at the reconvened hearing to be held in Washington, D. C.

Date of issuance: May 27, 1952.

By the Commission.

FEDERAL TRADE COMMISSION

[File No. 173]

PROPER USE OF WORD MAHOGANY IN DESIGNATIONS OF WOOD AND WOOD PRODUCTS

NOTICE OF HEARING AND OF OPPORTUNITY FOR PRESENTATION OF ORAL AND WRITTEN VIEWS, DATA, AND SUGGESTIONS

Notice is hereby given and opportunity extended by the Federal Trade Commission to all persons, partnerships, corporations, associations, including consumers, manufacturers, distributors, importers, dealers, officials of State and Federal agencies, foresters, botanists, and all other persons and organizations in any way interested in the subject of the proper use of the word "mahogany," with or without qualifications, as descriptive of wood or wood products marketed in the United States, to appear and take part in public hearing on this subject and to present orally or in writing such pertinent views, data, information and suggestions as they may desire. Such hearings will be held on June 30, 1952, beginning at 10 a. m., d. s. t., in Room 332, Federal Trade Commission Building, Sixth and Pennsylvania Avenue NW., Washington, D. C.

The written presentation of views, data, information and suggestions may be made by letter, memorandum or other written communications addressed to and filed with the Federal Trade Commission, Washington 25, D. C., not later than June 30, 1952.

Issued: May 29, 1952.

By the Commission.

DELEGATION OF AUTHORITY WITH RESPECT TO NEGOTIATION OF CONTRACTS FOR GEOLOGICAL SURVEYS AND STUDIES BY COLLEGES, UNIVERSITIES AND OTHER EDUCATIONAL INSTITUTIONS

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, as amended, hereinafter called the act, authority is hereby delegated to the Secretary of the Interior to negotiate contracts, without advertising, with colleges, universities, and other educational institutions, in accord with section 302 (c) (5) of the act, for surveys and studies of mineral resources on lands under the jurisdiction of the Bureau of Indian Affairs.

2. The authority herein delegated may be redelegated to any officer or employee of the Department of the Interior.

3. This delegation shall be effective as of the date hereof.

JESS LARSON, *Administrator.*

OFFICE OF DEFENSE MOBILIZATION

[Defense Manpower Policy No. 4, Notification 38]

PLACEMENT OF PROCUREMENT WITH THE TEXTILE INDUSTRY

NOTIFICATION TO DEPARTMENT OF DEFENSE AND GENERAL SERVICES ADMINISTRATION

The Surplus Manpower Committee, appointed under Defense Manpower Policy No. 4, has reported to the Director of Defense Mobilization its recommendations in the matter of placement of procurement with the textile industry. These recommendations have been reviewed within the Office of Defense Mobilization to determine their relationship to other policies affecting procurement for which this Office has responsibility, and no conflicts exist.

The Department of Defense and the General Services Administration are hereby notified that upon full consideration, the Director of Defense Mobilization has concluded that it is in the public interest to give preference in the placement of Government contracts to the textile industry in accordance with the attached recommendations of the Committee and the provisions of Defense Manpower Policy No. 4.

The Department of Defense and the General Services Administration are requested to submit, within 30 days, copies of the instructions they have issued implementing this Notification. They are further requested to submit monthly reports of the actions taken under this Notification.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

RECOMMENDATIONS OF THE SURPLUS MANPOWER COMMITTEE CONCERNING THE TEXTILE INDUSTRY UNDER DEFENSE MANPOWER POLICY NO. 4

In accordance with Section III, Paragraph 8 of Defense Manpower Policy No. 4 a panel of the Surplus Manpower Committee held public hearings, beginning March 20, 1952, on the textile industry. After consideration of the report of that panel, the Committee makes the following recommendations in the interest of preserving the skills and maintaining the productive facilities of the textile industry. They are conceived in terms of the possibilities of the use of government procurement, to whatever extent practicable, for purposes of maintaining the effective functioning of the textile industry as a whole.

Accordingly, it is recommended:

1. That the Department of Defense accelerate procurement and delivery of the open-to-buy quantities under appropriations available for the remainder of the fiscal year 1952, and take similar action in the first half of fiscal year 1953 as soon as the fiscal year 1953 funds become available.

2. That contracts be placed by the Department of Defense and the General Services Administration, in accordance with such procedures as will give preference to those manufacturers whose weaving operations (in the case of weaving or integrated mills) or whose spinning operations (in the case of spinning mills) during the period of performance of such contracts will not

be in excess of 80 hours per week (not including other supporting activities).

3. That no preference be given in the placement of such contracts to any areas or particular cities within areas with respect to this industry.

4. That no provision be made for payment of any price differential.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
CHAIRMAN,
Surplus Manpower Committee.

Approved:

JOHN R. STEELMAN,
Acting Director,
Office of Defense Mobilization.

[F. R. Doc. 52-6152; Filed, June 2, 1952; 11:35 a. m.]

[Defense Manpower Policy No. 4, Notification 39]

PLACEMENT OF PROCUREMENT WITH THE SHOE INDUSTRY

NOTIFICATION TO DEPARTMENT OF DEFENSE AND THE GENERAL SERVICES ADMINISTRATION

The Surplus Manpower Committee, appointed under Defense Manpower Policy No. 4, has reported to the Director of Defense Mobilization that it has approved the attached findings and recommendations of its hearing panel in the matter of placement of procurement with the shoe industry. These recommendations have been reviewed within the Office of Defense Mobilization to determine their relationship to other policies affecting procurement for which this Office has responsibility, and no conflicts exist.

The Department of Defense and the General Services Administration are hereby notified that upon full consideration, the Director of Defense Mobilization has concluded that it is in the public interest to give preference in the placement of Government contracts to the shoe industry in accordance with the attached recommendations of the Committee and the provisions of Defense Manpower Policy No. 4. Accordingly, Notifications 2 through 13, 15, 16, and 18 through 37, are hereby amended to include the shoe industry in such areas under the provisions of such Notifications.

The Department of Defense and the General Services Administration are requested to submit the first written report of the actions taken under this notification on July 15, 1952, and thereafter each 30 days until further notice.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

FINDINGS OF PANEL ON SHOE AND FOOTWEAR INDUSTRY HEARINGS UNDER DEFENSE MANPOWER POLICY NO. 4

This report is based upon a hearing authorized by the Surplus Manpower Committee and conducted pursuant to Section 8 of Defense Manpower Policy No. 4.

The matters upon which the Committee requested the Panel to receive evidence were:

1. The nature and extent of the labor surplus in the shoe and footwear industry, including the availability of skills necessary to the fulfillment of Government contracts and purchases, and the need for preserving these skills in the public interest.

2. The nature and extent of the facilities in the shoe and footwear industry, including their suitability and availability for the fulfillment of Government contracts and purchases, and the need for maintaining these facilities in the public interest.

3. Whether it is in the public interest that insofar as it affects the shoe and footwear industry, Defense Manpower Policy No. 4 should be applied to the shoe and footwear industry as a whole in order to achieve a greater utilization of the manpower skills and facilities of the entire industry than is currently the case.

4. Appropriate methods of applying the policy to the shoe and footwear industry in the event an affirmative finding is made under paragraph three above.

In the course of the hearings (which were held April 17-22 and at which nine witnesses appeared), certain circumstances existing in the shoe industry and shoe procurement program became apparent and sharply delimited the area of the Panel's inquiry and recommendations:

1. Government procurement of women's shoes is too negligible to have any substantial effect upon the shoe industry, regardless of the procurement policies adopted. Consequently, the Panel concerned itself primarily with the men's shoe industry.

2. Government procurement of men's shoes, which reached a peak of approximately 55 million pairs of shoes annually during World War II and about 20 million pairs in fiscal year 1951, dropped off substantially in fiscal year 1952 and procurement in the near future may decline further.

3. Conversion of the men's shoe facilities to the production of rubber footwear or other military production is not feasible; neither is the conversion of other facilities to the production of men's shoes.

4. The shoe industry, including the men's shoe industry, traditionally operates at about 55 percent of capacity on an annual average. A striking example of its capacity for expanded production occurred during World War II when, during a short period, over half of the men's shoe productive capacity was devoted to Government orders and even so the industry was able, in large measure, to meet civilian needs.

With the foregoing considerations in mind, the Panel has reached the following Findings, Conclusions and Recommendations.

FINDINGS, CONCLUSIONS AND RECOMMENDATIONS

A. *Findings.* 1. Under normal circumstances, the shoe industry, including the men's shoe industry, taken as a whole, does not constitute a chronically depressed or "sick" industry, although its normal annual production and sales fall substantially short of its capacity to produce.

2. The shoe industry, including the men's shoe industry, normally produces at an annual rate about 55 percent of its actual productive capacity. Thus, the entire shoe industry, with an annual capacity of almost one billion pairs of shoes, produced 512.4 million pairs in 1950 and 469.6 million in 1951. The men's shoe industry, with a capacity of approximately 200 million pairs, produced about 103 million pairs in 1950 and 106 million in 1951.

3. The shoe industry, in general, showed a sharp increase in production during the year following the outbreak of the Korean war, which in turn was followed by an even sharper decrease in production beginning about the middle of 1951. Thus, the total production in 1951 of 469.6 million pairs was substantially below the 1950 production of 512.4 million pairs and slightly below the 1949 production of 475.6 million pairs. At present, production appears to be approaching 1949 levels.

4. In contrast to the shoe industry in general, the men's shoe industry has shown a moderate, but continued, increase in production since 1949. Thus, total production in 1949, amounting to about 98 million pairs, increased to about 103 million in 1950 and to about 106 million in 1951.

5. Employment levels in the industry have varied less than production levels, but tend to follow the same pattern. Employment increased by only 0.5% in 1950 and declined 4.6% in 1951. Since then there has been some recovery.

6. Government procurement of shoes (which except for negligible amounts of women's shoes, is confined to men's shoes) amounted in fiscal year 1951 to approximately $122,000,000 covering approximately 20 million pairs of shoes (a substantial increase over preceding years), but decreased in fiscal year 1952 to less than $80,000,000 covering approximately 13 million pairs. In view of the increasing use of rubber footwear (insulated boots) it would appear that fiscal year 1953 procurement of leather footwear is more likely to decrease than to increase.

7. Since World War II, Government shoe procurement has, in general, followed advertised bid procedures, except for a period from approximately December 1950 to July 1951, during which negotiated contracts were largely used. Since the resumption of advertised bid procedures about July, 1951, the smaller firms engaged in shoe manufacture have received a smaller proportion (both in numbers and in volume) of the contracts than they received during the period in which negotiated contract procedures were mainly relied upon.

8. The men's shoe industry possesses the following characteristics of especial significance in relationship to the application of Defense Manpower Policy No. 4:

a. Productive facilities are fairly widely distributed, a substantial amount of shoe manufacture (and resultant employment) being found in 10 states.

b. Aside from occasional "one-industry" cities, the only relatively large area in which the men's shoe industry appears to be dominant is the Brockton, Massachusetts, area.

c. In a few areas, the men's shoe industry is of considerable importance, both in relation to other industries and in terms of volume of employment.

d. There appears to be little correlation between the pattern of distribution of the men's shoe industry and the pattern of current manpower surplus. Facilities for the production of men's shoes are not concentrated in any one of the four employment groups, as classified by the Department of Labor, but appear at random in areas of balanced labor supply (Group II), areas of moderate labor surplus (Group III) and areas of substantial labor surplus (Group IV).

e. There appears to be little correlation between the relative sizes of the various firms in the men's shoe industry and the pattern of current manpower surplus. Thus, some Group IV areas, contain mainly smaller firms, while others contain larger firms.

B. *Conclusions.* 1. In view of present and prospective conditions in the shoe and footwear industry and present and prospective levels of Government procurement, application of Defense Manpower Policy No. 4 to that industry would not have a major effect on the operation of the entire industry.

2. Current procurement policies, which rely mainly upon advertised bid procedures, have resulted in considerable concentration of Government contracts for shoes in the hands of a relatively small number of comparatively large concerns.

3. Adoption of certain procurement procedures, hereinafter enumerated in the Recommendations, would improve the spread, distribution and timing of Government shoe contracts and thereby contribute to the well-being of the men's shoe industry.

C. *Recommendations.* 1. The shoe and footwear industry should be subject to the general application of Defense Manpower Policy No. 4, and not be dealt with under Section 8 thereof.

2. There should be more vigorous application of those procurement procedures which contemplate and permit negotiated contracts with firms located in surplus labor areas.

3. Insofar as practicable and consistent with procurement and defense objectives, phasing of requirements should be adopted that will provide maximum opportunity to shoe producers to engage in Government production during periods of normal seasonal lulls.

4. In order to achieve more equitable distribution of Government shoe procurement, and thereby relieve unemployment and assist small business concerns, contracts should be spread as widely as possible, within the limits of procurement practicability, among the firms within the men's shoe industry.

JOHN C. STEDMAN,
Chairman.
Commander A. T. L. FOX.
H. DANIEL DARLING.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2827]

CONSOLIDATED NATURAL GAS CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE WITH RESPECT TO ISSUANCE AND SALE OF ADDITIONAL CAPITAL STOCK

MAY 27, 1952.

Consolidated Natural Gas Company ("Consolidated"), a registered holding company, having filed a declaration and amendments thereto pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act") with respect to, among other things, the following proposed transaction:

At the annual meeting of stockholders of Consolidated held on May 20, 1952, the stockholders approved an amendment to the charter of Consolidated increasing the number of authorized shares of capital stock from 3,274,031 shares to 3,683,285 shares, an increase of 409,254 shares. Consolidated now proposes that the 409,254 additional shares be offered pro rata to holders of its outstanding capital stock on the basis of one additional share for each eight shares held. Such stock will be offered for subscription at the price of $52.00 per share, by warrants being issued to the holders of its outstanding capital stock of record at the close of business on June 3, 1952. Stockholders who subscribe for their pro rata part will also have the privilege to subscribe for additional shares, subject to allotment, out of the shares of capital stock, if any, not taken by primary subscription. No fractional shares of capital stock will be issued. Primary rights may be purchased to entitle the holder of a warrant to subscribe to one or more full shares of capital stock or primary rights may be sold. The subscription offer will expire at 3:00 p. m., New York time, June 20, 1952. Warrants not exercised on or prior to such date become void. The Hanover Bank, 70 Broadway, New York, New York, will act as Subscription Agent in connection with the subscription offer.

Fees and expenses in connection with the issuance of the additional capital stock are estimated in the aggregate amount of $238,025, including Subscription Agent's fee of $75,000, Transfer Agent's fee of $20,000, and counsel fees of $5,000.

Due notice having been given of the filing of the declaration with respect to the proposed issuance and sale of additional capital stock, and a hearing not having been requested of or ordered by the Commission, and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said declaration with respect to the proposed issuance and sale of additional capital stock be permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said declaration with respect to the proposed issuance and sale of additional capital stock be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 of the general rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 52-6009; Filed, June 2, 1952; 8:47 a. m.]

[File No. 70-2842]

CAMBRIDGE ELECTRIC LIGHT CO. ET AL.

NOTICE OF PROPOSED SALE TO BANK OF UNSECURED PROMISSORY NOTES BY SUBSIDIARIES OF REGISTERED HOLDING COMPANY

MAY 27, 1952.

In the matter of Cambridge Electric Light Company, Cambridge Gas Light Company, Cape & Vineyard Electric Company, New Bedford Gas and Edison Light Company, Plymouth County Electric Company, Plymouth Gas Light Company, Worcester Gas Light Company; File No. 70-2842.

Notice is hereby given that the above named companies (hereinafter individually referred to as "Cambridge Electric," "Cambridge Gas," "Cape Electric," "New Bedford," "Plymouth Electric," "Plymouth Gas" and "Worcester Gas," each a subsidiary company of New England Gas and Electric Association, a registered holding company, have filed an application and amendments thereto pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 and the rules thereunder proposing the issuance and sale to The First National Bank of Boston, from time to time during 1952, of unsecured promissory notes in an aggregate principal amount of $3,550,000, bearing interest at a rate not to exceed 3½ percent per annum, and maturing December 31, 1954.

The aggregate principal amount of notes proposed to be issued by each of the applicant companies is as follows:

Company:	*Aggregate amount of company's notes to be issued*
Cambridge Electric	$500,000
Cambridge Gas	700,000
Cape Electric	750,000
New Bedford	750,000
Plymouth Electric	250,000
Plymouth Gas	100,000
Worcester Gas	500,000

The application states that the proceeds to be derived from the proposed note issues will be applied by each applicant to reimburse its plant replacement fund, except in the case of Cambridge Gas which will use a portion of the proceeds to finance directly net property additions.

The application also states that no Federal commission other than this Commission, and no State commission, other than the Department of Public Utilities of Massachusetts, which has issued orders approving the proposed issuance and sale of the notes, has jurisdiction over the proposed transaction; and that total expenses in connection with the proposed transactions are estimated at $900, including legal fees of $500. The filing requests that the Commission's order become effective upon issuance.

Notice is further given that any interested person may, not later than June 9, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after June 9, 1952, at 5:30 p. m., e. d. s. t., said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[Ceiling Price Regulation 83, Section 2, Special Order 16, Amdt. 2]

KAISER-FRAZER CORP.

BASIC PRICE AND CHARGES FOR NEW PASSENGER AUTOMOBILES

Statement of considerations. Special Order 16 established a schedule of prices and charges pursuant to section 2 of Ceiling Price Regulation 83 for sellers of new passenger automobiles and factory installed extra equipment manufactured by the Kaiser-Frazer Corporation. Subsequent to the issuance of Special Order 16 the Kaiser-Frazer Corporation has introduced new items of factory installed extra, special or optional equipment on its Kaiser and Henry J new passenger automobiles and wholesale ceiling prices have been approved for these new items. Special Order 16 is, therefore, amended to include charges for the new items of factory installed extra, special or optional equipment.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 2 of Ceiling Price Regulation 83, this amendment to Special Order 16 is hereby issued.

1. The following charges for factory installed extra, special or optional equipment are added to the list of extra, special or optional equipment contained in paragraph 2 of Special Order 16:

KAISER AUTOMOBILES

Accessory Group No. 31 (Kaiser "De-Luxe") (includes oil bath air cleaner, directional signals, chrome horn ring, and rub rail mouldings)	$38.09
Special trim number 1305 consisting of Champagne White Body Color with Indian Ceramic, Pleated Vinyl Interior Trim and Calpoint Carpeting (all Kaisers)	100.00
Special trim number 1306 consisting of Champagne White Body Color with Indian Ceramic, Pleated Leather Interior Trim and Calpoint Carpeting (all Kaisers)	200.00

HENRY J AUTOMOBILES

Accessory Group No. 35 (Henry J "Corsair") (includes front vent windows, rear deck lid and folding rear seat, vacuum booster fuel pump, front compartment cigarette lighter, and front compartment ash receiver)	69.77
Accessory Group No. 36 (Henry J "Corsair") (same as Accessory Group No. 35 above, except equipped with stationary rear seat)	69.77
Accessory Group No. 37 (Henry J "Corsair DeLuxe") (includes front vent widows, vacuum booster fuel pump, two front and rear bumper guards, cigarette lighter, stainless steel hub cap discs, chrome horn ring, second horn, and two ash receivers in rear compartment	70.12
Henry J Automobiles—Continued	
Accessory Group No. 38 (Henry J "Corsair DeLuxe") (includes front vent windows, vacuum booster fuel pump, two front and rear bumper guards, cigarette lighter, stainless steel hub cap discs, chrome horn ring, second horn, two ash receivers in rear compartment, a rear deck lid and folding seat and a right hand sun visor)	$109.73
Accessory Group No. 39 (Henry J "Corsair DeLuxe") (same as Accessory Group No. 38 above, except equipped with stationary rear seat)	109.73
Window vents, rear (all Henry J)	21.27
Special trim numbers 106 and 107 consisting of Cerulean Blue Body Color with White Bamboo Plain Vinyl Interior Trim and Black Rubber Mats (all Henry J)	50.00

Effective date. This Amendment 2 to Special Order 16 shall become effective June 2, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27085]

ACETALDEHYDE FROM TALLANT, OKLA., TO NEW ORLEANS, LA.

APPLICATION FOR RELIEF

MAY 27, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for The Atchison, Topeka and Santa Fe Railway Company and other carriers.

Commodities involved: Acetaldehyde, in tank-car loads.

From: Tallant, Okla.

To: New Orleans, La.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3880, Supp. 25.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,

ETHYLENE AND POLYETHYLENE GLYCOL FROM PORT NECHES, TEX., TO DETROIT, MICH.

APPLICATION FOR RELIEF

MAY 27, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3721.

Commodities involved: Ethylene glycol or polyethylene glycol, in tank-car loads.

From: Port Neches, Tex.

To: Detroit, Mich.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3721, Supp. 218.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

FERTILIZING COMPOUNDS AND SUPERPHOSPHATE FROM SOUTHERN TERRITORY TO SOUTHWESTERN AND WESTERN TRUNK-LINE TERRITORIES

APPLICATION FOR RELIEF

MAY 28, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent L. E. Kipp's tariff I. C. C. No. A-3817 and Agent F. C. Kratzmeir's tariffs I. C. C. Nos. 3987 and 3988.

Commodities involved: Fertilizing compounds (manufactured fertilizer), superphosphate, and kindred articles, carloads.

From: Points in southern territory and adjacent points.

To: Points in southwestern and western trunk-line territories.

Grounds for relief: Competition with rail carriers, circuitous routes, and market competition.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine, Department of Agriculture

PART 301—DOMESTIC QUARANTINE NOTICES

JAPANESE BEETLE QUARANTINE

On April 24, 1952, there was published in the FEDERAL REGISTER (17 F. R. 3657), a notice of proposed rule making concerning amendments of §§ 301.48–2 and 301.48–4 (a) (1) of the regulations supplemental to the Japanese Beetle Quarantine (7 CFR 301.48–2 and 301.48–4 (a) (1), as amended). After due consideration of relevant matters presented, and pursuant to section 8 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161), the Secretary of Agriculture hereby amends §§ 301.48–2 and 301.48–4 (a) (1), to read, respectively, as follows:

§ 301.48–2 *Regulated areas.* The following States, District, counties, townships, cities, towns, villages, boroughs, and magisterial districts or parts thereof, are hereby designated as regulated areas:

Connecticut. The entire State.
Delaware. The entire State.
District of Columbia. The entire District.
Maine. County of York; towns of Auburn and Lewiston, in Androscoggin County; towns of Cape Elizabeth, Gorham, Gray, New Gloucester, Raymond, Scarboro, Standish, and cities of Portland, South Portland, Westbrook, and Windham, in Cumberland County; city of Waterville, in Kennebec County; and city of Brewer, in Penobscot County.
Maryland. The entire State.
Massachusetts. The entire State.
New Hampshire. Counties of Belknap, Cheshire, Hillsboro, Merrimack, Rockingham, Strafford, and Sullivan; towns of Brookfield, Eaton, Effingham, Freedom, Madison, Moultonboro, Ossipee, Sandwich, Tamworth, Tuftonboro, Wakefield, and Wolfeboro, in Carroll County; towns of Alexandria, Ashland, Bridgewater, Bristol, Canaan, Dorchester, Enfield, Grafton, Groton, Hanover, Hebron, Holderness, Lebanon, Lyme, Orange, and Plymouth, in Grafton County.
New Jersey. The entire State.
New York. Counties of Albany, Bronx, Broome, Cayuga, Chemung, Chenango, Columbia, Cortland, Delaware, Dutchess, Fulton, Greene, Kings, Madison, Monroe, Montgomery, Nassau, New York, Oneida, Onondaga, Orange, Otsego, Putnam, Queens, Rensselaer, Richmond, Rockland, Saratoga, Schenectady, Schoharie, Schuyler, Seneca, Suffolk, Sullivan, Tioga, Tompkins, Ulster, Warren, Washington, and Westchester; towns of Red House and Salamanca, and cities of Olean and Salamanca, in Cattaraugus County; towns of Amherst, Cheektowaga, and Tonawanda, and cities of Buffalo and Lackawanna, in Erie County; towns of Columbia, Danube, Fairfield, Frankfort, German Flats, Herkimer, Litchfield, Little Falls, Manheim, Newport, Salisbury, Schuyler, Stark, Warren, and Winfield, and city of Little Falls, in Herkimer County; town of Watertown and city of Watertown, in Jefferson County; town of Mount Morris and village of Mount Morris in Livingston County; town of Manchester, in Ontario County; towns of Granby, Hannibal, Mexico, Minetto, New Haven, Oswego, Palermo, Schroeppel, Scriba, and Volney, and cities of Fulton and Oswego, in Oswego County; towns of Caton, Corning, Erwin, Hornby, and Hornellsville, and cities of Corning and Hornell, in Steuben County.
North Carolina. Counties of Beaufort, Bertie, Buncombe, Cabarrus, Camden, Carteret, Chowan, Craven, Cumberland, Currituck, Dare, Davidson, Duplin, Edgecombe, Forsyth, Gates, Greene, Guilford, Halifax, Harnett, Henderson, Hertford, Hyde, Johnston, Jones, Lenoir, Martin, Mecklenburg, Nash, New Hanover, Northampton, Onslow, Pamlico, Pasquotank, Pender, Perquimans, Pitt, Randolph, Rowan, Sampson, Tyrrell, Washington, Wayne, and Wilson; township of Beaver Dam and city of Canton in Haywood County.
Ohio. Counties of Belmont, Carroll, Columbiana, Cuyahoga, Guernsey, Harrison, Jefferson, Mahoning, Medina, Portage, Stark, Summit, Tuscarawas, and Wayne; cities of Ashtabula and Conneaut, and village of Lakeville, in Ashtabula County; townships of Lafayette, Linton, Oxford, and Tuscarawas, and city of Coshocton, in Coshocton County; township of Marion, city of Columbus and villages of Bexley, Grandview, Grandview Heights, Hanford, Marble Cliff, and Upper Arlington, in Franklin County; township of Chester, in Geauga County; township of Prairie, in Holmes County; townships of Kirtland, Mentor, Painesville, Perry, and Willoughby, and villages of Kirtland Hills, Lakeline, Mentor, Mentor-on-the-Lake, Waite Hill, Wickliffe, Willoughby, Willowick, and city of Painesville in Lake County; townships of Hanover, Madison, and Newark and city of Newark, in Licking County; city of Toledo and township of Washington, in Lucas

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directed to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

CFR SUPPLEMENTS
(For use during 1952)

The following Supplements are now available:

Title 14: Parts 1–399 ($2.25)
Titles 35–37 ($0.35)
Title 39 ($0.65)
Titles 40–42 ($0.35)

Previously announced: Title 3 (full text) ($3.50); Titles 4–5 ($0.45); Title 6 ($1.50); Title 7: Parts 1–209 ($1.75); Parts 210–899 ($2.25); Part 900 to end ($2.75); Title 8 ($0.50); Title 9 ($0.35); Titles 10–13 ($0.35); Title 14: Part 400 to end ($1.00); Title 15 ($0.60); Title 16 ($0.55); Title 17 ($0.30); Title 18 ($0.35); Title 19 ($0.35); Title 20 ($0.45); Title 21 ($0.70); Titles 22–23 ($0.40); Title 24 ($0.60); Title 25 ($0.30); Title 26: Parts 1–79 ($1.00); Parts 80–169 ($0.30); Parts 170–182 ($0.55); Parts 183–299 ($1.75); Part 300 to end, Title 27 ($0.45); Titles 28–29 ($0.75); Titles 30–31 ($0.45); Title 33 ($0.60); Title 38 ($1.50); Title 46: Parts 1–145 ($0.60); Part 146 to end ($0.85)

Order from
Superintendent of Documents, Government Printing Office, Washington 25, D. C.

County; townships of Benton, Jackson, Lee, Ohio, Salem, and Switzerland, in Monroe County; townships of Adams, Cass, Falls, Hopewell, Highland, Jackson, Jefferson, Licking, Madison, Monroe, Muskingum, Perry, Salem, Union, and Washington, in Muskingum County; township of Madison and city of Mansfield, in Richland County; townships of Bazetta, Braceville, Brookfield, Champion, Fowler, Hartford, Howland, Hubbard, Liberty, Lordstown, Newton, Southington, Warren, Weathersfield, and Vienna, cities of Niles and Warren, and villages of Cortland, Girard, Hubbard, McDonald, Newton Falls, and Orangeville, in Trumbull County; townships of Adams, Barlow, Belpre, Dunham, Fearing, Grandview, Independence, Lawrence, Liberty, Ludlow, Muskingum, Newport, Salem, Warren, Watertown, and city and town of Marietta, in Washington County.

Pennsylvania. The entire State except the townships of Athens, Beaver, Bloomfield, Cambridge, Conneaut, Cussewago, East Fairfield, East Fallowfield, East Mead, Fairfield, Greenwood, Mayfield, North Shenango, Pine, Randolph, Richmond, Rockdale, Sadsbury, South Shenango, Spring, Steuben, Summerhill, Summit, Troy, Union, Venango, Vernon, Wayne, West Fallowfield, West Mead, West Shenango, and Woodcock, and the boroughs of Blooming Valley, Cambridge Springs, Cochranton, Conneaut Lake, Conneautville, Linesville, Saegerstown, Springboro, Townville, Venango, and Woodcock, in Crawford County; the townships of Amity, Conneaut, Elk Creek, Fairview, Franklin, Girard, Greene, Greenfield, Harborcreek, Lawrence Park, LeBoeuf, McKean, North East, Springfield, Summit, Union, Venango, Washington, and Waterford, and the boroughs of Albion, Cranesville, East Springfield, Edinboro, Fairview, Girard, Middleboro, Mill Village, North East, North Girard, Platea, Union City, Waterford, and Wattsburg, in Erie County.

Rhode Island. The entire State.

Vermont. Counties of Bennington, Rutland, Windham, and Windsor; and town of Burlington, in Chittenden County.

Virginia. Counties of Accomac, Alleghany, Amelia, Amherst, Arlington, Bedford, Brunswick, Caroline, Charles City, Chesterfield, Clarke, Culpeper, Cumberland, Dinwiddie, Elizabeth City, Essex, Fairfax, Fauquier, Fluvanna, Frederick, Gloucester, Goochland, Greene, Greensville, Hanover, Henrico, Henry, Isle of Wight, James City, King and Queen, King George, King William, Lancaster, Loudoun, Louisa, Lunenburg, Madison, Mathews, Middlesex, Nansemond, Nelson, New Kent, Norfolk, Northampton, Northumberland, Nottoway, Orange, Page, Powhatan, Prince George, Prince William, Princess Anne, Pulaski, Rappahannock, Richmond, Roanoke, Shenandoah, Southampton, Spotsylvania, Stafford, Surry, Sussex, Warren, Warwick, Westmoreland, Wythe, and York; magisterial districts of Charlottesville, Ivy, Rivanna, and Scottsville, in Albermarle County; magisterial district of Amsterdam, in Botetourt County; magisterial districts of Brookville and Otter River, in Campbell County; village of Schoolfield, in Pittsylvania County; magisterial districts of Glade Spring and Holston, in Washington County; and cities of Alexandria, Charlottesville, Clifton Forge, Danville, Fredericksburg, Hampton, Hopewell, Lynchburg, Martinsville, Newport News, Norfolk, Petersburg, Portsmouth, Radford, Richmond, Roanoke, South Norfolk, Suffolk, Williamsburg, and Winchester.

West Virginia. Counties of Barbour, Berkeley, Braxton, Brooke, Doddridge, Hampshire, Hancock, Harrison, Jefferson, Lewis, Marion, Marshall, Mineral, Monongalia, Morgan, Ohio, Pleasants, Preston, Ritchie, Taylor, Tucker, Tyler, Upshur, Wetzel, and Wirt; magisterial districts of Blue Sulphur and Fort Spring, in Greenbrier County; magisterial districts of Charleston, Elk, Loudon, and Malden, city of Charleston, and town of South Charleston, in Kanawha County; city of Princeton, in Mercer County; magisterial district of Wolf Creek, in Monroe County; magisterial districts of Leadsville and New Interest, in Randolph County; magisterial district of Reedy in Roane County; city of Hinton and magisterial districts of Greenbrier and Talcott, in Summers County; magisterial district of Fort Lick in Webster County; cities of Parkersburg and Williamstown and magisterial districts of Clay, Lubeck, Parkersburg, Slate, Tyrard, Union, Walker, and Williams, in Wood County.

§ 301.48–4 *Conditions governing movement of regulated articles*—(a) *Certification.* • • •

(1) A certificate or limited permit will not be required for the movement of regulated articles when transported via mail or by a common carrier on a through bill of lading from a regulated area through a nonregulated area to another regulated area: *Provided, however,* That this exception will not apply to the movement of regulated articles to such isolated regulated areas as may be designated in administrative instructions of the Chief of the Bureau of Entomology and Plant Quarantine when he has determined that such movement presents a hazard of spread of infestation.

These amendments shall be effective June 4, 1952.

These amendments add additional territory to the regulated areas in New York, Ohio, Virginia, and West Virginia and establish a procedure for restricting the movement of regulated articles to an isolated regulated area when it has been determined that such movement presents a hazard of spreading Japanese beetle infestation.

Prompt action is necessary with respect to the newly regulated areas in order to control the movement therefrom of articles that might spread the Japanese beetle. Authorization for restricting movement of regulated articles to isolated areas when such movement may result in further spread of infestation should also be made effective at once so that it may be immediately utilized, if found necessary, when Japanese beetle adult emergence starts within a few weeks. Therefore, good

cause is found, in accordance with section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)) for making the foregoing amendments effective less than 30 days after their publication in the FEDERAL REGISTER.

(Sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 28th day of May, 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

[F. R. Doc. 52-6077; Filed, June 3, 1952; 8:45 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 983—TYPE 62 SHADE-GROWN CIGAR-LEAF TOBACCO GROWN IN DESIGNATED PRODUCTION AREA OF FLORIDA AND GEORGIA

Correction

In F. R. Doc. 52-6092, appearing at page 4971 of the issue for Tuesday, June 3, 1952, the title of Claude R. Wickard should read: "Acting Secretary of Agriculture."

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 1]

PART 52—REPAIR STATION CERTIFICATES

The rules, policies, and interpretations of the Administrator contained in this supplement implement the provisions of Part 52, Repair Station Certificates, which was adopted by the Board and published April 5, 1952, in 17 F. R. 2981, to become effective June 15, 1952. They have been coordinated with interested members of the aircraft industry insofar as practicable. Inasmuch as they are an integral part of revised Part 52, they must be made effective simultaneously with that part in the interest of safety in air commerce. Therefore, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable. However, interested persons desiring to present written data, views, and/or arguments pertaining to this supplement are requested to send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., before July 1, 1952. All communications so received will be considered by the Administrator, and the rules, policies, and interpretations adopted herein will be reconsidered fully in the light of the comments submitted. Sections of Part 52 which are implemented by these rules, policies, and interpretations are repeated in this supplement for the guidance of the public. The following rules, policies, and interpretations, which supersede all those previously promulgated by the Administrator under Part 52, are hereby adopted to become effective June 15, 1952:

APPLICABILITY AND DEFINITIONS

Sec.
52.0 Applicability of this part.
52.1 Definitions.

GENERAL CERTIFICATION RULES

52.5 Application for certificate.
52.5–1 Procedure for applying for a repair station certificate (CAA rules which apply to § 52.5).
52.6 Issuance.
52.6–1 Issuance (CAA interpretations which apply to § 52.6).
52.7 Duration.
52.7–1 Duration (CAA Interpretations which apply to § 52.7).
52.8 Exchange of certificates.
52.8–1 Exchange of certificates (CAA Policies which apply to § 52.8).
52.9 Display.
52.9–1 Display (CAA interpretations which apply to § 52.9).
52.10 Change of facilities.
52.10–1 Procedure for changing the location of a certificated repair station (CAA policies which apply to § 52.10).
52.11 Advertising.
52.11–1 Scope of advertising (CAA policies which apply to § 52.11).
52.11–2 Advertising media (CAA interpretations which apply to § 52.11).
52.11–3 Advertisement of ratings (CAA interpretations which apply to § 52.11).
52.12 Inspection.
52.12–1 Formal inspections (CAA policies which apply to § 52.12).
52.12–2 Informal inspection (CAA policies which apply to § 52.12).
52.13 Nontransferability of certificate.
52.13–1 Nontransferability of certificate (CAA interpretations which apply to § 52.13).

DOMESTIC CERTIFICATE REQUIREMENTS

52.20 Requirements for issuance of certificate.
52.20–1 General (CAA policies which apply to § 52.20).
52.21 Housing and facilities.
52.21–1 Housing and facilities (CAA interpretations which apply to § 52.21).
52.21–2 Working space, storage facilities, and parts protection (CAA interpretations which apply to § 52.21).
52.21–3 Special housing and facility requirements (CAA interpretations which apply to § 52.21).
52.22 Personnel.
52.22–1 Personnel (CAA interpretations which apply to § 52.22).
52.23 Recommendation of certificated repairmen.
52.23–1 Recommendation of certificated repairmen (CAA interpretations which apply to § 52.23).
52.24 Records of supervisory and inspection personnel.
52.24–1 Records of supervisory and inspection personnel (CAA rules which apply to §§ 52.5 and 52.24).
52.25 Inspection system.
52.25–1 Inspection system (CAA interpretations which apply to § 52.25).
52.26 Ratings.
52.26–1 Ratings (CAA interpretations which apply to 52.26 (c) through (f)).
52.27 Limited ratings.
52.27–1 Limited ratings (CAA policies which apply to § 52.27).
52.30 Equipment and materials; general.
52.30–1 Equipment and materials (CAA interpretations which apply to § 52.30).
52.30–2 Equipment list (CAA policies which apply to § 52.30).
52.31 Equipment and materials; airframe rating.
52.31–1 Equipment and materials; airframe rating (CAA interpretations which apply to § 52.31).
52.32 Equipment and materials; powerplant rating.
52.32–1 Equipment and materials; powerplant rating (CAA interpretations which apply to § 52.32).
52.33 Equipment and materials; propeller rating.
52.33–1 Equipment and materials; propeller rating (CAA interpretations which apply to § 52.33).
52.34 Equipment and materials; radio rating.
52.34–1 Equipment and materials; radio rating (CAA interpretations which apply to § 52.34).
52.35 Equipment and materials; instrument rating.
52.35–1 Equipment and materials; instrument rating (CAA interpretations which apply to § 52.35).
52.36 Equipment and materials; accessory rating.
52.36–1 Equipment and materials; accessory rating (CAA interpretations which apply to § 52.36).
52.37 Equipment and materials; limited ratings.
52.37–1 Equipment and materials; limited ratings (CAA interpretations which apply to § 52.37).

DOMESTIC REPAIR STATION OPERATING RULES

52.40 Domestic repair station operating rules; general.
52.41 Privileges of certificate.
52.41–1 Scope of authorized major repairs and major alterations (CAA interpretations which apply to § 52.41 (c)).
52.41–2 Annual inspections and other flight authorizations (CAA policies which apply to § 52.41).
52.42 Limitations of certificates.
52.43 Maintenance of facilities, equipment, and material.
52.44 Standard of performance.
52.44–1 Standard of performance (CAA interpretations which apply to § 52.44).
52.45 Inspection of work performed.
52.45–1 Inspection of work performed (CAA interpretations which apply to § 52.45).
52.46 Performance records and reports.
52.47 Report of defects or unairworthy conditions.
52.47–1 Report of defects or unairworthy conditions (CAA rules which apply to § 52.47).

FOREIGN REPAIR STATION CERTIFICATE REQUIREMENTS

52.50 Requirements for issuance of foreign repair station certificate.
52.50–1 Necessity for certification (CAA interpretations which apply to § 52.50).
52.51 Scope of work authorized.
52.51–1 Scope of work authorized. (CAA policies which apply to § 52.51).
52.52 Personnel.
52.52–1 Personnel (CAA policies which apply to § 52.52).

FOREIGN REPAIR STATION OPERATING RULES

52.60 General.
52.61 Required records and reports.
52.61–1 Required records and reports (CAA rules which apply to § 52.61).

AUTHORITY: §§ 52.0 to 52.61–1 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 1, 52 Stat. 977, sec. 601, 52 Stat. 1007, is amended, secs. 602, 605, 607, 610, 52 Stat. 1008, 1010, 1011, 1012; 49 U. S. C. 401, 551, 552, 555, 557, 560.

APPLICABILITY AND DEFINITIONS

§ 52.0 *Applicability of this part.* This part establishes requirements for the issuance of repair station certificates and ratings and operating rules for the holders thereof.

§ 52.1 *Definitions.* (a) As used in this part terms are defined as follows:

(1) *Accessory.* An accessory shall mean an appliance other than an instrument, electronic communication or navigational equipment, or device for the automatic control of aircraft in flight.

(2) *Aircraft.* An aircraft shall mean any contrivance now known or hereafter invented, used, or designed for navigation of or flight in the air, including airframe, powerplant, propeller, and appliances.

(3) *Aircraft engine.* An aircraft engine shall mean an engine used, or intended to be used, for propulsion of aircraft, and includes all parts, appurtenances, and accessories thereof other than propellers.

(4) *Airframe.* Airframe shall mean any and all kinds of fuselages, booms, nacelles, cowlings, fairings, empennages, airfoil surfaces, and landing gear, and all parts, accessories, or controls, of whatever description, appertaining thereto, but not including powerplants and propellers.

(5) *All-metal construction.* All-metal construction, when that phrase is used to describe the composition of an airframe, shall mean that the structure of the airframe is made of metal only, irrespective of the kind of covering utilized.

(6) *Alteration.* An alteration shall mean any appreciable change in the design of an airframe, powerplant, propeller, or appliance.

(7) *Appliances.* Appliances shall mean instruments, equipment, apparatus, parts, appurtenances, or accessories, of whatever description, which are used, or are capable of being or intended to be used, in the navigation, operation, or control of aircraft in flight (including communication equipment, electronic devices, and any other mechanism or mechanisms installed in or attached to aircraft during flight, but excluding parachutes), and which are not a part or parts of airframes, powerplants, or propellers.

(8) *Authorized representative of the Administrator.* An authorized representative of the Administrator shall mean any employee of the Civil Aeronautics Administration or any private person, authorized by the Administrator to perform particular duties of the Administrator under the provisions of this part.

(9) *Certificated mechanic.* A certificated mechanic shall mean an individual holding a valid mechanic certificate with appropriate ratings issued by the Administrator.

(10) *Certificated repair station.* A certificated repair station shall mean a facility for the maintenance, repair, and alteration of airframes, powerplants, propellers, or appliances, holding a valid repair station certificate with appropriate ratings issued by the Administrator.

(11) *Certificated repairman.* A certificated repairman shall mean an individual holding a valid repairman certificate issued in accordance with Subpart B of Part 24 of this subchapter.

(12) *Component.* A component shall mean a constituent part of an aircraft.

(13) *Composite construction.* Composite construction, when that term is used to describe the composition of an airframe, shall mean that the structure of the airframe is made of at least two types of substances, such as metal and wood.

(14) *Electrical.* The term electrical, as applied to appliances, instruments, and accessories, shall mean an appliance, instrument, or accessory whose operation depends upon the flow of an electric current, other than one whose operation depends upon the use of an electron tube or similar device.

(15) *Electronic.* The term electronic, as applied to appliances, instruments, and accessories, shall mean an appliance, instrument, or accessory whose operation depends upon the use of an electron tube or similar device.

(16) *Instrument.* An instrument shall mean a device utilizing internal mechanism to indicate visually or aurally the attitude, altitude, performance, or operation of an aircraft or any component thereof, and shall include electronic instrumentation and devices for the automatic control of navigation of the aircraft in flight.

(17) *Maintenance.* Maintenance, which includes preventive maintenance, shall mean the inspection, overhaul, repair, upkeep, and preservation of airframes, powerplants, propellers, and appliances, including the replacement of parts.

(18) *Major alteration.* A major alteration of an aircraft or any component thereof shall mean:

(i) An alteration which might cause an appreciable change in its weight, balance, structural strength, performance, powerplant operation, flight characteristics, or other qualities affecting airworthiness, or

(ii) An alteration which is not accomplished in accordance with accepted practices or cannot be performed by means of elementary operations.

(19) *Major repair.* A major repair to an aircraft or any component thereof shall mean:

(i) A repair which, if improperly accomplished, would adversely affect the structural strength, performance, flight characteristics, powerplant operation, or other qualities affecting airworthiness, or

(ii) A repair which is not accomplished in accordance with accepted practices or cannot be performed by means of elementary operations.

(20) *Minor alteration.* A minor alteration of an aircraft or any component thereof shall mean an alteration other than a major alteration.

(21) *Minor repair.* A minor repair shall mean any repair other than a major repair.

(22) *Person.* Person shall mean any individual, firm, copartnership, corporation, company, association, joint-stock association, or body politic; and includes any trustee, receiver, assignee, or other similar representative thereof.

(23) *Powerplant.* Powerplant shall mean an aircraft engine and its component parts, and other parts necessary to properly install such engine in an aircraft, but not the propeller (if used).

(24) *Propeller.* Propeller shall mean a device for propelling an aircraft through the air, having blades mounted on a power-driven shaft, which when rotated produces by its action on the air a thrust approximately parallel to the longitudinal axis of the aircraft, and shall also include control components normally supplied by the manufacturer of the propeller. It shall also include a system of rotating airfoils which serve either to counteract the effect of the main rotor torque of a rotorcraft or to maneuver a rotorcraft about one or more of its three principal axes.

(25) *Radio.* Radio shall mean an appliance and related apparatus for the transmission and/or reception of radio signals, including electronic appliances used for intercommunication.

(26) *Repair.* Repair shall mean the restoration of an airframe, powerplant, propeller, or appliance to a condition for safe operation after damage or deterioration.

(27) *Type.* Type shall mean all aircraft of the same basic design, including all modifications thereto.

GENERAL CERTIFICATION RULES

§ 52.5 *Application for certificate.* Application for a repair station certificate with appropriate ratings, and any modification or amendment thereof, shall be made on a form and in a manner prescribed by the Administrator.

§ 52.5–1 *Procedure for applying for a repair station certificate (CAA rules which apply to § 52.5)*—(a) *General.* When the applicant has satisfied himself that he is thoroughly familiar with the contents of this part, he shall make application for a repair station certificate on Form ACA–394. This form may be obtained from his local Aviation Safety District Office or the Regional Administrator of the Civil Aeronautics Administration's region having jurisdiction over the civil aviation activities in his area. The addresses of all regional offices of the Civil Aeronautics Administration will be found in the Appendix.[1]

NOTE: Each repair station desiring certification contact the CAA Aviation Safety Agent or Advisor who will inspect his facility for certification. This agent or advisor is located in the Aviation Safety District Office or International Field Office having jurisdiction over the area in which the proposed repair station is to be located.

(b) *Application file.* (1) A complete application file shall consist of the following documents, in duplicate:

(i) An executed application for a Certificated Repair Station, Form ACA–394;

(ii) Roster of supervisory and inspection personnel (§ 52.24–1);

(iii) Copy of the repair station's inspection manual (§ 52.25–1);

[1] Not filed as part of the original document.

(iv) List of maintenance functions contracted to outside agencies as provided for under §§ 52.31–1 through 52.37–1.

(2) When the application is for a propeller rating (Class 2) or accessory rating (Classes 1, 2 and 3) the applicant should attach to the application Form ACA–394 a list indicating by type and/or make the propeller or accessory for which he desires approval. For example: Koppers, automatic variable.

(c) *Modifications or amendments to certificate.* The following are considered to be modifications or amendments to the certificate:

(1) Change of location;

(2) Changes in supervisory and inspection personnel;

(3) Changes in authorized signatures;

(4) Concellations and issuance of repairman certificates;

(5) Request for changing a Designated Maintenance Representative (applies to domestic repair stations only);

(6) Request for revisions or amendments to ratings.

Requests for modifications and amendments detailed in this paragraph shall be made by the execution of Form ACA–394 (Parts I and/or II) by a responsible official of the repair station.

(d) *Special requirements for foreign repair station applicants.* Prior to requesting an application for a repair station certificate, the applicant shall notify, in writing, the Chief Advisor of the International Field Office of his intent to apply for a foreign repair station certificate. The applicant should include in this notification of intent a statement outlining the reasons for desiring a U. S. repair station at the applicant's place of business. After submission of the notification of intent the applicant should hold informal discussions with the CAA Advisor, who will actually handle the certificate of the foreign repair station, and who is hereinafter referred to as the inspecting advisor. During this discussion the inspecting advisor will clarify all points in question regarding repair station requirements. An application for a foreign repair station certificate will be made on Form ACA–394, which may be obtained from the CAA International Field Office nearest the applicant.

(e) *Brochure.* Each foreign repair station shall furnish, at the time of making application, a suitably bound brochure, which shall include a description of the physical characteristics of the facilities, supplemented by photographs. The brochure shall also include a description of the inspection system, an organizational chart, the names and titles of managing and supervisory personnel, and a list of contracted services, if any, giving the names of the contractors and the type of service rendered by them. It will be necessary to furnish the brochure in duplicate.

(f) *Application for reissuance of foreign repair station certificate.* A foreign repair station certificate expires one year after date of issuance. In order to expedite the handling of reissuance of the certificate, the repair station should, within thirty days prior to the expiration date, apply for reissuance of the certificate. The application should be addressed to the Chief Advisor of the International Field Office nearest the repair station's place of business. If approved, the repair station will be notified to that effect by the Washington office of the CAA through normal channels of communication. Foreign repair stations failing to apply for reissuance prior to the expiration date shall apply for the repair station certificate in the same manner as for original certification. However, in this case it will not be necessary to furnish copies of the brochure required in paragraph (e) of this section. A certificated foreign repair station shall not exercise its privileges beyond the expiration date of the certificate.

§ 52.6 *Issuance.* A repair station certificate with appropriate ratings prescribing such operations specifications and limitations as may be reasonably required in the interest of safety will be issued to an applicant who the Administrator finds is properly and adequately equipped and competent and able to maintain, repair, or alter airframes, powerplants, propellers, radios, instruments or accessories in accordance with the applicable requirements hereinafter specified. No person shall operate as a certificated repair station without, or in violation of, the terms of a repair station certificate.

§ 52.6–1 *Issuance (CAA interpretations which apply to § 52.6)*—(a) *General.* The applicant must not operate as a certificated repair station nor advertise as such until he is in possession of a valid repair station certificate.

§ 52.7 *Duration.* (a) A domestic repair station certificate shall remain in effect until surrendered, suspended, revoked, or otherwise terminated by order of the Board, after which it shall be returned to the Administrator.

(b) A foreign repair station certificate shall expire one year after the date of issuance, unless sooner surrendered, suspended, revoked, or otherwise terminated by order of the Board, after which it shall be returned to the Administrator: *Provided*, That upon a showing of continued compliance with § 52.50 it may be reissued for additional 12-month periods upon application to the Administrator.

§ 52.7–1 *Duration (CAA interpretations which apply to § 52.7).* (a) Any domestic repair station certificate which has been either surrendered, suspended, revoked, or otherwise terminated by order of the Board must be delivered to a CAA Aviation Safety Agent.

(b) Any foreign repair station certificate which has been either surrendered, suspended, revoked, or otherwise terminated by order of the Board must be delivered to a CAA advisor assigned to the International Field Office which has jurisdiction over the activities of the particular foreign repair station.

§ 52.8 *Exchange of certificates.* The Administrator shall, not later than one year from the effective date of this part, reinspect all repair stations certificated prior to the effective date of this part. Upon the conclusion of each reinspection the existing certificate and ratings of such repair station shall expire, and the certificate shall be returned to the Administrator. New certificates with appropriate ratings may be issued in accordance with the provisions of this part, if such reinspection indicates compliance herewith. Until such reinspection has been completed and a new certificate has been issued, a repair station shall comply with the requirements of this part in effect immediately prior to this revision.

§ 52.8–1 *Exchange of certificates (CAA policies which apply to § 52.8)*—(a) *Procedure for exchange of certificates.* (1) It is the responsibility of the CAA to inspect all repair stations holding certificates issued prior to June 15, 1952. The inspecting Aviation Safety Agent shall inform the repair station, in writing, of his intent to conduct an inspection for recertification. The repair station shall be allowed a minimum of 30 days, from the date of receipt of the Agent's letter, in which to study the revised regulation and prepare for the inspection. Prior to the commencement of the inspection, the repair station will execute an application for a Repair Station Certificate, hereinafter referred to as Form ACA–394.

(2) The Washington office of the CAA will make the final approval or disapproval of the application. If approved, the repair station will be issued a new certificate, including ratings, operating specifications, and limitations. In any case, the repair station will surrender its old certificate and rating record to the inspecting agent upon his request.

§ 52.9 *Display.* The repair station certificate shall be on display in the repair station for which the certificate was issued and available for inspection by any authorized representative of the Administrator or the Board.

§ 52.9–1 *Display (CAA interpretations which apply to § 52.9).* The repair station certificate must be displayed in a location normally accessible to the general public and must not be obscured. The certificate and all documents thereof must be made available to an authorized representative of the Administrator or the Board.

§ 52.10 *Change of facilities.* No change in location or in the housing and facilities required by § 52.21 shall be made by a certificated repair station without the prior written approval of the Administrator.[1]

§ 52.10–1 *Procedure for changing the location of a certificated repair station (CAA policies which apply to § 52.10).* (1) A repair station changing its location should notify the Aviation Safety Agent who has jurisdiction over the repair station certificate, using Form ACA–394 (Part II) for this purpose. Such notification should be made at least thirty days prior to the date the repair station plans to change its location. Since repair station certificates are based in part on the physical facilities of a repair station at a specific location, it will be necessary for the agent to conduct an inspection of the repair station at its new location. The repair station should allow ample time for this inspection and subsequent approval or disapproval when planning to notify the CAA of a change in location. If approved, an amended certificate shall be issued indicating the latest location.

(2) The CAA will prescribe conditions under which the station may operate while the move is in process.

[1] Requests for approval of a change of location, housing, or facilities should be submitted to the Regional Administrator of Civil Aeronautics for the region in which the repair station is located.

§ 52.11 *Advertising.* Any advertising conducted by a certificated repair station which indicates that it is a certificated repair station shall clearly indicate the work for which it is rated under its certificate.

§ 52.11–1 *Scope of advertising (CAA policies which apply to § 52.11).* The objective of § 52.11 is to provide the public with reasonable information setting forth the classification and capabilities of a repair station which holds itself to be certificated by the CAA. Any piece of advertising indicating directly or indirectly that the repair station is certificated by the CAA should clearly indicate the work for which it is rated under the certificate.

§ 52.11–2 *Advertising media (CAA interpretations which apply to § 52.11).* The following advertising media are considered to come within the scope of § 52.11:

(a) Business letterheads;

(b) Billheads and statements;

(c) Customer estimates and inspection forms;

(d) Hangar or shop signs;

(e) Advertisements in newspapers, periodicals or trade journals;

(f) Any form of promotional media.

§ 52.11–3 *Advertisement of ratings (CAA interpretations which apply to § 52.11).* The basic rating or ratings and the classes of rating or ratings for which the repair station has been certificated must be clearly indicated on any of the advertising media mentioned in § 52.11–2, upon which is imprinted a statement, indicating directly or indirectly, that the repair station is certificated by the CAA. Examples of methods that may be used to meet this requirement may be found in the Appendix.

§ 52.12 *Inspection.* An authorized representative of the Administrator or the Board shall be permitted at any time to make inspections or examinations to determine a repair station's compliance with the provisions of this subchapter.

§ 52.12–1 *Formal inspections (CAA policies which apply to § 52.12).* The applicant's compliance with the requirements of this part will be determined by the Aviation Safety Agent after completing an inspection of the applicant's facilities. After the original inspection for certification or recertification, formal inspections will be made by an Aviation Safety Agent every 4 months. This inspection will be made to determine if the repair station continues to meet the requirements under which it was originally certificated. The inspection will cover the adequacy of the repair station's inspection system, personnel, stock facilities, equipment, records, and a determinaton will be made as to the ability of the repair station to comply with all requirements of this part. Upon completion of each formal inspection, the inspecting representative will notify the repair station, in writing, of any discrepancies noted during his inspection.

§ 52.12–2 *Informal inspection (CAA policies which apply to § 52.12).* An Aviation Safety Agent or a representative of the Board may make spot checks from time to time between formal inspections.

§ 52.13 *Nontransferability of certificate.* A repair station certificate is not transferable.

§ 52.13–1 *Nontransferability of certificate (CAA interpretations which apply to § 52.13).* An amended repair station certificate will be required when a corporation holding a repair station certificate sells or transfers all its assets, including the repair station, to another person, or all members of a copartnership sell their interest in the repair station to other persons. In the above cases an application for an amended repair station certificate must be made by the new owners of the business, and the procedure given in § 52.5–1 must be followed.

DOMESTIC CERTIFICATE REQUIREMENTS

§ 52.20 *Requirements for issuance of certificate.* No certificate for a repair station to be located within the United States shall be issued until the requirements of §§ 52.21 through 52.25 and §§ 52.30 through 52.36, as appropriate, are met.

§ 52.20–1 *General (CAA policies which apply to § 52.20).* The CAA will not issue a repair station certificate to an applicant unless the inspecting agent finds that all the requirements of this part have been complied with in all respects. Limitations found necessary because of operating conditions peculiar to a specific repair station will be considered when such limitations are fully compensated for by other factors and the standard is not lowered. In such cases the limitations will be noted appropriately upon the repair station's certificate.

§ 52.21 *Housing and facilities.* An applicant shall provide:

(a) Sufficient housing to accommodate the necessary equipment and material, and suitable working space for the performance of the work for which the repair station rating is sought;

(b) Suitable facilities for the proper storage, segregation, and protection of materials, parts, and supplies; and

(c) Suitable facilities for the proper protection of parts and subassemblies during disassembly, cleaning, inspection, repair, alteration, and assembly.

§ 52.21–1 *Housing and facilities (CAA interpretations which apply to § 52.21)*—(a) *General.* The objectives of § 52.21 are to assure that the work being accomplished is protected at all times from the elements (rain, snow, wind, dust, and heat); that the workers are so protected that their physical efficiency will not impair the quality of work performed; and that any maintenance operation will have the proper facilities for its successful and efficient accomplishment.

§ 52.21–2 *Working space, storage facilities, and parts protection. (CAA interpretations which apply to § 52.21)*—(a) *Working space*—(1) *Shop space.* Shop space is defined as that space in a repair station to which the location of machine tools and equipment is assigned and where the largest volume of bench work is accomplished. This space does not have to be partitioned, but the machines or equipment may be required to be segregated under certain conditions. For example, machines or equipment must be segregated when:

(i) Machine or woodwork is performed so close to the assembly area that chips, etc. might inadvertently fall into assembled or partially assembled work;

(ii) Parts cleaning units, unpartitioned, are close to other operations;

(iii) Fabric work is done in an area where oils and greases are present;

(iv) Painting and spraying is done in an area so arranged that paint or paint dust can fall on assembled or partially assembled work;

(v) Dirt, paint spray, cleaning or machining operations are conducted in close proximity to testing operations involving the use of precision test equipment.

(2) *Assembly space.* Assembly space is defined as that space in a repair station in which the largest volume of final assembly work is accomplished. The assembly space must be ample to accommodate the largest item being worked on, appropriate to the class of rating for which the repair station is certificated. The assembly space must be an enclosed structure that will meet the objectives as stated in § 52.21–1.

(b) *Storage facilities.* Storage facilities include those areas of the repair station to which is allocated, exclusively, the storage of standard parts, spare parts, and raw materials. These areas must be segregated from the shop and working space. They must be so organized that only acceptable parts and supplies will be issued to the job in process. Standard good practice for the proper protection of material in storage must be followed at all times.

(c) *Parts protection.* All parts in process of disassembly, assembly, or awaiting assembly or disassembly must be properly stored and protected to eliminate the possibility of damage to the parts.

(d) *Ventilation.* Shop, assembly, and storage areas must be suitably ventilated so that the physical efficiency of the workers will not be impaired.

(e) *Lighting.* All work being accomplished must be illuminated sufficiently so as not to adversely affect the quality of the job being accomplished.

(f) *Temperature control.* The temperature of the shop and assembly space must be so controlled as to not impair the physical efficiency of the workers. Where special maintenance operations are performed, such as fabric work, painting, etc., the temperature and hu-

midity control must be adequate to assure the airworthiness of the article undergoing maintenance.

§ 52.21–3 *Special housing and facility requirements (CAA interpretations which apply to § 52.21).*—(a) *Airframe repair stations.* In addition to the requirements of §§ 52.21–1 and 52.21–2, airframe repair stations must have suitable permanent type housing sufficient to accommodate at least one of the heaviest aircraft within the weight class of the repair station rating. For example, a repair station with an airframe rating, class 1, must be able to house at least one aircraft with a gross weight of 12,500 pounds. If the repair station's location is such that climatic conditions permit work to be accomplished outdoors, permanent type work docks will be acceptable provided such work docks meet the objective as stated in § 52.21–1.

(b) *Engine repair stations.* In addition to the requirements of §§ 52.21–1 and 52.21–2, engine repair stations must provide suitable racks or stands for the purpose of segregating complete engine assemblies from each other during assembly and disassembly operations. Covers must also be provided for the protection of parts awaiting assembly or during assembly to prevent dust or other foreign particles from entering or falling upon these parts.

(c) *Propeller repair station.* In addition to the requirements of §§ 52.21–1 and 52.21–2, propeller repair stations must have suitable stands, racks, or other fixtures for the proper storage of propellers after repair or overhaul.

(d) *Instrument repair stations.* In addition to the requirements of §§ 52.21–1 and 52–21–2, instrument repair stations should, if possible, be air-conditioned. Where air-conditioning is not installed in the shop space allocated to final assembly, such space must be dust free. Shop and assembly areas must be kept clean at all times in order to reduce the possibility of the entrance of foreign particles into instrument assemblies.

(e) *Accessory repair stations.* In addition to the requirements of §§ 52.21–1 and 52.21–2, accessory repair stations must provide suitable trays, racks or stands for the purpose of segregating complete assemblies from each other during assembly and disassembly operations. Covers must also be provided for the protection of parts awaiting assembly or during assembly to prevent dust or other foreign particles from entering or falling upon these parts.

(f) *Radio repair stations.* In addition to the requirements of §§ 52.21–1 and 52.21–2, radio repair stations must provide hot lockers or other similar fixtures used for the storage of those parts which are susceptible to the accumulation of dampness or moisture.

§ 52.22 *Personnel.* (a) Each applicant shall have adequate personnel competent to perform, supervise, and inspect the work for which the repair station is rated.

(b) Any individual who is directly in charge of the inspection, maintenance, overhaul, or repair functions shall have had at least 18 months of practical experience with the procedures, practices, inspection methods, materials, tools, machine tools, and equipment generally used in such functions as are related to the work for which the repair station is rated.

(c) Any individual who is directly in charge of inspection, maintenance, overhaul, or repair functions shall be either an appropriately certificated mechanic or an appropriately certificated repairman.

(d) In addition to the requirements of paragraph (b) of this section, at least one of the individuals performing such functions under a repair station certificate with an airframe rating shall also possess experience in the methods and procedures prescribed by the Administrator for returning aircraft to service after annual inspections, and the issuance of other flight authorizations.

§ 52.22–1 *Personnel (CAA interpretations which apply to § 52.22).*—(a) *General.* An objective of this part is to place greater responsibility for the repair station's performance on the responsible managing officials. To this end it is essential that repair station officials give careful consideration to the qualifications and competency of individuals in their employ. The primary responsibility for the satisfactory performance of a worker will be the repair station's.

(b) *Required number of personnel.* The number of repair station personnel will vary according to the type of work and volume engaged in. However; a repair station must provide a sufficient number of properly qualified employees in keeping with the volume of work in process. This number must not be reduced beyond the number required for the production of airworthy work performed in an efficient manner.

(c) *Supervisory personnel.* The repair station must provide a sufficient number of competent supervisors over all phases of the repair station's activities. These supervisors need not exercise overall supervision at a management level, but must exercise direct supervision over working groups. When apprentices are utilized in working groups engaged in assembly operations, or other operations which might be critical to the safety of the aircraft, the repair station must provide at least one competent supervisor for each ten apprentices. This ratio need not apply where apprentices have been integrated into working groups composed essentially of experienced workers.

(d) *Experience requirements for supervisors.* Supervisors directly in charge of maintenance operations must have at least 18 months of experience with the procedures, practices, inspection methods, materials, tools, machine tools and equipment generally used in such functions as related to the work for which the repair station is rated. Experience obtained as an apprentice or student mechanic is not considered appropriate. It is the responsibility of the repair station to determine the competency of its supervisory personnel. However, the inspecting Aviation Safety Agent may determine such competency and ability by requesting the submission of employment and experience records of the individual or by personal examination or test.

(e) *Competency of nonsupervisory personnel.* The repair station must determine the competency of all uncertificated workers engaged in maintenance operations under the terms of a repair station certificate. Competency should be determined on the basis of practical examination or authentic employment record.

(f) *Special requirements for airframe repair stations.* Repair stations holding an airframe rating must provide appropriately rated certificated personnel who possess experience in the methods and procedures prescribed by the Administrator for returning aircraft to service after annual inspection and the issuance of other flight authorizations such as ferry permits. The repair station must recommend such personnel at the time of making application for a repair station certificate. Because of the experience, sense of responsibility, and integrity necessary to the public trust, any individual recommended by the repair station to conduct annual inspections and issue flight authorizations will be subject to personal evaluation by the CAA. The repair station must be prepared to substantiate the above requirements to the inspecting agent.

(g) *Special requirements for limited ratings.* Since a limited rating is based on the ability of a repair station to perform a specialized service to a particular aircraft, engine or component, or perform a maintenance technique requiring special knowledge and equipment, all limited repair stations must provide personnel having detailed knowledge of the particular maintenance function or technique for which the rating is issued. The individual may obtain such knowledge by attending a factory school or by obtaining the equivalent knowledge through long experience with the product or technique involved.

§ 52.23 *Recommendation of certificated repairman.* A certificated repairman shall be recommended in accordance with the provisions of Subpart B of Part 24 of this subchapter.

§ 52.23–1 *Recommendation of certificated repairman (CAA interpretations which apply to § 52.23).* At the time of making application for a repair station certificate, the applicant must recommend and certify one or more individuals to the CAA, at or above the level of shop foreman or department head, stating that they are competent to perform and supervise the work to which they are assigned. The repair station should not certify personnel below the level of shop foreman or department head. The CAA will issue certificates to individuals so recommended by the repair station.

§ 52.24 *Records of supervisory and inspection personnel.* Each repair station shall maintain current records of personnel who are directly in charge of maintenance, repair, inspection, or alteration and shall furnish copies of any personnel changes thereof to the Administrator in a manner and form prescribed by him. These records shall contain such information concerning the qualifications of each such individual as is necessary to show compliance with the experience qualifications of this subchapter. No certificated repair station shall utilize the services of an individual directly in charge of maintenance, repair, inspection, or alteration unless current records are maintained for such individual as required in this section.

§ 52.24–1 *Records of supervisory and inspection personnel (CAA rules which apply to §§ 52.5 and 52.24).*—(a) *Employment records.* An applicant for a repair station certificate shall attach to the application, and a repair station shall maintain, a roster of all supervisory and inspection personnel. The roster of supervisory personnel shall include officials of the repair station responsible for its management, in addition to technical supervisors such as foremen, crew chiefs, etc. In regard to inspection personnel, the roster shall include the names of the chief inspector in addition to those inspectors responsible for making final determinations as to the airworthiness of an article prior to its release for service. An employment summary shall also be given for each individual on the roster. The summary shall include the following:

(1) Scope of present assignment (e. g., airframe overhaul, airframe final assembly, engine inspection department, airframe final inspection);

(2) Present title (e. g., chief inspector, metal shop foreman, engine test crew chief, etc.);

(3) Total experience in years on scope of work assigned;

(4) Past employment record, giving places and term of employment by month and date;

(5) Type and serial number of CAA certificates held (e. g., A&E 12175, Designated Aircraft Maintenance Inspector No. 4100).

(b) *Roster changes.* The repair station shall change the roster called for in paragraph (a) of this section, under the following conditions:

(1) When the employment of an individual named on the roster has been terminated;

(2) When an individual is assigned to duties which require the addition of his name to the roster;

(3) When any appreciable change takes place in the duties and scope of assignment of an individual named on the roster.

Under any of the conditions in this paragraph the repair station shall notify the inspecting agent, using Form ACA–394 (Part II) for this purpose.

§ 52.25 *Inspection system.* An applicant for a repair station certificate shall have an inspection system adequate for satisfactory quality control.

§ 52.25–1 *Inspection system (CAA interpretations which apply to § 52.25).*—(a) *Inspection personnel.* Inspection personnel must be thoroughly familiar with all inspection methods, techniques, and equipment used in their specialty to determine the quality or airworthiness of an article undergoing maintenance or alteration. Inspection personnel must also maintain proficiency in the use of various types of inspection aids. They must also have available and be familiar with current specifications, involving inspection tolerances, limits and procedures, as set forth by the manufacturer of the product undergoing inspection, or other forms of inspection information such as CAA airworthiness directives, bulletins, etc. Where magnetic, fluorescent, or other forms of mechanical inspection devices are used, the operator-inspector must be skilled in the operation of such equipment and must be competent to properly interpret defects indicated by such equipment.

(b) *Inspection of incoming material.* A repair station must provide a satisfactory method of inspecting incoming material to the extent found necessary to insure that all incoming material is in a good state of preservation and free from any apparent defects or malfunctioning prior to being placed in stock for use in any aircraft or component.

(c) *Preliminary inspection.* A repair station must provide a method whereby all items undergoing maintenance are given a preliminary inspection to determine the state of preservation or defects of the item involved. The results of this inspection must be entered on an appropriate form supplied by the repair station, which must remain with the item undergoing maintenance until it is released to service.

(d) *Inspection for hidden damage.* Prior to the commencement of any work, all airframes, powerplants, or other components that have been involved in an accident must be given a searching inspection for hidden damage, including areas adjacent to the obviously damaged members or components. The results of this inspection must be recorded on the appropriate inspection form mentioned in paragraph (c) of this section.

(e) *Inspection procedures manual.* Upon application for a repair station certificate, an applicant must prepare an inspection procedures manual, which must be maintained in a current condition at all times thereafter. This manual should not be confused with the type that contains detailed inspection standards or instructions for a particular airframe, powerplant, accessory, etc. The procedures manual must explain the internal inspection system of the repair station in a form that is readily understood by any new employee of the repair station. It must state in detail the repair station's inspection system, including the continuity of inspection responsibility, samples of inspection forms, and their method of execution. In addition, the manual must contain all items under paragraphs (a) through (d) of this section. The procedures manual should refer, when necessary, to the appropriate manufacturer's inspection standards for the overhaul or repair of the particular article involved. A repair station must provide copies of this manual for all supervisory and inspection personnel, and must assure that these individuals are thoroughly familiar with its contents. The manual must also be made available to personnel other than supervisors or inspectors, so that they may be familiar with the inspection system.

§ 52.26 *Ratings.* The following repair station ratings shall be issued:

(a) Airframe: (1) Class 1: Composite construction up to and including 12,500 lbs. maximum certificated take-off weight;

(2) Class 2: Composite construction above 12,500 lbs. maximum certificated take-off weight;

(3) Class 3: All-metal construction up to and including 12,500 lbs. maximum certificated take-off weight;

(4) Class 4: All-metal construction above 12,500 lbs. maximum certificated take-off weight.

(b) Powerplant: (1) Class 1: Reciprocating engines up to and including 400 horsepower;

(2) Class 2: Reciprocating engines above 400 horsepower;

(3) Class 3: Turbine engines.

(c) Propeller: (1) Class 1: Fixed-pitch type;

(2) Class 2: All other types, by make.

(d) Radio:[1] (1) Class 1: Communication equipment;

(2) Class 2: Navigational equipment;

(3) Class 3: Radar.

(e) Instrument: (1) Class 1: Mechanical;

(2) Class 2: Electrical;

(3) Class 3: Gyroscopic;

(4) Class 4: Electronic.

(f) Accessory: (1) Class 1: Mechanical, by type;

(2) Class 2: Electrical, by type;

(3) Class 3: Electronic, by type.

§ 52.26–1 *Ratings (CAA interpretations which apply to § 52.26 (c) through (f)).*—(a) *General.* The purpose of this section is to explain the types of propellers, radio equipment, instruments, and accessories which are set forth by classes under the appropriate ratings.

(b) *Propeller—(1) Class 1; fixed-pitch type.* Fixed-pitch type means all propellers, either of wood, metal or composite construction, including those propellers whose pitch is adjustable on the ground only and not controllable otherwise. Examples: Hartzell, McCauley, and Curtiss-Reed.

(2) *Class 2; other types by make.* This means all controllable propellers. A repair station will be rated for each specific make of controllable propeller it is equipped and able to service. Examples: Hamilton-Standard, Curtiss Electric, Aero Products, Koppers, etc.

(c) *Radio—(1) Class 1; communication equipment.* Communication equipment means any radio transmitting and/or receiving equipment used in air-

[1] The Communications Act of 1934, as amended, and the rules and regulations of the Federal Communications Commission require that all transmitter adjustments or tests during or coincident with the installation, servicing, or maintenance of a radio station licensed by the Federal Communications Commission which may affect the proper operation of such station shall be made by or under the immediate supervision and responsibility of a person holding a first- or second-class radio operator license issued by the Federal Communications Commission, either radiotelephone or radiotelegraph as may be appropriate for the class of station concerned, who shall be responsible for the proper functioning of the station equipment.

craft to receive or transmit communication in flight, regardless of carrier frequency and type of modulation utilized. It also includes auxiliary and related equipment such as aircraft interphone systems, voice power amplifier systems, electrical or electronic intercrew signaling devices and similar equipment. It does not include any apparatus or device used for the navigation of aircraft or as an aid to navigation. It does not include equipment used to measure altitude terrain clearance or other measuring apparatus or devices operating upon either radio or radar principles, nor does it include mechanical, electrical, gyroscopic, and electronic instruments which may form a part of communications radio equipment.

(2) *Class 2; navigational equipment.* Navigational equipment means any radio system used in aircraft to accomplish or assist in en route and approach navigation of an aircraft, except such equipment which operates on radar or pulsed radio frequency principles. It does not include equipment used to measure altitude terrain clearance or other distance measuring apparatus or devices operating either on pulsed radio frequency or radar principles.

(3) *Class 3; radar equipment.* Radar equipment means any aircraft electronic system operating from either radar or pulsed radio frequency principles.

(d) *Instruments*—(1) *Class 1; mechanical.* Mechanical instruments mean any of the following types used on aircraft or for the operation of aircraft: Diaphragm, bourdon tube, optical and power driven centrifugal, averoid type. Examples of these instruments are tachometers, air speed indicators, pressure gauges, drift sights, magnetic compasses, altimeters, etc.

(2) *Class 2; electrical.* Electrical instruments mean any instrument of the following types: Syncro-style and electrical indicating instruments and systems. Examples of these instruments are the various remote indicating instruments, cylinder head temperature gauges, etc.

(3) *Class 3; gyroscopic.* Gyroscopic instruments mean any instrument or instrument system employing the gyroscopic principle and motivated by either air pressure or electrical energy. Examples are: Automatic pilot control units, turn and bank indicators, directional gyros and their components, flux gate and gyrosyn compasses.

(4) *Class 4; electronic.* Electronic instruments mean any instrument whose operations depend upon the use of an electron tube or similar device. Examples: Capacitance type quantity gauges, system amplifiers, engine analyzers.

(e) *Accessory*—(1) *Class 1; mechanical.* Mechanical accessories mean those accessories which depend on friction, hydraulics, mechanical linkage, or pneumatic pressure for their operation. Examples: Aircraft wheel brakes, mechanically driven pumps, carburetors, aircraft wheel assemblies, shock absorber struts, hydraulic servo units.

(2) *Class 2; electrical.* Electrical accessories mean any accessories depending on electrical power for their operation, and generators. Examples: Starters, voltage regulators, electric motors, electrically driven fuel pumps, magnetos, etc.

(3) *Class 3; electronic.* Electronic accessories mean any accessories whose operations depend upon the use of an electron tube or similar device. Examples: Supercharger, temperature regulating, and air conditioning controls, etc.

§ 52.27 *Limited ratings.* Ratings may be issued with appropriate limitations, where found appropriate by the Administrator, to a repair station which engages solely in the maintenance, repair, or alteration of a particular type of airframe, powerplant, propeller, radio, instrument, accessory, or the components thereof, or engages in a specialized service with respect to the maintenance, repair, or alteration of an aircraft, or the components thereof.

§ 52.27–1 *Limited ratings (CAA policies which apply to § 52.27)*—(a) *General.* The type of work for which the Administrator considers a limited rating appropriate is listed in this section. This list may be revised from time to time as the needs of the industry dictate. If a particular activity is not included on the list, an applicant should apply in the manner stated in § 52.5–1, and the application will be submitted to the CAA's Washington office for further study. When the Administrator finds that the applicant's request for such a rating is appropriate, the Administrator may authorize a rating not covered in this section.

(b) *Scope of limited ratings.* All limited ratings are issued for the maintenance, inspection, repair and alteration of an aircraft, engine or other component. In addition, ratings may be issued for some special repair, maintenance technique or process which requires equipment and skills not normally found in regular repair stations. Limited ratings may be issued for a specific model aircraft, engine, or component, or they may be issued for a number of products produced by a particular manufacturer.

(c) *List of appropriate limited ratings.* (1) Airframes of a particular make and model;

(2) Engines of a particular make and model;

(3) Propellers of a particular make and model;

(4) Instruments of a particular make and model;

(5) Radio equipment of a particular make and model;

(6) Accessories of a particular make and model;

(7) Landing gear component overhaul and repair;

(8) Float overhaul and repair, by make;

(9) Magnetic and fluorescent inspection;

(10) Emergency equipment overhaul and repair;

(11) Rotor blade overhaul and repair, by make and model;

(12) Aircraft fabric work.

§ 52.30 *Equipment and materials; general.* An applicant for a repair station certificate shall have such equipment and materials as are necessary for the competent and efficient performance of the functions appropriate to the rating or ratings sought.

§ 52.30–1 *Equipment and materials (CAA interpretations which apply to § 52.30)*—(a) *General.* The objective of this section is to assure that a repair station has adequate equipment and materials, proportionate to the volume of work undertaken, to do any job within the scope of its ratings. The equipment and materials must be of such type that the work for which they are being used can be performed in a competent, efficient manner. All inspection and test equipment must be checked at regular intervals to insure correct calibration. Equipment and materials required for the various ratings must be located on the premises of the repair station and must also be under the full control of such station, unless the equipment and materials are used in a function which the repair station is authorized under this part to contract to outside agencies. In this event the repair station will be responsible for the airworthiness of the article unless the contractor is an appropriately rated repair station. The applicant will have the responsibility of choosing suitable tools and equipment (which may be either equipment or tools recommended by a manufacturer in the overhaul or repair of his product or the equivalent of such equipment or tools) to accomplish the specific functions that are set forth in the following sections. The inspecting CAA agent will determine if these tools, equipment, and materials are satisfactory within the intent of this regulation. (See Appendix A for equipment check list).

§ 52.30–2 *Equipment list (CAA policies which apply to § 52.30).* At the time of making application for a repair station certificate and ratings, the applicant will furnish, in duplicate, a listing of all equipment and fixtures which he considers satisfactory to comply with requirements of this and succeeding sections. The listing of hand tools usually considered a part of a mechanic's tool kit is not required; neither is a detailed inventory of the applicant's supply of spare parts, standard parts, and other materials used for the maintenance of aircraft. Since it is a requirement that the listed equipment be available at all times and since such equipment represents the minimum necessary to perform all job functions in a competent and efficient manner, it will not be necessary for a repair station to furnish amendments or revisions to this list.

§ 52.31 *Equipment and materials; airframe rating.* An applicant for an airframe rating shall be equipped to perform maintenance, repair, inspection, or alteration operations on such of the following as are appropriate to the rating sought:

(a) Steel structural components;
(b) Wood structure;
(c) Alloy skin and structural components;
(d) Fabric covering;
(e) Control systems;
(f) Landing gear systems;
(g) Electric wiring systems;
(h) Assembly operations.

§ 52.31–1 *Equipment and materials; airframe rating (CAA interpretations which apply to § 52.31)*—(a) *General.* An applicant for any class of airframe rating must provide equipment and materials for the competent and efficient performance of the following job functions within the class of rating applied for: (An asterisk (*) indicates that the applicant need not have equipment and materials on his premises for this function provided he contracts that particular type work to an outside agency having such equipment and materials).

(b) *Class 1; composite construction up to and including 12,500 pounds maximum certificated weight.* (1) Steel structural components:

Repair or replace steel tubes and fittings, using the proper welding techniques when appropriate;
Anticorrosion treatment of the interior and exterior of steel parts;
Metal plating or anodizing*,
Simple machine operations such as making bushings, bolts, etc.,
Complex machine operations involving the use of planers, shapers, milling machines, etc.*,
Fabricate steel fittings,
Abrasive air blasting and chemical cleaning operations*,
Heat treatment*,
Magnetic inspection*,
Repair or rebuild metal tanks*.

(2) Wood structure:

Splice wood spars,
Repair ribs and spars (wood),
Fabricate wood spars*,
Repair or replace metal ribs,
Interior alignment of wings,
Repair or replace plywood skin,
Treatment against wood decay.

(3) Alloy skin and structural components:

Repair and replace metal skin, using power tools and equipment,
Repair, replace, and fabricate alloy members and components such as tubes, channels, cowling, fittings, attach angles, etc.,
Alignment of components, using jigs or fixtures as in the case of joining fuselage sections or other similar operations,
Make up wooden forming blocks or dies,
Fluorescent inspection of alloy components.*

(4) Fabric covering:

Repairs to fabric surfaces,
Recovering and refinishing of components and entire aircraft.*

(5) Control systems:

Renewing control cables, using swaging and splicing techniques,
Rigging complete control system,
Renewing or repairing all control system hinge point components such as pins, bushings, etc.,
Install control system units and components.

(6) Landing gear systems:

Renew or repair all landing gear hinge point components and attachments such as bolts, bushings, fittings, etc.,
Overhaul and repair elastic shock absorber units,
Overhaul and repair hydraulic-pneumatic shock absorber units *,
Overhaul and repair brake system components *,
Conduct retraction cycle tests,
Overhaul and repair electrical circuits,
Overhaul and repair hydraulic system components *,
Repair or fabricate hydraulic lines.

(7) Electric wiring systems:

Diagnose malfunctions,
Repair or replace wiring,
Installation of electrical equipment,
Bench check electrical components (this check is not to be confused with the more complex functional test after overhaul).

(8) Assembly operations:

Assembly of airframe component parts such s landing gear, wings, controls, etc.,
Rigging and alignment of airframe components, including the complete aircraft and control system,
Installation of power plants,
Installation of instruments and accessories,
Assembly and fitting of cowling, fairings, etc.,
Repair and assembly of plastic components such as windshields, windows, etc.,
Jack or hoist complete aircraft,
Conduct aircraft weight and balance operations (this function will be conducted in draft free area),
Balance control surfaces.

(c) *Class 2; composite construction above 12,500 pounds maximum certificated weight.* The various job functions under this class for which appropriate equipment and materials are required, are the same as under Class 1.

(d) *Class 3; all metal construction up to and including 12,500 pounds maximum certificated weight.* The various job functions under this class for which appropriate equipment and materials are required, are the same as under Class 1.

(e) *Class 4; all metal construction above 12,500 pounds maximum certificated weight.* The various job functions under this class for which appropriate equipment and materials are required, are the same as under Class 1.

§ 52.32 *Equipment and materials; powerplant rating.* An applicant for a powerplant rating shall be equipped, as appropriate to the rating sought, to:

(a) Maintain, repair, and alter powerplants, including replacement of parts;

(b) Inspect all parts, using appropriate inspection aids;

(c) Accomplish routine machine work;

(d) Perform assembly operations; and

(e) Test overhauled powerplants in compliance with manufacturers' recommendations or shall have made arrangements suitable to the Administrator for the performance of this function in lieu thereof.

§ 52.32–1 *Equipment and materials; powerplant rating (CAA interpretations which apply to § 52.32)*—(a) *General.* An applicant for all classes of powerplant ratings must provide such equipment and materials as are necessary for the competent and efficient performance of the following job functions within the class of rating applied for. An asterisk (*) indicates that the applicant need not have equipment and materials for that function provided he contracts the particular function to an outside agency having such equipment and materials.

(b) *Class 1; Engines up to and including 400 horsepower.* (1) Maintain, repair and alter powerplants, including replacement of parts:

Chemical and mechanical cleaning,
Disassembly operations,
Abrasive air blasting of parts,
Replacement of valve guides and seats,
Replacement of bushings, bearings, pins, inserts, etc.,
Plating operations (copper, silver, cadmium, etc.)*,
Heating operations (involving the use of recommended techniques requiring controlled heating facilities),
Chilling or shrinking operations,
Removal and replacement of studs,
Inscribing or affixing identification information,
Painting of powerplants and components,
Anticorrosion treatment for parts,
Replacement and repair of powerplant alloy sheet metal and steel components such as baffles, fittings, etc.*.

(2) Inspect all parts, using appropriate inspection aids:

Magnetic, fluorescent and visual inspection of parts,
Precise determination of clearances and tolerances of all parts,
Inspection for alignment of connecting rods, crankshafts, impeller shafts, etc.,
Balancing of parts, including crankshafts, impellers, etc.,
Inspection of valve springs.

(3) Accomplish routine machine work:

Precision grinding, honing and lapping operations (includes crankshaft, cylinder barrels, etc.)*,
Precision drilling, tapping, boring, milling and cutting operations,
Reaming of inserts, bushings, bearings and other similar components,
Refacing of valves.

(4) Perform assembly operations:

Valve and ignition timing operations,
Fabricate and test ignition harnesses,
Fabricate and test rigid and flexible fluid lines,
Prepare engines for long- or short-term storage,
Bench check powerplant accessories (this check is not to be confused with the more complex performance test of overhaul),
Hoist engines by mechanical means,
Install engines in aircraft*,
Align and adjust engine controls*.

(5) Test overhauled powerplants in compliance with manufacturers' recommendations. The test equipment will be the same as recommended by the manufacturers of the particular engines undergoing test or equivalent equipment that will accomplish the same purpose. The function of engine testing will also include all accessories of the particular engine that will be installed in an aircraft as components of the powerplant. The testing function may be performed by the repair station itself, or may be contracted to an outside agency. In either case the repair station will be responsible for the final acceptance of the tested engine.

(c) *Class 2; engines above 400 horsepower.* The various job functions under this class, for which appropriate equipment and materials are required, are the same as under Class 1.

* These functions, when completed, must be inspected by either an appropriately rated certificated mechanic or certificated repairman. Persons supervising or inspecting these functions must be thoroughly familiar with the pertinent installation details involved.

(d) *Class 3; turbine engines.* Functional and equipment requirements for turbine engines will be governed entirely by the recommendations of the manufacturer, including techniques, inspection methods, and test.

§ 52.33 *Equipment and materials; propeller rating.* An applicant for a propeller rating shall be equipped, as appropriate to the rating sought, to:

(a) Maintain, repair, and alter, including installation and the replacement of parts;

(b) Inspect components, using appropriate inspection aids;

(c) Repair or replace components;

(d) Balance; and

(e) Test propeller pitch - changing mechanisms in compliance with manufacturers' recommendations or shall have made arrangements suitable to the Administrator for the performance of this function in lieu thereof.

§ 52.33–1 *Equipment and materials; propeller rating (CAA interpretations which apply to § 52.33)*—(a) *General.* An applicant for all classes of propeller ratings must provide equipment and materials for the competent and efficient performance of the following job functions within the class of rating applied for. An asterisk (*) indicates that the applicant need not have equipment and materials for this function provided he contracts that particular function to a competent outside agency having such equipment and materials.

(b) *Class 1; fixed-pitch propellers.* (1) Maintain, repair and alter propellers, including installation and the replacement of parts:

Replace blade tipping,
Refinish wood propellers,
Make wood inlays,
Refinish plastic blades,
Straighten bent blades within repairable tolerances,
Modify blade diameter and profile,
Polish and buff,
Painting operations,
Remove from and reinstall on powerplants.

(2) Inspect components, using appropriate inspection aids:

Inspect propellers for conformity with manufacturer's drawings and specifications.
Inspect hubs and blades for failures and defects, using magnetic or fluorescent inspection devices*.
Inspect hubs and blades for failures and defects, using all visual aids, including the etching of parts,
Inspect hubs for wear of splines or keyways or any other defect.

(3) Repair or replace components: (Not applicable to this class).

(4) Balance propellers:

Test for proper track on aircraft,
Test for horizontal and vertical unbalance (this test will be accomplished with the use of precision equipment and in a draft-free area).

(5) Test propeller pitch changing mechanisms: (Not applicable to this class.)

(c) *Class 2; all other types by make.* (1) Maintain, repair and alter propellers, including installation and the replacement of parts:

All functions listed under Class 1 of paragraph (b) (1) of this section when applicable to the make and model for which rated.
Properly lubricate moving parts,
Assemble complete propeller and sub-assemblies, using special tools when required.

(2) Inspect components, using appropriate inspection aids: All functions listed under Class 1 of paragraph (b) (2) of this section when applicable to the make and model for which rated.

(3) Repair or replace component parts:

Replace blades, hubs, or any of their components,
Replace or repair anti-icing devices,
Remove nicks or scratches from blades,
Repair or replace electrical propeller components.

(4) Balance propellers: All functions listed under Class 1 of paragraph (b) (4) of this section, when applicable to the make and model for which rated.

(5) Test propeller pitch changing mechanism:

Test hydraulically, propellers and components,
Test electrically operated propellers and components,
Test of constant speed devices*.

§ 52.34 *Equipment and materials; radio rating.* An applicant for a radio rating shall be equipped, as appropriate to the rating sought, to:

(a) Diagnose malfunctions;

(b) Maintain, repair, and alter, including installation and the replacement of parts;

(c) Inspect and test;

(d) Make frequency checks; and

(e) Perform such calibrations as are necessary for the proper operation of equipment.

§ 52.34–1 *Equipment and materials; radio rating (CAA interpretations which apply to § 52.34)*—(a) *General.* An applicant for all classes of radio ratings must provide equipment and materials for the competent and efficient performance of the following job functions within the class of rating applied for. An asterisk (*) indicates that the applicant need not have equipment and materials for this function, provided he contracts that particular function to a competent outside agency having such equipment and materials.

(b) *Class 1; communications equipment*—(1) Diagnose radio malfunctions:

Check aircraft wiring, antennas, connectors, relays and other associated radio components to detect installation faults,
Check engine ignition systems and aircraft accessories to determine sources of electrical interference,
Check aircraft power supplies for adequacy and proper functioning.

(2) Maintain, repair, and alter radios, including installation and the replacement of parts:

Overhaul, test and check dynamotors, inverters, and other radio rotary electrical apparatus.*
Paint and refinish equipment containers.*
Accomplish appropriate methods of marking calibrations, or other information on radio control panels and other components, as required.*
Make and reproduce drawings, wiring diagrams and other similar material required to record alterations and/or modifications to radios (photographs may be used in lieu of drawings when it will serve as an equivalent or better means of recording).*
Fabricate tuning shaft assemblies, brackets, cable assemblies, and other similar components used in radios or aircraft radio installations.*
Align tuned circuits (RF and IF),
Test and repair head sets, speakers, and microphones,
Install and repair aircraft antennas,
Install complete radio systems in aircraft and prepare weight and balance reports* (that phase of radio installation requiring alterations to the aircraft structure must be performed, supervised and inspected by qualified personnel),
Measure modulation values, noise and distortion in radios,
Measure audio and radio frequencies,
Measure radio transmitter power output,
Measure radio component values (inductance, capacitance, resistance, etc.),
Measure aircraft radio antenna, lead-in and transmission line direct current resistance by appropriate methods,
Determine proper aircraft radio antenna, lead-in and transmission line characteristics and locations for type of radio equipment to which connected,
Determine operational condition of radio equipment installed in aircraft by using appropriate portable test apparatus,
Determine proper location for radio antennas on aircraft.

(3) Inspect and test radios:

Perform physical inspection of radio systems and components by visual and mechanical methods,
Perform electrical inspection of radio systems and components by means of appropriate electrical and/or electronic test instruments,
Test radio instruments *,
Test all types of electronic tubes used in equipment appropriate to this rating,
Test electrical components of radios, such as resistors, condensers, transformers, chokes and other related items.

(4) Make frequency checks: Measure radio frequencies to appropriate tolerances and calibrate equipment to such tolerances when applicable.

(5) Perform such calibrations as are necessary for the proper operation of radios: This applies to all functions listed under subparagraphs (1), (2), (3), and (4) of this paragraph.

(c) *Class 2; Navigational equipment.* (1) Diagnose radio malfunctions: Provide equipment and material which are satisfactory to perform all functions listed under Class 1 of paragraph (b) (1) of this section.

(2) Maintain, repair and alter radios, including installation and the replacement of parts:

Measure loop antenna sensitivity by appropriate methods,
Determine and compensate quadrantal error in aircraft direction finder radio equipment,
Measure radio frequency transmission line attenuation.

(3) Inspect and test radios: Provide equipment and material which are satisfactory to perform all functions listed under Class 1 of paragraph (b) (3) of this section.

(4) Make frequency checks: Provide equipment and material which are satisfactory to perform all functions listed under Class 1 of paragraph (b) (4) of this section.

(5) Perform such calibrations as are necessary for the proper operation of radios:

Calibrate instrument landing system equipment to approved performance standards,
Calibrate VHF navigational systems to approved performance standards,
Calibrate VHF marker beacon receiver systems to approved performance standards,
Calibrate any navigational equipment, approach aids or similar equipment, appropriate to this rating, to approved performance standards,
Determine wave forms and phase in radios when applicable.

(d) *Class 3; radar equipment.* (1) Diagnose radio (radar) malfunctions: Provide equipment and material which are satisfactory to perform all functions listed under Class 1 of paragraph (b) (1) of this section.

(2) Maintain, repair, and alter radios (radar), including installation and the replacement of parts:

Provide equipment and material which are satisfactory to perform all functions listed under Class 1 of paragraphs (b) (2) and (c) (2) of this section; also
Metal plate transmission lines, wave guides, and similar equipment, in accordance with appropriate specifications *,
Pressurize appropriate radar equipment with dry air, nitrogen or other specified gases.

(3) Inspect and test radios: Provide equipment and material which are satisfactory to perform all functions listed under Class 1 of paragraph (b) (3) of this section.

(4) Make frequency checks: Provide equipment and material which are satisfactory to perform all functions listed under Class 1, of paragraph (b) (4) of this section.

(5) Perform such calibrations as are necessary for the proper operation of radios: Provide equipment and material which are satisfactory to perform all functions listed under Class 1 of paragraph (b) (5) of this section.

§ 52.35 *Equipment and materials; instrument rating.* An applicant for an instrument rating shall be equipped, as appropriate to the rating sought, to:

(a) Diagnose malfunctions;

(b) Maintain, repair, and alter, including installation and the replacement of parts; and

(c) Inspect, test, and calibrate.

§ 52.35–1 *Equipment and materials; instrument rating (CAA interpretations which apply to § 52.35)*—(a) *General.* An applicant for all classes of instrument ratings must provide equipment and materials for the competent and efficient performance of the following job functions, in accordance with pertinent specifications and manufacturers' recommendations, within the class of rating applied for. An asterisk (*) indicates that the applicant need not have equipment and material for this function provided he contracts that particular function to a competent outside agency having such equipment and materials.

(b) *Class 1; mechanical instruments.* (1) Diagnose instrument malfunctions: Equipment must be satisfactory to diagnose malfunctioning of the following instruments:

Rate of climb indicators,
Altimeters,
Air speed indicators,
Vacuum indicators,
Oil pressure gauges,
Fuel pressure gauges,
Hydraulic pressure gauges,
Deicing pressure gauges,
Pitot-static tube,
Direct indicating compasses,
Direct indicating tachometers,
Accelerometer,
Direct reading fuel quantity gauges,
Optical (sextants, drift sights, etc.)*.

(2) Maintain, repair and alter instruments, including installation and the replacement of parts: Equipment and materials must be satisfactory to perform these functions on instruments listed under Class 1 of subparagraph (1) of this paragraph. The function of installation includes fabrication of instrument panels and other installation structural components. The repair station should be equipped to perform this function. However, it may be contracted to a competent outside agency equipped to perform the function.

(3) Inspect, test and calibrate instruments. Equipment and materials must be satisfactory to perform these functions on and off the aircraft, when appropriate, on all instruments under Class 1 of subparagraph (1) of this paragraph.

(c) *Class 2; electrical instruments.* (1) Diagnose instrument malfunctions: Equipment must be satisfactory to diagnose malfunctioning of the following instruments:

Tachometers,
Synchroscope,
Electric temperature indicators,
Electric resistance type indicators,
Moving magnet type indicators,
Resistance type fuel indicators,
Warning units (oil-fuel),
Selsyn systems and indicators,
Synchro style systems and indicators,
Remote indicating compasses,
Fuel quantity indicators,
Oil quantity indicators,
Radio indicators,
Ammeters,
Voltmeters.

(2) Maintain, repair and alter instruments, including installation and replacement of parts: Equipment and materials must be satisfactory to perform these functions on instruments listed under Class 2 of paragraph (b) (1) of this section. The function of installation includes fabrication of instrument panels and other installation structural components. The repair station should be equipped to perform this function. However, it may be contracted to a competent outside agency equipped to perform the function.

(3) Inspect, test and calibrate instruments: Equipment and materials must be satisfactory to perform these functions on and off the aircraft, when appropriate, on all instruments under Class 2 of paragraph (b) (1) of this section.

(d) *Class 3; gyroscopic instruments.* (1) Diagnose instrument malfunctions: Equipment must be satisfactory to diagnose malfunctioning of the following instruments:

Turn and bank indicators,
Directional gyros,
Horizon gyros,
Auto pilot control units and components.

(2) Maintain, repair and alter instruments, including installation and replacement of parts: Equipment and materials must be satisfactory to perform these functions on instruments listed under Class 3 of paragraph (b) (1) of this section. The function of installation includes fabrication of instrument panels and other installation structural components. The repair station should be equipped to perform this function. However, it may be contracted to a competent outside agency equipped to perform the function.

(3) Inspect, test and calibrate instruments: Equipment and materials must be satisfactory to perform these functions on and off the aircraft, when appropriate, on all instruments under Class 3 of paragraph (b) (1) of this section.

(e) *Class 4; electronic instruments.* (1) Diagnose instrument malfunctions: Equipment must be satisfactory to diagnose malfunctioning of the following instruments:

Remote reading direction indicators,
Distance measuring equipment,
Other electronic instruments.

(2) Maintain, repair and alter instruments, including installation and replacement of parts: Equipment and materials must be satisfactory to perform these functions on instruments listed under Class 4 of paragraph (b) (1) of this section. The function of installation includes fabrication of instrument panels and other installation structural components. The repair station should be equipped to perform this function. However, it may be contracted to a competent outside agency equipped to perform the function.

(3) Inspect, test and calibrate instruments: Equipment and materials must be satisfactory to perform these functions on and off the aircraft, when appropriate, on all instruments listed under Class 4 of paragraph (b) (1) of this section.

§ 52.36 *Equipment and materials; accessory rating.* An applicant for an accessory rating shall be equipped, as appropriate to the rating sought, to:

(a) Diagnose malfunctions;

(b) Maintain, repair and alter, including the replacement of parts; and

(c) Inspect, test, and, where necessary, calibrate.

§ 52.36–1 *Equipment and materials; accessory rating (CAA interpretations which apply to § 52.36)*—(a) *General.* An applicant for all classes of accessory ratings must provide equipment and materials for the competent and efficient performance of the following job functions, in accordance with pertinent specifications and the manufacturers' recommendations, within the class of rating applied for:

(b) *Class 1; mechanical accessories.* (1) Diagnose accessory malfunctions;

(2) Maintain, repair and alter accessories, including installation and the replacement of parts;

(3) Inspect, test, and, where necessary, calibrate accessories.

(c) *Class 2; electrical accessories.* (1) Diagnose accessory malfunction;

(2) Maintain, repair and alter accessories, including installation and the replacement of parts;

(3) Inspect, test, and, where necessary, calibrate accessories.

(d) *Class 3; electronic accessories.* (1) Diagnose accessory malfunctions;

(2) Maintain, repair and alter accessories, including installation and the replacement of parts;

(3) Inspect, test, and, where necessary, calibrate accessories.

§ 52.37 *Equipment and materials; limited ratings.* An applicant for a limited rating under any of the ratings and classes specified in § 52.26, or for such specialized services as are not covered under these ratings, shall have such equipment and material to accomplish the functions appropriate to the ratings sought which have been found to be appropriate by the Administrator.

§ 52.37–1 *Equipment and materials; limited ratings (CAA interpretations which apply to § 52.37).*—(a) *General.* When applying for any limited rating the applicant must have equipment and materials to perform any job function under the appropriate rating and class specified in §§ 52.31–1 to 52.36–1, inclusive, or paragraph (b) of this section: *Provided,* That the applicant need not be equipped to perform any job function that is not applicable to the particular make or model article for which he desires a rating, where the applicant shows that such equipment and materials are not required under the recommendations of the manufacturer of the article involved. (See § 52.27–1 for list of appropriate limited ratings.)

EXAMPLE 1: If it were the policy of a particular manufacturer of an all metal aircraft to repair this aircraft by 100 percent replacement of parts, it would not be necessary for an applicant to have such metal forming equipment as brakes, shears, etc.

EXAMPLE 2: An applicant desires a limited rating for the overhaul and repair of landing gears. He would apply under a limited rating for landing gear overhaul. He would then be required to have equipment and materials to perform only those job functions within the class that would be applicable to the overhaul and repair of landing gears as set forth under airframe rating-landing gear systems.

(b) *Specialized services or techniques.*—(1) *Magnetic and fluorescent inspection.* Equipment and materials required to perform inspections, using the following techniques or methods:

"Wet" and "dry" magnetic inspection techniques;
Residual and continuous methods;
Inspection of welds, both on and off the aircraft (this refers to portable equipment).

(2) *Emergency equipment overhaul and repair.* Equipment and materials required to perform following functions:

(i) Class 1:

(a) Inspection, minor repair and test of inflated equipment and containers;

(b) Repacking, remarking, resealing and restocking of life rafts;

(c) Weighing CO_2 containers.

(ii) Class 2:

(a) All functions under Class 1;

(b) Major repairs to all types of inflated equipment;

(c) Weighing, refilling and testing of CO_2 fire extinguishers, oxygen containers.

(b) *Specialized services or techniques.*—(1) *Magnetic and fluorescent inspection.* Equipment and materials required to perform inspections, using the following techniques or methods:

"Wet" and "dry" magnetic inspection techniques;
Residual and continuous methods;
Inspection of welds, both on and off the aircraft (this refers to portable equipment).

(2) *Emergency equipment overhaul and repair.* Equipment and materials required to perform following functions:

(i) Class 1:

(a) Inspection, minor repair and test of inflated equipment and containers;

(b) Repacking, remarking, resealing and restocking of life rafts;

(c) Weighing CO_2 containers.

(ii) Class 2:

(a) All functions under Class 1;

(b) Major repairs to all types of inflated equipment;

(c) Weighing, refilling and testing of CO_2 fire extinguishers, oxygen containers.

(3) *Rotor blade overhaul and repair.* Equipment, materials, methods and techniques are to be determined on the basis of the manufacturers' recommendations.

(4) *Aircraft fabric work.* Equipment and materials required to perform the following job functions:

Apply protective coatings to structure,
Machine stitch fabric panels,
Perform covering sewing and rib stitching operations,
Apply dope and paint, using temperature and humidity control equipment,
Install patches, grommets, tapes, hooks, etc.,
Refinish aircraft components and entire aircraft.

DOMESTIC REPAIR STATION OPERATING RULES

§ 52.40 *Domestic repair station operating rules; general.* All certificated repair stations located in the United States shall comply with the following operating rules.

§ 52.41 *Privileges of certificate.* A certificated repair station shall be authorized:

(a) To perform maintenance, repair, and alteration work on any airframe, powerplant, propeller, instrument, radio, or accessory for which it is rated; and

(b) To approve and return to service such airframe, powerplant, propeller, instrument, radio, or accessory after it has undergone maintenance, minor repair, or minor alteration; and

(c) To approve and return to service such airframe, powerplant, propeller, instrument, radio, or accessory after it has undergone a major repair or major alteration: *Provided,* That such major repair or major alteration has been accomplished in accordance with a manual, specification, or other technical data approved by the Administrator.

(d) To return aircraft to service after annual inspection and issue other flight authorizations in a form and manner approved by the Administrator: *Provided,* That this privilege shall apply only to those certificated repair stations holding airframe ratings.

§ 52.41–1 *Scope of authorized major repairs and major alterations (CAA interpretations which apply to § 52.41 (c)).* A repair station may approve and return to service an article to which a major repair or a major alteration has been accomplished only if such repair or alteration has been done in accordance with the manual, specifications, or other technical data approved by the Administrator. Examples of such approved data are manufacturers' service or maintenance manuals, drawings, service bulletins, CAA airworthiness directives, CAA specifications, or any other repair or alteration data previously approved by the Administrator. The repair station may also request approval for repairs and alterations of its own design and, once approved by the Administrator, may continue to exercise the privilege granted in § 52.41 (c). The repair station must determine that any technical data used have been approved by the Administrator.

§ 52.41–2 *Annual inspections and other flight authorizations (CAA policies which apply to § 52.41).*—(a) *General.* A repair station holding an unlimited airframe rating in any of the classes may return an aircraft to service after annual inspection, and issue other flight authorizations. This privilege carries with it certain duties and responsibilities which are supervised by the Administrator through his appropriate Aviation Safety Agent located in the Aviation Safety District Office nearest the repair station. Upon certification, the repair station will receive a supply of official forms, and written instructions for the procedures and methods used in conducting annual inspections and issuing other flight authorization.

§ 52.42 *Limitations of certificate.* A certificated repair station shall not perform any inspection, maintenance, repair, or alteration on any airframe, powerplant, propeller, instrument, radio, or accessory for which such station is not rated, or any such work for which rated when such inspection, maintenance, repair, or alteration would require special technical data, equipment, or facilities not available to such station.

§ 52.43 *Maintenance of facilities, equipment, and material.* The holder of a repair station certificate shall maintain all facilities, equipment, and materials in conformity with the standards required for the original issuance of the certificate.

§ 52.44 *Standard of performance.* All maintenance, repair, and alteration work shall be performed in accordance with the standards prescribed in Part 18 of this subchapter.

§ 52.44–1 *Standard of performance (CAA interpretations which apply to § 52.44).*—(a) *General.* Standards referred to in § 52.44 may be found in Civil Aeronautics Manual 18. These standards apply to all aircraft, powerplants, propellers, instruments, and accessories undergoing maintenance, repair and alteration by a certificated repair station. Civil Aeronautics Manual 18 refers to manufacturers' recommendations and instructions; therefore, the repair station must maintain in a current condition all manufacturers' service manuals, instructions and service bulletins which pertain to the articles undergoing repair or alteration by the repair station.

(b) *Radio standards.* A repair station holding one or more classes under the radio rating must conform with those sections of CAM 18 applying to electric systems. Materials must conform with the approved specifications pertinent to equipment appropriate to the rating. Test apparatus, shop equipment, performance standards, test methods, alterations, and calibrations must conform to applicable manufacturers' specifications and/or instructions, approved specifications, CAA accepted specifications of the Radio Technical Commission for Aeronautics and, when not otherwise specified, must conform with accepted standards and good practices of the aircraft radio industry. The tolerances established in Part 9 of Title 47, Chapter I (47 CFR Part 9) apply in the performance of radio transmitter frequency checks.

§ 52.45 *Inspection of work performed.* Each airframe, powerplant, propeller, instrument, radio, and accessory which has undergone any maintenance, repair, or alteration shall, prior to being returned to service, be inspected by a qualified inspector. When the nature of a particular maintenance, repair, or alteration operation so warrants, the inspector shall be a person other than the one who accomplishes the operation. The repair station shall certify on the maintenance, repair, and alteration record for such airframe, powerplant, propeller, instrument, radio, or accessory that it is airworthy.

§ 52.45–1 *Inspection of work performed (CAA interpretations which apply to § 52.45).*—(a) *General.* The objective of § 52.45 is to prevent the return to service of an aircraft or component unless the repair station has satisfied itself that the maintenance on the aircraft or component is of good quality and is installed in such a manner so as not to compromise the airworthiness of the article in any manner. This objective also attempts to fix the responsibility for returning aircraft or components to service on the proper individuals, by requiring that the aircraft records be certified that the articles being returned to service are airworthy.

(b) *Qualified inspector.* For the purpose of § 52.45, a qualified inspector is an individual in the employ of the repair station who has demonstrated through past experience that he is familiar with all inspection methods, techniques, and equipment used to determine the quality of airworthiness of the article involved. He must also be proficient in the use of various types of inspection aids, both mechanical and visual, whichever is appropriate to the article undergoing inspection. Experience as an inspector must have been gained as a journeyman.

(c) *Maintenance operations requiring a double inspection.* Any maintenance operation which, if performed improperly, could be critical to the safe flight of an aircraft must be given a double inspection. The nature of the particular operation will be the governing factor in determining whether such operation shall be given a double inspection. A double inspection refers to that type of inspection wherein an article is repaired or altered by one individual and examined by a second individual in order to reduce to a minimum the possibility of error. Of the two individuals involved in a double inspection, only one need be a qualified inspector assigned for that purpose by the repair station. The mechanic accomplishing the particular maintenance operation may perform the first inspection; however, the qualified inspector must perform the second or final inspection. Operations requiring double inspections include, but are not limited to, the following:

(1) Installation of propellers or rotor blades;

(2) Assembly of wing panels and control surfaces;

(3) Rigging and adjustment of flight controls;

(4) Installation of powerplants in airframes;

(5) Final test and calibration of any article used for flight under IFR;

(6) The overhaul or repair of any accessory used in the flight control system of an aircraft.

§ 52.46 *Performance records and reports.* A certificated repair station shall maintain adequate records of all work performed. Such records shall indicate the name of the individual or individuals by whom the work was performed, the name of the individual by whom it was inspected, and the name of the certificated mechanic or certificated repairman directly in charge thereof, if other than the individual performing the work or inspecting it. Such record shall be retained for at least 2 years.

§ 52.47 *Report of defects or unairworthy conditions.* Unless otherwise prescribed by the Administrator, a certificated repair station shall submit to the Administrator an immediate report of all serious defects in, or other recurring unairworthy conditions of, an airframe, power plant, propeller, or any component thereof, on a form and in a manner prescribed by the Administrator.

§ 52.47–1 *Report of defects or unairworthy conditions (CAA rules which apply to § 52.47).*—(a) *General.* The objective of this section is to require and expedite the reporting of facts regarding malfunctions of aircraft, powerplants, propellers, instruments, radio equipment and accessories. These reports are essential in processing unairworthy items so that speedy corrective action may be taken by the manufacturer of the article or the CAA. A repair station shall not withhold any information regarding the defect or malfunctioning of an article. The repair station shall file a report required under paragraphs (b) and (c) of this section on any serious defect or malfunctioning of an article undergoing work at such repair station. In cases where the filing of such reports may result in a situation prejudicial to the interests of the repair station, each case in question shall be reported to the local responsible Aviation Safety Agent, who will rule whether or not a report shall be submitted by the repair station as required in paragraph (b) of this section.

(b) *Report form.* The official form for reporting a defect and malfunction is the Form ACA–1226 (Malfunctioning and Defects Report). In preparing this form, the repair station should completely describe the nature of the defect or malfunction. (See Appendix for examples.)

(c) *Filing of reports.* The filing of a Form ACA–1226 (Malfunctioning and Defects Report) shall be accomplished within 72 hours after a defect or malfunction has been discovered, unless otherwise provided for in § 52.47–1 (a). If the defect or malfunction could result in an imminent hazard to flight, the repair station shall use the most expeditious method at hand to so inform the local supervising Aviation Safety Agent.

FOREIGN REPAIR STATION CERTIFICATE REQUIREMENTS

§ 52.50 *Requirements for issuance of foreign repair station certificate.* A certificate with appropriate ratings for a repair station located outside of the United States may be issued only where the Administrator finds that such repair station is necessary to provide for the maintenance, repair, or alteration of United States registered aircraft outside of the United States. No person shall be issued such repair station certificate until the requirements for the issuance of a domestic repair station certificate, excepting §§ 52.22 through 52.24, are met.

§ 52.50–1 *Necessity for certification (CAA interpretations which apply to § 52.50).* The necessity for a U. S. certificated foreign repair station is based upon the need for service of U. S. registered aircraft. This need, potential or actual, will be determined by the inspecting advisor, subject to final evaluation by the Washington office of the CAA.

§ 52.51 *Scope of work authorized.* A foreign repair station certificate shall with respect to the performance of work on United States registered aircraft be limited to those aircraft which are used in operations conducted in whole or in part outside the United States, and it shall contain such operating specifications and limitations as the Administrator may prescribe to insure compliance with applicable aircraft airworthiness requirements of this subchapter.

§ 52.51–1 *Scope of work authorized (CAA policies which apply to § 52.51).*—(a) *General.* While foreign and domestic repair stations are issued the same basic ratings and classes, activities of foreign repair stations are limited to spe-

cific services and functions within the appropriate ratings and classes. When making application, a foreign repair station should state the specific services or functions for which it desires ratings. If approved, these shall be entered upon the Operating Limitations of the repair station. Requests for amendments or revisions to these limitations should be made by the foreign repair station on Form ACA–394, Parts I and/or II, and forwarded through the International Field Office nearest its place of business.

(b) *Examples of limitations.* When applying for a repair station certificate, an applicant may be guided by the following examples:

(1) Overhaul, modification and repair to Douglas Model DC–6 series, their powerplants, propellers, instruments and accessories;

(2) Overhaul, modification and repair to Pratt & Whitney Model 1830, R–2000 and R–3350 series engines, including all accessories;

(3) Sheet metal repairs only to Boeing Model 377.

The above are merely examples, and are not to be construed to mean that ratings are in any way limited to these three cases.

§ 52.52 *Personnel.* An applicant shall have adequate personnel competent to perform, supervise, and inspect the work for which the repair station is rated. An individual employed by a certificated foreign repair station, and who in such employment performs or supervises inspection, maintenance, overhaul, or repair of aircraft, aircraft engines, propellers, or appliances in connection with aircraft of United States registry, shall not be deemed an airman within the meaning of section 1 (6) of the Civil Aeronautics Act of 1938, as amended, with respect to such work performed in connection with his employment by such foreign repair station.

§ 52.52–1 *Personnel (CAA policies which apply to § 52.52)*—(a) *General.* The objective of this section is to require that repair station personnel are qualified to perform, supervise and inspect the work for which the repair station is rated, with due regard for the volume of such work undertaken by the repair station. Supervisory and inspection personnel must be thoroughly familiar with all Civil Air Regulations, Civil Aeronautics Manuals, CAA Airworthiness Directives, and the maintenance and service instructions of the manufacturer of the article involved.

(b) *Personnel qualifications.* Foreign repair station personnel engaged in the supervision or final inspection of maintenance are not required to hold U. S. certificates of competency. Where such personnel do not hold appropriate certificates issued by the U. S. or the country in which the repair station is located, the inspecting advisor will determine the qualification of the repair station's personnel with respect to their ability to meet the objective stated in paragraph (a) of this section. This determination may be made by an oral or practical examination or by any other method chosen by the CAA.

(c) *Language qualification.* It is necessary that personnel of the repair station, responsible for the supervision and final inspection of work processed through the repair station, have the ability to read, write and understand the English language.

FOREIGN REPAIR STATION OPERATING RULES

§ 52.60 *General.* A certificated foreign repair station shall comply with the operating rules prescribed for a domestic repair station, excepting §§ 52.46 and 52.47.

§ 52.61 *Required records and reports.* The holder of a foreign repair station certificate shall maintain such records and make such reports with respect to United States registered aircraft as the Administrator finds necessary for the satisfactory administration of this part.

NOTE: The reporting and record-keeping requirements of this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

§ 52.61–1 *Required records and reports (CAA rules which apply to § 52.61)*—(a) *Maintenance records.* A maintenance record of all work performed on U. S. registered aircraft, including major repairs and alterations, shall be kept by a foreign repair station. The record shall be in sufficient detail to indicate the make, model, identification number, serial number, and a description of work performed. In a case of major repairs and/or alterations, the repair station shall execute Form ACA–337 (Repair and Alteration Form) in duplicate.* The original of this form is given to the aircraft owner and the duplicate is forwarded to the Washington office of the CAA through the CAA International Field Office nearest the repair station's place of business. The foreign repair station shall make all maintenance records, on U. S. registered aircraft, available to the inspecting advisor upon his request.

(b) *Malfunctioning and defects reports.* A report of any malfunction or defect of an aircraft, powerplant, propeller, or component thereof, shall be made on a Form ACA–1226 (Malfunctioning and Defects Report). This report shall be filed within 72 hours after the malfunction or defect has been discovered. A supply of these forms will be furnished the foreign repair station by the inspecting advisor. The provisions of this section apply only to U. S. registered aircraft.

[SEAL] F. B. LEE
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52–6048; Filed, June 3, 1952; 8:45 a. m.]

* In the event major repairs and/or alterations are accomplished on U. S. scheduled flag carrier aircraft, they may be recorded in the logs or other records provided by the carrier for this purpose.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5726]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

RICHARD DONIGAN, ET AL.

Subpart—*Using or selling lottery devices:* § 3.2480 *In merchandising.* In connection with the offering for sale, sale or distribution of merchandise in commerce, and on the part of respondent, Jerrold A. Rowley, trading as Richard Donigan, or Discount Sales Company, or under any other name or designation, and on the part of his agents, etc., (1) supplying to or placing in the hands of others push cards or other lottery devices which are to be used or may be used in the sale and distribution of said merchandise to the public by means of a game of chance, gift enterprise or lottery scheme; or, (2) selling, or otherwise disposing of, any merchandise by means of a game of chance, gift enterprise or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Jerrold A. Rowley t. a. Richard Donigan, etc., New York, N. Y., Docket 5726, March 10, 1952]

In the Matter of Jerrold A. Rowley and Stanley Eisenberg, Individually and as Co-partners Trading as Richard Donigan and Discount Sales Company

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission, on December 20, 1949, issued and subsequently served its complaint in this proceeding upon the respondents Jerrold A. Rowley and Stanley Eisenberg charging said respondents with violation of the provisions of that act. An answer to said complaint was filed by respondent Jerrold A. Rowley but no answer was filed by respondent Stanley Eisenberg. Testimony and other evidence in support of the complaint were then introduced before a hearing examiner of the Commission theretofore duly designated by it, and such testimony and other evidence were duly recorded and filed in the office of the Commission. Thereafter, the proceeding regularly came on for final consideration by the said hearing examiner upon the complaint, the answer thereto, testimony and other evidence, proposed findings as to the facts and conclusions presented by counsel, and the hearing examiner having duly considered the record, on December 28, 1950, filed his initial decision herein with the Commission.

Within the time permitted by the Commission's rules of practice, counsel for respondent Jerrold A. Rowley filed with the Commission an appeal from said initial decision, and thereafter this proceeding regularly came on for final consideration by the Commission upon the record herein, including briefs in support of and in opposition to the appeal and oral argument of counsel; and

the Commission, having issued its order granting said appeal in part and denying it in part, and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes this its findings as to the facts[1] and its conclusion[1] drawn therefrom and order, the same to be in lieu of the initial decision of the hearing examiner.

It is ordered, That the respondent Jerrold A. Rowley, trading as Richard Donigan, or Discount Sales Company, or under any other name or designation, and his agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Supplying to or placing in the hands of others push cards or other lottery devices which are to be used or may be used in the sale and distribution of said merchandise to the public by means of a game of chance, gift enterprise or lottery scheme.

2. Selling, or otherwise disposing of, any merchandise by means of a game of chance, gift enterprise or lottery scheme.

It is further ordered, That the complaint herein be, and it hereby is, dismissed as to respondent Stanley Eisenberg.

It is further ordered, That respondent Jerrold A. Rowley, an individual, shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission. Commissioner Mason concurring in the findings as to the facts and conclusion, but not concurring in the form of order to cease and desist, for the reasons stated in his opinion in Docket No. 5203, Worthmore Sales Company.

Issued: March 10, 1952.

[SEAL] D. C. DANIEL,
Secretary.

[F. R. Doc. 52–6104; Filed, June 3, 1952; 8:48 a. m.]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter I—Commodity Exchange Authority (Including Commodity Exchange Commission), Department of Agriculture

PART 8—SPECIAL PROVISIONS APPLICABLE TO WOOL TOPS

FORM 800

By virtue of the authority vested in the Secretary of Agriculture under the Commodity Exchange Act, as amended (7 U. S. C. 1–17a), § 8.01, Part 8, Chapter I, Title 17, Code of Federal Regulations (17 CFR 8.01), is hereby amended by deleting paragraphs (c), (d), and (e) of the said section and substituting in lieu thereof the following:

§ 8.01 *Daily reports on Form 800 by clearing members; information shown.* • • •

(c) The quantity of wool tops bought and the quantity of wool tops sold on such contracts during the period covered by the report; and

(d) The quantity of wool tops delivered and the quantity of wool tops received on such contracts during the period covered by the report.

This amendment operates to eliminate paragraph (e) of § 8.01 of the said title, and the effect of the amendment will be to reduce the amount of information concerning delivery notices reportable on Form 800 by clearing members of contract markets. Since the amendment will operate to relieve or liberalize a restriction and will not adversely affect the public, it is hereby found that notice and public procedure under section 4 of the Administrative Procedure Act are unnecessary, and that the amendment should be made effective within less than 30 days after publication in the FEDERAL REGISTER.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 8a, as added by sec. 10, 49 Stat. 1500; 7 U. S. C. 12a. Interprets or applies sec. 5, 42 Stat. 1000; 7 U. S. C. 7)

Issued this 28th day of May 1952.

[SEAL] K. T. HUTCHINSON.
Acting Secretary of Agriculture.

[F. R. Doc. 52–6076; Filed, June 3, 1952; 8:45 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[Reg. 111; T. D. 5907]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

INFORMATION RETURNS AS TO PATRONAGE DIVIDENDS, REBATES, OR REFUNDS

On February 26, 1952, notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 1688), in order to conform Regulations 111 [26 CFR Part 29] to section 314 (c) and (d) of the Revenue Act of 1951 (Pub. Law 183, 82d Cong.), approved October 20, 1951. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendments to Regulations 111 [26 CFR Part 29] set forth below are hereby adopted.

PARAGRAPH (1). There is inserted immediately preceding § 29.148–1 of Regulations 111, the following:

SEC. 314. INCOME TAX TREATMENT OF EXEMPT COOPERATIVES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

• • • • • •

(c) *Information returns.* Section 148 (relating to information by corporations) is hereby amended by adding at the end thereof the following:

(f) *Patronage dividends.* Any corporation allocating amounts as patronage dividends, rebates, or refunds (whether in cash, merchandise, capital stock, revolving fund certificates, retain certificates, certificates of indebtedness, letters of advice, or in some other manner that discloses to each patron the amount of such dividend, refund, or rebate) shall render a correct return stating (1) the name and address of each patron to whom it has made such allocations amounting to $100 or more during the calendar year, and (2) the amount of such allocations to each patron. If required by the Secretary, any such corporation shall render a correct return of all patronage dividends, rebates, or refunds made during the calendar year to its patrons. This subsection shall not apply in the case of any corporation (including any cooperative or nonprofit corporation engaged in rural electrification) exempt from taxation under section 101 (10) or (11) or in the case of any corporation subject to a tax imposed by supplement G.

(d) *Effective date.* • • • The amendment made by subsection (c) shall be applicable to the calendar year 1951 and subsequent calendar years.

PAR. 2. There is inserted immediately after § 29.148–3 of Regulations 111 the following:

§ 29.148–4 *Returns of information as to patronage dividends, rebates, or refunds*—(a) *In general.* Any corporation allocating to any patron amounts aggregating $100 or more during the calendar year as patronage dividends, rebates, or refunds (whether in cash, merchandise, capital stock, revolving fund certificates, retain certificates, letters of advice, or in some other manner that discloses to each patron the amount of such dividend, rebate or refund) shall, for the calendar year 1951 and for each subsequent calendar year, render a return of information with respect to such allocation on Forms 1096 and 1099. The allocation shall be reported for the calendar year during which the allocation is made, regardless of whether the allocation is deemed for the purpose of section 101 (12) (B) to be made at the close of a preceding taxable year of the corporation.

(b) *Contents of returns; manner of making and filing.* A separate Form 1099 shall be prepared for each patron showing the name and address of the patron to whom such allocation is made, and the amount of the allocation. These forms, accompanied by transmittal Form 1096, showing the number of Forms 1099 filed therewith, shall be filed with the Commissioner of Internal Revenue, Processing Division, C. C. Station, Kansas City 2, Missouri, on or before February 28 of the following year, except that the returns for the calendar year 1951 shall be filed on or before July 15, 1952.

(c) *Extension of time for filing.* In any case in which it is impossible to file the return within the time prescribed in this section, the corporation may, upon a showing of such fact, obtain a reasonable extension of time for filing the return. Authority for granting extensions of time for filing the return of information is hereby delegated to the various collectors of internal revenue. Applications for such extensions shall be addressed to the collector of internal revenue for the district in which the

[1] Filed as part of the original document.

corporation is required to file its income tax return, must contain a full recital of the causes for the delay, and must be submitted on or before the date prescribed for filing the return of information. No extension may be granted for more than six months.

(d) *Definitions*—(1) *Cooperative association.* For the purpose of this section, the term "cooperative association" includes any corporation operating on a cooperative basis and allocating amounts to patrons on the basis of the business done with or for such patrons, except that the term does not include any corporation (including any cooperative or nonprofit corporation engaged in rural electrification) exempt from taxation under section 101 (10) or (11) or any corporation subject to a tax imposed by Supplement G (relating to insurance companies).

(2) *Patron.* For the purpose of this section, the term "patron" includes any person with whom or for whom the cooperative association does business on a cooperative basis, whether a member or a nonmember of the cooperative association, and whether an individual, a trust, estate, partnership, company, corporation, or cooperative association.

(3) *Patronage dividends, rebates, and refunds.* For the purpose of this section, the term "patronage dividend, rebate, or refund" includes any amount allocated (whether in cash, merchandise, capital stock, revolving fund certificates, retain certificates, certificates of indebtedness, letters of advice, or in some other manner that discloses to each patron the amount of such dividend, refund, or rebate) by a cooperative association, to the account of a patron on the basis of the business done with or for such patron. The following are not patronage dividends, rebates, or refunds:

(i) Amounts distributed in redemption of capital stock, or in redemption or satisfaction of certificates of indebtedness, revolving fund certificates, retain certificates, letters of advice, or other similar documents;

(ii) In the case of a cooperative association marketing the products of members or other patrons, the amount paid in cash or merchandise by the association for such products to the extent such amount is fixed without reference to the earnings of the cooperative association. For this purpose, the term "earnings" includes the excess of amounts retained by the association to cover expenses or other items over the amount of such expenses or other items.

(4) *Allocation.* For the purpose of this section, the term "allocation" includes distributions in cash or merchandise made by a cooperative association to a patron, the issuance by such association of capital stock, revolving fund certificates, retain certificates, certificates of indebtedness, letters of advice, similar documents, or any other act by a cooperative association whereby a patron receives actual notice of the segregation on the books of such association of a portion of its assets for the account of such patron. Thus, a mere credit to the account of a patron on the books of the cooperative association, without actual notice to the patron, is not an allocation.

(e) *Examples.* The application of this section may be illustrated by the following examples:

Example 1. Cooperative A, a marketing association operating on a pooling basis, receives the products of patron W on January 5, 1952. On the same day Cooperative A advances to W 45 cents per unit for the products so delivered and allocates to him a "retain certificate" having a face value calculated at the rate of 5 cents per unit. During the operation of the pool, and before substantially all the products in the pool are disposed of, Cooperative A advances to W an additional 40 cents per unit, the amount being determined by reference to the market price of the products sold and the anticipated price of the unsold products. At the close of the pool on November 10, 1952, Cooperative A determines the excess of its receipts over the sum of its expenses and its previous advances to patrons, and allocates to W an additional 3 cents per unit and shares of the capital stock of A having an aggregate of face value calculated at the rate of 2 cents per unit.

The amount of patronage dividends, rebates, or refunds allocated to W during 1952 amount to 10 cents per unit, consisting of the aggregate of the following per-unit allocations: the face amount of the "retain certificate" (5 cents), the amount of cash distributions fixed with reference to the earnings of A (3 cents), and the face value of the capital stock of A (2 cents).

Example 2. Cooperative B, a marketing association operating on a pooling basis, receives the products of patron X on March 5, 1952. On the same day Cooperative B pays to X $1.00 per unit for such products, this amount being determined by reference to the market price of the product when received, and issues to him a "participation certificate" having no face value but which entitles X on the close of the pool to the proceeds derived from the sale of his products less the previous payment of $1.00 and the expenses and other charges attributable to such products. On March 5, 1955, Cooperative B, having sold the products in the pool, having deducted the previous payments for such products, and having determined the expenses and other charges of the pool, redeems the participation certificate of X in cash for 10 cents per unit. The allocation made to X during 1955, amounting to 10 cents per unit, is a patronage dividend, rebate, or refund. Neither the payment to X in 1952 of $1.00 nor the issuance to him of the participation certificate in that year constitutes a patronage dividend, rebate, or refund within the meaning of this section.

Example 3. Cooperative C, a purchasing association, obtains supplies for patron Y on May 1, 1952, and receives in return therefor $100. On February 1, 1953, Cooperative C, having determined the excess of its receipts over its cost and expenses, allocates to Y a cash distribution of $1.00 and a revolving fund certificate of a face amount of $1.00. The amount of patronage dividends, rebates, or refunds allocated to Y for 1953 are $2.00, the aggregate of the cash distribution of $1.00, and the face amount, $1.00, of the revolving fund certificate.

Example 4. Cooperative D, a service association, sells the products of members on a fee basis. It receives the products of patron Z under an agreement not to pool his products with those of other members, to sell his products, and to deliver to him the proceeds of the sale. Patron Z makes payments to Cooperative D during 1952 aggregating $75 for service rendered him by Cooperative D during that year. On May 15, 1953, Cooperative D, having determined the excess of its receipts over its costs and expenses, allocates to Z a cash distribution of $2.00. Such amount is a patronage dividend, rebate, or refund allocated by Cooperative D during 1953.

PAR. 3. Section 29.147–3, as amended by Treasury Decision 5687 (approved February 16, 1949), is amended by inserting immediately before the first sentence of paragraph (a) thereof the following: "The provisions of this section shall not be applicable with respect to returns of information as to patronage dividends, rebates, or refunds required under section 148 (f). See § 29.148–4."

(53 Stat. 32; 26 U. S. C. 62.)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: May 29, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

Subchapter B—Estate and Gift Taxes

[T. D. 5906; Regs. 105]

PART 81—REGULATIONS RELATING TO ESTATE TAX

MISCELLANEOUS AMENDMENTS

On January 3, 1952, notice of proposed rule making, with respect to the valuation of certain classes of property for purposes of the estate tax, was published in the FEDERAL REGISTER (17 F. R. 82). After consideration of all relevant matter presented by interested persons regarding the rules proposed, the amendments to Regulations 105 (26 CFR Part 81), set forth below are hereby adopted.

PARAGRAPH 1. Section 81.10, as amended by Treasury Decision 5351, approved March 27, 1944, is further amended as follows:

(A) By amending paragraph (i) thereof to read as follows:

(i) *Annuities, life estates, remainders, and reversions; estates of decedents dying after December 31, 1951*—(1) *In general.* The value of an annuity contract, or an insurance policy on the life of a person other than the decedent, issued by a company regularly engaged in the selling of contracts of that character is established through the sale by that company of comparable contracts. See § 86.19 (i) of Regulations 108, relating to the gift tax. As to insurance on the life of the decedent, see § 81.28. Except with respect to the aforementioned annuity contracts and insurance policies, the values of annuities, life estates, remainders, and reversions are to be computed by the methods hereinafter prescribed in this paragraph. The present worth of such an interest which is dependent upon the continuation of, or termination of the life of one person or upon a term-certain is to be computed with the use of Table I or Table II of this section. If the interest to be valued is dependent upon more than one life or there is a term-certain concurrent with one or more lives see subparagraph (5) of this paragraph. For the purpose of the computation, the age of a person is to be taken as the age of that person at his nearest birthday. If the executor adopts the option set forth in section 811 (j) see § 81.11.

(2) *Annuities*—(i) *Payable annually at end of year.* If the annuity is payable annually at the end of each year during the life of an individual, the amount payable annually should be multiplied by the figure in column 2 of Table I opposite the number of years in column 1 nearest the age of the individual whose life measures the duration of the annuity, or if payable for a definite number of years the amount payable annually should be multiplied by the figure in column 2 of Table II opposite the number of years in column 1.

Example (1). The decedent received under the terms of his father's will an annuity of $10,000 a year payable annually for the life of his elder brother. At the time he died, an annual payment had just been made. The brother at the decedent's death was 40 years 8 months old. By reference to Table I, the figure in column 2 opposite 41 years, the number nearest to the brother's actual age, is found to be 17.6853. The present worth of the annuity at the date of the decedent's death is, therefore, $176,853 ($10,000 multiplied by 17.6853).

Example (2). The decedent was entitled to receive an annuity of $10,000 a year payable at the end of annual periods throughout a term-certain. At the time he died, an annual payment had just been made and five more annual payments were still to be made. By reference to Table II, it is found that the figure in column 2 opposite 5 years is 4.5151. The present worth of the annuity is, therefore, $45,151 ($10,000 multiplied by 4.5151).

(ii) *Payable at end of semiannual, quarterly, monthly, or weekly periods.* If the annuity is payable at the end of semiannual, quarterly, monthly, or weekly periods, the value should be determined by multiplying the aggregate amount to be paid within a year by the figure in column 2 of Table I opposite the number of years in column 1 nearest the actual age of the person whose life measures the duration of the annuity, or the figure in column 2 of Table II opposite the number of years the annuity is payable, as the case may be, and then multiplying the product by 1.0171 for weekly payments, by 1.0159 for monthly payments, by 1.0130 for quarterly payments, or by 1.0087 for semiannual payments.

Example. If, in example (1) given above under subdivision (1), the annuity is payable semiannually, the aggregate annual amount, $10,000, should be multiplied by the factor 17.6853, and the product multiplied by 1.0087. The present worth of the annuity at the date of death is, therefore, $178,391.62 ($10,000 × 17.6853 × 1.0087).

(iii) *Payable at beginning of annual, semiannual, quarterly, monthly, or weekly periods.* (*a*) If the first payment of an annuity for the life of an individual is to be paid at once, the value of the annuity is the sum of the first payment plus the present worth of a similar annuity, the first payment of which is not to be made until the end of the first period.

Example. The decedent was entitled to receive an annuity of $50 a month payable during the life of another. The decedent died on the day a payment was due. At the date of the decedent's death the person whose life measures the duration of the annuity was 50 years of age. The value of the annuity at the date of decedent's death is $50 plus the product of $50 × 12 × 14.8486 (see Table I) × 1.0159, or $9,100.82.

(*b*) If the first payment of an annuity for a definite number of years is to be paid at once, the applicable factor is the product of the factor shown in Table II multiplied by 1.0177 for weekly payments, by 1.0189 for monthly payments, by 1.0218 for quarterly payments, by 1.0262 for semiannual payments, or by 1.0350 for annual payments.

Example. The decedent was the beneficiary of an annuity of $50 a month. On the day a payment was due, the decedent died. There were 300 payments to be made, including the payment due. The value of the annuity as of the date of decedent's death is the product of $50 × 12 × 16.4815 (see Table II) × 1.0189, or $10,075.80.

(3) *Life estates and terms for years.* If the interest to be valued consists of the right of a person for his life, or for the life of another person, or for a term of years, either to receive the income of certain property or to use non-income-producing property, the value of the interest is the value of the property less the present worth of the remainder computed as shown below under subparagraph (4) of this paragraph.

Example. The decedent was entitled to receive the income from a fund of $50,000 during the life of a person 31 years old. The value of the life estate is $50,000 less $14,466 (computed as shown in the example under subparagraph (4) of this paragraph), or $35,534.

(4) *Remainders or reversionary interests.* If the decedent had a remainder or a reversionary interest in property subject to the life estate of another, the present worth of such interest should be obtained by multiplying the value of the property by the figure in column 3 of Table I opposite the number of years nearest to the actual age of the life tenant. In case the remainder or reversion is to take effect at the end of a term of years Table II should be used.

Example. The decedent was entitled to receive property worth $50,000 upon the death of his elder brother, to whom the income for life had been bequeathed. The brother at the time of the decedent's death was 31 years 5 months old. By reference to Table I, it is found that the figure in column 3, opposite 31 years, is 0.28932. The present worth of the remainder interest at the date of death is, therefore, $14,466 ($50,000 multiplied by 0.28932).

(5) *Actuarial computations by Bureau.* If the interest to be valued is dependent upon the continuation of, or termination of more than one life, or there is a term-certain concurrent with one or more lives a special factor is necessary. Such factor is to be computed upon the basis of the Makehamized mortality table appearing as Table 38 of United States Life Tables and Actuarial Tables 1939–1941, published by the United States Department of Commerce, Bureau of the Census, and interest at the rate of 3½ percent a year, compounded annually. Many such factors may be found in, or readily computed with the use of the tables contained in a pamphlet entitled "Actuarial Values for Estate and Gift Tax," which may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington 25, D. C.; or a case requiring a special factor (provided the case is that of an actual decedent and not merely proposed or hypothetical) may be stated to the Commissioner who will furnish such factor. The request must be accompanied by a statement of the date of birth of each person, the duration of whose life may affect the value of the interest, and by copies of the relevant instruments.

TABLE I—TABLE, SINGLE LIFE, 3½ PERCENT, SHOWING THE PRESENT WORTH OF AN ANNUITY, OR A LIFE INTEREST, AND OF A REMAINDER INTEREST

1 Age	2 Annuity	3 Remainder	1 Age	2 Annuity	3 Remainder
0	23.6685	0.16110	53	13.8221	0.54023

15	11.5174	.5946891	30	15.9990	.3566278

(B) By inserting after paragraph (i) but before Table A the following:

(j) *Annuities, life estates, remainders, and reversions; estates of decedents dying before January 1, 1952.* (1) In the case of decedents dying before January 1, 1952, the general principles and methods prescribed in paragraph (i) of this section (with one exception set forth in subparagraph (2) of this paragraph) are to be followed but the present worth of the interest to be valued is to be computed with the use of Table A or Table B (which appear at the end of this section) and if neither table is applicable the computation is to be made upon the basis of the Actuaries' or Combined Experience Table of Mortality, as extended, and interest at the rate of 4 percent a year, compounded annually. In the computation of the value of annuities the factors 1.01820 for monthly payments, 1.01488 for quarterly payments, and 1.00990 for semiannual payments are to be substituted for the factors appearing in paragraph (i) (2) (ii) of this section; and the factors 1.02154 for monthly payments, 1.02488 for quarterly payments, 1.02990 for semiannual payments, and 1.04 for annual payments are to be substituted for the factors appearing in paragraph (i) (2) (iii) of this section.

(2) The present worth of a life estate or term for years in specific property is to be obtained by multiplying the appropriate factor from column 2 of Table A or Table B by .04 and multiplying the product by the value of the property. A provision for the payment of income in semiannual, quarterly, or monthly installments does not affect the value of the life interest.

PAR. 2. Section 81.11, as amended by Treasury Decision 5699, approved May 13, 1949, is further amended by striking therefrom paragraphs (i) and (j) (beginning with the words "The date of valuation of any property" and ending with the parenthetical expression which follows the example in paragraph (j)) and inserting in lieu thereof the following:

(i) It is provided in paragraph (j) of this section that any interest or estate so affected shall be included at its value at the date of death with adjustment for any difference in its value as of the later date not due to mere lapse of time. The purpose of this provision is to eliminate from the value as of the optional date changes in value due to lapse of time. Accordingly, the values of annuities, life, remainder, and reversionary interests are to be obtained by applying the methods prescribed in § 81.10 (i) (or § 81.10 (j), if applicable), using the age of each person, the duration of whose life may affect the value of the interest, as of the date of death and the value of the property as of the optional date. For example, a decedent was entitled to receive property (which at the time of his death was worth $50,000) upon the death of another person who was entitled to the income therefrom for life and who was 31 years old at the time of the decedent's death. The value at decedent's death of his remainder interest would, as explained in § 81.10 (i), be $14,466 ($50,000 multiplied by 0.28932). If, due to economic conditions, the property declined in value and was worth only $40,000 one year after the date of death, the value of the remainder interest as of the optional date would be $11,572.80 ($40,000 multiplied by 0.28932).

(j) As an example of the valuation of a patent, suppose that the decedent owned a patent which on the date of his death had an unexpired term of ten years and a value of $75,000 and that the patent was sold six months after the decedent's death, at which time, because of lapse of time and other causes its value was $60,000. The adjusted value thereof would be obtained by dividing $60,000 by 0.95 (ratio of the remaining life of the patent at the optional date to the remaining life of the patent at the date of death). The quotient, $63,157.89, is the optional value.

PAR. 3. Section 81.17, as amended by Treasury Decision 5834, approved March 8, 1951, is further amended as follows:

(A) By changing the third sentence of the fifth undesignated paragraph of paragraph (c) (1) thereof to read as follows: "See § 81.10 (i) or § 81.10 (j), whichever is applicable."

(B) By striking out the second sentence of the sixth undesignated paragraph of paragraph (c) (1) thereof.

PAR. 4. Section 81.20 is amended by changing the parenthetical expression which appears at the end of paragraph (d) to read as follows: "(See § 81.10 (i) or § 81.10 (j), whichever is applicable.)"

PAR. 5. Section 81.44, as amended by Treasury Decision 5351, is further amended by striking out paragraph (d) and inserting in lieu thereof the following:

(d) If a trust is created for both a charitable and a private purpose, deduction may be taken of the value of the beneficial interest in favor of the former only insofar as such interest is presently ascertainable, and hence severable from the interest in favor of the private use. The present value of deferred payments to be made for a charitable purpose is to be determined in accordance with the rules stated in § 81.10 (i) or § 81.10 (j), whichever is applicable. Thus, if money or property is placed in trust to pay the income to an individual during his life, or for a term of years, and then to pay the principal to a charitable corporation, the present value of the remainder is deductible. To determine the present value of such remainder use the appropriate factor from column 3 of Table I or II of § 81.10 (i), or of Table A or B of § 81.10 (j), whichever is applicable. If the interest involved is such that its value is to be determined by a special computation (see § 81.10 (i) (5) or § 81.10 (j)), a request for a specific factor accompanied by a statement of the date of birth of each person, the duration of whose life may affect the value of the remainder, and by copies of the relevant instruments may be submitted to the Commissioner who in his discretion may supply the factor requested. If the Commissioner does not furnish the factor, the claim for deduction must be supported by a full statement of the computation of the present worth made, in accordance with the principles set forth in the applicable paragraph of § 81.10, by one skilled in actuarial computations.

PAR. 6. Section 81.47c (d), added by Treasury Decision 5699, is amended to read as follows:

(d) *Remainder interests.* Where the income from property is made payable to another individual for life, or for a term of years, with remainder absolutely to the surviving spouse or to her estate, the marital deduction is based upon the present value of the remainder. The present value of the remainder is to be determined in accordance with the rules stated in § 81.10 (i) or § 81.10 (j), whichever is applicable. For example, if, in a case to which § 81.10 (i) applies, the surviving spouse is to receive $50,000 upon the death of a person aged 31 years, the present value of the remainder is $14,466. If the remainder is such that its value is to be determined by a special computation (see § 81.10 (i) (5) or § 81.10 (j)), a request for a specific factor accompanied by a statement of the date of birth of each person, the duration of whose life may affect the value of the remainder, and by copies of the relevant instruments may be submitted to the Commissioner who in his discretion may supply the factor requested. If the Commissioner does not furnish the factor, the claim for deduction must be supported by a full statement of the computation of the present worth made, in accordance with the principles set forth in the applicable paragraph of § 81.10, by one skilled in actuarial computations.

(53 Stat. 467; 26 U. S. C. 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: May 27, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 52-6118; Filed, June 3, 1952; 8:49 a. m.]

[T. D. 5905; Regs. 106, 107, 114]

Subchapter D—Employment Taxes

PART 402—EMPLOYEES' TAX AND EMPLOYERS' TAX UNDER THE FEDERAL INSURANCE CONTRIBUTIONS ACT

PART 403—EXCISE TAX ON EMPLOYERS UNDER THE FEDERAL UNEMPLOYMENT TAX ACT

PART 411—EMPLOYERS' TAX, EMPLOYEES' TAX, AND EMPLOYEE REPRESENTATIVES' TAX UNDER THE RAILROAD RETIREMENT TAX ACT

MISCELLANEOUS AMENDMENTS

On February 28, 1952, notice of proposed rule making, regarding amendments to certain employment tax regulations, made necessary by certain provisions of the Social Security Act Amendments of 1950 (Pub. Law 734, 81st Cong.; 64 Stat. 477), approved August 28, 1950, was published in the FEDERAL REGISTER (17 F. R. 1764). No objection to the rules proposed having been received, the amendments set forth below are hereby adopted. The amendments are made in order to conform Regulations 106 (26 CFR Part 402), relating to the employees' tax and the employers' tax under the Federal Insurance Contributions Act (subchapter A, chapter 9, Internal Revenue Code), to sections 203 (b), 206 (b) (2), and 209 (d) and (e) of such Social Security Act Amendments of 1950 (64 Stat. 527, 538, 547, 548); Regulations 107 (26 CFR Part 403), relating to the excise tax on employers under the Federal Unemployment Tax Act (subchapter C, chapter 9, Internal Revenue Code), to sections 207 (b) (1) and 209 (a), (b), (d), and (e) of such Social Security Act Amendments of 1950 (64 Stat. 540, 545, 546, 547, 548); and Regulations 114 (26 CFR Part 411), relating to the employers' tax, employees' tax, and employee representatives' tax under the Railroad Retirement Tax Act (subchapter B, chapter 9, Internal Revenue Code), to section 209 (d) of such Social Security Act Amendments of 1950 (64 Stat. 547). Such regulations are amended as follows:

PARAGRAPH 1. Section 402.201 is amended by inserting after paragraph (q), added by Treasury Decision 5592, approved November 20, 1947, the following new paragraph:

(r) "Social Security Act Amendments of 1950" means the act approved August 28, 1950 (Pub. Law 734, 81st Cong.; 64 Stat. 477).

PAR. 2. Immediately preceding § 402.306, the following is inserted:

SECTION 206 (b) (2) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

Section 1403 (a) of the Internal Revenue Code is amended by striking out the first sentence and inserting in lieu thereof the following: "Every employer shall furnish to each of his employees a written statement or statements, in a form suitable for retention by the employee, showing the wages paid by him to the employee before January 1, 1951. (For corresponding provisions with respect to wages paid after December 31, 1950, see section 1633.)"

PAR. 3. Immediately preceding § 402.704, the following is inserted:

SECTION 209 (e) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

If a corporation (hereinafter referred to as a predecessor) incorporated under the laws of one State is succeeded after 1945 and before 1951 by another corporation (hereinafter referred to as a successor) incorporated under the laws of another State, and if immediately upon the succession the business of the successor is identical with that of the predecessor and, except for qualifying shares, the proportionate interest of each shareholder in the successor is identical with his proportionate interest in the predecessor, and if in connection with the succession the predecessor is dissolved or merged into the successor, and if the predecessor and the successor are employers under the Federal Insurance Contributions Act and the Federal Unemployment Tax Act in the calendar year in which the succession takes place, then—

(1) the predecessor and successor corporations, for purposes only of the application of the $3,000 limitation in the definition of wages under such Acts, shall be considered as one employer for such calendar year, and

(2) the successor shall, subject to the applicable statutes of limitations, be entitled to a credit or refund, without interest, of any tax under section 1410 of the Federal Insurance Contributions Act or section 1600 of the Federal Unemployment Tax Act (together with any interest or penalty thereon) paid with respect to remuneration paid by the successor during such calendar year which would not have been subject to tax under such Acts if the remuneration had been paid by the predecessor.

PAR. 4. Immediately preceding § 402.705, the following is inserted:

SECTION 203 (b) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

So much of section 1401 (d) (2) of the Internal Revenue Code as precedes the second sentence thereof is amended to read as follows:

(2) *Wages received during 1947, 1948, 1949, and 1950.* If by reason of an employee receiving wages from more than one employer during the calendar year 1947, 1948, 1949, or 1950, the wages received by him during such year exceed $3,000, the employee shall be entitled to a refund of any amount of tax, with respect to such wages, imposed by section 1400 and deducted from the employee's wages (whether or not paid to the collector), which exceeds the tax with respect to the first $3,000 of such wages received.

PAR. 5. Immediately after the provisions of law under the caption "Section 6 of the act of August 27, 1949 (Pub. Law 271, 81st Cong.)", added by Treasury Decision 5794, approved July 6, 1950, as set forth after § 402.804, the following is inserted:

SECTION 209 (d) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

(1) Section 1631 of the Internal Revenue Code is amended to read as follows:

SEC. 1631. FAILURE OF EMPLOYER TO FILE RETURN.

In case of a failure to make and file any return required under this chapter within the time prescribed by law or prescribed by the Commissioner in pursuance of law, unless it is shown that such failure is due to reasonable cause and not to willful neglect, the addition to the tax or taxes required to be shown on such return shall not be less than $5.

(2) The amendment made by paragraph (1) shall be applicable only with respect to returns filed after December 31, 1950.

PAR. 6. Immediately preceding the caption "Section 3797 (a) and (b) of the Internal Revenue Code" as set forth preceding § 403.201, the following is inserted:

SECTION 209 (a) AND (b) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

(a) (1) Section 1607 (b) of the Internal Revenue Code is amended to read as follows:

(b) *Wages.* The term "wages" means all remuneration for employment, including the cash value of all remuneration paid in any medium other than cash; except that such terms shall not include—

(1) That part of the remuneration which, after remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) equal to $3,000 with respect to employment has been paid to an individual by an employer during any calendar year, is paid to such individual by such employer during such calendar year. If an employer (hereinafter referred to as successor employer) during any calendar year acquires substantially all the property used in a trade or business of another employer (hereinafter referred to as a predecessor), or used in a separate unit of a trade or business of a predecessor, and immediately after the acquisition employs in his trade or business an individual who immediately prior to the acquisition was employed in the trade or business of such predecessor, then, for the purpose of determining whether the successor employer has paid remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) with respect to employment equal to $3,000 to such individual during such calendar year, any remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) with respect to employment paid (or considered under this paragraph as having been paid) to such individual by such predecessor during such calendar year and prior to such acquisition shall be considered as having been paid by such successor employer;

(2) The amount of any payment (including any amount paid by an employer for insurance or annuities, or into a fund, to provide for any such payment) made to, or on behalf of, an employee or any of his dependents under a plan or system established by an employer which makes provision for his employees generally (or for his employees generally and their dependents) or for a class or classes of his employees (or for a class or classes of his employees and their dependents), on account of (A) retirement, or (B) sickness or accident disability, or (C) medical or hospitalization expenses in connection with sickness or accident disability, or (D) death;

(3) Any payment made to an employee (including any amount paid by an employer for insurance or annuities, or into a fund, to provide for any such payment) on account of retirement;

(4) Any payment on account of sickness or accident disability, or medical or hospitalization expenses in connection with sickness or accident disability, made by an employer to, or on behalf of, an employee after the expiration of six calendar months following the last calendar month in which the employee worked for such employer;

(5) Any payment made to, or on behalf of, an employee or his beneficiary (A) from or to a trust exempt from tax under section 165 (a) at the time of such payment unless such payment is made to an employee of the trust as remuneration for services rendered as such employee and not as a beneficiary of the trust, or (B) under or to an annuity plan which, at the time of such payment, meets the requirements of section 165 (a) (3), (4), (5), and (6);

(6) The payment by an employer (without deduction from the remuneration of the employee) (A) of the tax imposed upon an employee under section 1400, or (B) of any payment required from an employee under a State unemployment compensation law;

(7) Remuneration paid in any medium other than cash to an employee for service not in the course of the employer's trade or business;

(8) Any payment (other than vacation or sick pay) made to an employee after the month in which he attains the age of sixty-five, if he did not work for the employer in the period for which such payment is made;

(9) Dismissal payments which the employer is not legally required to make.

(2) The amendment made by paragraph (1) shall be applicable only with respect to remuneration paid after 1950. In the case of remuneration paid prior to 1951, the determination under section 1607 (b) (1) of the Internal Revenue Code (prior to its amendment by this act) of whether or not such remuneration constituted wages shall be made as if paragraph (1) of this subsection had not been enacted, and without inferences drawn from the fact that the amendment made by paragraph (1) is not made applicable to periods prior to 1951.

(3) Effective with respect to remuneration paid after December 31, 1951, section 1607 (b) of the Internal Revenue Code is amended by changing the semicolon at the end of paragraph (8) to a period and by striking out paragraph (9) thereof.

(b) (1) Section 1607 (c) (3) of the Internal Revenue Code is amended to read as follows:

(3) Service not in the course of the employer's trade or business performed in any calendar quarter by an employee, unless the cash remuneration paid for such service is $50 or more and such service is performed by an individual who is regularly employed by such employer to perform such service. For the purposes of this paragraph, an individual shall be deemed to be regularly employed by an employer during a calendar quarter only if (A) on each of some twenty-four days during such quarter such individual performs for such employer for some portion of the day service not in the course of the employer's trade or business, or (B) such individual was regularly employed (as determined under clause (A)) by such employer in the performance of such service during the preceding calendar quarter;.

(2) Section 1607 (c) (10) (A) (i) of the Internal Revenue Code is amended by striking out "does not exceed $45" and inserting in lieu thereof "is less than $50."

(3) Section 1607 (c) (10) (E) of the Internal Revenue Code is amended by striking out "in any calendar quarter" and by striking out ", and the remuneration for such service does not exceed $45 (exclusive of room, board, and tuition)."

(4) The amendments made by paragraphs (1), (2), and (3) shall be applicable only with respect to service performed after 1950.

PAR. 7. Section 403.201 is amended by inserting after paragraph (n), added by Treasury Decision 5566, approved June 23, 1947, the following new paragraph:

(o) "Social Security Act Amendments of 1950" means the act approved August 28, 1950 (Pub. Law 734, 81st Cong.; 64 Stat. 477).

PAR. 8. Section 403.202, as amended by Treasury Decision 5566, is further amended by striking out the parenthetical sentence at the end of the third paragraph and inserting in lieu thereof the following: "(See §§ 403.227, 403.228, and 403.228a, relating to wages.)"

PAR. 9. Section 403.203 (a), as amended by Treasury Decision 5665, approved November 1, 1948, is further amended as follows:

(A) By striking out in the first sentence "and as further amended" and inserting in lieu thereof "and as amended".

(B) By striking out the period at the end of the first sentence and inserting in lieu thereof a comma and the following: "and as further amended, effective January 1, 1951, by section 209 (b) of the Social Security Act Amendments of 1950."

(C) By striking out in the second sentence "(except §§ 403.227 and 403.228, relating to wages)" and inserting in lieu thereof "(except §§ 403.227, 403.228, and 403.228a, relating to wages)".

PAR. 10. Section 403.204 is amended by striking out paragraph (g) and inserting in lieu thereof the following paragraph:

(g) All classes or grades of employees are included within the relationship of employer and employee. Thus, superintendents, managers, and other superior employees are employees. Generally, an officer of a corporation is an employee of the corporation. However, an officer of a corporation who as such does not perform any services or performs only minor services and who neither receives nor is entitled to receive, directly or indirectly, any remuneration is not considered to be an employee of the corporation. A director of a corporation in his capacity as such is not an employee of the corporation.

PAR. 11. Section 403.206, as amended by Treasury Decision 5665, is further amended as follows:

(A) By striking out in the first sentence "and as further amended" and inserting in lieu thereof "and as amended".

(B) By striking out the period at the end of the first sentence and inserting in lieu thereof a comma and the following: "and as further amended, effective January 1, 1951, by section 209 (b) of the Social Security Act Amendments of 1950."

PAR. 12. Immediately preceding § 403.210, the following is inserted:

SECTION 209 (b) (1) AND (4) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

(1) Section 1607 (c) (3) of the Internal Revenue Code is amended to read as follows:

(3) Service not in the course of the employer's trade or business performed in any calendar quarter by an employee, unless the cash remuneration paid for such service is $50 or more and such service is performed by an individual who is regularly employed by such employer to perform such service. For the purposes of this paragraph, an individual shall be deemed to be regularly employed by an employer during a calendar quarter only if (A) on each of some twenty-four days during such quarter such individual performs for such employer for some portion of the day service not in the course of the employer's trade or business, or (B) such individual was regularly employed (as determined under clause (A)) by such employer in the performance of such service during the preceding calendar quarter;

(4) The amendments made by paragraphs (1) • • • shall be applicable only with respect to service performed after 1950.

PAR. 13. Section 403.210 is amended as follows:

(A) By revising the heading thereof to read as follows:

§ 403.210 *Services not in the course of employer's trade or business*—(a) *Casual labor performed prior to January 1, 1951.*

(B) By redesignating paragraphs (a) through (e), prior to the foregoing amendment, as (a) (1) through (5) and amending (a) (1) as so redesignated to read as follows:

(1) Casual labor not in the course of the employer's trade or business performed prior to January 1, 1951, is excepted. The term "casual labor" includes labor which is occasional, incidental, or irregular.

(C) By inserting at the end of paragraph (a) of § 403.210 as so amended the following:

(b) *Services performed after December 31, 1950.* (1) Services not in the course of the employer's trade or business performed after December 31, 1950, by an employee for an employer in a calendar quarter are excepted unless—

(i) The cash remuneration paid for such services performed by the employee for the employer in the calendar quarter is $50 or more; and

(ii) Such employee is regularly employed in the calendar quarter by such employer to perform such services.

Unless the tests set forth in both subdivisions (i) and (ii) of this subparagraph are met, the services are excepted from employment.

(2) The term "services not in the course of the employer's trade or business" includes services that do not promote or advance the trade or business of the employer. Services performed for a corporation do not come within the exception.

(3) The test relating to cash remuneration of $50 or more is based on the remuneration earned during a calendar quarter rather than on the remuneration paid in a calendar quarter. However, for purposes of determining whether the test is met, it is also required it is immaterial when the remuneration is paid. Furthermore, in determining whether $50 or more has been paid for services not in the course of the employer's trade or business, only cash remuneration for such services shall be taken into account. The term "cash remuneration" includes checks and other monetary media of exchange. Remuneration paid in any other medium, such as lodging, food, or other goods or commodities, is disregarded in determining whether the cash-remuneration test is met.

(4) For the purposes of this exception, an individual is deemed to be regularly employed by an employer during a calendar quarter only if:

(i) Such individual performs services not in the course of the employer's trade or business for such employer for some portion of the day on at least 24 days (whether or not consecutive) during such calendar quarter; or

(ii) Such individual was regularly employed (as determined under subdivision (i) of this subparagraph) by such employer in the performance of services not in the course of the employer's trade or business during the preceding calendar quarter (including the last calendar quarter of 1950).

(5) In determining whether an employee has performed services not in the course of the employer's trade or business on at least 24 days during a calendar quarter, there shall be counted as one day—

(i) Any day or portion thereof on which the employee actually performs such services; and

(ii) Any day or portion thereof on which the employee does not perform services of the prescribed character but with respect to which cash remuneration is paid or payable to the employee for such services, such as a day on which the employee is sick or on vacation.

An employee who on a particular day reports for work and, at the direction of his employer, holds himself in readiness to perform services not in the course of the employer's trade or business shall be considered to be engaged in the actual performance of such services on that day. For the purposes of this exception, a day is a period of 24 hours commencing at midnight and ending at midnight.

(6) For provisions relating to the exclusion from wages of remuneration paid in any medium other than cash for services not in the course of the employer's trade or business, see § 403.228a (g).

PAR. 14. Immediately preceding the caption "Section 101 of the Internal Revenue Code" as set forth preceding § 403.217, the following is inserted:

SECTION 209 (b) (2) AND (4) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

(2) Section 1607 (c) (10) (A) (i) of the Internal Revenue Code is amended by striking out "does not exceed $45" and inserting in lieu thereof "is less than $50".

(4) The amendments made by paragraphs • • • (2) • • • shall be applicable only with respect to service performed after 1950.

PAR. 15. Under the caption "Section 101 of the Internal Revenue Code" as set forth preceding § 403.217, the provision of law "(1) Labor • • • organizations;" is stricken out, and there is inserted in lieu thereof "(1) Labor, agricultural, or horticultural organizations;".

PAR. 16. Immediately preceding § 403.217, the following is inserted:

SECTION 301 (b) AND (c) [OF PART I, TITLE III] OF THE REVENUE ACT OF 1950 (PUB. LAW 814, 81ST CONG., APPROVED SEPTEMBER 23, 1950)

(b) *Feeder organizations.* Section 101 [Internal Revenue Code] is hereby amended by adding at the end thereof the following paragraph:

An organization operated for the primary purpose of carrying on a trade or business for profit shall not be exempt under any paragraph of this section on the ground that all of its profits are payable to one or more organizations exempt under this section from taxation. For the purposes of this paragraph the term "trade or business" shall not include the rental by an organization of its real property (including personal property leased with the real property).

(c) *Technical amendments.* (1) Section 101 is hereby amended (A) by striking out "The following organizations shall be exempt" and inserting in lieu thereof "Except as provided in supplement U, the following organizations shall be exempt", and (B) by adding at the end of such section (following the paragraph added by subsection (b) of this section) the following paragraph:

Notwithstanding supplement U, an organization described in this section (other than in the preceding paragraph) shall be considered an organization exempt from income taxes for the purpose of any law which refers to organizations exempt from income taxes.

• • • • •

SECTION 303 OF THE REVENUE ACT OF 1950 (PUB. LAW 814, 81ST CONG., APPROVED SEPTEMBER 23, 1950)

EFFECTIVE DATE OF PART I

The amendments made by this part [part I, title III, Revenue Act of 1950] shall be applicable only with respect to taxable years beginning after December 31, 1950. The determination as to whether an organization is exempt under section 101 of the Internal Revenue Code from taxation for any taxable year beginning before January 1, 1951, shall be made as if section 301 (b) of this Act had not been enacted and without inferences drawn from the fact that the amendment made by such section is not expressly made applicable with respect to taxable years beginning before January 1, 1951.

SECTION 11 (b) OF THE SUBVERSIVE ACTIVITIES CONTROL ACT OF 1950 (PUB. LAW 831, 81ST CONG., ENACTED SEPTEMBER 23, 1950)

No organization shall be entitled to exemption from Federal income tax, under section 101 of the Internal Revenue Code, for any taxable year if at any time during such taxable year (1) such organization is registered under section 7, or (2) there is in effect a final order of the Board [Subversive Activities Control Board] requiring such organization to register under section 7.

SECTION 313 (a), (b), AND (j) OF THE REVENUE ACT OF 1951 (PUB. LAW 183, 82D CONG., APPROVED OCTOBER 20, 1951)

(a) *Mutual savings banks.* Section 101 (2) (relating to exemption from tax of mutual savings banks) is hereby repealed.

(b) *Building and loan associations and cooperative banks.* Section 101 (4) (relating to exemption from tax of building and loan associations and cooperative banks) is hereby amended to read as follows:

(4) Credit unions without capital stock organized and operated for mutual purposes and without profit; and corporations or associations without capital stock organized prior to September 1, 1951, and operated for mutual purposes and without profit for the purpose of providing reserve funds for, and insurance of, shares or deposits in—

(A) domestic building and loan associations,

(B) cooperative banks without capital stock organized and operated for mutual purposes and without profit, or

(C) mutual savings banks not having capital stock represented by shares;

(j) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

SECTION 314 (a), (b), AND (d) OF THE REVENUE ACT OF 1951 (PUB. LAW 183, 82D CONG., APPROVED OCTOBER 20, 1951)

(a) *Amendment of section 101 (12).* Section 101 (12) is hereby amended as follows:

(1) By inserting after "(12)" the following: "(A)".

(2) By inserting after such paragraph the following:

(B) • • •.

(b) *Technical amendments.* (1) Section 101 is hereby amended by striking out "Except as provided in supplement U" and inserting in lieu thereof the following: "Except as provided in paragraph (12) (B) and in supplement U".

(2) The last sentence of section 101 is hereby amended by striking out "Notwithstanding supplement U" and inserting in lieu thereof "Notwithstanding paragraph (12) (B) and supplement U".

(d) *Effective date.* The amendments made by subsections (a) and (b) of this section shall be applicable only with respect to taxable years beginning after December 31, 1951. • • •

PAR. 17. Section 403.217 (b) is amended to read as follows:

(b) *Remuneration not in excess of specified amount for calendar quarter*—(1) *Remuneration not in excess of $45 for calendar quarter before 1951.* Services performed by an employee in a calendar quarter before 1951 in the employ of an organization exempt from income tax under section 101 of the Internal Revenue Code are excepted, if the remuneration for the services does not exceed $45. The exception applies separately with respect to each organization for which the employee renders services in a calendar quarter. A calendar quarter is a period of three calendar months ending on March 31, June 30, September 30, or December 31. The type of services performed by the employee and the place where the services are performed are immaterial; the statutory tests are the character of the organization in the employ of which the services are performed and the amount of the remuneration for services performed by the employee in the calendar quarter.

(2) *Remuneration less than $50 for calendar quarter after 1950.* Services performed by an employee in a calendar quarter after 1950 in the employ of an organization exempt from income tax under section 101 of the Internal Revenue Code are excepted, if the remuneration for the services is less than $50. The exception applies separately with respect to each organization for which the employee renders services in a calendar quarter. A calendar quarter is a period of three calendar months ending on March 31, June 30, September 30, or December 31. The type of services performed by the employee and the place where the services are performed are immaterial; the statutory tests are the character of the organization in the employ of which the services are performed and the amount of the remuneration for services performed by the employee in the calendar quarter.

Example (1). X is a local lodge of a fraternal organization and is exempt from income tax under section 101 (3) of the Internal Revenue Code. X has a number of paid employees, among them being A who serves exclusively as recording secretary for the lodge, and B who performs services for the lodge as janitor of its clubhouse. For services performed during the first calendar quarter of 1951 (that is, January 1, 1951, through March 31, 1951, both dates inclusive) A earns a total of $30. For services performed during the same calendar quarter B earns $120. Since the remuneration for the services performed by A during such quarter is less than $50, all of such services are excepted. Thus, A is not counted as an employee in employment on any of the days during such quarter for purposes of determining whether the X organization is an employer (see § 403.205). Even though it is subsequently determined that X is an employer, A's remuneration of $30 for services performed during the first calendar quarter of such year is not subject to tax. B's services, however, are not excepted during such quarter since the remuneration therefor is not less than $50. Thus, B is counted as an employee in employment during all of such quarter for purposes of determining whether the X organization is an employer. If it is determined that the X organization is an employer, B's remuneration of $180 for services performed during the first calendar quarter is included in computing the tax.

Example (2). The facts are the same as in example (1), above, except that on April 1, 1951, A's salary is increased and, for services performed during the calendar quarter beginning on that date (that is, April 1, 1951, through June 30, 1951, both dates inclusive),

A earns $60. Since A's remuneration for services during such quarter is not less than $50, such services are not excepted. A, therefore, is counted as an employee in employment during all of such quarter for purposes of determining whether the X organization is an employer. If it is determined that the X organization is an employer, A's remuneration of $60 for services performed during the second calendar quarter is included in computing the tax.

Example (3). The facts are the same as in example (1), above, except that A earns $120 for services performed during the year 1951, and such amount is paid to him in a lump sum at the end of the year. The services performed by A in any calendar quarter during the year are excepted if the portion of the $120 attributable to services performed in that quarter is less than $50. In such case, A is not counted as an employee in employment on any of the days during such quarter for purposes of determining whether the X organization is an employer. If, however, the portion of the $120 attributable to services performed in any calendar quarter during the year is not less than $50, the services during that quarter are not excepted. In the latter case, A is counted as an employee in employment during all of such quarter and, if the X organization is determined to be an employer, that portion of the $120 attributable to services performed in such quarter is included in computing the tax.

PAR. 18. The provisions of law under the caption "Section 101 (1) of the Internal Revenue Code", together with the caption and heading, as set forth immediately preceding § 403.218, are stricken out.

PAR. 19. Immediately preceding § 403.221, the following is inserted:

SECTION 209 (b) (3) AND (4) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

(3) Section 1607 (c) (10) (E) of the Internal Revenue Code is amended by striking out "in any calendar quarter" and by striking out ", and the remuneration for such service does not exceed $45 (exclusive of room, board, and tuition)".

(4) The amendments made by paragraphs * * * (3) shall be applicable only with respect to service performed after 1950.

PAR. 20. Section 403.221 is amended to read as follows:

§ 403.221 *Students employed by schools, colleges, or universities not exempt from income tax*—(a) *In general.* (1) This section deals with the exception of services performed by a student in the employ of a school, college, or university not exempt from income tax under section 101 of the Internal Revenue Code. Paragraph (b) of this section applies only with respect to services performed before January 1, 1951. Paragraph (c) of this section applies only with respect to services performed on or after January 1, 1951.

(2) The term "school, college, or university" within the meaning of this exception is to be taken in its commonly or generally accepted sense. (For provisions relating to services performed by a student in the employ of an organization exempt from income tax, see § 403.217 (d).)

(b) *Services performed prior to January 1, 1951.* (1) Services performed in a calendar quarter before 1951 by a student in the employ of a school, college, or university not exempt from income tax under section 101 of the Internal Revenue Code are excepted, if:

(i) The services are performed by a student who is enrolled and is regularly attending classes at such school, college, or university; and

(ii) The remuneration for such services performed in such calendar quarter does not exceed $45, exclusive of room, board, and tuition furnished by the school, college, or university.

(2) A calendar quarter is a period of three calendar months ending on March 31, June 30, September 30, or December 31.

(3) For purposes of this paragraph, the type of services performed by the employee and the place where the services are performed are immaterial; the statutory tests are the character of the organization in the employ of which the services are performed, the amount of remuneration for services performed by the employee in the calendar quarter, and the status of the employee as a student enrolled and regularly attending classes at the school, college, or university in the employ of which he performs the services.

(c) *Services performed after 1950.* (1) Services performed after December 31, 1950, by a student in the employ of a school, college, or university not exempt from income tax under section 101 of the Internal Revenue Code are excepted, if the student is enrolled and is regularly attending classes at such school, college, or university.

(2) For purposes of this paragraph, the type of services performed by the employee, the place where the services are performed, and the amount of remuneration for services performed by the employee are immaterial; the statutory tests are the character of the organization in the employ of which the services are performed and the status of the employee as a student enrolled and regularly attending classes at the school, college, or university in the employ of which he performs the services.

PAR. 21. Immediately preceding § 403.227, the following is inserted:

SECTION 209 (a) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

(1) Section 1607 (b) of the Internal Revenue Code is amended to read as follows:

(b) *Wages.* The term "wages" means all remuneration for employment, including the cash value of all remuneration paid in any medium other than cash; except that such term shall not include—

(1) That part of the remuneration which, after remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) equal to $3,000 with respect to employment has been paid to an individual by an employer during any calendar year, is paid to such individual by such employer during such calendar year. If an employer (hereinafter referred to as successor employer) during any calendar year acquires substantially all the property used in a trade or business of another employer (hereinafter referred to as a predecessor), or used in a separate unit of a trade or business of a predecessor, and immediately after the acquisition employs in his trade or business an individual who immediately prior to the acquisition was employed in the trade or business of such predecessor, then, for the purpose of determining whether the successor employer has paid remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) with respect to employment equal to $3,000 to such individual during such calendar year, any remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) with respect to employment paid (or considered under this paragraph as having been paid) to such individual by such predecessor during such calendar year and prior to such acquisition shall be considered as having been paid by such successor employer;

(2) The amount of any payment (including any amount paid by an employer for insurance or annuities, or into a fund, to provide for any such payment) made to, or on behalf of, an employee or any of his dependents under a plan or system established by an employer which makes provision for his employees generally (or for his employees generally and their dependents) or for a class or classes of his employees (or for a class or classes of his employees and their dependents), on account of (A) retirement, or (B) sickness or accident disability, or (C) medical or hospitalization expenses in connection with sickness or accident disability, or (D) death;

(3) Any payment made to an employee (including any amount paid by an employer for insurance or annuities, or into a fund, to provide for any such payment) on account of retirement;

(4) Any payment on account of sickness or accident disability, or medical or hospitalization expenses in connection with sickness or accident disability, made by an employer to, or on behalf of, an employee after the expiration of six calendar months following the last calendar month in which the employee worked for such employer;

(5) Any payment made to, or on behalf of, an employee or his beneficiary (A) from or to a trust exempt from tax under section 165 (a) at the time of such payment unless such payment is made to an employee of the trust as remuneration for services rendered as such employee and not as a beneficiary of the trust, or (B) under or to an annuity plan which, at the time of such payment, meets the requirements of section 165 (a) (3), (4), (5), and (6);

(6) The payment by an employer (without deduction from the remuneration of the employee) (A) of the tax imposed upon an employee under section 1400, or (B) of any payment required from an employee under a State unemployment compensation law;

(7) Remuneration paid in any medium other than cash to an employee for service not in the course of the employer's trade or business;

(8) Any payment (other than vacation or sick pay) made to an employee after the month in which he attains the age of sixty-five, if he did not work for the employer in the period for which such payment is made;

(9) Dismissal payments which the employer is not legally required to make.

(2) The amendment made by paragraph (1) shall be applicable only with respect to remuneration paid after 1950. In the case of remuneration paid prior to 1951, the determination under section 1607 (b) (1) of the Internal Revenue Code (prior to its amendment by this Act) of whether or not such remuneration constituted wages shall be made as if paragraph (1) of this subsection had not been enacted and without inferences drawn from the fact that the amendment made by paragraph (1) is not made applicable to periods prior to 1951.

(3) Effective with respect to remuneration paid after December 31, 1951, section 1607 (b) of the Internal Revenue Code is amended by changing the semicolon at the end of paragraph (8) to a period and by striking out paragraph (9) thereof.

PAR. 22. Section 403.227 (a), as amended by Treasury Decision 5805, approved August 30, 1950, is further amended as follows:

(A) By striking out in the first sentence "and as further amended" and inserting in lieu thereof "and as amended".

(B) By striking out the period at the end of the first sentence and inserting in lieu thereof a comma and the following: "and as further amended, effective January 1, 1951, by section 209 (a) of the Social Security Act Amendments of 1950."

(C) By striking out the second sentence and inserting in lieu thereof the following: "This section of the regulations applies with respect only to remuneration paid on or after January 1, 1940, for employment performed after December 31, 1938. Section 403.228 (relating to exclusions from wages) applies with respect only to remuneration paid on or after January 1, 1940, and prior to January 1, 1951, for employment performed after December 31, 1938. Section 403.228a (relating to exclusions from wages) applies with respect only to remuneration paid on or after January 1, 1951, for employment performed after December 31, 1938."

(D) By striking out in the subparagraph (2) "(see § 403.228)" and inserting in lieu thereof "(see §§ 403.228 and 403.228a)".

(E) By striking out in the first sentence of the fifth paragraph the words "The medium" and inserting in lieu thereof the following: "Except in the case of remuneration paid for services not in the course of the employer's trade or business (see § 403.228a (g)), the medium".

PAR. 23. Section 403.228, as amended by Treasury Decision 5566, is further amended as follows:

(A) By striking out the section heading and inserting in lieu thereof the following: "§ 403.228 *Exclusions from wages with respect to remuneration paid prior to January 1, 1951*—".

(B) By adding at the end of the text which immediately precedes the examples in both subdivision (iv) of § 403.228 (a) (2) and subdivision (iv) of § 403.228 (a) (3) the following sentence: "(In connection with the application of the $3,000 limitation, see also section 209 (e) of the Social Security Act Amendments of 1950, set forth preceding § 403.602, relating to certain circumstances under which a predecessor employer and his successor are treated as one employer.)"

(C) By adding at the end of such section the following:

(f) *Applicability of section.* The provisions of this section do not apply with respect to remuneration paid after December 31, 1950.

§ 403.228a *Exclusions from wages with respect to remuneration paid after December 31, 1950*—(a) *$3,000 limitation*—(1) *In general.* (i) The term "wages" does not include that part of the remuneration paid within any calendar year beginning after December 31, 1950, by an employer to an employee which exceeds the first $3,000 of remuneration (exclusive of remuneration excepted from wages in accordance with paragraphs (b) through (j) of this section) paid within such calendar year by such employer to such employee for employment performed for him at any time after December 31, 1938.

(ii) The $3,000 limitation applies only if the remuneration paid during any one calendar year by an employer to the same employee for employment performed after 1938 exceeds $3,000. The limitation in such case relates to the amount of remuneration paid during any one calendar year for employment after 1938 and not to the amount of remuneration for employment performed in any one calendar year.

Example (1). Employer B, in 1951, pays employee A $2,500 on account of $3,000 due him for employment performed in 1951. In 1952 employer B pays employee A the balance of $500 due him for employment performed in the prior year (1951), and thereafter in 1952 also pays A $3,000 for employment performed in 1952. The $2,500 paid in 1951 is subject to tax in 1951. The balance of $500 paid in 1952 for employment during 1951 is subject to tax in 1952, as is also the first $2,500 paid of the $3,000 for employment during 1952 (this $500 for 1951 employment added to the first $2,500 paid for 1952 employment constitutes the maximum wages which could be paid in 1952 by B to A). The final $500 paid by B to A in 1952 is not included as wages and is not subject to the tax.

(iii) If during a calendar year an employee is paid remuneration by more than one employer, the limitation of wages to the first $3,000 of remuneration paid applies, not to the aggregate remuneration paid by all employers with respect to employment performed after 1938, but instead to the remuneration paid during such calendar year by each employer with respect to employment performed after 1938. In such case the first $3,000 paid during the calendar year by each employer constitutes wages and is subject to the tax. (In connection with the application of the $3,000 limitation, see also subparagraph (2) of this paragraph, relating to the circumstances under which wages paid by a predecessor employer are deemed to be paid by his successor.)

Example (2). During 1951 employer D pays to employee C a salary of $600 a month for employment performed for D during the first seven months of 1951, or total remuneration of $4,200. At the end of the fifth month C has been paid $3,000 by employer D, and only that part of his total remuneration from D constitutes wages subject to the tax. The $600 paid to employee C by employer D in the sixth month, and the like amount paid in the seventh month, are not included as wages and are not subject to the tax. At the end of the seventh month C leaves the employ of D and enters the employ of E. Employer E pays to C remuneration of $600 a month in each of the remaining five months of 1951, or total remuneration of $3,000. The entire $3,000 paid by E to employee C constitutes wages and is subject to the tax. Thus, the first $3,000 paid by employer D and the entire $3,000 paid by employer E constitute wages.

Example (3). During the calendar year 1951 F is simultaneously an officer (an employee) of the X Corporation, the Y Corporation, and the Z Corporation, each such corporation being an employer for such year. During such year F is paid a salary of $3,000 by each corporation. Each $3,000 paid to F by each of the corporations, X, Y, and Z (whether or not such corporations are related), constitutes wages and is subject to the tax.

(2) *Wages paid by predecessor attributed to successor.* (i) If an employer (hereinafter referred to as a successor) during any calendar year beginning after December 31, 1950, acquires substantially all the property used in a trade or business of another employer (hereinafter referred to as a predecessor), or used in a separate unit of a trade or business of a predecessor, and if immediately after the acquisition the successor employs in his trade or business an individual who immediately prior to the acquisition was employed in the trade or business of such predecessor, then, for purposes of the application of the $3,000 limitation set forth in subparagraph (1) of this paragraph, any remuneration (exclusive of remuneration excepted from wages in accordance with paragraphs (b) through (j) of this section) with respect to employment paid (or considered under this provision as having been paid) to such individual by such predecessor during such calendar year and prior to such acquisition shall be considered as having been paid by such successor. Wages paid by a predecessor shall not be considered as having been paid by the successor unless both the predecessor and the successor are employers as defined in section 1607 (a) of the Act for the calendar year in which the acquisition occurs (see § 403.205, relating to who are employers).

(ii) The wages paid, or considered as having been paid, by a predecessor to an employee shall, for purposes of the $3,000 limitation, be treated as having been paid to such employee by a successor, if:

(*a*) The successor during a calendar year acquired substantially all the property used in a trade or business, or used in a separate unit of a trade or business, of the predecessor;

(*b*) Such employee was employed in the trade or business of the predecessor immediately prior to the acquisition and is employed by the successor in his trade or business immediately after the acquisition; and

(*c*) Such wages were paid during the calendar year in which the acquisition occurred and prior to such acquisition.

(iii) The method of acquisition of the property is immaterial. The acquisition may occur as a consequence of a corporate merger or consolidation, the incorporation of a business by a sole proprietor or a partnership, the continuance of the business without interruption by a new partnership resulting from the death or retirement of a former partner or the admission of a new partner, or a purchase or any other transaction whereby substantially all the property used in a trade or business, or used in a separate unit of a trade or business, of one employer is acquired by another employer.

(iv) Substantially all the property used in a separate unit of a trade or business may consist of substantially all the property used in the performance of an essential operation of the trade or business, or it may consist of substantially

all the property used in a relatively self-sustaining entity which forms a part of the trade or business.

Example (1). The M Corporation which is engaged in the manufacture of automobiles, including the manufacture of automobile engines, discontinues the manufacture of the engines and transfers all the property used in such manufacturing operation to the N Company. The N Company is considered to have acquired a separate unit of the trade or business of the M Corporation, namely, its engine manufacturing unit.

Example (2). The R Corporation which is engaged in the operation of a chain of grocery stores transfers one of such stores to the S Company. The S Company is considered to have acquired a separate unit of the trade or business of the R Corporation.

(v) A successor may receive credit for wages paid to an employee by a predecessor only if immediately prior to the acquisition the employee was employed by the predecessor in his trade or business which was acquired by the successor and if immediately after the acquisition such employee is employed by the successor in his trade or business (whether or not in the same trade or business in which the acquired property is used). If the acquisition involves only a separate unit of a trade or business of the predecessor, the employee need not have been employed by the predecessor in that unit provided he was employed in the trade or business of which the acquired unit was a part.

(vi) The application of the foregoing provisions may be illustrated by the following example:

Example (3). The Y Corporation in 1951 acquires all the property of the X Manufacturing Company and immediately after the acquisition employs in its trade or business employee A, who, immediately prior to the acquisition, was employed by the X Company. Both the Y Corporation and the X Company are employers, as defined in the act, for the calendar year 1951. The X Company has in 1951 (the calendar year in which the acquisition occurs) and prior to the acquisition paid $2,000 of wages to A. The Y Corporation in 1951 pays to A remuneration with respect to employment of $2,000. Only $1,000 of such remuneration is considered to be wages. For the purposes of the $3,000 limitation, the Y Corporation is credited with the $2,000 paid to A by the X Company. If, in the same calendar year, the property is acquired from the Y Corporation by the Z Company, an employer for such year, and A immediately after the acquisition is employed by the Z Company in its trade or business, no part of the remuneration paid to A by the Z Company in the year of the acquisition will be considered to be wages. The Z Company will be credited with the remuneration paid to A by the Y Corporation and also with the wages paid to A by the X Company (considered for purposes of the application of the $3,000 limitation as having also been paid by the Y Corporation).

(b) *Employers' plans providing for payments on account of retirement, sickness or accident disability, medical or hospitalization expenses, or death.* (1) The term "wages" does not include the amount of any payment (including any amount paid by an employer for insurance or annuities, or into a fund, to provide for any such payment) made to, or on behalf of, an employee or any of his dependents under a plan or system established by an employer which makes provision for his employees generally (or for his employees generally and their dependents) or for a class or classes of his employees (or for a class or classes of his employees and their dependents), on account of:

(i) An employee's retirement,

(ii) Sickness or accident disability of an employee or any of his dependents,

(iii) Medical or hospitalization expenses in connection with sickness or accident disability of an employee or any of his dependents, or

(iv) Death of an employee or any of his dependents.

(2) The plan or system established by an employer need not provide for payments on account of all of the specified items, but such plan or system may provide for any one or more of such items. Payments for any one or more of such items under a plan or system established by an employer solely for the dependents of his employees are not within this exclusion from wages.

(3) Dependents of an employee include the employee's husband or wife, children, and any other members of the employee's immediate family.

(4) It is immaterial for purposes of this exclusion whether the amount or possibility of such benefit payments is taken into consideration in fixing the amount of an employee's remuneration or whether such payments are required, expressly or impliedly, by the contract of service.

(c) *Retirement payments.* The term "wages" does not include any payment made by an employer to an employee (including any amount paid by an employer for insurance or annuities, or into a fund, to provide for any such payment) on account of the employee's retirement. Thus, payments made to an employee on account of his retirement are excluded from wages under this exception even though not made under a plan or system.

(d) *Payments on account of sickness or accident disability, or medical or hospitalization expenses.* The term "wages" does not include any payment made by an employer to, or on behalf of, an employee on account of the employee's sickness or accident disability or the medical or hospitalization expenses in connection with the employee's sickness or accident disability, if such payment is made after the expiration of six calendar months following the last calendar month in which such employee worked for such employer. Such payments are excluded from wages under this exception even though not made under a plan or system. If the employee does not actually perform services for the employer during the requisite period, the existence of the employer-employee relationship during that period is immaterial.

(e) *Payments from or to certain tax-exempt trusts or under or to certain annuity plans.* The term "wages" does not include—

(1) Any payment made by an employer, on behalf of an employee or his beneficiary, into a trust or annuity plan, if at the time of such payment the trust is exempt from tax under section 165 (a) of the Internal Revenue Code or the annuity plan meets the requirements of section 165 (a) (3), (4), (5), and (6) of the Internal Revenue Code; or

(2) Any payment made to, or on behalf of, an employee or his beneficiary from a trust or under an annuity plan, if at the time of such payment the trust is exempt from tax under section 165 (a) of the Code or the annuity plan meets the requirements of section 165 (a) (3), (4), (5), and (6) of the Code.

A payment made to an employee of a trust exempt from tax under section 165 (a) of the Code for services rendered as an employee of such trust and not as a beneficiary of the trust is not within this exclusion from wages.

(f) *Payment by an employer of employees' tax or employees' contributions under a State law.* The term "wages" does not include any payment by an employer (without deduction from the remuneration of, or other reimbursement from, the employee) of either (1) the employee tax imposed by section 1400 of the Federal Insurance Contributions Act, or (2) any payment required from an employee under a State unemployment compensation law.

(g) *Payments other than in cash for services not in the course of employer's trade or business.* The term "wages" does not include remuneration paid in any medium other than cash for services not in the course of the employer's trade or business. Cash remuneration includes checks and other monetary media of exchange. Remuneration paid in any medium other than cash, such as lodging, food, or other goods or commodities, for services of the prescribed character does not constitute wages. Remuneration paid in any medium other than cash for other types of services does not come within this exclusion from wages. For provisions relating to the circumstances under which services not in the course of the employer's trade or business do not constitute employment, see § 403.210.

(h) *Payments to stand-by employees.* The term "wages" does not include any payment (other than vacation or sick pay) made by an employer to an employee after the calendar month in which the employee attains age 65, if:

(1) Such employee does no work (other than being subject to call for the performance of work) for such employer in the period for which such payment is made; and

(2) The employer-employee relationship exists between the employer and employee throughout the period for which such payment is made.

Vacation or sick pay is not within this exclusion from wages. If the employee does any work for the employer in the period for which the payment is made, no remuneration paid by such employer to such employee with respect to such period is within this exclusion from wages. For example, if employee A is employed by the X Company on a stand-by basis and, after he has attained the age of 65, is paid $200 by the X Company for being subject to call during the month of January 1951 and an additional $25 for work performed for the X Company on one day during that month, then none of the $225 is excluded from wages under this exception.

(i) *Dismissal payments.* Any payment made by an employer to an employee on account of dismissal, that is, involuntary separation from the service of the employer, is excluded from "wages", provided the employer is not legally bound by contract, statute, or otherwise, to make such payment. This exclusion does not apply with respect to remuneration paid after December 31, 1951.

(j) *Miscellaneous.* In addition to the exclusions specified in paragraphs (a) through (i) of this section, the following types of payments are excluded from wages:

(1) Remuneration for services which do not constitute employment under section 1607 (c) of the act;

(2) Remuneration for services which are deemed not to be employment under section 1607 (d) of the act; and

(3) Tips or gratuities paid directly to an employee by a customer of an employer, and not accounted for by the employee to the employer.

(k) *Applicability of section.* The provisions of this section apply only with respect to remuneration paid after December 31, 1950.

PAR. 24. Section 403.302 is amended by striking out in the parenthetical cross reference "§§ 403.227 and 403.228" and by inserting in lieu thereof "§§ 403.227, 403.228, and 403.228a".

PAR. 25. Immediately preceding § 403.501, the following is inserted:

SECTION 207 (b) (1) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

Section 3312 of the Internal Revenue Code is amended by inserting immediately after the words "gift taxes" (which words immediately precede subsection (a) thereof) a comma and the following: "and except as otherwise provided in section 1635 with respect to employment taxes under subchapters A and D of chapter 9".

PAR. 26. Section 403.505 is amended by striking out the last sentence of paragraph (a) and inserting in lieu thereof the following sentence: "If filed within the prescribed time the statement so made will relieve the employer from liability for the addition to tax imposed for the delinquent filing of the return (see §§ 403.605 (a) and 403.605a, relating to the addition to tax), provided that, without unnecessary delay, such tentative return is supplemented by a return made on the proper form."

PAR. 27. Section 403.506 is amended by striking out in the fifth sentence "§ 403.605 (a)" and inserting in lieu thereof "§§ 403.605 (a) and 403.605a".

PAR. 28. Section 403.508 is amended by striking out in the last sentence "and 403.605" and inserting in lieu thereof "403.605, and 403.605a".

PAR. 29. Section 403.511 (a) (2) is amended by striking out "(see §§ 403.227 and 403.228)" and inserting in lieu thereof "(see §§ 403.227, 403.228, and 403.228a)".

PAR. 30. Immediately preceding § 403.602, the following is inserted:

SECTION 209 (e) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

If a corporation (hereinafter referred to as a predecessor) incorporated under the laws of one State is succeeded after 1945 and before 1951 by another corporation (hereinafter referred to as a successor) incorporated under the laws of another State, and if immediately upon the succession the business of the successor is identical with that of the predecessor and, except for qualifying shares, the proportionate interest of each shareholder in the successor is identical with his proportionate interest in the predecessor, and if in connection with the succession the predecessor is dissolved or merged into the successor, and if the predecessor and the successor are employers under the Federal Insurance Contributions Act and the Federal Unemployment Tax Act in the calendar year in which the succession takes place, then—

(1) The predecessor and successor corporations, for purposes only of the application of the $3,000 limitation in the definition of wages under such Acts, shall be considered as one employer for such calendar year, and

(2) The successor shall, subject to the applicable statutes of limitations, be entitled to a credit or refund, without interest, of any tax under section 1410 of the Federal Insurance Contributions Act or section 1600 of the Federal Unemployment Tax Act (together with any interest or penalty thereon) paid with respect to remuneration paid by the successor during such calendar year which would not have been subject to tax under such Acts if the remuneration had been paid by the predecessor.

PAR. 31. Section 403.603, as amended by Treasury Decision 5794, approved July 6, 1950, is further amended by striking out "provided by section 1631" and inserting in lieu thereof "imposed in certain cases for the delinquent payment of the tax (see § 402.605a, relating to the minimum addition to the tax)".

PAR. 32. Section 403.605 (a), as amended by Treasury Decision 5794, is further amended by striking out in the second sentence of subparagraph (1) "provided by section 1631" and inserting in lieu thereof "imposed for the delinquent filing of the return (see § 403.605a, relating to the minimum addition to the tax)".

PAR. 33. Immediately after the provisions of law under the caption "Section 6 of the Act of August 27, 1949 (Pub. Law 271, 81st Cong.)", added by Treasury Decision 5794, as set forth after § 403.605, the following is inserted:

SECTION 209 (d) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950

(1) Section 1631 of the Internal Revenue Code is amended to read as follows:

SEC. 1631. FAILURE OF EMPLOYER TO FILE RETURN.

In case of a failure to make and file any return required under this chapter within the time prescribed by law or prescribed by the Commissioner in pursuance of law, unless it is shown that such failure is due to reasonable cause and not to willful neglect, the addition to the tax or taxes required to be shown on such return shall not be less than $5.

(2) The amendment made by paragraph (1) shall be applicable only with respect to returns filed after December 31, 1950.

§ 403.605a *Minimum addition to the tax*—(a) *Returns filed prior to January 1, 1951.* (1) In the case of returns required to be filed or tax which becomes due on or after August 27, 1949, if a person fails to make and file a return required by the regulations in this part, or pay the tax, within the prescribed time, unless it is shown that the failure is due to reasonable cause and not to willful neglect, the addition to the tax required to be shown on such return shall not be less than $5. (See §§ 403.506 and 403.507, relating to the time for filing returns, and §§ 403.508 and 403.509, relating to the time for payment of tax.) This provision is to be applied in accordance with the following rules:

(i) In the case of failure to make and file a return within the prescribed time, the addition to the tax shall be computed as provided by section 3612 (d) (1) of the Internal Revenue Code (see § 403.605 (a)) and if less than $5 shall be increased to $5.

(ii) In the case of failure to pay the tax when due, the addition to the tax shall be computed as provided by section 1605 (b) of the act (see § 403.603) and if less than $5 shall be increased to $5.

(iii) In the case of concurrent failure to make and file the return and to pay the tax within the prescribed time, the ad valorem penalty provided by section 3612 (d) (1) of the Internal Revenue Code and the interest provided by section 1605 (b) of the act shall be aggregated and if less than $5 shall be increased to $5.

(2) The provisions of this paragraph apply only with respect to returns filed before January 1, 1951, and to the tax required to be shown on such returns.

(b) *Returns filed after December 31, 1950.* If a person fails to make and file a return required by the regulations in this part within the prescribed time, unless it is shown that the failure is due to reasonable cause and not to willful neglect, the addition to the tax required to be shown on such return shall not be less than $5. (See §§ 403.506 and 403.507, relating to the time for filing returns.) The addition to the tax shall be computed as provided by section 3612 (d) (1) of the Internal Revenue Code (see § 403.605 (a)) and if less than $5 shall be increased to $5. The provisions of this paragraph apply only with respect to returns filed after December 31, 1950.

PAR. 34. Section 411.604 is amended by striking out the last sentence of the first paragraph and inserting in lieu thereof the following sentence: "If filed within the prescribed time the statement so made will relieve the taxpayer from liability for the addition to tax imposed for the delinquent filing of the return (see §§ 411.905 (a) and 411.905a, relating to the addition to tax): *Provided*, That without unnecessary delay such tentative return is supplemented by a return made on the proper form."

PAR. 35. Section 411.605 is amended by striking out in the seventh sentence "§ 411.905 (a)" and inserting in lieu thereof "§§ 411.905 (a) and 411.905a".

PAR. 36. Section 411.606 is amended by striking out in the last sentence "and 411.905" and inserting in lieu thereof "411.905, and 411.905a".

PAR. 37. Section 411.903, as amended by Treasury Decision 5794, approved July 6, 1950, is further amended by striking out "provided by section 1631" and inserting in lieu thereof "imposed in certain cases for the delinquent payment of the tax (see § 411.905a, relating to the minimum addition to the tax)".

PAR. 38. Section 411.905 (a), as amended by Treasury Decision 5794, is further amended by striking out in the second sentence "provided by section 1631" and inserting in lieu thereof "imposed for the delinquent filing of the return (see § 411.905a, relating to the minimum addition to the tax)".

PAR. 39. Immediately after the provisions of law under the caption "Section 6 of the Act of August 27, 1949 (Pub. Law 271, 81st Cong.)", added by Treasury Decision 5794, as set forth after § 411.905, the following is inserted:

SECTION 209 (d) OF THE SOCIAL SECURITY ACT AMENDMENTS OF 1950 (PUBLIC LAW 734, 81ST CONGRESS)

(1) Section 1631 of the Internal Revenue Code is amended to read as follows:

SEC. 1631. FAILURE OF EMPLOYER TO FILE RETURN.

In case of a failure to make and file any return required under this chapter within the time prescribed by law or prescribed by the Commissioner in pursuance of law, unless it is shown that such failure is due to reasonable cause and not to willful neglect, the addition to the tax or taxes required to be shown on such return shall not be less than $5.

(2) The amendment made by paragraph (1) shall be applicable only with respect to returns filed after December 31, 1950.

§ 411.905a *Minimum addition to the tax*—(a) *Returns filed prior to January 1, 1951.* (1) In the case of returns required to be filed or tax which becomes due on or after August 27, 1949, if a person fails to make and file a return required by the regulations in this part, or pay the tax, within the prescribed time, unless it is shown that the failure is due to reasonable cause and not to willful neglect, the addition to the tax shall not be less than $5. (See § 411.605, relating to the time for filing returns, and § 411.606, relating to the time for payment of tax.) This provision is to be applied in accordance with the following rules:

(i) In the case of failure to make and file a return within the prescribed time, the addition to the tax shall be computed as provided by section 3612 (d) (1) of the Internal Revenue Code (see § 411.905 (a)) and if less than $5 shall be increased to $5.

(ii) In the case of failure to pay the tax when due, the addition to the tax shall be computed as provided by section 1530 (c) of the act (see § 411.903) and if less than $5 shall be increased to $5.

(iii) In the case of concurrent failure to make and file the return and to pay the tax within the prescribed time, the ad valorem penalty provided by section 3612 (d) (1) of the Internal Revenue Code and the interest provided by section 1530 (c) of the act shall be aggregated and if less than $5 shall be increased to $5.

(2) The provisions of this paragraph apply only with respect to returns filed before January 1, 1951, and to the tax required to be shown on such returns.

(b) *Returns filed after December 31, 1950.* If a person fails to make and file a return required by the regulations in this part within the prescribed time, unless it is shown that the failure is due to reasonable cause and not to willful neglect, the addition to the tax or taxes required to be shown on such return shall not be less than $5. (See § 411.605, relating to the time for filing returns.) The addition to the tax shall be computed as provided by section 3612 (d) (1) of the Internal Revenue Code (see § 411.905 (a)) and if less than $5 shall be increased to $5. The provisions of this paragraph apply only with respect to returns filed after December 31, 1950.

(53 Stat. 178, 183, 188, 467; 26 U. S. C. 1429, 1535, 1609, 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: May 27, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 52-6117; Filed, June 3, 1952; 8:49 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 22, Amdt. 47]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

INFORMATION REQUIRED IN REPORT UNDER SECTION 32, CLARIFICATIONS

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 47 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

Amendment 43 to Ceiling Price Regulation 22 effected, among other things, a change in the reporting provisions of section 32 to eliminate for certain manufacturers the requirement of filing OPS Public Forms No. 128 in connection with the establishment of ceiling prices under that section. However, in the preparation of the amendment certain errors of transcription were made. Automatic temperature controls, though listed in the Statement of Considerations to Amendment 43, was inadvertently omitted from the list of commodities in section 32 (g) (2). Also, in that list, certain specified exceptions to the heating and refrigeration equipment were inadvertently omitted. This amendment makes the necessary corrections.

In view of the corrective nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

1. Subparagraph (2) of paragraph (g) of section 32 is amended in the following respects:

(a) Insert as the first item in the list of commodities at the end of the subparagraph the words "Automatic temperature controls."

(b) Add after the words "heating equipment" the following: "except the following: Vented and unvented circulating space heaters, oil, gas, electric and coal fire; gas logs; portable utility room heaters; portable radiant heaters, gas or electric."

(c) Add after the words "Refrigeration equipment" the following: "except household refrigerators and home and farm freezers."

Subparagraph (2) of paragraph (g) of section 32, as amended, shall read as follows:

(2) *For certain products.* Your report for the commodities listed at the end of this subparagraph should state the name and address of your company; a description of the commodity being priced; the comparison commodity and an explanation why you have selected the comparison commodity as such; a description of the category in which the commodity being priced and the comparison commodity fall; your ceiling price to the largest buying class of purchaser of your comparison commodity, or if you are not now manufacturing it what this ceiling price would be; a detailed breakdown of the current unit direct cost of the comparison commodity, or what it would be; the gross margin, and the percentage markup over current unit direct cost for the comparison commodity; a detailed breakdown of the current unit direct cost of the commodity being priced; the ceiling price of the commodity being priced; delivery, discount, guaranty and servicing terms and conditions and differentials in effect for sales to all classes of purchasers with respect to the comparison commodity.

The commodities covered by this subparagraph are:

Automatic temperature controls.
Certain rubber products and chemicals, as defined in subparagraph (3) below.
Food products.
Heating equipment, except the following: vented and unvented circulating space heaters, oil, gas, electric and coal fire; gas logs; portable utility room heaters; portable radiant heaters, gas or electric.
Plumbing fixtures, fittings, valves and equipment.
Refrigeration equipment, except household refrigerators and home and farm freezers.
Textiles, yarns, threads, twines, cordage, nets, laces and fabrics.
Valves, except tire valves.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment will become effective on June 9, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 3, 1952.

[F. R. Doc. 52-6184; Filed, June 3, 1952, 11:31 a. m.]

[Ceiling Price Regulation 22, Supplementary Regulation 27]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 27—ADJUSTMENT OF CEILING PRICES FOR HAND-MADE HOUSEHOLD GLASSWARE

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 27 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation increases by 4 percent the ceiling prices established under CPR 22 for manufacturers of hand-made household glassware and hand-made blanks for household glassware. It is an interim measure, designed to give the industry the minimum relief to which it appears to be entitled pending completion of a formal industry-wide survey under the "85 percent Industry Earnings Standard". Upon completion of the survey, the percentage increase provided in this regulation will be revised in accordance with the requirements of that standard.

There are believed to be fewer than 60 manufacturers covered by this supplementary regulation. They are, for the most part, relatively small companies which manufacture luxury-type household glassware. The great bulk of household glassware, which is machine-made, is not affected.

Information received by the Office of Price Stabilization has clearly demonstrated that recent cost increases have reduced the earnings of this industry substantially below the minimum prescribed by the industry earnings standard. This reduction is particularly demonstrated by the fact that more than 10 percent of the manufacturers in the industry have filed meritorious applications under GOR 10. In each of these applications it appears the over-all operations of the manufacturer involved have been reduced below the break-even point. Although other manufacturers have not been as severely affected by these cost increases, they do appear to be entitled to at least the relief provided in this supplementary regulation.

Manufacturers who have exercised the option provided in Section 1, CPR 22 to retain their GCPR ceilings will not receive the benefit of this increase unless they elect to come under CPR 22 and comply with all the requirements of that regulation. Manufacturers who elect to establish ceiling prices pursuant to the "Capehart amendment" (SR 17 or SR 18, CPR 22) similarly may not use this supplementary regulation. However, manufacturers who have previously adjusted their ceiling prices under SR 17 or SR 18 may, if they wish, take advantage of the provisions of this supplementary regulation by filing with OPS requests that their applications under SR 17 or SR 18 be deemed withdrawn as to the products covered by this supplementary regulation.

In the formulation of this regulation there has been consultation with industry representatives, including the industry advisory committee and trade association representatives, and consideration has been given to their recommendations.

In the judgment of the Director the provisions of this ceiling price regulation are generally fair and equitable; are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended; and comply with the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Adjusted ceiling prices for glassware dealt in between July 1, 1949 and June 24, 1950.
3. Adjustment of ceiling prices previously established under Sections 30 to 34 of CPR 22.
4. Adjusted ceiling prices for all other glassware.
5. Terms and conditions of sale.
6. Reports.
7. Relationship of this supplementary regulation to SR 17 and SR 18 of CPR 22, and GOR 10.

AUTHORITY: Sections 1 to 7 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950; 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation adjusts upward manufacturers' ceiling prices established under CPR 22 or under SR 2 to CPR 22 for hand-made household glassware and hand-made blanks for household glassware. Household glassware and blanks for household glassware are "hand-made" if they are gathered from a furnace by hand, and mouth-blown or hand-pressed. All provisions of CPR 22 and of SR 2 to CPR 22 not inconsistent with this supplementary regulation remain applicable to sellers covered by this supplementary regulation.

SEC. 2. *Adjusted ceiling prices for glassware dealt in between July 1, 1949 and June 24, 1950.* Your ceiling prices for hand-made household glassware or for hand-made blanks for household glassware, which you sold or offered for sale between July 1, 1949 and June 24, 1950, are 104 percent of your ceiling prices established under either section 3 of CPR 22 or under SR 2 to CPR 22.

SEC. 3. *Adjustment of ceiling prices previously established under Sections 30 to 34 of CPR 22.* Your ceiling prices for handmade household glassware and hand-made blanks for household glassware for which ceiling prices were established under Sections 30, 31, 32, 33, or 34 of CPR 22 prior to the effective date of this supplementary regulation are 104 percent of the ceiling prices previously established by you under those sections of CPR 22.

SEC. 4. *Adjusted ceiling prices for all other glassware.* If you are unable to establish a ceiling price for any sale of hand-made household glassware or hand-made blanks for household glassware under the previous sections, you must establish a ceiling price for such sale in accordance with Section 30, 31, 32, 33 or 34 of CPR 22. A number of these sections require you in varying ways to determine a ceiling price by reference to the ceiling price of another commodity called here, for convenience, your "reference commodity". In applying these sections, use as the ceiling price for the reference commodity a ceiling price determined under this supplementary regulation.

SEC. 5. *Terms and conditions of sale.* A ceiling price established under this supplementary regulation must be consistent in every respect with the CPR 22 ceiling price or the SR 2 to CPR 22 ceiling price adjusted by this supplementary regulation. It must carry the same delivery terms, cash, trade and volume discounts, allowances, premiums and extras, deductions, guarantees and other terms and conditions of sale.

SEC. 6. *Reports.* Prior to using this supplementary regulation you must have complied with the reporting requirements of Sections 46 and 48, CPR 22. If you have filed an OPS Public Form No. 8 in compliance with these sections of CPR 22, you need not amend your Form 8 to reflect the adjustment authorized by this supplementary regulation.

SEC. 7. *Relationship of this supplementary regulation to SR 17 and SR 18 of CPR 22 and GOR 10.* (a) Notwithstanding any provisions of this supplementary regulation, you may elect to use SR 17 or SR 18 to CPR 22, to establish your ceiling prices for hand-made household glassware or hand-made blanks for household glassware. If you so elect, you may not use this supplementary regulation. If you are using SR 2 to CPR 22 to help find your adjusted ceiling prices for base period commodities under Section 2 of this supplementary regulation, you must use a labor cost adjustment factor and a materials cost adjustment factor calculated under CPR 22, and you may not include an overhead adjustment factor in calculating your SR 2 ceiling prices.

(b) If prior to the effective date of this supplementary regulation you established ceiling prices under either SR 17 or SR 18 to CPR 22, you may not use this supplementary regulation until you have filed a request to withdraw your OPS Public Form 100 or 105 for the commodities covered by this supplementary regulation. Such request should be sent by registered mail, return receipt requested, to the Consumer Durable Goods Division, Office of Price Stabilization, Washington 25, D. C. You may use this supplementary regulation immediately upon return of your return receipt.

(c) If your ceiling prices have been adjusted by order of the Director of Price Stabilization under General Overriding Regulation 10, you may not use this supplementary regulation to establish your ceiling prices unless you first apply for, and receive from the Director, a revocation of that order.

Effective date. This supplementary regulation shall become effective June 3, 1952.

NOTE: The reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 3, 1952.

[F. R. Doc. 52-6190; Filed, June 3, 1952, 4:00 p. m.]

[Ceiling Price Regulation 34, Amdt. 1 to Supplementary Regulation 8, Power Laundries in Cook County, Illinois]

CPR 34—SERVICES

SR 8—POWER LAUNDRIES IN COOK COUNTY, ILLINOIS

COMPUTATION OF INCREASE AND FILING REQUIREMENTS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to Supplementary Regulation 8 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 1 to Supplementary Regulation 8 to Ceiling Price Regulation 34 clarifies the computation of ceiling price increases granted by this supplementary regulation. Under Supplementary Regulation 8 power laundries in Cook County, Illinois, are granted a 5 percent increase in ceiling prices for certain power laundry services. Affected service sellers have the choice of adding the percent increase to each invoice or of increasing the flat price of each article by the permitted 5 percent. In both cases, there will be many instances when the new ceiling price will consist of a fraction of a cent. It is necessary, therefore, to add to the regulatory provisions of the regulation a new paragraph setting forth instructions on how to determine the ceiling price in these cases.

In addition, there is some ambiguity as to the applicability of the supplementary filing requirement of section 18 (c) of Ceiling Price Regulation 34. Section 3 (a) of Supplementary Regulation 8 is amended to show clearly that a supplementary filing is not required of power laundries which add the 5 percent increase to each invoice.

In view of the clarifying nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Supplementary Regulation 8 to Ceiling Price Regulation 34 is amended in the following respects:

1. The second sentence of the third paragraph of the Statement of Considerations is deleted.

2. Paragraph (a) of section 3 is amended by adding at the end thereof a new sentence to read as follows: "If you use this method of applying your price increase you need not make the supplementary filing required by section 18 (c) of Ceiling Price Regulation 34."

3. Paragraph (b) of section 3 is amended by deleting the second sentence thereof.

4. A new paragraph (c) is added to section 3 to read as follows:

(c) If the increase computed in paragraphs (a) or (b) of this section results in a fraction of a cent, the ceiling price must be decreased to the next lower cent if the fractional cent is less than one-half cent, or may be increased to the next higher cent if the fraction is one-half cent or more.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Supplementary Regulation 8 to Ceiling Price Regulation 34 is effective June 9, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 3, 1952.

[F. R. Doc. 52-6185; Filed, June 3, 1952; 11:31 a. m.]

[Ceiling Price Regulation 34, Amdt. 1 to Supplementary Regulation 15]

CPR 34—SERVICES

SR 15—POWER LAUNDRIES IN MILWAUKEE COUNTY, WISCONSIN

COMPUTATION OF INCREASE AND FILING REQUIREMENTS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to Supplementary Regulation 15 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 1 to Supplementary Regulation 15 to Ceiling Price Regulation 34 clarifies the computation of ceiling price increases granted by this supplementary regulation. Under Supplementary Regulation 15 power laundries in Milwaukee County, Wisconsin, are granted a 5 percent increase in ceiling prices for certain power laundry services. Affected service sellers have the choice of adding the percent increase to each invoice or of increasing the flat price of each article by the permitted 5 percent. In both cases, there will be many instances when the new ceiling price will consist of a fraction of a cent. It is necessary, therefore, to add to the regulatory provisions of the regulation a new paragraph setting forth instructions on how to determine the ceiling price in these cases.

In addition, there is some ambiguity as to the applicability of the supplementary filing requirement of section 18 (c) of Ceiling Price Regulation 34. Section 3 (a) of Supplementary Regulation 15 is amended to show clearly that a supplementary filing is not required of power laundries which add the 5 percent increase to each invoice.

In view of the clarifying nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Supplementary Regulation 15 to Ceiling Price Regulation 34 is amended in the following respects:

1. The second sentence of the third paragraph of the Statement of Consideration is deleted.

2. Paragraph (a) of section 3 is amended by adding at the end thereof a new sentence to read as follows: "If you use this method of applying your price increase you need not make the supplementary filing required by section 18 (c) of Ceiling Price Regulation 34."

3. Paragraph (b) of section 3 is amended by deleting the second sentence thereof.

4. A new paragraph (c) is added to section 3 to read as follows:

(c) If the increase computed in paragraph (a) or (b) of this section results in a fraction of a cent, the ceiling price must be decreased to the next lower cent if the fractional cent is less than one-half cent, or may be increased to the next higher cent if the fraction is one-half cent or more.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Supplementary Regulation 15 to Ceiling Price Regulation 34 is effective June 9, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 3, 1952.

[F. R. Doc. 52-6186; Filed, June 3, 1952, 11:31 a. m.]

[Ceiling Price Regulation 34, Supplementary Regulation 17]

CPR 34—SERVICES

SR 17—FUR DRESSERS SERVICES IN NEW YORK CITY AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Supplementary Regulation 17 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Supplementary Regulation 17 to Ceiling Price Regulation 34, as amended, permits fur dressers in the counties of Bronx, Kings, New York and Queens in the State of New York and in the counties of Hudson and Somerset in the State of New Jersey (hereinafter referred to as the New York City area) to increase their present ceiling prices for fur dressing services by eight percent. The services supplied by fur dressers in the New York City area have been provided at uniform prices for similar services performed on similar furs for many years antedating the issuance of Ceiling Price Regulation 34. There are 18 firms providing fur dressing services in the New York City area. A study of the operating costs and profit margins of a representative number of these fur dressing firms, accounting for approximately 80 percent of total fur dressing sales in this area, reveals that they are suffering an impairment of their pre-Korean earnings as a result of recent increased labor costs which have been incurred. The uniform adjustment authorized for these sellers has been computed in accordance with the standards for individual adjustments in section 20 of Ceiling Price Regulation 34.

The existence of uniform prices, standardized service and generally comparable earnings experience facilitate the area order pricing technique. In the formulation of this regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. In the judgment of the Director of the Office of Price Stabilization the increases permitted by this supplementary regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Relationship to Ceiling Price Regulation 34.
3. Establishment of ceiling prices.
4. Application of section 20 of Ceiling Price Regulation 34.
5. Definitions.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This regulation permits fur dressers in the counties of Bronx, Kings, New York and Queens in the State of New York and in the countries of Hudson and Somerset in the State of New Jersey to increase their charges for fur dressing services.

SEC. 2. *Relationship to Ceiling Price Regulation 34.* All provisions of Ceiling Price Regulation 34, as amended, except as affected by the provisions of this supplementary regulation shall remain in effect.

SEC. 3. *Establishment of ceiling prices.* You may to the extent you supply fur dressing services in the counties of Bronx, Kings, New York and Queens in the State of New York and in the counties of Hudson and Somerset in the State of New Jersey, increase your ceiling prices for fur dressing services by eight percent by either one or the other of the following methods:

(a) You may apply such an increase to the total amount of each invoice rendered to the customer computed on the basis of your ceiling prices under CPR 34 prior to the increase permitted under this supplementary regulation: *Provided*, That you clearly write or stamp on each invoice the words "OPS permitted price increase", and you need not file your new ceiling prices pursuant to section 18 (c) of Ceiling Price Regulation 34; or

(b) You may increase by eight percent the ceiling price of each fur dressing service which you supply and you must file your new ceiling prices pursuant to section 18 (c) of Ceiling Price Regulation 34.

Whichever method you use, if the increase results in a fraction of a cent, the price must be decreased to the next lower cent if the fractional cent is less than one-half cent, or may be increased to the next higher cent if the fraction is one-half cent or more.

SEC. 4. *Application of section 20 of Ceiling Price Regulation 34.* No seller subject to this supplementary regulation may, after the effective date of this supplementary regulation, apply under section 20 of Ceiling Price Regulation 34 for an adjustment of any ceiling prices established under this supplementary regulation.

SEC. 5. *Definitions.* (a) As used in this supplementary regulation to Ceiling Price Regulation 34:

(1) The term "fur dressing services" means the folowing operations performed upon raw, i. e., unprocessed, fur-bearing skins and hides, except such operations performed upon "Persian Lamb skins and hides"; soaking and drumming the whole skins to make the same soft, clean, pliable and eliminating and preventing matting of the hair side of the fur; skinning, scraping and fleshing the under or flesh side of the skin and hide to remove excess flesh and fatty substances; and plucking to remove long, stiff and unsightly hairs from the face or fur side of the skin. Fur dressing does not include dyeing or shearing of the fur or fur-bearing skins and hides.

(2) The term "You" means a person who has a fur dressing establishment in any of the counties of Bronx, Kings, New York and Queens in the State of New York or Hudson and Somerset in the State of New Jersey, and shall otherwise have the same meaning as in section 27 (a) (18) of Ceiling Price Regulation 34.

Effective date. This Supplementary Regulation 17 to Ceiling Price Regulation 34 shall become effective June 2, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

JUNE 2, 1952.

[F. R. Doc. 52-6161; Filed, June 2, 1952; 4:17 p. m.]

[Ceiling Price Regulation 119, Amdt. 2]

CPR 119—MECHANICAL PRECISION SPRINGS, METAL STAMPINGS AND SCREW MACHINE PRODUCTS

SMALL ORDER EXEMPTION FOR NEW SELLERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this Amendment 2 to Ceiling Price Regulation 119 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment extends to sellers covered by this regulation who were not in business for three consecutive months prior to January 31, 1951, an exemption for small orders similar to that granted to other sellers by section 2. In addition, clarification of the coverage of the regulation and the small order exemption period is made.

Section 2 of Ceiling Price Regulation 119 provides a small order exemption for the manufacturers of mechanical precision springs, metal stampings and screw machine products who were in business during the period February 1, 1950, through January 31, 1951. However, no provisions were made for manufacturers who were not doing business in that period. In order to afford to the new manufacturers treatment similar to that given to established firms, the small order exemption is extended.

New manufacturers who wish to avail themselves of the small order exemptions must use their first three months of operations as a basis for determining the limit of exemptions for subsequent calendar quarters. At the expiration of one year in business, the new manufacturer may, upon written notice to the Office of Price Stabilization, select any three consecutive months during the first year of operations in lieu of the first three months as a criterion for small order exemptions.

This amendment also changes the language used in section 2 to make it clear that anyone applying for small order exemptions may choose any three consecutive months in the period February 1, 1950, through January 31, 1951, in which the highest total dollar amount of exempted sales were experienced. The exemptions in subsequent calendar quarters will be limited accordingly.

In view of the clarifying nature of this amendment, special circumstances have rendered consultation with industry representatives including trade association representatives impracticable. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Section 2 of CPR 119 is amended to read as follows:

SEC. 2. *Small order exemption*—(a) *Exemptions.* If you file the report required by paragraph (c) of this section and your net sales price for a particular sale is less than the amount set forth below, the sale is not subject to the provisions of this regulation or any other regulation previously issued by the Office of Price Stabilization.

Mechanical precision springs	$200.00
Metal stampings	500.00
Screw machine products	400.00

(b) *Limitations.* (1) You may select any three consecutive months during the period February 1, 1950, through January 31, 1951, as a basis for determining the limit of your exemptions under this section. If, after the effective date of this regulation, the total amount which you charge during any calendar quarter for exempted sales equals the highest total amount which you charged for such sales in the three consecutive months which you have selected, the exemptions set forth in this section shall not apply to any of your subsequent sales during the calendar quarter involved.

(2) If you are unable to select a three consecutive month period under this sec-

tion because you were not in business for three months during the period February 1, 1950, through January 31, 1951, the total amount of exempted sales during any calendar quarter may not exceed the total amount of such sales during your first three months in business. At the expiration of your first year in business, you may, for the purposes of the exemptions permitted by this paragraph, choose any other three consecutive months during your first year of operations provided you notify the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., in writing, of your selected period, and your total dollar value of sales exempted by this paragraph for that period.

(c) *Reports.* The exemptions set forth in paragraph (a) of this section shall not be applicable to you until you file with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., a report by registered mail. This report may be filed on OPS Form 129, which may be obtained from your nearest OPS Office. This report shall contain the following information:

(1) The three consecutive months in the period February 1, 1950, through January 31, 1951, in which you had the highest total dollar amount of sales exempted by paragraph (a). If you were not in business for three consecutive months during that period, your first three months in business.

(2) Your total dollar value of sales exempted by paragraph (a) for the three consecutive months which you have selected.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 2 shall become effective on June 9, 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 3, 1952.

[F. R. Doc. 52-6191; Filed, June 3, 1952; 4:00 p. m.]

[Ceiling Price Regulation 146]

CPR 146—CEILING PRICES FOR SALES OF WOOL GREASE AND LANOLIN BY MANUFACTURERS AND PROCESSORS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 146 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes uniform dollars-and-cents ceiling prices for sales of all grades of wool grease and lanolin by manufacturers and processors thereof. It is applicable in the 48 States of the United States and the District of Columbia. Imported wool grease and lanolin remain controlled by CPR 31, and sales for export and export sales continue to be governed by CPR 61.

Wool grease is a by-product of the scouring process necessary to clean wool before it can be made into yarns and textiles. Lanolin is a refined form of wool grease. Woolen textile mills are the chief producers of crude wool grease, and sell most of their production to refiners, who convert the wool grease into neutral wool grease, lanolin and other products. Crude wool grease production represents a relatively small industry, the total annual production of which amounts to not more than 12,000,000 pounds, or approximately $1,900,000 per annum. The total annual production of lanolin is estimated to be not more than 5,200,000 pounds, or approximately $1,800,000 per annum.

Wool grease and certain of its end products have specific military uses. It is important to national defense that an adequate supply be maintained, since the unique physical and chemical properties of wool grease and lanolin make substitution for them difficult or impossible.

Sales of wool grease and lanolin have been governed by the General Ceiling Price Regulation. Ceiling Price Regulation 22 was made inapplicable to them by the specific exclusion of "wool grease" from that regulation. Subsequently, the term "wool grease" was interpreted as covering both crude and refined forms of wool grease, including lanolin.

Under the General Ceiling Price Regulation, prices for the sales of wool grease and lanolin were frozen at the December 19, 1950–January 25, 1951 level. During this period, some producers delivered only pursuant to contracts negotiated during the pre-Korean period and at pre-Korean prices; others sold "spot" at the higher prices which then prevailed. Industry representatives notified the Director of Price Stabilization that as a result of this situation, certain inequities and disparities in industry ceiling prices existed which not only caused hardship for those producers frozen at pre-Korea price levels, but also created confusion within the industry as well. Therefore, the establishment of uniform dollars-and-cents ceiling prices was urgently requested.

Consequently, the Director undertook to survey the industry in order to determine the range and variation in the General Ceiling Price Regulation ceiling prices. After analyzing the information and data thus obtained, the Director found evidence that serious inequities and disparities in ceiling prices did exist, which in his opinion should be reconciled. It appeared that the most impartial and equitable method for reconciling these price disparities was to establish uniform dollars-and-cents ceiling prices based on an average of General Ceiling Price Regulation ceiling prices for each grade of wool grease and lanolin, weighted according to 1951 production figures. Accordingly, this method was followed, and the dollars-and-cents ceiling prices for wool grease and lanolin thus obtained are set forth in section 2.

The grade differentials in the regulation cover the major grades of wool grease and lanolin now in general use in the industry, and have been selected at close enough intervals to reflect an accurate price scale. For any new grade or for any grade for which a specific ceiling price has not been listed in the regulation, producers must apply for an in-line ceiling price under section 4. Customary trade practices with particular reference to containers and package size price differentials, have been considered and have been incorporated into the regulation wherever possible.

The ceiling prices specified in the regulation apply to sales in containers of 400 pounds or more. For sales in smaller size containers a processor applies the same differentials, expressed in cents, which he used during the General Ceiling Price Regulation base period. Sellers may require reasonable deposits for the return of containers but must bear the transportation costs for such containers. Where containers are not to be returned, the seller may charge the reasonable value therefor. Sellers may not convert from a returnable container basis of sales to a non-returnable basis, with respect to a particular purchaser, without permission of the Director.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization, the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable, the Director of Price Stabilization gave due consideration to prices prevailing during the period January 25, 1951 to February 24, 1951, inclusive, and just before the issuance of this regulation; and to relevant factors of general applicability. Further, since the ceiling prices established by this regulation are based on an average of existing General Ceiling Price Regulation ceiling prices, no increase should result in the general level of prices to the consumer.

In the formulation of this regulation, there has been consultation with industry representatives, including trade association representatives, to the extent practicable and consideration has been given to their recommendations. This consultation included several meetings with the Wool Grease Industry Advisory Committee and the Lanolin Industry Advisory Committee as well as separate conferences with several producers of wool grease and lanolin.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

REGULATORY PROVISIONS

Sec.

13. Supplementary regulations.

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803 as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105. 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does—*(a) *Sellers and sales covered.* This regulation establishes ceiling prices for sales of all grades of wool grease and lanolin by the manufacturer or processor thereof.

(b) *Geographical applicability.* This regulation applies in the forty-eight States of the United States and in the District of Columbia.

(c) *Relation to other regulations.* This regulation supersedes the General Ceiling Price Regulation with respect to transactions covered by this regulation. Ceiling Price Regulation 31 applies to sales of imported wool grease and lanolin. Ceiling Price Regulation 61 applies to export sales of wool grease and lanolin and sales of wool grease and lanolin for export.

SEC. 2. *Ceiling prices—*(a) *Containers of 400 pounds and over.* The ceiling prices for sales by manufacturers and processors of wool grease and lanolin sold in containers of 400 pounds and over shall be the following prices, f. o. b. processing plant:

	Ceiling price per pound f. o. b. processing plant
(1) U. S. P. lanolin, special anhydrous cosmetic grade	$0.405
(2) U. S. P. lanolin, anhydrous cosmetic grade	.355
(3) U. S. P. lanolin, anhydrous pharmaceutical type	.335
(4) U. S. P. lanolin, hydrous pharmaceutical type	.320
(5) Technical lanolin, ash maximum 1/10 of 1 percent, moisture maximum 1/10 of 1 percent, acid maximum 3/4 of 1 percent	.310
(6) Neutral wool grease, fully refined, acid maximum 2 percent, ash maximum 1/10 of 1 percent, moisture maximum 1/10 of 1 percent	.305
(7) Neutral wool grease, fully refined, over 2 percent acid, ash maximum 1/10 of 1 percent, moisture maximum 1/10 of 1 percent	.300
(8) Crude centrifugal wool grease known as dry, moisture maximum 2 1/2 percent, ash maximum 3/4 of 1 percent, maximum 1 1/2 percent F. F. A., not refined	.200
(9) Crude centrifugal wool grease known as wet, over 5 percent moisture, maximum 2 1/2 percent F. F. A., not refined, anhydrous basis	.180
(10) Common Degras, moisture maximum 2 1/2 percent, 1/4 to 1 percent ash, maximum 11 percent F. F. A.	.120
(11) Common Degras, moisture maximum 2 1/2 percent, 1/4 to 1 percent ash, over 11 percent F. F. A.	$0.110
(12) Desulfurized wool grease:	
(a) Neutral wool grease, acid maximum 3 percent	.205
(b) Neutral wool grease, acid maximum 6 percent	.180
(c) Degras, acid 6–10 percent	.155
(d) Degras, acid 10 percent and above	.145

(b) *Containers of less than 400 pounds.* For sales in containers of less than 400 pounds, you determine your ceiling prices by applying to the ceiling prices set forth in paragraph (a) of this section the differentials, expressed in cents, which you had in effect during the period December 19, 1950 to January 25, 1951, inclusive.

SEC. 3. *Containers.* (a) Charges or deposits for containers may not be added to the ceiling prices established by this regulation except as permitted by this section.

(b) Sellers may require the return of containers of 100 pound size or larger. When sales are made in containers which are to be returned, the seller may require a reasonable deposit for the return of such containers, but the deposit must be refunded to the buyer upon return of the containers in good condition within a reasonable time. Transportation costs with respect to the return of empty containers to the seller for which a deposit has been charged shall in all cases be borne by the seller. If the seller permits the buyer to furnish his own containers the transportation costs with respect to sending the empty containers to the seller shall in all cases be borne by the seller. Where sales are made on a non-returnable container basis, the seller may charge the reasonable value of the container if the container is of 100 pound size or larger. In no event may the seller charge a price for a container greater than the net invoice cost of the container to him or the current market value of the container.

(c) After the effective date of this regulation, a seller may not convert from a returnable container basis of sales to a non-returnable container basis with respect to a particular purchaser without permission in writing by the Director of Price Stabilization. If you are a seller and wish to convert, you must apply to the Office of Price Stabilization, Rubber, Chemicals and Drugs Division, Washington 25, D. C. Your application should contain the following information: Your existing container practice with respect to the purchaser, the reasons for the proposed change in practice, and a statement that the change will not result, directly or otherwise, in a net price increase to the purchaser.

SEC 4. *Application for establishment of ceiling prices.* If for any reason you are unable otherwise to determine a ceiling price for the sale of wool grease or lanolin of a certain grade or in a certain size container under the provisions of this regulation, you must apply to the Office of Price Stabilization, Rubber, Chemicals and Drugs Division, Washington 25, D. C., for the establishment of a ceiling price. Any application pursuant to this section must refer to this section, must be signed by a duly authorized person and must contain the following information: Your business name and address; the location of your plant or plants; a description of the product you propose to sell; a statement of the reasons why you are otherwise unable to determine a ceiling price under this regulation; a proposed ceiling price; and a statement setting forth the cost data and other factors you used in determining such price. The Director will establish ceiling prices in line with other ceiling prices established under this regulation.

SEC. 5. *Modification of ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce any ceiling price proposed or established under this regulation so as to bring it into line with the level of ceiling prices otherwise established by this regulation.

SEC. 6. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1, Revision 2.

SEC. 7 *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver a commodity at a price to be adjusted upward in accordance with any increase in a ceiling price after delivery.

SEC. 8. *Transfer of business.* If, after the effective date of this regulation, you acquire the business, assets or stock-in-trade of any wool grease or lanolin processing business, and carry on the business, or continue to deal in wool grease or lanolin separately from any other establishment previously owned or operated by you, you shall have the same ceiling prices and be under the same obligations to keep records as the person from whom you acquired the business, assets or stock. If you are the person who transferred the business, assets or stock, you must either preserve and make available, or turn over to the transferee, copies of all your records which are necessary for him to comply with the ceiling price or record provisions of this regulation.

SEC. 9. *Tax provisions.* You may collect, in addition to the ceiling prices established in this regulation, any excise, sales, or similar tax imposed upon you by reason of your sales of any products covered by this regulation if you are not prohibited by law from making such collection and if you state separately from your selling price the amount of the tax collected.

SEC. 10. *Records—*(a) *Base period records.* You shall keep for inspection

by the Office of Price Stabilization for the life of the Defense Production Act of 1950, as amended, and for two years thereafter, those records in your possession showing the prices charged for wool grease and lanolin which you delivered or offered to deliver during the period December 19, 1950 to January 25, 1951, inclusive, and also sufficient records to establish the differentials which you had in effect during this period for sales of wool grease and lanolin in containers of less than 400 pounds.

(b) *Current records.* Every person who sells, and every person who, in the regular course of trade or business buys wool grease and lanolin covered by this regulation, shall make and keep for inspection by the Office of Price Stabilization for a period of two years, accurate records of each sale or purchase, the name and address of the seller and purchaser, and the price charged or paid, itemized by quantity, grade, or type. The records must indicate whether each purchase or sale is made on an f. o. b. shipping or basing point basis or on a delivered basis, and in the former case, the shipping or basing point and transportation charges unless delivery is by common carrier. Records must also show all premiums, discounts, allowances, and deposits or charges for containers. The retention by a purchaser of an invoice furnished by a seller shall be considered as compliance with the provisions of this section if the invoice contains the factual information required to be made a matter of record by this section.

SEC. 11. *Prohibition and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically (but not in limitation of the above), you shall not, regardless of any contract or other obligation, sell, and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling price established by this regulation, and you shall make and preserve true and accurate records and reports, required by this regulation.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and action for damages.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 12. *Evasions.* Any device which results in obtaining indirectly a higher price than is permitted by this regulation or in concealing or falsely representing information as to which this regulation requires records to be kept is a violation of this regulation. This prohibition includes, but is not limited to, devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 13. *Supplementary regulations.* The Director of Price Stabilization may issue supplementary regulations modifying this regulation as he deems appropriate.

Effective date. This Ceiling Price Regulation 146 shall become effective June 9, 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 3, 1952.

[F. R. Doc. 52-6187; Filed, June 3, 1952; 11:32 a. m.]

[Ceiling Price Regulation 147]

CPR 147—RUBBER CHEMICALS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 147 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes ceiling prices for sales of rubber chemicals in the United States, including sales by resellers, and supersedes the General Ceiling Price Regulation and Ceiling Price Regulation 22 with respect to all such sales. Sales of imported rubber chemicals and sales for export or export sales are left under the import and export regulations.

Rubber chemicals are synthetic organic chemicals used in the compounding and processing of both synthetic and natural rubber. The value of sales of rubber chemicals during 1950 amounted to $45,000,000 and production in that year amounted to 115 million pounds, an increase of 43 per cent over 1949 production.

Most rubber chemicals are sold by manufacturers to the industrial consumers of these chemicals. In some cases, however, they are sold through a reseller who receives a discount from the manufacturer's price for sales to the consumer. All manufacturers, in computing their ceiling prices under Ceiling Price Regulation 22, availed themselves of the provisions of Supplementary Regulation 2. In doing so they arrived at price adjustment factors to be applied to their ceiling prices established under the General Ceiling Price Regulation. These factors reflected changes in General Ceiling Price Regulation ceiling prices which are permitted or required by Ceiling Price Regulation 22 on the basis of increases in raw materials and labor costs.

The application of these factors resulted in considerable disparity in the ceiling prices among producers under Ceiling Price Regulation 22, due principally to the fact that there was a variance in the computed materials cost increases between integrated producers and non-integrated producers. Representatives of the industry, through the Industry Advisory Committee, have informed the Office of Price Stabilization that the substantial variance in ceiling prices resulting from the application of Ceiling Price Regulation 22 injects an abnormal factor in a market where the prices for the major tonnage bulk items sold to industrial users were substantially uniform. They have, therefore, requested that an industry-wide average price adjustment factor be determined and that ceiling prices be established for the industry, based on this average factor. The ceiling prices established in this regulation result from a determination of a weighted average factor derived from the individual price adjustment factors reported by the individual producers under Ceiling Price Regulation 22. The application of this factor to General Ceiling Price Regulation ceiling prices for the major tonnage bulk items sold to industrial users is expressed in dollar and cents ceiling prices in this regulation. These dollar and cents ceiling prices apply to all sales to industrial users of the specified rubber chemicals, and include delivery to Denver, Colorado, and points east. For sales of the named chemicals other than the type named in the dollar-and-cents ceiling price schedule, the regulation requires the application of the weighted average uniform increase factor—103.4 percent—to the producers' General Ceiling Price Regulation ceiling prices. The same technique is used with respect to sales of rubber chemicals other than those named.

Where a seller did not have a General Ceiling Price Regulation ceiling price for any type of sale where a fixed dollar and cents ceiling price is not established, he cannot of course avail himself of the technique of applying the uniform increase factor to his General Ceiling Price Regulation ceiling price. The regulation, therefore, makes special provisions for sellers who did not have established General Ceiling Price Regulation ceiling prices, including new sellers and sellers of new types of rubber chemicals.

An exception has been made in the application of the uniform increase factor to certain unique rubber chemicals manufactured by one producer, which have customarily commanded prices different from those of other rubber chemicals. This manufacturer had placed into effect increases in his prices, authorized by Ceiling Price Regulation 22. These increases represented only a portion of the authorized increases under CPR 22. Members of the Industry Advisory Committee therefore recommended that the manufacturer's existing price structure should not be disturbed, especially in view of the unique nature of his products. The regulation, in retaining that manufacturer's present selling prices, nevertheless establishes ceiling prices for his special products below those to which that manufacturer would have been entitled under Ceiling Price Regulation 22.

The industry-wide factor used in this regulation, and the ceiling prices established by the regulation, result from a study undertaken by the Office of Price Stabilization late in 1951. The ceilings, while higher than the ceilings previously in effect under the GCPR, are lower than the ceilings under Ceiling Price Regulation 22 applicable to producers representing a large percentage of total sales.

At the time the discussions with this industry began in 1951, the agency's industry earning standard was still in the process of development, and the early discussions with the manufacturers were on the basis of an industry-wide factor under Ceiling Price Regulation 22. In general, at this time, if ceiling price levels are represented to be no longer generally fair and equitable, the Office of Price Stabilization stands ready to give necessary price relief if a study of the industry indicates that such relief is required under the industry earning standard, or under a product standard applied on an industry-wide basis.

In the judgment of the Director of Price Stabilization the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

In the formulation of this regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. To the extent that any provisions of this regulation may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

13. Definitions.

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *Scope of this regulation.* This regulation establishes ceiling prices for sales of rubber chemicals in the 48 states of the United States and in the District of Columbia and supersedes the General Ceiling Price Regulation and Ceiling Price Regulation 22 with respect to all such sales. This regulation does not apply to sales of imported rubber chemicals or to export sales or sales for export. Ceiling Price Regulation 31 applies to the former (*Imports*) and Ceiling Price Regulation 61 applies to the latter (*Exports*).

SEC. 2. *Ceiling prices.* Your ceiling prices for sales of rubber chemicals within the scope of this regulation are those established in paragraphs (a) and (b) of this section, or by section 3.

(a) *Sales of certain rubber chemicals to industrial users.* Your ceiling prices for sales of the following rubber chemicals to industrial users in ton lots are as follows:

[Name of commodity and ceiling price per pound in ton lots, f. o. b. sellers' works; for deliveries in Denver, Colorado, and east of Denver minimum transportation charges to destination are included]

Accelerators of vulcanization:	
Acetaldehyde aniline (A–77)	$0.47
Acetaldehyde butyraldehyde aniline (A–100)	0.47
2,2'-benzothiazyl disulfide	0.435
Butyraldehyde aniline	0.61
Carbon disulfide methylene dipiperidine (R–2 crystals)	2.20
N-cyclohexyl-2-benzothiazole sulfenamide (Santocure)	0.68
2, 2,4-dinitrophenyl mercapto benzothiazole (Ureka Base)	0.66
Diphenylguanidine	0.445
Diphenylguanidine phthalate, special grade (Guantal)	0.55
2-2'-dithio bis benzothiazole (Thiofide S)	0.465
2-mercaptobenzothiazole	0.35
2-mercaptobenzothiazole, special grade (Mertax)	0.50
Tetraethyl thiuram disulfide	1.035
Tetramethyl thiuram disulfide	1.135
Tetramethyl thiuram monosulfide	1.135
Zinc benzothiazyl sulfide	0.445
Zinc dibutyl dithiocarbamate	1.035
Zinc diethyl dithiocarbamate	1.035
Zinc dimethyl dithiocarbamate	1.035
Activators of accelerators:	
Dibutyl ammonium oleate	0.62
Antioxidants and stabilizers:	
Diphenylamine acetone (BLE–25)	0.505
6 - ethoxy - 1,2 - dihydro - 2,2,4-trimethyl quinoline (Santoflex AW)	0.75
Mono- and di-octyl phenylamine (Stalite)	0.505
N-phenyl-beta-naphthylamine	0.505
Peptizers:	
N-pentamethylene ammonium dithiocarbamate	2.07
O,O'dibenzamido diphenyl disulfide	0.745
Retarders of vulcanization:	
Oil treated phthalic anhydride	0.370
Oil treated salicylic acid	0.445
Special materials:	
N,N' diphenyl thiourea (A–1)	0.48
N,N' diorthotolyl thiourea (A–22)	0.49
2,5-ditertiary amyl hydroquinone (Santovar A)	1.50
2,5-ditertiary-butyl hydroquinone (Santovar O)	1.30
Vulcanizing agents:	
Dinitrobenzene polymer	$1.655
Dibenzoyl quinone dioxime	2.585

For sales of the above chemicals in amounts other than in ton lots, or for deliveries west of Denver, Colorado, or for shipments from points other than production points, you determine your ceiling prices by applying to the ceiling prices established above the differentials for such sales which you had in effect under the General Ceiling Price Regulation. If differentials for such sales by you were not established under the General Ceiling Price Regulation, your ceiling prices for such sales are established by section 3.

(b) *Other sales.* Your ceiling price per pound for a sale of a rubber chemical listed in paragraph (a) of this section, to a class of purchaser other than industrial users, or for a sale of a rubber chemical other than one listed in paragraph (a), where you had a ceiling price established under the General Ceiling Price Regulation for such sale, is the amount obtained by multiplying your ceiling price per pound established under the General Ceiling Price Regulation for like sale, by 103.4 per cent, and rounding the resultant figure to the nearest half-cent. Where you did not have a ceiling price established under the General Ceiling Price Regulation for such sale, your ceiling price is established under section 3.

SEC. 3. *Establishment of ceiling prices where ceiling prices not established by section 2.* If you propose to sell a rubber chemical and a ceiling price for such sale of the rubber chemical cannot be determined under section 2 of this regulation, you determine your ceiling price under the first of the following paragraphs which is applicable to you.

(a) *Where most closely competitive seller has ceiling price for like sale established under this regulation.* If your most closely competitive seller has a ceiling price established under this regulation for a like sale, that ceiling price is your ceiling price for such sale. Before making a sale for which a ceiling price is established under this paragraph, however, you must file a report by registered mail, return receipt requested, with the Office of Price Stabilization, Rubber, Chemicals and Drugs Division, Washington 25, D. C., stating the following:

(1) Your name and address.

(2) Name of the rubber chemical you propose to sell, its use, the class of purchaser to whom such sale will be made, and the area in which delivery will be made.

(3) Why you are unable to determine your ceiling price under section 2. (For example, that you did not have a ceiling price established under the General Ceiling Price Regulation for deliveries of the rubber chemical west of Denver, Colorado; or that you do not have ceiling prices established under the General Ceiling Price Regulation for sales of a rubber chemical listed in section 2 (a) to classes of purchasers other than industrial users; or that you did not have a ceiling price established under the General Ceiling Price Regulation for sales of the rubber chemical which is the subject of your application).

(4) The name and address of your most closely competitive seller.

(5) His ceiling price for sale of the same rubber chemical to the same class of purchaser for delivery in the area in which you propose to sell the rubber chemical. Include all differentials, discounts, and terms of delivery.

You may sell at the ceiling price established under this paragraph upon your receipt of your return postal receipt showing that your report was received by the Office of Price Stabilization, and until the Office of Price Stabilization requests further information or disapproves your report.

(b) *Where you cannot determine ceiling price of your most closely competitive seller.* If you cannot determine the ceiling price of your most closely competitive seller for the same type of sale as the one you propose to make, the Director of Price Stabilization will, upon application by you, establish a ceiling price for such sale, which will be in line with the ceiling prices established by this regulation. You may not make the proposed sale until you receive written notice from the Director that a ceiling price for the sale has been established by him. Your application to the Director should include the information required under subparagraphs (1), (2) and (3) of paragraph (a) of this section, and, in addition, the following:

(1) Your proposed ceiling price and why you believe that ceiling price is in line with the ceiling prices established by this regulation.

(2) Name and description of a rubber chemical for which you (i) have a ceiling price established under this regulation for a sale like the one you propose to make, and (ii) is most nearly like the subject commodity in character and use.

(3) Your current unit direct cost for the comparison commodity (the commodity named in subparagraph (2) of this paragraph) and for the subject commodity. "Current unit direct cost" is defined in section 13 of this regulation.

SEC. 4. *Modification of proposed ceiling prices by Director of Price Stabilization.* The Director of Price Stabilization may, at any time, disapprove or reduce ceiling prices established under section 2 (b) or section 3 of this regulation, so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 5. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1, Revision 2.

SEC. 6. *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 7. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any rubber chemical business are sold or otherwise transferred after the effective date of this regulation, and the transferee carries on the business, or continues to deal in the same type of commodity, in an establishment separate from any other establishment previously owned or operated by him, the ceiling prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record-keeping provisions of this regulation.

SEC. 8. *Records which you must keep*—(a) *Base period records.* With respect to the rubber chemicals covered by this regulation, the provisions of section 16 of the General Ceiling Price Regulation are continued in effect insofar as they apply to the preparation and preservation of "base period records" and such "current records" as have been made with respect to rubber chemicals not delivered by you or offered for delivery during the base period of the General Ceiling Price Regulation.[1]

(b) *Current records.* Every person who sells rubber chemicals shall make and keep and every person who in the regular course of trade or business buys rubber chemicals shall keep for inspection by the Director of Price Stabilization for a period of two years accurate records of each sale or purchase made after the effective date of this regulation. The records must show the date of the sale or purchase, the name and address of the seller and purchaser, and the price charged or paid, itemized by quantity and grade. The records must indicate whether each purchase or sale is made on a f. o. b. shipping or basing point basis or on a delivered or other basis, and in the former case, the shipping or basing point and transportation charges unless delivery is by common carrier. Records must also show all premiums, discounts and allowances.

SEC. 9. *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of your local Office of Price Stabilization District Office. Any action taken by you in reliance upon and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining interpretations is contained in Price Procedural Regulation 1.

SEC. 10. *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell, and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling price established by this regulation, and you and buyers from you shall keep, make and preserve true and accurate records and reports required by this regulation. Prices lower than the ceiling prices may be charged, paid or offered.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and action for damages.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 11. *Evasions.* Any means or device which results in obtaining indirectly a higher price than is permitted by this regulation, or in concealing or falsely representing information as to which this regulation requires records to be kept, is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements, and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 12. *Supplementary regulations.* The Director of Price Stabilization may issue supplementary regulations modifying or supplementing this regulation as he deems appropriate.

SEC. 13. *Definitions.* The terms used in this regulation shall be construed as follows:

(a) *Rubber chemicals.* "Rubber chemicals" is limited to synthetic organic chemicals used in the compounding and processing of rubber. This term includes, for example, accelerators of vulcanization, activators of vulcanization accelerators, anti-oxidants and stabilizers, retarders of vulcanization, synthetic organic vulcanizers and peptizers, and excludes such products as plasticizers and softeners, aromatic odors, blowing agents, organic pigments, lubricants, extenders, and rubber substitutes.

(b) *Industrial user.* This term includes any individual, corporation, partnership, association, or any other organized group of persons, or the legal successor or representative of the foregoing, including any unit or agency of a local, state or Federal Government, who purchases rubber chemicals for use in any manufacturing or commercial venture pertaining to the production of rubber commodities.

(c) *Class of purchaser or purchaser of the same class.* The term "class of purchaser" refers to your own practice of setting different prices for sales to different purchasers or groups of purchasers. It may (but need not) be based on the location of the purchaser or the quantity purchased by him. If you followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser. An industrial user shall be deemed a separate class of purchaser.

(d) *Most closely competitive seller.* Your most closely competitive seller of the same class is the seller with whom you are in most direct competition. You are in direct competition with another seller who sells the same type of commodity to the same classes of purchaser in similar quantities on similar terms and with approximately the same amount of service.

(e) *Current unit direct cost.* "Current unit direct cost" as used in this regulation (section 3 (b) 6) means the sum of the amounts (not higher than permitted by law) which it costs you, or if you are not currently producing it, would cost you for direct labor and materials to produce the commodity at the time you apply to the Director of Price Stabilization under section 3 (b) of this regulation for the establishment of a ceiling price. Current unit direct materials cost shall be computed upon the basis of current replacement prices for materials, and current unit direct labor cost shall be computed upon the basis of current wage rates for direct labor. The method used in computing current unit direct materials cost and current unit direct labor cost for the new commodity and for the comparison commodity shall be the same in every respect.

(f) *Records.* This term includes books of accounts, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(g) *Sell.* This term includes sell, supply, dispose, barter, trade, lease, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The terms "buy" and "purchase" shall be construed accordingly.

(h) *You; Your.* The pronouns "you" and "your" refer to any seller of rubber chemicals whose sales are subject to this regulation.

(i) *Person.* This term includes any individual, corporation, partnership, association, or any other organized group of persons, or the legal successor or representative of the foregoing, and the United States and any other Government or their political subdivisions or agencies.

Effective date. This ceiling price regulation is effective June 9, 1952.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 3, 1952.

[F. R. Doc. 52-6188; Filed, June 3, 1952; 11:32 a. m.]

[1] The pertinent provisions of section 16 are as follows:

SEC. 16. *Records.* This section tells you what records you must preserve and what additional records you must prepare.

(a) *Base period records.* (1) You must preserve and keep available for examination by the Director of Price Stabilization those records in your possession showing the prices charged by you for the commodities or services which you delivered or offered to deliver during the base period. • • •

(2) In addition, on or before March 22, 1951, you must prepare and preserve a statement showing the categories of commodities in which you made deliveries and offers for delivery during the base period. • • •

(3) On or before March 22, 1951, you must also prepare and preserve a ceiling price list, showing the commodities in each category (listing each model, type, style, and kind), or the services delivered or offered for delivery by you during the base period together with a description or identification of each such commodity or service and a statement of the ceiling price. Your ceiling price list may refer to an attached price list or catalogue. • • •

(4) You must also prepare and preserve a statement of your customary price differentials for terms and conditions of sale and classes of purchasers, which you had in effect during the base period. • • •

(b) *Current records.* • • • In addition, you must prepare and preserve records indicating clearly the basis upon which you have determined the ceiling price for any commodities or services not delivered by you or offered for delivery during the base period • • •.

"Base period" as used in section 16 of the General Ceiling Price Regulation means December 19, 1950 to January 25, 1951, inclusive.

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter B—Wage Stabilization Board

RESOLUTIONS REGARDING POLICY DETERMINATIONS AND OTHER SUBSTANTIVE MATTERS

Statement of considerations. The Wage Stabilization Board has previously published (17 F. R. 20) a compilation of all current Resolutions of a regulatory or procedural nature. The purpose of the present compilation is to publish all Resolutions of this nature which have been passed by the Board since the previous compilation and which are current and of general public interest. In a few cases, the Resolutions appearing herein have already been published. This compilation continues the practice established in the preceding one of grouping the Resolutions under the regulation to which they apply, or, where not applicable to a particular regulation, by subject matter.

In addition to Resolutions of the type compiled here, the Board also passes Resolutions which constitute delegations of authority or instructions to the staff as to the procedure to be followed in processing petitions. The Resolutions embodying final delegations of authority and such of the other Resolutions as may be of general public interest are published from time to time in the Notices Section of the FEDERAL REGISTER. A compilation of such Resolutions was published in 17 F.R. 54. Another compilation of such Resolutions which the Board has passed since the previous compilation will be found under Economic Stabilization Agency, Wage Stabilization Board, in Notices Section, *infra*.

The present compilations include Resolutions through Resolution 94.

In the formulation of these Resolutions, the Board has sought those objectives which guide it generally in its work—to prevent inflation, and preserve the value of the national currency; to stabilize the cost of living and the costs of production; to prevent economic disturbances, labor disputes and interferences with the effective mobilization of our national resources; and to maintain and further a sound economy and sound working relations between its various segments. Due consideration has, in all cases, been given to the standards and procedures set forth in Title IV and Title VII of the Defense Production Act, as amended.

Pursuant, therefore, to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), Executive Order 10233 (16 F. R. 3503), General Order No. 3, Economic Stabilization Administrator (16 F. R. 739), and (in the case of Resolutions 77 and 87) General Order No. 8, Economic Stabilization Administrator (16 F. R. 9828), as amended (16 F. R. 13015), the following Resolutions are hereby issued:

NOTE: Resolution 67, appearing in the previous compilation of substantive and procedural Resolutions, has been rescinded by GWR 19.

A. GWR 6. No additional Resolutions pertaining to this subject have been issued.

B. GWR 6 and GWR 8 (Revised).

RESOLUTION 81—OPERATORS OF OVER-THE-ROAD TRUCKS AND BUSES

JANUARY 23, 1952.
AMENDED FEBRUARY 18, 1952.

The Wage Stabilization Board in accordance with Resolution 61 authorizes wage adjustments under GWR 6 and 8, Revised, to be applied to hourly, trip, or mileage rates and the equivalent hourly non-driving rates, if any, of over-the-road truck and bus operators in conformance with the following standards:

(1) Employers and the union (or the employer alone where there is no certified or recognized collective bargaining agent) may apply the allowable percentage adjustments authorized under GWR 6 and 8, Revised, (1) to the compensation for each classification of over-the-road drivers and drivers' helpers hourly, mileage, or trip rate (including rates varying with size and capacity of vehicle, type of trip, etc.) in the contract or wage schedule, and (2) to other elements of the rate structure (such as, waiting time, pick up and delivery schedules) and (3) layover expenses where such appears in the contract or is a demonstrated wage practice.

Any other method of applying GWR 6 and 8, Revised, or any increase in compensation beyond those amounts allowable under GWR 6 and 8, Revised, as provided above, may not be placed into effect without prior approval of the Wage Stabilization Board. The addition of new elements to a rate structure or changes in time allowances may not be placed into effect without prior approval of the Wage Stabilization Board.

(2) Operators receiving premium trip or mileage rates above the contract or wage schedule minimum may be granted increases which will preserve the prior differential in amount or percentage. No adjustment which would increase that differential may be made without prior Board approval.

(3) When basic rates are adjusted, the employer shall keep available for inspection the records required by GWR 6 and 8, Revised, as amended.

(4) Adjustments under this Resolution may be rounded off in accordance with past practice of the employer or employer and union, as the case may be.

C. GWR 11. *Agricultural Labor.* No additional Resolutions pertaining to this subject have been issued.

D. GWR 13. *Fringe Items.* No additional Resolutions pertaining to this subject have been issued.

E. *Improvement factors.*

RESOLUTION 90—ANNUAL IMPROVEMENT FACTOR

MARCH 28, 1952.

[Resolved:] A. That the Executive Director and Regional Boards are authorized to approve petitions involving annual improvement factors of not more than 4 cents per hour or 2 percent (whichever is higher) where:

(1) Such petitions were filed on or before March 27, 1952 and the payments are to be effective before January 1, 1952, regardless of the date of agreement or announcement.

(2) A tandem relationship is shown with a unit for which an improvement factor negotiated or announced prior to January 26, 1951, has been approved under Resolutions 22 and 23; and

(3) The other criteria of Resolutions 22 and 23 are met, except as to precise contract language.

RESOLUTION 94—DEFERRED INCREASE OR IMPROVEMENT FACTOR ADJUSTMENTS

MAY 9, 1952.

1. Wage adjustments due in 1952 under the terms of deferrred-increase or improvement-factor agreements or policies may be placed in effect without further approval by the Board, provided that identical adjustments due in 1951 under the same agreements or policies have already been approved by the Board under Resolutions 43, 22, or 90.

2. Petitions for deferred-increase or improvement-factor adjustments, due for the first time in 1952, pursuant to agreements and policies entered into on or before January 25, 1951, may be processed under Resolutions 43 and 22.

3. The warranty required in Resolution 23 must be supplied or renewed before 1952 improvement-factor adjustments may be placed in effect.

F. *Deferred increases.* No additional Resolutions pertaining to this subject have been issued.

G. Incentive wage and piece rates. No additional Resolutions pertaining to this subject have been issued.

H. *Miscellaneous.*

RESOLUTION 45, AMENDMENT 1

APRIL 17, 1952.

Resolution 45, by its terms, is applicable to the 1951 canning and packing season only. The purpose of this amendment is to (1) continue the policy of permitting seasonal establishments as identified below to pay rates which maintain 1950 differentials between the wages paid by such establishments and agricultural wages in the same area, (2) to make clear that such establishments, in the alternative, may adjust the compensation of their employees in accordance with the general wage regulations and resolutions of the Board.

Resolution 45 is hereby amended by substituting in lieu thereof, the following:

1. The wages of employees of seasonal establishments engaged in the canning, packing, freezing or dehydrating of perishable fruits and vegetables may be adjusted either in accordance with the regulations and resolutions of the Board, or

2. Such seasonal establishments may, without prior approval of the Board, pay rates which maintain 1950 differentials between wages paid by such establishments and agricultural wages in the same area. Employers shall report within 30 days to the nearest office of the Wage and Hour Division of the Department of Labor, adjustments made pursuant to this paragraph.[1] The appropriate Regional Boards shall review such reports promptly, and where it appears that wage adjustments have been made which do not conform to the provisions of this paragraph, the Regional Boards shall report the facts to the National Board.

3. This Resolution shall be effective until modified or repealed.

NOTE: The reporting requirements of this resolution have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

RESOLUTION 89—MUSICIANS

MARCH 18, 1952.

(1) Adjustments in the wages, salaries, or other compensation of professional musicians, other than staff musicians as defined in paragraph (3) below, may be made without prior approval of the Wage Stabilization Board.

(2) In adjusting wages, salaries and other compensation authorized by paragraph (1), the employer, or the employer and the union as the case may be, are expected to conform to the National Wage Stabilization policies and regulations. The Wage Stabilization Board reserves the right to review all wage and salary adjustments made in pursuance to paragraph (1) and to modify or revoke this resolution at any time without prior notice.

(3) Staff musicians are defined as professional musicians who, on a permanent and continuing basis, are direct employees of establishments such as radio broadcasting stations, television studios, motion picture companies, theatres, movie houses, hotels, night clubs and other establishments, including regularly established bands and orchestras employing professional musicians.

(4) The wages and salaries of staff musicians shall be subject to the applicable regulations and policies of the Wage Stabilization Board. Moreover, no petitions for staff musicians shall be considered on the basis of any claim of inequity with the wage rates of employees as may be adjusted without Board approval in accordance with paragraph (1) above.

I. GWR 8 (Revised).

RESOLUTION 80—MEAT PACKING

JANUARY 23, 1952.
AMENDED FEBRUARY 27, 1952.

On May 18, 1951, the Wage Stabilization Board approved a general wage increase of 9 cents an hour in Case No. N-410, involving certain employees of the Big Four meat packing companies. Thereafter, many hundreds of petitions were approved by the Wage Stabilization Board authorizing similar wage adjustments to other groups of employees in the meat packing industry.

In accordance with the provisions of General Wage Regulation 8, Revised, the Wage Stabilization Board has approved the petitions for a further general wage increase of 6 cents per hour for employees of Swift and Company and Armour and Company in units represented by the Amalgamated Meatcutters and Butcher Workmen of North America, AFL, and for employees of Swift and Company in units represented by the National Brotherhood of Packinghouse Workers, CUA. The Wage Stabilization Board determined that in these cases the base date for the purpose of General Wage Regulation 8, Revised, was January 15, 1951.

In order to simplify procedures for other parties (employers and the union or the employer alone, where there is no recognized or certified collective bargaining agent) in the industry who may elect the same wage settlement and for the Wage Stabilization Board.

[Resolved:] (1) Employers, and the certified or recognized collective bargaining agent (or the employer alone where there is no such agent) in the slaughtering, meatpacking or allied processing industries, may place into effect a general wage increase of 6 cents an hour, or its equivalent for salaried workers, subject to the jurisdiction of the Wage Stabilization Board, effective not earlier than December 17, 1951, without prior approval of the Wage Stabilization Board, provided:

(a) An applicable collective bargaining agreement provides that general wage levels shall be adjusted in accordance with wage adjustments in the major meat packing companies; or

(b) The Wage Stabilization Board previously has approved, for the particular employees, a general wage increase of at least 9 cents an hour, or its equivalent for salaried workers, subject to the jurisdiction of the Wage Stabilization Board.

(2) Where general wage rates are adjusted in accordance with this resolution, employers shall keep available for inspection the records required by General Wage Regulations 6 and 8, Revised, as amended.

(3) Employers, and the certified or recognized collective bargaining agent (or the employer alone where there is no such agent) covered by paragraph 1 above, effective not earlier than February 18, 1952, may place into effect, without prior approval of the Wage Stabilization Board, an increase in female rates where such increase will not reduce the male-female rate differential below 9 cents per hour. Reductions in the male-female rate differential below 9 cents per hour are permissible only after Board approval in accordance with Resolution 69.

J. GWR 19.

RESOLUTION 78—REVIEW CRITERIA TO BE USED BY THE STAFF IN PROCESSING REPORTS ON HEALTH AND WELFARE PLANS

DECEMBER 21, 1951.

1. This Resolution establishes review criteria to be used by the staff of the Wage Stabilization Board in determining whether a report of a proposed new or modified health and welfare plan must be referred by the staff to the Health and Welfare Committee. This Resolution must be read in conjunction with GWR 19, "Health and Welfare Plans."

2. When any portion of a health and welfare plan contains one or more of the following features, hereinafter referred to as Review Criteria, such portion of such plan, or the entire plan, where necessary, shall be referred to the Health and Welfare Committee for action in accordance with Section 6 of GWR 19.

3. The Review Criteria are as follows:

(a) *Temporary disability.* (1) The existence of any provision for paid sick leave

(2) Continuation of benefits for a maximum duration in excess of 26 weeks.

(3) In the case of illness payments, a waiting period of less than 7 days.

(4) Compensation for wage loss, which, for the group of insured employees as a whole, averages more than 60 percent of the average weekly wages, salaries, and other compensation of the insured employes.

(b) *Hospital expense.* Any unusual type of benefit, e. g., special nursing; full payment for private room; blood plasma; treatment of tuberculosis, nervous or mental cases for a period in excess of thirty (30) days for each confinement; rest cures.

(c) *Surgical expense.* (1) Any fee schedule with a maximum allowance in excess of the appropriate Veterans' Administration, prepayment surgical plan, or standard $200 commercial insurance fee schedule.

(2) Any fee schedule in which there are any unusual allowances for specific procedures, e. g., a fee for tonsillectomies which exceeds by a significant amount the corresponding fee in an appropriate Veterans Administration, prepayment surgical plan, or standard $200 commercial insurance fee schedule.

(3) Any unusual type of benefit, e. g., dental; plastic surgery for cosmetic or beautifying purposes; major surgery at home or office.

(d) *In-hospital medical expense.* (1) Payments in excess of $5.00 per day, or, if benefits are graduated after the first visit or the first few visits, payments thereafter in excess of $4.00 per day.

(2) Reimbursement for more than 70 days during which there were visits.

(e) *Group life insurance.* (1) For all employees except retired employees:

(i) A death benefit provided on any basis other than a group term or equivalent basis, or which provides any cash surrender, paid-up or nonforfeitable loan value.

(ii) An average death benefit per insured employee, including benefits under an existing plan to which the employer contributes, in excess of a total of (a) 85 percent of the average annual wages, salaries, and other compensation of the insured employees, or (b) $1,500, whichever is the greater. Rounding of the face value of the policy to the next highest multiple of $250 shall, however, be permissible.

(iii) A permanent and total disability benefit in excess of the face value of the policy.

(2) For retired employees:

(i) A death benefit provided on any basis other than a group term or equivalent basis, or which provides any cash surrender, paid-up or nonforfeitable loan value.

(ii) An average death benefit in excess of (a) 40 percent of the group life insurance coverage which was provided such employees by the employer prior to retirement, or (b) $1,000, whichever is the greater. Rounding of the face value of the policy to the next highest multiple of $250 shall, however, be permissible.

(iii) A permanent and total disability benefit in any amount.

(f) *Accidental death and dismemberment benefits.* (1) For all employees except retired employees:

(i) A benefit on any other basis than a group term or equivalent basis.

(ii) An average face value per insured employee, including benefits under an existing plan to which the employer contributes, in excess of (a) 85 percent of the average annual wages, salaries and other compensation of the insured employees, or (b) $1,500, whichever is the greater. Rounding of the face value of the policy to the next highest multiple of $250 shall, however, be permissible.

(2) For retired employees: Accidental death and dismemberment benefits in any amount.

(g) *Benefits to dependents of employees.* Any benefits provided to employees' dependents except in cases where:

(1) The employee contributes at least 40 percent of the gross cost of such benefits and

(2) Dependent coverage is limited to an employee's spouse and children under 19 years of age and

(3) The benefit meets the requirements of Section 3 of GWR 19 and does not contain any feature listed among the Review Criteria set forth in this Resolution.

Any benefit not satisfying these three requirements shall be referred to the Committee.

(h) *Benefits to retired employees.* Any benefit provided to retired employees, except those permissible under subparagraph (e) (2), above.

(i) *Benefits provided under statutory plans.* Any plan under which the employer supplements, directly or indirectly, any statutory temporary disability, hospital, surgical, or in-hospital medical expense benefit in an amount which will cause the total of (1) the benefit under the statutory plan and (2) the benefit under the employer's plan to exceed the definitions in GWR 19 or to contain any feature listed among the Review Criteria set forth in this Resolution.

(j) Any other unusual provision.

4. *Plans in which employees contribute.* (a) In plans under which the employee pays at least 40% of the gross cost of any health and welfare benefit, such benefit shall not be referred to the Committee, even though the benefit may vary from the definitions in GWR 19 or contain a feature listed among the Review Criteria set forth in this Resolution. This provision, however, is limited to benefits for employees and does not include benefits for employee dependents. All cases involving benefits for employee dependents are governed by the provisions of section 3 of GWR 19 and paragraph 3 (g) of this Resolution.

(b) This provision does not preclude the Committee or the Board, as the case may be, from approving a benefit where (i) the percentage of employee contribution is less than 40 percent or (ii) the employee bears none of the cost. Approval of benefits in such cases will be granted where the plan is found to be not unstabilizing.

RESOLUTION 83—ALTERNATE METHOD OF REPORTING UNDER GWR 19 (CORRECTED)

FEBRUARY 20, 1952.

[Resolved:] Where a health and welfare plan is sponsored by an employer group on behalf of member employers in an industry or area, or by a union on behalf of itself and employers in an industry or area with whom it enters into collective bargaining agreements, the report required by GWR 19 may be filed by the sponsoring party on behalf of all employers eligible to participate in the plan, subject to the following conditions:

1. In addition to the report form required by GWR 19, the filing party shall submit the following information:

(a) A copy of the health and welfare plan.

(b) A list of all employers who, on the date of the report, have agreed to participate in the plan and the number and description (by group or job classification) of the employees of each participating employer covered by the plan.

(c) A statement indicating the conditions under which employers and groups of employees not listed in (b) above may participate in the plan. For example, describe the coverage of the plan with respect to industry and geographical area and any eligibility requirements such as membership in an employers association, etc.

(d) If, in applying the review criteria of Resolution 78, wages, salaries and other compensation are not computed separately for each group of employees covered by the plan, the filing party shall indicate the method of computation adopted and shall submit a statement justifying the use of such method.

2. The report shall be signed by each employer who has agreed to participate in the plan or by a person authorized to sign the report on his behalf and by each union which is the certified or recognized bargaining agent for any employees covered by the plan. If the report is signed on behalf of any employer by an authorized person, other than an officer if the employer is a corporation, the report shall include a statement by such person that he is authorized to sign the report on behalf of the employer.

3. No plan filed under this resolution may be put into effect until the filing party has been notified that the plan has been approved.

4. Unless the Board has limited its approval, a plan filed under this Resolution which is approved by the Board may be made applicable to any employer and group of employees who meet the requirements for participation in the plan as reported pursuant to 1 (c) of this Resolution. If the Board has limited its approval, the plan may be made applicable to any employer and any group of employees eligible to participate in the plan as approved by the Board. Further approval is not required provided that a supplemental report is filed within 30 days after the date upon which the plan was made applicable to such employer and group of employees. The supplemental report shall include:

(a) The name and address of the employer and the number and description of the employees (by group or classification).

(b) A statement describing how the requirements for participation in the plan as reported pursuant to 1 (c) of this resolution or as approved by the Board have been met.

(c) A statement that the plan as approved by the Board will be applied without modification.

(d) The signature of the employer or a person authorized to sign on his behalf and the signature of any union which is the duly certified or recognized bargaining agent of any of the employees. If the supplemental report is signed on behalf of an employer by an authorized person other than an officer if the employer is a corporation, the report shall include a statement by such person that he is authorized to sign the report on behalf of the employer.

5. No employer who adopts any plan approved under this Resolution may establish or continue in effect any additional health and welfare benefit of the same type as the benefits which have been authorized pursuant to the report unless such additional benefits are thereafter authorized by the Board.

NOTE: The reporting requirements of this Resolution have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

K. GWR 21.

RESOLUTION 93—ALTERNATE METHOD OF REPORTING UNDER GWR 21

APRIL 30, 1952.

Where a pension or a profit sharing plan of a deferred compensation type is sponsored by an employer group on behalf of member employers in an industry or area, or by a union on behalf of itself and employers in an industry or area with whom it enters into collective bargaining agreements, the report required by GWR 21 for approval of such plan may be filed by the sponsoring party on behalf of all employers eligible to

[1] A Guide List (WSB Form 503) indicating the information required in this report is available at Wage-Hour Division and Wage Stabilization Board Offices.

participate in the plan, subject to the following conditions:

1. In addition to the reporting requirements by GWR 21, the filing party shall submit the following information:

(a) A list of all employers who, on the date of the report, have agreed to participate in the plan and the number and description of the employees of each participating employer covered by the plan.

(b) A statement indicating the conditions under which employers and groups of employees not listed in (a) above may participate in the plan. For example, describe the coverage of the plan with respect to industry and geographical area and any eligibility requirements such as membership in an employers' association, etc.

2. The report shall be signed by each employer who has agreed to participate in the plan or by a person authorized to sign the report on his behalf and by each union which is the certified or recognized bargaining agent for any employees covered by the plan. If the report is signed on behalf of any employer by an authorized person, other than an officer if the employer is a corporation, the report shall include a statement by such person certifying that he is authorized to sign the report on behalf of the employer. If the plan is administered by trustees, the trustees, if specifically authorized by an employer, may sign the report on behalf of such employer.

3. No plan filed under this resolution may be put into effect until the filing party has been notified that the plan has been approved.

4. Unless the Board has limited its approval, a plan filed under this resolution which is approved by the Board may be made applicable to any employer and group of employees who meet the requirements for participation in the plan as reported pursuant to 1 (b) of this resolution. If the Board has limited its approval, the plan may be made applicable to any employer and any group of employees eligible to participate in the plan as approved by the Board. Further approval is not required provided that a supplemental report is filed within 30 days after the date upon which the plan was made applicable to such employer and group of employees. The supplemental report shall include:

(a) The name and address of the employer and the number and description of the employees.

(b) A statement describing how the requirements for participation in the plan as reported pursuant to 1 (b) of this resolution or as approved by the Board have been met.

(c) A statement that the plan as approved by the Board will be applied without modification.

(d) The signature of the employer or a person authorized to sign on his behalf and the signature of any union which is the duly certified or recognized bargaining agent of any of the employees. If the supplemental report is signed on behalf of an employer by an authorized person other than an officer if the employer is a corporation, the report shall include a statement by such person certifying that he is authorized to sign the report on behalf of the employer.

5. No employer who adopts any plan approved under this resolution may establish or continue in effect any additional pension or profit sharing plans of a deferred compensation type unless such additional plans are thereafter authorized by the Board.

NOTE: The Reporting provisions of this resolution have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

L. *Dispute procedure.*

RESOLUTION 79—PROCEDURE FOR HANDLING DISPUTES VOLUNTARILY AND JOINTLY SUBMITTED

NOVEMBER 2, 1951.

A. *Basis for acceptance of jurisdiction.* 1. Section 405 of Executive Order 10233, in part, provides:

"The Board may assume jurisdiction of any labor dispute which is not resolved by collective bargaining or by the prior full use of conciliation and mediation facilities and which threatens an interruption of work affecting the national defense where:

"(a) The parties to any such dispute jointly agree to submit such dispute to the Board for recommendation or decision, if the Board agrees to accept such dispute, • • •"

2. The above provisions supplement but do not replace other methods agreed upon by the parties or established by law, for the settlement of labor-management disputes. These provisions are designed to afford additional procedures for peaceful settlement of disputes which may hinder the defense effort.

Voluntary submission of a dispute to the Board for final and binding decision, as distinguished from recommendations, will contribute most effectively to the objectives of the Executive order. The Board will not, however, accept jurisdiction of a dispute for final and binding decision unless it is assured that work and production will be continued, or, if interrupted, will be resumed.

The Board will not accept jurisdiction of a dispute voluntarily submitted to it for recommendations, as distinguished from final and binding decision, unless it is satisfied that the making of recommendations will lead to final settlement of the dispute. In such cases the parties normally will be expected to assure the Board that work and production will be continued, or, if interrupted, will be resumed.

3. Only the Board by formal action may accept, for recommendations or final decision, disputes jointly submitted to it. An employer and a union cannot, by agreement, commit the Board to accepting jurisdiction of their dispute; neither can Board personnel, prior to official Board action, obligate it to accept a dispute.

B. *Contents of submission.* Parties to a labor-management dispute desiring the Board to issue recommendations or a final and binding decision with respect to such a dispute may apply to the Board for acceptance of the dispute by filing a document with it which shall be called a "submission." Employers and unions will contribute substantially to prompt action by the Board on the question of its acceptance of a dispute by preparing and filing submissions with the Board which contain as much information as is available to them with respect to the matters set forth below. A submission to the Board should contain the following information:

1. A statement of the issues in dispute as agreed upon by the parties or as understood by each of the parties if there is a disagreement; and

2. A brief statement of the steps taken by the parties to resolve the dispute by negotiations, and, in addition, identification of the Federal, State or other agencies which have engaged in conciliation or mediation and the dates of conferences held with them; and

3. A list prepared by the employer of the principal articles produced or the services furnished which relate to the defense effort and the nature of such relation. In cases where defense production contracts are involved, if the employer is a prime contractor, the employer should set forth the name and address of the purchasing office of the production or procurement agency which has let the contract. If the employer is a subcontractor, the submission should identify the principal end-items, components or assemblies of which the articles contracted for are to be a part, the prime contractor or the subcontractor to whom they are to be delivered and the name and address of the purchasing office of the production or procurement agency which has let the prime contract; and

4. A statement as to whether there is any representation proceeding affecting employees involved in the dispute or any unfair labor practice charge or complaint against either the company or the union pending before the N. L. R. B. or any similar State agency, and identification of any such case; and

5. A stipulation as to whether the parties are requesting the Board to issue recommendations or a final and binding decision.

A submission to the Board should be filed by the authorized representatives of the employer and union, and should designate the titles of the persons signing. Five copies of the joint submission, and of the collective bargaining agreement, if any, should be filed.

C. *Filing of submissions.* Submissions shall be filed with the Board by transmitting five copies thereof to the Disputes Director, Wage Stabilization Board, Federal Security Building, South, Washington 25, D. C.

D. *Report on submission*—1. *Agencies filing report.* (a) Before the Board decides on whether it will accept jurisdiction of a jointly submitted dispute it may request:

(1) A report from the appropriate conciliation and mediation agency or agencies; and

(2) Where it is pertinent, a report from the appropriate production or procurement agency or agencies of the Federal Government.

(b) When it appears that the Federal Mediation and Conciliation Service solely has participated in efforts to resolve a dispute with respect to which a submission has been filed with the Board, the Service will furnish the Board with both a Status of Bargaining Report and, where pertinent, a Defense Impact Report (as defined below).

(c) When it appears that a State or local agency solely has participated in efforts to resolve such a dispute, that agency will furnish the Board with a Status of Bargaining Report. In such a case the Board itself will, where pertinent, request the appropriate production or procurement agency or agencies of the Federal Government to furnish it with a Defense Impact Report.

(d) When it appears that the Federal Mediation and Conciliation Service and other mediation or conciliation agencies have participated in efforts to resolve such a dispute a jointly executed Status of Bargaining Report would greatly assist the Board. Where such joint execution cannot be obtained without delay, each of the agencies may furnish a separate Report. In cases referred to in this paragraph, the Federal Mediation and Conciliation Service will obtain and transmit to the Board a Defense Impact Report, where pertinent, together with its Status of Bargaining Report.

(e) Status of Bargaining and Defense Impact Reports shall be transmitted to the Board in an original and three copies.

(f) Status of Bargaining and Defense Impact Reports are informational in character. The Board alone has the responsibility of finally determining whether the standards for acceptance of a jointly submitted dispute set forth in section 405 of Executive Order 10233, have been met.

2. *Status of Bargaining Report.* Such a report will be prepared by a mediation or conciliation agency or agencies and shall set forth (1) the issues in dispute and the position of the parties thereon; and (2) the manner and extent to which negotiations, bargaining, mediation and conciliation have been employed to resolve the dispute.

3. *Defense Impact Report.* Such a report will be prepared by an appropriate production or procurement agency or agencies of the Federal Government and shall set forth the extent to which the dispute "threatens an interruption of work affecting the national defense."

E *Procedures following acceptance of jurisdiction.* The Board will decide the appropriate procedure with respect to each dispute which it accepts for processing.

RESOLUTION 84—DISPUTES PROCEDURES

FEBRUARY 18, 1952.

The following procedures will normally be followed in handling disputes cases under section 405 of Executive Order 10233:

1. Immediately after receipt of a certification by the President or acceptance of a voluntarily submitted dispute by the Board, a tripartite panel will be established to hold hearings on the merits of the issues in dispute and to report to the Board in accordance with the Board's instructions.

2. The time and place of hearings will be set by the Board or by the Disputes Director, after informal discussions with representatives of the parties and the panel chairman.

3. After the hearings have opened, the panel itself will rule upon such matters as requests from the parties for change of time or place, recessing hearings, time within which post-hearing briefs are to be filed, and any other questions on the conduct of the hearings.

4. Any party in a dispute proceeding who files briefs, comments, motions or other documents with the panel or with the Board shall be required to furnish copies thereof to the other parties to the proceeding at the time of filing.

5. The panel chairman shall schedule whatever executive sessions of the panel may be necessary for the panel members to prepare a written report to the Board.

6. Copies of the panel report will be sent to the parties, who will be allowed ten days to file comments on the main or majority report with the Board. Comments shall be filed in 25 copies, and at the same time, at least 3 copies shall be served on each of the other parties to the dispute. Extensions of time for good cause shown may be granted by the Board or by the Disputes Director.

7. The Board will make panel reports available to the press when the parties have received copies for comment. Panel members shall not release the text of their reports until they have been released by the Board.

8. When dissents are not filed with the Board at the same time that a majority report is filed, the Board will not delay release of the majority report to the parties and to the press. In releasing majority reports, however, the Board will notify the parties and the press that dissents are anticipated and that dissenting opinions will be released as soon as they become available. Dissenting opinion shall be released to the press in the same manner as the majority opinion.

9. The procedures described herein shall be effective upon approval by the Board, but shall not apply to cases for which panels have been established at the date of approval.

M. *Jurisdiction.*

RESOLUTION 77—DRIVER-SALESMEN

DECEMBER 17, 1951.

At present, jurisdiction over driver-salesmen is divided between the Salary Stabilization Board and the Wage Stabilization Board. Under the authority of section 6.02 of General Order No. 8 of the Economic Stabilization Administrator, the Salary Stabilization Board, subject to the concurrence of the Chairman of the Wage Stabilization Board, has determined that driver-salesmen subject to Salary Stabilization Board jurisdiction properly should be under the jurisdiction of the Wage Stabilization Board. The Chairman of the Wage Stabilization Board has concurred.

The board, therefore, resolves that:

(1) The Wage Stabilization Board shall exercise jurisdiction over all driver-salesmen as described in § 541.505 of the Regulations (29 C. F. R. Part 541), issued pursuant to section 13 (a) of the Fair Labor Standards Act as amended.

(2) Adjustments in compensation lawfully put into effect for driver-salesmen while subject to the jurisdiction of the Salary Stabilization Board may be continued in effect.

RESOLUTION 87—REQUESTS FOR ASSUMPTION OF JURISDICTION BY WSB OVER EMPLOYEES WITHIN THE JURISDICTION OF SSB

FEBRUARY 27, 1952.

Under the authority of section 6.02 of General Order No. 8 of the Economic Stabilization Administrator, the Salary Stabilization Board, subject to the concurrence of the Chairman of the Wage Stabilization Board, is authorized to determine that certain categories of employees properly should be under the jurisdiction of the Wage Stabilization Board. The Salary Stabilization Board has indicated its willingness to cede jurisdiction in cases falling within the terms of this Resolution. The Chairman of the Wage Stabilization Board has concurred.

The Board therefore resolves that:

1. The Wage Stabilization Board will entertain requests for assumption of jurisdiction by the Wage Stabilization Board over employees within the jurisdiction of the Salary Stabilization Board. Such requests shall be addressed to the Wage Stabilization Board, Washington, D. C.

2. Any such request will be submitted by the Wage Stabilization Board to the Office of Salary Stabilization for determination as to whether jurisdiction will be transferred to the Wage Stabilization Board with respect to employees covered by the request for assumption of jurisdiction.

3. In any case in which jurisdiction has been so transferred, the Wage Stabilization Board will approve the request for assumption of jurisdiction if the following criteria are met:

(a) There has been a well established and maintained practice of not less than five years duration whereby the timing, amount and nature of adjustments for employees under the jurisdiction of the SSB have been directly related to those for employees under the jurisdiction of WSB.

(b) A majority of the employees are within the jurisdiction of WSB.

(c) No top management officials or corporate officers subject to the jurisdiction of SSB are included.

(d) The company states that if the request for assumption of jurisdiction is approved, such employees shall thereafter be treated in all matters involving compensation as being within the jurisdiction of the Wage Stabilization Board and not within the jurisdiction of the Salary Stabilization Board.

4. Upon approval of the request for assumption of jurisdiction the Company shall be advised that such approval does not constitute authority to treat such employees as a single unit for the purposes of any adjustments pursuant to WSB regulations or policies unless such treatment is best adapted to preserve contractual or historical practices. In addition, the company shall be advised that even though it asserts that such practice is in accord with contractual or historical practice, employees represented by a union(s) may be combined into a single appropriate unit with employees previously under the jurisdiction of SSB only with the consent of such union(s).

N. *Enforcement.*

RESOLUTION 92—RELATIONSHIP BETWEEN PROCESSING PETITIONS AND ENFORCEMENT ACTIONS

APRIL 18, 1952.

As a matter of general policy governing enforcement and case processing procedures, the Board hereby resolves that:

1. Petitions shall be processed in the regular order and manner although the employer has already put the requested adjustment into effect or has an enforcement action pending against him. •

2. Wage adjustments unlawful when made, because made without required prior Board approval, constitute a violation which does not terminate until the date of the Board action or until approval is no longer required. No retroactive approval, heretofore or hereafter granted by the National Board, any Regional Board or any Board agency, shall excuse such violation.

3. The following statement shall be included in every decision letter:

"This decision does not excuse any violation of the Defense Production Act of 1950, as amended, or the regulations and orders issued thereunder, including the placing into effect of the adjustments approved above, prior to the date of this action."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

NATHAN P. FEINSINGER,
Chairman.

[F. R. Doc. 52-6050; Filed, June 3, 1952; 8:50 a. m.]

Chapter VI—National Production Authority, Department of Commerce

[CMP Regulation No. 1, Direction 12 of June 2, 1952]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

DIR. 12—RESTRICTIONS ON STEEL SHIPMENTS AND ACCEPTANCE OF DELIVERIES

This direction under CMP Regulation No. 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

Sec.
1. What this direction does.
2. Prohibition on shipments and acceptance of deliveries.

AUTHORITY: Sections 1 and 2 issued under sec. 704, 64 Stat. 816, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* The purpose of this direction is to reduce disruption to the national defense program that will result from a work stoppage in the steel producing industry. This will be accomplished by prohibiting shipments and acceptance of deliveries of steel controlled materials for certain less essential uses.

SEC. 2. *Prohibition on shipments and acceptance of deliveries.* From the effective date of this direction until a date to be specified in an amendment to or by revocation of this direction, no person shall accept delivery of steel in the forms and shapes indicated in Schedule I of CMP Regulation No. 1 (except steel which was in transit to him or for his account on the effective date of this direction) from a steel distributor as defined in NPA Order M-6A, if such steel (a) was ordered pursuant to an authorized controlled material order bearing the program identification V followed by a digit, or (b) is to be used in the manufacture of products pursuant to authorized production schedules bearing the program identification V followed by a digit. No person shall make shipment of such steel if he knows or has reason to believe that its acceptance will constitute a violation of the provisions of this section.

This direction shall take effect June 2, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-6162; Filed, June 2, 1952; 4:20 p. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter K—Security of Vessels

[CGFR 52-32]

PART 121—SECURITY CHECK AND CLEARANCE OF MERCHANT MARINE PERSONNEL

REQUIREMENTS FOR DOCUMENTS BEARING SECURITY CLEARENCE INDORSEMENT

The President by Executive Order 10352, dated May 19, 1952, and published in the FEDERAL REGISTER May 21, 1952 (17 F. R. 4607), amended the regulations prescribed by Executive Order 10173 of October 18, 1950, as amended by Executive Order 10277 of August 1, 1951, regarding the issuance of documents and employment of persons aboard vessels. The effect of Executive Order 10352 is to prohibit the employment of any person aboard a merchant vessel of the United States without the Commandant of the United States Coast Guard being satisfied that the character and habits of life of such person are such as to authorize the belief that the presence of the individual on board would not be inimical to the United States. The previous provisions of Executive Order 10173, as amended by Executive Order 10277, were applicable to licensed officers or certificated men and did not apply to replacements taken aboard merchant vessels while in foreign ports.

Pursuant to the authority of 33 CFR 6.10-3 in Executive Order 10173, as amended by Executive Order 10277 and Executive Order 10352 (15 F. R. 7007, 3 CFR, 1950 Supp., 16 F. R. 7537, 17 F. R. 4607), the Commandant may require that all licensed officers and certificated men employed on other than exempted designated categories of merchant vessels of the United States shall be holders of specially validated documents. The provisions of 33 CFR 6.10-1 in Executive Order 10173, as amended by Executive Order 10277 and Executive Order 10352 now require that no person may be employed on other than exempted designated categories of merchant vessels unless the Commandant of the United States Coast Guard is satisfied that the character and habits of life of such person are such as to authorize the belief that the presence of the individual on board would not be inimical to the security of the United States. The purpose of the following amendment to 33 CFR 121.16 is to restate the requirements for documents bearing security clearance indorsement and to add the terms and conditions which shall apply with respect to the employment of persons as replacements in the crews of the designated categories of merchant vessels in foreign ports when persons in possession of documents bearing a special validation indorsement for emergency service are not available. Since the security interests of the United States call for the aforesaid application of the provisions of 33 CFR 6.10-1 and 6.10-3 at the earliest practicable date and because of the national emergency declared by the President, it is found that compliance with the notice of proposed rule making, public rule making procedure thereon, and effective date requirements of the Administrative Procedure Act is impracticable and contrary to the public interest.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Executive Order 10173, as amended by Executive Orders 10277 and 10352, § 121.16 is amended to read as follows, which shall become effective on and after the date of publication of this document in the FEDERAL REGISTER.

§ 121.16 *Requirements for documents bearing security clearance indorsement.* (a) Every person shall be required as a condition of employment to be in possession of a document bearing a special validation indorsement for emergency service prior to acceptance of employment as a member of the crew of any vessel coming within any one of the following categories:

(1) All merchant vessels of the United States of 100 gross tons and upward engaged in the foreign trade.

(2) All merchant vessels of the United States of 100 gross tons and upward engaged in trade to the Dominion of Canada, the West Indies, or Mexico.

(3) All merchant vessels of the United States of 100 gross tons and upward engaged in the intercoastal trade.

(4) All merchant vessels of the United States of 100 gross tons and upward engaged in the coastwise trade, including those vessels engaged in trade to Alaska, or the Hawaiian Islands.

(5) All merchant vessels of the United States of 100 gross tons and upward engaged in trade on the Great Lakes.

(b) The issuance of documents bearing security clearance shall be in the form and manner prescribed by § 121.15.

(c) The categories of vessels listed in paragraph (a) of this section are considered to be engaged in trade whether at anchor or made fast to a dock, loading or unloading passengers or cargo, or merely in an idle status awaiting passengers or cargo, but are not considered to be engaged in trade if laid up or dismantled or out of commission.

(d) By employed is meant the engagement of any person to fill any licensed or certificated berth on board ship whether or not under articles and includes those engaged for standby, relief, or other capacities.

(e) The following terms and conditions shall apply with respect to the employment of any person as a replacement in the crew of any vessel coming within any one of the categories of vessels listed in paragraph (a) of this section at foreign ports when persons in possession of documents bearing a special validation indirsement for emergency service are not available as established to the satisfaction of the United States consular representative of the area:

(1) A person in possession of a United States seaman's document not bearing a special validation indorsement for emergency service may be employed only after approval of the Commandant is obtained by the United States consular representative for the area or by the master of the vessel.

(2) A person who is a United States citizen and who is not in possession of a United States seaman's document may be employed if no person specified in subparagraph (1) of this paragraph is available as established to the satisfaction of the United States consular representative for the area, and then only after approval of the Commandant is obtained by the United States consular representative for the area or by the master of the vessel.

(3) A person who is not a citizen of the United States and who is not in possession of a United States seaman's document may be employed only if no person as specified in subparagraphs (1) and (2) of this paragraph is available as established to the satisfaction of the United States consular representative for the area and then only after the following terms and conditions are met:

(i) No such person shall be employed unless he presents evidence of temporary clearance from the United States consular representative for the area;

(ii) In no case shall the number of such persons employed on any one vessel exceed ten (10) percent of the total complement of the vessel; and,

(iii) No such person shall be employed to fill the berth of a licensed officer or registered staff officer.

(40 Stat. 220, as amended; 50 U. S. C. 191, E. O. 10173, Oct. 18, 1950, 15 F. R. 7005, 3 CFR, 1950 Supp., E. O. 10277, Aug. 1, 1951, 16 F. R. 7537, E. O. 10352, May 19, 1952, 17 F. R. 4607)

Dated: June 2, 1952.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 9797]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

NOTICE OF ERRATA

In the matter of revision of Parts 7 and 8 of the Commission's rules governing Coastal and Marine Relay Services, and Ship Service, respectively; Docket No. 9797.

The Second Report and Order in the above-entitled proceeding, dated April 23, 1952, published in 17 F. R. 4159, dated May 6, 1952, should be corrected by making the following changes in the Appendix attached thereto:

1. In Part 7, item 2 (a) relating to § 7.3 (b) should read as follows:

a. Amend paragraph (b) by designating existing text as subparagraph (1) and adding a new subparagraph (2) to read as follows:

(2) *Land mobile service.* A mobile service between base stations and land mobile stations, or between land mobile stations.[3a]

b. Add footnote 3a to read:

[3a] Only land mobile service carried on exclusively for maritime purposes is governed by this part.

2. Item 7 (a) relating to § 7.40 (a) the new subparagraphs added thereby should be designated as (5) and (6) instead of (6) and (7) respectively.

3. Item 16 relating to § 7.102 the text designated as paragraph (d) should be designated as (d) (1).

4. In Part 8, item 7 relating to § 8.64 should be corrected by adding an instruction as follows: "c. Designate existing text as paragraph (a)."

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 10165]

PART 64—MISCELLANEOUS RULES RELATING TO COMMON CARRIERS

TERM

In the matter of charges for United States Government Telegraph Communications; amendment of Part 64 of the Commission's rules relating to common carriers, Docket No. 10165.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of May 1952;

The Commission, having under consideration the matter of the amendment of § 64.310 *Term*, of Subpart C (United States Government Foreign and Overseas Telegraph Communications), of Part 64 of the Commission's rules and regulations; and also having under consideration its notice of proposed rule making adopted herein on March 26, 1952, and published in the FEDERAL REGISTER on April 4, 1952 (17 F. R. 2937) in accordance with section 4 (a) of the Administrative Procedure Act;

It appearing, that the period in which interested persons were afforded an opportunity to submit comments expired on May 5, 1952, and that no comments were received;

It further appearing, that it is in the public interest to amend Subpart C in order to extend the term thereof;

It further appearing, that the amendments herein ordered are issued under authority of sections 4 (i) and 601 (b) of the Communications Act of 1934, as amended, and pursuant to the provisions of the permits or licenses granted by the President of the United States, giving the Postmaster General authority to fix rates and charges for United States Government telegraph communications transmitted by any carrier or carriers subject to the terms of such permits or licenses, which authority was transferred to the Commission by section 601 (b) of the Communications Act;

It is ordered, That effective July 1, 1952, § 64.310 of Subpart C of Part 64 of the Commission's rules and regulations is amended to read as follows:

64.310 *Term.* The provisions of Subpart C shall continue in effect through June 30, 1953, unless changed by order of the Commission.

Released: May 23, 1952.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 601, 14 Stat. 221; 48 Stat. 1102; 47 U. S. C. 601)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of International Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62, 141, and 3791 of the Internal Revenue Code (53 Stat. 32, 58, and 467; 26 U. S. C. 62, 141, and 3791).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform § 29.141-1 of Regulations 111 to the Revenue Act of 1950, approved September 23, 1950, to the Excess Profits Tax Act of 1950, approved January 3, 1951, and to the Revenue Act of 1951, approved October 20, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.141-1 the following:

SEC. 121. INCREASE IN RATE OF CORPORATION INCOME TAXES (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * *

(f) *Tax under consolidated returns.* Section 141 (c) (relating to computation and payment of tax on consolidated returns) is hereby amended by inserting after the first sentence the following: "If the affiliated group includes one or more western hemisphere trade corporations (as defined in section 109), the increase of 2 per centum provided in the preceding sentence shall be applied only on the amount by which the consolidated corporation surtax net income of the affiliated group exceeds the portion (if any) of the consolidated corporation surtax net income attributable to the western hemisphere trade corporations included in such group."

* * * * *

SEC. 123. EFFECTIVE DATE OF PART II (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part (sections 121, 122, and 123, Revenue Act of 1950) shall be applicable only with respect to taxable years ending after December 31, 1949. * * *

SEC. 301. CONSOLIDATED RETURNS (EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1951).

Effective with respect to taxable years ending after June 30, 1950, section 141 of the Internal Revenue Code (relating to consolidated returns) is hereby amended to read as follows:

SEC. 141. CONSOLIDATED RETURNS.

(a) *Privilege to file consolidated returns.* An affiliated group of corporations shall, subject to the provisions of this section, have the privilege of making a consolidated return for the taxable year in lieu of separate returns. The making of a consolidated return shall be upon the condition that all corpo-

rations which at any time during the taxable year have been members of the affiliated group consent to all the consolidated return regulations prescribed under subsection (b) prior to the last day prescribed by law for the filing of such return. The making of a consolidated return shall be considered as such consent. In the case of a corporation which is a member of the affiliated group for a fractional part of the year, the consolidated return shall include the income of such corporation for such part of the year as it is a member of the affiliated group.

(b) *Regulations.* The Secretary shall prescribe such regulations as he may deem necessary in order that the tax liability of any affiliated group of corporations making a consolidated return and of each corporation in the group, both during and after the period of affiliation, may be returned, determined, computed, assessed, collected, and adjusted, in such manner as clearly to reflect the income- and excess-profits-tax liability and the various factors necessary for the determination of such liability, and in order to prevent avoidance of such tax liability.

(c) *Computation and payment of tax.* In any case in which a consolidated return is made or is required to be made, the tax shall be determined, computed, assessed, collected, and adjusted in accordance with the regulations under subsection (b) prescribed prior to the last day prescribed by law for the filing of such return; except that the tax imposed under section 15 or section 204 shall be increased by 2 per centum of the consolidated corporation surtax net income of the affiliated group of includible corporations. If the affiliated group includes one or more Western Hemisphere trade corporations (as defined in section 109), the increase of 2 per centum provided in the preceding sentence shall be applied only on the amount by which the consolidated corporation surtax net income of the affiliated group exceeds the portion (if any) of the consolidated corporation surtax net income attributable to the Western Hemisphere trade corporations included in such group. For the purposes of the tax imposed by section 430, the sum of the excess profits credit and the unused excess profits credit adjustment of the affiliated group shall not be increased under the last sentence of section 431 to an amount in excess of $25,000 for the entire group.

(d) *Definition of "affiliated group".* As used in this section, an "affiliated group" means one or more chains of includible corporations connected through stock ownership with a common parent corporation which is an includible corporation if—

(1) Stock possessing at least 95 per centum of the voting power of all classes of stock and at least 95 per centum of each class of the nonvoting stock of each of the includible corporations (except the common parent corporation) is owned directly by one or more of the other includible corporations; and

(2) The common parent corporation owns directly stock possessing at least 95 per centum of the voting power of all classes of stock and at least 95 per centum of each class of the nonvoting stock of at least one of the other includible corporations.

As used in this subsection, the term "stock" does not include nonvoting stock which is limited and preferred as to dividends.

(e) *Definition of "includible corporation."* As used in this section, the term "includible corporation" means any corporation except—

(1) Corporations exempt from taxation under section 101.

(2) Insurance companies subject to taxation under section 201 or 207.

(3) Foreign corporations.

(4) Corporations entitled to the benefits of section 251, by reason of receiving a large percentage of their income from sources within possessions of the United States.

(5) Corporations organized under the China Trade Act, 1922.

(6) Regulated investment companies subject to tax under Supplement Q.

(7) Any corporation described in section 449, or in section 454 (d), (f), and (g) (without regard to the exception in the initial clause of section 454), but not including such a corporation which has made and filed a consent, for the taxable year or any prior taxable year ending after June 30, 1950, to be treated as an includible corporation. Such consent shall be made and filed at such time and in such manner as may be prescribed by the Secretary.

(8) Regulated public utilities described in section 448 (d) which compute their excess profits credit under section 448 but not including any such regulated public utility which has made and filed a consent, applicable to the taxable year, to compute its excess profits credit without regard to section 448. The consent shall be made and filed at such time and in such manner as may be prescribed by the Secretary. The consent shall be applicable to the taxable year for which filed and to each consecutive subsequent taxable year for which a consolidated return is filed.

(f) *Includible insurance companies.* Despite the provisions of paragraph (2) of subsection (e), two or more domestic insurance companies each of which is subject to taxation under the same section of this chapter shall be considered as includible corporations for the purpose of the application of subsection (d) to such insurance companies alone.

(g) *Subsidiary formed to comply with foreign law.* In the case of a domestic corporation owning or controlling, directly or indirectly, 100 per centum of the capital stock (exclusive of directors' qualifying shares) of a corporation organized under the laws of a contiguous foreign country and maintained solely for the purpose of complying with the laws of such country as to title and operation of property, such foreign corporation may, at the option of the domestic corporation, be treated for the purpose of this chapter as a domestic corporation.

(h) *Suspension of running of statute of limitations.* If a notice under section 272 (a) in respect of a deficiency for any taxable year is mailed to a corporation, the suspension of the running of the statute of limitations, provided in section 277, shall apply in the case of corporations with which such corporation made a consolidated return for such taxable year.

(i) *Allocation of income and deductions.* For allocation of income and deductions of related trades or businesses, see section 45.

(j) *Includible regulated public utilities.* Despite the provisions of paragraph (8) of subsection (e), two or more regulated public utilities each of which has made and filed a consent, applicable to the taxable year, to compute its excess profits credit under section 448 only, shall be considered as includible corporations for the purpose of the application of subsection (d) to such regulated public utilities alone. The consent shall be made and filed at such time and in such manner as may be prescribed by the Secretary. The consent shall be applicable to the taxable year for which filed and to each consecutive subsequent taxable year for which a consolidated return is filed.

SEC. 613. CONSOLIDATED RETURNS; INCLUDIBLE CORPORATION (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

If an affiliated group making a consolidated return with respect to the first taxable year of the group ending after June 30, 1950, included a corporation described in section 454 (f) of the Internal Revenue Code pursuant to the consent provided in section 141 (e) (7) of such code, such corporation may withdraw such consent at any time within ninety days after the enactment of this act. If such consent is withdrawn under the preceding sentence, the tax liability of the affiliated group and its several members for the taxable year shall be determined, assessed, and collected as if such corporation had never joined in the making of the consolidated return.

PAR. 2. Section 29.141–1, as amended by Treasury Decision 5441, approved February 28, 1945, is hereby further amended as follows:

(A) By changing paragraph (a) thereof to read as follows:

(a) *In general.* Section 141 prescribes rules for the making of consolidated income and excess profits tax returns by affiliated groups of corporations. Regulations 104 and Regulations 110 are applicable, respectively, to the making of the consolidated income tax return and the consolidated excess profits tax return in the case of a taxable year ending prior to January 1, 1950. Regulations 129 are applicable to the making of the consolidated income and excess profits tax return in the case of a taxable year ending after December 31, 1949. The determination, computation, assessment, collection, and adjustment of income and excess profits tax liabilities of the affiliated group and each member thereof both during and after the period of affiliation shall be made under the applicable provisions of such regulations.

(B) By striking the word "and" which follows the semicolon in subparagraph (6) of paragraph (c).

(C) By striking subparagraph (7) from paragraph (c) and inserting in lieu thereof the following:

(7) With respect to taxable years beginning after December 31, 1943 and ending before July 1, 1950, a personal service corporation described in section 725 (a), or a corporation described in section 727 (e), (g), or (h) which without regard to the exception stated in the initial clause of section 727 would be exempt from the excess profits tax imposed by subchapter E of chapter 2, except as otherwise provided in section 141 (e) (7) with respect to such taxable years. As to the exception provided in section 141 (e) (7), see the provisions of this section set forth below;

(8) With respect to taxable years ending after June 30, 1950, a personal service corporation described in section 449 or a corporation described in section 454 (d), (f), or (g) which without regard to the exception stated in the initial clause of section 454 would be exempt from the excess profits tax imposed by subchapter D of chapter 1, except as otherwise provided in section 141 (e) (7). As to the exception provided in section 141 (e) (7), see the provisions of this section set forth below; and

(9) With respect to taxable years ending after June 30, 1950, a regulated public utility corporation described in section 448 (d), except as otherwise provided in section 141 (e) (8) and section 141 (j). As to the exception provided in section 141 (e) (8), see the provisions of this section set forth below. As to the exception provided in section 141 (j), see paragraph (g) of this section.

The corporations described in section 727 (e), (g), and (h), and in section 454 (d), (f), and (g), are personal holding companies as defined in section 501, certain domestic corporations which derive a specified part of their gross income from sources outside the United States (section 727 (g) and section 454 (f)), and certain corporations which receive compensation from the United States for the transportation of mail by aircraft (section 727 (h) and section 454 (g)).

Any corporation which otherwise would not be an includible corporation under subparagraphs (7) or (8) of this paragraph and section 141 (e) (7) may make and file a consent for any taxable year beginning after December 31, 1943, to be treated as an includible corporation. A corporation which has made and filed such consent for any taxable year ending prior to July 1, 1950, shall be treated as an includible corporation for the taxable year for which such consent is filed and for each subsequent taxable year ending before July 1, 1950. A corporation which has made and filed a consent for any taxable year ending after June 30, 1950, shall be treated as an includible corporation for such taxable year and for each subsequent taxable year. With respect to the subsequent taxable years in either such case, such corporation shall be deemed to be an includible corporation regardless of whether the affiliated group of which such corporation is a member during the subsequent taxable year is the same as the affiliated group of which it was a member when the consent was filed. If such corporation is a common parent corporation, the making and filing of the consolidated income tax return shall constitute the making and filing of its consent under section 141 (e) (7). If such corporation is a subsidiary, the filing for a taxable year ending before July 1, 1950, of its authorization and consent on Forms 1122 and 1122E in the manner prescribed by § 23.12 (b) of Regulations 104 and § 33.12 (b) of Regulations 110 shall constitute the making and filing of such consent; the filing for a taxable year ending after June 30, 1950, of its authorization and consent on Form 1122 in the manner prescribed by § 24.12 (b) of Regulations 129 shall constitute the making and filing of such consent. A consent to be treated as an includible corporation under section 141 (e) (7) cannot be withdrawn or revoked at any time after the consolidated return is filed for the first taxable year for which the consent is filed, except as otherwise provided in section 613 of the Revenue Act of 1951. Section 613 of that act relates to the withdrawal within 90 days after October 20, 1951 (the date of enactment of that act), of consents for the first taxable year ending after June 30, 1950, with respect to corporations described in section 454 (f).

Under section 141 (e) (8), any regulated public utility corporation may make and file a consent for any taxable year ending after June 30, 1950, to compute its excess profits credit without regard to section 448. A corporation which has made and filed such consent shall be treated as an includible corporation under section 141 (e) (8) for the taxable year for which such consent is filed and for each consecutive subsequent taxable year for which a consolidated return is made or is required to be made by the affiliated group of which it was a member at the time such consent was filed unless it has ceased to be a member of such group. If such corporation is a common parent corporation, the making and filing of a consolidated return in which the consolidated excess profits credit is determined under provisions other than those of section 448 shall constitute the making and filing of its consent under section 141 (e) (8). If such corporation is a subsidiary, the filing of an authorization and consent on Form 1122, in the manner prescribed by § 24.12 (b) of Regulations 129, indicating thereon its consent to compute its excess profits credit without regard to section 448 shall constitute the making and filing of such consent. A consent to be treated as an includible corporation under section 141 (e) (8) cannot be withdrawn or revoked at any time after the consolidated return is filed for the first taxable year for which the consent is filed; however, if a separate return is properly filed by such a corporation for a subsequent taxable year, it is not thereafter an includible corporation under section 141 (e) (8) unless another consent under such section is made and filed.

(D) By striking the last sentence of the last undesignated paragraph of paragraph (c) and inserting in lieu thereof the following: "In the case of taxable years ending before July 1, 1950, see sections 725 (b) and 727, and in the case of taxable years ending after June 30, 1950, see section 449 and section 454."

(E) By striking that part of paragraph (e) which follows the first sentence and inserting in lieu thereof the following: "The option to treat such foreign corporation as a domestic corporation must be exercised at the time of making the consolidated return, and cannot be exercised at any time thereafter. However, in the case of taxable years ending before January 1, 1950, the option must be exercised at the time of making the first consolidated return for any taxable year beginning after December 31, 1941, and ending before January 1, 1950. If the foreign corporation is included or is required to be included in the consolidated return of the affiliated group of which it is a member for any taxable year, it must be included in the consolidated return for each consecutive taxable year thereafter for which such group makes or is required to make a consolidated return. Furthermore, if the option is exercised at the time of making the first consolidated return for any taxable year beginning after December 31, 1941, and ending before January 1, 1950, the foreign corporation must be included in the consolidated return of the group for each subsequent taxable year ending before January 1, 1950, for which such group makes or is required to make a consolidated return, whether or not such taxable year is preceded by a taxable year for which separate returns are made."

(F) By striking the last sentence of paragraph (f) and inserting in lieu thereof the following: "For example, if the consolidated corporation surtax net income of an affiliated group for a taxable year is $40,000, the increase in the surtax for such taxable year is $800, that is, 2 percent of $40,000. For taxable years ending after December 31, 1949, if the affiliated group includes one or more Western Hemisphere trade corporations (as defined in section 109), the increase shall be applied in the manner provided in § 24.30 (b) (1) of Regulations 129."

(G) By inserting immediately after paragraph (f) the following:

(g) *Consolidated returns of regulated public utilities computing excess profits credit under section 448.* For taxable years ending after June 30, 1950, a regulated public utility which has made and filed a consent to compute its excess profits credit under section 448 only may be included in an affiliated group (within the meaning of section 141 (a)) comprised solely of regulated public utility corporations each of which has made and filed such a consent. If such consent of a regulated public utility corporation is filed for any taxable year ending after June 30, 1950, such corporation shall be an includible corporation within the meaning of section 141 (j) for the taxable year for which such consent is filed and for all consecutive subsequent taxable years for which such affiliated group of which such corporation is a member makes or is required to make a consolidated return. If such corporation is a common parent corporation, the making and filing of a consolidated return in which the consolidated excess profits credit is determined under the provisions of section 448 shall constitute the making and filing of its consent under section 141 (j). If such corporation is a subsidiary, the filing of its authorization and consent on Form 1122, in the manner prescribed by § 24.12 (b) of Regulations 129, indicating thereon its consent to compute its excess profits credit with respect to section 448 only, shall constitute the making and filing of such consent. A consent to be treated as an includible corporation under section 141 (j) cannot be withdrawn or revoked at any time after the consolidated return is filed for the first taxable year for which the consent is filed. However, if a separate return is properly filed by such a corporation for a subsequent taxable year, it is not thereafter an includible corporation under section 141 (j) unless another consent under such section is made and filed.

[7 CFR Part 951]

[Docket No. AO 135-A3]

TOKAY GRAPES GROWN IN CALIFORNIA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO THE AMENDED MARKETING AGREEMENT AND ORDER

Correction

In F. R. Doc. 52-5894, appearing at page 4855 of the issue for Wednesday,

May 28, 1952, the following changes should be made:

1. In the nineteenth line of the third column on page 4856, the word "of" should read "to be".

2. In the forty-first line of the first column on page 4857, the word "are" should read "is".

3. In the third line of paragraph (e) in the third column on page 4857, the word "exception" should read "exemption".

4. In the first line of the first column on page 4859, the comma preceding the word "in" should follow it.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10203]

FREQUENCY ALLOCATIONS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of the Revised Tentative Allocation Plan for Class B FM Broadcast Stations, Docket No. 10203.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations as follows:

General area	Channels	
	Delete	Add
1. Berlin, N. H.		279
2. Jasper, Ala.		273
Birmingham, Ala.	273	

3. The purpose of the proposed amendment is to provide Class B channels in the areas set forth in paragraph 2 above, thereby facilitating consideration of pending applications requesting Class B assignments in these areas.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before July 1, 1952, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.784 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: May 21, 1952.

Released: May 23, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[47 CFR Part 2]

[Docket No. 10200]

FREQUENCY ALLOCATIONS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of § 2.104 (a) (1) (iv) of Part 2 of the Commission's rules and regulations to delete certain uses by the Domestic Fixed Service of frequencies below 25 Mc for purposes other than the safety of life and property; Docket No. 10200.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. By the terms of the Agreement recently concluded at the Extraordinary Administrative Radio Conference (Geneva, 1951), the United States, as a signatory, is obligated to take such steps as it may find practical and advisable to implement the agreements arrived at in Atlantic City in 1947 with respect to the use of frequencies below 25 Mc. In this connection, under Article 7 of the General Radio Regulations adopted at Atlantic City, all signatories agreed to make every possible effort to reserve frequencies between 5,000 and 30,000 kc for long distance communications and to encourage the use of wire and frequencies above 30,000 kc for short range communications wherever practicable. In keeping with this obligation, the Commission, as indicated in § 2.104 (a) (1) of its rules has, with one exception, limited use of frequencies below 25 Mc for short-range point-to-point communications to those services which are concerned with the safety of life and property or which, due to geographical and physical considerations, cannot obtain such service by means of wire lines or through the use of frequencies above 25 Mc.

3. The only exception to this policy is that contained in § 2.104 (a) (1) (iv) which recognizes certain existing operations on the frequencies 2848, 4245, 5365, 7625, and 7690 kc. These operations consist of one portable and eight fixed stations, separated by distances of approximately 60 to 100 miles from each other, licensed to the State of California for use by the Federal-State Market News Service in the dissemination of information regarding marketing conditions in purchasing areas and consuming markets. These point-to-point radiotelegraph network stations were originally authorized in 1928. Renewals have been on a year to year basis and the current authorizations expire December 1, 1952.

4. In order for the Commission to make adequate provision, on an in-band basis, for the existing long distance and international fixed services and other essential services which it now licenses, it is believed to be necessary to discontinue the use of these frequencies for services of the type now being operated by the Federal-State Market News Service. It is believed that such operations should and can use wire lines or frequencies in the microwave portion of the spectrum.

5. The Commission, therefore, proposes to delete § 2.104 (a) (1) (iv) from its rules. We wish to direct the attention of the State of California to the fact that should the amendment be adopted, no frequencies under 890 Mc will be available to them for the operation of the Federal-State Market News Service. The Commission is not unmindful of the fact that to the extent that the present network would have to be replaced by wire lines or microwave facilities, some hardship may result. However, to protect the telecommunication interests of the United States, it is necessary that its international agreements be implemented and its duties discharged. The proposed effective date of this amendment to the rules would be 6 months after the issuance of the Commission's final order in this docket or March 1, 1953, whichever is later. No application for renewal of existing license will be granted and any authority to operate on these frequencies issued after the expiration of existing licenses will expressly limit the duration of such authorization to the period remaining until the effective date of the order amending the rules and will be non-renewable after such date. Applications of the Federal-State Market News Service currently on file for authorization to add to and change certain of its facilities will be held in abeyance pending conclusion of these proceedings.

6. The proposed amendment is issued under the authority of sections 4 (i), 301 and 303 of the Communications Act of 1934, as amended.

7. Any interested person of the opinion that the proposed amendment should not be adopted should file with the Commission on or before July 1, 1952, a written statement or brief setting forth his comments. Persons desiring to support the amendment may also file comments by the same date. Comments or briefs in reply to the original comments or briefs may be filed within 15 days from the last day for filing said original briefs or comments. The Commission will consider all comments and briefs before taking final action. An original and fourteen copies of each brief or written statement should be filed, as required by § 1.764 of the Commission's rules and regulations.

Adopted: May 21, 1952.

Released: May 23, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

National Park Service

[D. C. Sign Order 9]

DISTRICT OF COLUMBIA

ADOPTION AND DESIGNATION OF OFFICIAL SIGNS

MAY 20, 1952.

Pursuant to the National Capital Parks Regulations (15 F. R. 3519, 3523) (36 CFR 3.4 (h) and 3.33), issued by the Secretary of the Interior, effective June 7, 1950, the lists of official signs adopted and designated by sign order No. 8 are hereby made a part of this order and amended and supplemented as follows:

White lot. Substitute under this heading the attached pages 1, 2, 3, and 4 in lieu of pages 1, 2, 3, and 4 attached to sign order No. 8.

The signs contained and described on the attached list[1] are hereby adopted and designated as official signs.

This order shall become effective as of June 1, 1952.

EDWARD J. KELLY,
Superintendent.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Delegation of Authority No. 38, Amdt. 2]

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO ACT UNDER CPR 101, AS AMENDED; AUTHORITY TO ACT UNDER SECTION 4 (D)

By virtue of the authority vested in the Director of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2, as amended (16 F. R. 738, 11626), this Amendment 2 to Delegation of Authority 38 (16 F. R. 12299), is hereby issued.

Delegation of Authority 38 is amended by redesignating the present paragraph 3 as paragraph 4 and inserting a new paragraph 3 to read as follows:

3. Authority to act under section 4 (d) of CPR 101, as amended. Authority is hereby delegated to the Directors of the Regional Offices of the Office of Price Stabilization to act under section 4 (d) of CPR 101, as amended.

This Amendment 2 to Delegation of Authority No. 38 shall take effect on June 4, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

Wage Stabilization Board

RESOLUTIONS REGARDING DELEGATIONS OF AUTHORITY

The Wage Stabilization Board has previously published (17 F. R. 54) a compilation of Resolutions which constitute delegations of authority or which prescribe the internal procedures used in processing petitions for adjustments in compensation of employees. The present compilation contains all Resolutions of this nature which the Board has passed since the date of the previous compilation and which are of general public interest. The Resolutions are printed in numerical order.

In the formulation of these Resolutions, the Board has sought those objectives which guide it generally in its work to prevent inflation and preserve the value of the national currency; to stabilize the cost of living and the costs of production; to prevent economic disturbances, labor disputes and interferences with the effective mobilization of our national resources; and to maintain and further a sound economy and sound working relations between its various segments. In addition, the Board has sought to establish that administrative procedure which would provide for the most expeditious processing of petitions consistent with careful analysis of petitions to determine if they are within the Board's stabilization policies. Due consideration has, in all cases, been given to the standards and procedures set forth in Title IV and Title VII of the Defense Production Act, as amended.

Pursuant, therefore, to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), Executive Order 10233 (16 F. R. 3503), and General Order No. 3, Economic Stabilization Administrator (16 F. R. 739), the following resolutions are hereby issued:

RESOLUTION 64—DELEGATION OF AUTHORITY TO REGIONAL BOARDS (REVISED)

APRIL 22, 1952.

[Resolved:] I. The Regional Boards, under the supervision and direction of the National Board, through its Executive Director, are authorized to process and act upon (approve, modify or deny) petitions for approval of adjustments in wages, salaries and other compensation with respect to the following:

A. Petitions filed under sections 2 (a) (2) (vi) and 2 (b) (3) of GWR 5, Revised: *Provided, however,* That the approval shall not permit the total amount of merit and length of service increases combined that may be granted in any calendar year to an appropriate group of employees to exceed 6 percent of the total of the straight-time rates of such employees.

B. Petitions filed under GWR 6, section 4 (Base Pay Period Abnormalities). In acting on such petitions, the Regional Boards should conform to Paragraphs 1, 2, 3 and 4 of Resolution 30. In appropriate cases the Regional Boards may approve substitute base pay periods different from the periods suggested in Paragraphs 1 and 2 of Resolution 30. Regional Boards may also act upon unusual cases involving firms or industries in which the rates on or about January 15, 1950, were grossly out of line with their normal relationships.

C. Petitions filed under section 4 of GWR 8, Revised (Cost-of-Living Increases).

D. Reports and petitions filed under GWR 9 (New Plants). This includes authority to act upon fringe items for new plants except pension benefits and other benefits covered by GWR 21, and health, welfare, sick leave, and insurance benefits covered by GWR 19.

E. Petitions filed under GWR 10 (Tandem Wage Increases), excluding proposed adjustments based upon deferred increases, annual improvement factor increases, cost-of-living increases, or fringe benefits of the kind covered by GWR 13, Revised.

F. Petitions filed under GWR 11 (Agricultural Wages) and area ceiling determinations authorized under Resolution 37.

G. Petitions filed under GWR 13, Revised (Fringe Benefits).

H. Petitions for approval of bonus payments which are not unstabilizing in effect, and which are within the following limitations:

(1) *GWR 14, section 2 Plans.* A Regional Board may approve bonus payments pursuant to plans which conform in all respects to section 2 (a) of GWR 14, but where the total amount of the bonus, as computed under the plan, cannot be distributed under the conditions imposed by section 2 (b).

(2) *GWR 14, sections 3 and 5, Bonuses exceeding 25 percent.* A Regional Board may approve bonus payments to individual employees of more than 25 percent of their total wages, salaries and other compensation, excluding bonuses, if such payments are in accord with the employer's past practice.

(3) *GWR 14, section 3, Payments.* As to bonus payments made in prior years but not in accordance with an established plan, a Regional Board may approve bonus payments to the employees in an appropriate employee unit, provided the petitioner demonstrates that the reason no bonus or a smaller bonus than in preceding years was paid in 1950 was a clearly depressed condition with respect to sales or profits of the establishment involved, but within the following standards:

(a) The percentage of employees in the unit who are paid bonuses in the current year shall not exceed the average percentage of employees in the unit who were paid bonuses in any three calendar or fiscal years between 1946 and 1950 inclusive but not including any period prior to January 1, 1946.

(b) The average amount or percentage of bonus paid to the employees in the current bonus year shall not exceed the average amount or percentage paid in the same three-year period referred to above, and

(c) No employee in the unit shall receive a bonus in an amount or percentage greater than the average of the largest bonus paid in each year of the same three-year period referred to above.

(4) *Extension of existing bonus plans.* A Regional Board may approve the extension of existing bonus plans or practices to newly acquired establishments of the same employer.

I. Petitions filed under GWR 17 (Inter-Plant Inequities).

J. Petitions filed under GWR 18 (Intra-Plant Inequities).

K. Petitions filed under GWR 20, excluding, however, petitions seeking adjustments in the compensation arrangements of life insurance agents.

L. (1) Petitions which can be acted upon under Board Resolution 22, as amended, subject to Resolution 23 and subject to the following limitations:

(a) The petition must be based upon a collective bargaining agreement executed, or

a formal written announcement to employees made, prior to January 26, 1951;

(b) The applicable provision of the collective bargaining agreement or the formal announcement must be similar in effect to the corresponding clause in the General Motors-UAW contract (copies of the latter clause have been furnished to the Regions);

(c) The agreement or policy must be binding for a period of at least two years from the date of execution or announcement. However, Regional Boards may act upon cases involving agreements or policies of less than 2 years' duration, taking into consideration whether approval of the increase would have an unstabilizing effect;

(d) The increase must not be greater than 4 cents per hour, or 2 percent of the average straight-time hourly earnings of the appropriate employee unit, whichever is greater.

(2) Petitions which can be acted upon under Resolution 90.

M. Petitions which can be acted upon under Resolution 43 (Deferred Increases).

N. Petitions filed under Resolution 68 (GWRs 6 and 8, Revised, Applied to Multi-Employer Bargaining Negotiations).

O. Petitions filed under Resolution 69 (Equal Pay for Equal Work).

P. Petitions filed under Resolution 70 (Wage Incentives).

Q. Petitions filed under Resolution 71 (Adjustments in Piece and Incentive Rates under GWR 6).

R. Petitions filed under Resolution 81 (Operators of Over-the-Road Trucks and Buses).

S. Petitions involving adjustments in wages for employees engaged in oil well drilling. In such cases, a Regional Board may act upon petitions to set rates for the employees of employers whose principal places of business are within the region for all operations within the geographical boundaries of the region, and also for operations in other regions, after consultation with the affected Regional Boards.

Regional Boards shall forward to the National Office in Washington all petitions which they may not process and act upon under Section I of this delegation of authority.

II. Regional Boards shall not process and act upon petitions with respect to the following:

A. Employees directly hired by the Federal Government.

B. Employees at government-owned and privately operated facilities.

C. Establishments located in more than one Board region or in which the petition alleges, as one of the bases for approval, that the proposal is related to or dependent upon pending petitions or existing collective bargaining contracts involving other establishments of the petitioner which are located in other Board regions. The Executive Director, however, after consultation with all affected Regions, may authorize a particular Regional Board to process and act upon a petition involving establishments located in more than one region in cases where all but a relatively few employees are located in that region.

D. Any of the dispute functions of the Board.

E. Petitions filed under GWR 6, Section 5 (Rare and Unusual Cases). However, the Regional Board shall forward to Washington its comments and recommendations on the possible unstabilizing effects of the proposed increases within the locality or region.

F. An industry for which a commission or other special agency is provided by the Board or in such other industries where the National Board determines that the cases shall be processed by the National Board or by a designated Regional Board.

III. Staff authorization in the Regions: Each Regional Board shall, as early as practicable and in accordance with current instructions, define the authority of the Regional Director of Case Analysis to process and act upon certain types of cases, subject to review by the Regional Board on appeal or on its own motion. It is expected that the Director of Case Analysis will be authorized to act upon cases involving the application of established Board policy, but not upon doubtful cases or cases which require tripartite consideration. Each such delegation of authority, and changes thereof, shall be reported immediately to the Executive Director. At the present time delegations to the Regional staffs are limited to approvals only.

RESOLUTION 82—OIL DRILLING PETITIONS

FEBRUARY 1, 1952.

[Resolved that:] In line with the Wage Stabilization Board's decisions in a series of petitions in oil drilling cases, the Board hereby authorizes the Regional Boards to act upon other regional petitions in this industry.

RESOLUTION 85—PROCESSING OF CASES UNDER GENERAL WAGE REGULATION 21

FEBRUARY 22, 1952.

Pending further instructions by the Board, the Executive Director shall process cases filed under General Wage Regulation 21 within the 30-day waiting period provided in section 5 thereof.

Any case which does not meet the requirements of General Wage Regulation 21 or which raises a question as to whether the plan may be unstabilizing shall be referred to a Division of the Board. The Division shall be empowered to take final action, subject to the right of any member of the Division to refer the case to the full Board.

RESOLUTION 86—PRESSED AND BLOWN GLASSWARE INDUSTRY

FEBRUARY 26, 1952.

Whereas, wages in automatic machine plants; commercial mould shops; and hand and combination plants in the pressed and blown glassware industry follow sub-industry-wide patterns:

Now therefore, be it resolved: That the Executive Director and the Regional Boards are hereby authorized to approve petitions in the pressed and blown glassware industry based upon the wage and fringe adjustments approved by the National Board in Cases N-14622 and N-14873 (involving National Association of Manufacturers of Pressed and Blown Glassware and the American Flint Glass Workers, AFL), where the petitioner establishes that the plant involved has followed the sub-industry pattern in the past as follows:

1. *For automatic machine plants and commercial mould shops; effective September 3, 1951.* a. Across-the-board increase of 6 percent, with a minimum of 8.5 cents;

b. Double time pay, in addition to holiday pay, for holidays worked.

2. *For hand and combination plants.* a. Across-the-board increase of 6 percent, with a minimum of 8.5 cents; 5 cents of which is effective September 3, 1951, and the remainder effective February 14, 1952.

b. Additional three paid holidays, for a total of six holidays;

c. Qualifying hours for paid vacation reduced from 1,500 to 1,200 per year;

d. Employees with 10 or more years continuous service with an employer, with less than 1,200 hours service during any year, to be permitted to receive prorated paid vacations.

RESOLUTION 91—COST-OF-LIVING PROVISIONS IN AUTOMOTIVE AND AUTOMOBILE PARTS INDUSTRIES

APRIL 9, 1952.

Cost-of-living provisions put into effect after January 25, 1951, in the automotive and automotive parts industries under the jurisdiction of the Detroit Regional Board.

1. The Detroit Regional Board is authorized to entertain and approve petitions for approval of new cost-of-living provisions adopted after January 25, 1951, in the automotive and automotive parts industries, which provide a 1 cent per hour adjustment for each 1.14 point change in the National Consumers' Price Index of the Bureau of Labor Statistics subsequent to January 15, 1951, or some date thereafter.

2. The proposed provision must satisfy the requirements contained in paragraph (b) of section 3 of General Wage Regulation 8 (Revised).

3. Paragraph (c) and (d) of section 3 of General Wage Regulation 8 (Revised), shall be applicable to any cost-of-living provision approved by the Board under this Resolution.

4. As used in this Resolution, the term "automotive and automotive parts industries" includes establishments engaged in the manufacture of motor vehicles, passenger-car, truck and bus bodies, truck and automobile trailers, motor vehicle parts and accessories, automobile stampings, motor vehicle hardware, storage batteries and other parts and equipment used in the manufacture of motor vehicles.

NATHAN P. FEINSINGER,
Chairman.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 9996, 10202]

FARMERS BROADCASTING SERVICE, INC. (WELS)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Farmers Broadcasting Service, Inc. (WELS), Kinston, North Carolina, for transfer of control, Docket No. 996, File No. BTC-1111, and Farmers Broadcasting Service, Inc. (WELS), Kinston, North Carolina, for renewal of license, Docket No. 10202, File No. BR-2524.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of May 1952;

The Commission having under consideration the Petition of Farmers Broadcasting Service, Inc. (hereinafter referred to as Farmers) for reconsideration of the Commission's action in designating for hearing the above-entitled application of Farmers for consent to the relinquishment of positive control of Farmers by E. L. Scott, Robert Wasdon and Jack Siegel, and for a grant of this application without hearing; and

It appearing, that the Commission, on June 27, 1951, designated the above-entitled application for hearing on issues looking towards obtaining information with respect to, among other things, the legal qualifications of Farmers, its officers, directors and stockholders; a possible unauthorized transfer of control of Farmers; and the control, management and ownership of Farmers since September 21, 1950; and

It further appearing, that, on the basis of the facts presented in the aforesaid petition, the Commission is still unable, at this time, to determine that grant of the above-entitled application would be in the public interest, convenience and necessity, in that the aforesaid petition presents no facts which were not before the Commission at the time it originally considered the aforesaid application and designated same for hearing; and

It further appearing, on the basis of information contained in the above-entitled application, and information obtained from a study of the subject petition, and the ownership and other records on file with the Commission, that a serious question exists as to possible concealment from and misrepresentation to the Commission of material facts regarding the ownership, construction or control of Station WELS by Farmers, its officers, directors, stockholders and agents; and

It further appearing, that there is presently pending before the Commission the above-entitled application for renewal of license of Station WELS; that the Commission is satisfied with the proposed programming of the station, but is unable, because of the questions set out in the preceding paragraphs, to conclude that a grant thereof would be in the public interest, convenience and necessity;

It is ordered, That the petition of Farmers for reconsideration and grant without hearing is denied; and

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the aforesaid application for renewal of license of Station WELS is designated for hearing in a consolidated proceeding with the above-entitled application of Farmers for consent to transfer control; and that the Commission Order of June 27, 1951, designating the above-entitled application for hearing is amended by the deletion of Issues Nos. 3 and 6, and the substitution thereof of new Issues Nos. 3 and 6, and by the addition of Issues Nos. 7 and 8:

3. To obtain full information as to the method or methods of financing the construction and operation of Station WELS from August 12, 1950, to date, and the sources of such financing, and more particularly, to determine the disposition of such funds by Farmers, its officers, directors, stockholders and agents, and whether the aforesaid method or methods so employed deviated from representations made with respect thereto in the application for construction permit.

6. To obtain full information as to the extent and method of participation, if any, by the proposed transferees in the financing, construction and operation of Station WELS from August 12, 1950, to date, and to determine whether Farmers has, at any time since August 12, 1950, been controlled or operated by a stockholder group which has not been authorized to operate or control the licensee corporation, in violation of sections 301, 310 (b) and 319 (b) of the Communications Act of 1934, as amended.

7. To determine whether Farmers, its officers, directors, stockholders or agents, have concealed information from the Commission regarding the ownership, operation, construction and control of Farmers, or have misrepresented the facts concerning such operation, ownership, construction and control in applications, reports and letters which they have, from time to time, filed with the Commission, with particular reference to the following:

(a) Whether Farmers, its officers, directors, stockholders and agents concealed or misrepresented facts as to who were the officers and directors of Farmers in the Annual Ownership Report (FCC Form 323), sworn to September 29, 1950.

(b) Whether, although the aforementioned Annual Ownership Report (FCC Form 323) was sworn to by Jack Siegel, as Secretary-Treasurer of Farmers, Leroy Arnold, in fact, held this office at that time.

(c) Whether Farmers, its officers, directors, stockholders and agents concealed or misrepresented, in the aforementioned Annual Ownership Report, facts regarding the stock subscriptions by newcomers.

(d) Whether Farmers, its officers, directors, stockholders and agents, concealed or misrepresented facts in its application for license (BL-4213).

8. To determine whether, in light of evidence adduced under the foregoing issues, the public interest, convenience and necessity would be served by a grant of the above-entitled renewal application.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-6101; Filed, June 3, 1952; 8:48 a. m.]

[Docket No. 10151]

WESTERN UNION TELEGRAPH CO.

ORDER GRANTING POSTPONEMENT OF HEARING

In the matter of The Western Union Telegraph Company, divestment of its international telegraph operations, Docket No. 10151.

The Commission having under consideration a motion filed May 16, 1952, by The Western Union Telegraph Company, requesting the hearing now scheduled June 3, 1952, be postponed until October 7, 1952; a response thereto filed on May 19, 1952, on behalf of the American Cable & Radio Corporation; and a statement filed May 20, 1952, by RCA Communications, Inc.; and

It appearing that the reason for the requested postponement of the hearing arises out of the fact that because of labor difficulties existing at The Western Union Telegraph Company, company officials have been unavailable for the purpose of preparing for this proceeding, that after the labor troubles are settled it will take some time to prepare for the hearing and to gather certain material which has been requested by the Commission staff; and

It appearing from the response filed by the American Cable & Radio Corporation that while that company does not object to the requested postponement of the hearing date, it wishes to note that its failure to object should not be construed as its consent to a further extension of a full year beyond September 27, 1952, for Western Union to divest itself of its international telegraph operations; and

It appearing from the statement of RCA Communications, Inc. that that company does not impose an objection to the request for the postponement of the hearing date with the understanding that its failure to object to the extension should not be construed as a consent by RCA Communications, Inc., for a further request by Western Union for a 1-year extension of time to operate its cables; and

It appearing that the reasons for the motion for postponement of hearing were discussed at the Pre-Hearing Conference held May 13, 1952, that no party to the proceeding has objected to the postponement, that the formal motion has been on file for more than 4 days, and that good cause for the requested postponement of the hearing has been shown;

It is ordered, This the 23d day of May 1952, that the motion for postponement of hearing be and it is hereby granted and the hearing in the above-entitled proceeding is continued from June 3, 1952 to October 7, 1952, beginning at 10:00 a. m. in the offices of the Commission at Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary,

[F. R. Doc. 52-6099; Filed, June 3, 1952; 8:47 a. m.]

[Docket Nos. 10199, 10204]

ARCTIC TELEPHONE AND TELEGRAPH CO. AND AERONAUTICAL RADIO, INC.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Arctic Telephone and Telegraph Company, File No. 8107-A3-P-F, for construction permit for an aeronautical and aeronautical fixed station to be located at the International Airport, Spenard, Alaska, Docket No. 10199, File No. 8107-A3-P-F; and Aeronautical Radio, Inc., File No. 14572-A3-P-G, for construction permit to relocate aeronautical and aeronautical fixed stations KWH2/KWC99 from Elmendorf Field to the International Airport, Spenard, Alaska, Docket No. 10204, File No. 14572-A3-P-G.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of May 1952;

The Commission, having under consideration the above described applications for aeronautical facilities at the International Airport, Spenard (Anchorage), Alaska; and

It appearing, that § 9.431 of the Commission's rules and regulations governing aeronautical services provides that aeronautical land stations shall provide nonpublic service of the particular class authorized without discrimination to any aircraft station licensee who makes cooperative arrangements for their operation and maintenance and for shared liability in their operation; and

It further appearing, that the aeronautical and aeronautical fixed station KWO3/KWD86, licensed to Aeronautical Radio, Inc., and located at City Airport,

also known as Merrill Field, Anchorage, Alaska may be capable of serving aircraft utilizing the said International Airport in accordance with the provisions of § 9.431:

It is ordered, That pursuant to the provisions of section 309 (a) of the Communications Act of 1934, as amended, the above entitled applications are designated for hearing in a consolidated proceeding to be held at Washington, D. C., on a date to be specified in a subsequent order upon the following issues:

(1) To determine whether the existing facilities of station KWO3/KWD86 are adequate for and capable of rendering service to aircraft utilizing the International Airport.

(2) To determine the legal, technical and financial qualifications of each of the above named applicants to construct and operate the proposed stations.

(3) To determine whether the applicants will render the proposed service without discrimination to any aircraft station licensee who makes cooperative arrangements for the operation and maintenance of the proposed station and for shared liability in its operation, as required by § 9.431 of the Commission's rules.

(4) To determine, when considered on a comparative basis, which, if either, of the applicants would better serve the public interest, if the International Airport cannot be served by KWO3/KWD86.

FORM FOR APPLICATION FOR AUTHORITY TO CONSTRUCT A NEW BROADCAST STATION OR MAKE CHANGES IN AN EXISTING BROADCAST STATION

INTERPRETATION OF STREET ADDRESS

MAY 21, 1952.

In connection with a number of inquiries which have been received, the Federal Communications Commission announced today that the box entitled "Street Address" in Question 16 of Section V-C of FCC Form 301, "Application For Authority To Construct A New Broadcast Station Or Make Changes In An Existing Broadcast Station" is interpreted to mean "Street Address, if known."

Released: May 22, 1952.

[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-6102; Filed, June 3, 1952; 8:48 a. m.]

[Docket Nos. 10062, 10063, 10084]

NORTH SHORE BROADCASTING CO., INC., ET AL.

ORDER CONTINUING MOTION TO RECONVENE HEARING

In re applications of North Shore Broadcasting Co., Inc., Evanston, Illinois, Docket No. 10062, File No. BP-8094; B & C Radio Company, Rockford, Illinois, Docket No. 10063, File No. BP-8191; Rock River Broadcasting Company, Rockford, Illinois, Docket No. 10084; File No. BP-8286; for construction permits.

The Commission having under consideration a motion, filed May 20, 1952, on behalf of the applicant B & C Radio Company, requesting that the hearing in this proceeding be reconvened on May 26, 1952; and

It appearing, from statements of various counsel made at an informal conference before the Hearing Examiner on Wednesday, May 21, 1952, at which counsel for six of the parties to this proceeding attended, and also from informal telephone statements of counsel for each of the other two parties to this proceeding who have heretofore entered their appearance and participated herein, (the other two parties named by the Commission having heretofore waived their right to participate herein by failing to appear at or participate in the hearings held on November 15, 19, 20, and 21, 1951), that there is no objection to an early consideration of the instant motion notwithstanding the time of filing and notice requirements of § 1.745, and that the parties will not be fully prepared to proceed to hearing on the requested date of May 26, and that before the setting of a date for further hearing in this proceeding it is necessary and desirable to take certain preliminary and intermediate steps including the consideration and disposition of proposed amendments to applications and the exchange of engineering exhibits and the holding of a pre-hearing conference, all for the purpose of achieving the maximum of specificity and stability in each of the applications which are to proceed to further hearing upon engineering issues; and

It further appearing, on the basis stated above, that it is impractical at this time to predetermine and definitely fix a time within which the necessary preliminary steps shall be taken and that consequently the pending motion to reconvene the hearing properly should be treated as a continuing motion for the fixing of a date for further hearing to be considered at a time certain as hereinafter ordered, and

It further appearing, on the basis stated above, that the parties to this proceeding interpose no objection to the continuance of the motion as hereinafter ordered, and that such action will conduce to the orderly dispatch of the Commission's business and serve the ends of justice; now therefore;

It is ordered, This 23d day of May 1952, that the pending motion to reconvene the hearing be, and the same is hereby continued for further hearing thereon before the undersigned Hearing Examiner in Room 1083, Temporary T Building, 14th and Constitution Avenue NW., Washington, D. C., at 10:00 a. m., on Wednesday, May 28.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-6098; Filed, June 3, 1952; 8:47 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-1957]

ATLANTIC SEABOARD CORP.

NOTICE OF APPLICATION

MAY 28, 1952.

Take notice that Atlantic Seaboard Corporation (Applicant), a Delaware corporation, with its principal place of business in Charleston, West Virginia, filed on May 16, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission facilities hereinafter described.

Applicant proposes to supercharge four existing compressor units from 880 hp. to 1,100 hp. and install two additional 1,100 hp. compressor units in its Files Creek Station, on Applicant's West Virginia segment of the 26-inch Cobb-Rockville line for the purpose of providing sufficient capacity to meet increasing requirements of already certificated markets. The cost of the proposed facilities is estimated to be $595,000.

Applicant proposes to finance this construction from the sale of securities to Applicant's parent company, The Columbia Gas System, Inc.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of June 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-6080; Filed, June 3, 1952; 8:45 a. m.]

[Docket No. G-1959]

WILCOX TREND GATHERING SYSTEM, INC.

NOTICE OF APPLICATION

MAY 28, 1952.

Take notice that Wilcox Trend Gathering System, Inc. (Wilcox), a Delaware corporation having its principal place of business at 1403 Magnolia Building, Dallas 1, Texas, filed on May 19, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of:

(1) Approximately 157 miles of natural-gas transmission pipeline consisting of 88 miles of 14-inch pipeline commencing at a point in the Hagist Field in McMullen County, Texas, and extending in a northeasterly direction to a point approximately 8 miles southeast of Nordheim in Goliad County, Texas, and 69 miles of a 16-inch pipeline, interconnecting with the aforementioned 14-inch pipeline, which will extend in a northeasterly direction to the inlet side of the Goliad Gasoline Plant located in the Provident City Field, La Vaca County, Texas;

(2) Certain natural-gas pipelines of sizes from 3½ to 6⅝ inches totaling approximately 60 miles in length, more fully described in said application;

(3) One (1) 2,200 hp. compressor station and all appurtenant facilities to be located in De Witt County, Texas;

(4) Appurtenant metering and measuring stations and related facilities necessary for the operation of the aforementioned natural-gas facilities.

Wilcox proposes to purchase natural gas from the owners of various oil and gas wells located in certain producing fields in the State of Texas, all as fully described in said application; to collect and gather such natural gas, and transport it through the aforementioned natural-gas facilities to a point of interconnection with the existing facilities of Texas Eastern Transmission Corporation (Texas Eastern) in the Provident City Field, La Vaca County, Texas, and at said point of interconnection to sell natural gas to Texas Eastern for resale.

Wilcox estimates that the total capital cost of the proposed project is $10,583,156.00, and proposes to finance such cost by the issuance and sale of debt and equity securities. Wilcox states that the financing of its proposed project "* * * will take place at the same time as, and as a matter related to, the financing of the construction of certain additional facilities proposed to be constructed and operated by Texas Eastern."

Texas Eastern seeks certificate authorization for such additional facilities in the Matter of Texas Eastern Gas Transmission Corporation, Docket No. G-1947, filed April 24, 1952 with the Commission.

The application is on file with the Commission for public inspection.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of June 1952.

[SEAL] LEON M. FUQUAY,
Secretary.

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

REGIONAL REPRESENTATIVES

DELEGATION OF AUTHORITY TO DESIGNATE ACTING REGIONAL REPRESENTATIVES

1. Each Regional Representative of the Office of the Administrator Field Service is hereby authorized to designate the regional officer or officers next in order who shall act in his place and stead with the title of "Acting Regional Representative" in the event the Regional Representative is unable to act by reason of his absence, illness, or other cause.

2. Each officer so designated shall, while acting as "Acting Regional Representative", exercise all the powers and functions and assume the duties and responsibilities which have been delegated or assigned to the Regional Representative.

3. The authority herein delegated may not be redelegated.

(Reorg. Plan No. 3 of 1947, 61 Stat. 954 (1947); 62 Stat. 1268, 1283 (1948), as amended, 12 U. S. C., 1946 ed. Sup. IV 1701c; 63 Stat. 413, 440 (1949), 12 U. S. C., 1946 ed. Sup. IV 1701d-1)

Effective as of the 4th day of June 1952.

RAYMOND M. FOLEY,
Housing and Home Finance Administrator.

SECURITIES AND EXCHANGE COMMISSION

ADAMS & CO. ET AL.

ORDER REVOKING REGISTRATIONS AS BROKERS AND DEALERS

MAY 28, 1952.

In the matter of Adams & Co., 105 W. Adams St., Bennett, Spanier & Co., Inc., 105 S. LaSalle St., and Ray T. Haas, 231 S. LaSalle St., Chicago, Illinois.

Proceedings having been instituted to determine whether the registrations as brokers and dealers of Adams & Co., Bennett, Spanier & Co., Inc., and Ray T. Haas should be revoked pursuant to section 15 (b) of the Securities Exchange Act of 1934, and whether Adams & Co. and Bennett, Spanier & Co., Inc. should be suspended or expelled from the National Association of Securities Dealers, Inc. pursuant to section 15A (l) (2) of said act;

A consolidated hearing having been held after appropriate notice, the hearing officer having filed a recommended decision and exceptions thereto having been filed;

The Commission having this day issued its findings and opinion; on the basis of said findings and opinion

It is ordered, That the registrations as brokers and dealers of Adams & Co., Bennett, Spanier & Co., Inc., and Ray T. Haas be and they hereby are revoked and that Adams & Co. and Bennett, Spanier & Co., Inc., be and they hereby are expelled from membership in the National Association of Securities Dealers, Inc.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27095]

SEWING MACHINE CABINETS AND RELATED ARTICLES FROM SOUTH BEND, IND., TO BRIDGEPORT, CONN.

APPLICATION FOR RELIEF

MAY 29, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. C. Schuldt, Agent, for carriers parties to his tariff I. C. C. No. 3758, pursuant to fourth-section order No. 9800.

Commodities involved: Sewing machine cabinets, stools, tables, and carrying cases, carloads.

From: South Bend, Ind.

To: Bridgeport, Conn.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 27096]

PULPWOOD FROM POINTS IN FLORIDA TO PANAMA CITY, FLA.

APPLICATION FOR RELIEF

MAY 29, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Atlantic Coast Line Railroad Company for itself and on behalf of Fort Myers Southern Railroad Company, Tampa Southern Railroad Company and Atlanta & Saint Andrews Bay Railway Company.

Commodities involved: Pulpwood, carloads.

From: Points in Florida.

To: Panama City, Fla.

Grounds for relief: To meet intrastate rates.

Schedules filed containing proposed rates: ACL RR. tariff I. C. C. No. B-3281, Supp. 33.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or

formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27097]

PAPER BOXES FROM QUINCY, ILL., TO POINTS IN IOWA

APPLICATION FOR RELIEF

MAY 29, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. E. Kipp, Agent, for carriers parties to his tariff I. C. C. No. A-3432.

Commodities involved: Boxes, fibreboard, corrugated or not corrugated, carloads.

From: Quincy, Ill.

To: Points in Iowa.

Grounds for relief: Competition with rail carriers, circuitous routes, and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: L. E. Kipp, Agent, I. C. C. No. A-3432, Supp. 163.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[Vesting Order 18882]

LEONHARD REINDLER ET AL.

In re: Cash owned by Leonhard Reindler and others. D-28-2079.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the persons whose names are listed below, each of whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

Leonhard Reindler.
Margarethe Braun.
Marie Leichs.
Babette Buettner.
Eva Reiter.
Barbara Schneider.
Marie Struetzer, also known as Marie Stuetzer.
Babette Uhlmann.
Margaretha Noelp.
Zacharius Tobias Grometer.
Georg Grometer.
Fritz Grometer.
Johann Grometer.
Babette Grometer.
Johanna Grometer.
Johann Kernstock.
Eva Barbara Baereiss, also known as Eva Barbara Buereiss.

2. That the property described as follows: Cash in the sum of $5,772.62 deposited with the Treasurer of the County of Cook, State of Illinois, pursuant to certain condemnation proceedings had with respect to that certain real property situated in the City of Chicago, County of Cook, State of Illinois, particularly described in Exhibit A, attached to and by reference made a part of Vesting Order 17078, dated January 17, 1951, in the Circuit Court of Cook County, Illinois, and entitled Chicago Land Clearance Commission, a municipal corporation, Petitioner, vs. Augustus E. Bennett, et al., Defendants, Case No. 50C 1869, relative to acquiring title to the said real property under the Eminent Domain Act of the State of Illinois, said sum representing the proceeds of said condemnation award made with respect to the said real property by virtue of the ownership thereof by the said persons named in subparagraph 1 hereof, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

subject, however, to all valid charges against said sum, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the persons named in subparagraph 1 hereof, the aforesaid nationals of a designated enemy country (Germany) and it is hereby determined:

3. That the national interest of the United States requires that the persons identified in subparagraph 1 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 28, 1952.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 18881]

CARRIE FOEHRINGER

In re: Estate of Carrie Foehringer, deceased. File No. 017-27457.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.), and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Wolfgang Gutwein, whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

2. That the property described as follows: The sum deposited with the Treasurer of the State of Missouri, Escheats Fund, pursuant to an order of the Probate Court of St. Louis County, Missouri, entered on October 28, 1941, in the matter of the Estate of Carrie Foehringer, deceased, and any and all additions thereto,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Wolfgang Gutwein, a national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person named in subparagraph 1 hereof be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 28, 1952.

For the Attorney General.

FEDERAL REGISTER

VOLUME 17 NUMBER 110

Washington, Thursday, June 5, 1952

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine, Department of Agriculture

PART 354—OVERTIME SERVICE RELATING TO IMPORTS AND EXPORTS

ADMINISTRATIVE INSTRUCTIONS PRESCRIBING COMMUTED TRAVEL TIME ALLOWANCES

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by § 354.1 of the regulations concerning overtime services relating to imports and exports, effective May 5, 1951, as amended effective May 13, 1952 (7 CFR Supp. 354.1; 16 F. R. 3972, 17 F. R. 4317), the following administrative instructions are hereby issued to prescribe the commuted travel time that shall be included in each period of overtime duty, as described in the said § 354.1.

§ 354.2 *Administrative instructions prescribing commuted travel time.* Each period of overtime duty, as prescribed in § 354.1 shall, in addition, include a commuted travel time period for the respective ports, stations, and areas in which employees are located, if such travel is performed solely on account of overtime or holiday service, as follows:

One hour:
- Blaine, Wash.
- Brownsville, Tex.
- Buffalo, N. Y.
- Calexico, Calif.
- Charleston, S. C.
- Charlotte Amalie, American Virgin Islands.
- Christiansted, American Virgin Islands.
- Del Rio, Tex.
- Douglas, Ariz.
- Eagle Pass, Tex.
- El Paso, Tex.
- Galveston, Tex.
- Hidalgo, Tex.
- Hilo, T. H.
- Honolulu, T. H.
- Laredo, Tex.
- Memphis, Tenn.
- Mercedes, Tex.
- Nogales, Ariz.
- Omaha, Nebr.
- Pittsburgh, Pa.
- Port Arthur, Tex.
- Presidio, Tex.
- Ramey Air Force Base, P. R.
- Reina, Tex.
- San Antonio, Tex.

One hour—Continued
- San Juan, P. R.
- San Ysidro, Calif.
- St. Albans, Vt.
- St. Paul, Minn.
- Texas City, Tex. (served from Galveston, Tex.).
- Westover Field, Mass.
- West Palm Beach, Fla.

Two hours:
- Anchorage, Alaska.
- Arlington, Va.
- Atlanta, Ga.
- Beaumont, Tex. (served from Port Arthur).
- Bellingham, Wash. (served from Blaine, Wash.).
- Dallas, Tex.
- Houston, Tex.
- Mobile, Ala.
- Moore Air Field (served from Hidalgo, Tex.).
- Niagara Falls, N. Y. (served from Buffalo, N. Y.).
- Norfolk, Va.
- Orange, Tex. (served from Port Arthur).
- Port Isabel, Tex. (served from Brownsville, Tex.).

Three hours:
- Baltimore, Md.
- Baytown, Tex. (served from Houston, Tex.).
- Boston, Mass.
- Chicago, Ill.
- Detroit, Mich.
- Freeport, Tex. (served from Galveston, Tex.).
- Gulfport, Miss. (served from Mobile, Ala.).
- Lake Charles, La. (served from Port Arthur, Tex.).
- Marfa Air Force Base (served from Presidio, Tex.).
- Mayaguez, P. R. (served from Ramey Air Force Base).
- New Orleans, La.
- New York, N. Y. (metropolitan area).
- Patuxent, Md. (served from Arlington, Va.).
- Philadelphia, Pa.
- Portland, Oreg.
- Roosevelt Roads, P. R. (served from San Juan, P. R.).
- St. Albans, Vt. (ports served from, but not including St. Albans).
- Seattle, Wash.
- Tucson, Ariz. (served from Nogales, Ariz.).
- Wilmington and other North Carolina ports served from Charleston, S. C.

These commuted travel time periods have been established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime duty when such travel is performed solely on account of

such overtime duty. Such establishment depends upon facts within the knowledge of the Bureau of Entomology and Plant Quarantine. It is to the benefit of the public that these instructions be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238), it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making these instructions effective less than thirty days after publication.

These administrative instructions shall be effective June 8, 1952.

(64 Stat. 561; 5 U. S. C. 576)

Done at Washington, D. C., this 23d day of May 1952.

[SEAL] AVERY S. HOYT,
Chief, Bureau of Entomology and Plant Quarantine.

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

[Amendment 3]

PART 713—COUNTY AND COMMUNITY COMMITTEES

SUBPART—SELECTION AND FUNCTIONS OF PRODUCTION AND MARKETING ADMINISTRATION COUNTY AND COMMUNITY COMMITTEES

COMMITTEEMEN AND DELEGATES

By virtue of the authority vested in the Secretary of Agriculture by the Soil Conservation and Domestic Allotment Act, as amended, the Regulations Pertaining to the Selection and Functions of Production and Marketing Administration County and Community Committees (14 F. R. 5916, 15 F. R. 4262, 16 F. R. 6998) are hereby amended by revising §§ 713.5, 713.6 and 713.16 as follows:

1. The introductory paragraph of § 713.5 is amended and the section is revised to read:

§ 713.5 *Who may vote for committeemen and delegates.* Any farmer who is of legal voting age and who has an interest in a farm as owner, tenant, or sharecropper and any farmer not of legal voting age who is in charge of the supervision and conduct of the farming operations on the entire farm shall be eligible to vote for committeemen and delegates in the community in which he has such an interest if:

(a) A payment or grant of conservation materials or services is or will be made with respect to the farm under the current Agricultural Conservation Program, or such payment or grant has been made under the program during any one of the preceding three years and there is being carried out on the farm one or more of the current program practices approved for the State by the State Production and Marketing Administration committee, referred to in this subpart as the "State committee";

(b) Such farmer is eligible for a cooperator's loan or other price support;

(c) Such farmer is eligible for a payment under the Sugar Act program; or

(d) Such farmer has a crop insurance contract with the Federal Crop Insurance Corporation.

In any State having community property law, the spouse of a farmer who is eligible to vote under the foregoing provisions shall also be eligible to vote.

2. A new sentence is added to follow the first sentence of § 713.6 and the section is revised to read:

§ 713.6 *Restrictions on voting.* Each eligible voter shall be entitled to only one vote on any one ballot in any election held in any one community or in the county convention. If the eligible voter has an interest in a farm in more than one community in the county, such voter shall not be entitled to vote in more than one such community in the county. There shall be no voting by proxy.

3. Section 713.16 is amended by deleting "October 1" and inserting in lieu

thereof "August 1," and the section is revised to read:

§ 713.16 *County and community committeemen.* The terms of office of county and community committeemen and alternates to such offices shall begin on January 1 next after their election unless an earlier date is authorized by the State committee, but in no event shall a full term of office begin before August 1 of the year immediately preceding the calendar year for which the committeeman is elected to serve. A term of office shall continue for 12 months or until a successor has been elected and qualified.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply 49 Stat. 1149, 52 Stat. 32, as amended; 16 U. S. C. 590h)

Done at Washington, D. C., this 2d day of June 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

PART 983—TYPE 62 SHADE-GROWN CIGAR-LEAF TOBACCO GROWN IN DESIGNATED PRODUCTION AREA OF FLORIDA AND GEORGIA

ORDER REGULATING HANDLING

EDITORIAL NOTE: The first paragraph of F. R. Doc. 52-6092, appearing at page 4971 of the issue for Tuesday, June 3, 1952, should be omitted.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter L—Irrigation Projects; Operation and Maintenance

PART 130—OPERATION AND MAINTENANCE CHARGES

FLATHEAD INDIAN IRRIGATION PROJECT, MONTANA

MAY 26, 1952.

On April 24, 1952, there was published in the daily issue of the FEDERAL REGISTER, notice of intention to modify §§ 130.24, 130.26 and 130.28 of Title 25, Code of Federal Regulations, dealing with irrigable lands of the Flathead Indian Irrigation Project, Montana, that are subject to the jurisdiction of the several irrigation districts, as follows:

Charges applicable to all irrigable lands of the Flathead Indian Irrigation Project that are included in the Irrigation District Organization and are subject to the jurisdiction of the three irrigation districts.

Interested persons were thereby given opportunity to participate in preparing the modification by submitting data or written arguments within 30 days from the publication of the notice. No objections were submitted. Accordingly, §§ 130.24, 130.26 and 130.28 are modified as follows:

§ 130.24 *Charges.* Pursuant to a contract executed by the Flathead Irrigation District, Flathead Indian Irrigation Project, Montana, on May 12, 1928, as supplemented and amended by later contracts dated February 27, 1929; March 28, 1934; August 26, 1936 and April 5, 1950, there is hereby fixed, for the season of 1953, an assessment of $189,100 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Flathead Irrigation District. This assessment involves an area of approximately 68,183 acres; does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 130.26 *Charges.* Pursuant to a contract executed by the Mission Irrigation District, Flathead Indian Irrigation project, Montana, on March 7, 1931, approved by the Secretary of the Interior on April 21, 1931, as supplemented and amended by later contracts dated June 2, 1934, June 6, 1936 and May 16, 1951, there is hereby fixed, for the season of 1953, an assessment of $34,500 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Mission Irrigation District. This assessment involves an area of approximately 12,751 acres; does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 130.28 *Charges.* Pursuant to a contract executed by the Jocko Valley Irrigation District, Flathead Indian Irrigation project, Montana, on November 13, 1934, approved by the Secretary of the Interior on February 26, 1935, as supplemented and amended by later contracts dated August 26, 1936 and April 18, 1950, there is hereby fixed, for the season of 1953, an assessment of $14,000 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Jocko Valley Irrigation District. This assessment involves an area of approximately 5,599 acres; does not include any lands held in trust for Indians and covers all proper general charges and project overhead.

(Secs. 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

PAUL L. FICKINGER,
Area Director.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Department of the Navy

PART 716—DEATH GRATUITY

Part 716 is revised to read as follows:

Sec.
716.1 General provisions; personnel embraced.
716.2 Delegations.
716.3 Preparation, submission, and allowance of claims.
716.4 Conclusiveness of determinations.

AUTHORITY: §§ 716.1 to 716.4 issued under sec. 1, 41 Stat. 824, as amended; 34 U. S. C. 943. Interpret or apply sec. 4, 54 Stat. 864, as amended, sec. 1, 55 Stat. 43, as amended; 46 Stat. 268, as amended, sec. 9, 56 Stat. 145, as amended; 34 U. S. C. 855c-1, 855c-2, 50 U. S. C. App. 1009.

§ 716.1 (a) *General provisions; personnel embraced.* The act of June 4, 1920, as amended (41 Stat. 824 as amended, 34 U. S. C. 943), the act of May 12, 1930, as amended (46 Stat. 268 as amended, 34 U. S. C. 944), the act of August 27, 1940, as amended (54 Stat. 864 as amended, 34 U. S. C. 855c-1), and the act of March 17, 1941, as amended (55 Stat. 43 as amended, 34 U. S. C. 855c-2) provide for the payment upon death from wounds or disease, not the result of his or her own misconduct, of an amount equal to six months' pay at the date of death, to the legal beneficiaires of (1) any officer, nurse, or enlisted man of the Regular Navy or Regular Marine Corps on the active list; (2) any officer, nurse or enlisted man of the Regular Navy or Regular Marine Corps on the retired list when on active duty; (3) any transferred members of the Fleet Reserve or Fleet Marine Corps Reserve on active duty; and (4) any officer, nurse, warrant officer, or enlisted man of the United States Naval Reserve or United States Marine Corps Reserve on active naval or military service in excess of thirty days or if called or ordered by the Federal Government to active naval or military service or to perform active duty for training or inactive-duty training for any period of time.

(b) *General provisions; beneficiaries.* The persons to whom the gratuity is payable in order of preference are: (1) The widow; (2) if there be no widow, the child or children; (3) if there be no widow or child, any dependent relative previously designated by the decedent, and (4) if there be no widow, child or previously designated dependent relative, the grandchild, parent, brother, sister or grandparent shown to have been dependent upon the decedent prior to his or her death. It is mandatory that transferred members of the Fleet Reserve or Fleet Marine Corps Reserve file with the Department of the Navy the name of a beneficiary other than wife or child to whom payment of the gratuity shall be made in the event of their death while on active duty and not the result of their own misconduct.

(c) *General provisions; date of death.* The act of March 7, 1942, as amended (56 Stat. 143 as amended, 50 App. U. S. C. 1001) provides that the date of death is to be determined by the Secretary of the Navy or such subordinate as he may designate.

§ 716.2 *Delegations.* The Director, Personal Affairs Division, Bureau of Naval Personnel has been granted authority by the Secretary of the Navy to determine the date of death, to determine the person entitled to the gratuity and to certify to the Bureau of Supplies and Accounts the person to receive such gratuity. The Head, Casualty Section, Personal Affairs Branch, Personnel Department, United States Marine Corps has been granted authority by the Secretary of the Navy to determine the date of death, to determine the person entitled to the gratuity and to certify to the Quartermaster General of the Marine Corps, Disbursing Branch the person to receive the gratuity.

§ 716.3 *Preparation, submission, and allowance of claims.* A claim form is forwarded ordinarily by the Bureau of Naval Personnel or by the Marine Corps to the person probably entitled to receive the gratuity; however, an informal claim may be submitted by the person who believes himself entitled to receive the gratuity. Information required, before a determination of entitlement can be made, is: (a) Name and address of claimant; (b) full name and service number of decedent; (c) relationship of claimant to decedent; and (d) a statement that payment of the gratuity has not been received. In cases where the Act requires that the beneficiary be dependent upon the decedent at the time of death, proof of such dependency is compulsory. In instances where the relationship of claimant to decedent is uncertain, proof of such relationship may be demanded.

§ 716.4 *Conclusiveness of determinations.* All determinations of date of death and entitlement to the gratuity are final and conclusive.

Dated: May 28, 1952.

DAN A. KIMBALL,
Secretary of the Navy.

[F. R. Doc. 52-6135; Filed, June 4, 1952; 8:46 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 135, Amdt. 2]

CPR 135—BAKERS, WHOLESALE AND RETAIL DISTRIBUTORS OF FROZEN AND PERISHABLE BAKERY ITEMS

EXTENSION OF MANDATORY EFFECTIVE DATE FOR NEW YORK RESTAURANT BAKERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment 2 to Ceiling Price Regulation 135 is hereby issued.

STATEMENT OF CONSIDERATIONS

This office is considering the issuance of a supplemental regulation to CPR 135 which would afford to sellers of bakery items to eating and drinking establishments in the New York metropolitan area an optional method of calculating ceiling prices for such sales. It cannot, however, be issued sufficiently in advance of the mandatory date for establishment of ceiling prices under CPR 135, to permit eligible bakers who desire to use the optional method under the proposed supplemental regulation to do so without first having made the calculations and filed the reports required by CPR 135. In order to avoid the needless inconvenience of making calculations and establishing ceiling prices which will not be used by bakers who elect the optional method, this amendment postpones until June 30, 1952, the mandatory effective date of CPR 135 for sales of bakery items to eating and drinking establishments in the New York metropolitan area.

In view of the emergency nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade associations, impracticable.

In the Director's judgment the provisions of this amendment are consistent with the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable provisions of that act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 135 is amended by adding a proviso postponing the mandatory effective date of the regulation for sales of items to eating and drinking establishments in the metropolitan New York area. The "effective date", as amended, reads as follows:

Effective date. This regulation is effective for all your items on June 2, 1952. You may, however, select an earlier effective date between April 10, 1952 and June 2, 1952. If you select an earlier date with respect to any item, this regulation becomes effective as to you on that date for all your items: *Provided, however,* That for sales to eating and drinking establishments located in the counties of New York, Kings, Queens, Bronx, Richmond, Rockland, Westchester, Suffolk and Nassau in the State of New York and in the counties of Bergen, Hudson, Union and Passaic in the State of New Jersey, this regulation is effective June 30, 1952 or such earlier date as you select.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective June 3, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

[F. R. Doc. 52-6207; Filed, June 3, 1952; 3:46 p. m.]

[Ceiling Price Regulation 148]

CPR 148—VEGETABLE PARCHMENT PAPER AND VEGETABLE PARCHMENTIZING STOCK

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 148 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation spells out dollars-and-cents ceiling prices for manufacturers of four basic grades of vegetable parchment paper and provides methods for determining ceiling prices for related grades. This regulation applies in the 48 states of the United States and in the District of Columbia.

Description of the product and the industry covered. Vegetable parchment is a pure cellulose sheet of paper characterized by its high wet strength and grease resistance. It is prepared by passing a waterleaf sheet made from rag, cotton linters, pure chemical wood pulp, or any combination thereof, through a bath of sulphuric acid and then thoroughly washed and dried. Further processing might be carried out, such as waxing and printing. Practically the entire product of the industry is used in the wrapping and packaging of foods. It is termed vegetable parchment to distinguish it from animal skin parchment which it resembles.

Four manufacturers comprise the entire industry, producing 35 thousand tons in 1950 which had a sales value of 18 million dollars. Two companies, one in Michigan and the other in Pennsylvania, turn out 85 percent of the tonnage. The other two are located in Ohio and Oregon. The only integrated mill entirely within the United States is the smallest, producing less than 5 percent of the total; the other small producer buys its waterleaf as raw material. The remaining 2 mills manufacture their parchmentizing stock from bleached sulphate pulp purchased primarily from Canadian and European producers.

Most of the grades of vegetable parchment are well standardized and competitive factors cause the prices of the four manufacturers to approach uniformity under normal circumstances. The products customarily are sold f. o. b. the mill in quantities less than 100 pounds but for larger orders there are varying freight allowances.

Recent economic developments. Production in this industry has increased by about one quarter since World War II.

Year:	Production (tons)
1945	29,000
1947	33,000
1948	25,000
1949	28,000
1950	33,000
1951	37,000

Most of this increase in production came after the outbreak of the Korean War, but lately a reversal in trend is indicated as it is now at approximately the level existing during the six month period immediately preceding the hostilities.

Quarter:	Production (tons)
1950—1st quarter	7,500
2nd quarter	7,500
3rd quarter	8,500
4th quarter	9,500
1951—1st quarter	9,500
2nd quarter	9,500
3rd quarter	8,500
4th quarter	9,500
1952—1st quarter	7,000

Source: Annual and quarterly production data from Vegetable Parchment Manufacturers' Association.

The prices of vegetable parchment papers went up about 12 percent from the pre-Korean period to the general freeze period in January 1951. Under CPR 22, manufacturers of approximately 85 percent of the industry tonnage obtained a higher ceiling than under GCPR. The present level of prices is in between the average of ceiling prices under CPR 22 and the prices at the time of the freeze.

Summary of the main features of the regulation. This regulation spells out uniform dollar and cent ceiling prices for the major grades of vegetable parch-

ment covering about 75 percent of the industry's total tonnage, and provides an adjustment factor for most other grades of parchment whereby their ceiling prices may be calculated. The ceiling prices of cotton linter parchments, which account for less than one percent of the industry's production, are frozen by this regulation at the prices in effect during the first quarter of 1952. The ceiling price of vegetable parchmentizing stock (waterleaf) also is frozen at the prices in effect during the first quarter of 1952. All differentials, discounts, allowances, etc. are frozen at the level that prevailed during the period of January 25, 1951 through February 24, 1951.

The level of ceiling prices established in the regulation. The ceiling prices in this regulation are at the level prevailing just before the date of issuance of this regulation. For vegetable parchment paper this results in a level of prices 19 percent higher than in June 1950 and 6 percent higher than under the General Ceiling Price Regulation.

FINDINGS OF THE DIRECTOR

In the judgment of the Director of Price Stabilization, the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objective of the Defense Production Act of 1950, as amended; to prices prevailing during the period January 25 through February 24, 1951, and just before the issuance of this regulation, and to relevant factors of general applicability.

In the formulation of this regulation there has been consultation with industry representatives, including two industry advisory committee meetings and with trade association representatives, and consideration has been given to their recommendations.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practice or methods or means or aids to distribution, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

REGULATORY PROVISIONS

Sec.
1. Coverage of this regulation.
2. Applicability.
3. Ceiling prices for vegetable parchment papers.
4. Ceiling prices for cotton linter parchment.
5. Ceiling prices for vegetable parchmentizing stock.
6. Differentials.
7. Ceiling prices for grades not covered under other sections.
8. Rounding of ceiling prices.
9. Prices lower than ceiling prices.
10. Adjustment of ceiling prices.
11. Modification of ceiling prices by the Director of Price Stabilization.
12. Petitions for amendment.
13. Adjustable pricing.
14. Taxes separately stated.
15. Exports and imports.
16. Transfers of business or stock in trade.
17. Prohibitions and violations.
18. Evasions.
19. Records and reports.
20. Definitions.

AUTHORITY: Sections 1 through 20 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *Coverage of this regulation.* This regulation establishes dollar-and-cent base prices for sales by manufacturers of four basic grades of vegetable parchment papers. The base prices of other grades of vegetable parchment papers, except cotton linter parchment, are determined by the application of an adjustment factor. The base prices of cotton linter parchment and vegetable parchmentizing stock are frozen at their highest market levels prevailing in the first quarter of 1952. Ceiling prices of the products covered by this regulation are determined by applying to the base prices the manufacturers' customary differentials, discounts and allowances during the base period. This regulation supersedes the General Ceiling Price Regulation and Ceiling Price Regulation 22 with respect to sales by manufacturers of vegetable parchment papers and vegetable parchmentizing stock.

SEC. 2. *Applicability.* The provisions of this regulation apply to all sales within the 48 states of the United States and the District of Columbia by manufacturers of the commodities covered by this regulation.

SEC. 3. *Ceiling prices for vegetable parchment papers.*—(a) *Base prices for certain grades.* The base prices per hundredweight in rolls, 9 inches or more in diameter, 4 inches or more in width and in quantities of 500 pounds or more, for the following grades shall be:

Basis weight (pounds)	Grade	Base price (per hundredweight)
18	Vegetable parchment untreated	$34.65
27	Standard vegetable parchment	27.00
35 and 45	do	26.30
35 and 40	Brown parchmentized kraft	20.60

(b) *How to determine base prices for other grades.* The base prices for grades of vegetable parchment paper, other than those listed in paragraph (a) of this section and those in section 5, shall be determined by you as follows: Take the highest base price at which a grade was sold or offered for sale in writing by you during the base period in the same quantity to a purchaser of the same class and multiply it by 1.0588. The resulting figure is your base price for sales of that grade in like quantities to purchasers of the same class.

(c) *Differentials.* To the base prices established in paragraphs (a) or (b) of this section, you shall apply the appropriate differentials described in section 6 which were in effect during the period January 25 through February 24, 1951. In the event no differentials are added to your base price, your base price is your ceiling price.

SEC. 4. *Ceiling prices for cotton linter parchment.*—(a) *Definition.* Cotton linter parchment is a vegetable parchment grade consisting of 50 percent or more cotton linter pulp. It may be used alone or laminated to a cotton sheeting base.

(b) *Base price.* The base price of cotton linter parchment shall be no higher than the highest base price at which it was sold or offered for sale by you in writing during the first quarter of 1952 in the same quantity to a purchaser of the same class.

(c) *Differentials.* To the base prices established in paragraph (b) of this section you shall apply the appropriate differentials described in section 6 which were in effect during the first quarter of 1952. In the event no differentials are added to your base price, your base price is your ceiling price.

SEC. 5. *Ceiling prices for vegetable parchmentizing stock.*—(a) *Definition.* Vegetable parchmentizing stock is the base paper or waterleaf used in the manufacture of vegetable parchment paper.

(b) *Base price.* The base price of vegetable parchmentizing stock shall be no higher than the highest base price at which it was sold or offered for sale by you in writing during the first quarter of 1952 in the same quantity to a purchaser of the same class.

(c) *Differentials.* To the base prices established in paragraph (b) of this section, you shall apply the appropriate differentials described in section 6 which were in effect during the first quarter of 1952. In the event no differentials are added to your base price, your base price is your ceiling price.

SEC. 6. *Differentials.* You shall maintain your customary price differentials, freight practices, discounts and allowances in effect during the base period as specified in the applicable section, for differences in classes of purchasers, location of purchasers, quantities, terms and conditions of sale or delivery, and product variations such as, but not limited to, printing, waxing, basis weight, color, finish, sheets, rolls, packing and die-cutting.

(b) *New differentials.* If you desire to establish a charge for a differential which you did not have during the base period, you may apply therefor under section 7, giving all the information required with respect to the differential only.

SEC. 7. *Ceiling prices for grades not covered under other sections.* (a) If you are unable to determine your ceiling price for a grade under any of the foregoing sections of this regulation, you shall apply in writing by registered mail, return receipt requested, to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., for the establishment of a ceiling price. This application shall contain: (1) Name and address of your company; (2) an explanation of why you are unable to determine your ceiling price under any other section of this regulation; (3) a description, including the method of manufacturing the grade; (4) your proposed base prices and differentials; (5) the base price under this regulation, differentials, and description of the most comparable grade made by you; (6) the detailed current unit direct cost of the comparable grade; (7) the detailed current unit direct cost of the grade for which a ceiling price is requested; and (8) the base price and differentials under this regulation of your closest competitor for the same grade, or if the same grade is not made by him, his most comparable grade. You shall also submit any clarifying information subsequently requested by the Office of Price Stabilization.

(b) Except as provided in paragraph (e), you may not sell the grade until the Director of Price Stabilization in writing establishes your ceiling price for the grade. However, if within 21 days from the filing of the application you have not received notice from the Director approving, disapproving, or modifying the proposed base price and differentials, requesting additional information, or extending for cause the time within which to do any of the foregoing, such application may be deemed to have been approved, subject to non-retroactive disapproval or modification at any later time by the Director.

(c) Where the grade was manufactured and sold by you prior to the effective date of this regulation you may continue to sell such item at a price not to exceed the highest price actually charged each class of purchaser (defined in section 19) during the period from February 25, 1951 to the effective date of this regulation, until your ceiling price for the item has been established under paragraph (b) of this section.

SEC. 8. *Rounding of ceiling prices.* You shall round your prices in the same manner that you used during the base period when calculating ceiling prices under this regulation except that this section does not apply to the spelled out prices contained in section 3. For example, if you rounded to the nearest five cents, odd cents shall be dropped if less than two and one half cents and may be increased to the nearest higher five cents if two and one half cents or more, similarly in rounding to the nearest cent, fractions of less than a half cent shall be dropped but fractions of one half cent or more may be increased to the nearest higher cent.

SEC. 9. *Prices lower than ceiling prices.* Lower prices than the ceiling prices established by this regulation may be charged, demanded, paid or offered.

SEC. 10. *Adjustment of ceiling prices.* (a) Upon application or upon his own motion the Director of Price Stabilization may adjust any ceiling price established under this regulation so as to bring it into line with the general level of ceiling prices established by this regulation or by regulations specifically establishing ceiling prices for other grades of paper.

(b) Applications for adjustment shall be filed with the Forest Products Division, Office of Price Stabilization, Washington 25, D. C., and contain the following:

(1) The name and address of your company.

(2) The brand name, grade name, if any, specifications and a sample of the paper which is the subject of the application.

(3) The ceiling price for this grade established under this regulation and the computations by which this price was calculated.

(4) The ceiling price for this or a comparable grade of your closest competitor. Give the name of your competitor, the brand and grade name, if any, of the paper used in the comparison.

(5) Information as to the customary differentials, which existed prior to or during price control, between grades of paper demonstrating the necessity for adjusting the prices which are the subject of your application so as to bring them into line with the general level of ceiling prices established by this regulation or by regulations specifically establishing ceiling prices for other grades of paper.

(c) You may not make any adjustment applied for under this section unless and until you have been notified by letter order that you may do so by the Director of Price Stabilization.

SEC. 11. *Modification of ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices established under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 12. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revised.

SEC. 13. *Adjustable pricing.* Any person may agree to sell or may sell at a price which can be increased up to the ceiling price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Stabilization, agree to sell or sell at prices to be adjusted upward in accordance with any increase in a ceiling price after delivery. Such authorization may be given when a request for a change in the applicable ceiling price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purpose of the Defense Production Act of 1950, as amended.

SEC. 14. *Taxes separately stated.* (a) In addition to your ceiling price, you may collect the amount of any excise, sale or similar federal, state or local taxes paid by you as such only if it has been your practice to state and collect such taxes separately from your selling price for the same or similar commodities.

(b) If such a tax is imposed by a law which is not effective until after the effective date of this regulation, or if any increase in such a tax is made subsequent to the effective date of this regulation, you may collect the amount of the tax actually paid as such by you, if not prohibited by the tax law. You must in all such cases state separately the amount of tax paid.

SEC. 15. *Exports and imports.* The ceiling price for export sales of vegetable parchment paper is determined under Ceiling Price Regulation 61. The ceiling price for sales of vegetable parchment paper imported into the United States is determined under Ceiling Price Regulation 31.

SEC. 16. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after the issue date of this regulation and the transferee carries on the business or continues to deal in the same type of commodities or services in an establishment separate from any other establishment previously owned or operated by him, the ceiling prices of the transferee and his practice with respect to sales of vegetable parchment paper shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records in accordance with section 19 shall be the same. The transferor shall either preserve and make available for so long as the Defense Production Act of 1950, as amended, remains in effect or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 17. *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling prices established by this regulation, and you shall keep, make, and preserve true and accurate records and reports required by this regulation.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and action for damages.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 18. *Evasions.* Any means or devices which result in obtaining indirectly a higher price than is permitted by this regulation or in concealing or falsely representing information required for record purposes is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements and trade understandings, as well as the omission from the records of true data and the inclusion in records of false data.

SEC. 19. *Records*—(a) *Base period records.* On or after the effective date of this regulation, for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, you shall maintain and keep for examination by the Director of Price Stabilization, all your existing records relating to the prices of commodities covered by this regulation which you sold, contracted to sell, or offered to sell in writing at a definite price, together with the differentials, discounts and allowances charged or offered in writing, during the base period.

(b) *Current records.* On and after the effective date of this regulation, you shall make and keep for examination by the Director of Price Stabilization, for a period of two years after each sale, a duplicate of the invoice rendered by you to the purchaser within 10 days of shipment, stating (1) the name and address of the buyer; (2) the name and address of the seller; (3) the date of shipment; (4) the quantity sold; (5) the price charged; (6) the shipping terms, premiums if any, and other terms of sale; and (7) the grade and identification of the commodity. Any transportation charge or allowance shall be stated separately if such has been your practice.

SEC. 20. *Definitions and explanations.* (a) The terms in this Ceiling Price Regulation shall be construed in the following manner unless otherwise clearly required by the context.

(1) "Base period": The base period for vegetable parchment paper is January 25, 1951, through February 24, 1951. The base period for cotton linter parchment and vegetable parchmentizing stock is the first quarter of calendar year 1952.

(2) "Base price" is the highest price charged by you during the base period for a particular grade of paper before the application of the appropriate differentials provided for in section 6 of this regulation.

(3) "Basis weight" is the weight in pounds of a 500 sheet ream of paper, 24" x 36" per sheet.

(4) "Brown parchmentized kraft" (35 and 40 pound basis weight) is designed to have high wet strength, grease-resistance, and to be boil proof. It is a strong parchmentized cellulose sheet made from fibers which are usually unbleached or semi-bleached in order to preserve maximum strength. It is generally used as a crate liner for shipment of iced produce. It is also used where a pure white sheet is not necessary.

(5) "Class of purchaser" refers to your practice of charging different prices for sales to different purchasers or groups of purchasers. Such practice may be based on the characteristics or distributive level of the buyer (for example, distributor, manufacturer, wholesaler, retailer, or individual consumer), or on the location of the purchaser or the quantity purchased by him. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser.

(6) "Current unit direct cost" means the sum of the amounts (not higher than permitted by law) which it costs you for direct labor and materials to produce the grade at the time you use the pricing method. Current unit direct materials costs shall be computed upon the basis of current replacement prices for materials, and current unit direct labor cost shall be computed upon the basis of current wage rates for direct labor. The method used in computing these costs for the grade to be priced and for the most comparable grades shall be the same in every respect.

(7) "Differentials" include discounts, allowances and all types of adjustments to a base price for differences in class or location of purchasers, quantities, terms and conditions of sale or delivery, and product variations such as, but not limited to printing, waxing, basis weight, color, finish, sheets, rolls, packing and cutting.

(8) "Manufacturer" means any person who produces any of the papers covered by this regulation and includes the agents and representatives of such person.

(9) "Most comparable grade" means the commodity, the ceiling price of which is determined under a section other than section 7 and which is most closely allied to the grade to be priced by reason of its use, physical characteristics, and similarity of raw material and conversion processes employed.

(10) "Person" means an individual, corporation, partnership, association, or any other organized group of persons or legal successors or representatives of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing.

(11) "Standard vegetable parchment" (27 pound basis weight) is designed to have high wet strength and grease-resistant qualities. It is designed to be boil proof, free from surface fibers, odor or taste. It is used primarily as a protective food wrapper for moist or greasy foods such as butter, oleomargarine, fish, meats and other similar products.

(12) "Standard vegetable parchment" (35 and 45 pound basis weight) is similar to 27 pound standard vegetable parchment, but used where a heavier sheet is required. It is used primarily to wrap cheese, smoked ham and as an insert label on moist or oily foods.

(13) "Vegetable parchment" is a paper made by passing a waterleaf sheet prepared from rag, cotton linters, or pure chemical wood pulp, or a combination thereof, through a bath of sulphuric acid, after which the sheet is thoroughly washed and dried. This sheet is used primarily in the wrapping and packaging of foods.

(14) "Vegetable parchment untreated" (18 pound basis weight) is designed to have high wet strength and to be boil proof. It is a protective food wrapper used either alone or laminated to metal foil or other packaging materials. It is generally free from any odor or surface fibers.

(15) "Vegetable parchmentizing stock" (waterleaf) is the base paper used in the manufacture of vegetable parchment paper.

(16) "You." The pronoun you as used in this regulation indicates the person subject to this regulation. "You" and "Yours" are construed accordingly.

Effective date. This regulation shall become effective June 9, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 4, 1952.

[F. R. Doc. 52-6265; Filed, June 4, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 63, Amdt. 4 to Area Milk Price Regulation 5]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 5—CHICAGO MILK MARKETING AREA, STATE OF ILLINOIS

CHANGE IN REPORTING REQUIREMENTS

Pursuant to the Defense Production Act of 1950 as amended, Executive Order 10161 (15 F. R. 6105), Economic Stabilization Agency General Order No. 2 (16 F. R. 738), Delegation of Authority No. 41 (16 F. R. 12679) and Redelegation of Authority No. 13 (17 F. R. 172), this Amendment 4 to Area Milk Price Regulation 5 pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 7 of Area Milk Price Regulation 5 read in conjunction with section 8 (a) (1) of Supplementary Regulation 63 provides that for the purpose of computing parity adjustments, producer prices shall be governed by the monthly official price announcement of the Federal Milk Market Administrator issued pursuant to Order No. 41 (16 F. R. 6348), as amended. Processors are permitted to increase their ceiling prices by the equivalent per unit of the dollars and cents amount by which the producer price "incurred" or their most recent customary purchase exceeds the producer price specified in section 7 of Area Milk Price Regulation 5. They must "immediately" reduce their ceiling prices by the equivalent per unit of the dollar and cents amount by which the producer price specified in the regulation exceeds the producer price "incurred" for their most recent customary purchase. The producer price for the most recent customary purchase is deemed to have been "incurred" upon the date of the announcement of a change in price made by the Federal Milk Market Administrator in a situation where the change is retroactive to the first day of the month.

Under Order No. 41 the Federal Milk Market Administrator announces the official producer price on or before the 5th day of each month. This price is retroactive to the first of the month and hence the producer price is deemed to have been "incurred" on the date of the announcement. The announcement is not made on the same day of each month, however, and there has been some difference as to the meaning of the word "immediately." For this reason Area Milk Price Regulation 5 has been amended to permit an increase in ceiling prices no earlier than the 7th day of the month and to require reduction in ceiling prices to be made no later than that date.

In addition Area Milk Price Regulation 5 has been amended to clarify the information required with respect to the filing of changes of ceiling prices. Such filings were required prior to this amendment. The provisions relating thereto have been clarified and the time within which the filings must be made has been stated with more precision. Prior to this amendment, AMPR 5 did not itself contain a parity filing requirement, but merely stated that the parity pass-through provisions were subject to the filing requirements of section 8 (a) of Supplementary Regulation 63. For clarity, the filing provisions now have been incorporated into AMPR 5. Moreover, the time within which the filings must be made has been clarified.

In the judgment of the District Director, the provisions of this amendment to Area Milk Price Regulation No. 5 in Region VII are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended by the Defense Production Act amendments of 1951.

The District Director of the Office of Price Stabilization gave due consideration to the national effort to achieve the maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to all relevant factors of general applicability. In the formulation of this amendment, the District Director has consulted industry representatives, including trade association representatives, to the fullest extent practicable and has given due consideration to its recommendation.

AMENDATORY PROVISIONS

Area Milk Price Regulation 5, issued under Supplementary Regulation 63 to the General Ceiling Price Regulation, is amended in the following respects:

1. The following sentences are added at the end of the first paragraph of section 7 of Area Milk Price Regulation 5: "In any month in which the official producer price announcement requires a decrease in your ceiling prices, you must put such decreases into effect no later than the 7th day of the month. In any month in which the official price announcement permits an increase in your ceiling prices, you may not put such increases into effect prior to the 7th day of the month."

2. The third paragraph of section 7 of Area Milk Price Regulation 5 is amended to read as follows:

Prior to charging any increased prices permitted under Section 8 (a) of Supplementary Regulation 63, you must file with the District Director of the Office of Price Stabilization, 188 West Randolph Street, Chicago, Illinois, a report including the following information:

(a) The name and description of the product being priced;

(b) The container size of the product;

(c) The butterfat content of the product;

(d) Your proposed ceiling price for the product.

If you are required to decrease your ceiling prices as a result of the operation of section 8 (a) of Supplementary Regulation 63, you must file the report specified in this paragraph within 5 days after you are required to make the decreases.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 4 to Area Milk Price Regulation 5, pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation, shall become effective June 4, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

B. EMMET HARTNETT,
District Director,
Office of Price Stabilization.

JUNE 4, 1952.

[F. R. Doc. 52-6263; Filed, June 4, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 24]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 24—STARK MILK MARKETING AREA, STATE OF NORTH DAKOTA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Area Milk Price Regulation pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

In the area covered, Stark County, North Dakota, this regulation establishes ceiling prices for fluid milk and cream when sold by processors, distributors, or retail stores. The ceiling prices apply to all sales made within the area. The items covered are those listed in the regulation: generally speaking, fluid milk and cream when sold for fluid consumption.

SR 63 to the General Ceiling Price Regulation permits processors to apply for an adjustment of their ceiling prices, and authorizes the District Director to make an adjustment reflecting increased costs of direct labor, raw materials, and cans, cases, and containers. Other cost increases are not considered. Supplementary Regulation 63 also authorizes the District Director to establish uniform ceiling prices in the area.

The only two major processor-distributors in the area have petitioned for action leading to this area milk price regulation. (The several farm dairies also in the area have not petitioned; their financial records are not in such form as to permit determination of cost increases applying to milk.)

On careful consideration of the data submitted by the applicants, the District Director has found that the applicants are entitled to an adjustment of their ceiling prices. The cost of raw materials has not increased since January, 1950 and no adjustment is made on this basis. However, the other costs listed above have increased sufficiently to justify an increase. Fluid milk has been increased one cent per quart. Fluid cream has been increased two cents per one-half pint.

It is significant that the milk producers in the area are receiving the highest price in the state for their raw milk. They are receiving $4.80 per cwt. and have been selling at this price since January, 1950. At the same time, consumers in the area have been buying fluid milk at prices among the lowest in the state. Even after this adjustment the prices are not out of line with the rest of the state. The relatively high producer price is necessary to maintain production. There has been a decided tendency in recent years for farmers in the western part of North Dakota to switch from dairying to beef production. The large numbers of empty dairy barns in that part of the state attest to the ease with which the change-over can be made.

Milk is home delivered in only two cities in the area, Dickinson and Belfield. Therefore, it becomes important to establish ceiling prices for sales by retail stores. On most items the stores will retain the margins which they have historically received.

The marketing area set forth by this regulation is that requested by the applicants, and was determined after careful consideration of all relevant factors.

Every effort has been made to conform this regulation to existing business practices, cost practices and methods, and means and aids to distribution.

Insofar as any provision of this regulation may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the District Director of the Office of Price Stabilization, Fargo, North Dakota, to be necessary to prevent circumvention or evasion of this regulation.

In the judgment of the District Director of the Office of Price Stabilization, the provisions of this Area Milk Price Regulation No. 24 in Region VIII are generally fair and equitable and are necessary to effectuate the purpose of

Title IV of the Defense Production Act of 1950 as amended by the Defense Production Act amendments of 1951.

The District Director of the Office of Price Stabilization gave due consideration to the national effort to achieve the maximum production in furtherance of the objectives of the Defense Production Act of 1950 as amended; to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; and to all relevant factors of general applicability. The Director has consulted the industry involved to the fullest extent practicable and has given due consideration to its recommendation.

REGULATORY PROVISIONS

Sec.
1. What this Area Milk Price Regulation does.
2. Where this Area Milk Price Regulation applies.
3. Sales and sellers covered by this Area Milk Price Regulation.
4. Ceiling prices for sales of milk products for fluid consumption by processors, distributors and operators of retail stores.
5. Sellers who cannot price under other sections.
6. Reporting requirements.
7. Customary price differentials.
8. Rounding of fractions.
9. Specified producer prices.
10. Parity adjustments for distributors and operators of retail stores.
11. Transfers of business or stock in trade.
12. Records.
13. Sales slips and receipts.
14. Reference to the General Ceiling Price Regulation.
15. Reference to definitions in Supplementary Regulation 63.
16. Evasion.
17. Charges lower than ceiling prices.
18. Power of Director to disapprove and revise reported prices.
19. Prohibitions.
20. Penalties.

AUTHORITY: Sections 1 to 20 issued under Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this Area Milk Price Regulation does.* This Area Milk Price Regulation issued under the authority of Supplementary Regulation 63 to the General Ceiling Price Regulation provides specific dollars and cents ceiling prices for milk, sweet cream, buttermilk and chocolate milk in the Stark Milk Marketing Area.

SEC. 2. *Where this Area Milk Price Regulation applies.* The Stark Milk Marketing Area to which the provisions of this Area Milk Price Regulation are applicable, is limited to Stark County, North Dakota.

SEC. 3. *Sales and sellers covered by this Area Milk Price Regulation.* This Area Milk Price Regulation covers all sales and deliveries in the Stark Milk Marketing Area of milk products for fluid consumption by processors, distributors and operators of retail stores, excepting sales of packaged cottage, pot and baker's cheese by operators of retail stores. It also covers sales of milk products to be delivered to a purchaser located in the Stark Milk Marketing Area although the seller is located outside the area. The regulation does not, however, cover sales of milk products for fluid consumption to be delivered by the seller from a location within the Stark Milk Marketing Area to a purchaser located outside the area.

Sales of milk products delivered to a purchaser located outside of the Stark Milk Marketing Area are controlled either by the General Ceiling Price Regulation, without reference to Supplementary Regulation 63 and to this Area Milk Price Regulation, or by the Area Milk Price Regulation applicable to the particular place where delivery is made.

SEC. 4. *Ceiling prices for sales of milk products for fluid consumption by processors, distributors and operators of retail stores.* (a) *Home delivered, delivered wholesale and store carry-outs.* Your ceiling prices for the sale of any of the following listed milk products for fluid consumption in a designated container size delivered at wholesale, delivered to the ultimate consumer at his home, or sold by the operator of a retail store at his store to the ultimate consumer, are set forth in Table A below. "Delivered at wholesale" means delivered to the retail store or delivered to an institutional, commercial or industrial user.

TABLE A

	Ceiling price		
	Delivered		Retail, store carry-out
	Wholesale	Home	
Milk, 3.5 test:			
Standard pasteurized:			
Gallons	$0.53		
Quarts in glass (1 to 3)	.15	$0.17	$0.17
Quarts in glass (4 or more)	.15	.16	.17
Homogenized:			
Gallons	.63		
Quarts			
In paper (1 to 3)	.17	.19	.19
In paper (4 or more)	.17	.18	.19
In glass (1 to 3)	.16	.18	.18
In glass (4 or more)	.16	.17	.18
½ pints (paper or glass)	.04½		
Cream, sweet, 33 percent butterfat:			
Gallons	3.30		
Quarts	.85	.90	.90
½ pints	.23	.26	.26
Buttermilk:			
Quarts (1 to 3)	.15	.17	.17
Quarts (4 or more)	.15	.16	.17
Chocolate milk:			
Quarts (1 to 3)	.17	.19	.19
Quarts (4 or more)	.17	.18	.19
½ pints	.04½		

(b) *Other sales.* Your ceiling price for any item of a milk product for fluid consumption or for any type of sale (such as a sale f. o. b. processor's plant or a sale to a distributor) not covered by section 4 (a) of this regulation is your ceiling price for that sale determined under the provisions of the General Ceiling Price Regulation and in effect on the day immediately preceding the effective date of this Area Milk Price Regulation.

SEC. 5. *Sellers who cannot price under other sections.* If you are unable to establish a ceiling price for the sale of an item covered by this regulation either because you did not have a ceiling price under the General Ceiling Price Regulation or because you do not sell a product listed in section 4 in any of the container sizes therein listed, or for any other reason, you may apply in writing to this District Office of the Office of Price Stabilization for a determination of a ceiling price for the sale of that product or of the method you shall use for computing a ceiling price for the item. This application shall contain an explanation of why you are unable to determine your ceiling price under any other provision of this regulation; all pertinent information describing the item; your proposed ceiling price and the method used by you to determine it; and the reason you believe the proposed prices are in line with the level of ceiling prices otherwise established by this regulation. You may not sell the milk product until the Director has issued a letter order establishing ceiling prices for the sale of the item.

SEC. 6. *Reporting requirements.*—(a) *Prices determined under section 4 (b).* Within ten days after the effective date of this regulation or the first sale by you, of a product priced under section 4 (b), whichever is later, you shall send by registered mail to the Fargo District Office of the Office of Price Stabilization, Fargo, North Dakota, a report showing your ceiling prices established under section 4 (b).

(b) *Parity adjustments reports.* Within five days after the date on which a producer price incurred for your most current customary purchase of milk differs from the producer price specified in section 9 of this regulation, you shall, if you are a processor, deposit in the mail a registered letter to the Fargo District Director of the Office of Price Stabilization, Fargo, North Dakota, giving the following information: (1) The producer price paid by you for your most current customary purchase of milk; (2) your ceiling price, as determined under section 4 or as established under section 5 of this regulation, for each item of a milk product for fluid consumption being sold by you; and (3) the adjusted ceiling price for each such item. The adjusted ceiling price must be made in accordance with the method prescribed in section 8 of Supplementary Regulation 63 to the General Ceiling Price Regulation.

SEC. 7. *Customary price differentials.* Your ceiling price for a milk product for fluid consumption, when determined, shall reflect your customary price differentials, including discounts, allowances, premiums and extras, based upon differences in classes or location of purchasers, or in terms and conditions of sale or delivery.

SEC. 8. *Rounding of fractions.* Fractions remaining after the computation of the ceiling price for the total number of units of any milk product being sold has been determined (and after giving effect to section 8 (b) of Supplementary Regulation 63) shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half or more. If, however, you bill any purchaser for milk products for fluid consumption purchased during a month or other billing period, any fraction remaining after the computation of the ceiling price for the total number of units of all milk products for fluid consumption sold to that purchaser during the preceding month or other billing period has been determined shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more.

SEC. 9. *Specified producer prices.* The prices set forth in this regulation for sales by processors are predicated upon a uniform producer paying price of $4.80 per hundredweight for 3.5 percent butterfat milk. As this uniform producer paying price increases or decreases, parity adjustments of ceiling prices for sales by processors must be made under section 8 (a) of Supplementary Regulation 63. In making price increases or decreases on products which contain either more or less than 3.5 percent butterfat, you must make appropriate allowance for the value of the butterfat and the skim milk in the product.

SEC. 10. *Parity adjustments for distributors and operators of retail stores.* This section applies to you if (a) you are a distributor of an item of milk product for fluid consumption or an operator of a retail store who sells an item of milk product for fluid consumption; (b) the cost to you of a current customary purchase of the milk item differs from the highest ceiling price established by section 4 (or 5) of this regulation for a purchase from a customary source of supply; and (c) the change in cost to you is due to the operation of the provisions of section 9 of this Area Milk Price Regulation relating to parity adjustments for processors.

In such case, on the first day following the effective change in your cost, you may increase and you must decrease your ceiling prices established by section 4 (or 5) of this regulation by the dollars and cents difference per item in these costs.

SEC. 11. *Transfers of business or stock in trade.* If the business, assets or stock in trade of a processor or distributor is sold or otherwise transferred after the effective date of this regulation, and the transferee carries on the business, or continues to deal in milk products for fluid consumption, in an establishment separate from any other establishment previously owned or operated by him, the ceiling prices of the transferee shall be the same as those to which his transferor would have been subject under this Area Milk Price Regulation if no such sale or transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the sale or transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 12. *Records.* (a) With respect to milk products covered by this Area Milk Price Regulation, the provisions of Section 16 of the General Ceiling Price Regulation are hereby continued in effect insofar as they apply to the preparation and preservation of "base period records" and such "current records" as were required to be made with reference to sales between January 26, 1951, and the effective date of this regulation.

(b) You shall prepare and preserve for the life of the Defense Production Act of 1950, as amended, and for two years thereafter, and keep available for examination by the Office of Price Stabilization all records showing, with respect to milk products covered by this Area Milk Price Regulation, prices and material and labor costs in the period January 1 to June 30, 1950, inclusive; also records showing costs, prices, and sales for the other applicable periods and dates referred to in Supplementary Regulation 63 to the General Ceiling Price Regulation.

SEC. 13. *Sales slips and receipts.* If you have customarily given a purchaser a sales slip, receipt, or similar evidence of purchase, you shall continue to do so. Upon request from a purchaser, regardless of previous custom, you shall give the purchaser a receipt showing the date, your name and address, the name of each item sold, and the price received for it.

SEC. 14. *Reference to the General Ceiling Price Regulation.* Except insofar as inconsistent with the provisions of this Area Milk Price Regulation all sections of the General Ceiling Price Regulation as amended including, but not restricted to sections 15, 16, 17, and 19, are incorporated in and made a part of this Area Milk Price Regulation as though fully recited herein.

SEC. 15. *Reference to definitions in Supplementary Regulation 63.* The terms used in this Area Milk Price Regulation carry the same meaning as the definitions of those terms contained in Supplementary Regulation 63 to the General Ceiling Price Regulation.

SEC. 16. *Evasion.* Any practice which results in obtaining indirectly a higher price than is permitted by this area milk price regulation is a violation of this regulation. Such practices include, but are not limited to, devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tie-in agreements, and trade understandings.

SEC. 17. *Charges lower than ceiling prices.* Lower prices than those established under this regulation may be charged, demanded, paid or offered.

SEC. 18. *Power of Director to disapprove and revise reported prices.* The Director of the Fargo District Office of the Office of Price Stabilization may at any time disapprove and revise downward ceiling prices reported pursuant to the provisions of section 12 of this regulation, so as to bring prices so reported into line with the level of ceiling prices for items of milk products otherwise prevailing in the area, pursuant to the provisions of this regulation.

SEC. 19. *Prohibitions.* After the effective date of this Area Milk Price Regulation, regardless of any contract or other obligation, you shall not sell, and you shall not buy in the regular course of business or trade, any milk product for fluid consumption at a price exceeding the ceiling price established by this regulation.

SEC. 20. *Penalties.* Persons violating any provision of this Area Milk Price Regulation are subject to the criminal penalties, civil enforcement actions, and suits for damages provided for by the Defense Production Act of 1950, as amended.

Effective date. This Area Milk Price Regulation, pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation is effective June 9, 1952.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by Bureau of the Budget in accordance with the Federal Reports Act of 1942.

J. C. EATON,
District Director, Office of Price Stabilization, Fargo, N. Dak.

JUNE 4, 1952.

[F. R. Doc. 52-6262; Filed, June 4, 1952, 11:28 a. m.]

[General Overriding Regulation 30]

GOR 30—TRANSLATION OF F. O. B. INTO DELIVERED CEILING PRICES FOR CERTAIN FOOD ITEMS

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this General Overriding Regulation 30 is hereby issued.

STATEMENT OF CONSIDERATIONS

This General Overriding Regulation provides a method by which manufacturers of dry grocery food products (as defined in section 11) whose ceiling prices are set on an f. o. b. shipping point basis may apply to have these ceiling prices translated into ceiling prices for sales on a delivered basis.

At the time of the general freeze imposed by the General Ceiling Price Regulation, some manufacturers of certain grocery products were in the process of changing their traditional method of billing from an f. o. b. shipping point basis to a delivered basis. The ceiling prices established under both the General Ceiling Price Regulation and Ceiling Price Regulation 22 (which covers most food manufacturers) were based on the method of sale in existence in a specified base period. Thus, those manufacturers who were in the process of transition from one method of sale to the other were unable to continue this transition. In addition, manufacturers who had planned or who might wish to change their method of sale could not do so.

In order that the manufacturer's freedom of action shall be limited to the least extent compatible with price control, this regulation provides the manufacturer who was previously selling on an f. o. b. basis with a method by which he may calculate a ceiling price for an item or a combination of items sold on

a delivered basis to a particular zone or area. In making his calculation, the manufacturer will first determine what it would have cost him to ship an item or a combination of items to a particular zone or area during a previous twelve-month period. He will then divide this amount by the amount of his net sales of the item or combination of items to that zone or area during the same period. This will give him a freight adjustment factor per dollar of sales which, when multiplied with the f. o. b. price, for an item, will result in the amount which may be added to the f. o. b. price to convert it to a delivered price. Because the manufacturer often would have sold to a great number of purchasers in a given zone or area it may be difficult to determine the exact amount of net sales to that zone or area. Consequently, the regulation suggests a procedure by the use of which the manufacturer may accurately estimate his net sales, and his freight charges.

FINDINGS OF THE DIRECTOR

In formulating this regulation, the Director of Price Stabilization has consulted with industry representatives, including trade association representatives, to the extent practicable, and has given full consideration to their recommendations. In his judgment, the provisions of this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director to be necessary to prevent circumvention or evasion of this regulation.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

REGULATORY PROVISIONS

Sec.

1. What this regulation does.
2. Who is covered by this regulation.
3. Where this regulation applies.
4. How you determine your delivered ceiling prices.
5. How you determine your transportation charge factor for an area or zone.
6. Procedure to be used in determining net sales and transportation costs to a zone or area.
7. Alternative methods for computing proposed delivered ceiling prices.
8. Modification of ceiling prices by the Director of Price Stabilization.
9. Reports.
10. Records.
11. Definitions.

AUTHORITY: Sections 1 to 11 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This regulation provides a method by the use of which manufacturers of certain grocery products may convert f. o. b. ceiling prices into delivered prices for commodities covered by this regulation being shipped to areas or zones (see section 11, *Definitions*).

SEC. 2. *Who is covered by this regulation.* This regulation applies to you if you manufacture dry grocery food products (see section 11, *Definitions*).

SEC. 3. *Where this regulation applies.* The provisions of this regulation apply in the 48 States of the United States and in the District of Columbia.

SEC. 4. *How you determine your delivered ceiling price.* Except as provided in section 7 you will determine your delivered ceiling price for an item for which you presently have an f. o. b. ceiling price by multiplying that f. o. b. ceiling price by the transportation charge factor (see section 5) for the item or combination of items for the area or zone to which you are shipping. You may not, however, apply the transportation charge factor obtained for a combination of items to an item not included in that combination unless the transportation charge factor for that item is the same or higher than the transportation charge factor for the combination of items.

SEC. 5. *How you determine your transportation charge factor for an area or zone.* You will determine your transportation charge factor in the following manner:

(a) Find the amount it would have cost you (calculated under section 6 (b) and figured at the minimum applicable rates in effect on the date of calculation) to transport by common carrier an item or combination of items which you sold on a f. o. b. basis to purchasers in a particular zone or area during a twelve-month period (ending not earlier than December 31, 1950) preceding this calculation if you had sold the item or combination of items on a delivered basis. In making this calculation, you will use as your f. o. b. shipping point your plant or warehouse having the lowest transportation cost to the zone or area to which you are shipping. Moreover, you will include only the common carrier rates for transportation and the Federal transportation tax thereon and you will exclude any charge for services, such as consolidation, breaking, bulk, loading, unloading, warehousing, or any other service in connection with or incidental to the transportation.

(b) Divide the amount arrived at in paragraph (a) of this section by the total amount of your net sales (calculated under section 6 (a)) of the same item or same combination of items in that zone or area during that same twelve-month period.

(c) Add 1.00 to the figures derived in paragraph (b). This resulting figure is your transportation charge factor.

SEC. 6. *Procedure to be used in determining net sales and transportation charges to a zone or area.* (a) This paragraph illustrates a sampling method which you may use to calculate your total net sales of an item or a combination of items to a zone or area.

(1) List in alphabetical order the receiving points in that zone or area to which you shipped that item or combination of items during the 12-month period mentioned in section 5 (a). Number this list in the same order.

(2) If you shipped to less than 26 receiving points in the zone or area, compute the sum of your total net dollar sales to all of them.

(3) If you shipped to from 26 to 50 (inclusive) receiving points in the zone or area, compute your total net dollar sales to each of these receiving points which (when taken in alphabetical order) are a continuation of the following series of numbers: 1, 2, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 16, etc., (i. e., drop every fifth receiving point in making these calculations of your total dollar sales).

(4) If you shipped to from 51 to 100 (inclusive) receiving points in the zone or area, compute the total net dollar sales to each of these receiving points which (when taken in alphabetical order) are a continuation of the following series of numbers: 1, 3, 5, 7, 9, 11, etc., (i. e., use every other receiving point in making these calculations of your total dollar sales).

(5) If you shipped to from 101-300 (inclusive) receiving points in the zone or area, compute the total net dollar sales of each of these receiving points which (when taken in alphabetical order) are a continuation of the following series of numbers: 1, 4, 7, 10, 13, 16, etc., (i. e., use every third receiving point in making these calculations of your total dollar sales).

(6) If you shipped to from 301-500 (inclusive) receiving points in the zone or area, compute the total net dollar sales to each of those points which (when taken in alphabetical order) are a continuation of the following series of numbers: 1, 6, 11, 16, 21, 26, etc. (i. e., use every fifth receiving point in making these calculations of your total dollar sales).

(7) If you shipped to more than 500 receiving points in the zone or area, compute the total net dollar sales to each of those points which (when taken in alphabetical order) are a continuation of the following series of numbers: 1, 11, 21, 31, 41, etc., (i. e., use every tenth receiving point in making these calculations of your total dollar sales.

(b) This paragraph illustrates a sampling method which you may use to calculate your cost to transport by common carrier the same item or combination of items to the same zone or area during the same twelve-month period if you had shipped that item or combination of items on a delivered basis. If the information necessary for the use of this method is not readily available to you, you may suggest an alternative sampling method as provided by section 7.

(1) Use the list which you made under section 6 (a) (1).

(2) If you shipped to less than 26 receiving points in the zone or area, find the sum of the dollar freight charges you would have paid to ship to all of them. (You will take each receiving point and multiply the shipments of each product to it by the lowest applicable common carrier rate in effect on the date of calculation).

(3) If you have calculated your total dollar sales under paragraph (a) (2), (4), (5), (6), or (7), find the sum of the total dollar freight charges you would have paid to ship the item or combination of items represented in your total dollar sales calculated under those paragraphs to the same receiving points used in those calculations.

SEC. 7. *Alternate method for computing proposed delivered ceiling prices.* (a) If you find that you are unable to calculate proposed ceiling prices in the manner required by this regulation, you may apply for permission to use another method. This application should be sent by registered mail to the Food and Restaurant Division, Office of Price Stabilization, Washington 25, D. C. If you make such an application, identify it as filed under this regulation and this section.

(b) In your application you will describe in detail the method which you propose to use and the reason why you cannot use the method set forth in this regulation to calculate proposed delivered ceiling prices. Do not use the proposed method until you are notified in writing by the Director of Price Stabilization that you may do so. He may, before approving or disapproving your proposed method, request additional information from you.

SEC. 8. *Modification of ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or revise downward ceiling prices proposed to be used or being used under this regulation so as to bring them in line with the level of ceiling prices otherwise established by the General Ceiling Price Regulation, Ceiling Price Regulation 22, or other applicable regulations.

SEC. 9. *Reports.* If you determine a delivered ceiling price under section 4 of this regulation, you must file with the Food and Restaurant Division, Office of Price Stabilization, Washington 25, D. C., before you sell the item or combination of items on a delivered price basis, a report containing the following information:

(a) The name of the item or combination of items for which you are calculating a delivered ceiling price;

(b) A description of the geographical limits of the area or zone to which you desire a delivered ceiling price;

(c) The location of your plant or warehouse having the lowest transportation cost for that item or combination of items to the area or zone to which you desire a delivered ceiling price;

(d) Your FOB ceiling price for that item or for each of the combination of items from your plant or warehouse mentioned in paragraph (c) of this section;

(e) The total amount (calculated under section 6 (b)) it would have cost you to transport by common carrier that item or combination of items which you sold on an FOB basis to purchasers in that particular zone or area during a twelve-month period, ending not earlier than December 31, 1950, preceding the date of your calculation if you had sold the item or items on a delivered basis.

(f) The total amount of your net sales of that item or each of the combination of items (calculated under section 6 (a)) in that zone or area during the twelve-month period mentioned in paragraph (e).

(g) The ceiling prices that you have calculated for that item or combination of items in that zone or area.

SEC. 10. *Records.* In addition to records required by other applicable OPS regulations, every manufacturer who obtains a delivered ceiling price under the provisions of this regulation shall make and keep for inspection by the Director of Price Stabilization for a period of two years accurate records of each sale made on a delivered basis after receiving that delivered ceiling price. The records must show the date of the sale, the shipping point, name and address of the purchaser, the price charged or received and that the sale was on a delivered basis. Customary records must also be kept showing total transportation charges paid or incurred for all sales made on a delivered basis. Records must also show all premiums, discounts and allowances.

SEC. 11. *Definitions.* For purposes of this regulation, the following terms have the indicated meaning:

(a) "Area or zone" is a single integrated geographical area. If, in the past, you have used well defined territories for shipping, calculating transportation costs, or the like, you must continue to use the same territories as your "area or zones" under this regulation.

(b) "Delivered ceiling price" means the ceiling price for a commodity delivered to the place where the buyer customarily receives that commodity within the specified zone or area.

(c) "Dry grocery food products" means those food commodities which (1) are customarily sold in grocery stores; and (2) are not subject to appreciable spoilage if kept in inventory on display for longer than one month. Fresh, frozen, or processed meats including dry sausage, and fresh or frozen poultry, fish, fruits and vegetables are not included within the term "dry grocery food products".

(d) "Net sales". This term refers to gross sales after trade discounts, less returns and allowances, exclusive of transportation charges.

(e) "Receiving point". This term refers to the city, town, or village in which a common carrier's unloading terminal is located.

(f) "Item" means the product being priced including its brand name and the number and size (or weight) of packages contained in a sales unit.

Effective date. This General Overriding Regulation shall become effective June 9, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 4, 1952.

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[Interpretation 9]

INT. 9—EMPLOYEES SUBJECT TO GENERAL SALARY STABILIZATION REGULATION 5

1. Q. A company employs the following personnel:

(a) Fifty drivers (not members of a labor union) who distribute its product locally on prescribed routes and also solicit orders from customers on their routes;

(b) Ten outside salesmen who devote all their working time to selling its product in territories outside of the local area;

(c) Ten salesmen who solicit orders from customers in the company's display room.

All of these employees are partially compensated by commission payments on the sales which they make. Which of these employees are subject to General Salary Stabilization Regulation 5 (Compensation of Sales Employees)?

A. Only the outside salesmen [paragraph (b) above] are subject to General Salary Stabilization Regulation 5.

The drivers who distribute the company's product on routes in the local area are "driver salesmen" over whom the Wage Stabilization Board currently exercises exclusive jurisdiction. (See SSB Resolution, 16 F. R. 12916 and WSB Resolution No. 77).

The "inside" salesmen are not subject to the jurisdiction of the Salary Stabilization Board, since they are not employed in a bona fide executive, administrative or professional or outside salesman capacity within the meaning of the regulations issued under section 13 (a) (1) of the Fair Labor Standards Act of 1938, as amended.

2. Q. B is employed as a salesman by an automobile sales agency. The major portion of his work consists of the solicitation of orders in the showroom of the employer. However, in the course of his work he gives road demonstrations to prospective buyers and also follows up some of these prospects by personal calls at their homes or places of business. May he be regarded as an outside salesman for purposes of General Salary Stabilization Regulation 5?

A. No. The major part of his selling activities is conducted at, and only incidentally away from his employer's place of business and, therefore, he cannot qualify as an outside salesman within the meaning of the regulations issued under section 13 (a) (1) of the Fair Labor Standards Act of 1938, as amended.

3. Q. An employee is engaged in selling his employer's product in an assigned territory, and, as an incident to such activities, makes collections at the time of soliciting orders. Is the work activity involved in making such collections regarded as selling?

A. Yes. Work performed incidental to and in conjunction with the employee's outside sales and solicitations is regarded as part of the employee's selling activities.

4. Q. Must an employee devote all his working time to selling goods or to obtaining orders or contracts for service or for the use of facilities in order to qualify as an "outside salesman"?

A. No. However, such an employee may not devote more than 20% of his time to work activities other than outside selling.

5. Q. A company employs collectors to receive payments due from its customers on merchandise purchased on the installment plan. The collectors from time to time also bring customers to the employer's store and there either the collectors or inside sales employees close the sale with the new customer. The collectors are compensated on the basis of a percentage of their collections, and in addition, receive a commission on purchases made by the customers whom they bring into the employer's store. Are the collectors sales employees for purposes of General Salary Stabilization Regulation 5?

A. No. The collection activities of such employees do not constitute outside selling, and sales to customers made at the employer's store do not constitute sales made away from the employer's place of business. Therefore, the collectors are not "outside salesmen". Since they are not employed in any other capacity which would place them under the jurisdiction of the Salary Stabilization Board, they cannot be regarded as sales employees for purposes of General Salary Stabilization Regulation 5.

6. Q. A large retail establishment employs a head buyer who supervises all other buyers in the purchase of merchandise. He is compensated solely by commissions based on the dollar volume of sales. Which General Salary Stabilization Regulation or Order governs the payment of his compensation?

A. General Salary Stabilization Regulation 5. This regulation governs the compensation of all employees under the jurisdiction of the Salary Stabilization Board who are compensated in whole or in part on a commission basis, even though they are not outside salesmen.

7. Q. X, the vice president in charge of sales of the company, receives as his compensation an annual salary of $10,000 and a commission of 1 percent on the annual dollar volume of the company's sales. Which General Salary Stabilization Regulation or Order governs the payment of his compensation?

A. Since X receives part of his compensation in the form of commission earnings, General Salary Stabilization Regulation 5 governs. See section 6 (b) of the regulation as to the application of other General Salary Stabilization Regulations and General Salary Orders to adjustments in the fixed salary portion of X's compensation.

8. Q. Are outside salesmen who receive only a fixed salary as compensation governed by General Salary Stabilization Regulation 5?

A. Section 4 of General Salary Stabilization Regulation 5 states that the provisions of other General Salary Stabilization Regulations permitting general increases or individual adjustments in salaries and other compensation shall be applicable to sales employees compensated upon a straight salary basis.

(Sec. 704, 64 Stat. 816, as amended; 60 U. S. C. App. Sup. 2154)

Issued by the Office of Salary Stabilization on June 2, 1952.

JOSEPH D. COOPER,
Executive Director.

[F. R. Doc. 52-6267; Filed, June 4, 1952; 11:50 a. m.]

Subchapter B—Wage Stabilization Board

[General Wage Regulation No. 7, Amdt. 1]

GWR 7—ADJUSTMENTS FOR EMPLOYEES OF RELIGIOUS, CHARITABLE AND EDUCATIONAL ORGANIZATIONS

ADJUSTMENTS FOR EMPLOYEES OF CREDIT UNIONS

Pursuant to the Defense Production Act of 1950 (64 Stat. 816, as amended by Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), Executive Order 10233 (16 F. R. 3503), and General Order No. 3, Economic Stabilization Administrator (16 F. R. 739), this Amendment 1 to General Wage Regulation No. 7 is hereby issued.

STATEMENT OF CONSIDERATIONS

An application having been presented to the Board to permit greater flexibility in the adjustment of wages of employees of credit unions organized under the Federal Credit Union Act or the laws relating to credit unions of any state or territory of the United States and after due consideration of the application, the Board has concluded that wage adjustments for such employees should be governed by the provisions of GWR 7. In the formulation of this amendment to GWR 7, the Board has given due consideration to the standards and procedures set forth in Title IV and Title VII of the Defense Production Act, as amended.

AMENDATORY PROVISION

Section 1 is amended to read as follows:

SECTION 1. *Wage adjustments by religious, charitable and educational organizations permissible without prior approval.* Religious, charitable, scientific, literary, educational organizations, and cemetery companies which are exempt from Federal income taxes under section 101 (5) and (6) of the Internal Revenue Code, and credit unions organized under the Federal Credit Union Act or the laws relating to credit unions of any state or territory of the United States and which are exempt from Federal income taxes under section 101 (4) or (15) of the Internal Revenue Code may adjust the wages, salaries or other compensation of their employees without prior approval of the Wage Stabilization Board, except as provided in sections 2 and 3.

Unanimously approved by the Wage Stabilization Board on May 13, 1952.

NATHAN P. FEINSINGER,
Chairman.

[F. R. Doc. 52-6266; Filed, June 4, 1952; 11:53 a. m.]

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-6A, Dir. 2, Amdt. 1]

M-6A—STEEL DISTRIBUTORS

DIR. 2—FLOOD-DAMAGED AREA RELIEF

This amendment to direction 2 of NPA Order M-6A is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

This amendment affects Direction 2 of May 7, 1952, of NPA Order M-6A by amending paragraph (b) of section 2 to read as follows:

(b) "Disaster area" means any area which, as a result of a flood disaster occuring during the second calendar quarter of 1952, has, on or before May 23, 1952, been designated by the President under Public Law 875, 81st Congress, as a major disaster area.

(Sec. 704, 64 Stat. 816, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This amendment shall take effect June 4, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[Rent Regulation 1, Amdt. 11 to Schedule B]

[Rent Regulation 2, Amdt. 10 to Schedule B]

RR 1—HOUSING

RR 2—ROOMS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO INDIVIDUAL DEFENSE-RENTAL AREA OR PORTIONS THEREOF

VIRGINIA

Effective June 5, 1952, Rent Regulation 1 and Rent Regulation 2 are amended so that the items of Schedule B read as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 2d day of June 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

1. Items 49 and 50, respectively, of Schedule B of Rent Regulation 1 are changed to read as follows:

49. *Provisions relating to the independent City of Virginia Beach and Princess Anne County, Virginia, portions of the Norfolk, Virginia, Defense-Rental Area (Item 342 of Schedule A).*

Effective May 1, 1952, wherever the words "June 1 to September 30" appear in section 41 of this regulation, the words "May 1 to September 30" are substituted. All provisions of this regulation insofar as they are applicable to the independent City of Virginia Beach and Princess Anne County, Virginia, are hereby amended to the extent necessary to carry this provision into effect.

50. *Provisions relating to the independent City of Norfolk, Virginia, a portion of the Norfolk, Virginia, Defense-Rental Area (Item 342 of Schedule A).*

(a) The application of the provisions of section 41 of this regulation, as herein modified, is reinstated.

(b) Wherever the words "June 1 to September 30" appear in section 41, the words "May 1 to September 30" are substituted.

(c) All provisions of this regulation insofar as they are applicable to the independent City of Norfolk, Virginia, are hereby amended to the extent necessary to carry these provisions of Item 50 into effect.

2. Items 53 and 54, respectively, of Schedule B of Rent Regulation 2 are changed to read as follows:

53. *Provisions relating to the independent City of Virginia Beach and Princess Anne County, Virginia, portions of the Norfolk, Virginia, Defense-Rental Area (Item 342 of Schedule A).*

Effective May 1, 1952, wherever the words "June 1 to September 30" appear in sections 42 and 99, the words "May 1 to September 30" are substituted and wherever the words "October 1 to May 31" appear in section 99 the words "October 1 to April 30" are substituted.

All provisions of this regulation insofar as they are applicable to the independent City of Virginia Beach and Princess Anne County, Virginia, are hereby amended to the extent necessary to carry this provision into effect.

54. *Provisions relating to the independent City of Norfolk, Virginia, a portion of the Norfolk, Virginia, Defense-Rental Area (Item 342 of Schedule A).*

(a) The application of the provisions of section 42 of this regulation, as herein modified, is reinstated.

(b) Wherever the words "June 1 to September 30" appear in sections 42 and 99, the words "May 1 to September 30" are substituted and wherever the words "October 1 to May 31" appear in section 99, the words "October 1 to April 30" are substituted.

(c) All provisions of this regulation insofar as they are applicable to the independent City of Norfolk, Virginia, are hereby amended to the extent necessary to carry the provisions of this Item 54 into effect.

[F. R. Doc. 52-6156; Filed, June 4, 1952; 8:50 a. m.]

[Rent Regulation 3, Amdt. 9 to Schedule B]

[Rent Regulation 4, Amdt. 2 to Schedule B]

RR 3—HOTELS

RR 4—MOTOR COURTS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO INDIVIDUAL DEFENSE-RENTAL AREA OR PORTIONS THEREOF

VIRGINIA

Effective June 5, 1952, Rent Regulation 3 and Rent Regulation 4 are amended so that the items of Schedule B read as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 2d day of June 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

1. Items 5 and 6, respectively, of Schedule B of Rent Regulation 3 are changed to read as follows:

5. *Provisions relating to the independent City of Virginia Beach and Princess Anne County, Virginia, portions of the Norfolk, Virginia, Defense-Rental Area (Item 342 of Schedule A).*

Effective May 1, 1952, wherever the words "June 1 to September 30" appear in sections 27 and 53 the words "May 1 to September 30" are substituted and in section 53 wherever the words "October 1 to May 31" appear the words "October 1 to April 30" are substituted.

All provisions of this regulation insofar as they are applicable to the independent City of Virginia Beach and Princess Anne County, Virginia, are hereby amended to the extent necessary to carry this provision into effect.

6. *Provisions relating to the independent City of Norfolk, Virginia, a portion of the Norfolk, Virginia, Defense-Rental Area (Item 342 of Schedule A).*

(a) The application of the provisions of section 27 of this regulation, as herein modified, is reinstated.

(b) Wherever the words "June 1 to September 30" appear in sections 27 and 53 the words "May 1 to September 30" are substituted and wherever the words "October 1 to May 31" appear in section 53 the words "October 1 to April 30" are substituted.

(c) All provisions of this regulation insofar as they are applicable to the independent City of Norfolk, Virginia, are hereby amended to the extent necessary to carry these provisions of Item 6 into effect.

2. Items 5 and 6, respectively, of Schedule B of Rent Regulation 4 are changed to read as follows:

5. *Provisions relating to the independent City of Virginia Beach and Princess Anne County, Virginia, portions of the Norfolk, Virginia, Defense-Rental Area (Item 342 of Schedule A).*

Effective May 1, 1952, wherever the words "June 1 to September 30" appear in sections 26 and 55, the words "May 1 to September 30" are substituted and wherever the words "October 1 to May 31" appear in section 55 the words "October 1 to April 30" are substituted.

All provisions of this regulation insofar as they are applicable to the independent City of Virginia Beach and Princess Anne County, Virginia, are hereby amended to the extent necessary to carry this provision into effect.

6. *Provisions relating to the independent City of Norfolk, Virginia, a portion of the Norfolk, Virginia, Defense-Rental Area (Item 342 of Schedule A).*

(a) The provisions of section 26 of this regulation, as herein modified, are hereby made to apply.

(b) Wherever the words "June 1 to September 30" appear in sections 26 and 55, the words "May 1 to September 30" are substituted and wherever the words "October 1 to May 31" appear in section 55, the words "October 1 to April 30" are substituted.

(c) All provisions of this regulation insofar as they are applicable to the independent City of Norfolk, Virginia, are hereby amended to the extent necessary to carry these provisions of Item 6 into effect.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 202—ANCHORAGE REGULATIONS

PUGET SOUND AREA, WASHINGTON

Pursuant to the provisions of section 7 of the River and Harbor Act of March 4, 1915 (33 U. S. C. 471), § 202.230 is amended, establishing a general anchorage and an explosives anchorage in Bellingham Bay, Washington, and further amending the existing regulations for explosives anchorages in the Puget Sound Areas, as follows:

§ 202.230 *Puget Sound Area, Washington*—(a) *The anchorage grounds*—(1) *Freshwater Bay emergency explosives anchorage, Strait of Juan de Fuca.* • • •

(1a) *Bellingham Bay general anchorage.* The waters of Bellingham Bay within a circular area with a radius of 2,000 yards, having its center at latitude 48°44'15", longitude 122°32'25".

(1b) *Bellingham Bay explosives anchorage.* The waters of Bellingham Bay within a circular area with a radius of 1,000 yards, having its center at latitude 48°42'48", longitude 122°33'37".

(2) *Port Townsend explosives anchorages.* • • •

(b) *The regulations.* (1) No vessel shall anchor in any general anchorage described in paragraph (a) of this section without prior permission from the Captain of the Port, or his authorized representative. No vessel shall occupy any general anchorage for a period longer than 30 days unless a permit is obtained from the Captain of the Port for that purpose. No vessel in a condition such that it is likely to sink or otherwise become a menace or obstruction to the navigation or anchorage of other vessels shall occupy a general anchorage except in an emergency and then only for such period as may be permitted by the Captain of the Port. A berth in a general anchorage, if available, may be assigned to any vessel by the Captain of the Port upon application and he may grant revocable permits for the continuous use of the same berth.

(2) Explosive anchorages are reserved for vessels carrying explosives. All vessels carrying explosives shall be within these areas when anchored.

(3) Whenever any vessel not fitted with mechanical power, anchors in an explosives anchorage, the Captain of the Port may require the attendance of a tug upon such vessel, when, in his judgment, such action is necessary.

(4) Vessels carrying explosives shall comply with the general regulations in subparagraph (1) of this paragraph, when applicable.

(5) Every vessel at anchor in an explosives anchorage shall display by day a red flag at least 16 square feet in area at its mast head or at least 10 feet above the upper deck if the vessel has no mast, and by night a red light in the same position specified for the flag. These signals shall be in addition to day signals and lights required to be shown by all vessels when at anchor.

(6) Every vessel constructed of wood shall, unless there are steel bulwarks or metallic cases or cargo on board, be fitted with radar reflector screens of metal of sufficient size to permit target indication on the radar screen of commercial type radars.

(7) Fishing and navigation by pleasure and commercial craft are prohibited within the area at all times when vessels which are anchored in the area for the purpose of loading or unloading explosives display a red flag by day and a red light by night, unless special permission is granted by the Captain of the Port.

(8) No explosives handling in any explosive anchorage will be undertaken by any vessel unless personnel from the Captain of the Port are on board to supervise the handling of explosives.

(9) No vessel shall remain at anchor in any explosive anchorage unless there is on board such vessel a competent watchman or a tug in attendance.

(38 Stat. 1053; 33 U. S. C. 471) [Regs., May 9, 1952, 800.2121-ENGWO]

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

MISCELLANEOUS AMENDMENTS

1. In § 21.109, the headnote is amended and a new paragraph (d) is added as follows:

§ 21.109 *Determination of subsistence allowance and other criteria respecting institutional on-farm training.* • • •

(d) *Policy with respect to remunerative employment engaged in by the veteran other than in the pursuit of the course.* (1) Regular full-time remunerative employment, or substantially full-time remunerative employment, other than the conduct of the veteran's institutional on-farm training program, is prohibited. Employment on a substantially full-time basis is defined to mean employment in excess of 250 hours during any period of 60 consecutive days. Any employment, other than the conduct of the veteran's institutional on-farm training program, which exceeds a maximum of 180 hours during a 12-months' reporting period, or a pro rata part thereof where the reporting period encompasses less than a full calendar year, whether such employment is performed on an occasional, irregular, or part-time basis, is prohibited.

(2) Occasional, irregular, or part-time employment which does not exceed a maximum of 180 hours during a 12-months' reporting period, or which does not exceed a pro rata part thereof where the reporting period encompasses less than a full calendar year, is presumed to impede or interfere with the veteran's pursuit of his farm training program. However, this presumption may be rebutted, if the instructor finds and certifies (giving reasons for conclusion) to the Veterans Administration that the veteran's pursuit of his course has not been interfered with or impeded.

(3) Day-for-day exchange of labor for farming operations, when performed in accordance with the farm practices of the community and then only to the extent permitted by the school, is considered to be labor in connection with the conduct of the veteran's farm training program, and will not be regarded as remunerative employment.

(4) In any case where a veteran engaged in full-time or substantially full-time remunerative employment as specified in subparagraph (1) of this paragraph, the compensation from such productive labor is not for consideration in determining the rate of subsistence allowance to which the veteran was entitled during the appropriate calendar year, since subsistence allowance is discontinued effective as of the date such employment was commenced. Where the veteran engaged in other than full-time or substantially full-time remunerative employment as specified in subparagraphs (1) and (2) of this paragraph, the amount of compensation from such productive labor will be considered in determining the rate of subsistence allowance to which the veteran was entitled during the appropriate calendar year.

2. In § 21.112 (b), subparagraph (1) is amended to read as follows:

§ 21.112 *Payment of subsistence allowance to persons in the military or naval service.* • • •

(b) • • •

(1) Persons on terminal leave or hospitalized pending final discharge from the active military or naval forces may not receive subsistence allowance in any amount by reason of the specific prohibition of section 1507, Public Law 346, 78th Congress, as added by Public Law 268, 79th Congress.

• • • • • •

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500-1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697-697d, 697f, g, ch. 12 note)

This regulation effective June 5, 1952.

[SEAL] O. W. CLARK,
Deputy Administrator.

[F. R. Doc. 52-6166; Filed, June 4, 1952; 8:53 a. m.]

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART D—ADVISEMENT AND GUIDANCE

AUTHORITY TO PROVIDE TRANSPORTATION, MEALS, AND LODGING FOR ADVISEMENT AND GUIDANCE PURPOSES

In § 21.728, paragraphs (a), (b), and (d) are amended to read as follows:

§ 21.728 *Authority to provide transportation, meals, and lodging for advisement and guidance purposes.* (a) Transportation at Government expense may be authorized and meals and lodging requests may be issued when a claimant who has been found to have basic entitlement to vocational rehabilitation under Part VII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), is requested to report to a field station or to another designated place for advisement and guidance purposes, including determination of need for vocational rehabilitation, determination of medical feasibility for training, reconsideration, revaluation, and personal adjustment counseling. The travel order will provide for return to the place from which travel was authorized. The issuance of travel authorizations for the purpose of providing personal adjustment counseling only, will be restricted to those instances where the cost of transportation (exclusive of the costs of meals and lodging) does not exceed $6 for any one trip.

(b) Regional managers are authorized to provide the services of an attendant to accompany a claimant while such claimant is in travel status for the purposes set forth in paragraph (a) of this section, when in the judgment of the chief, vocational rehabilitation and education division, such services are necessary because of the severity of the claimant's disability.

• • • • •

(d) Transportation, meals, and lodging may be authorized at Government expense for a claimant who is requested to report for advisement and guidance purposes, in accordance with paragraph (a) of this section, even though the claimant elects at the time of advisement to take training under Part VIII.

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500-1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697-697d, 697f, g, ch. 12 note)

This regulation effective June 5, 1952.

[SEAL] O. W. CLARK,
Deputy Administrator.

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR Part 271]

[Economic Regulations Draft Release No. 51-A]

INSURANCE REQUIREMENTS FOR AIR CARRIERS AND FOREIGN AIR CARRIERS

SUPPLEMENTAL NOTICE OF PROPOSED RULE MAKING AND EXTENSION OF TIME FOR FILING COMMENTS

JUNE 3, 1952.

By notice dated April 30, 1952 (Economic Regulations Draft Release No. 51) published in the FEDERAL REGISTER on May 7, 1952 at 17 F. R. 4220, the Board gave notice that it had under consideration a proposed addition to the Economic Regulations, being a new Part 271, designated "Insurance Requirements for Air Carriers and Foreign Air Carriers".

The Board having received requests which appear to warrant it, and being particularly desirous of giving all interested persons sufficient time in which to consider the subject matter thoroughly, it is hereby extending the date by which comments may be submitted from June 4, 1952 to July 15, 1952. Additional copies of the original Draft Release No. 51 may be obtained by writing the Secretary, Civil Aeronautics Board, Washington 25, D. C., and all persons desiring to participate in the proposed rule making may do so by the submission in triplicate of written data, views, or arguments addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. Copies of all such communications will be available for examination on and after July 21, 1952 in the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL TRADE COMMISSION

[16 CFR Part 93]

[File No. 21-207]

CEDAR CHEST MANUFACTURING INDUSTRY

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS, OR OBJECTIONS

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, partnerships, corporations, organizations, or other parties affected by or having an interest in the proposed trade practice rules for the Cedar Chest Manufacturing Industry (which constitute a proposed revision of the trade practice rules for the industry as promulgated by the Commission on May 12, 1933), to present to the Commission their views concerning said rules, including such pertinent information, suggestions, or objections as they may desire to submit, and to be heard in the premises. For this purpose they may obtain copies of the proposed rules upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than June 20, 1952. Opportunity to be heard orally will be afforded at the hearing beginning at 10 a. m., d. s. t., June 20, 1952, in Room 332, Federal Trade Commission Building, Sixth Street and Pennsylvania Avenue NW., Washington, D. C., to any such persons, partnerships, corporations, organizations, or other parties who desire to appear and be heard. After due consideration of all matters presented in writing or orally, the Commission will proceed to final action on the proposed rules.

The industry is that engaged in the manufacture and sale of chests, wardrobes, and similar containers which are composed, or are represented as being composed, wholly or in part, of any kind or kinds of cedar and which are primarily designed for the storage of clothing, blankets, linens, and similar products.

Issued: June 2, 1952.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

DEPARTMENT OF COMMERCE

Federal Maritime Board

[No. S-17 (Sub-No. 1), No. S-33]

AMERICAN PRESIDENT LINES, LTD.

NOTICE OF PREHEARING CONFERENCE

No. S-17 (Sub-No. 1) American President Lines, Ltd.; application for extension of existing authorization to operate Atlantic-Straits Freight Service C-2 (modified), Trade Route No. 17, without operating-differential subsidy; and No. S-33—American President Lines, Ltd.; application for operating-differential subsidy (Freight Service C-2, Trade Route No. 17) under Title VI, Merchant Marine Act, 1936.

Notice is hereby given that a prehearing conference in these proceedings will be held at Washington, D. C., on June 17, 1952, at 10 o'clock a. m., e. d. s. t., in Room 4823, Department of Commerce Building, before examiner C. W. Robinson, upon an application of American President Lines, Ltd., dated January 28, 1952, for extension of existing authority to operate Atlantic-Straits Freight Service C-2 (modified), Trade Route No. 17, and for modification of the authorization made in Docket No. S-17; and upon an application of American President Lines, Ltd., dated January 29, 1952, for financial aid in the operation of freight vessels in the foreign commerce of the United States on Trade Route No. 17, Freight Service C-2. A more particular description of the proposed service for which operating-differential subsidy is herein applied is as follows:

Atlantic-Straits Service. Trade Route No. 17, Freight Service C-2 (modified): New York (other Atlantic ports as traffic offers), via the Panama Canal, California to Philippine Islands, Hongkong, Indonesia, Malaya and return to the Atlantic Coast via Philippine Islands, California and Panama Canal, with the privilege of calling French Indo-China and Siam as traffic offers, and with the further privilege of calling Guam outbound and Hongkong homebound as traffic offers.

The prehearing conference will be conducted in accordance with § 201.59 of the Board's rules of procedure, for the purpose of considering:

(1) The question of consolidation of the two proceedings for hearing on a single record;

(2) The necessity or desirability of amendments to the pleadings;

(3) The possibility of obtaining admission of fact and of documents which will avoid unnecessary proof;

(4) Limitations on the number of witnesses;

(5) The procedure at the hearing;

(6) The distribution to the parties prior to the hearing of written testimony and exhibits;

(7) Consolidation of the examination of witnesses by counsel; and

(8) Such other matters as may aid in the disposition of the proceeding.

Also at the prehearing conference a date will be set for the hearing of these proceedings to receive evidence in Docket No. S-17 (Sub-No. 1) on the requests of American President Lines, Ltd., for (1) authority to continue to perform eastbound intercoastal service in connection with Service C-2, Trade Route No. 17, (2) modification of the itinerary to authorize calls at Guam on outbound voyages, (3) the privilege of serving one additional Philippine port, and (4) the privilege of calling eastbound at San Francisco Bay ports and/or Los Angeles, California; and in Docket No. S-33 to receive evidence relative to determinations which the Board is required, after hearing, to make pursuant to sections 605 (c) and 805 (a) of the Merchant Marine Act, 1936, as amended. The hearing to receive such evidence will be conducted in conformity with the Board's rules of procedure (12 F. R. 6076), and the examiner will issue a recommended decision.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) desiring to participate in the prehearing conference and in these proceedings should notify the Board accordingly on or before June 16, 1952, and should file petitions promptly for leave to intervene in accordance with § 201.81 of the Board's rules of procedure.

Dated: June 2, 1952.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

[F. R. Doc. 52-6172; Filed, June 4, 1952; 8:55 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Supp. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of regulations Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.166, as amended December 31, 1951; 16 F. R. 12043).

A. C. M. Corporation, Winder, Ga., effective 5-19-52 to 5-18-53; 10 percent of the productive factory force (men's and boys' pants).

Avoca Sportswear Co., 1013 Main Street, Avoca, Pa., effective 5-22-52 to 5-21-53; six learners (dresses).

Badger Outerwear Manufacturing Co., 209-211 Franklin Street, Port Washington, Wis., effective 5-25-52 to 5-24-53; five learners (sport and utility outerwear jackets).

Brumby & Lippitt Co., Wadley, Ga., effective 5-20-52 to 5-19-53; five learners (men's dress shirts).

C. & S. Sportswear Co., Eleventh and Pine Streets, Philipsburg, Pa., effective 5-21-52 to 11-20-52; 35 learners for expansion purposes (sport shirts).

Goodenow Textiles Co., Monett, Mo., effective 5-21-52 to 11-20-52; 15 learners. Learners to be used in the manufacture of products covered under § 522.161 (2) only (men's woven pajamas).

Gordon & Ferguson, Inc., 230 East Fifth Street, St. Paul 1, Minn., effective 5-22-52 to 5-21-53; 10 percent of the productive factory force (sportswear).

Johnnye Manufacturing Co., Sesser, Ill., effective 5-21-52 to 11-20-52; 10 learners for expansion purposes (dresses).

Johnnye Manufacturing Co., Sesser, Ill., effective 5-21-52 to 5-20-53; 10 learners (dresses).

Louisiana Garment Manufacturing Co., Inc., 2001 St. Bernard Avenue, New Orleans, La., effective 5-26-52 to 7-25-52; 10 percent of the productive factory force (pants and shirts).

Mit's Garment Co., 1920 Sheridan Road, Zion, Ill., effective 5-28-52 to 5-27-53; five learners (cotton dresses).

Shenan Dress Corp., North Bower and Washington Streets, Shenandoah, Pa., effective 5-23-52 to 5-22-53; 10 percent of the productive factory force (dresses).

Independent Telephone Industry Learner Regulations (29 CFR 522.82 to 522.93, as amended January 25, 1950; 15 F. R. 398).

Caldwell Telephone Co., Caldwell, Kansas, effective 5-24-52 to 5-23-53.

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952; 16 F. R. 12866).

Carbondale Underwear Manufacturing Co., Seven Eighth Avenue, Carbondale, Pa., effective 5-22-52 to 5-21-53; three learners (women's knitted underwear).

Goodenow Textiles Co., Monett, Mo., effective 5-21-52 to 11-20-52; 45 learners. Learners at subminimum wage rates to be used in the manufacture of men's and boys' woven underwear and knitted shirts only (knitted T-shirts).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Fabriko, Inc., Green Lake, Wis., effective 5-20-52 to 11-19-52; six learners (learners are not authorized at subminimum wage rates in the manufacture of loafer sox); sewing machine operators; 240 hours at 65 cents per hour (advertising caps and aprons).

United Cotton Goods Co., Inc., Seguin, Tex., effective 5-23-52 to 5-22-53; four learners; sewing machine operators; 480 hours; 65 cents per hour for the first 320 hours and at least 70 cents per hour for the remaining 160 hours (washable service apparel).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of regulations, Part 522.

Signed at Washington, D. C., this 27th day of May 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.

OFFICE OF DEFENSE MOBILIZATION

[CDHA 55]

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER THE DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951

JUNE 3, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations, and the availability of housing and community facilities and services for such defense workers and military personnel in each of the areas set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st Sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that each of said areas is a critical defense housing area.

Bagdad, Arizona, Area. (The area consists of that part of Supervisorial District 2 lying west of 113° longitude, in Yavapai County, Arizona.)

Milan, Tennessee, Area. (The area consists of Carroll, Gibson and Madison Counties, Tennessee.)

JOHN R. STEELMAN,
Acting Director of Defense Mobilization.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2777]

COLUMBIA GAS SYSTEM, INC., ET AL.

ORDER AUTHORIZING SALE AND ACQUISITION OF GAS UTILITY PROPERTY BETWEEN AFFILIATES

MAY 29, 1952.

In the matter of the Columbia Gas System, Inc., United Fuel Gas Company, the Manufacturers Light and Heat Company; File No. 70-2777.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and two of its gas utility subsidiary companies, namely, United Fuel Gas Company ("United Fuel") and the Manufacturers Light and Heat Company ("Manufacturers"), having filed a joint application-declaration and an amendment thereto with this Commission pursuant to sections 6, 9 and 10 of the Public Utility Holding Company Act of 1935, and Rules U-43 and U-44 promulgated thereunder with respect to the following proposed transactions:

United Fuel proposes to sell and Manufacturers proposes to acquire certain property located in Gilmer and Marshall Counties, West Virginia, consisting principally of pipe lines, and a compressor station with all appurtenant structures and facilities located in Wetzel County, West Virginia. The price to be paid by Manufacturers for all of the said property which it proposes to acquire from United Fuel will be the book value (at original cost) less the book reserves for depreciation computed to the date of transfer. It is estimated that, computed as of November 30, 1951, the purchase price would be $3,065,980.

The above mentioned compressor station is presently owned by the United States Steel Company (formerly known as Carnegie-Illinois Steel Corporation) but was originally constructed by United Fuel for said company, and has been operated by United Fuel at its own expense since the date of completion. United Fuel now proposes to purchase said compressor station, together with all appurtenant structures and facilities, pursuant to the terms of an agreement dated September 25, 1941, between United Fuel and Carnegie-Illinois Steel Corporation on the basis of original cost less accrued depreciation computed as of November 30, 1951.

Manufacturers proposes to finance the proposed purchase of the aforesaid property by assuming $3,000,000 principal amount of 3¼ percent Notes owed by United Fuel to Columbia and by paying in cash to United Fuel the balance of the purchase price.

It is represented that the above transactions are proposed because the facilities are used primarily for the transportation of gas to Manufacturers, and to effect certain economies and efficiency of operations, since Manufacturers has other operations in close proximity to the said facilities it proposes to purchase.

The Public Service Commission of West Virginia having expressly authorized the proposed sale of property by United Fuel to Manufacturers and the acquisition thereof by Manufacturers; the Public Utility Commission of Pennsylvania having expressly authorized the assumption by Manufacturers of the liability for 3¼ percent Notes of United Fuel; and the Federal Power Commission having expressly authorized the sale by United Fuel and the acquisition by Manufacturers of the utility facilities described herein; and

Due notice having been given of the filing of the joint application-declaration, as amended, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said joint application-declaration, as amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said joint application-declaration, as amended, be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 52-6142; Filed, June 4, 1952; 8:49 a. m.]

[File No. 70-2855]

COLUMBIA GAS SYSTEM, INC., ET AL.

ORDER AUTHORIZING PROPOSED ADVANCES ON OPEN ACCOUNT TO FIVE SUBSIDIARY COMPANIES BY PARENT COMPANY

MAY 29, 1952.

In the matter of the Columbia Gas System, Inc., the Ohio Fuel Gas Company, United Fuel Gas Company, the Manufacturers Light and Heat Company, Central Kentucky Natural Gas Company, Home Gas Company; File No. 70-2855.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, having filed a declaration and an amendment thereto with this Commission pursuant to section 12 (b) of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder with respect to the following proposed transactions:

Columbia proposes to advance varying amounts aggregating not in excess of $20,350,000 to five of its subsidiaries on open account during the year 1952, as follows:

The Ohio Fuel Gas Co	$8,500,000
United Fuel Gas Co	6,350,000
The Manufacturers Light & Heat Co	4,000,000
Central Kentucky Natural Gas Co	500,000
Home Gas Co	000,000

Such advances will bear an interest rate of 3⅛ percent per annum, and will be repayable in three equal installments on February 10, March 10, and April 10, 1953.

The declarant states that the proceeds will be used by the subsidiaries to finance the purchase of gas for their current inventories.

The Public Service Commission of West Virginia having expressly authorized the proposed open-account advance to United Fuel Gas Company; and

Due notice having been given of the filing of the declaration, as amended, and a hearing not having been requested of or ordered by the Commission; and

The Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said declaration, as amended, be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2870]

GULF POWER CO.

NOTICE OF FILING REGARDING PROPOSED SALE OF PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS

MAY 29, 1952.

Notice is hereby given that an application, with an amendment thereto, has been filed with this Commission by Gulf Power Company ("Gulf"), a public utility subsidiary of the Southern Company, a registered holding company. The filing has designated section 6 (b) of the act and Rule U-50 promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

Gulf proposes to issue and sell pursuant to the competitive bidding requirements of Rule U-50, $7,000,000 principal amount of First Mortgage Bonds ... percent Series due 1982, to be issued under and secured by Gulf's present Indenture, dated as of September 1, 1941, as last supplemented on April 1, 1949, and to be further supplemented by a Supplemental Indenture to be dated as of July 1, 1952. The interest rate and the price to the company for the bonds will be determined by the competitive bidding, except that the invitation for bids will specify that the price to the company shall not be less than 100 percent nor more than 102¾ percent of the principal amount. The company proposes to use the proceeds from the sale of these new bonds to provide a portion of the funds required for improvements, extensions and additions to the company's property.

The filing states that the issuance and sale of the proposed new bonds are subject to authorization by the Florida Railroad and Public Utilities Commission. Gulf requests that any order of this Commission granting the application shall become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than June 12, 1952, at 12:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D.C. At any time thereafter said application, as filed or as further amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2879]

UNITED GAS CORP. AND UNION PRODUCING CO.

NOTICE OF FILING REGARDING LOANS

MAY 29, 1952.

Notice is hereby given that United Gas Corporation ("United"), a gas utility subsidiary of Electric Bond and Share Company, a registered holding company, and United's wholly owned subsidiary, Union Producing Company ("Union"), have filed a joint application-declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935, and have designated sections 6 (a), 7, 9 (a) and 10 thereof and Rule U-43 (a), promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

United proposes to lend to Union and Union proposes to borrow from United not in excess of $2,000,000 during a period of one year following the date of the entry of the Commission's order herein, in such installments and at such time as funds may be required and requested by Union. The proposed loans will be evidenced by unsecured promissory notes issued by Union to United or order, from time to time, payable on or before six years from the date of issuance, and bearing interest at the rate of 4 percent per annum.

The application-declaration states that United will pledge the notes evidencing the proposed loans with the Corporate Trustee under its Mortgage and Deed of Trust, as supplemented, securing United's outstanding First Mortgage and Collateral Trust Bonds.

At April 30, 1952, Union's cash balance amounted to $857,519. The application-declaration states that as a result of an accelerated leasing, development and drilling program, it has become necessary to increase Union's working capital and to maintain such working capital at an adequate level.

Notice is further given that any interested person may, not later than June 12, 1952 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after June 12, 1952 at 5:30 p. m., e. d. s. t., said application-declaration as filed, or as amended, may be granted and permitted to become effective as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said application-declaration which is on file with the Commission for a statement of the transactions therein proposed.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 18884]

ELSA VOITH ET AL.

In re: Securities owned by and debts owing to Elsa Voith, also known as Elsa M. Voith, and others. D-28-122, D-28-9743, F-28-4602.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Elsa Voith, also known as Elsa M. Voith, Hilar Voith and Erwin Malblanc, each of whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

2. That Thea Voith, whose last known address is Pruggen, Steiermark, Austria, on or since December 11, 1941, and prior to January 1, 1947, acted or purported to act directly or indirectly for the benefit of or on behalf of a designated enemy country (Germany) or nationals of such country and is, and prior to January 1, 1947, was a national of a designated enemy country (Germany);

3. That the personal representatives, heirs, next of kin, legatees and distributees of Margaretha Wassermann Meurer, also known as Margaretha W. and as M. W. Meurer, deceased, who there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany are and, prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

4. That the property described as follows:

a. Those certain shares of stock, described in Exhibit A attached hereto and by reference made a part hereof, evidenced by certificates presently in the custody of the Attorney General of the United States in Account No. 28200184, together with all declared and unpaid dividends thereon.

b. Any and all rights and interest in and under four certificates for First Mortgage Leasehold Bonds of the 32 West Randolph Corporation, 32 West Randolph Street, Chicago, Illinois, said certificates numbered D226, M1888, M1889, and M1890 of $500, $1,000, $1,000 and $1,000 face value, respectively, presently in the custody of the Attorney General of the United States in Account No. 28200184,

c. Those certain debts or obligations evidenced by two checks drawn by the Continental Illinois National Bank and Trust Company of Chicago, numbered RI 107127 and RI 186340, dated November 15, 1944 and May 15, 1945, respectively, payable to Elsa Voith, Hilar Voith, Erwin Malblanc and Thea Voith, c/o C. F. Benz, c/o American Voith Contact Co., Inc., Chrysler Building, New York, New York, representing interest payments on the 32 West Randolph Corporation bonds, described in subparagraph 4 (b) hereof, presently in the custody of the Attorney General of the United States, in Account No. 28200184, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to, and under said checks, and

d. Any and all rights, interests, and claim in and to and arising out of a voting trust certificate numbered VT 1183, dated August 21, 1936, for thirty-three (33) shares of common, no par value stock of the 32 West Randolph Corporation, 32 West Randolph Street, Chicago, Illinois, said voting trust certificate presently in the custody of the Attorney General of the United States in Account No. 28200184,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Elsa Voith, also known as Elsa M. Voith, Hilar Voith,

Erwin Malblanc and Thea Voith, the aforesaid nationals of a designated enemy country (Germany);

5. That the property described as follows:

a. Those certain shares of stock described in Exhibit B, attached hereto and by reference made a part hereof, evidenced by certificates presently in the custody of the Attorney General of the United States in Account No. 28200184, together with all declared and unpaid dividends thereon, and

b. Any and all rights, interests, and claims in and to and arising out of a voting trust certificate numbered V-3359, dated February 6, 1925, for two hundred (200) shares of common, $10.00 par value, stock of the Marquette Oil Corporation, Delaware Corporation, said voting trust certificate presently in the custody of the Attorney General of the United States in Account No. 28200184,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the personal representatives, heirs, next of kin, legatees and distributees of Margaretha Wassermann Meurer, also known as Margaretha W. and as M. W. Meurer, deceased, Elsa Voith, also known as Elsa M. Voith, Hilar Voith, Erwin Malblanc and Thea Voith, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

6. That the person named in subparagraph 2 hereof is, and prior to January 1, 1947 was, controlled by or acting for or on behalf of a designated enemy country (Germany) or persons within such country and is, and prior to January 1, 1947 was, a national of a designated enemy country (Germany);

7. That the national interest of the United States requires that the persons named in subparagraphs 1 and 2 and referred to in subparagraph 3 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 29, 1952.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 18883]

JOHN LUCHAUER

In re: Securities owned by John Luchauer.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That John Luchauer, is a citizen of Germany who on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany, and is and prior to January 1, 1947, was a national of a designated enemy country (Germany);

2. That the property described as follows:

a. One hundred (100) shares of stock of Dubilier Condenser Corporation, a corporation organized under the laws of the State of Delaware, evidenced by a certificate numbered N10004, registered in the name of John Luchauer, together with all declared and unpaid dividends thereon and any and all rights to exchange said stock for shares of Cornell-Dubilier Electric Corporation,

b. Forty (40) shares of stock of General Investment Corporation, now known as Stokely Foods, Inc., a corporation organized under the laws of the State of Delaware, evidenced by a certificate numbered NCO 10442, registered in the name of John Luchauer, together with all declared and unpaid dividends thereon,

c. Two hundred (200) shares of stock of Appalachian Gas Corporation, a corporation organized under the laws of the State of Delaware, evidenced by certificates numbered 25244/5 for 100 shares each, registered in the name of John Luchauer, together with all declared and unpaid dividends thereon,

d. Six (6) shares of stock of United Founders Corporation, a corporation organized under the laws of the State of Maryland, evidenced by a certificate numbered CO 163479, registered in the name of John Luchauer, together with all declared and unpaid dividends thereon,

e. Any and all rights in and under a Stock Purchase Warrant for 20 shares of stock of General Investment Corporation, said warrant numbered NCW 753, and

f. Any and all rights in and under certificates issued by Wenden Copper Mining Company for 112½ shares of stock of Nellie Meda Gold Mines, said certificates numbered 2094 for 102½ shares registered in the name of John Luchauer and 2083 for 10 shares, registered in the name of R. P. Mills,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, John Luchauer, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person identified in subparagraph 1 hereof be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 29, 1952.

FEDERAL REGISTER

VOLUME 17 NUMBER 111

Washington, Friday, June 6, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10357

INCLUDING CERTAIN LANDS IN THE NANTAHALA NATIONAL FOREST

WHEREAS on April 18, 1952, the Tennessee Valley Authority and the United States Department of Agriculture entered into an agreement (designated as a supplemental agreement of transfer) providing for the transfer by the said Authority to the said Department of the right of possession and all other right, title, and interest which the Authority might have in or to certain lands therein designated and described in Cherokee County, North Carolina, so that such lands might be included in and reserved as part of the Nantahala National Forest, in accordance with the terms and conditions of the said agreement and subject to the approval thereof by the President of the United States; and

WHEREAS I have this day approved the said agreement between the Tennessee Valley Authority and the United States Department of Agriculture; and

WHEREAS it appears that such lands are suitable for national-forest purposes and that the inclusion of such lands in the Nantahala National Forest would be in the public interest:

NOW, THEREFORE, by virtue of the authority vested in me by section 24 of the act of March 3, 1891, 26 Stat. 1103, and the act of June 4, 1897, 30 Stat. 34, 36 (16 U. S. C. 471, 473), and as President of the United States, and upon the recommendation of the Secretary of Agriculture, I hereby include in and reserve as part of the Nantahala National Forest the following-described lands, such inclusion and reservation to be in accordance with and subject to the terms and conditions of the said agreement of April 18, 1952, between the Tennessee Valley Authority and the United States Department of Agriculture:

PARCEL NO. 1

Beginning at US–TVA Monument 72–3 (Coordinates: N. 549,301; E. 447,817) at a common corner of the lands of the United States of America (US–TVA), the U. S. Forest Service, and Gay Hawkins et ux; thence with the United States of America's (US–TVA) boundary line N. 2 deg. 27' E., 2077 feet to a stone; thence N. 88 deg. 27' E., 1737 feet to a U. S. Forest Service monument; thence N. 7 deg. 42' W., 492 feet to a metal marker at the top of a ridge; thence with the top of the ridge as it meanders in a northeasterly direction approximately 1475 feet (straight line bearing and distance of N. 48 deg. 07' E., 1407 feet) to a metal marker; thence, leaving the ridge, S. 1 deg. 14' W., 1165 feet to US–TVA Monument 2–1; thence S. 54 deg. 26' W., 1659 feet to US–TVA Monument 72–7; thence N. 14 deg. 20' E., 335 feet to US–TVA Monument 72–6; thence N. 86 deg. 56' W., 1177 feet to US–TVA Monument 72–5; thence S. 6 deg. 31' W., 1808 feet to US–TVA Monument 72–4; thence S. 84 deg. 55' W., 136 feet to the point of beginning, and containing 46.9 acres, more or less.

PARCEL NO. 2

Beginning at US–TVA Monument 7–1 at a corner in the boundary between the lands of the United States of America (US–TVA) and the U. S. Forest Service from which the most northerly corner of the above-described Parcel No. 1 bears S. 1 deg. 14' W., at a distance of 1386 feet; thence from the point of beginning with the United States of America's (US–TVA) boundary line S. 1 deg. 14' W., 505 feet to a metal marker; thence N. 41 deg. 55' W., 313 feet to a metal marker; thence S. 52 deg. 09' W., 1300 feet to a metal marker; thence N. 7 deg. 42' W., 1227 feet, passing a metal marker at 1,088 feet, to a metal marker; thence S. 85 deg. 48' E., 750 feet to a metal marker; thence N. 31 deg. 23' W., 726 feet to US–TVA Monument 7–2; thence N. 71 deg. 07' E., 82 feet to US–TVA Monument 6–1; thence S. 52 deg. 32' E., 1213 feet to the point of beginning, and containing 27.5 acres, more or less.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

[Amdt. 1]

PART 422—CITRUS CROP INSURANCE

SUBPART—REGULATIONS FOR ANNUAL CONTRACTS FOR 1952 CROP YEAR

The above-identified regulations (16 F. R. 11566) are hereby amended as follows:

1. Section 422.23 is amended by changing paragraph (b) to read:

(b) The premium shall be paid at the time the application for insurance is filed or by April 30, 1952, whichever occurs later, except that such date may be extended to August 31, 1952, upon arrangements satisfactory to the Corporation being made to insure payment of the premium.

2. Section 422.24 is amended by changing the second sentence to read: "Applications shall be submitted to the county office on or before May 31, 1952, provided that each applicant for insurance who submits an application after May 1, 1952, shall agree that the date of his application shall be substituted for May 1, 1952, wherever May 1, 1952, appears in the policy shown in § 422.31."

(Secs. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507, 508, 509, 52 Stat. 73–75, as amended; 7 U. S. C. 1507, 1508, 1509)

Adopted by the Board of Directors on May 27, 1952.

[SEAL] R. J. POSSON,
Secretary,
Federal Crop Insurance Corporation.

Approved: June 3, 1952.

CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5782]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

MONROE SALES CO. ET AL.

Subpart—*Using or selling lottery devices:* § 3.2480 *In merchandising.* In connection with the offering for sale, sale and distribution in commerce, of watches, novelties or any other merchandise, (1) supplying to or placing in the hands of others punchboards, push cards, or other lottery devices, either with assortments of merchandise or separately, which punchboards, push cards, or other lottery devices are to be used or may be used in the sale or distribution of respondents' merchandise to the public; or, (2) selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Samuel Cohen t. a. Monroe Sales Company, Baltimore, Md., Docket 5782, March 10, 1952]

In the Matter of Samuel Cohen and Irwin H. Fisher, Individuals and Partners Trading as Monroe Sales Company

This proceeding was heard by William L. Pack, hearing examiner, theretofore duly designated by the Commission, upon the Commission's complaint, the respondents' answer, and hearings at which testimony and other evidence, which were in support of and in opposition to the allegations of the complaint, and were duly recorded and filed in the office of the Commission, were introduced before said examiner.

Thereafter the proceeding regularly came on for final consideration by said examiner on the complaint, answer, testimony and other evidence, and proposed findings and conclusions submitted by counsel (oral argument not having been requested in the matter, which had already been argued at length upon a motion to dismiss the complaint by respondents' counsel), and said examiner, having duly considered the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

[1] Filed as part of the original document.

No appeal having been filed from said initial decision of said trial examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on March 10, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondents, Samuel Cohen and Irwin H. Fisher, individually and as partners trading under the name Monroe Sales Company or under any other name, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of watches, novelties or any other merchandise, do forthwith cease and desist from:

1. Supplying to or placing in the hands of others punchboards, push cards, or other lottery devices, either with assortments of merchandise or separately, which punchboards, push cards, or other lottery devices are to be used or may be used in the sale or distribution of respondents' merchandise to the public.

2. Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme.

By "Decision of the Commission and order to file report of compliance", Docket 5782, March 10, 1952, which announced and decreed fruition of said initial decision, report of compliance with the said order was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 10, 1952.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

[F. R. Doc. 52-6176; Filed, June 5, 1952; 8:46 a. m.]

[Docket 5895]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

STATE SEWING MACHINE CORP. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.70 *Fictitious or misleading guarantees;* § 3.260 *Terms and conditions.* Subpart—*Concealing or obliterating law required and informative marking:* § 3.515 *Foreign source.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1860 *Imported product or parts as domestic;* § 3.1905 *Terms and conditions.* Subpart—*Offering unfair, improper, and deceptive inducements to purchase or deal:* § 3.1980 *Guarantee, in general.* In connection with the offering for sale, sale or distribution of sewing machine heads or sewing machines in commerce, (1) offering for sale, selling or distributing foreign made sewing machine heads, or sewing machines of which foreign made heads are a part, without clearly and conspicuously disclosing on the heads, in such a manner that it will not be hidden or obliterated, the country of origin thereof; or (2) representing, directly or by implication, that their sewing machine heads or sewing machines are sold under a lifetime guarantee, or that they are otherwise guaranteed, unless the nature and extent of the guarantee and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, State Sewing Machine Corporation et al., New York, N. Y., Docket 5895, March 8, 1952]

In the Matter of State Sewing Machine Corporation, a Corporation, and Lazare Gelin, Sydel M. Empel, William J. Melson and Dorothy B. Gelin, Individually and as Officers of Said Corporation

This proceeding was heard by Abner E. Lipscomb, hearing examiner, theretofore duly designated by the Commission, upon the Commission's complaint, the answer of the respondents, and a substitute answer which was read into the record, admitted all of the material allegations of fact set forth in the complaint (excepting their statement that respondent Sydel M. Empel was secretary of respondent corporation only until about May 1, 1951), and reserved the right to submit proposed findings and conclusions and to appeal from the initial decision in the instant matter.

Thereafter the proceeding regularly came on for final consideration by said examiner upon said complaint and answer thereto, and proposed findings and conclusions submitted by counsel for respondents, oral argument not having been requested and no proposed findings having been submitted by counsel for the complaint, and said examiner, having duly considered the record in the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order, including order to cease and desist and order of dismissal as to said respondent Empel, without prejudice to further proceedings against her should future facts so warrant.

No appeal having been filed from said initial decision of said trial examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on March 8, 1952.

The said order is as follows:

It is ordered, That the respondents, State Sewing Machine Corporation, a corporation, Lazare Gelin, William J. Melson and Dorothy B. Gelin, individually and as officers of said corporation, and said respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of sewing machine heads or sewing machines in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Offering for sale, selling or distributing foreign made sewing machine heads, or sewing machines of which foreign made heads are a part, without clearly and conspicuously disclosing on the heads, in such a manner that it will not be hidden or obliterated, the country of origin thereof;

2. Representing, directly or by implication, that their sewing machine heads or sewing machines are sold under a lifetime guarantee, or that they are otherwise guaranteed, unless the nature and extent of the guarantee and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed.

It is further ordered, That the complaint herein be, and the same hereby is, dismissed as to respondent Sydel M. Empel, without prejudice to the right of the Commission to institute further proceedings against her, should future facts so warrant.

By "Decision of the Commission and order to file report of compliance", Docket 5895, March 7, 1952, which announced and decreed fruition of said initial decision, report of compliance with the said order was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 7, 1952.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

[Docket 5922]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

WILL-WELD MANUFACTURING CO. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service;* § 3.195 *Safety.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1890 *Safety.* In connection with the introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, of unassembled electric home welding machines, (1) representing, directly or indirectly, that respondents' electric home welding machine, made by the assembling of the various parts sold by them for a complete machine, will operate consistently and safely on the electric circuit ordinarily found in a home with a 30 ampere fuse; or, (2) selling or offering for sale their electric home welding machine without, in large type appearing in all literature relating thereto, expressly informing the purchaser or purchasers that their home welding machine cannot be safely connected with the electric current ordinarily found in a home by an ampere fuse in excess of 15 amperes and that the use of a larger fuse may cause an overloading of the electric circuit and produce a dangerous fire-hazard condition; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Will-Weld Manufacturing Company et al., Omaha, Neb., Docket 5922, March 13, 1952]

In the Matter of Will-Weld Manufacturing Company, a Corporation, and W. O. Schneiderwind, W. J. Dillman, and L. B. Bush, Individually and as Officers of Said Corporation

This proceeding was heard by Webster Ballinger, hearing examiner, theretofore duly designated by the Commission, upon the Commission's complaint, answer of corporate respondent, and a hearing at which testimony and other evidence, which were duly filed in the office of the Commission, were introduced before him.

Thereafter the proceeding regularly came on for final consideration by said examiner on the complaint, answer thereto, testimony and other evidence, all intervening procedure before the examiner being waived, and said examiner, having duly considered the record in the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

No appeal having been filed from said initial decision of said trial examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on March 13, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondents Will-Weld Manufacturing Company, a corporation, and W. O. Schneiderwind, W. J. Dillman and L. B. Bush, individually and as officers of the corporate respondent, directly or through any corporate or other device, in connection with the introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of unassembled electric home welding machines, by that or any other name or designation, do forthwith cease and desist from:

(1) Representing, directly or indirectly, that their electric home welding machine, made by the assembling of the various parts sold by them for a complete machine, will operate consistently and safely on the electric circuit ordinarily found in a home with a 30 ampere fuse.

(2) Selling or offering for sale their electric home welding machine without, in large type appearing in all literature relating thereto, expressly informing the purchaser or purchasers that their home welding machine cannot be safely connected with the electric current ordinarily found in a home by an ampere fuse in excess of 15 amperes and that the use of a larger fuse may cause an overloading of the electric circuit and produce a dangerous fire-hazard condition.

By "Decision of the Commission and order to file report of compliance", Docket 5922, March 13, 1952, which announced and decreed fruition of said initial decision, report of compliance with the said order was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: March 13, 1952.

By the Commission.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter I—Home Loan Bank Board, Housing and Home Finance Agency

Subchapter D—Federal Savings and Loan Insurance Corporation

[No. 5230]

PART 161—DEFINITIONS

INSURED MEMBER

JUNE 2, 1952.

Resolved, That, pursuant to Part 108 of the general regulations of the Home Loan Bank Board (24 CFR Part 108) and § 167.1 of the rules and regulations for Insurance of Accounts (24 CFR 167.1), notice and public procedure having been duly afforded (17 F. R. 3615), effective July 6, 1952, § 161.2 of the rules and regulations for Insurance of Accounts (24 CFR 161.2) is hereby amended to read as follows:

§ 161.2 *Insured member.* An "insured member" may be an individual, a partnership, an association, or a corporation holding an insured account. An individual, a partnership, an association, or a corporation may be trustee for any number of beneficiaries: *Provided*, That the trust account is specifically designated in such a manner as to disclose the custodial nature thereof: *And provided further*, That the beneficiaries and their respective interests in such trust account are disclosed upon the records of the insured institution or upon the records of the trustee in whose name the insured account is maintained and such records have been maintained in good faith and in the regular course of business. The account of an insurable type of each such beneficiary shall be deemed an insured account. In computing the insured investment in any insured institution, the amount of the interest of such beneficiary under a trust shall be combined with other accounts of the beneficiary, and the insured investment shall be the total, less any amount in excess of $10,000.

(Sec. 402, 48 Stat. 1256, as amended, 12 U. S. C. 1725. Interprets or applies sec. 401, 48 Stat. 1255; 12 U. S. C. 1724)

By the Home Loan Bank Board.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 39; Interpretation 1]

CPR 39—CEILING PRICES ON CERTAIN MARINE FEED PRODUCTS SOLD BY PROCESSORS, IMPORTERS AND DISTRIBUTORS

INT. 1—MEANING OF F. O. B. PORT OF ENTRY (SECTION 4 (a) AND (b))

An importer of fish meal situated at an Atlantic, Gulf or Pacific coastal point, or in the Territory of Hawaii, cannot, under sections 4 (a) or (b) of Ceiling Price Regulation 39, as amended, sell his meal at the applicable ceiling prices set forth in Table A of the regulation on an f. o. b. incoming vessel basis. The general rule of establishing ceiling prices under the regulation is that an applicable f. o. b. ceiling price applies to a shipment of fish meal when that shipment is loaded to the means of conveyance by which it is transported to the buyer's destination. Accordingly, f. o. b. port-of-entry means free on board rail cars, barges or other means of conveyance used in transporting the lot of imported fish meal from the port of entry to the buyer's destination. Any costs involved in landing and unloading the lot of imported fish meal and in loading that lot to cars or barges by which it is transported from the port of entry must be absorbed by the importer.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ, *Chief Counsel, Office of Price Stabilization.*

[Ceiling Price Regulation 74, Collation 1]

CPR 74—CEILING PRICES OF PORK SOLD AT WHOLESALE

COLL 1—INCLUDING AMENDMENTS 1–5

Ceiling Price Regulation 74 is republished to incorporate the texts of Amendments 1 through 5. Ceiling Price Regulation 74 was issued September 25, 1951 (16 F. R. 9759). Statements of Consideration for Ceiling Price Regulation 74, and for Amendments 1 through 5, inclusive, as previously published, are applicable to this republication. The effective dates of this regulation, and of the amendments are shown in a note preceding the first section of the regulation.

REGULATORY PROVISIONS

ARTICLE I—GENERAL PROVISIONS

Sec.
1. What this regulation does.
2. Where this regulation applies.
3. Ceiling prices for sales of wholesale pork cuts.
4. Ceiling prices for sales of dressed hogs.
5. Ceiling prices of dried pork, specialty pork products and prefabricated retail cuts.
6. Exclusions.
7. Adjustment for transportation to critical areas.
8. Export sales.
9. Importation at prices above ceiling.
10. Identification of product.
11. Records.
12. Election of seller's classification.
13. Evasion.
14. Prohibitions.
15. Enforcement.
16. Petitions for amendment.

ARTICLE II—PRICING SCHEDULES

20. Schedule I. Wholesale pork cuts: fresh or frozen, cured, smoked, ready-to-eat and cooked (not in molds under pressure).
21. Schedule II. Wholesale pork cuts: sliced bacon, derind, packed in shipping containers.
22. Schedule III. Wholesale pork cuts: cured and cooked, smoked and cooked and browned.
23. Schedule IV. Wholesale pork cuts: pork sausage material.
24. Schedule V. Wholesale pork cuts: miscellaneous pork cuts.
25. Schedule VI. Wholesale pork cuts: semi-sterile canned meats.
26. Schedule VII. Wholesale pork cuts: pork variety meats and edible by-products.
27. Schedule VIII. Wholesale pork cuts: fabricated loin cuts.
28. Schedule IX. Wholesale pork cuts: aged, dry cured pork cuts.
29. Wholesale pork cuts; certain cuts packed in wood or class containers.
30. Schedule X. Dressed hogs: denominator basis.
31. Schedule XI. Dressed hogs: flat price basis.

ARTICLE III—DISTRIBUTION POINT

35. Distribution point.

ARTICLE IV—ZONE DIFFERENTIALS AND ADDITIONS

40. Addition 1—Zone differentials.
41. Addition 2—Local slaughter addition.
42. Addition 3—Local delivery.
43. Addition 4—Wholesaler's addition.
44. Addition 5—Non-slaughtering processor's addition.
45. Addition 6—Intermediate distributor's addition.
46. Addition 7—Hotel supply house addition.
47. Addition 8—Combination distributor's addition.
48. Addition 9—Addition on sales to ship operators.
49. Addition 10—Peddler truck selling addition.
50. Addition 11—Sales to defense procurement agencies.
51. Addition 12—Wrapping.
52. Addition 13—Packing in shipping containers.
53. Addition 14—Special cutting and trimming addition.

ARTICLE V—GENERAL DEFINITIONS

Sec.
60. General definitions.

APPENDIXES

1. Zone and region definitions.
2. Pork product definitions.
3. Processing definitions.
4. Map of zones and regions.

AUTHORITY: Sections 1 to 60 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

DERIVATION: Sections 1 to 60 contained in Ceiling Price Regulation 74, September 25, 1951 (16 F. R. 9759), except as otherwise noted in brackets following text affected.

EFFECTIVE DATES: CPR 74, October 1, 1951, 16 F. R. 9759; Amendment 1, November 24, 1951, 16 F. R. 11715; Amendment 2, April 16, 1952, 17 F. R. 3337; Amendment 3, May 13, 1952, 17 F. R. 4253; Amendment 4, May 26, 1952, 17 F. R. 4622; Amendment 5, May 31, 1952.

ARTICLE I—GENERAL PROVISIONS

SECTION 1. *What this regulation does.* This regulation establishes specific ceiling prices for most sales of pork, including dressed hogs, except for sales at retail and other sales of the miscellaneous items excluded by section 6. In addition, it defines and standardizes the pork products, including dressed hogs and wholesale pork cuts, which may be sold and prohibits the sale of non-standardized items, except as permitted by section 5. The ceiling prices established by this regulation supersede those determined for the same items pursuant to the General Ceiling Price Regulation and particularly by Supplement 3, and by letter orders issued pursuant to General Overriding Regulation 10 prior to the effective date of this regulation. Finally, this regulation supersedes Supplemental Regulation 47 to the General Ceiling Price Regulation.

SEC. 2. *Where this regulation applies.* This regulation shall be applicable in the 48 states and the District of Columbia.

SEC. 3. *Ceiling prices for sales of wholesale pork cuts.* Your ceiling price for each wholesale pork cut is the applicable base price specified in Article II, plus any applicable addition permitted by Article IV.

SEC. 4. *Ceiling prices for sales of dressed hogs*—(a) *Sales to certified dressed hog processors.* Your ceiling price for each dressed hog sold to a certified dressed hog processor is the applicable base price determined in section 30 or the applicable base price specified in section 31, plus any applicable addition permitted by Article IV.

(b) *Sales to others.* Your ceiling price for each dressed hog sold to a buyer who is not a certified dressed hog processor is the applicable base price specified in section 31, plus any applicable addition permitted by Article IV.

SEC. 5. *Ceiling prices of dried pork, specialty pork products and prefabricated retail cuts.* (a) If you produced and sold dried (other than aged, dry cured) pork, or specialty pork products in 1950, your ceiling prices and the ceiling prices of your distributors for these products are established by the General Ceiling Price Regulation. The producer of these items must, however, file OPS Public Form 94 with the Office of Price Stabilization, Food and Restaurant Division, Washington 25, D. C., on or before May 17, 1952. After receipt of this form, the Director of Price Stabilization may issue an order forbidding the producer and the distributors thereof from selling this dried (other than aged, dry cured) pork or specialty pork product or may issue an order revising the ceiling prices of the producer and the distributors of this product.

[Paragraph (a) amended by Amdts. 1 and 2]

(b) If you desire to produce and sell a dried (other than aged, dry cured) pork or specialty pork product, which you did not produce and sell in 1950, you must apply in writing to the Office of Price Stabilization, Food and Restaurant Division, Washington 25, D. C., for a ceiling price. With your application you shall submit OPS Public Form No. 94. The Director of Price Stabilization may authorize a ceiling price for such product if your application includes sufficient facts to enable the Director of Price Stabilization to find:

(1) That you have made a substantial financial investment which cannot be utilized except in the sale of such product;

(2) That production of this item will not divert an abnormal amount of pork production from low cost to high cost items; and

(3) That approval of your application will be generally fair and equitable, will not adversely affect the price structure established by this regulation, and will not otherwise have an inflationary effect.

[Paragraph (b) amended by Amdt. 2]

(c) *Prefabricated retail cuts.* (1) If you are not prohibited, by section 14 (b) of this regulation, from selling prefabricated retail cuts to a retail selling establishment, your ceiling prices for sales of such cuts to such an establishment are your ceiling prices established by the General Ceiling Price Regulation.

(2) If you are not prohibited by section 14 (b) of this regulation from selling prefabricated retail cuts to a purveyor of meals, your ceiling prices for sales of such cuts to such an establishment, are your ceiling prices established by the General Ceiling Price Regulation.

[Paragraph (c) added by Amdt. 2]

(d) On or after May 13, 1952, if you are currently producing any dried (other than aged, dry cured) pork or specialty pork product which you produced and sold in 1950, or if you desire to produce and sell any dried (other than aged, dry cured) pork or specialty pork product at one or more plants, you need only file the information required by paragraphs (a) and (b) of Section 5, including OPS Public Form 94, for your plant which is producing that product, which is located in or nearest to Zone 1. You need not file such information or form for any of your other plants producing the same identical product. If you have filed an application under this section prior to May 13, 1952, you need not refile for the same product.

[Paragraph (d) added by Amdt. 3]

SEC. 6. *Exclusions.* This regulation does not apply to:

(a) Sales at retail;

(b) Pork items exempted by General Overriding Regulation 7, as amended;

(c) Sausage;

(d) Sterile canned meat;

(e) Sales or deliveries of pork products to a buyer, if, prior to the effective date of this regulation, these items have been received for shipment to such buyer by a carrier other than a carrier owned or controlled by the seller; or

(f) Canned pork produced outside the continental United States and sold in the original container in which it was processed.

[Paragraph (f) amended by Amdt. 2]

SEC. 7. *Adjustment for transportation to critical areas.* Upon a finding that a critical shortage of meat has occurred in a specific area because customary sources of supply are unavailable and because the established ceiling prices do not contain a sufficient allowance to cover the cost of transporting meat to that area from other sources of supply, the Director of Price Stabilization may by order designate such area as a critical area for such period as he may prescribe, and may in writing authorize you to charge and receive, for pork products sold to buyers in that area, an amount in excess of the applicable ceiling price.

SEC. 8. *Export sales*—(a) *Ceiling prices.* The ceiling prices at which you may export from the 48 states and the District of Columbia to any place outside the 48 states and the District of Columbia any pork product shall be your domestic ceiling price for this item, f. o. b. your place of business, plus any of the following costs you actually incurred incidental to exportation of the product:

(1) Cost of transportation to the dock;

(2) Export packing and freezing costs;

(3) Demurrage or warehouse charges;

(4) Ocean freight costs;

(5) Insurance costs;

(6) Consular fees; and

(7) Freight forwarders' fees.

(b) *Records.* You shall make and preserve the records required by section 11 (a) and you shall also separately list any of the actual costs incurred and charged pursuant to paragraphs (1) through (7) above. You shall furnish the buyer a written statement showing all this information.

SEC. 9. *Importation at prices above ceiling.* (a) Regardless of any contract, agreement or other obligation, you shall not, by direct or indirect methods, import into the 48 states or the District of Columbia from a foreign country any pork (except canned pork produced outside the continental United States and sold in the original container in which it was processed) purchased by you, directly or through any agent, or through a foreign or domestic corporation affiliated with you, or any foreign or domestic subsidiary thereof, if this pork has a landed cost higher than the do-

mestic ceiling price at the point of consignment.

[Paragraph (a) amended by Amdt. 2]

(1) The landed cost shall mean the amount you paid for the product, directly or indirectly, plus the following expenses actually incurred by or for you:

(i) Transportation costs to the point of consignment;

(ii) Customs duties or other import taxes;

(iii) Other commodity taxes;

(iv) Dock charges;

(v) Clearance;

(vi) Insurance;

(vii) Letter of credit expenses; and

(viii) Any customary buying commission to a purchasing agent outside continental United States.

(2) The domestic ceiling price at the point of consignment shall mean the lowest price established in Article II for this product when sold by a slaughterer plus the zone differential, where applicable, to the point to which the shipment is consigned. In computing this price, the point to which the shipment is consigned shall be the distribution point and none of the additions provided in sections 41 through 50, inclusive, may be added.

(b) *Records.* Each of you who purchases, directly or indirectly, a pork product outside the 48 states and the District of Columbia and imports the product into the United States shall make and preserve for a period of two years the records required in section 11 (a) of this regulation; and you shall also make and preserve records for a period of two years showing any of the actual costs listed in items (i) through (viii) of section 9 (a) (1) which you incurred.

SEC. 10. *Identification of product.* You shall identify each cooked wholesale pork cut and each ready-to-eat wholesale pork cut as follows:

(a) *Cooked cuts.* Each piece of a cooked wholesale pork cut stuffed in a casing shall have the word "cooked" printed or stamped on such casing in letters at least ¼-inch high. Each piece of a cooked wholesale pork cut not stuffed in a casing shall have the word "cooked" printed or stamped on the pork cut and on the wrapper within which this pork cut is enclosed, in letters at least ¼-inch high. If a cooked cut is not stuffed in a casing and is not wrapped, see section 10 (c).

(b) *Ready-to-eat cuts.* Each piece of a ready-to-eat wholesale pork cut stuffed in a casing shall have the legend "ready-to-eat" printed or stamped on such casing in letters at least ¼-inch high. Each piece of a ready-to-eat wholesale pork cut not stuffed in a casing, except boneless butts, shall have the legend "ready-to-eat" printed or stamped on the pork cut and on the wrapper within which this pork cut is enclosed, in letters at least ¼-inch high. Each wrapped piece of a ready-to-eat boneless butt shall have the legend "ready-to-eat" printed or stamped on the wrapper in letters at least ¼-inch high. If a ready-to-eat cut is not stuffed in a casing and is not wrapped, see section 10 (c).

(c) *Ready-to-eat and cooked cuts not wrapped.* If a ready-to-eat or cooked cut is not stuffed in a casing and is not wrapped, the appropriate legend, "ready-to-eat" or "cooked", shall be stamped on each such cut in letters at least ¼-inch high.

SEC. 11. *Records*—(a) *Records which must be preserved.* On and after the effective date of this regulation, each of you who sells or transfers any pork products shall make and preserve, and each of you who, in the course of trade or business, buys or receives any pork products shall preserve for inspection by the Office of Price Stabilization for a period of two years complete and accurate records of each such sale, transfer, purchase or receipt showing:

(1) The date thereof.

(2) The names and addresses of the parties taking part in the transaction.

(3) The description, quantity, and weight of each pork product sold, transferred, delivered, purchased, received, or acquired, showing specifically:

(i) The descriptive name of each wholesale pork cut, including the grade in the case of sliced bacon, and any special cutting or trimming for which an addition specified in section 53 is charged;

(ii) The descriptive name or style of each dressed hog, whether shipper or packer style;

(iii) The weight range or ranges of dressed hogs and wholesale pork cuts;

(iv) The number of pieces in each weight range of any items for which weight ranges are specified, except Boston butts, boneless butts and spareribs; and

(v) The total weight of all units of the same pork product in the same specified weight range.

(4) The price charged, received or paid therefor.

You shall also continue to preserve all records required to be preserved by section 16 of the General Ceiling Price Regulation[1] and section 10 of Supplementary Regulation 47 to the General Ceiling Price Regulation.[2]

All records required to be preserved under this section 11 may, after the expiration of 90 days after the date of the transaction to which they relate, be transferred to and preserved thereafter on microfilm.

All sales invoices or equivalent records required by this section must be numbered consecutively. If, prior to November 8, 1951, you used for each selling establishment or group of selling establishments a systematic procedure of accounting for such records by means other than consecutive numbering, you may continue to use such system. You may not, however, change your system unless you substitute therefor a system of consecutive numbering.

[Above Paragraph added by Amdt. 2]

(b) *Records which must accompany deliveries.* (1) Except as provided in section 11 (b) (2), (3), and (4) each of you who sells, transfers or delivers any pork products shall furnish to the buyer at the time of delivery a written statement showing the information set forth in section 11 (a).

(2) You shall send with each shipment, other than a c. o. d. shipment, a copy of the written statement referred to in section 11 (a) hereof: *Provided, however*, that the portion of the statement with respect to the price charged, received or paid therefor, may be omitted but (i) such portion must be mailed to the buyer within 24 hours after the shipment left your plant, or (ii) if it has been your customary practice to send invoices weekly, such portion must be mailed to the buyer during the week of the shipment.

(3) Where the shipment made constitutes the entire content of a common carrier freight car or truck, a copy of the statement referred to in section 11 (a) shall be posted in the freight car or truck near or on the door. Where the shipment made constitutes only a part of the content of a common carrier freight car or truck, the copy shall be securely attached in a conspicuous place to one of the items included within the shipment, or in the case of shipment by truck, copies of the statements accompanying each shipment contained in the truck may be given to and carried by the driver who shall be authorized to display such copies to any enforcement officer on request. Where the shipment made is by vehicle other than a common carrier, the copy referred to shall be given to and carried by the driver and he shall be authorized to display it to any enforcement officer on request.

[Subparagraph (3) amended by Amdt. 2]

(4) If you transfer any pork which constitutes the entire content of a vehicle, to a business establishment or warehouse controlled or operated by you, you shall send with each vehicle making such transfer, a statement showing the name and address of the owner, the point of destination and that the item is not being transferred to a buyer in connection with a sale. This statement must be posted or carried in the same manner as required in section 11 (b) (3).

SEC. 12. *Election of seller's classification.* If you qualify to add more than one of the additions provided for in sections 43 through 47, inclusive, and section 49 (a) (1), you must elect which one of these additions you will add through December 31, 1951. This election must be made within 20 days after the effective date of this regulation. Once you have made this election, you may not thereafter elect to add any of the other additions provided for in those sections until after December 31, 1951. You may change your election once after December 31, 1951, and once after June 30, 1952, and once after each successive December 31 and June 30 thereafter. In each instance, after you have made your election, you may not thereafter add any of the additions provided for in those sections except the addition you elected until you have changed your election in accordance with this section. Each election must be made by notifying your Office of Price Stabilization District Office of your election by a statement in writing. Any change of election must be made between January 1 and 10 or July 1 and 10 of each year and shall become effective five days after you have mailed or delivered the written statement to your District Office.

[Section 12 amended by Amdt. 5]

SEC. 13. *Evasion.* (a) You shall not evade the provisions of this regulation by direct or indirect methods in connection with an offer, solicitation, or agreement relating to the sale, delivery, purchase, transfer or receipt of pork products alone or in conjunction with any other commodity or service, or by way of any commission, service, transportation, wrapping, packaging or other charge or discount, premium or other privilege, or by tie-in agreement or other trade understanding, or by changing the selection or the style of dressing, cutting, trimming, cooking or otherwise processing, or the wrapping or packaging of pork products, or otherwise.

(b) Among others, the following practices are considered evasions and are prohibited:

(1) Falsely or incorrectly invoicing pork products.

(2) Offering, selling or delivering a pork product or condition that the buyer purchase another pork product or any other commodity or service.

(3) Making or receiving a charge for delivery on the basis of a route different from that actually followed and in excess of that permitted for the route by which the pork product was actually delivered.

(4) Charging, paying, billing, or receiving any consideration for or in connection with any service for which a specific allowance has not been provided in this regulation.

(5) Selling or invoicing wholesale pork cuts for which ceiling prices are provided in section 27 of this regulation to buyers other than purveyors of meals, hotel supply houses, combination distributors, ship suppliers or peddler truck sellers as defined in section 60 (1) (1).

(c) The following payments shall not be construed as evasions of this regulation if made under the following conditions:

(1) A payment by a buyer to a seller for icing services performed by the seller before delivery of any pork product to a carrier, if the carrier's freight charges are paid directly by the buyer and if the amount paid for such icing services does not exceed the actual commercial rates for such icing services.

(2) Where the distribution point is the seller's place of business and the transportation charges are paid by the seller to the carrier, a payment by a buyer to a seller of the buyer's proportion of that transportation charge, if such payment appears on the seller's invoice.

(3) A payment of not more than 17½ cents per hundredweight in excess of the ceiling prices fixed by this regulation, if paid by a buyer to a broker who had rendered services as a broker prior to the issuance date of this regulation. This payment may be made only for services rendered by the broker to the buyer if the broker is not affiliated with the seller. However, this provision does not apply to sales covered by section 30 of this regulation.

[Subparagraph (3) added by Amdt. 2]

SEC. 14. *Prohibitions.* (a) *Selling or buying at prices above ceiling.* Regardless of any contract, agreement or other obligation, (1) you shall not sell or deliver any pork product at a price higher than the ceiling price established by this regulation; (2) you shall not buy or receive in the regular course of trade or business any pork product at a price higher than the ceiling price established by this regulation; and (3) you shall not agree, offer, solicit or attempt to do any of the foregoing. You may, however, charge, demand, pay or offer lower prices for pork than are established by this regulation.

(b) *Selling or buying other than defined cuts.* (1) Regardless of any contract, agreement or other obligation, except for dried (other than aged, dry cured) pork, specialty pork products and prefabricated retail cuts, the ceiling prices of which are controlled by section 5, you shall not sell or deliver and you shall not, in the regular course of trade or business, buy or receive any pork unless such pork is defined in Appendix 2 of this regulation or unless such pork is sold to a defense procurement agency and meets the specifications of that agency. Moreover, you shall not sell any prefabricated retail cut to a retail selling establishment unless (i) you have customarily sold prefabricated retail cuts to such establishment prior to September 25, 1951, and (ii) the retailer requests you, in writing, to continue to sell him prefabricated retail cuts. Also, you shall not sell any prefabricated retail cut to a purveyor of meals unless (i) you have customarily sold prefabricated retail cuts to purveyors of meals prior to September 25, 1951, and (ii) the purveyor of meals requests you, in writing, to sell him prefabricated retail cuts. Moreover, you may not produce and sell dried (other than aged, dry cured) pork or a specialty pork product after May 17, 1952, unless you have, within that period, filed the report required by section 5 (a).

(2) This regulation establishes a ceiling price for miscuts. The purpose of the provision establishing a ceiling price for miscuts is not to sanction the sale of such miscuts or to excuse violations of this section, but simply to establish a ceiling price for the purpose of measuring damages under the provisions of the Defense Production Act of 1950, as amended. The sale of a miscut violates this section and the sale of a miscut at a price higher than the ceiling price prescribed by this regulation also violates section 14 (a).

[Paragraph (b) amended by Amdts. 1 and 2]

[Paragraph (c) added by Amdt. 1; amended by Amdt. 2; deleted by Amdt. 3]

SEC. 15. *Enforcement.* On or after the effective date of this regulation, if you violate any provision of this regulation, or any order issued pursuant to it, you are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950, as amended. Also, any person who, in the course of trade or business, buys from you at a price higher than your ceiling price is subject to the criminal penalties and civil enforcement actions provided for by that act.

SEC. 16. *Petitions for amendment.* If you desire an amendment of any provision of this regulation, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revised, issued by the Office of Price Stabilization.

ARTICLE II—PRICING SCHEDULES

SEC. 20. *Schedule I—Wholesale pork cuts: Fresh or frozen, cured, smoked, ready-to-eat, and cooked (not in molds under pressure).*

---

[1] The portions of the General Ceiling Price Regulation here referred to applicable to you, are as follows:

SEC. 16. (a) *Base period records.* You must preserve and keep available for examination by the Director of Price Stabilization those records in your possession showing the prices charged by you for the commodities or services which you delivered or offered to deliver during the base period. • • •

(2) In addition, on or before March 22, 1951, you must prepare and preserve a statement showing the categories of commodities in which you made deliveries and offers for delivery during the base period. • • •

(3) On or before March 22, 1951, you must also prepare and preserve a ceiling price list, showing the commodities in each category (listing each model, type, style, and kind), or the services, delivered or offered for delivery by you during the base period together with a description or identification of each such commodity or service and a statement of the ceiling price. Your ceiling price list may refer to an attached price list or catalog. • • •

(4) You must also prepare and preserve a statement of your customary price differentials for terms and conditions of sale and classes of purchasers, which you had in effect during the base period.

• • • • •

(b) *Current records.* If you sell commodities or services covered by this regulation you must prepare and keep available for examination by the Director of Price Stabilization for a period of two years, records of the kind which you customarily keep showing the prices which you charge for the commodities or services. In addition, you must prepare and preserve records indicating clearly the basis upon which you have determined the ceiling price for any commodities or services not delivered by you or offered for delivery during the base period. • • •

"Base period" as used in section 16 of the General Ceiling Price Regulation means December 19, 1950 to January 25, 1951, inclusive.

[2] Section 10 of Supplementary Regulation 47 to the General Ceiling Price Regulation requires you, if you bought pork loins and resold those pork loins or pork cuts derived from those pork loins, to make and preserve complete and accurate records showing your seven-day cost per pound of pork loins for each week after July 30, 1951 until the effective date of this Ceiling Price Regulation 74 and your pork loin base week cost per pound. As used in that regulation "base week" means the period from January 19 to January 25, 1951, inclusive, or if pork loins were not delivered to you during the base week, the seven-day period beginning with the first day pork loins were delivered to you after January 25, 1951.

[All prices are on a dollars per cwt. loose basis; the price for any fraction of a cwt. shall be reduced proportionately. Weights are by range and not by average]

(d) Pullman, skinless	7 to 10	82.00	84.60
	10 to 13	78.80	81.30
2. Canned whole picnics	4 to 8	68.90	
3. Canned spiced luncheon meat	3	84.70	
	6 or 8	83.20	
4. Canned spiced ham	3	71.00	
	6 or 8	69.50	
5. Canned pressed ham, boneless, chopped	5	75.20	
	6 or 8	73.70	
	10	73.00	
6. Canned chopped pork, boneless	3	57.80	
	6 or 8	56.00	
	10	55.30	

SPECIAL ADJUSTMENTS

Your ceiling price for canned whole hams—skinless, which are opened and removed from the can for inspection and testing, shall be $5.00 per cwt. below the prices listed in section 22, Schedule III, item 2, for cured and cooked hams of the applicable weight range.

Your ceiling price for canned whole hams—(Polish style), which are opened and removed from the can for inspection and testing, shall be $8.00 per cwt. below the prices listed in section 22, Schedule III, item 2 for cured and cooked hams of the applicable weight range.

[Section 25 amended by Amdt. 2]

SEC. 26. *Schedule VII—Wholesale pork cuts: Pork variety meats and edible by-products.*

[All prices are on a dollars per cwt. loose basis, the price for any fraction of a cwt. shall be reduced proportionately]

Item	Price
1. Brains	$13.50
2. Caul fat	15.50
3. Cheek meat	39.00
4. Chitterlings	13.00
5. Crown meat	18.50
6. Cutlets	44.60
7. Diaphragm meat	18.50
8. Ears	13.50
9. Gullet weasand meat	18.50
10. Head (tongue out)	12.00
11. Head (tongue in, jowls on) (market head)	14.00
12. Head meat	39.00
13. Head skins	10.00
14. Hearts	34.00
15. Kidneys	14.50
16. Leaf lard (raw)	17.00
17. Lips	12.00
18. Livers	24.50
19. Melts (trimmed)	10.00
20. Snouts (lean meat out)	9.00
21. Snouts (lean meat in)	11.00
22. Tongues (bone in)	29.00
23. Tongues (boneless)	32.50
24. Tongues, cured (bone in)	30.50
25. Tongues, cured (boneless)	34.10
26. Tongues, smoked (bone in)	42.20
27. Tongue trimmings	20.00
28. Stomachs	11.00
29. Stomachs, cooked	12.00

SPECIAL ADJUSTMENT

If any wholesale pork cut, listed above, is not trimmed in accordance with the specification prescribed in Appendix 2, you must deduct $2.00 per hundredweight from prices listed above for any such improperly trimmed cut.

[Section 26 amended by Amdt. 2]

SEC. 27. *Schedule VIII — Wholesale pork cuts: Fabricated loin cuts.*

[All prices are on a dollars per cwt. loose basis; the price for any fraction of a cwt. shall be reduced proportionately.]

Bladeless loin chops (cut end to end):	
Sales by—	
Hotel supply houses to purveyors of meals and by anyone to purveyors of meals as defined in section 60 (p) (4)	*Price* $62.30
Combination distributors or peddler truck sellers as defined in section 60 (1) (1) to purveyors of meals	59.80
All other sales	54.80

NOTE.—The above cut may be sold only to purveyors of meals, hotel supply houses, combination distributors, ship suppliers and peddler truck sellers as defined in section 60 (1) (1).

SEC. 28. *Schedule IX—Wholesale pork cuts: Aged, dry-cured pork cuts.*

[All prices are on a dollars per cwt. loose basis; the price for any fraction of a cwt. shall be reduced proportionately.]

Item	Price—Aged, dry cured
1. Hams	$88.90
2. Shoulders	59.70
3. Bacon sides (boneless)	51.80
4. Bacon sides (spareribs in)	55.00
5. Hog jaws (also known as rough jowls)	28.20

SEC. 29. *Wholesale pork cuts: certain cuts packed in wood or glass containers—*

(a) *Ceiling prices.* Your ceiling price for barrel pork made from any pork product, for which a specific ceiling price is provided in this regulation, packed in 50-pound, 100-pound, 200-pound or 300-pound water-tight barrels according to good commercial practice; and vinegar pickled products (cooked) made from any pork product, for which a specific ceiling price is provided in this regulation, packed in water-tight wooden containers weighing at least 13 pounds net each or glass containers weighing at least 5 pounds net each, shall be determined as follows:

(1) *Packers.* If you pack one of these items in these containers, you shall determine your ceiling price for that item as follows:

(i) Determine the base price specified in this Article II, on a loose basis, for the wholesale pork cut to be used.

(ii) Determine the total value of the pork cut packed in each container immediately before it is placed in the container as follows: You shall add to the price determined under (i) an amount equal to any gain in ceiling price value of the wholesale pork cut used, attributable to any curing or cooking you have done, or you shall subtract from the price determined under (i) an amount equal to any loss in ceiling price value of the wholesale pork cut used, attributable to any curing or cooking you have done. In addition, you shall deduct from or add to the price determined under (i) an amount equal to any net loss or net gain in ceiling price value attributable to trimming you have done, after having allowed the full ceiling price value of any by-product resulting from the trimming. The result of your computations is your total value of the pork cut packed,

[Above portion of paragraph (a) amended by Amdt. 2]

(iii) Determine your actual cost of the ingredients (other than pork) packed in each container.

(iv) Determine your direct labor cost applicable to the product in each packed container.

(v) Determine your actual cost of each container and of any outer package used.

(vi) Add the following amounts:

(*a*) Items (ii), (iii), (iv) and (v);

(*b*) 100 percent of item (iv);

(*c*) 75 cents per hundredweight of net weight of finished product; and

(*d*) 1.3 times the applicable zone differential, if any, to the distribution point.

The resulting sum rounded to the nearest 10 cents per hundredweight is your ceiling price at the distribution point. You may not add any of the additions provided in Article IV except the addition provided in section 42, if applicable. You shall file the report required in section 29 (b). You shall give a written statement of your ceiling price to each of your customers on the initial sale of this item to each customer after a change in your ceiling price after the effective date of Amendment 2 to this regulation.

[Subdivision (vi) amended by Amdt. 2]

(2) *Others.* If you buy one of these items in these containers, you shall determine your ceiling price for that item by adding to the ceiling price of the packer of the item the applicable additions provided for in sections 42 through 50, inclusive, and section 52.

[Subparagraph (2) amended by Amdt. 2]

(b) *Reports.* If you pack any of the items permitted under section 29 (a) in one of the containers enumerated therein, you shall file, on or before May 17, 1952, with the Office of Price Stabilization, Food and Restaurant Division, Washington 25, D. C., an itemized statement showing each of the calculations made under items (i) through (vi), inclusive, of section 29 (a) (1), and explaining how the figures used in these calculations were arrived at. After receipt of your report, the Director of Price Stabilization may issue an order forbidding you to sell this item or may issue an order revising the ceiling prices of you and your customers for this item. If you do not file this statement within the time required, the Director of Price Stabilization may, nevertheless, fix a ceiling price for this item, dating back to the time when this statement was due.

[Paragraph (b) amended by Amdt. 2]

SEC. 30. *Schedule X—Dressed hogs: Denominator basis.* This section may *not* be used to determine the ceiling price of a dressed hog you sell to a person other than a certified dressed hog processor.

Your base price for each dressed hog sold to a certified dressed hog processor may be determined under section 31 or may be determined as follows:

Find the dressed weight range applicable to the hog being priced by consulting the table below. Dressed weight ranges are in the first column for shipper and in the third column for packer style. Then find the related live weight range of this dressed hog on the same line in the table but in the fifth column. Then ascertain the current Chicago live hog price for hogs of that live weight range and multiply that price by the appropriate denominator given in the table for such live weight range. Denominators are in the second column for shipper and in the fourth column for packer style on the same line in the table. The resulting product is the base price. Your ceiling for the dressed hog sold to a certified dressed hog processor is the base price plus any of the applicable additions listed in Article IV, if you determine your ceiling price under this section.

The base price for dressed hogs, as determined under Schedule X, section 30, shall include all charges for brokerage and no additions may be made for brokerage fees. If the seller pays no brokerage fees, the ceiling price shall be reduced by 17½ cents per hundredweight.

[Above Paragraph added by Amdt. 2]

TABLE OF WEIGHT RANGES AND DENOMINATORS

[Prices determined under this Schedule will be on a dollars per hundredweight basis; the price for any fraction of a hundredweight shall be reduced proportionately. Weights are by range and not by average]

Shipper style		Packer style		Related live weight ranges (pounds)
Dressed weight ranges (pounds)	Denominators	Dressed weight ranges (pounds)	Denominators	
Pigs:				
81–99	1.45	73–89	1.54	120–140.
100–119	1.41	90–107	1.50	140–160.
120–136	1.39	108–123	1.47	160–180.
Butchers:				
137–153	1.36	124–138	1.44	180–200.
154–171	1.34	139–154	1.42	200–220.
172–188	1.33	155–169	1.41	220–240.
189–213	1.32	170–192	1.39	240–270.
214–235	1.31	193–213	1.38	270–300.
236–265	1.30	214–239	1.37	300–330.
Over 265	1.28	Over 239	1.35	330 up.
Sows:				
Under 312	1.32	Under 280	1.39	Under 400.
312 and over	1.30	280 and over	1.37	400 and over.

NOTE.—Dressed hogs weighing less than 81 pounds, shipper style, or less than 73 pounds, packer style, shall be governed by section 31.

[Above Table corrected by Amdt. 2]

SEC. 31. *Schedule XI—Dressed hogs: Flat price basis.* This section or section 30 may be used to determine the ceiling price of a dressed hog sold to a certified dressed hog processor. This section shall be used to determine the ceiling price of a dressed hog sold to a person other than a certified dressed hog processor.

[All prices are on a dollars per cwt. basis; the price for any fraction of a cwt. shall be reduced proportionately. Weights are by range and not by average]

Shipper style		Packer style	
Dressed weight ranges (pounds)	Price	Dressed weight ranges (pounds)	Price
Pigs:			
60–80	$34.80	55–72	$35.80
81–99	32.60	73–89	33.60

312 and over	26.70	280 and over	28.10

NOTE—Dressed hogs weighing less than 60 pounds, shipper style, or less than 55 pounds, packer style, shall remain under the General Ceiling Price Regulation, as amended and as supplemented.

ARTICLE III—DISTRIBUTION POINT

SEC. 35. *Distribution point.* The distribution point applicable to each of your sales determines the zone differential (section 40) and the local delivery addition (section 42), if applicable. In determining the distribution point applicable to each sale, you shall be governed as follows:

(a) *Sales to purveyors of meals.* On sales of pork products to purveyors of meals the distribution point may be, at the option of the seller:

(1) The point at which the meat consigned to the purveyor of meals is delivered to a carrier for shipment to the purveyor, who pays the shipping charges directly to the carrier; or

(2) Any of the points designated in paragraphs (b) or (c) of this section.

(b) *Less than carload shipments.* On sales of less than carload shipments of pork products, the distribution point may be, at the option of the seller:

(1) The seller's place of business, if the buyer comes to the seller's plant to pick up the meat; or

(2) The seller's place of business if the seller makes a local delivery beginning at his place of business and continuing to the buyer's place of business; or

(3) The unloading station nearest the buyer's place of business; or

(4) The seller's place of business on railway express and parcel post deliveries if:

(i) At least 25 percent, by weight, of the seller's 1950 deliveries of pork were by railway express or parcel post;

(ii) The buyer agrees, in writing, to accept the seller's place of business as the distribution point;

(iii) The seller has not during any quarterly accounting period beginning after March 22, 1952 made a greater percentage by weight of his deliveries of pork by railway express or parcel post than he made during the corresponding quarterly accounting period of 1950;

(iv) The seller files with his OPS District Office, on or before May 17, 1952, a statement showing by quarterly accounting periods, the total volume, by weight, of his 1950 deliveries of pork and the total volume, by weight, of his 1950 deliveries of pork by railway express or parcel post.

(v) The seller files with his OPS District Office on or before the 15th day following the end of each quarterly accounting period commencing after March 22, 1952, a statement showing for the preceding quarterly accounting period his total deliveries by weight of pork and his deliveries by weight of pork by railway express or parcel post.

[Subparagraph (4) added by Amdt. 2]

(c) *Carload shipments.* On sales of carload shipments of pork products the distribution point may be, at the option of the seller:

(1) The point at which the buyer takes actual physical possession of the meat; or

(2) The seller's place of business if the seller makes a local delivery beginning at his place of business and continuing to the buyer's place of business; or

(3) The point from which the meat consigned to the buyer is delivered to a carrier for shipment at the carload rate to the buyer who pays the shipping charges directly to the carrier; or

(4) The unloading station nearest the buyer's place of business.

(d) *Sales to defense procurement agencies.* On sales to a defense procurement agency, your place of business shall be the distribution point.

(e) *Substituted distribution points.* If no carload freight rates are established to the applicable point listed in paragraphs (a), (b), (c) or (d) of this section, the nearest point to which such freight rates are established shall become the applicable distribution point.

ARTICLE IV—ZONE DIFFERENTIALS AND ADDITIONS

SEC. 40. *Addition 1—Zone differentials.* The zones listed below are defined in Appendix 1.

(a) *Zone 1.* No amount may be added as a zone differential where the distribution point is located in Zone 1.

(b) *Zone 2.* The amount to be added as a zone differential where the distribution point is located in Zone 2 shall be 50 cents per cwt.

(c) *Zone 3.* The amount to be added as a zone differential where the distribution point is located in Zone 3 shall be 70 cents per cwt.

(d) *Zone 4.* The amount to be added as a zone differential where the distribution point is located in Zone 4 shall be $1.00 per cwt.

(e) *Zone 5.* (1) *Green wholesale pork cuts.* For green wholesale pork cuts the amount to be added as a zone differential where the distribution point is located in Zone 5 shall be determined by multiplying by 125 percent the lowest fresh meat carload freight rate from Chicago, Illinois, or East St. Louis, Illinois, to the distribution point, whichever is lower, adjusted to the nearest 10 cents per cwt. and by adding to that amount 50 cents per cwt.

(2) *Cured or processed wholesale pork cuts.* For cured or processed wholesale pork cuts, the amount to be added as a zone differential where the distribution point is located in Zone 5 shall be determined by multiplying by 125 percent the lowest classified carload freight rate for packing house products or semi-sterile canned meat products, whichever is applicable, from Chicago, Illinois, or East St. Louis, Illinois, to the distribution point, whichever is lower, adjusted to the nearest 10 cents per cwt. and by adding to that amount 50 cents per cwt.

(3) *Dressed hogs.* For dressed hogs, the amount to be added as a zone differential where the distribution point is located in Zone 5 shall be determined by multiplying by 115 percent the lowest dressed hog carload freight rate from Chicago, Illinois, or East St. Louis, Illinois, to the distribution point, whichever is lower, adjusted to the nearest 10 cents per cwt. and by adding to that amount 50 cents per cwt.

(f) *Zone 6.* (1) *Green wholesale pork cuts.* The amount to be added as a zone differential where the distribution point is located in Zone 6 shall be determined by multiplying by 125 percent the lowest fresh meat carload freight rate from Omaha, Nebraska, South St. Paul, Minnesota, or Kansas City, Kansas, to the distribution point, whichever is lowest, adjusted to the nearest 10 cents per cwt.

(2) *Cured or processed wholesale pork cuts.* For cured or processed wholesale pork cuts, the amount to be added as a zone differential where the distribution point is located in Zone 6 shall be determined by multiplying by 125 percent the lowest classified carload freight rate for packing house products or semi-sterile canned meat products, whichever is applicable, from Omaha, Nebraska, South St. Paul, Minnesota, or Kansas City, Kansas, to the distribution point, whichever is lowest, adjusted to the nearest 10 cents per cwt.

(3) *Dressed hogs.* For dressed hogs, the amount to be added as a zone differential where the distribution point is located in Zone 6 shall be determined by multiplying by 115 percent the lowest dressed hog carload freight rate from Omaha, Nebraska, South St. Paul, Minnesota, or Kansas City, Kansas, to the distribution point, whichever is lowest, adjusted to the nearest 10 cents per cwt.

SEC. 41. *Addition 2—Local slaughter addition.* (a) *Wholesale pork cuts.* On the sale of loins, shoulders, picnics, boston butts, blade butts, boneless butts, spareribs, feet, tails, neckbones, hearts, livers, kidneys, brains, and tongues (1) which are derived from hogs slaughtered in any of the regions listed below as defined in Appendix 1, and (2) which are delivered fresh to a buyer (other than a defense procurement agency) whose place of business is located within a region with the same or a higher local slaughter addition, you may add to the prices specified in Article II for these items the amount specified below, opposite the applicable region in which the hog is slaughtered. If the place of business of a buyer (other than a defense procurement agency) is located in a region with a lower local slaughter addition than the region where the hog is slaughtered, the local slaughter addition is limited to the amount specified below for the region in which the buyer's place of business is located. On the sale of loins, shoulders, picnics, boston butts, blade butts, boneless butts, spareribs, feet, tails, neckbones, hearts, livers, kidneys, brains and tongues (fresh or frozen) to a defense procurement agency, the local slaughter addition, if any, is the amount specified below for the region in which the hog is slaughtered.

Region	*Permitted addition per cwt.*
Region A	$2.00
Region B	1.50
Region C	1.00
Region D	1.00
Region E	1.50

[Paragraph (a) amended by Amdt. 2]

(b) *Dressed hogs.* On the sale of a dressed hog (1) which is derived from a hog slaughtered in one of the regions listed below, as defined in Appendix 1, and (2) which is delivered fresh (not frozen except to a defense procurement

agency) to a buyer whose place of business is located within a region with the same or a higher local slaughter addition, you may add to the prices determined under Schedules X and XI the amount specified below, opposite the applicable region in which the hog is slaughtered. If the place of business of a buyer, other than a defense procurement agency, is located in a different region with a lower local slaughter addition, if any, than the region where the hog is slaughtered, the local slaughter addition, if any, is limited to that specified below for the region in which the buyer's place of business is located.

Region	Permitted addition per cwt.
Region A	$0.60
Region B	.45
Region C	.30
Region D	.30
Region E	.45

[Paragraph (b) amended by Amdt. 2]

SEC. 42. *Addition 3—Local delivery.* (a) Where you make (or pay a contract carrier to make) a local delivery of not in excess of 3,000 pounds in any one day to the delivery point designated by the buyer, you may add, to the prices specified in Article II, the amount indicated for the distances set forth below:

[The charge for local delivery for any fraction of a cwt. shall be reduced proportionately]

Amount:	Distance of delivery[1]
$0.40	Up to 35 miles.
$0.60	35 to 75 miles.
$1.00	75 to 150 miles.
$1.30	Over 150 miles.

[1] In terms of shortest railroad and/or truck route.

[Paragraph (a) amended by Amdt. 2]

(b) Where you make a local delivery in excess of 3,000 pounds in any one day to the delivery point designated by the buyer, you may add to the prices specified in Article II, for local delivery, the lower of the following two amounts:

(1) The regular commercial rate.

(2) The amount specified in (a) above for local delivery for a corresponding distance.

[Paragraph (b) amended by Amdt. 2]

(c) You may not add to your ceiling prices the amounts specified in subsections (a) or (b) of this section if you add a peddler truck selling addition pursuant to section 49.

SEC. 43. *Addition 4—Wholesaler's addition.* (a) On the sale of any pork product (not obtained through custom slaughtering):

(1) To retailers, you may add $2.50 per cwt. to the prices specified in Schedules I through VII, IX and XI and to your ceiling price determined under section 29 (a) (2), or

(2) To purveyors of meals you may add $2.50 per cwt. to the prices specified in Schedules I through IX and XI and to your ceiling price determined under section 29 (a) (2), or

(3) To another wholesaler, you may add $0.75 per cwt. to the prices specified in Schedules I through VII and IX and XI and to your ceiling price determined under section 29 (a) (2), or

(4) To other buyers, including defense procurement agencies, you may add $1.25 per cwt. to the prices specified in Schedules I through VII, IX and XI and to your ceiling price determined under section 29 (a) (2).

(b) You may not add the wholesaler's selling addition provided for above unless you are a wholesaler as defined in section 60 (z) and unless you have filed with the appropriate District Office of the Office of Price Stabilization a signed statement, in duplicate, containing the following:

(1) Your name.

(2) The address of your selling establishment.

(3) The date you began doing business as a wholesaler.

(4) The type or types of customers to whom you regularly and customarily sell your product.

Any statement filed in accordance with the similar provisions of Ceiling Price Regulation 24 shall also satisfy the requirements of filing under this section 43.

[Paragraph (b) amended by Amdt. 5]

(c) *Addition for certain sales by affiliated wholesalers.* If you do not qualify as a wholesaler, only by reason of the fact that you do not meet the requirements of section 60 (z) (2) of this regulation, you may add the appropriate wholesaler's addition on sales of those pork products you buy for resale from unaffiliated sources, *Provided:*

(1) The product is readily distinguishable as having been purchased for resale (i. e., it bears the appropriate registration number required by Distribution Regulation 1 or any wrapping or packaging bearing the name or identification of the nonaffiliated slaughterer from whom you bought);

(2) The name of the person from whom you bought for resale is stated on your invoice or, if the item is a wrapped or packaged item, the name of the person whose identification appears on the package or wrapper must be shown on your invoice;

(3) After April 16, 1952, you, or any person affiliated with you, do not sell any pork products to any slaughterer, packer, packer's branch house, or any person affiliated therewith;

[Subparagraph (3) amended by Amdt. 2]

(4) You do not, during the month of September 1951, take the addition on a greater volume by weight, of pork than you obtained from unaffiliated sources and resold during the month of September 1950;

(5) You do not during each calendar quarter beginning on or after October 1, 1951, take the addition on a greater volume, by weight, of pork than you obtained from unaffiliated sources and resold during the last calendar quarter of 1950;

(6) You file with your OPS District Office, on or before October 1, 1951, a statement showing the volume by weight of pork you obtained from unaffiliated sources and resold during (a) the month of September 1950, and (b) the last calendar quarter of 1950;

[Subparagraph (6) amended by Amdt. 5]

(7) You file with your OPS District Office, on or before October 15, 1951, a statement showing for the month of September 1951:

(i) The total volume by weight of pork obtained for resale from unaffiliated sources; and

(ii) The total volume by weight of pork sold on which the wholesaler's addition was charged;

[Subparagraph (7) amended by Amdt. 5]

(8) You file with your OPS District Office on or before January 15, 1952, and on or before the 15th day following the end of each calendar quarter ending on or after March 31, 1952, a statement showing, for the calendar quarter ended prior to the reporting date:

(i) The total volume by weight of pork obtained for resale from unaffiliated sources; and

(ii) The total volume by weight of pork sold on which the wholesaler's addition was charged.

[Subparagraph (8) amended by Amdt. 5]

SEC. 44. *Addition 5—Non-slaughtering processor's addition.* (a) On the sale of any pork product (not obtained through custom slaughtering):

(1) To retailers, you may add $1.50 per cwt. to the prices specified in Schedules I through VII, IX and XI and to your ceiling price determined under section 29 (a) (2), or

(2) To purveyors of meals, you may add $1.50 per cwt. to the prices specified in Schedules I through IX and XI and to your ceiling price determined under section 29 (a) (2), or

(3) To other buyers, including defense procurement agencies, you may add $0.75 per cwt. to the prices specified in Schedules I through VII, IX and XI and to your ceiling price determined under section 29 (a) (2).

(b) You may not add the non-slaughtering processor's addition provided for above unless you are a non-slaughtering processor as defined in section 60 (k) and unless you have filed with the appropriate District Office of the Office of Price Stabilization a signed statement, in duplicate, containing the following:

(1) Your name.

(2) The address of your selling establishment.

(3) The date you began doing business as a non-slaughtering processor.

(4) The type or types of customers to whom you regularly and customarily sell your product.

[Paragraph (b) amended by Amdt. 5]

(c) *Addition for certain sales by affiliated non-slaughtering processors.* If you do no qualify as a non-slaughtering processor, only by reason of the fact that you do not meet the requirements of section 60 (k) (2) of this regulation, you may add the appropriate non-slaughtering processor's addition on sales of those pork products you buy for resale from unaffiliated sources, *Provided:*

(1) You comply with all of the requirements of subdivisions (1) through (6), inclusive, of section 43 (c);

(2) You file with your OPS District Office, on or before October 15, 1951, a statement showing for the month of September 1951:

(i) The total volume by weight of pork obtained for resale from unaffiliated sources; and

(ii) The total volume by weight of pork sold on which the non-slaughtering processor's addition was charged.

[Subparagraph (2) amended by Amdt. 5]

(3) You file with your OPS District Office on or before January 15, 1952, and on or before the 15th day following the end of each calendar quarter ending on or after March 31, 1952, a statement showing, for the calendar quarter ended prior to the reporting date:

(i) The total volume by weight of pork obtained for resale from unaffiliated sources; and

(ii) The total volume by weight of pork sold on which the non-slaughtering processor's addition was charged.

[Subparagraph (3) amended by Amdt. 5]

SEC. 45. *Addition 6—Intermediate distributor's addition.* (a) On the sale of any pork product (not obtained through custom slaughtering):

(1) To retailers, you may add $1.00 per cwt. to the prices specified in Schedules I through VII, IX and XI and to your ceiling price determined under section 29 (a) (2), or

(2) To purveyors of meals, you may add $1.00 per cwt. to the prices specified in Schedules I through IX and XI and to your ceiling price determined under section 29 (a) (2), or

(3) To other buyers, including defense procurement agencies, you may add $0.50 per cwt. to the prices specified in Schedules I through VII, IX and XI and to your ceiling price determined under section 29 (a) (2).

(b) You may not add the intermediate distributor's addition provided for above unless you are an intermediate distributor as defined in section 60 (h), and unless you have filed with the appropriate District Office of the Office of Price Stabilization a signed statement, in duplicate, containing the following:

(1) Your name

(2) The address of your business

(3) The date you began doing business as an intermediate distributor

(4) The type or types of customers to whom you regularly and customarily sell your product.

[Paragraph (b) amended by Amdt. 5]

(c) You may not, during the month of September 1951, take the addition on a greater volume, by weight, of pork than you bought and resold for your own account during the month of September 1950. Moreover, you may not, during each calendar quarter beginning on or after October 1, 1951, take the addition on a greater volume, by weight, of pork than you bought and resold for your own account during the last quarter of the calendar year 1950.

(d) You shall file with your OPS District Office, on or before October 1, 1951, a statement showing the volume, by weight, of pork you bought and resold for your account during (1) the month of September 1950; and (2) the last calendar quarter of 1950.

[Paragraph (d) amended by Amdt. 5]

(e) If you add the intermediate distributor's addition you shall file with your OPS District Office:

(1) On or before October 15, 1951, a statement showing, for the month of September 1951, the total volume, by weight, of pork on which you charged the intermediate distributor's addition; and

(2) On or before January 15, 1952, and on or before the 15th day following the end of each calendar quarter ending on or after March 31, 1952, a statement showing, for the calendar quarter ended prior to the reporting date, the total volume, by weight, of pork on which you charged the intermediate distributor's addition.

[Paragraph (e) amended by Amdt. 5]

SEC. 46. *Addition 7—Hotel supply house addition.* (a) On the sale of the following wholesale pork cuts to purveyors of meals you may add to the prices specified in Article II the amount specified below opposite the type of cut sold:

Item	Amount per cwt.
(1) Boneless hams, boneless shoulders, boneless picnics and boneless butts (sections 20 and 22)	$8.00
(2) Semi-sterile canned meat (section 25)	8.00
(3) Miscellaneous pork cuts (section 24), except pork tenderloins, pork tenderloin tips and cappicola butts	4.00
(4) Cappicola butts and Canadian bacon	10.00
(5) Pork variety meats and edible byproducts (section 26)	8.00
(6) Briskets, fat backs, bellies (except square cut and seedless), plates, jowls and all items specified in section 23	3.00
(7) Boneless loins, pork tenderloins and pork tenderloin tips	10.00
(8) Boneless ham, ready-to-eat, cooked or browned (sections 20 and 22) sliced	12.50
(9) Loins, regular or bladeless	10.00
(10) Other wholesale pork cuts, other than those listed in section 27	6.00

(b) On the sale of wholesale pork cuts to buyers other than purveyors of meals, you may add the additions provided in subdivisions (1), (3) or (4) of section 43 (a), as if you were a wholesaler.

(c) You may not add the additions specified in this section unless you are a hotel supply house as defined in section 60 (g) and unless you have filed with the appropriate District Office of the Office of Price Stabilization a signed statement, in duplicate, containing the following:

(1) The total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by you during 1950, excluding sales to defense procurement agencies;

(2) The total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by you during 1950 to purveyors of meals;

(3) The percentage obtained by dividing the figure derived in (2) by the figure derived in (1).

Any statement filed in accordance with the similar provisions of Ceiling Price Regulation 24 shall also satisfy the requirements of filing under this section 46.

[Paragraph (c) amended by Amdt. 5]

SEC. 47. *Addition 8—Combination distributor's addition.* (a) On the sale of the following wholesale pork cuts to purveyors of meals you may add to the prices specified in Article II the amount specified below opposite the type of cut sold:

Item	Amount per cwt.
(1) Boneless hams, boneless shoulders, boneless picnics and boneless butts (sections 20 and 22)	$8.00
(2) Semi-sterile canned meat (section 25)	6.00
(3) Miscellaneous pork cuts (section 24), except pork tenderloins, pork tenderloin tips and cappicola butts	3.00
(4) Cappicola butts and Canadian bacon	7.50
(5) Pork variety meats and edible byproducts (section 26)	6.00
(6) Briskets, fat backs, bellies (except square cut and seedless), plates, jowls and all items specified in section 23	3.00
(7) Boneless loins, pork tenderloins and pork tenderloin tips	7.50
(8) Boneless ham, ready-to-eat, cooked or browned (sections 20 and 22) sliced	10.00
(9) Loins, regular or bladeless	7.50
(10) Other wholesale pork cuts, other than those listed in section 27	4.50

(b) If you are a combination distributor not affiliated with a slaughterer of hogs or pigs, you may, on the sale of wholesale pork cuts to buyers other than purveyors of meals, add the additions provided in subdivisions (1), (3), or (4) of section 43 (a) as if you were a wholesaler.

(c) You may not add the additions specified in this section unless you are a combination distributor as defined in section 60 (d) and unless you have filed with the appropriate District Office of the Office of Price Stabilization a signed statement, in duplicate, containing the following:

(1) The total volume by weight of all meats, including sausage, variety meats and edible byproducts, sold or delivered by you during 1950, excluding sales to defense procurement agencies;

(2) The total volume by weight of all meats, including sausage, variety meats and edible byproducts, sold or delivered by you during 1950 to purveyors of meals;

(3) The percentage obtained by dividing the figure derived in (2) by the figure derived in (1).

Any statement filed in accordance with the similar provisions of Ceiling Price Regulation 24 shall also satisfy the requirements of filing under this section 47.

[Paragraph (c) amended by Amdt. 5]

SEC. 48. *Addition 9—Addition on sales to ship operators.* (a) On the sale of the following wholesale pork cuts to purveyors of meals as defined in section 60 (p) (4) you may add to the prices specified in Article II the amount specified below opposite the type of cut sold:

Item	Amount per cwt.
(1) Boneless hams, boneless shoulders, boneless picnics and boneless butts (sections 20 and 22)	$8.00
(2) Semi-sterile canned meat (section 25)	8.00
(3) Miscellaneous pork cuts (section 24), except pork tenderloins, pork tenderloin tips and cappicola butts	4.00
(4) Cappicola butts and Canadian bacon	10.00
(5) Pork variety meats and edible by-products (section 26)	8.00

Item	Amount per cwt.
(6) Briskets, fat backs, bellies (except square cut and seedless), plates, jowls and all items specified in section 23	$3.00
(7) Boneless loins, pork tenderloins and pork tenderloin tips	10.00
(8) Boneless ham ready-to-eat, cooked or browned (sections 20 and 22), sliced	12.50
(9) Loins, regular or bladeless	10.00
(10) Other wholesale pork cuts, other than those listed in section 27	6.00

(b) On the sale of any wholesale pork cut on which you add the addition provided by this section, you may not add the additions provided by sections 43 through 47, inclusive, or the addition provided by section 49.

SEC. 49. *Addition 10—Peddler truck selling addition.* (a) On a peddler truck sale to any buyer in any one day, if you deliver no more than 100 pounds of processed wholesale pork cuts and a total of no more than 250 pounds of all meat, including pork, in that day to that buyer's store door or to the place designated by that buyer for delivery, you may add one of the following:

(1) If the sale is a peddler truck sale, as defined in sub-paragraph (1) of section 60 (l);

(i) $4.00 per hundredweight for any fresh or frozen item listed in Schedules I, IV, V or XI, or

(ii) $8.00 per hundredweight for any boneless cooked item listed in Schedules I and III and for smoked or cooked Canadian style bacon, or

(iii) $6.00 per hundredweight for any other wholesale pork cut; or

(2) If the sale is a peddler truck sale, as defined in sub-paragraph (2) of section 60 (l):

(i) $2.00 per hundredweight for any fresh or frozen item listed in Schedules I, IV, V or XI, or

(ii) $4.00 per hundredweight for any boneless cooked item listed in Schedules I and III and for smoked or cooked Canadian style bacon, or

(iii) $3.00 per hundredweight for any other wholesale pork cut.

[Paragraph (a) amended by Amdt. 2]

(b) On a peddler truck sale by an independent peddler truck, (as defined in subparagraph (1) of section 60 (l), not eligible for the additions provided in section 49 (a) (1), you may add the applicable amount provided under section 42 for the distance of delivery and you may also add the appropriate amount listed in section 45 (a).

[Paragraph (b) added by Amdt. 2]

(c) You may not add the peddler truck selling addition provided for above unless you make a peddler truck sale as defined in section 60 (l) and unless you have filed with the appropriate District Office of the Office of Price Stabilization a signed statement containing the following:

(1) Your name.

(2) Your business address.

(3) The date you began business as peddler truck seller.

(4) The type or types of customers to whom you regularly and customarily sell your products by peddler truck.

(5) The maximum number of trucks you owned or operated to make peddler truck sales in any calendar week between January 1, 1950, and September 25, 1951, inclusive.

[Subparagraph (5) amended by Amdt. 2]

(6) If you rented trucks, used to make peddler truck sales between January 1, 1950, and September 25, 1951, inclusive, the name and address of each person from whom you rented each truck.

[Subparagraph (6) amended by Amdt. 2]

[Paragraph (b) redesignated (c) by Amdt. 2; amended by Amdt. 5]

(d) On any peddler truck sale, as defined in subparagraph (2) of section 60 (l), not eligible for the additions provided in section 49 (a) (2), you may add the applicable amount provided under section 42 for the distance of the delivery.

[Paragraph (c) redesignated (d) and amended by Amdt. 2]

SEC. 50. *Addition 11—Sales to defense procurement agencies or under defense procurement agency subcontracts.* (a) On sales to a defense procurement agency, or under a defense procurement agency subcontract, you may add to your ceiling price determined under Schedules I through VII and IX through XI and to your ceiling price determined under section 29 (a) (2) any of the following costs actually incurred incidental to processing and packaging required to meet government contract specifications:

(1) Net cost of additional trim, if any;

(2) Cost of additional labor;

(3) Cost of wrapping and packing;

(4) Net cost of changed yield;

(5) Actual costs of freezing (including cost of transportation to commercial freezer, if incurred) but not in excess of the commercial rate at the commercial freezer nearest your plant plus the cost of transportation to that freezer; and

(6) Actual cost of transportation if sold on a delivered basis.

You may not, however, add any of the additions specified in sections 42, 51, or 52.

(b) If you make this selling addition, you must not only make and preserve the records required by section 11 (a), but within 10 days after you make a sale of a pork item to a defense procurement agency or after you make a sale under a defense procurement agency subcontract you must also file with your OPS District Office a signed statement in duplicate itemizing the costs listed in section 50 (a) paragraphs (1) through (5) inclusive, which you have added to your ceiling price determined under the appropriate Schedule in Article II. This statement must also include an explanation showing how you determined these costs and the information listed in section 11 (a) of the regulation. If you make more than one identical sale of the same pork item, you need only file the statement for the first such sale.

[Section 50 amended by Amdt. 2]

SEC. 51. *Addition 12—Wrapping.* (a) If any wholesale pork cut, listed below, is completely enclosed and sealed or tied in a covering consisting of (1) a combination of vegetable parchment paper with rag paper or glassine, or (2) cellophane or comparable plastic wrapping, or (3) if any wholesale pork cut, listed below, is stuffed in a synthetic casing, you may add to the price, specified in Article II, the amount specified below, opposite the type of cut wrapped:

Item	Amount per cwt.
(1) Hams, regular or skinned, boned-in, cured, smoked, ready-to-eat or cooked	$0.50
(2) Hams, regular or skinless, boneless, cured, smoked, ready-to-eat or cooked	.70
(3) Hams, regular or skinless, boneless and fatted, cured, smoked, ready-to-eat, cooked or browned	1.00
(4) Boston butts, cured, smoked, or ready-to-eat	.50
(5) Boneless butts, cured, smoked, or ready-to-eat	1.50
(6) Bellies (square cut and seedless) cured or smoked	.50
(7) Bellies (square cut and seedless) cured or smoked and derind	.50
(8) Picnics, bone-in, cured, smoked, ready-to-eat or cooked	.80
(9) Picnics, boneless, cured, smoked, ready-to-eat or cooked	1.00
(10) Picnics, boneless, fatted and skinless, cured, smoked, ready-to-eat, cooked or browned	1.00
(11) Shoulders, cured, smoked, ready-to-eat, cooked or browned	.50
(12) Jowl butts, cured or smoked	.70
(13) Jowl butts, squared, cured or smoked	1.50
(14) Briskets, cured or smoked	.70
(15) Canadian style bacon cured or smoked	1.50

[Paragraph (a) amended by Amdt. 2]

(b) If Canadian style bacon, either cured or smoked, is completely enclosed in a parchment wrapper, you may add to the price of Canadian style bacon, specified in Article II, $1.00 per hundredweight provided you do not add the addition provided for in item 15 of section 51 (a).

[Paragraph (b) amended by Amdt. 2]

(c) If wholesale pork cuts, listed in sections 20, 23, 24, and 26, are completely enclosed in two coverings, one of butcher manila and the other of waxed freezer paper, vegetable parchment or heavy kraft, or are wrapped in paper meeting good commercial practice and completely enclosed in stockinette bags, you may add to the price of those cuts, specified in Article II, $0.40 per hundredweight if these cuts are not packed in shipping containers and if you do not add the addition provided in section 51 (a).

[Paragraph (c) amended by Amdt. 2]

(d) If any wholesale pork cut, listed below, is completely wrapped in a plastic packaging material, vacuum sealed, in such a manner that little, if any, air is transmitted, and immersed in hot water, causing at least a 20 percent shrink in the plastic material in such a manner that the material adheres to the meat, you may add to the price, specified in Article II, in lieu of any other addition provided in section 51, the amount specified below, opposite the type of cut wrapped.

Item	Amount per cwt.
(1) Hams, regular, or skinned, boned-in, smoked, ready-to-eat or cooked	$1.50
(2) Hams, regular, or skinless, boneless, smoked, ready-to-eat or cooked	1.70

Item	Amount per cwt.
(3) Hams, regular or skinless, boneless and fatted, smoked, ready-to-eat, cooked or browned	$2.00
(4) Boston butts, smoked or ready-to-eat	1.50
(5) Boneless butts, smoked or ready-to-eat	2.50
(6) Picnics, bone-in, smoked, ready-to-eat or cooked	1.80
(7) Picnics, boneless, smoked, ready-to-eat or cooked	2.00
(8) Picnics, boneless, fatted and skinless, smoked, ready-to-eat, cooked or browned	2.00
(9) Shoulders, smoked, ready-to-eat, cooked or browned	1.50
(10) Canadian style bacon	2.00

[Paragraph (d) added by Amdt. 2]

SEC. 52. *Addition 13—Packing in shipping containers.* (a) For packing pork products in the following containers, you may add to the prices specified in Schedules I through IX, the amount specified below, opposite the type of container used:

Item	Amount per cwt.
All returnable containers (as defined in section 60 (q))	$0.40
Less than 5-pound metal, fibre or watertight containers (applicable only to brains, chitlings, cutlets, hearts, kidneys, livers and tongues)	2.50
5 15-pound wood, metal, or solid fibre containers	1.80
16 35-pound wood, metal, or solid fibre containers	1.50
36 65-pound wood, wire-bound crates, or solid fibre boxes	1.00
66-pound-up wood, wire-bound crates, or solid fibre boxes	.80
Barrels	.70
Closed sacks (muslin or burlap) (applicable only to dry salt meats)	.50
Closed plastic tubes or plastic bags (not applicable if you take the addition provided in section 51)	.50
Corrugated boxes (all)	.70

No more than one container addition may be made on the sale of any one product.

[Paragraph (a) amended by Amdt. 2]

(b) For breaking a box, barrel or other shipping container of wholesale pork cuts and delivering less than 30 pounds of the cuts contained therein loose to a single buyer in a single delivery, you may add to the prices specified in Schedule I through IX, in lieu of the addition permitted by section 52 (a), an amount per cwt. equal to the amount per cwt. of the shipping container addition you paid when you purchased those cuts. This provision does not apply to a slaughterer or to a branch house physically attached to a slaughterer's plant.

SEC. 53. *Addition 14—Special cutting and trimming addition.* For the designated special cutting and trimming of the following cuts, you may add, to the applicable base price specified in Article II, the amount indicated below, opposite the listed wholesale pork cuts:

Cuts	Amount per cwt.
1. Hams (applies only to items listed in section 20):	
Short shank	$1.00
Shankless	1.50
2. Shoulders (applies only to items listed in section 20):	
Short shank	1.00
Shankless	1.50
3. Picnics (applies only to items listed in section 20):	
Short shank	$1.00
Shankless	1.50
Half skinned	1.50
4. Loins, regular (made bladeless)	1.25
5. Bellies, clear, dry salt, square cut trim	.75
6. Bacon bellies, short cut, brisket off, square cut and seedless	2.00

[Section 53 amended by Amdt. 2]

ARTICLE V—GENERAL DEFINITIONS

SEC. 60 *General definitions.* When used in this regulation, the term:

(a) "Affiliated" means the relationship existing between two persons when one is owned or controlled by the other, or both are owned or controlled by the same person, or when one is an employee or agent of the other. Own or control means to own or control directly or indirectly a partnership equity or in excess of 10 percent of any class of outstanding stock, or to have made loans or advances in excess of 5 percent of the other person's monthly sales.

(b) "Carload" means (1) A shipment by rail of fresh or frozen wholesale meat cuts, and/or cured meat cuts, meat or processed products and or carcasses or any combination of the foregoing to a single delivery point, of at least the minimum weight upon which the railroad carload rate from the point of shipment to the delivery point, as evidenced by the tariff of railroad carriers, is based: *Provided*, That where the transportation charge for shipment of a lesser weight at the railroad carload rate would be less than the transportation charge for that shipment at the railroad less-than-carload rate, that shipment shall be considered a carload; or

(2) A shipment by motor truck or trucks to a single delivery point of 15,000 pounds or more of fresh or frozen wholesale meat cuts and/or cured meat cuts, meat or processed products and/or carcasses or any combination of the foregoing, as a single bulk sale transaction; or

(3) Any single bulk sale transaction wherein the buyer takes delivery at the seller's place of business of 15,000 pounds or more of fresh or frozen wholesale meat cuts and or cured meat cuts, meat or processed products and or carcasses or any combination of the foregoing.

(c) "Certified dressed hog processor" means a slaughterer, a nonslaughtering processor or any person who, during the last quarter of the calendar year 1950, obtained more than half of his pork supply by cutting up dressed hogs or hog carcasses. However, no person may qualify as a certified dressed hog processor until he has sent to the appropriate District Office of the Office of Price Stabilization, in duplicate, by registered mail, return receipt requested, a certified statement that he is a slaughterer or a non-slaughtering processor or that, during the last quarter of the calendar year 1950, he obtained more than half his supply of pork by cutting up dressed hogs or hog carcasses.

[Paragraph (c) amended by Amdt. 5]

(d) "Combination distributor" means any establishment which is not affiliated with a packing or slaughtering plant, packer's branch house, wholesaler's or other non-retail meat selling establishment to which it is physically attached; and which does not sell to ultimate consumers more than 50 percent of the total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by it; and which sold or delivered to purveyors of meals during 1950 not less than 25 percent of the total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by it, excluding sales to defense procurement agencies.

[Paragraph (d) amended by Amdt. 2]

(e) "Current Chicago live hog price" is the highest price quoted, for live hogs of the applicable weight range, in the current Chicago Daily Livestock Market Report of the Agricultural Marketing Administration of the U. S. Department of Agriculture. The current report shall be the report of the market price two days preceding the date of shipment of the hogs being priced. For the purpose of the preceding sentence, Saturdays, Sundays, and any other days for which the above-mentioned daily market report is not published, shall not be considered and the "date of shipment" shall be the date appearing on the bill of lading.

(f) "Defense procurement agency" means the Department of Defense (including the Department of the Army, the Department of the Navy, and the Department of the Air Force), the Maritime Administration of the Department of Commerce, the Marine Corps, the United States Coast Guard, the Department of Agriculture, the Veterans Administration or any agency of the foregoing.

(g) "Hotel Supply house" means any establishment—

(1) Which sold or delivered to purveyors of meals during 1950 not less than 70 percent of the total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by it, excluding sales to defense procurement agencies; and

(2) Which is not affiliated with a packing or slaughtering plant, packer's branch house, wholesaler's or other non-retail selling establishment.

(h) "Intermediate distributers" is a person who meets all of the requirements of the definition of "wholesaler" set forth in section 60 (z), except that he does not operate or maintain a separate selling establishment equipped with the storage facilities required by that definition in the conduct of his business.

(i) "Local delivery" means delivery commencing at the distribution point and continuing to the buyer's place of business or to the delivery point designated by the buyer.

(j) "Lowest carload freight rate" means the lowest classified rail tariff charge solely for transportation of a carload of the class of meat designated, namely, fresh meat, and semi-sterile canned meat, packing house products, or dressed hogs (exclusive of any charge for services, e. g., icing) including the federal transportation tax thereon.

(k) "Non-slaughtering processor" means a person who—

(1) Is not a wholesaler, intermediate distributor, combination distributor, hotel supply house, or ship supplier;

(2) Who is not affiliated with any slaughtering plant or facilities, engaged in the slaughtering of hogs or pigs;

(3) Whose business consists of the purchase of meat and its resale in the form of wholesale meat cuts more than 25 percent of which is processed by him during each calendar month;

(4) Who maintains and operates a separate selling establishment, equipped with reasonable and adequate storage facilities, in such a manner that the monthly poundage of meats and meat by-products sold out of stock carried in his separate selling establishment constitutes not less than 90 percent of the total monthly poundage of all meats and meat by-products resold by him; and

(5) Who operated in this manner during the last quarter of the calendar year 1950. If, however, you have not operated in this manner during the last quarter of the calendar year 1950 but you have made a substantial investment in plant or equipment prior to September 25, 1951, you may file an application with the Director of Price Stabilization, Washington 25, D. C., requesting that you be classified as a "non-slaughtering processor". Your application shall state the nature and extent of your investment in plant or equipment and when such investment was made. If the Director finds that you have made such an investment prior to September 25, 1951, and are otherwise qualified, he may, by order, classify you as a "non-slaughtering processor".

[Subparagraph (5) amended by Amdt. 2]

(i) "Peddler-truck sale" means a sale of wholesale pork cuts from stock carried in a truck where the seller's first record of the transaction is made concurrently with the delivery of the product sold, except that prior orders may be taken by the driver of a truck who conducts his meat selling operation in accordance with the provisions of subdivision (1) of this paragraph. Peddler-truck sales may be made:

(1) *Independent trucks.* By a person who purchases pork products from a seller with whom he has no other financial affiliation or relationship; who takes delivery at his supplier's place of business, at a railroad unloading station or at a truck unloading station; who does not sell or deal in meat in any manner other than to make sales out of stock carried in a truck which he either owns or rents, and which, whether owned or rented, has been used or replaces one which has been used by him for making such sales of meat at any time between January 1, 1950, and September 25, 1951 and who operated in this manner at any time between January 1, 1950, and September 25, 1951; or

[Subparagraph (1) amended by Amdt. 2]

(2) *Company-owned trucks.* By a driver-salesman who makes all his sales of meat out of stock carried in a truck driven by him but owned by a person who used such truck (or the truck which it replaces), exclusively, insofar as meat was transported therein or sold therefrom, for making this type of sale, at any time between January 1, 1950, and September 25, 1951.

[Subparagraph (2) amended by Amdt. 2]

(3) If you did not operate in the above manner prior to September 25, 1951, but you have made a substantial financial investment in peddler trucks prior to September 25, 1951, you may file an application with the Director of Price Stabilization, Washington 25, D. C., requesting that you be classified as an independent peddler truck seller or a company-owned peddler truck seller, whichever is applicable. Your application shall state the nature and extent of your investment in trucks and when such investment was made. If the Director of Price Stabilization finds that you have made such an investment prior to September 25, 1951, and are otherwise qualified, he may, by order, classify you as an "independent peddler truck seller" or a "company-owned peddler truck seller."

[Subparagraph (3) added by Amdt. 2]

(m) "Pork" means meat derived from swine. It includes but is not limited to pork products.

[Paragraph (m) amended by Amdt. 2]

(n) "Pork product" means the dressed hogs and wholesale pork cuts listed and defined in Appendix 2 of this regulation.

(o) "Process" means to can, cure, or smoke any wholesale pork cut or to prepare any wholesale pork cut as "cooked," "browned," or "ready-to-eat."

(p) "Purveyor of meals" means—

(1) Any restaurant, hotel, cafe, cafeteria or establishment which purchases meats and serves meals, food portions or refreshments for a consideration; or

(2) Any hospital, asylum, orphanage, prison or other similar institution; or

(3) Any person who is feeding, pursuant to a written contract with any agency of the United States, personnel of the armed services of the United States, fed under the command of a commissioned or non-commissioned officer or other authorized representative of the armed services of the United States; or

(4) Any person operating a vessel engaged in the transportation of cargo or passengers in foreign, coastwise, intercoastal trade, or trade upon interior waterways or the Great Lakes, if meat is delivered for consumption aboard such vessel.

(5) The term purveyor of meals does not include a defense procurement agency.

(q) "Returnable container" means a container of solid wood, solid fibre composition, or metal which must be of a type and size which the seller has customarily used in making delivery of wholesale pork cuts, which must be packed at the seller's place of business and taken into the buyer's place of business in making delivery of the products packed therein, which must be returned to the seller's place of business, which must be thoroughly cleaned before reuse, and which remains the property of the seller.

[Paragraph (q) amended by Amdt. 2]

(r) "Sales at retail" means a sale to an individual for consumption by himself or his family off the seller's premises. A retailer means a person who sells at retail.

(s) "Sausage" means chopped, ground or comminuted meat seasoned with spice and/or condiments to which salt, sodium nitrate, sodium nitrite and extender may be added.

(t) "Semi-sterile canned meat" means canned meat which has been placed in a container hermetically sealed but which needs refrigeration while remaining in the sealed container.

(u) "Slaughterer" means a person who owns or is affiliated with a slaughtering plant or slaughtering facilities engaged in the slaughter of hogs or who has hogs slaughtered for him by another person.

[Paragraph (u) amended by Amdt. 2]

(v) "Slaughtering facilities" means any equipment designed or used for the commercial killing of hogs.

[Paragraph (v) amended by Amdt. 2]

(w) "Slaughtering plant" means any place equipped or used for the commercial killing of hogs.

[Paragraph (w) amended by Amdt. 2]

(x) "Specialty pork product" means—

(1) A pork item which—

(i) Differs substantially from a pork product for which a ceiling price is provided by this regulation;

(ii) Was sold in 1950 as a specialty item at a substantially higher price per pound than the most similar pork product for which a ceiling price is provided in this regulation;

(iii) Is contained in a distinctive wrapping or packing bearing the name of the product, the weight of the cut, a list of the ingredients, and the name of the processor; and

[Subdivision (iii) amended by Amdt. 2]

(iv) Requires a substantial investment for the equipment used to process and wrap or package the item, or

(2) A pork item which—

(i) Differs substantially from a pork product for which a ceiling price is provided by this regulation;

(ii) Was produced in 1950 in the 48 states or the District of Columbia and sold in 1950 in whole or in part outside the 48 states and the District of Columbia; and

(iii) Is, after the effective date of this regulation, produced in the 48 states or the District of Columbia and not sold for consumption therein, or

(3) Semi-sterile canned pork, other than those items listed in section 25.

(y) "Sterile canned meat" means canned meat which has been sterilized in a container hermetically sealed, and needs no refrigeration while remaining in the sealed container.

(z) "Wholesaler" means a person—

(1) Who buys pork products for resale; and

(2) Who is not affiliated with any slaughtering plant or facilities, engaged in the slaughtering of hogs or pigs; and

(3) Who processes no more than 25 percent of the total meat resold by him during each calendar month; and

(4) Who maintains and operates a separate selling establishment, equipped with reasonable and adequate storage facilities, in such a manner that the total monthly poundage of meats and meat by-products sold out of stock carried in his separate selling establishment constitutes not less than 90 percent of the total monthly poundage of all meats and meat by-products resold by him; and

(5) Who operated in this manner at any time between January 1, 1950 and April 30, 1951. If, however, you have not operated in this manner at any time between January 1, 1950, and April 30, 1951, but you have made a substantial investment in plant or equipment prior to September 25, 1951, you may file an application with the Office of Price Stabilization, Food and Restaurant Division, Washington 25, D. C., requesting that you be classified as a wholesaler. Your application shall state the nature and extent of your investment in plant or equipment and when such investment was made. If the Director finds that you have made such an investment prior to September 25, 1951, and are otherwise qualified, he may, by order, classify you as a wholesaler.

[Subparagraph (5) amended by Amdt. 2]

(aa) "You" or "person" indicates the person subject to this regulation, including any individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing. However, no punishment provided by this regulation shall apply to the United States or to any such government, political subdivision, or agency. For the purpose of this regulation, each separate plant or selling establishment shall be treated as a separate person.

[Paragraph (aa) amended by Amdt. 2]

(bb) "Prefabricated retail cuts" means meat derived from wholesale pork cuts defined in this regulation; prepared, before delivery, by cutting or slicing or binding into consumer portions in such a manner that no further cutting, slicing or grinding is necessary to prepare the pork for sale in the form in which consumers customarily purchase the pork; and excluding any item specifically defined in Appendix 2 of this regulation. Cuts of different types may not be placed in the same package or wrapping.

[Paragraph (bb) added by Amdt. 2]

(cc) "Quarterly accounting period" means a period of 3 consecutive accounting periods commencing with the 1st, 4th, 7th, or 10th accounting period in your fiscal year.

[Paragraph (cc) added by Amdt. 2]

(dd) "Accounting period" means the customary accounting period of a calendar month or a period of at least 4 weeks and not more than 5 weeks used in keeping your books and records.

[Paragraph (dd) added by Amdt. 2]

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

BY: JOSEPH L. DWYER,
Recording Secretary.

APPENDIX 1—ZONE AND REGION DEFINITIONS

(a) *Zones.* (1) *Zone 1* means the area described as follows: The entire State of Iowa, except the counties of Dubuque, Jackson, Clinton and Scott; that portion of Minnesota south of and including the counties of Lac Qui Parle, Chippewa, Renville, McLeod, Carver, Hennepin, Ramsey and Washington; that portion of Wisconsin included in the counties of St. Croix, Dunn, Pierce, Pepin, Buffalo, Chippewa, Eau Claire, Trempealeau, La Crosse, Taylor, Clark, Jackson, Monroe, Vernon and Crawford; that portion of South Dakota south and east of and including the counties of Grant, Codington, Clark, Spink, Beadle, Jerauld, Aurora, Douglas, and Bon Homme; that portion of Nebraska east of and including the counties of Knox, Antelope, Wheeler, Greeley, Howard, Hall, Adams and Webster; that portion of Kansas included in the counties of Jewell, Mitchell, Cloud, Clay, Riley, Pottawatomie, Jackson, Jefferson, Leavenworth, Wyandotte, Atchison, Doniphan, Brown, Nemaha, Marshall, Washington and Republic; and that portion of Missouri north of and including the counties of Jackson, Lafayette, Saline, Howard, Boone, Callaway, Montgomery, Warren, and St. Charles.

(2) *Zone 2* means the area described as follows: That portion of Wisconsin east of and including the counties of Vilas, Oneida, Lincoln, Marathon, Wood, Juneau, Sauk, Richland, and Grant; that portion of Illinois north of and including the counties of Monroe, St. Clair, Clinton, Marion, Clay, Richland and Lawrence; that portion of Missouri included in the city and county of St. Louis; that portion of Iowa included in the counties of Dubuque, Jackson, Clinton and Scott; and that portion of Indiana included in the counties of Benton, Newton, Lake, and Porter.

(3) *Zone 3* means that portion of Indiana north of and including the counties of Sullivan, Greene, Monroe, Brown, Bartholomew, Decatur, and Franklin, except the counties of Benton, Newton, Lake, and Porter.

(4) *Zone 4* means that portion of Ohio west of and including the counties of Ottawa, Erie, Huron, Richland, Knox, Lacking, Fairfield, and north of and including the counties of Pickaway, Fayette, Greene, Montgomery and Preble.

(5) *Zone 5* means that area described as follows: That portion of the United States east of and including the states of New York, Pennsylvania, West Virginia, Kentucky, Tennessee and Mississippi; that portion of Louisiana which lies east of and including the parishes of West Feliciana, East Feliciana, East Baton Rouge, Ascension, St. James, St. John the Baptist, St. Charles and Jefferson; that portion of Missouri included in the counties of Jefferson, Ste Genevieve, Perry, Bollinger, Cape Girardeau, Scott, Stoddard, Mississippi, New Madrid, Dunklin, and Pemiscot; that portion of Illinois not in Zone 2; that portion of Indiana not in Zone 2 or 3; that portion of Ohio not in Zone 4, and the Lower peninsula of Michigan.

[Subparagraph (5) amended by Amdt. 2]

(6) *Zone 6* means the area of the United States not included in Zones 1, 2, 3, 4, and 5.

(b) *Regions.* (1) *Region A* means the area described as follows: The entire States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey and Delaware; the District of Columbia; the State of Maryland except Allegany and Garrett Counties; the portion of New York east of and including the counties of St. Lawrence, Jefferson, Lewis, Herkimer, Otsego and east and southeast of and including the county of Delaware; that portion of Pennsylvania east of and including the counties of Tioga, Lycoming, Union, Mifflin, Juniata, Perry, and Franklin; and that portion of Virginia including the counties of Loudoun, Fairfax, and Arlington.

(2) *Region B* means the area described as follows: That portion of New York not in Region A; that portion of Pennsylvania not in Region A; that portion of Maryland including the counties of Garrett and Allegany; and that portion of West Virginia including the counties of Mineral, Hampshire, Morgan, Berkeley and Jefferson.

(3) *Region C* means the area described as follows: The lower peninsula of Michigan, that portion of Ohio east, southeast, and south of, and including the counties of Lorain, Ashland, Holmes, Coshocton, Muskingum, Perry, Hocking, Ross, Highland, Clinton, Warren, and Butler; that portion of Virginia not included in Region A; that portion of West Virginia not included in Region B, and that portion of Kentucky east of and including the counties of Boone, Gallatin, Owen, Franklin, Woodford, Mercer, Boyle, Casey, Russell and Cumberland.

[Subparagraph (3) amended by Amdt. 2]

(4) *Region D* means the area described as follows: The entire States of Arizona, Idaho, New Mexico, Nevada, and Utah; that portion of Texas included in the counties of El Paso, Hudspeth, Culbertson, Jeff Davis, Reeves, Pecos, Terrell, Brewster, and Presidio; and that portion of Montana west of and including the counties of Blaine, Fergus, Golden Valley, Stillwater, and Carbon.

(5) *Region E* means the States of Washington, Oregon, and California.

APPENDIX 2—PORK PRODUCT DEFINITIONS

(a) *Pork products.* When used in this regulation the term *pork product* means and is limited to the dressed hogs and wholesale pork cuts listed in and defined in this Appendix.

(b) *Dressed hogs.* When used in this regulation the term *dressed hogs* means packer style hogs and shipper style hogs.

(1) *Packer style hog* means a dressed hog or pig, scalded or skinned, with the head off, kidneys and leaf fat cut out, and ham facings off.

(2) *Shipper style hog* means a dressed hog or pig, scalded or skinned, with the head on, kidneys and leaf fat in, and ham facings on.

(c) *Wholesale pork cuts.* When used in this regulation, the term *wholesale pork cut* means any of the following for which a ceiling price is provided in Sections 20 through 20, inclusive, of this regulation:

(1) *Ham, regular, bone in,* means a ham cut off from the hog carcass not less than 2¾ nor more than 2¾ inches from the exposed end of the aitch bone, properly faced, with the shank cut off at or above the hock joint, with loose and excessive gut fat removed from the face and pelvic cavity, with the cushion side well rounded and no excessive flank and from which none of the bone has been removed.

(2) *Ham, long cut, bone in,* means hams cut off from the hog carcass at a point not to exceed 3 inches beyond the end of the saucer bone (slip bone) with the shank cut off not to exceed 1 inch below the hock joint, with loose gut fat removed from the face and pelvic cavity, with the cushion side well rounded and no excessive flank.

(3) *Ham, skinned, bone in,* means a ham cut as regular ham but with the skin removed to leave a collar covering not more than 40 percent of the length of the ham, with the fat beveled back at least 3 inches from the lean meat at the butt, loosely rounded and beveled on flank and cushion with not more than 1¼ inches of fat depth left on any portion of the ham from which the skin has been removed and from which none of the bone has been removed.

(4) *Ham, regular, boneless,* means a ham cut as described in Appendix 2 (c) (1) except that all of the bone has been removed therefrom.

(5) *Ham, skinned, boneless and fatted,* means a ham cut as described in Appendix 2 (c) (3) except that all of the bone has been removed therefrom.

(6) *Ham, regular, boneless and fatted,* means a ham cut as described in Appendix 2 (c) (4) except that the trimmable fat has been removed therefrom to within ½ inch of the lean. After removal of the excess fat, the skin is replaced.

(7) *Ham, skinless, boneless and fatted,* means a ham cut as described in Appendix 2 (c) (5) except that the trimmable fat has been removed therefrom to within ½ inch of the lean.

(i) *Split ham, skinless, boneless and fatted,* means a ham cut as described in Appendix 2 (c) (1) except that all of the bone and skin has been removed and that the trimmable fat has been removed to within ½ inch of the lean, and that the ham has been fabricated according to good commercial practice into two or more parts, weighing 2 pounds or more each in fresh or frozen, cured or smoked state and weighing 1½ pounds or more each in ready to eat or cooked state.

[Subdivision (i) added by Amdt. 2]

(8) *Boston butt* means a shoulder butt the surplus fat of which has been removed to within ½ inch of the lean meat on all portions of the butt and which is neatly beveled on the edges.

(9) *Bellies, square cut and seedless,* means bellies from which the spare rib has been removed and which are trimmed square on all edges except that the flank end may be cut on a bias not to exceed 1 inch, and if derived from gilts or sows, cut down until seed is removed, except for slight traces of firm white or pink seed. This term does not include bellies of 12 pounds, and under, which are less than ⅝ of an inch in thickness, bellies of 12 pounds, and up, which are less than ¾ inch in thickness, nor bellies damaged by scribing, or cut extremely long and narrow, or extremely wide and short, or 1½ inches beyond the scribe mark, which bellies shall be deemed substandard. The bellies must be reasonably free from hair roots and must have no skin cuts, bristles, rough skin or bruises, and must have the cartilage removed from the brisket and so that they are practically free of buttons.

(10) *Bellies, square cut, and seedless with spare rib in,* means bellies as defined in Appendix 2 (c) (9) except that the spare rib is not removed therefrom.

(11) *Bellies, square cut, seedless and derind,* means bellies as defined in Appendix 2 (c) (9) except that the entire skin has been removed.

(12) *Loins, regular,* means loins scribed and trimmed in accordance with good commercial practice and from which excess fat over the tenderloin has been removed and the fat on the back of which has been removed to within ½ inch of the lean.

(i) *Loin, regular (skin on)* means a pork loin meeting the requirements of a regular pork loin, as defined in Appendix 2 (c) (12), except the skin may be left on if the total depth of the fat, plus the skin, does not exceed ½ inch at any point.

(ii) *Loin, center cut* means a pork loin from which the shoulder end of the loin has been removed by cutting crosswise to the length of the loin at a point which completely removes the shoulder blade gristle tip and from which the ham end of the loin has been removed by cutting crosswise to the length of the loin at a point which completely removes the hip bone (slip bone).

(iii) *Shoulder end of loin* means that portion of the shoulder end of a pork loin removed when producing a center cut loin (may be blade-in or bladeless).

(iv) *Ham end of loin* means that portion of the ham end of a pork loin removed when producing a center cut loin.

[Subdivisions (i), (ii), (iii) and (iv) added by Amdt. 2]

(13) *Picnics, regular,* means picnics cut from shoulders not less than one rib wide in such a manner as to leave not less than 1 inch or more than 2½ inches of blade bone in the picnic, closely trimmed, properly faced, with the lip and breast flap removed, well rounded and with fat properly beveled on the butt end, with the foot cut off at or above the upper knee joint (toward the body of the hog). *Picnics, boneless,* means regular picnics from which all of the bone has been removed. *Picnics, boneless, fatted and skinless,* means regular picnics, boneless, from which the fat has been removed to within ¼ inch of the lean and from which all skin has been removed.

(14) *Shoulders, skinned, neckbone out,* means shoulders cut not less than one rib wide, with the breast flap taken off, the jowl removed close to the body of the shoulder and the neckbone removed, and with foot cut off at or above the upper knee joint (toward the body of the hog), with the skin taken off to within 4 inches of the base of the shank, neatly beveled on the edges. The fat shall be removed to within ¾ inch of the lean on any portion of the shoulder from which the skin has been removed.

(i) *Shoulder-skinned, neckbone in,* means shoulders, as defined in Appendix 2 (c) (14), with the neckbone left in.

[Subdivision (i) added by Amdt. 2]

(15) *Shoulders, skinned, boneless,* means shoulders as defined in Appendix 2 (c) (14), except that all bone shall be removed therefrom.

[Subparagraph (15) amended by Amdt. 3]

(16) *Shoulders, boneless, fatted and skinless,* means shoulders from which all skin and bone have been removed and from which trimmable fat has been removed to within ½ inch of the lean.

(17) *Shoulders, regular, neckbone out,* means shoulders cut not less than one rib wide, with the breast flap taken off, the jowl removed close to the body of the shoulder and the neckbone removed, and with the foot cut off at or above the upper knee joint (toward the body of the hog).

(18) *Shoulders, rough,* means an untrimmed shoulder with foot and jowl cut off and neck bone left in or out.

(19) *Shoulders, long-cut,* means shoulders as defined in Appendix 2 (c) (17) except that the foot shall be cut off ½ inch below the lower knee joint and the shoulder shall be cut from the side so that it is not less than three ribs wide and all of the brisket is removed from the belly.

(20) *Butts, boneless,* means butts from which all bone has been removed and from which the lip has been removed and which are trimmed smooth on all edges.

(21) *Loins, boneless, Canadian-style,* means the boneless eye muscle only, which has been separated from the other parts of the pork loin at the natural muscle seam. The fat shall not exceed ¼ inch in thickness.

(22) *Loins, boneless (Reg. cap or tail on),* means the boneless eye muscle and boneless muscle (cap) from the staff bone and connected by the natural muscle seam. The external fat shall not exceed ¼ inch in thickness.

(23) *Brisket* means that part of a square cut seedless belly forward from the shoulder crease.

(24) *Fat back* means the fat and skin covering the back of a hog lying over the pork loin. The ends must be trimmed reasonably square and the fat must be free of ragged edges.

[Subparagraph (24) amended by Amdt. 3]

(25) *Fat back ends or squares* means parts of fat back which meet commercial requirements for thickness.

(26) *Bellies, dry salt trim (clear or rib),* means bellies trimmed in accordance with good commercial practice with no ragged edges, reasonably square cut, and showing no bruises. *Belly squares* means squares or strips made by cutting dry salt trim bellies at right angles to the length of the bellies. The strips must be at least 4 inches wide.

(27) *Clear plates* means regular plates from which the lean meat and blade bone have been removed and the neck side squared.

(28) *Regular plate* means the fat end of a regular shoulder, with the blade bone and lean meat left attached, remaining after the boneless butt is removed.

[Subparagraph (28) amended by Amdt. 2]

(29) *Jowl butts* means whole jowls trimmed free of blood clots and ragged pieces.

(i) *Jowl butts, skinless,* means jowl butts with all the skin removed.

[Subdivision (i) added by Amdt. 2]

(30) *Square jowl butts* means whole jowls which have been pressed or flattened, trimmed square on all edges, and smoothly faced.

(31) *Hog jaws* means the lower jawbone with the teeth removed but with the head meat, tongue and lips attached.

(32) *Square ribs* means that part of the rib structure remaining after the loin and shoulder are removed and includes the breast bone.

(33) *Barbecue ribs* means spare ribs from which the breast bone has been removed.

(34) *Loin ribs* means the strip of ribs, with the backbone removed, remaining after pork loins are boned for boneless loins or Canadian bacon.

(35) *Sparerib brisket bones* means the breast bones which are removed from the spareribs when making barbecue ribs.

(36) *Hotel sliced bacon* means bacon sliced from cured and smoked square cut seedless whole bellies, from which the rind has been removed, in whole slices not over 8½ inches in length and not over 1½ inches or less than ¾ inch in width, containing no more than 2 part slices to the pound.

[Subparagraph (36) amended by Amdt. 2]

(37) *Grade A sliced bacon* means bacon sliced from cured and smoked square cut seedless whole bellies, from which the rind has been removed, in whole slices not over 9½ inches in length and not over 2 inches or less than ¾ inch in width, containing no more than two part slices to the pound.

(38) *Grade B sliced bacon* means bacon sliced from cured and smoked square cut seedless whole bellies, from which the rind has been removed, in whole slices not over 11 inches in length and not over 2½ inches or less than ¾ inch in width, containing no more than two part slices to the pound.

(39) *Grade C sliced bacon* means bacon sliced from cured and smoked whole bellies, from which the rind has been removed, in whole slices not over 3½ inches or less than ¾ inch in width, containing no more than two part slices to the pound.

[Subparagraph (39) amended by Amdt. 3]

(40) *Grade D sliced bacon* means all other bacon sliced from cured and smoked bellies from which the rind has been removed which will not qualify as Grade A, B, or C sliced bacon, exclusive of bacon ends.

(41) *Sliced Canadian style bacon, smoked,* means the same cut as defined in Appendix 2 (c) (21), cured, smoked and sliced according to good commercial practice.

[Subparagraph (41) amended by Amdt. 2]

(42) *Sliced Canadian style bacon, cooked,* means the same cut as defined in Appendix 2 (c) (21), cured, smoked, cooked and sliced according to good commercial practice.

[Subparagraph (42) amended by Amdt. 2]

(43) *Sliced jowl butts* means sliced square jowl butts which have been cured and smoked.

(44) *Sliced boneless regular plates* means slices from cured and smoked regular plates from which the blade bone has been removed leaving all possible lean meat attached to the fat.

(45) *Bacon ends* means the small pieces remaining after bacon is sliced and including part slices which are less than a third of the size of the original full slice.

(46) *Regular trimmings 40 percent lean* means pork trimmings having not in excess of 60-percent trimmable fat.

(47) *Regular trimmings 50 percent lean* means pork trimmings having not in excess of 50-percent trimmable fat.

(48) *Special lean trimmings* means pork trimmings having not in excess of 20-percent trimmable fat.

(49) *Extra lean trimmings* means pork trimmings having not in excess of 5-percent trimmable fat.

(50) *Neck bone trimmings* means the trimmings removed from the neck bone reasonably free of bone particles and blood clots.

(51) *Blade meat* means the lean meat which is removed from the blade bone after the boneless butt has been removed from the Boston butt, and which does not have in excess of 5-percent trimmable fat.

[Subparagraph (51) amended by Amdts. 2, 3 and 4]

(52) *Skinned neck fat* means skin-on neck fat with all skin removed.

(53) *Skin-on neck fat* means neck fat trimmed free of blood clots.

(54) *Skinned back fat* means back fat from which all skin has been removed.

(55) *Skinned ham fat* means ham fat from which all skin has been removed.

(56) *Skinned shoulder fat* means shoulder fat from which all skin has been removed.

(57) *Hocks* means sections cut from the shank of a ham, shoulder or picnic, in making them short shank or shankless and weighing ½ pound or more each.

(58) *Knuckles* means sections cut from the shank of a ham, shoulder or picnic, in making them short shank and weighing less than ½ pound each.

(59) *Feet, regular,* means front or hind pigs feet. Front feet are cut from the shoulder at or above the upper knee joint (toward the body of the hog). Hind feet are cut from the ham at or above the hock joint (toward the body of the hog), with the exposed part of the gambrel cord (tendon) entirely removed.

(60) *Feet, short cut* means feet that have been cut ½ inch below the knee joint (towards the foot of the hog).

(61) *Tidbits from hind feet* means the lean meat removed from the hind feet.

(62) *Tails* means tails of hogs trimmed reasonably free of fat.

(63) *Neck bones* means neck bones trimmed reasonably free of lean meat.

(64) *No. 1 Skins—strips* means strips of skin at least 5 inches wide and 18 inches long removed from the fat back. Such skins must be reasonably free of fat and have no blemishes or cuts.

(65) *Bacon skins* means the edible skin removed from a smoked belly when derind.

(66) *Gelatin skins* means small pieces of fresh uncured skins from which practically all fat has been removed.

(67) *Blade butts (blade bones)* means blade bones and lean meat taken from a regular plate in converting it to a clear plate.

(68) *Back bones* means the section of the spinal column which is cut from the loin ribs after the boneless pork loin or Canadian bacon is removed from the pork loin. The backbone may be trimmed reasonably free of lean meat.

(i) *Country back bone (southern style)* means the back bone cut from the entire length of the hog carcass, in a reasonably straight line, starting the cuts on each side of the tail bone and continuing on lines at least 2 inches on each side of the center of the back bone through the ribs on each side of the chine bone, maintaining a 4-inch minimum width from the last vertebrae to the first shoulder rib. All of the eye muscle meat and all of the lean meat adhering to the back bone, in making this cut, shall be left attached. The fat attached to the back bone shall not exceed ½ inch in thickness at any point. All loose fat shall be removed. All skin shall be removed, except that where the natural fat, plus the skin, does not exceed ½ inch thickness at any point, the skin may be left on.

[Subdivision (i) amended by Amdt. 2]

(69) *Pork tenderloin* means the long rounded muscle lying beneath the back bone, extending from the butt end of the loin forward almost to the ribs.

[Subparagraph (69) amended by Amdt. 2]

(70) *Pork tenderloin tips* means that portion of the tenderloin muscle contained in the ham end (hip end) of the loin.

(71) *Cappicola butts* means a pork product made from whole cured boneless shoulder butts, cellar trimmed, spiced and stuffed in natural or artificial casings; or wrapped in cellophane, other transparent material or vegetable parchment; (i) which has been heated for sufficient time to assume the characteristics of a cooked product; (ii) which is ready to serve without further heating; (iii) and which has a finished weight not in excess of 35 percent of the green weight of the boneless butts used and the moisture content of which does not exceed 3.2 times the weight of the protein minus the weight of the sodium chloride as chemically tested.

[Subparagraph (71) amended by Amdt. 2]

(72) *Canned whole ham, skinless* means a cured whole ham packed in a hermetically sealed tin container. The ham shall be completely skinned, boned, and the external fat shall be trimmed to within ½ inch of the lean. The ham shall be cooked according to good commercial practice. Gelatin may be added to each can to solidify the juices.

[Subparagraph (72) amended by Amdt. 3]

(73) *Canned whole ham, pear-shaped (Polish style with shank collar),* means a cured, whole ham packed in a hermetically sealed, pear-shaped tin container. The ham shall be completely skinned except that such ham may have a shank collar not exceeding 7 percent of the weight of the ham. The ham shall be completely boned, and the external fat not covered by the skin shall be trimmed to within ½ inch of the lean. The ham shall be cooked according to good commercial practice. Gelatin may be added to each can to solidify the juices.

[Subparagraph (73) amended by Amdt. 3]

(74) *Canned whole ham, Pullman, skinless,* is the same as Appendix 2 (c) (72) except that it shall be packed in a square-shaped tin.

(75) *Canned whole picnics* means a cured whole picnic packed in a hermetically sealed tin container. The picnics shall be short-shanked, completely skinned, boned, and the external fat shall be trimmed to within ½ inch of the lean. The ham shall be cooked according to good commercial practice. Gelatin may be added to each can to solidify the juices.

[Subparagraph (75) amended by Amdt. 3]

(76) *Canned spiced luncheon meat* means a canned meat product made entirely of pork including cheek meat, but not including other pork variety meats and edible by-products listed in Schedule VII of this regulation; which product has a final yield not in excess of 107 percent of the original meat contents; and which final product does not contain in excess of 25 percent fat by chemical analysis (as determined by the method used by the Meat Inspection Division of the United States Department of Agriculture); and which is packed in either 3-, 6-, or 8-pound tin containers.

[Subparagraph (76) amended by Amdt. 2]

(77) *Canned spiced ham* means a canned meat product made entirely of ham; which has a final yield not in excess of 107 percent of the original meat content; which final product does not contain in excess of 25 percent fat by chemical analysis (as determined by the method used by the Meat Inspection Division of the United States Department of Agriculture); and which is packed in either a 3-, 6-, or 8-pound tin container.

[Subparagraph (77) amended by Amdt. 2]

(78) *Canned pressed ham, boneless, chopped,* means a canned pork product made of ham trimmings, which product has a final yield not in excess of 107 percent of the original meat content; and which final product does not contain in excess of 20 percent fat by chemical analysis (as determined by the method used by the Meat Inspection Division of the United States Department of Agriculture); and which is packed in a 3-, 6-, 8-, or 10-pound tin container.

[Subparagraph (78) amended by Amdt. 2]

(79) *Canned chopped pork, boneless,* means a canned pork product, made entirely of pork and excluding all items listed in Schedule VII, which has a final yield not in excess of 107 percent of the original meat content; and which final product does not contain in excess of 20 percent fat by chemical analysis (as determined by the method used by the Meat Inspection Division of the United States Department of Agriculture); and which is packed in 3-, 6-, 8-, or 10-pound tin containers.

[Subparagraph (79) amended by Amdt. 2]

(80) *Brains* means both brain lobes, the small knob at the base of the brain and a small piece of spinal cord approximately ¾ of an inch in length.

(81) *Caul fat* means the fat surrounding the stomach. When taken from a hog, it should have light, lacy veins of fat or fat streaking.

(82) *Cheek and head meat* means the lean muscle on the inside and outside of the lower jaw, trimmed free of the salivary glands, together with other miscellaneous small pieces of meat from the head, with no more than 20-percent trimmable fat.

(83) *Chitterlings* means the middle of the hog casing set, including the blind end, thoroughly cleaned and practically free from fat, split or unsplit.

(84) *Crown meat* means the lean meat trimmed from the crown of hog bungs.

(85) *Cutlets* means pork steaks made from the lean muscle trimmed from the tip of the jaw bone (temple meat), or from the inside lean muscle cheek meat, free of fat and either frenched by hand-pounding or processed through a steaking machine.

(86) *Diaphragm meat* means the lean meat trimmed from the diaphragm muscle after the latter has been cut from the carcass in dressing.

(87) *Ears* means the ear, after removal of the eardrum.

(88) *Gullet weasand* meat means the lean meat surrounding the esophagus and trachae (gullet and windpipe).

(89) *Head (tongue out)* means the entire head, excluding the tongue, cut from the carcass in a circular cut, exposing the lean cheek meat in the head, leaving the greater part of the fat which covers the cheek on the carcass. The eardrums, eyelashes, and all hair and scurf are removed and the head is thoroughly flushed and cleaned.

(i) *Head (tongue in, jowls on) (market head)* means the entire head, including the tongue, cut from the carcass in a circular cut, leaving the greater part of the fat and skin covering the cheek on the head. The eardrums, eyelashes, all hair and scurf shall be removed and the head thoroughly cleaned and flushed.

[Subdivision (i) added by Amdt. 2]

(90) *Head skin* means the skin from a hog head, excluding the ears, lips and snout.

(91) *Heart* means heart with heart valve attached, free of blood clots, and with the aorta not over one inch in length.

(92) *Kidneys* means kidneys free from spots and reasonably free from fat.

(93) *Leaf lard, raw,* means the large piece of fat attached to each side of the back in the abdominal cavity.

(94) *Lips* means the entire underlip when removed from hogs.

(95) *Livers* means livers from which the gall bladder and connecting tissue have been removed and which are free of white spots.

(96) *Melts, trimmed,* means the spleen with caul fat removed.

(97) *Snouts (lean meat out)* means the snout from the hog head. It is to be long cut so as to include the part extending between and above the eyes. The lean meat is trimmed out and the nasal cartilage removed.

(98) *Snouts (lean meat in)* means the snout from the hog head. It is to be long cut so as to include the part extending between and above the eyes. The lean meat is left in and the nasal cartilage removed.

(99) *Tongues (bone in)* means pork tongues with glands removed and trimmed reasonably free of fat. Tongues trimmed to remove tooth marks are included.

(100) *Tongues (boneless)* means pork tongues with the hinge bones removed.

(101) *Tongue trimmings* means the muscle meat trimmed from the tongue with not more than 50-percent trimmable fat. It does not include glands.

(102) *Stomachs* means paunches thoroughly cleaned by washing and scalding, according to B. A. I. instructions or similar good commercial methods.

(103) *Stomachs, cooked,* means cleansed stomachs which have been thoroughly cooked by boiling in water and cooled.

(104) *Bladeless loin chops (cut end to end)* means bladeless loins which have been cut into chops. All fat exceeding ½ inch in thickness shall be removed from the outside of the chops.

(105) *Aged, dry-cured hams* means hams meeting the specifications of Appendix 2 (c) (2) which have been cured and hung for smoking and drying in accordance with the requirements of Appendix 3 (a).

(106) *Aged, dry-cured shoulders,* means shoulders meeting the specifications of Appendix 2 (c) (19) which have been cured and hung for smoking and drying in accordance with the requirements of Appendix 3 (a).

(107) *Aged, dry-cured bacon sides (boneless)* means bellies meeting the specifications of Appendix 2 (c) (9) which have been cured and hung for smoking and drying in accordance with the requirements of Appendix 3 (a).

(108) *Aged, dry-cured bacon sides (spare rib in)* means bellies meeting the specifications of Appendix 2 (c) (10) which have been cured and hung for smoking and drying in accordance with the requirements of Appendix 3 (a).

(109) *Aged, dry-cured hog jaws,* means hog jaws meeting the specifications of Appendix 2 (c) (31) which have been cured and hung for smoking and drying in accordance with the requirements of Appendix 3 (a).

(110) *Fat back pork* means pieces of cured back fat which meet commercial requirements for thickness and which are about 6 inches square.

(111) *Plate pork* means cured clear plates as defined in Appendix 2 (c) (27) which meet commercial requirements and which are packed in 200-pound barrels containing between 25 and 44, inclusive, pieces.

(112) *Brisket pork* means that part of a cured square cut seedless belly forward from the shoulder crease.

(113) *Vinegar pickled product* means a pork product which has been properly cured and cooked by the application of water or steam for sufficient time to assume the characteristics of a cooked product so that the edible portion is ready to be eaten without further heating and is completely done as prescribed by the Meat Inspection Division of the United States Department of Agriculture. The product shall be packed in at least 50-degree vinegar, with salt and spices added.

[Subparagraph (113) amended by Amdt. 2]

(114) *Boneless ham, ready-to-eat, cooked or browned, sliced,* means a ready-to-eat, cooked or browned boneless ham for which a ceiling price has been provided in sections 20 or 22 of this regulation and which has been sliced in accordance with commercial practice.

(115) *Hams, short shank,* means regular or skinned hams from which the shank has been cut off not more than 3 inches from the wrinkle located at the base of the shank of the ham.

(116) *Hams, shankless,* means regular or skinned hams from which the shank (hock) has been cut off not more than 3 inches below the stifle joint (toward the foot).

[Subparagraph (116) amended by Amdt. 3]

(117) *Shoulders, short shank,* means regular or skinned shoulders from which the shank has been cut off not more than 2 inches from the arm pit and parallel to the knee joint.

(118) *Shoulders, shankless,* means regular or skinned shoulders from which the shank has been cut off close to the breast and parallel to the knee joint.

(119) *Picnics, short shank,* means regular picnics from which the shank has been cut off not more than 2 inches from the arm pit and parallel to the knee joint.

(120) *Picnics, shankless,* means regular picnics from which the shank has been cut off close to the breast and parallel to the knee joint.

(121) *Picnics, half-skinned,* means regular picnics from which the skin has been removed from at least 2½ inches of the butt end on weights 8 pounds or less and from at least 3 inches of the butt end on weights over 8 pounds and beveled from the beginning of the skinned portion to the lean meat at the butt end.

(122) *Loins, bladeless,* means regular pork loins from which the whole shoulder blade bone and gristle tip have been removed.

(123) *Bellies, clear, dry salt, square cut trim,* means bellies with the boot-jack removed and squarely trimmed on all sides.

(124) *Bacon bellies, short cut, brisket off, square cut and seedless,* means square cut and seedless bellies from which the brisket has been cut off behind the shoulder crease.

APPENDIX 3—PROCESSING DEFINITIONS

When used in this Appendix in defining pork products, the phrase "ready to serve without further heating" refers to pork products which have been heated so that all parts of the pork muscle contained therein have reached a temperature of at least 140° F. by a method of heating and under conditions known to insure such result. The expression "chemically tested" means tested by the methods described in Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists, Fifth Edition, 1940. When used in this regulation, the term:

(a) *Aged, dry-cured,* means pork products which have been dry-cured and then hung for smoking and drying. The combined period for such curing and hanging for each type of aged, dry-cured product listed herein shall constitute not less than the time indicated below, and the total of the cured weights of all pieces of each type of aged, dry-cured product obtained after completion of the combined curing and hanging process shall not exceed the yield specified below:

Item	Length of combined curing and hanging period (months)	Yield (percent)
(1) Aged, dry cured hams	5	73
(2) Aged, dry cured shoulders	4	78
(3) Aged, dry cured bacon sides (boneless)	3	80
(4) Aged, dry cured bacon sides (spare rib in)	3	80
(5) Aged dry cured jowls	2	85

(b) *Browned* means a pork product which—

(1) has been heated for sufficient time to cause the formation of a brown crust on the surface, the rendering-out of the surface fat, the caramelization of sugar, if applied, and the formation of all other characteristics of a baked product;

(2) is ready to serve without further heating; and

(3) the lean meat of which weighs not in excess of 80 percent of its weight in the green state, or the moisture content of which is not in excess of 3 times the weight of protein minus the weight of sodium chloride as chemically tested.

(c) *Cooked in molds under pressure* means a pork product which—

(1) Has been placed in a mold, with pressure applied and maintained while being cooked by steam or water.

[Subparagraph (1) amended by Amdt. 2]

(2) is ready to serve without further heating; and

(3) the lean meat of which weighs not in excess of 83 percent of its weight in the green state.

(d) *Cooked (not in molds under pressure)* means a pork product which—

(1) has been heated by the application of water or steam or dry heat, for sufficient time to assume the characteristics of a cooked product;

(2) is ready to serve without further heating; and

(3) the lean meat of which weighs not in excess of 85 percent of its weight in the green state, or the moisture content of which is not in excess of 3.2 times the weight of protein, minus the weight of sodium chloride as chemically tested, except that cooked hams, shoulders and picnics, bone-in or boneless, but not fatted, listed in Schedule 1 may have a lean meat weight not in excess of 90 percent of the weight in the green state, or a moisture content in the lean meat not in excess of 3.4 times the weight of protein, minus the weight of sodium chloride as chemically tested.

(e) *Cured* means prepared for preservation by the application of salt, nitrate, nitrite or similar ingredients.

(f) *Dried* means pork from which moisture has been evaporated so as to produce a yield from fresh weight not in excess of the yield indicated below for the respective items:

Item	Yield (percent)
Hams	62
Shoulders	62
Bacon	63
Dressed hog sides	63
Jowl butts	65

The above yields shall be determined by dividing the final weight of the product by the fresh weight of the meat used and expressing the quotient as a percentage.

[Paragraph (f) amended by Amdt. 1]

(g) *Ready-to-eat* means a pork product which—

(1) Has been heated in the smokehouse for sufficient time to assume the characteristics of a cooked product;

(2) Is ready to serve without further heating; and

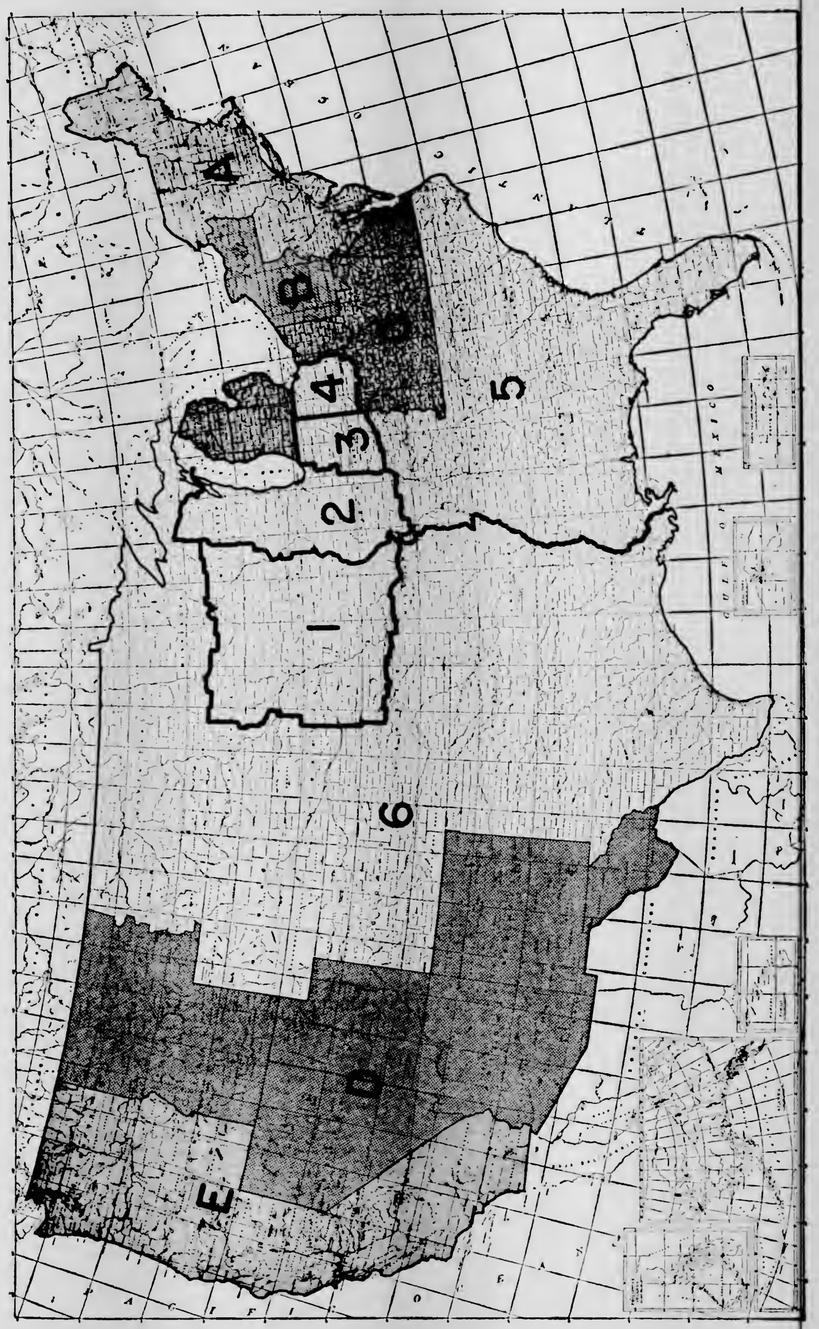
(3) The lean meat of which weighs not in excess of 95% of its weight in the green state, or the moisture content of which is not in excess of 3.7 times the weight of protein minus the weight of sodium chloride as chemically tested.

(h) *Smoked* means a pork product which has been smoked by the actual burning of hardwood or hardwood sawdust in such manner as—

(1) To impart a smoked flavor to the meat, and

(2) To cause the finished weight to be no more than the original green weight.

APPENDIX 4—MAP OF ZONES AND REGIONS



[F. R. Doc. 52-6329; Filed, June 5, 1952; 10:40 a. m.]

[General Ceiling Price Regulation, Supplementary Regulation 103]

GCPR, SR 103—CEILING PRICES FOR WOODEN MINE MATERIALS PRODUCED IN THE WESTERN AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 103 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation establishes new ceiling prices for sellers of wooden mine materials produced and sold for use in mines in the area of the United States west of the 100th Meridian.

Each seller covered must recalculate his ceiling prices on such materials by adding 35 percent to the highest price he received for the same item during the period from May 24, 1950 to June 24, 1950, inclusive. This action is taken in order to restore normal price relationships between prices of wooden mine materials and prices of other lumber items and thereby to alleviate the critical shortage of wooden mine materials in the area mentioned. The shortage threatens to adversely affect the mining of copper and other ores, and coking coal vitally needed for the defense effort. The need for action is urgent because, under the seasonal logging pattern, contracts are now being let for the season's cut and only speedy relief can avert a curtailment in ore and coal mining caused by the mine timber shortage.

Although mine timbers are indispensable to the operation of coal, copper and other mines, the cost of these materials constitutes an insignificant part of the total cost of operating the mines. Consequently this action will have no effect on the market price of coal or ores. Moreover this action will affect only a very small proportion of the total amount of timber cut in the Western Area.

Although the price problem which this supplementary regulation is designed to correct exists at the primary producing level, the mine timbers affected often move through the hands of middlemen before they reach the using mines. This supplementary regulation, therefore, affords relief to all sellers of wooden mine materials in this area. If this were not done, a price squeeze upon the middlemen would interrupt the flow of the materials to the mines.

In view of the nature of this supplementary regulation, and because the action is taken in response to industry representations, formal consultation with industry representatives has been deemed to be neither practical nor necessary. However, in the preparation of this supplementary regulation, consultation was held with individual industry representatives and consideration was given to their recommendations. In the judgment of the Director of Price Stabilization, this supplementary regulation is generally fair and equitable and is necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Ceiling prices for wooden mine materials.
3. Definitions.
4. Incorporation of GCPR provisions.

AUTHORITY: Sections 1 to 4 issued under Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950, Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation supersedes sections 3 through 5 of the General Ceiling Price Regulation with respect to all sales and purchases of wooden mine materials produced in the Western Area when sold for delivery and use in that area, and establishes new ceiling prices for such materials.

SEC. 2. *Ceiling prices for wooden mine materials.* The ceiling prices for sales and purchases of wooden mine materials produced in the Western Area when sold for delivery and use in mines within that area shall be 35 percent above the highest price the seller obtained on such materials during the period May 24, 1950 to June 24, 1950, inclusive.

SEC. 3. *Definitions.* When used in this supplementary regulation, the term:

(a) "Western Area" consists of the geographical area of the United States west of the 100th Meridian.

(b) "Wooden mine materials" means wooden props from which one or more of the following enumerated items are made to be used in mines: mine ties, switch ties, cross bars, cribbing, lagging, posts, caps, wedges, stull timber, pit posts and pit blocks.

SEC. 4. *Incorporation of GCPR provisions.* Except as herein specifically modified, all of the provisions of the General Ceiling Price Regulation remain in effect.

Effective date. This supplementary regulation shall become effective June 10, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JUNE 5, 1952.

[F. R. Doc. 52-6334; Filed, June 5, 1952; 10:42 a. m.]

[Ceiling Price Regulation 94, Collation 1]

CPR 94—SALES OF USED PASSENGER AUTOMOBILES

COLL. 1—INCLUDING AMENDMENTS 1–3

Ceiling Price Regulation 94 is republished to incorporate the texts of Amendments 1 through 3, inclusive. Ceiling Price Regulation 94 was issued November 15, 1951 (16 F. R. 11639). Statements of Consideration for Ceiling Price Regulation 94, and for Amendments 1–3, inclusive, as previously published, are applicable to this republication. The effective dates of this regulation, and of the amendments are shown in a note preceding the first section of the regulation.

REGULATORY PROVISIONS

Sec.
1. Sellers and sales covered by this regulation.
2. Ceiling prices established by this regulation.
3. Invoices and price tagging of used automobiles.
4. Adjustable pricing.
5. Petition for amendment.
6. Records.
7. Interpretations.
8. Prohibitions.
9. Less than ceiling price.
10. Evasions.
11. Definitions.

AUTHORITY: Sections 1 to 11 issued under Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

DERIVATION: Sections 1 to 11 contained in Ceiling Price Regulation 94, November 15, 1951 (16 F. R. 11639), except as otherwise noted in brackets following text affected.

EFFECTIVE DATES: CPR 94, November 20, 1951, 16 F. R. 11639; Amendment 1, December 17, 1951, 16 F. R. 12549; Amendment 2, January 30, 1952, 17 F. R. 807; Amendment 3, April 22, 1952, 17 F. R. 3454.

SECTION 1. *Sellers and sales covered by this regulation.* (a) This regulation applies to you if you sell a used passenger automobile in the United States or the District of Columbia, whether as a retail dealer, wholesaler, or as an individual. The provisions of this regulation supersede in their entirety, those provisions of Supplementary Regulation 5 to the General Ceiling Price Regulation covering the sale of used passenger automobiles.

(b) Definitions of terms used in this section and certain terms used frequently in this regulation, particularly, "used passenger automobile", "dealer", "model", "extra, special or optional equipment", will be found in section 11.

SEC. 2. *Ceiling prices established by this regulation.*—(a) Ceiling prices for the sale of used automobiles established by this regulation are set forth in Appendix A for the geographic regions specified. This appendix also specifies the amount that may be added to the price of the automobile for automatic transmissions or drives. Your ceiling price for any used automobile in the region in which you are selling the automobile is the price specified in Appendix A for that region for that make, model, line, or series and body style. It includes all standard equipment on the automobile, radio, heater, and other items of equipment except automatic transmissions or drives, or the air-conditioning unit specified in paragraph (f) of this section, when such equipment is installed on the automobile at the time the seller has received title to the automobile.

(b) You use the ceiling price established in Appendix "A" of this regulation for any used automobile through December 31, 1951. Beginning on January 1, 1952, you will find your ceiling price of any automobile listed in Appendix "A" in the following manner: (1) On January 1, 1952, you reduce the price listed by 2 percent, rounding the result to the nearest dollar, (2) on April 1, 1952, and on the first day of each calendar quarter thereafter, you reduce the ceiling price prevailing during the previous quarter by 2 percent, and round the result to the nearest dollar. However, if after the application of the depreciation factor the cents total is fifty cents, you round to the nearest even dollar, i. e., the nearest dollar, the last digit of which ends in an even rather than an odd number.

Example. (1) A 1950 Chevrolet Styline Special 4-door sedan in Region A is listed at $1,555.00. On January 1, 1952, the ceiling price will be 2 percent less than that price, or $1,523.90 which when rounded to the nearest dollar establishes a ceiling price of $1,524.00. On April 1, 1952 the ceiling price will be 2 percent less than $1,524.00 or the sum of $1,493.52 which when rounded to the nearest dollar establishes a ceiling price of $1,494.00. (2) A 1950 Studebaker Deluxe, CPE 3, in Region B is listed at $1,575.00. On January 1, 1952, the ceiling price will be 2 percent less than that price, or $1,543.50 which when rounded to the nearest even dollar establishes a ceiling price of $1,544.00.

[Paragraph (b) amended by Amdt. 1]

(c) Beginning on January 1, 1952, you find your ceiling price for the items of extra, special or optional equipment that may be added to the price of the used automobile by reducing the sum specified in Appendix A for those items at the same rate as that established for the used automobile, as set forth in paragraph (b) of this section. The net sum as determined under this section will be rounded to the nearest dollar. However, if after the application of the depreciation factor the cents total is fifty cents, you round to the nearest even dollar, i. e., the nearest dollar, the last digit of which ends in an even rather than an odd number.

[Paragraph (c) amended by Amdt. 1]

(d) Appendix A lists models for the years 1940 to 1951 inclusive. If the used automobile is older than the oldest model of that make shown in the Appendix, the ceiling price of the automobile is the ceiling price of the oldest model of that make listed in the Appendix.

(e) The ceiling price for any model automobile subsequent to the 1951 model, when sold as a used car, is the ceiling delivered price of the automobile when new in the region where it is sold including the price of any item of extra, special or optional equipment that is on the car, until a ceiling price therefor is established by amendment to Appendix A of this regulation.

(f) You may add to the ceiling price of the used automobile the ceiling price of any compressor type, refrigerated air-conditioning unit installed in a used automobile. You determine the ceiling price of such unit by depreciating the retail list price of such unit by 15 percent, and for each calendar year after the year during which it was installed, by 10 percent of the depreciated price of the preceding year. On January 1, 1952, and on each January 1 thereafter you reduce the price of the preceding year by 10 percent. The year in which the unit was installed will be presumed to be the year during which the automobile was first sold, unless the dealer can show by invoice the actual date of installation.

(g) You may disregard the ceiling prices established in Appendix A to this regulation on an automobile traded in for a new or used automobile, except that you may not allow a sum greater than the ceiling price of the new or used automobile for which it is being traded in.

(h) If the Appendix to this regulation does not list any make of used automobile, or if the used automobile has been substantially modified from its original design by the addition of a special body or engine, the seller may apply in writing to the appropriate District Office of the Office of Price Stabilization, for the establishment of a ceiling price. The application for a ceiling price of a modified automobile should describe the special body or engine, and contain the date of manufacture and installation, a statement showing the purchase price or cost of manufacture of the special body or engine, the installation cost and the proposed ceiling price.

(i) The ceiling prices set forth in Appendix A shall become effective on December 31, 1951. Until that time your ceiling price for any used automobile (including extra, special, or optional equipment) shall be the price that was your ceiling price on the date of the issuance of this regulation.

[Subdivision (i) amended by Amdt. 1]

SEC. 3. *Invoices and price tagging of used automobiles:* (a) If you are a dealer, you must on and after January 1, 1952, attach a tag or label to each used automobile displayed or offered for retail sale, stating thereon the make, model, line or series and the ceiling price of the automobile, including any extra, special or optional equipment thereon. This ceiling price shall be the one prevailing on the date the automobile is offered for sale. The tag or label may also bear the price at which the automobile is being offered for sale.

[Paragraph (a) amended by Amdt. 1]

(b) Whenever you sell a used automobile at wholesale or retail, on and after January 1, 1952 you must prepare an invoice in duplicate, one copy of which shall be given to the purchaser within 7 days and the other copy you must retain in your records. This invoice shall set forth the following information, unless any item of the following information is contained in any other document delivered to the customer within 7 days from the date of sale.

(1) Date of sale.

(2) Make of automobile, model, body style, line or series and the extra equipment thereon for which a charge is made.

(3) Motor number and serial number.

(4) The ceiling price of the automobile.

(5) Price for which the automobile is being sold.

(6) Finance charges, name of finance company.

(7) If a used automobile is traded in as part payment for a used automobile the invoice shall show the following information with respect to the car traded in:

(i) Make of automobile traded in, model and body style and optional equipment thereon.

(ii) Allowance made on the trade in.

(iii) Motor number and serial number.

[Paragraph (b) amended by Amdt. 1]

SEC. 4. *Adjustable pricing.* Nothing in this regulation shall be construed to prohibit your making a contract or offer to sell an automobile at the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver a commodity at a price to be adjusted upward in accordance with any increase in the ceiling price after delivery.

SEC. 5. *Petition for amendment.* If you wish to have this regulation amended you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1.

SEC. 6. *Records.* (a) The provisions of the General Ceiling Price Regulation are hereby continued in effect insofar as they apply to the preparation and preservation of such "current records" as you were required to make as a result of sales between January 26, 1951, and the effective date of this regulation.

(b) You shall preserve and keep for inspection by the Director of Price Stabilization for two years the invoices required to be retained in section 3 of this regulation and copies of any other documents delivered to the purchaser containing the information listed in section 3, and all other records showing the prices at which purchases and sales of commodities subject to the regulation have been made.

SEC. 7. *Interpretations.* If you have any doubt as to the meaning of this regulation, you should write to the District Counsel of the proper OPS District Office for an interpretation. Any action taken by you in reliance upon and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1.

SEC. 8. *Prohibitions.* You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically (but not in limitation of the above), you shall not, regardless of any contract or other obligation, sell, and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling price established by this regulation, and you shall keep, make, and preserve true and accurate records and reports, required by this regulation. If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and action for damages.

SEC. 9. *Less than ceiling price.* Nothing in this regulation prevents the charging, offering or paying prices less than ceiling.

SEC. 10. *Evasions.* (a) Any means or device which results in obtaining indirectly a higher price than is permitted by this regulation or in concealing or

falsely representing information as to which this regulation requires records to be kept is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

(b) The following are specifically, but not exclusively among the means and devices prohibited by paragraph (a) of this section and are itemized here only to lessen the frequency of interpretative inquiries which experience indicates are likely to be made in this industry under the general evasion provisions:

(1) Requiring the purchaser as a condition of sale to make payment over a period of time, or to finance the purchase through any particular lending agency.

(2) Requiring the purchaser to purchase extra, special or optional equipment, accessories, parts or services or any other commodity in order to receive delivery of a used automobile.

(3) Requiring the purchaser or any other person to trade in or otherwise transfer to the seller or his designee an automobile in order to obtain delivery on a used automobile whether as part of the same transaction or as a separate transaction.

(4) Granting less than a reasonable allowance for automobiles received in trade.

(5) Renting or leasing a used automobile under a rental contract with an option to buy at an agreed valuation which, together with the amount paid for the rental, is higher than the applicable ceiling price of the used automobile plus any services rendered during the period of rental at the time the rental contract is entered into.

SEC. 11. *Definitions*—(a) *Automobile.* (1) A "passenger automobile" is an automobile designed primarily for the carriage of passengers, whether intended for private, commercial or other use, including its standard equipment, having a seating capacity of less than 11 persons, and propelled by an internal combustion engine.

(2) "Used automobile." A used automobile is an automobile which has been sold at retail. Used automobile and used passenger automobile are interchangeable in this regulation. A demonstrator or dealer owned executive car is a used automobile if the model is not currently being sold by the manufacturer or was not sold by the manufacturer within the preceding 4 months. The term "used automobile" includes an automobile sold to a dealer in used automobiles or used automobile parts for rebuilding or recovery of parts, but does not include an automobile sold to a dealer in iron or steel scrap, primarily for demolition for scrap, or to a consumer of iron or steel scrap.

(3) "Make" of an automobile indicates the manufacturer thereof, and bears the manufacturer's trade or brand name. A manufacturer may produce more than one "make", in which case different trade names are used to differentiate the several makes.

(4) "Line or series" refers to a subgroup of a make bearing a title, trade name, or other classificatory designation.

(5) "Body Style" means one of the various body types used in any line or series of each make of automobile.

(6) "Model" refers to the year in which the automobile was produced or its year designation.

(b) *Dealer.* A "dealer" is any person who is generally engaged in the business of selling used automobiles at wholesale or retail. The term includes a salesman or a person financially interested in the dealer's business.

(c) *Director of Price Stabilization or Director.* These terms also apply to any official (including officials of regional or district offices) to whom the Director of Price Stabilization by order delegates a function, power or authority referred to in this regulation.

(d) *Displayed or offered for retail sale.* An automobile is "displayed or offered for retail sale" if it is exhibited to the public in the display area or showroom of a dealer or if it is shown or offered to one or more prospective purchasers in a part of the premises other than the normal display area or showroom or in any other location.

(e) *Extra, special or optional equipment.* This term refers to any equipment which the manufacturer did not class as standard on the date of the issuance of this regulation, and which is sold by the manufacturer of the automobile.

(f) *Reasonable allowance.* This term means an allowance for a used automobile which is traded in on a new or used automobile. The allowance must be fairly related to the current market value of the used automobile.

(g) *Sales.* (1) A "sale at retail" means any sale to an ultimate user.

(2) A "sale at wholesale" means any sale to a reseller.

(3) "Sale" or "sell." This term includes sell, supply, dispose, barter, exchange, transfer and deliver, and contracts and offers to do any of the foregoing. The term "buy" and "purchase" shall be construed accordingly.

(h) *Standard equipment.* This term refers to any equipment which the manufacturer classes as standard on the date of the issuance of this regulation.

(i) *You.* "You", means the person subject to this regulation. "Your" and "yours" are construed accordingly.

Effective date. This regulation shall become effective November 20, 1951.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization,

By: JOSEPH L. DWYER,
Recording Secretary.
